# THE Commercial & Financial Chronicle

Entered according to Act of Congress, in the year 1893, by the WILLIAM B. DANA COMPANY, in the office of the Librarian of Congress.

VOL. 68.

SATURDAY, JANUARY 7, 1899.

NO. 1750.

## CLEARING HOUSE RETURNS.

For the month of December the clearings are the heaviest on record for any month. All but nineteen of the cities included in our statement show gains over the corresponding month of 1897, and in the aggregate for the whole country the excess reaches 23.4 per cent. For the twelve months the increase over the same period of a year ago is 20.2 p. c.

On subsequent pages of the CHRONICLE we print to-day—

1. Our usual annual review of the events and incidents of the year.

2. Elaborate tables of prices of stocks, bonds and all other securities.

In our QUOTATION SUPPLEMENT (which accompanies the CHRONICLE) we give to day—

1. Sales for the twelve months of each bond, as well as of each stock, dealt in on the Exchange.

2. Highest and lowest prices for the year (with dates) for each stock and bond.

On account of the pressure on our columns occasioned by the large amount of extra matter, it has been found necessary to contract very decidedly the space devoted to the editorial and other departments of the paper.

### THE FINANCIAL SITUATION.

After the large and continued advance in prices during recent weeks and months, especially in industrial stocks, it is no surprise that the new year should have opened on an irregular and variable market. The first of January is an epochal point, suggestive not only of new ventures undertaken, but likewise of old ones inspected. In the work of inspection the banker and the speculator may not in all cases take equally sanguine views, a difference which might lead to a security being turned down and the holder finding it desirable to sell. Many too in the past month or more have been buying to supply the investment demand, always a factor at the beginning of a new year and a sure reliance not long ago, when comparatively few anticipated it. But with easy money and the whole Street and investors too parties to the same endeavor, the yield is not so satisfactory, the effort of a larger number to supply a smaller public naturally tending to make prices a little ragged.

As a further source of irregularity there have been certain conditions active in London and Paris and in Berlin which as the year opened have unfavorably affected the European demand for our securities. According to current rumor, relations between Great Britain and France took an alarming turn, producing weakness on the London Exchange and the Paris Bourse. Berlin was less affected by these rumors, but the monetary conditions there of late have discouraged operations here. It appeared also early in the week quite probable that our army would have trouble with the insurgents in obtaining possession of the Philippine Islands. Later reports indicate less tension, and it is thought that President McKinley's proclamation just sent to and made public in the Philippines and now published here will satisfy the better class and disintegrate the insurgent forces. But evidently the present attitude is a delicate and difficult matter to deal with. Our own people, however, are satisfied that the same good judgment that is bringing order and business development out of the apparent chaos in Cuba will be equally successful in settling the more involved state of affairs in the Philippines. Like confidence in a pacific arrangement with these disorderly elements is not of course everywhere felt in Europe; and it is supposed that the Continent hardly wishes us success in the endeavor. However that may be, so long as the hostile attitude of the insurgents in the Philippines continues unchecked, it can hardly fail to be a source of more or less mis-

trust in the high values of American securities among at least Continental operators.

It is certainly remarkable that notwithstanding the presence of set-backs like those we have mentioned, coming after a very rapid and long-continued advance in railroad securities and a more rapid advance in a large class of newly-introduced industrial stocks, that as the week closes so little impression is found to have been made on prices. The selling has been extremely active, the transactions enormous, but buyers have been found to take the offerings, and as a rule prices have yielded very little; in many cases even a material advance has been established. All this only gives emphasis to the prevailing features of our business environment we have so repeatedly mentioned, that is the strength of our financial and industrial situation, the promising progress made during so many months in industrial affairs and to-day still developing, and the large supply of home capital accumulated during our years of depression which, now that confidence is restored, is seeking investment. Easy money is of course a favoring condition and speculation is a large element. The latter can never be eliminated and the former appears to be assured. The announcement of gold exports from London to New York this week would seem, with the other conditions already affecting the market and favoring an abundance of loanable funds, to put the question of easy money for the coming six months beyond doubt. It will be remembered that the movement of gold started last year in January, but the amount was not large until March.

A suggestive feature of the foreign exchange market is the remarkable steadiness recently of sixty-day bankers' sterling; no change has taken place since December 20th, notwithstanding that in this interval, and indeed for a long time previous to the date stated, offerings of commercial bills against cotton, grain and provisions have been very plentiful. The reason for this apparent anomaly is the limitations existing to the amount of bankers' sterling outstanding and the almost constant demand for those bills for investment either for new operations or for the exchange of maturing or running-off bills. But, it will be asked, if commercial bills are so plentiful why should bankers' 60-day sterling be limited and not also be equally plentiful? That question brings to the surface the dual character of the present transactions in exchange; for there are two movements actively at work now, both of which are vehicles for loaning our net foreign trade balance to Europe. One of these is through the sales for investment of the sixty-day bankers' sterling bills; but, as we said, conditions limit the amount of these drafts. For illustration, it is quite conceivable that bankers here who are engaged in investment operations might find it somewhat difficult profitably to carry in our market very large amounts of long bankers' sterling, since the increased offerings would naturally tend to advance the carrying charges and thus reduce the profit of the interest account on the investment operation. Then again it is also presumable that drawers of exchange might not care to maintain the volume of their sixty-day sterling drafts outstanding beyond a certain average amount; in that case, after having put out as large a line of bills as they cared to maintain, they would thereafter limit the drawing of these bills to the exchange for running-off bills as they matured.

The foregoing affords an explanation of the statement that there are now only about \$50,000,000 of these drafts outstanding; precisely the same amount was given as the limit by leading bankers a month ago. We have no doubt that 50 millions is an approximately correct estimate. But that amount by no means includes all the deferred obligations. There is another class of operations that presumably involves a much larger volume, the real amount of which cannot be estimated. We refer to documentary commercial bills sent forward in various ways and through various channels. One method is to have them rebated immediately after their arrival in London at one per cent under the Bank of England rate, and the proceeds loaned in the London market instead of being drawn against, as doubtless would have been the case under normal conditions of the market. In a somewhat similar way commercial bills have been from time to time absorbed at various distributing centers throughout the country, and sent forward either to London or to the Continent for collection, the proceeds of which have been loaned at the European financial centers at rates sufficiently remunerative to justify the operation. These facts indicate that the movement of gold into the United States can be delayed just as long as these various expedients prove profitable. Very likely it was the drop in discount rates at London this week that induced the gold shipments to New York announced on Thursday.

There was less than the usual disturbance to the market for money this week incident to the January settlements. At the same time it is noteworthy that these were almost unprecedentedly large. The disbursements likewise must have been promptly made, as is evident from the enormous exchanges at the Clearing House on Wednesday of \$315,236,782 70, balances being \$17,163,312 18. These amounts are entirely unprecedented in the history of the Clearing House. The largest transactions previously recorded were: Exchanges, \$288,555,981 58, on February 28 1881, and balances \$17,009,341 08, July 2 1898. The preparations for the January settlements were completed early in the previous week, and the resulting accumulations were liberally loaned on call after Wednesday, causing a fall in rates to 2 per cent on Friday, as stated in this column last week, though on that day borrowers were required to make provision until Tuesday of this week. The checks in payment of dividends and interest were doubtless nearly all distributed in Tuesday's mail, and had it not been for the calling of about \$9,000,000 under the Baltimore & Ohio reorganization plan, there would in all probability have been not the least derangement of the money market on that day; and even with this call the rate only momentarily touched 6 per cent. Thereafter for the remainder of the week the supply of money was comparatively abundant, and rates gradually reached a lower level. In addition to the payment of about \$5,500,000 interest on Government bonds, \$1,000,000 of which was paid here, the Treasury paid the outstanding currency 6s, amounting to \$12,661,000; a large block of these bonds was already held by the Government as security for deposits and circulation.

Money on call, representing bankers' balances, has loaned during the week at the Stock Exchange at 6 per cent and at 2½ per cent. The higher rate was

momentarily recorded on Tuesday, immediately after which the rate fell to 2½ per cent, and the bulk of the business was at 3@3½ per cent. On the following day and on Thursday the range was from 3 per cent to 2½ per cent, with the majority of the loans at 3 per cent. On Friday the range was from 6 per cent to 2½ per cent, and the bulk of the business was at 2½ per cent. In the last half hour there was a loan for a small amount at 6 per cent, followed by loans at 3 per cent. The average for the week has been about 3½ per cent. Banks and trust companies generally quote 3 per cent as the minimum. Time contracts are liberally offered by all lenders, the inquiry is small, and the indications point to an early reduction in rates. Quotations are 2½ per cent for thirty to sixty days and 3 per cent for ninety days to six months on good Stock Exchange collateral. The supply of commercial paper is increasing. The demand is, however, good, not only from city buyers but from the East and also from somewhat remote cities in the West. Rates are unchanged at 3 per cent for sixty to ninety-day endorsed bills receivable, 3½@3¾ per cent for prime and 4@5 per cent for good four to six months single names. The tendency is toward ease and an early reduction in rates is expected.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety day bank bills in London, 2½@2¾ per cent, against 3½ per cent last Friday. The open market rate at Paris is 3 per cent and at Berlin and Frankfurt it is 4½ per cent, against 5½ per cent last Friday. According to our special cable from London the Bank of England gained £1,002,982 bullion during the week and held £30,340,823 at the close of the week. Our correspondent further advises us that the gain was due to the import of £264,000 from Germany and to the receipt of £739,000 net from the interior of Great Britain.

In the foreign exchange market the supply of commercial bills against cotton, grain, provisions and other commodities continues large and considerable amounts of these bills were received on Tuesday, the accumulations since Friday of last week, but they seem to have been promptly absorbed. The fall, early in the week, in London and German discount rates appeared to have had little influence upon the market except to slightly stimulate the demand for short sterling and cable. The buying of seventy-day bills for investment has temporarily, at least, been suspended. On Wednesday and Thursday francs were higher in consequence of the decline in rates for exchange at Paris on London. It was announced on Thursday that Lazard Freres had \$1,000,000 and Müller, Schall & Co. \$500,000 gold on the steamer Germanic, which sailed for this port on Wednesday. The gold was obtained in London. Lazard Freres this week shipped \$500,000 American gold coin to Havana. Nominal rates for exchange remain unaltered at 4 82½ for sixty-day and 4 85½ for sight. Rates for actual business opened on Tuesday unchanged compared with those on Friday of last week, at 4 81¾@4 82 for long, 4 84¼@4 84½ for short and 4 85@4 85½ for cable transfers, and there was no change thereafter; and though on Thursday some bankers quoted fractionally higher rates for long sterling, these quotations were not maintained at the close. On Friday the tone was steady, with rates for

actual business 4 81 $\frac{3}{4}$ @4 82 for long, 4 81 $\frac{1}{4}$ @4 81 $\frac{1}{2}$  for short and 4 85@4 85 $\frac{1}{2}$  for cable transfers. Commercial on banks 4 81 $\frac{1}{4}$ @4 81 $\frac{1}{2}$  and documents for payment 4 80 $\frac{1}{2}$ @4 81 $\frac{1}{2}$ . Cotton for payment 4 80 $\frac{3}{4}$ @4 81, cotton for acceptance 4 81 $\frac{1}{4}$ @4 81 $\frac{1}{2}$  and grain for payment 4 81 $\frac{1}{4}$ @4 81 $\frac{1}{2}$ . The following shows daily posted rates for exchange by some of the leading drawers.

### THE INDUSTRIAL STOCKS.

It cannot have escaped the notice of readers of these columns that the interest of current speculation has converged very largely on the so-called industrial shares; particularly on those which have been recently floated on the open markets. Even the common stock of some of these properties, whose very existence was unknown three months ago, had risen 20 to 25 points before the close of 1898; in all of them an enormous amount of the securities has changed hands. It seems too that we are only at the beginning of this movement. Judging from the accounts in our daily journals almost every industry of any prominence is being put into a similar shape. On a subsequent page, in the introduction to our "Retrospect of 1898," we give a table showing that the capital authorizations of the industrial corporations that first came into prominence or were organized during the past year reached nine hundred and sixteen million dollars. This does not include any company prominent before 1898, and of course does not cover any of the numerous organizations now in progress of formation, or the larger number still that have been announced as in contemplation.

It is not our purpose to decry these properties. We have no wish to cite objections to them. A few years ago there was a sudden and vigorous popular crusade against the trusts. It is a somewhat curious fact that, whereas the trusts were not once mentioned as an "issue" either in the Presidential platforms of 1884 or the State electoral platforms of 1886, they figured in a separate and important "plank"

in every political platform of 1888. But not less curious than the sudden appearance of this "issue" in politics was its equally sudden disappearance. It might have been supposed that in 1896, if ever, the "trust question" would have been forced forward into prominence. Yet not one of the half dozen national conventions of that year undertook to lay an "anti-trust plank" before the public. So far as we are aware, no allusion whatever was made to the trust problem as a political issue in the 1898 State platforms of either party throughout the Union.

We do not believe that this sudden vanishing of a seemingly urgent politico-financial issue is a matter of accident, a mere whim on the part of a fickle constituency. On the contrary, it seems to us that the attitude of these political bodies proves that shrewd observers have discovered these great industrial combinations to be a somewhat different phenomenon, subject to somewhat different economic laws, from what had been at first supposed. It has been pretty well demonstrated, for instance—and in this fact we find some explanation of the waning political antipathy—that the "trusts," whether under their old form and name or under the new, have not increased the prices of commodities. Instead of this, they have very generally sold goods cheaper than the market prices before the combination.

If we are not mistaken, the majority of intelligent economists also have come to recognize the trade combinations as an inevitable outgrowth of two noteworthy phenomena of our time—the vigor of industrial competition, forcing down the margin of profit to a very low average, and the accumulation of capital, making it possible to unite rival establishments through purchase of control, and then to experiment on the wholesale introduction of economies. In no other way, it seems to us, can the phenomenal spread of these organizations, even when public opposition and legal obstacles were most formidable, be explained.

But when all this is conceded, the fact remains that the question of the industrial combinations, financially speaking, is an exceedingly doubtful problem in the general situation. Twelve years would probably cover the period within which all of these organizations, with one or two conspicuous exceptions, have been before the public. This is a short time for a revolutionary experiment in trade. Within this period several of the organizations have been bankrupted; others have passed into serious financial straits which were narrowly escaped. It is entirely true that the lessons of the collapses of 1893 and 1894 have not been neglected, and that the mistakes disclosed are likely to be avoided in the future. But it is a no less obvious fact that the failures in this direction arose as much from mistakes of individual policy as from peculiarly embarrassing trade conditions. Neither danger can be wholly escaped in the future. Not only is there opportunity or misjudgment in the relations of the amalgamated company to the money market, to the market for raw material, and to the market for finished goods, but such highly intricate questions must constantly be solved as the proper valuation for competing mills which are to be acquired, and the decision between destructive competition with an aggressive rival and peace at the rival's price. When such questions confront corporations whose capital in some cases rises to upwards of one hundred million dollars, it will be seen that no simple problem is in the course of solution.

We have spoken of the accumulation of capital as one potent factor in the extension of these industrial combinations. It will be very evident how strikingly, this being the case, the organization of such enterprises adapts itself to the existing situation. Every one knows the peculiar position of American capital at the present time. Our fortunate trade of the last three years, and our equally fortunate economies as a people, have made the United States, for the time, richer in available funds than at any previous epoch in its history. Simultaneously, it has been discovered that the field of available investments has not widened along with the new supplies of capital. American investors have had several generations of experience with domestic railway enterprises, and in our previous history the organization of new lines and the extension of lines already in the field created such continuous demand for outside capital as to provide a ready outlet for a surplus. This branch of investment not only has not increased with the current increase of available capital, but it has absolutely decreased. As against the 11,569 new miles of railroad laid in this country during the prosperous investment year 1882, and the maximum of 12,878 in 1887, barely 3,000 miles were laid even in 1895. As a perfectly natural result of this decrease in the new supply along with increase in new demand, prices for shares and bonds of all sound railway enterprises have reached such figures as to afford the narrowest margin of return to the investor.

It is not then at all surprising that promoters of industrial combinations should be hastening to place their shares in the open market. It is not remarkable, human nature being what it is, that prices for the shares of such properties should have at once advanced. But a wise foresight will recognize the elements of danger in such a situation while they are not imminent. The very uncertainty of earning power, and the very ignorance of week-to-week conditions, which tempt the speculative investor to buy shares of such properties while the entire financial prospect is pleasing, will send his holdings back upon the open market at an occasion of reverse. We all know what happened to a somewhat similar kind of speculation in the spring of 1893; it is a matter of still more recent history what occurred in the English markets when a change in the general situation found the public in possession, at inflated values, of a huge mass of mining and exploration companies, bought in an hour of infatuation, with the dimmest possible conception of their actual worth.

We do not claim that there exists any close analogy to these occurrences. No one denies the fact that 1899 opens with a far different outlook from 1893 in America or 1895 in Europe. There is not, in our opinion, any immediate peril, such as we have referred to, confronting the situation at present; nor do we question the intrinsic value of a great part of the securities of these new enterprises, either domestic or foreign. But many of the industrial shares were valuable five years ago, and the "Kaffir shares" were not worthless when their collapse demoralized the European markets. The danger which we hope may be avoided by early attention to its weaker features is the danger into which outside capital ran on these previous occasions: of placing its money indiscriminately during a period of rising prices in enterprises whose current profits and actual assets were practically unknown to it. Financial history records no episode of this kind which has escaped the penalty.

### RETROSPECT OF 1898.

The improvement in affairs noted in 1897 made further decided progress during 1898, and the year was one of growing activity and rising prosperity. Four leading conditions may be said to have controlled the course of affairs: (1) Further victories for sound money, (2) good crops, (3) unprecedented exports of merchandise, and (4) a successful foreign war. There were some other noteworthy features, such as easy money, large gold imports and low foreign exchange rates. But these were simply attendant circumstances. They followed from the revival of confidence and the phenomenal trade balance recorded in our favor.

In some respects the closing month, December, was the most auspicious of the whole year. Elation and buoyancy were then all prevailing. Such leading industries as the cotton goods trade, which had previously lagged behind, now fell in line with the general improvement. The year was noteworthy all through for the many new high records established in every direction, indicative of the growth and expansion in progress. In the rising tide, each month seemed to carry the movement one stage further in advance, so that aggregates previously unexcelled were again and again surpassed. But December out-distanced even the most striking of its predecessors. To give only a few illustrations, never previous to December 1898 had the bank clearings either for New York or for the whole country for any month of any year been of such extraordinary proportions; never before had the deposits of the Clearing House banks reached such dimensions; never before had the monthly stock sales or the monthly bond sales on the New York Stock Exchange mounted so high; never before had iron production been on such an unexampled scale.

There were what might be called two pauses in the revival during 1898, two occasions when there was hesitancy and a tendency to halt. The first was during the period preceding the outbreak of hostilities with Spain, but when war was seen to be imminent. Had the straggle been less one-sided, the hesitancy in trade circles might easily have developed into positive reaction, and possibly been succeeded by a recurrence of business prostration. As it was, the war was such a short-lived one, and was marked by such brilliant and overwhelming victories, its influence as a depressing agency soon passed away, and it became instead a powerful added stimulus to trade revival.

The second occasion when the onward march of trade was momentarily arrested came later in the year. It served to show in a striking way the importance attached by the business community to the money question as an element in the situation. The war had been marked, as stated, by a series of brilliant victories. American arms had triumphed everywhere, and peace negotiations were under way which could not but terminate satisfactorily and to our advantage, since they were conducted with a fallen and prostrate foe who had no alternative but to accept our terms. At the same time all the other favorable elements were present which throughout the year had constituted such a feature in affairs. Yet there was a disinclination to enter upon new ventures, and those three great industries—cotton goods, woolen goods and leather—were found to be in a very unsatisfactory shape, with the demand insufficient to absorb even a restricted production.

The pause was occasioned by the near approach of the elections, when the silver issue, forlorn cause, was again hoping to win popular support. There was never any doubt as to the outcome. The trend of popular opinion had been made evident enough early in the year at the election in Oregon in June, when the Republicans, on an unequivocal gold money platform, routed the combined opposition fused under the silver banner. But the war developed some serious abuses in the management of the army, there was much dissatisfaction thereat, and some of the advocates of the Chicago platform were foolish enough to think their candidates could float into power on this wave of discontent.

The elections, when they came, dispelled all illusions. The Silver Party was now in a hopeless minority. Its weakness was most pronounced in its former strongholds—the agricultural sections in the West. The Administration or Sound-Money Party not only retained full control of the Lower House of Congress, but made such tremendous gains as to ensure for it after the 4th of March 1899 the United States Senate by a majority which would defeat further attempts on the part of the mischievous silver element in that body to block currency reform legislation. It was then that all the fetters on trade dropped away, and that genuine enthusiasm and buoyancy developed.

Financial tranquillity, by which we mean freedom from financial disturbances, was one of the distinctive features of the year. This is more notable than at first sight may appear. For it must be remembered that the country passed through a period of foreign war, and that the Government floated a two hundred million dollar loan, both events calculated to derange the financial markets if otherwise there were elements of weakness. But the money market was practically unruffled all through. In only two months did the call loan rate touch 6 per cent, and then only temporarily, and at no time did it get above that figure. The stock market experienced a sharp break during the period preceding the outbreak of war, and for a time preceding and succeeding that event investment business and dealings in municipal securities came almost to a standstill, which was natural considering the many uncertainties which war involved. But there was a complete absence of panicky incidents of any kind in any of the markets.

Among the contributing causes to the trade revival and renewal of prosperity, foremost place must be assigned to the marvelous state of our foreign trade and the extraordinary credit balance in the country's favor. For the fiscal year ending June 30 1898 the excess of merchandise exports over merchandise imports reached no less than 615 million dollars. This was not only wholly unexcelled, but was double the largest balance reached in the most striking of previous years. The amount was regarded as entirely exceptional, and not likely to be repeated, for two distinct reasons—first, because the exports were based on high prices for breadstuffs, and these prices having declined it was supposed the total of the merchandise exports must necessarily contract; and, secondly, because the merchandise imports in 1897-8 had been unusually small by reason of large anticipatory imports in the previous fiscal year, induced by tariff legislation. But the results for the calendar year 1898 will show a balance equally if not more noteworthy. Imports did not increase to any great extent, and the exports instead of falling

off actually further increased. The breadstuffs exports declined, just as expected. The quantity sent out was maintained at the striking figures of the previous year, but values were lower; in the item of wheat the collapse of the Leiter corner last June completely changed the situation, and the average export value of the shipments in the last half of 1898 was not far from 20 cents per bushel lower than for the last half of 1897. But the loss in the breadstuffs values was more than made good by a further decided growth in our exports of manufactured goods.

This expansion in our exports of manufactures has been one of the most striking and the most significant features of our industrial development. As usual, the period of depression through which the country has passed is seen to have been not without attendant benefits, having forced upon manufacturers economies under which they are able to produce goods more cheaply than ever before. It is this circumstance that has opened to them the markets of the world. It is noteworthy, too, that notwithstanding all the activity and buoyancy that developed during 1898, the advance in prices of goods and commodities was only moderate. As the direct outcome of the efforts at economy, the year is distinguished as no other year for the number and magnitude of the industrial combinations that were formed in all lines of trade. In order to furnish an idea of the extent to which the movement has progressed, we have compiled the following table showing the companies of that class that came into prominence or were organized during 1898. The list does not, of course, include any of the older concerns, like American Sugar Refining, American Tobacco Co.

Name of Company.	Authorized Capital.	
	Stock.	Bonds.
American Caramel Co.....	\$1,500,000	
American Hard Rubber Co.....	2,500,000	
American Hay Co.....	5,000,000	
American Linseed Oil.....	33,500,000	
American Malting Co.....	30,000,000	
American Fisheries Co.....	10,000,000	
American Pipe Foundry.....	2,000,000	1,500,000
American Potteries Co.....	27,000,000	
American Steel & Wire Co.....	24,000,000	
American Thread Co.....	12,000,000	8,000,000
American Tin Plate Co.....	150,000,000	
American Wood Working Machinery Co.	4,000,000	
Atlantic Snuff Co.....	10,000,000	
A. Booth & Co. (lake fisheries).....	5,500,000	2,000,000
Cambria Steel Co.....	16,000,000	1,000,000
Cleveland & Sandusky Brewing Co.....	8,000,000	8,000,000
Consolidated Gas Co. of Pittsburg.....	11,500,000	5,000,000
Continental Tobacco Co.....	175,000,000	
Farm & Dairy Product Co.....	15,000,000

International Heater Co. (furnaces).....	1,800,000	
International Silver Co.....	20,000,000	14,500,000
Marsden Co.....	50,000,000	
National Biscuit Co.....	55,000,000	
National Shear Co.....	3,000,000	
New York Gas & El. L. Heat & Pow. Co..	25,000,000	
Otis Elevator Co.....	11,000,000	
Pennsylvania Manuf'g Light & Power.....	15,000,000	
Standard Distilling & Distributing.....	24,000,000	
Torrington Needle Co.....	3,000,000	1,000,000
United States Envelope Co.....	4,500,000	2,000,000
Union Carbide Co.....	5,000,000	
Union Switch & Signal Co.....	2,000,000	500,000
Union Tobacco Co.....	10,000,000	
United Breweries Co. of Chicago.....	5,163,000	3,413,000
Virginia Carolina Chemical Co.....	12,000,000	
Total .....	\$873,283,000	\$42,913,000

\* Only \$99,000,000 issued thus far. † \$38,500,000 issued. ‡ Present issue \$15,250,000 stock and \$3,150,000 bonds. § \$40,000,000 issued. ¶ Present issue \$60,000,000.

The railroads shared in the general prosperity. They had a large volume of traffic, and their facilities were severely taxed. In the West this brought further gains in earnings after the striking improvement in the previous year. These expanding revenues were the foundation for the large appreciation in the values of their securities on the Stock Exchange. East of Chicago the gains in revenues were very light as a rule, owing to the further great demoralization in rates which occurred. The U. S. Supreme Court in October followed up its decision of the previous year in the Trans-Missouri freight cases by

declaring the Joint Traffic Association illegal, and this ended all chance of maintaining rates by agreement.

Below we bring together some general statistics for 1898 and 1897, affording an interesting contrast between the two years. The data for 1898 are necessarily largely estimates, as the year has only just closed. The same table is incorporated in our annual "Financial Review," and there the 1898 figures will appear in their final corrected form.

GENERAL SUMMARY FOR TWO YEARS.

	1898.	1897.
Coin and currency in U. S. Dec. 31..\$	2,159,019,124	1,955,236,318

\* Approximations; Agricultural Bureau figures not yet issued. † These are the old Pipe Line runs. § Net exports. ¶ For fiscal year ending June 30. † Estimates.

**JANUARY.—Current Events.**—Trade development continued to make satisfactory progress. Bank clearings for the country showed 33 per cent gain over the previous year. The report of the Monetary Commission of the Indianapolis Convention, containing the outlines of a plan for currency reform, was made public on the 3d. On the 6th a bill embodying the views of the Commission was introduced in the House of Representatives and referred to the Committee on Banking and Currency. On the 25th and 26th the Indianapolis Convention re-convened and unanimously approved the report of the Commission. In the U. S. Senate the Stanley Matthews resolution of twenty years before, declaring in favor of the payment of the obligations of the Government in silver, was revived. While the resolution was pending President McKinley on the 27th, in a speech at the dinner of the National Association of Manufacturers, declared that whatever might be the language of the contract the United States would discharge "all its obligations in the currency recognized as the best throughout the civilized world at the times of payment." The Matthews resolution was adopted in the Senate on the 29th by a vote of 47 to 32. The House on the 31st rejected it by a vote of 182 to 132. On the 17th Senator Wolcott, Chairman of the United States Bimetallic Commission, which the previous year visited Europe, announced in a speech in the Senate that he was about to retire from the Commission. A significant sign of the times, indicative of the decrease in interest rates, was the adoption of a three-per-cent-interest rate by the larger life insurance companies in the valuation of their policies and reserve; previously the basis had been four per cent. Cuban affairs at times had a momentary quieting effect. Early in the month there was rioting at Havana; on the 18th an attempt was made in the House of Representatives to attach a resolution recognizing the Cuban insurgents as belligerents as a rider to the Diplomatic and Consular Appropriations Bill, but the attempt was defeated. Later the assemblage of United States war vessels off the Florida coast and the dispatch of the warship Maine to Cuban waters created uneasiness, though it was announced that the Maine's visit was simply a friendly call. The cotton goods trade continued unsatisfactory, and at New Bedford the operatives struck against the reduction in wages announced the previous December; at Fall River and Lowell the reduction was accepted. Print cloths dropped still lower, to 2½ cents per yard, but recovered to 23 16 cents. Iron production continued on an unprecedented scale, the output January 1 being 226,608 tons per week. There was a sharp rise in the price of wheat, in face of the large holdings of Leiter, and the January option advanced from 97½ cents to \$1.09½, reacting to \$1.05½. President Dole of Hawaii came on a visit in the interest of the Hawaiian annexation treaty. In Europe the Dreyfus affair led to violence in the French Parliament and also caused anti-Jewish demonstrations in various parts of France. The engineers' strike in England was brought to a close after lasting many months. To relieve the monetary stringency in India and to avoid gold shipments from London the Legislative Council at Calcutta passed an Act allowing currency to be withdrawn in India on deposits of gold in the Bank of England, the exchange to be on the basis of 1s. 4d. for the silver rupee, but the scheme proved a failure—see CHRONICLE March 19, page 547.

**Railroad Events and Stock Exchange Matters.**—The stock market was somewhat irregular the early part of the month. The last week, on reports of a merger of the Lake Shore & Mich. Southern with the N. Y. Central, there was a general advance led by the Vanderbilt properties. New York Cen-

tral sold at 105½ on the 3d and at 119¾ on the 28th, and Lake Shore advanced from 170¼ on the 4th to 191¼ on the 29th. North West common rose from 119½ to 127 and Rock Island stock, on the offering of the new refunding bonds, from 89 to 91½. Stocks of roads in the Pacific Northwest were especially strong on notably large gains in earnings. Oregon Navigation common increased from 35½ to 53¾, Northern Pacific preferred from 58 to 69 and common from 20¼ to 28¾. The railroad bond sales on the Exchange were \$92,870,210, a monthly total which up to that time had been exceeded but once, namely in the period of the West Shore settlement in 1885, when the sales for October aggregated \$104,612,900. The Northern Pacific purchased a controlling interest in the Seattle Lake Shore & Eastern, and the New York Susquehanna & Western was bought by Messrs. J. P. Morgan & Co. in the interest of the Erie. As expected, the Central Pacific made default in the payment of the principal of the subsidy loan due January 1. The Union Pacific Reorganization Committee made its final payment to the United States Government for the Union Pacific main line. The Mobile & Ohio declared 1 per cent on its stock, the first dividend in its history. The International Paper Company, with a capital of \$45,000,000, to consolidate various paper-making concerns, was organized; also the National Biscuit Company, with \$55,000,000 capital, to consolidate the leading cracker companies of the United States; also the American Fisheries Company, with a capital of \$10,000,000. The Brooklyn trolley roads began running cars across the East River bridge. The Inter-State Commerce Commission issued an order continuing in force for another year a previous order, permitting the suspension of the long-and-short-haul clause on traffic to British Columbia.

**The Money Market.**—The money market again developed great ease. On the 5th the Union Pacific Reorganization Committee made its final payment of \$3,538,401 to the Government and the money all went into the Treasury. But the Government interest payments are heavy in January, and there was a large return flow of currency from the interior. The money holdings of the Clearing House banks increased from \$184,554,800 January 1 to \$216,230,500 January 29th and the surplus reserve from \$15,783,750 to \$35,639,450. The aggregate of the deposits for the first time passed the 700-million mark and January 29th were reported \$729,494,200; the previous July the 600-million mark had been passed for the first time. The Treasury on the 26th called 10 per cent of the U. P. money still held by the depository banks, and announced that further amounts of 10 per cent would be called each week thereafter. The Fourth National Bank on the 25th gave notice that from February 1 it would reduce the rate of interest allowed on deposits of interior institutions from 2 per cent to 1½ per cent. From 6 per cent temporarily reached on Monday, January 3d, rates for money on call on the Stock Exchange quickly declined to 3 per cent, and at the close the range was 1½ to 2 per cent. At bank some institutions accepted 1½ per cent as the minimum, but the majority quoted 2 per cent at the close. On times the rate declined to 2½ per cent for sixty to ninety days and 3 per cent for four to seven months. For commercial paper the closing rate was 3 per cent for sixty to ninety day endorsed bills receivable, 3¼ to 4 per cent for prime and 4 to 5 per cent for good four to six months single names.

**Foreign Exchange, Silver, &c.**—The foreign exchange market was influenced mainly by the changes in money rates, and by the investment demand for exchange. For actual business prices opened at 482¼ to 482½ for sixty-day bills, 484¼ to 485 for sight and 485¼ to 485½ for cable transfers. By the 10th rates were 482¼ to 483, 485¼ to 485½ and 487½ to 488½ for the three classes of bills. After that the course was downward. The investment demand kept long bills relatively much stronger than the other classes. At the close long bills stood at precisely the same figures as at the opening, but sight bills were one-quarter of a cent lower and cable transfers half a cent lower. An unusual feature was that documentary commercial bills at the close commanded the same price as prime commercial, which ordinarily sell half a cent higher. The Bank of England gained heavily in bullion, and the London open-market discount rate for sixty to ninety-day bank bills declined from 3 to 2¼ per cent, subsequently advancing again to 2¾ to 3¾. The Bank of Germany reduced its official discount rate from 5 to 4 per cent and the open-market rate at Berlin dropped from 3¾ to 2¼ to 2½ and at Frankfurt from 3¾ to 3 per cent. At Paris the outside rate continued at 2 per cent. Silver January 3 was 26¾d. per ounce and January 31 26 3-16d.

**FEBRUARY.—Current Events.**—The Cuban situation dominated everything during February. The developments were ominous. On the 8th the Cuban Junta made public a letter written the previous December by Señor Dupuy de Lome, the Spanish Minister at Washington, to Don Jose Canalejas, a Spaniard who at that time was on a special mission to America. The letter was a private communication and had been abstracted from the mails. It contained offensive reflections upon President McKinley and also statements indicating that the Spanish Government was not entirely sincere in the negotiations which it was carrying on for closer commercial relations with the United States. Señor de Lome admitted the authenticity of the letter and called his resignation to Madrid. Representations regarding the matter were made to the Spanish Government, which in a communication to

U. S. Minister Woodford at Madrid on the evening of the 16th officially disavowed De Lome's sentiments. On the evening of the 15th, before the De Lome incident had been closed, the U. S. warship Maine was blown up in the harbor of Havana, causing the death of 266 of the men and crew, besides the wounding of many others. Boats from the Spanish cruiser Alphonso XII, which was lying close by went to the rescue, and the Spanish populace and public officials gave many manifestations of sympathy and mourning, the victims being accorded an imposing funeral in Havana. But the disaster excited popular feeling in this country as no other event in recent years. A Naval Court of Inquiry was constituted to determine the cause. Spain asked for a joint commission of inquiry, but this our Government declined, though offering to assist her in any separate inquiry of her own. In the meantime the anxiety in the public mind grew intense, war being recognized as a possible outcome. Recognizing the dangers of the situation, the U. S. Senate now manifested a conservative disposition; a resolution similar to that rejected in the House of Representatives the previous month, proposing to attach a rider to the Consular and Diplomatic Appropriations bill recognizing the belligerency of the Cuban insurgents, received on the 23d in the open Senate (after a unanimous adverse report by the Committee on Foreign Relations) only 5 affirmative votes, against 51 negative votes. All the financial markets were much unsettled the last half of the month. Occurrences and events not relating to the Cuban situation attracted very little attention. The Republican Legislature at Albany passed resolutions censuring United States Senator Edward Murphy from this State for voting the previous month for the Teller free-silver resolution. A war on passenger rates to the Pacific Coast and Alaska broke out between the Canadian Pacific and the American lines, and the Interstate Commerce Commission suspended the operation of the long-and-short-haul clause in its application to competitive passenger business with the Canadian lines. Irregularities regarding loans to the amount of \$393,000 were discovered in the Chemical National Bank, and Cashier Quinlan's resignation was accepted. A further sharp advance occurred in the price of wheat. Some uneasiness was caused in England by reports of French movements in Africa, encroaching upon British territory. The Chinese loan for £16,000,000 went jointly to England and Germany.

**Railroad Events and Stock Exchange Matters.**—Before the Maine explosion the stock market evinced great strength and many stocks touched the highest points of the year up to that time. After that it broke badly. Towards the close of the month Europe put in some liberal purchasing orders, and this, with covering of short sales, caused a sharp upward reaction. North West. common sold at 130½ on the 11th and at 119½ on the 24th, Rock Island at 93¼ on 1st and at 81½ on 24th, while St. Paul common sold down from 96½ to 91½. Some issues of bonds also suffered severe declines. The total of the bond sales exceeded even the exceptional total of the previous month and amounted to \$94,877,500. The Burlington & Quincy increased quarterly dividend from 1 per cent to 1¼ per cent. The Union Pacific Reorganization Committee raised its bid for the Government claim on the Kansas Pacific lines from \$2,500,000 to \$6,303,000, this latter covering the principal of the Government loan but not the unpaid accumulations of interest, and secured the property. The New York Central-Lake Shore consolidation was definitely announced, the Central giving \$1,000 of 3½-per-cent bonds in exchange for \$500 of Lake Shore stock. Plans were under consideration for exchanging New England stock on certain terms for New Haven stock, and as part of the scheme a proposition for a lease to the latter company was subsequently offered. The Louisville & Nashville negotiated \$12,500,000 of 4-per-cent collateral trust bonds to take up \$7,070,000 of maturing consol. 7s and provide for liquidating floating debt, &c. The "Hay Trust" or American Hay Company, with a capital of \$5,000,000, was organized. The Governing Committee of the New York Stock Exchange passed resolutions prohibiting arbitrage business with other cities. Adams Express Company gave its stockholders as a bonus 100 per cent in collateral trust bonds. The Rock Island called in its entire issue of Extension and Collateral Trust 5s in accordance with its refunding scheme. The Pennsylvania Steel Company announced that the March coupons on the second mortgage bonds would be paid in scrip.

**The Money Market.**—The Maine disaster had a marked effect on the money market. The last week of the month, under continued large withdrawals of currency for the interior (evidently induced by fear of trouble with Spain) and the fall in the stock market, rates sharply advanced all around, call loans on the Stock Exchange on the 24th touching 4 per cent, against the 1@1½-per-cent rate previously prevailing. Banks and trust companies also advanced their rates at this time, and some of them succeeded in obtaining 3 per cent. On time the quoted rates the last of the month rose to 4 per cent for all dates from sixty days to six months. Rates for commercial paper, however, were only slightly changed, standing at the close at 3½ per cent for sixty to ninety day endorsed bills receivable, 3½@4 per cent for prime and 4½@5 per cent for good four to six months single names. The Clearing House banks lost heavily in reserves, and from \$216,230,500 January 29 the money holdings of the banks dropped to \$197,328,600 March 5; the surplus reserve declined from \$35,609,450 to \$20,823,500.

**Foreign Exchange, Silver, Etc.**—The advance in money rates the latter part of February completely demoralized the foreign exchange market, with the result that the import movement of gold was resumed. The early part of the month exchange was firm and rates advanced, there being a continued absorption of long bills for investment. Rates for actual business in sterling opened on the 1st at an advance of one-quarter of a cent for sixty-day bills, to 4 82½@4 82¾, sight bills remaining at 4 82½@4 84¼ and cable transfers at 4 84¼@4 85. By the 9th rates had advanced to 4 83¼@4 83½ for sixty day, 4 85½@4 85¾ for sight and 4 86¼@4 86¼ for cable transfers. Then the course was reversed. But the decline was slow until the Cuban entanglement caused a sharp advance in money rates. On the 24th and 25th sterling rates declined 1@1½ cents per pound; this led to engagements of gold in Europe for import, about \$3,800,000 being announced on the 25th and the 28th. Rates at the close were 4 81½@4 81¾ for sixty day, 4 84¼@4 84¼ for sight and 4 84¼@4 84½ for cable transfers. The Bank of England made further large additions to its bullion, but the open market discount rate after first declining fractionally, later advanced again to 2¼@2 13-16 per cent. On the Continent the outside rate fell to 1¼@1½ at Paris and to 2½@2½ per cent at Berlin and Frankfurt. Silver evinced a declining tendency, the price being 25½d. February 28th, against 26 3 16d. January 29th.

**MARCH.—Current Events.**—Cuban developments became increasingly disturbing. At the beginning of the month the decision of the Government to dispatch two naval vessels to Cuba with supplies for the starving reconcentrados created uneasiness. On Monday, March 7, dispatches in the papers saying that the Spanish Government had the previous week requested the recall of General Lee, the United States Consul-General at Havana, and that President McKinley had promptly refused the request, caused a great sensation. It was also stated that Spain had objected to the sending of the relief supplies in war vessels. Before the end of that day news came that the request for General Lee's recall would not be insisted on and that the President had decided to employ the dispatch boat Fern (a sort of naval transport, rather than a war ship,) in forwarding relief supplies. In the afternoon of the same day (the 7th) Chairman Cannon, of the Appropriations Committee of the House of Representatives, after consultation with the President, introduced a bill appropriating \$50,000,000 for strengthening the national defenses, the money to be used entirely at the discretion of the President. This bill passed the next day, receiving the whole 311 votes cast, and the following day (the 9th) passed the Senate by a vote of 76 to 0. The bill became a law the same day and considerable purchases of war ships, cruisers, torpedo boats, &c., were then made. The report of the Court of Inquiry was completed on the 21st and delivered to the President on the 25th. On the 28th it was transmitted to Congress with a message from the President. The Court expressed the opinion that there had been two explosions on the Maine, the first caused by a submarine mine, and that this had led to a second explosion through the blowing up of two or more of the ship's forward magazines. On the 31st the New York Legislature voted an appropriation of \$1,000,000 to defray the expenses of the State militia in case of war. U. S. 4s of 1925 opened at 123¾ (the bonds sold at 129¾ in January) March 1, sold down to 118½ on the 26th and closed at 122½ on the 31st. Print cloths declined from 2 3-16 cents to 2 1-16 cents per yard, notwithstanding the continuance of the strike of the operatives at New Bedford. Middling upland cotton declined from 6 5-16c. on the 1st to 6 1-16c. on the 23d, closing at 6 3-16 cents on the 31st. The price of wheat (July option) declined from 92¾c. on the 1st to 85¼c. on the 31st; Chicago quotations ruled above those at New York all through the month, Leiter continuing his manipulations. The report of a bill for the reform of the national currency by the sub-committee of the Committee on Banking and Currency of the House of Representatives was one of the events of the month. The United States Supreme Court rendered a decision declaring the Nebraska Maximum Freight law unconstitutional. The trial at Wilkes-barre, Pa., of Sheriff Martin and his deputies on the charge of killing the strikers in the anthracite fields the previous September resulted in a verdict of not guilty. By a convention signed at Pekin, March 27, Port Arthur and the port of Talien-wan, with the adjacent territory, were ceded in usufruct to Russia; the latter announced that Talien-wan would be open to the foreign trade of all nations.

**Railroad Events and Stock Exchange Matters.**—The Stock Exchange experienced several severe breaks. On Monday, the 7th, when news came that Spain had requested the withdrawal of General Lee prices opened off several points and continued to fall very rapidly, intelligence regarding the movements of the European Powers in China being concurrently disquieting: in the afternoon the Supreme Court decision in the Nebraska Maximum Freight cases caused a rally. The following Friday and Saturday (the 11th and the 12th) the market acted as if the bottom were going to drop out. It recovered after this, but sagged again almost continuously until on the 26th and the 28th, when a rumor that a settlement had been reached between the United States and Spain caused an upward reaction of 3-10 points, which, however, was not fully maintained. New York Central sold at 116 on the 1st, at 105 on the 26th, and closed at

111½ on the 31st. Milwaukee & St. Paul common declined from 94½ on the 1st to 85½ on the 12th, closing at 90½; and Burlington & Quincy from 97½ on the 1st to 85½ on the 26th, closing at 93½. The Western Joint Traffic Bureau, formerly the Western Freight Association, was dissolved. The Milwaukee & St. Paul declared an extra dividend of one-half of one per cent, payable in April, in addition to the regular semi-annual dividend of 2 per cent. on the common stock. The American Thread Co., with \$12,000,000 stock and \$6,000,000 bonds, was incorporated; also the American Steel & Wire Company, with a capital of \$24,000,000. S. R. Callaway was made President of the consolidated New York Central system, Chauncey M. Depew becoming Chairman of the Board of Directors. The Appellate Division of the New York Supreme Court modified its previous decision so as to require a continuous bond of only \$1,000,000 from the contractors of the proposed Rapid Transit road, the bond for the other \$14,000,000 to be limited to the period of construction.

**The Money Market.**—The large gold imports prevented serious disturbance in the money market. Anxiety regarding the Spanish-American situation caused large withdrawals of currency from the banks for the interior, and the legal tender holdings of the Clearing House institutions dropped from \$86,076,400 on February 26 to \$64,723,800 on April 2nd. The gold holdings in the same interval increased from \$119,186,500 to \$141,556,200. Loans were reduced from \$641,878,400 to \$595,851,200, largely, it is believed, through the liquidation of loans on investment holdings of sterling exchange. Deposits fell from \$729,214,300 to \$682,236,800 and because of that fact surplus reserve increased from \$22,959,325 to \$35,720,800. About \$3,650,000 was paid into the U. S. Treasury on account of the purchase of the Government's interest in the Kansas Pacific. But the transfer into the treasury of the Union Pacific moneys held by the depository banks was temporarily discontinued. Except for a spurt to 4 per cent on the last of the month, on preparations for the April settlements, call money on the Stock Exchange did not get above 3 per cent and mostly was 1½@2½ per cent. Banks and trust companies loaned at 2@2½ per cent as the minimum. On time the uneasiness prevailing was reflected in a disinclination to lend and in higher rates, the close being nominal at 4@4½ for sixty days and 5@6 for longer periods. Commercial paper at the close was 5 per cent for sixty to ninety days double names, 5½@6 per cent for prime and 6½@7½ per cent for good four to six months single names.

**Foreign Exchange, Silver, &c.**—The high rates for time money dislodged further large holdings of investment sterling, and gold engagements in Europe for shipment to the United States continued throughout the month on an extensive scale, and there were also shipments from Australia to San Francisco. Altogether the net imports reached \$29,979,613. Rates for actual business were advanced one-quarter of a cent on the 1st and again on the 2d, making them 4 82@4 82½ for sixty day, 4 84½@4 84½ for sight and 4 84½@4 85 for cable transfers. But by the 15th prices were down to 4 80½@4 80½ for sixty day, 4 83½@4 83½ for sight and 4 84@4 84½ for cable transfers. The rest of the month the market was alternately strong and weak. On the 31st actual business was done at 4 80½@4 81 for sixty days, 4 83½@4 84 for sight and 4 84½@4 84½ for cable transfers. The Bank of France raised its premium on gold from 5½ per mille to 6 per mille. The Bank of England lost heavily in bullion, and the open market discount rate for sixty to ninety day bank bills ruled at 2½@3 per cent. At Paris the outside rate at the close was 2 per cent and at Berlin and Frankfurt 2½ per cent. The Chinese loan of £16,000,000 was a failure in England (only £2,000,000 out of the £8,000,000 allotted to that country being subscribed for), and in Germany also was not entirely a success. The price of silver opened at 25 9 16d., declined to 25 1., then advanced to 26 1-16d. and closed at 25 11-16d.

**APRIL.—Current Events.**—The difficulties between the United States and Spain regarding Cuba culminated in war. The reply of Spain to the final proposition of the United States (the proposition suggested an armistice in Cuba until October 1 "for the negotiation of peace, with the good offices of the President.") had been received March 31. It was considered unsatisfactory, and a communication from the President to Congress was anxiously looked for. On the 6th it was announced that Mr. McKinley had decided to defer his message until Monday, the 11th, to allow Gen. Lee time to get Americans out of Cuba and to depart himself. In the meantime the Pope and the European Powers continued their efforts to persuade the Spanish Government to accede to the demands of this country. On April 9 Spain finally agreed to authorize Gen. Blanco to declare a provisional armistice in Cuba. The action came too late. On the 11th the President's message went to Congress, urging intervention without recognition of the Cuban insurgents. On the 13th the House of Representatives, by a vote of 324 to 19, passed resolutions in form about as the President desired. The Senate, on the night of Saturday, the 16th, by a vote of 67 to 21, substituted its own resolutions, much more radical in form and recognizing the Cuban insurgents. After repeated conferences the Senate was forced to yield on the question of recognition, but otherwise about had its own way. As amended, the resolutions passed the Senate at 1:30 A. M. on the 19th by 42 to 35 votes and the House at 2

A. M. by 310 to 6. The President signed the Act in the morning of the 20th and immediately sent an ultimatum to Madrid through Gen. Woodford. Senor Luis Polo y Bernabe, the Spanish Minister at Washington, was at the same time notified of the action of the President. He at once asked for his passports. In Spain Gen. Woodford was informed the next day, before he could present the ultimatum, that diplomatic negotiations between the two countries were broken off. On the 22d the American fleet off Key West began capturing ships, the first prize taken being the Spanish merchantman Buena Ventura. On the 23d, also, the President issued his proclamation declaring a blockade "of the north coast of Cuba, including ports on said coast between Cardenas and Bahia Honda, and the port of Cienfuegos on the south coast of Cuba." On the 23d a call for 125,000 volunteers was issued under an Act approved the day before. On the 26th the Hull bill for the reorganization of the regular army in time of war became a law. The ultimatum to Spain allowed until noon of Saturday, April 23, for compliance, but as hostilities began before that date Congress on the 25th formally declared that war existed and had existed since and including April 21. On the 27th a portion of Admiral Sampson's squadron in Cuban waters bombarded the forts at Matanzas and silenced them. The House of Representatives on the 29th passed the War Revenue Bill reported by Chairman Dingley, providing for extra internal revenue taxes calculated to yield 100 million dollars added revenue per year, and for the issue, if needed, of 500 million dollars of 3-per cent bonds and 100 million certificates. An Act was signed on the 22d prohibiting the exportation of coal and war supplies without the permission of the Government. Postmaster-General James A. Gary resigned on the 21st because of ill-health, and was succeeded by Charles Emory Smith. On the 25th Secretary of State John Sherman also left the Cabinet. Following New York's lead of the previous month, many of the States voted extra appropriations for their national guards—Ohio, \$1,000,000; Massachusetts, \$500,000, &c., &c. Our foreign trade situation was unusually strong, the merchandise exports for the ten months to April 30 exceeding by 514 million dollars the merchandise imports. The position of the United States Treasury was also very strong, the gold holdings being \$174,584,136 April 1 and \$181,238,137 April 30. U. S. coupon 4s of 1925 sold at 119½ April 30, against 122½ March 31. The price of wheat sold up to \$1 25 in both New York and Chicago for the May option. The price of other cereals also sharply advanced. Print cloths further declined to 2 cents per yard. Middling upland cotton was 6½ cents April 30, against 6 3-16 March 31. The strike of the cotton mill operatives in New Bedford practically ended except as to the spinners. Governor Black on April 18 signed the bill permitting savings banks in New York State to invest in the first mortgage bonds of New York railroads under certain restrictions. The N. Y. Court of Appeals dismissed the appeal taken by the State in the case of the Attorney-General against the Presidents of the anthracite coal roads and which had been decided by the Appellate Division against the Attorney-General—(see CHRONICLE April 23, page 783). England obtained from China a lease of Wei-Hai-Wei to offset Russia's lease of Port Arthur, and France also obtained concessions.

**Railroad Events and Stock Exchange Matters.**—There were no further violent breaks in stocks; the market, however, sagged from week to week, investment purchases having almost entirely ceased. The lowest figures were reached in most cases on the 21st, or soon thereafter; the latter part of the month there was a sharp recovery on reports of successful exploits by our navy. Burlington & Quincy sold at 95½ on the 4th and at 88 on the 21st, St. Paul common at 91 on the 6th and at 83½ on the 21st, and New York Central at 113 and 106½ on the 6th and 22d respectively. The Governing Committee of the New York Stock Exchange voted against the proposition to take partial control of the "outside security" market. The New York Central made official announcement of the absorption of the Michigan Central by an arrangement similar to that of the Lake Shore. The Choctaw Oklahoma & Gulf declared its first dividend on the preferred shares—2½ per cent. The bill requiring railroads in New York State to issue mileage books at 2 cents per mile for 500 miles became a law. The American Hard Rubber Co. (\$2,500,000 capital), the American Sardine Co. (\$3,000,000), the Atlantic Snuff Co. (\$10,000,000) and the Union Carbide Co. (Acetylene Gas), with \$6,000,000 capital were incorporated.

**The Money Market.**—The movement of currency to the interior continued, but on a somewhat less extended scale. The loss was offset by the importations of gold from Europe. The legal tender holdings of the Clearing House banks were reduced from \$64,723,800 April 2 to \$50,737,700 April 30, but the "specie" holdings were increased from \$141,556,200 to \$158,392,800. The surplus reserve increased from \$35,720,800 to \$44,504,675. There was a further contraction in both loans and deposits, the former dropping from \$595,851,200 to \$570,198,100, and the latter from \$682,236,800 to \$658,503,300. The Treasury during the month withdrew from the special depository banks a portion of the moneys still held by them on account of the Union Pacific sale. Some money was also taken from the banks by the payment of instalments on the Kansas Pacific sale. In the call loan branch of the market the tendency the latter part of the month was downward, the range then being from 1½ to 3½

per cent. Banks and trust companies then asked 4 per cent over the counter, though some were willing to loan at 3 per cent. For time contracts the market was unsettled, the rate at the close being 6 per cent for all periods. For commercial paper the closing quotations were 6 per cent for 60 to 90 day endorsed bills receivable,  $6\frac{1}{2}$  per cent for prime and  $7\frac{1}{2}$  per cent for good four to six months single names.

**Foreign Exchange, Silver, &c.**—The United States continued to draw gold from Europe (the net imports for the month being \$31,256,134) and the bullion in the Bank of England dropped at the beginning of the month to below 30 million pounds sterling for the first time in years. On the 7th the Bank rate was advanced from 3 to 4 per cent. The Bank of Germany also advanced to 4 per cent. In the open market at London the rate rose to the same figure, though dropping to  $3\frac{3}{4}$  per cent; while the outside rate at Paris remained at 2 per cent, at Berlin and Frankfurt there was an advance to  $3\frac{3}{4}$  per cent. The bullion of the Bank of England was heavily augmented the latter part of the month when the drain from the United States was temporarily arrested. Sterling exchange was weak the early part of the month on large offerings of investment bills. On the 1st rates on actual business were  $4\ 80\frac{3}{4}$  @  $4\ 81$  for long,  $4\ 83\frac{1}{4}$  @  $4\ 83\frac{3}{4}$  for sight and  $4\ 84\frac{1}{4}$  @  $4\ 84\frac{1}{2}$  for cables. From this there was a steady decline in long, until on the 21st the rates were only  $4\ 79\frac{1}{2}$  @  $4\ 79\frac{3}{4}$ . In sight and cables the decline continued only until the 7th when rates for the former had got down to  $4\ 83$  @  $4\ 83\frac{1}{4}$  and for the latter to  $4\ 83\frac{3}{4}$  @  $4\ 84$ , from which there was an advance on that day of one-quarter of a cent. After the 21st all classes of bills advanced. On the 27th long was  $4\ 81$  @  $4\ 81\frac{1}{4}$ , sight  $4\ 83\frac{1}{4}$  @  $4\ 85$  and cables  $4\ 85\frac{1}{2}$  @  $4\ 85\frac{3}{4}$ . Then the reaction came and on the 30th rates were  $4\ 80\frac{3}{4}$  @  $4\ 81$ ,  $4\ 84$  @  $4\ 84\frac{1}{4}$  and  $4\ 84\frac{3}{4}$  @  $4\ 85$  for the three classes of bills. The price of silver in London April 30 was 26 5-16d. against 25 11-16d. March 31.

**MAY.—Current Events.**—The first engagement of the war took place on Sunday morning, May 1. Commodore George Dewey, in command of the Asiatic Squadron, sailed into the harbor at Manila, in the Philippine Islands, engaged the Spanish fleet and forts under Admiral Montejó and succeeded in completely destroying all the Spanish ships, eleven in number. The result of the battle (though not the full extent of the victory) was known the next day, May 2d, through cable dispatches from Manila to Madrid. Commodore Dewey cut the cable when he found he could not use it for official business. He was heard from on Saturday, the 7th, through dispatches from Hong Kong, and then it appeared that his ships had sustained no damage, that none of his men had been killed and only eight had been injured, and these but slightly. Commodore Dewey received a vote of thanks from Congress and was made Rear Admiral. On the Atlantic hostilities were on a limited scale. The mobilization of the army proceeded rather slowly, though by the end of the month most of the 125,000 volunteers called the previous month had been sent South. The invasion of Cuba was delayed by uncertainty as to the whereabouts and ultimate destination of the Spanish fleet under Admiral Cervera, which had left the Cape Verde Islands on April 29. Admiral Sampson with a portion of the American squadron was sent to Porto Rico to find the fleet, and not succeeding bombarded the forts at San Juan on the 12th, but did not stay long enough to silence them. On the 13th it was announced that the Cape Verde fleet had been sighted the day before off Martinique, in the French West Indies. It was next reported at Curaçoa, off Venezuela, on the 14th. Thereafter its movements were again enveloped in mystery, but at the end of the month it was known to be securely bottled up at Santiago de Cuba. Several minor engagements occurred along the Cuban coast during the month, resulting in casualties to our side. On the 11th, in one of these engagements, Ensign Worth Bagley and four others were killed. The battleship Oregon, concerning which much anxiety had been felt, arrived safely at Key West, Fla., after a voyage of 81 days and a trip of 17,499 miles from Puget Sound around Cape Horn. On the 25th President McKinley issued a proclamation calling for 75,000 more volunteers, bringing (according to official report) the military strength of the United States up to 278,500 men. The Senate Finance Committee on the 12th reported the War Revenue bill received from the House the previous month, but amended so as to strike out the provision for the issue of bonds, with a further amendment providing for the coinage of the silver "seigniorage" and the issue of \$150,000,000 greenbacks. Debate began on the 16th and continued the rest of the month. Some of the European Powers, it is believed, were desirous of intervening in the war, but the refusal of Great Britain to participate blocked the scheme, and on the 13th Joseph Chamberlain, the Secretary of State for the Colonies, made a notable speech advocating an Anglo-American alliance. There was a further great rise in the price of wheat, and bread riots resulted in many parts of Europe, more particularly Italy and Spain. Both France and Italy suspended their import duties on wheat up to July 1; the duty was originally the same in the two countries, namely, about 36 $\frac{3}{4}$  cents per bushel, but Italy had on January 1, 1898, made a reduction to 26 cents. Spain, which had in March modified its duties, gazetted a decree allowing the free entry of cereals. The price of the May option here rose from \$1 18 $\frac{1}{2}$  April 30 to \$1 91 May 10, and in Chi-

cago from \$1 20 $\frac{1}{4}$  to \$1 85. On the 31st, this option suddenly dropped 50 cents in Chicago to \$1 25, the price here falling to \$1 15. The report of the Agricultural Bureau at Washington on the growing winter wheat made the general condition May 1, 86.5, against 80.2 the previous year. The price of print cloths dropped still lower, touching 1 $\frac{1}{8}$  cents per yard, but with a subsequent recovery to 2 cents. Government orders proved a stimulus in some lines of business. The Committee on Foreign Affairs of the House of Representatives on the 17th presented a majority report in favor of the annexation of Hawaii by joint resolution. Great satisfaction was felt in the signing on the 28th of a commercial agreement (under the Dingley tariff law) between the United States and France, in view of French sympathy with Spain. The House, by a vote of 184 to 11, passed a resolution proposing an amendment to the U. S. Constitution providing for the election of Senators by popular vote. China paid over to Japan at the Bank of England £11,000,000, the remainder of the Chinese-Japanese war indemnity, the Japanese troops thereupon evacuating Wei-Hai-Wai, which was subsequently occupied by Great Britain. William E. Gladstone, the great English statesman, died on the 19th. The Spanish Chambers passed an Act forbidding the export of silver.

**Railroad Events and Stock Exchange Matters.**—The course of the stock market was determined by the naval victory at Manila on the 1st. Prices Monday, May 2, jumped up one to ten points on the news, and continued to advance the rest of the month. The high price of wheat and the splendid outlook for the new crop proved an additional stimulus. The grain-carrying roads as a consequence were in special favor. Burlington & Quincy sold up from 94 $\frac{3}{8}$  to 104, St. Paul common from 89 $\frac{1}{8}$  to 101 and Rock Island from 86 to 108 $\frac{1}{4}$ . Great Northern preferred jumped from 155 to 179, and the company announced a dividend of 50 per cent payable in the stock of the Seattle & Montana RR.; it also gave notice that it would redeem the entire issue of collateral trust 4-per-cent bonds (\$15,000,000) on September 1. Subsequently it was announced that \$25,000,000 of new stock would be issued to provide funds to redeem the trust bonds, shareholders to be allowed to use the Seattle stock in part payment. The American Malt Company common (\$13,750,000) and preferred (\$12,300,000) stocks were placed in the unlisted department of the New York Stock Exchange. The U. S. Circuit Court of Appeals at Baltimore sustained Judge Simonton's decision decreeing that the Cape Fear & Yadkin Valley RR. should be sold as an entirety. The case was subsequently appealed to the U. S. Supreme Court. The General Electric shareholders voted in favor of a reduction of stock, so as to permit the resumption of dividends. The Inter-State Commerce Commission decided in favor of the trunk lines in the matter of the differential rate question. The Manhattan Elevated declined the franchises tendered it by the Rapid Transit Commissioners.

**The Money Market.**—All fear of a derangement of the money market passed away. The New York banks between April 30 and May 28 increased the aggregate of their loans from \$570,198,100 to \$589,727,400, their deposits from \$658,503,300 to \$696,006,400, their money holdings from \$209,130,500 to \$227,706,200, and their surplus reserve from \$44,504,675 to \$53,704,600. At the close the range on call at the Stock Exchange was 1 @  $1\frac{3}{4}$ , while banks and trust companies quoted 1 $\frac{1}{2}$  as the minimum, although some obtained 2 per cent. On time the rate was  $2\frac{1}{4}$  for thirty days,  $2\frac{1}{2}$  for sixty days, 3 for ninety days to four months, and  $3\frac{1}{2}$  per cent for five to seven months. For commercial paper rates were  $3\frac{3}{4}$  for sixty to ninety day double names,  $4\frac{1}{4}$  @  $4\frac{1}{2}$  for prime and  $5\frac{1}{2}$  @ 6 per cent for good four to six months' single names.

**Foreign Exchange, Silver, &c.**—The tendency of the foreign exchange market was strongly upward during May. The ease in money here led to renewed purchases of bills for investment. The advance in rates checked the gold movement, and the Bank of England was able to increase its gold holdings heavily (the total rising from £29,436,468 April 14 to \$37,191,952 May 26); on the 20th the Bank rate was reduced from 4 to  $3\frac{1}{2}$  per cent. The open market rate dropped to  $2\frac{1}{4}$ . With the decline in money rates abroad, the difference between sixty-day bills and sight and cables was again narrowed. On the 2d rates for sixty day were  $4\ 80\frac{3}{4}$  @  $4\ 81$ , for sight  $4\ 84$  @  $4\ 84\frac{1}{4}$  and for cables  $4\ 84\frac{1}{2}$  @  $4\ 84\frac{3}{4}$ . From this the highest figure for sixty days was reached on the 26th at  $4\ 84\frac{1}{4}$  @  $4\ 84\frac{1}{2}$ , the highest for sight and cables on the 23d at  $4\ 86\frac{3}{4}$  @  $4\ 87$  and  $4\ 87\frac{1}{4}$  @  $4\ 87\frac{1}{2}$ , respectively. On the 31st long was quoted at  $4\ 84\frac{1}{4}$  @  $4\ 84\frac{1}{2}$ , sight at  $4\ 86$  @  $4\ 86\frac{1}{4}$  and cable transfers at  $4\ 86\frac{1}{2}$  @  $4\ 86\frac{3}{4}$ . In the open market at Paris the discount rate declined to  $1\frac{1}{4}$  and in Berlin and Frankfurt to  $3\frac{1}{8}$  per cent. The demand for silver for the Bank of Spain led to an advance in the price of the metal, which closed at 26 $\frac{7}{8}$ d., against 26 3-16d. on the 2d.

**JUNE.—Current Events.**—The military movements before Santiago de Cuba and the collapse of the Leiter speculation in wheat were the events of chief importance during June. Pending the arrival of an army from the United States, the operations during the month were merely preliminary to the main assault, which did not begin until the 1st of July. On the 3d, in the morning, Assistant Naval Constructor Hobson, with a crew of seven men, succeeded in sinking the collier Merrimac in the narrow passage at the entrance to Santiago harbor in face of the fire of the Spaniards. There were frequent attacks on the batteries and forts in the vicinity of

Santiago by one or more of the American ships. On June 10 the first landing in force by Americans on Cuban soil took place in Guantanamo Bay, about 40 miles east of Santiago. Admiral Sampson, having determined to establish a base of supplies there, sent about 900 marines ashore, who took possession of the Caimanera block house, raising the American flag over it. On the 20th the fleet of transports carrying 16,000 troops under Gen. Shafter finally arrived off Santiago. Its landing was unopposed. Preliminary skirmishing began at once, and in an attack on the Spaniards by some dismounted troops of cavalry and rough riders, on the morning of the 24th at La Quasina, within a few miles of Santiago. Sergeant Hamilton Fish, Jr., and others were killed. On the 27th President McKinley issued a proclamation extending the blockade of Cuban ports so as to include the whole of the Southern coast from Cape Frances to Cape Cruz inclusive. A blockade of San Juan, Porto Rico, was also declared. The second and third detachments of the army for the Philippines embarked from San Francisco during the month. The first detachment arrived at Cavite June 30, after having stopped on the way to take the Ladrone Islands. The insurgents in the Philippines were very active, and overcame the Spaniards at nearly all points except Manila. A Spanish fleet under Admiral Camara set sail from Cadiz, and reached the Suez Canal on its way to the Philippines. As a counter move, our Government on the 27th announced the formation of a new United States squadron, under Commodore Watson, whose ultimate destination was to be the coast of Spain. The U. S. Senate on the 4th, by a vote of 48 to 29, passed the War Revenue Bill received from the House in April. Many changes had been made in the measure, among others the incorporation of a provision for a tax of 10 cents a pound on tea, and a provision for taxing inheritances. The Senate Finance Committee's amendment proposing the issue of greenbacks failed to prevail, it having been replaced (by a vote of 45 to 31) by a substitute providing for the issue of \$100,000,000 of certificates of indebtedness and \$300,000,000 of 3 per cent bonds. The silver "seigniorage" amendment of the Finance Committee was also somewhat changed through the adoption of a substitute (by a vote of 48 to 31) proposed by Senator Wolcott and providing for the coinage of the silver bullion at not less than \$1,000,000 per month. The bill as passed went to a conference committee, where further changes were made, the silver bullion provision being altered so as to require the coinage of only 1½ million dollars a month, and the amount of bonds authorized being increased from \$300,000,000 to \$400,000,000. The conference report was adopted in the House on the 9th by a vote of 154 to 107, and in the Senate on the 10th by a vote of 43 to 22. The bill was signed by the President on the 13th (it will be found in full in the CHRONICLE of June 18), and the same day the Secretary of the Treasury invited subscriptions for \$200,000,000 of the new bonds—see CHRONICLE of June 18, page 1168. A supplemental bill designed to supply omissions passed the House, but did not get through the Senate. The Leiter wheat deal turned out disastrously. The price continued to sag, and on the 13th the announcement came that the elder Leiter would no longer assist his son Joseph. This ended the speculation. The July option in New York opened at \$1.03 on the 1st and closed at 92½ cents on the 11th; on the 13th it quickly dropped to 81½ cents and on the 20th it touched 75½ cents. The close June 30 was at 79½ cents. The report of the Agricultural Bureau at Washington showed a condition of 90.8 June 1 for winter wheat and of 100.9 for spring wheat, against 78.5 and 89.6 respectively the previous year. A notable event during the month was the success of the Republican Party on a gold platform against the silver fusionists in the election in Oregon on the 6th. Their ticket was elected by a plurality of 10,574 on a vote of 84,753. By an Act of Congress approved June 7 all political disabilities arising out of the Civil War were removed. The House of Representatives by a vote of 209 to 91 passed the Newland's resolution providing for the annexation of Hawaii to the United States. Both houses also adopted the Conference Report on the National Bankruptcy Bill. The Monetary Reform and Banking Bill was reported to the House of Representatives by the Committee on Banking by Mr. Cleary of Minnesota, but was subsequently recalled by him. Several unimportant cases of yellow fever were reported at McHenry, Miss. An Anglo-French convention was signed with reference to disputed territory in the Niger Valley.

**Railroad Events and Stock Exchange Matters.**—The break in the price of wheat as the result of the collapse of the Leiter deal led to a sharp downward reaction in stock prices on the 13th. The tone, nevertheless, continued firm, and no difficulty was experienced in advancing particular stocks. The Baltimore & Ohio reorganization plan was promulgated, and the \$20 assessment on the shares weakened the price of the stock. Lake Shore increased its semi-annual dividend from 3 to 3½ per cent; Denver & Rio Grande its semi-annual dividend on the preferred shares from 1 to 1½ per cent; the Oregon Railroad & Navigation Company announced its first dividend on the common stock, and the Minneapolis & St. Louis increased the return on the 2d pref. shares; the St. Louis & San Francisco began dividends on its 2d pref. shares, and the Chic. & East Ill. declared its first dividend on the new common stock. The Rock Island raised its quarterly dividend to 1½ per cent, besides declaring 10 per cent in stock. The Standard Dis-

tiling & Distributing Co., with \$24,000,000 capital, was organized.

**The Money Market.**—The money market continued extremely easy. Payments on account of the Government bond subscriptions did not affect it. The Clearing House banks showed a further decided increase in all the leading items, loans rising between May 28 and July 2 from \$589,727,400 to \$620,983,800, deposits from \$696,006,400 to \$750,074,600, money holdings from \$227,706,200 to \$249,532,200, and surplus reserve from \$53,704,600 to \$62,013,550. Call loans ranged pretty uniformly between 1@1½ per cent, while banks and trust companies accepted 1½. Time contracts at the close were offered at 2½ per cent for thirty to ninety days, 3 for four to five months and 3½ per cent for six to seven months. Commercial paper was in good demand at 3@3½ for sixty to ninety-day double names and 3½@4 for prime and 4½@5½ for good four to six months' single names.

**Foreign Exchange, Silver, &c.**—The Bank of England rate was reduced from 3½ to 3 on the 2d and to 2½ per cent on the 30th. In the open market discounts at the close were only 1@1½ per cent. These easier rates further narrowed the difference between long and short sterling. From the 1st to the 7th rates advanced from 4 83¼@4 84 to 4 84¼@4 85 for 60 day bills, from 4 85¼@4 86 to 4 86¼@4 86½ for sight, and from 4 86¼@4 86½ to 4 86¼@4 86¾ for cable transfers. After the 7th the market again tended downward, one reason being that the fall in the price of wheat brought out a supply of commercial bills. By the 14th the decline amounted to one cent all around. Then the market again tended upward, the close being at 4 84¼@4 84½ for sixty day bills, 4 85¼@4 86 for sight and 4 86¼@4 86½ for cable transfers. In Paris open market discounts at the close were 1¼, at Berlin 3½ and at Frankfurt 3½ per cent. Some further advance occurred in the price of silver, which closed at 27 5-16d. June 30, against 26¾d. May 31.

**JULY.—Current Events.**—This month was marked by a series of brilliant victories, compelling Spain to sue for peace. A temporary feeling of uneasiness prevailed at the beginning of the month. In taking possession of the heights commanding Santiago de Cuba on the 1st and 2d of July, Gen. Shafter's army suffered severely, the casualties reaching about 1,600; and the publication of a telegram from Gen. Shafter intimating that the taking of Santiago itself might prove even more costly created a feeling of depression. But on the morning of Sunday, July 3, the entire Spanish fleet under Admiral Cervera, in escaping from the harbor of Santiago was destroyed. The American fleet suffered no material damage, and the casualties were only one man killed and one man wounded; the Spaniards lost many hundreds killed and the rest of their men, including Admiral Cervera himself, were captured. Gen. Shafter then demanded the surrender of Santiago, and after some parleying the Spanish forces amounting to about 22,000 finally capitulated. The formal surrender of the city of Santiago (including the eastern part of the province of Santiago) took place on Sunday, July 17. Much sickness occurred in Gen. Shafter's army, over 4,000 cases being reported at the end of the month. Cervera's fleet having been destroyed, the fleet under Admiral Camara was ordered back through the Suez Canal to Spain. The campaign against Porto Rico progressed with equal satisfaction and celerity. On the 25th the advance guard of the American army, under Gen. Miles, effected a landing in Guanica harbor, 15 miles west of Ponce, and met with only desultory resistance; on the 28th the city and port of Ponce surrendered. On the 26th M. Cambon, the French Ambassador at Washington, presented a message to the President on behalf of Spain, asking the American terms of peace. Our Government replied on the 30th, and insisted on the independence of Cuba, the cession of Porto Rico and other Spanish islands in the West Indies to the United States; also the cession of one of the Ladrone Islands—our troops to hold and occupy Manila pending the conclusion of the treaty of peace and the determination of the disposition and future government of the Philippines. The United States Senate on the 6th, by a vote of 42 to 21, passed the House resolution providing for the annexation of the Hawaiian Islands to the United States, and on the 7th the President approved the resolution. Congress adjourned on the 8th. Bids for the \$200,000,000 U. S. Gov. 8s closed on the 14th; the subscriptions aggregated over \$1,500,000,000. The allotments were all to persons taking less than \$1,500, the subscribers at \$1,500 getting about \$1,300 each. The payments into the Treasury during July on account of the subscriptions must have amounted to about \$80,000,000, in addition to about \$25,000,000 the previous month. But there was no disturbance in the money market. The Government disbursements on account of the war were very heavy. Government cash increased \$58,741,512, but of this \$19,470,387 represented the gain in the holdings of the depositary banks. Contracts for the new bonds sold on the 30th at 104½. The price of wheat experienced a further decline and the September option closed at only 69½ cents on the 30th. The French Government restored the full import duty on wheat from July 1, and the Italian duties were also re-established—the latter to be 5 lire from July 1 and 7½ lire from July 15. The Agricultural Bureau report showed a decline of 5.1 points, to 85.7, in the condition of winter wheat, and also a decline in the condition of spring wheat,

but still leaving the latter very high—95. A number of the cotton mills in New England suspended operations, and a movement was undertaken for a general suspension. The New York Cotton Exchange voted to discontinue reporting the quantities of "futures" sold; the New Orleans Cotton Exchange did the same thing. Congress before it adjourned passed an amendment to the General Deficiency bill providing for the settlement of the Pacific Railroad debts. Prince Bismarck died July 30.

**Railroad Events and Stock Exchange Matters.**—The American victories and the prospect of early peace gave tone and strength to the stock market, but there was no great activity mainly because of the low price for wheat and a desire to await the outcome of the growing crops. Railroad earnings in some cases made unfavorable comparisons with last year on account of the small grain movement. Anthracite coal prices in the West broke badly, but towards the close of the month Western prices were again advanced \$1 per ton and an informal meeting of the presidents of the anthracite companies led to a better understanding also regarding the trade here in the East. Pullman's Palace Car Company announced an extra cash dividend of 20 per cent and also a proposed stock distribution of 50 per cent. National Linseed Oil suffered a heavy loss through the failure of an attempt to corner the price of flaxseed. Joseph Bannigan, the "American Rubber King," died. The Metropolitan Street Railway announced a proposed increase of \$15,000,000 in its stock. The Westinghouse Air Brake Co. declared a stock dividend of 10 per cent.

**The Money Market.**—There had been some expectation of dearer money as the result of the payments on account of the new Government loan, and early in the month a few of the New York banks showed unwillingness to lend on time for long periods. But the effect on rates was slight. The money holdings of the Clearing-House banks fell from \$249,532,200 July 2 to \$227,324,500 July 30, and the surplus reserve from \$62,013,550 to \$41,904,475. Loans were expanded from \$620,983,800 to \$636,766,700, and deposits decreased from \$750,074,600 to \$741,680,180. The call loan rate scarcely deviated from 1@1½ per cent, while banks and trust companies quoted 1½ per cent. On time rates were a little firmer at 2½ for sixty to ninety days, 3 for four to five months, 3@3½ for six months and 3½ per cent for longer periods. Rates for commercial paper were also a trifle stiffer, at 3½@3¾ for sixty to ninety days double names, and 3¾@4¼ for the best and 4½@5½ for good four to six months single names.

**Foreign Exchange, Silver, Etc.**—The foreign exchange market was kept somewhat unsettled by the new internal revenue taxes. The National City Bank early in the month sold checks or demand drafts upon its foreign credits, placing thereon only a two-cent stamp, the same as on a domestic check, and thus was able to undersell other drawers. But on the 6th a ruling of the Internal Revenue Department was published declaring that orders drawn in the United States, payable in foreign countries, though in the form of checks, were subject to a tax of four cents on each \$100 or fraction thereof, and thereafter the City Bank conformed to this ruling. The next month, however, the order was reversed. For full details see CHRONICLE of Nov. 5, 1898, page 920. The course of exchange was downward. Actual business at the beginning of the month was at 4 84¼@4 84¾ for long, 4 85¼@4 86 for short and 4 85¾@4 86¼ for cable transfers; by the 12th there had been an advance to 4 84½@4 84¾, 4 86@4 86¼ and 4 86¼@4 86½, respectively, while at the close rates were 4 83¼@4 83½ for long, 4 85@4 85¼ for short and 4 85¼@4 85½ for cable transfers. On the 27th £10,000 gold was engaged in London for shipment to the United States, this being the resumption of the import of that metal. The Bank of England lost about £3,250,000 bullion between June 30 and July 28 (in part due to a drain to the interior of Great Britain, in part to a drain to the Continent), and the open market discount rates in London advanced to 1½@1¾ per cent. At Paris the rate at the close was 1¾@1½ and at Berlin and Frankfurt 3½@3¼ per cent. The price of silver again tended downward, and the quotation July 30 was 27 1-16d., against 27 5-16d. June 30.

**AUGUST.—Current Events.**—After more or less parleying the protocol preliminary to the conclusion of a treaty of peace was signed on the 12th. The President immediately directed the suspension of military operations. In the meantime the American forces had gained fresh victories. In Porto Rico the army under General Miles took town after town—in most cases without much fighting. At Manila the American commanders could not at once be notified of the cessation of hostilities (the cable still being out), and hence it happened an important engagement took place the day after the protocol was signed, resulting in the surrender of Manila. Our troops took about 7,000 prisoners of war. Gen. Merritt lost only about 50 men, while Rear-Admiral Dewey had no casualties at all and his ships were not damaged. The Manila cable was repaired after the Americans took possession of the city. The execution of the peace protocol was followed by the raising of the Cuban blockade, by the resumption of mail service and of commerce, not only with Cuba and Porto Rico, but with Spain itself. The U. S. Government began mustering out a large part of the volunteer army, and also arranged to dispense with many of the auxiliary vessels. President McKinley toward the end of the month definitely settled on Secretary of State

William R. Day, Whitelaw Reid, U. S. Supreme Court Justice Edward D. White and U. S. Senators Cushman K. Davis and William P. Frye as the American representatives on the peace commission with Spain. Justice White declined, however, and Senator George Gray of Delaware was appointed instead. The progress of the peace negotiations and the successful outcome of the war led to great buoyancy on the Stock Exchange, and also caused a resumption of trade revival. An auction sale of 75,000 pieces of dress goods brought very poor prices, but on the other hand the price of print cloths advanced one-sixteenth cent per yard, to 2 1-16 cents, coincident with a decline in the price of cotton from 6 1-16 cents per pound to 5¾ cents. A number of the New England cotton mills shut down, though there was no general stoppage. The crop situation also proved a favoring influence. The Agricultural Bureau report for August 1 showed less of an impairment in corn from the July drought than expected, the general average of condition being stated at 87, against 90.5 the previous month and 84.2 on August 1 the previous year. Moreover, rains came to relieve the drought. The spring-wheat average was reported 96.5, the oats crop 84.2 and the cotton crop 91.2. The arrivals of wheat at the primary markets were very small, and the visible supply in the United States dropped to the lowest figures in years, but prices were weak and the September option closed here at only 68½ cents, reflecting the after effects of Leiter's operations. The U. S. Treasury continued to receive large amounts in payment for the new bonds (roughly about \$54,000,000) and the gold reserve on September 1, notwithstanding the war disbursements, stood at \$217,004,485. The relations between England and Russia and China were much strained at times because of Russian ascendancy over the Chinese Government. The strike of the Welsh miners was finally terminated by agreement on August 31. The latter part of the month the proposition of the Emperor Nicholas of Russia, suggesting general disarmament, was announced. The Dreyfus affair took a sensational turn in France: Lieutenant-Colonel Henry acknowledged that he had forged a document which had played a prominent part in the case of Dreyfus, and he subsequently committed suicide.

**Railroad Events and Stock Exchange Matters.**—Great buoyancy and activity developed on the Stock Exchange as the result of the successful issue of the war. Stock sales reached 12,105,133 shares, while the bond sales amounted to \$92,270,100. The stocks of roads in the spring-wheat districts were particularly strong on the promise of the largest spring-wheat crop on record. Burlington & Quincy advanced from 105¼ on the 1st to 120 on the 18th, St. Paul common from 99¼ (1st) to 114½ (27th), Rock Island from 96¼ (1st) to 107¼ (22d), and Northern Pacific common from 29¼ (1st) to 41½ (26th). Towards the close of the month the firmness of the money market caused somewhat of a reaction. The trunk line shares were relatively less strong than others, and the coal shares were heavy on the unfavorable condition of the coal trade. The talk with regard to a consolidation of the Cleveland Cincinnati Chicago & St. Louis with the Lake Erie & Western and some other lines advanced these properties, but this was followed by a sharp decline when reports came that the deal had fallen through. New York Air Brake stock, aided by a favorable legal decision, jumped from 55½ to 100, after having sold at 14 in April. The prospective consolidation of the Minnesota Iron Company and the Illinois Steel Company caused a noteworthy rise in the stocks of these companies. The Great Northern Railway issued a circular to its stockholders proposing an exchange of stock with the Manitoba. Both the St. Paul & Duluth and the Norfolk & Western increased the dividends on their preferred shares. The Burlington & Quincy advanced to a 6 per cent basis. The Rio Grande Western declared a small dividend, payable in preferred stock on its common shares. The \$23,000,000 preferred and \$29,000,000 common stock of the National Biscuit Co. were placed in the unlisted department of the N. Y. Stock Exchange; also the stock (\$25,000,000 pref., \$20,000,000 com.) and bonds (\$10,000,000) of the International Paper Co.

**The Money Market.**—Money rates hardened during August. This was due in part to the greater animation on the Stock Exchange, in part to the prospective increase in the mercantile demand, but most of all to the drain into the United States Treasury on account of the payments for the new 3 per cent loan. Government cash outside the banks increased \$31,000,570 during the month. The holdings of the Clearing House banks between July 30 and Sept. 2 diminished from \$227,324,500 to \$203,088,500. But both deposits and loans were expanded—the former rising from \$741,680,100 to \$752,389,800, and the latter from \$636,766,700 to \$672,173,900—and the surplus reserve consequently fell from \$41,904,475 to \$14,991,050. Early in the month there was a flurry which carried the rate for call money on the Stock Exchange temporarily up to 5 per cent, but a quick decline ensued, and thereafter the rate was 1½@2 per cent until towards the close, when 3 per cent was at times paid. Banks and trust companies generally asked 2½ p. c. at the close, while rates for time contracts were 3 for sixty days, 3½@4 for ninety days to four months and 4 per cent for five to six months. Commercial paper advanced to 4 per cent for sixty to ninety day double names, and to 4@5 for prime and 5@6 for good four to six months' single names.

**Foreign Exchange, Silver, Etc.**—The action of the Commissioner of Internal Revenue in reversing his ruling of the previous month with reference to the stamping of checks drawn on foreign balances was an important influence in the exchange market. He now decided that only a two-cent stamp was required. The effect was a reduction in the sight rate for bankers' sterling of one-quarter of a cent on the 9th. The tendency of the exchange market was upward the first half of the month. On the 1st rates for actual business were 4 83¼@4 83½ for sixty-day bills, 4 85@4 85½ for sight and 4 85¼@4 85½ for cable transfers. By the 15th there had been an advance to 4 84@4 84½, 4 85¼@4 85½ and 4 86@4 86½ respectively. The firmness of the money market here then began to exert some influence and purchases of American securities on foreign account also tended to weaken rates, so that by the 31st the rates were down to 4 83¼@4 83½, 4 84¼@4 85 and 4 85¼@4 85½. The renewed demand for gold on American account advanced the discount rate in London to 1½ per cent. At Paris the rate at the close was 1½@1½ per cent and at Berlin and Frankfurt 3¼@3½ per cent. Spain continued a pretty strong buyer of silver, and the price in London advanced from 27 1-16d. on the 1st to 27½d. on the 31st.

**SEPTEMBER.—Current Events.**—The influence of most importance during this month was the condition of the money market; considerable apprehension existed on account of the absorption of cash by the Treasury through the payments for the new Government loan, and on account also of the enlarged demand from the interior. The fears of stringency, however, proved groundless. Rates did advance, but the Treasury took steps to prevent further accumulations in Government vaults, and this and the gold imports (the net inflow at New York was \$9,777,109 and for the whole country \$13,705,531) changed the situation; by the end of the month cause for uneasiness had disappeared. The interest due October 1 (\$5,596,000) was anticipated, and notice was given that the \$14,004,560 of Pacific Railroad currency 6s maturing January 1, 1899, would be prepaid less a rebate of only one-half of one per cent, though not quite a million dollars was presented for redemption under the offer. The most effective step, however, was the increasing of the Government deposits in the national banks. On Oct. 1 the deposits were \$90,888,712, against \$65,963,467 Sept. 1. As a result cash in Sub-Treasuries increased during the month only \$1,735,703. The payments on account of the bond subscriptions were about 31 million dollars. National bank circulation increased during the month \$8,178,335. Business revival continued, though there were some unsatisfactory features, particularly in the dry goods trade. Print cloths dropped from 2 1-16 cents per yard to 2 cents. Raw cotton touched 5 3-16 cents per pound, but recovered to 5 7-16 cents. Wheat sharply advanced on a good export demand, but subsequently reacted. The nominating conventions of the two political parties for the fall elections attracted attention; in some of the Eastern States, notably New York, the Democratic Party ignored the Chicago platform and the silver issue. New cases of yellow fever developed in Mississippi and Louisiana, and some of the Southern States enforced quarantines against New Orleans. The Spanish Cortes gave its approval to the terms of the peace protocol. The American members of the Peace Commission sailed for Europe; Judge Day, being a member of the body, resigned as Secretary of State, and was succeeded by John Hay, the American Ambassador to England. A War Inquiry Board of nine men was appointed by President McKinley to investigate the charges of misconduct and mismanagement made against the War Department. A receiver was appointed for the New England Loan & Trust Company. Auction sales of wool on the Wool Exchange in this city were suspended because of unsatisfactory results. Abroad the developments were of unusual importance. In the Dreyfus case, M. Cavaignac, Minister of War in the Brisson Cabinet, resigned because he was opposed to revision. He was succeeded by General Zurlinden, Military Governor of Paris, who subsequently himself resigned because he did not favor revision. Nevertheless, the revision policy finally triumphed and the matter was referred to the court. A crisis in the affairs of Crete was precipitated by a rising of the Mussulmans at Candia and their massacre of Christians and British soldiers. In the Sudan the British and Egyptian expedition, under Sir Herbert Kitchener, achieved a great victory over the forces of the Khalifa, and re-captured Khartoum, where Gen. Gordon was assassinated in 1885. At Fashoda, several hundred miles south of Khartoum, a French force under Major Marchand was found in territory claimed by the British. The French refused to retire, and the matter subsequently assumed a serious aspect. In China Li Hung Chang, who had been very partial to Russia, was dismissed from power, and the Chinese Emperor announced a remarkable series of innovations and domestic reforms. Soon, however, the Dowager Empress gained the upper hand, the Emperor was kept in seclusion, Li Hung Chang restored to favor and the reforms rescinded. An Anglo-German entente was reached concerning matters in Southwest Africa and involving a joint loan to Portugal to meet the award of the Swiss arbitrators regarding the Delagoa Railway. The relations between Russia and England likewise seem to have changed for the better.

**Railroad Events and Stock Exchange Matters.**—The stock market was weak. At first fears with regard to the future

of money and the failure of the Milwaukee & St. Paul directors to increase the dividend on the common shares were the moving causes, and later the violent break in several of the industrial shares unfavorably affected the market. American Tobacco common dropped from 153¾ on the 19th to 125 on the 29th, "Sugar" common from 145¾ on the 1st to 116½ on the 20th and U. S. Rubber common from 47½ on the 16th to 35½ on the 30th. St. Paul common declined from 115 (8th) to 108 (30th), Rock Island from 105¼ (1st) to 99¾ (30th), etc. The Canadian Pacific accepted a decision of the Inter-State Commerce Commission, declaring it not entitled to a differential on passenger business, and the passenger rate war among the trans-continental lines was ended. Freight rates in nearly all parts of the country were much disturbed. The Atchison managers declared the full 4 per cent on the adjustment incomes. Baltimore & Ohio sharply advanced. James J. Hill acquired an interest in the property. The new Union Pacific declared 1½ per cent on its preferred stock. The Northern Pacific board set aside \$3,000,000 out of surplus income as a reserve to ensure the maintenance of dividends on the preferred shares. A receiver was appointed for the Detroit & Lima Northern. A committee was appointed for the reorganization of the National Linseed Oil. The new shares of the General Electric Co., representing three fifths of the old shares, were listed. The Federal Steel Co., with authorized capital of \$200,000,000 (present issue \$98,000,000) was formed to consolidate the Minnesota Iron Co., the Illinois Steel Co. and the Elgin Joliet & Eastern RR.

**The Money Market.**—The flow of money to the interior and the absorption of cash by the Treasury caused a sharp decline in the surplus reserve of the Clearing House banks the first half of the month (the amount on the 17th being reported at only \$4,240,400), but the last half, with gold coming from Europe, with money also coming out of the Treasury, and with a cessation for the time being in the demand from the interior, the situation changed, and fears of possible stringency vanished. We have referred above to the steps taken by the Secretary of the Treasury to prevent further accumulations in Government vaults and the success attending the effort. The money holdings of the Clearing House banks declined from \$203,088,500 September 3 to \$182,237,300 September 17, but by October 1 were up again to \$190,850,200, while the surplus reserve rose from \$4,240,400 to \$15,327,150. Deposits were \$702,128,200 October 1, against \$752,389,900 September 3, and loans \$635,572,800, against \$672,173,900. Call loans on the Stock Exchange did not get above 6 per cent, and touched that rate only on the 20th and the 26th. On the 20th also some few of the banks and trust companies obtained the same rate over the counter on new business and marked standing loans up to 5 per cent. Thereafter the tendency was downward, the advance to 6 per cent again on the Stock Exchange on the 26th having been wholly exceptional and temporary. At the close call loans were 3@4 per cent; time money was 8¼ per cent per annum for sixty to ninety day loans, 3½@4 for four and 4 per cent for five to six months. Commercial paper closed at 3¼@4¼ for sixty to ninety day double names and 4@4½ for prime and 5@6 for good four to six months single names.

**Foreign Exchange, Silver, Etc.**—Influenced by the firmness of the money market, foreign exchange was weak and rates for sterling further declined. This made gold imports profitable and engagements were announced by houses like Brown Brothers, which rarely bring gold out. On the 23d the Bank of England raised its discount rate from 2½ to 3 p. c. In the open market, London, discounts at the close were 2½@2¾ per cent, against 1½ at the opening. At Paris the open market rate remained at 1½ per cent, but in Berlin and Frankfurt there was an advance to 3½@4 per cent. Prices for sterling exchange on actual business were 4 82¼@4 83¼ for sixty-day bills, 4 84¼@4 85 for sight, and 4 85¼@4 85½ for cable transfers on the first; the decline was continuous up to the 23d, when rates were only 4 81@4 81½, 4 83¼@4 84 and 4 84¼@4 84½ respectively; a reaction after that brought the figures at the close up to 4 81½@4 81¾, 4 84@4 84¼ and 4 84½@4 84¾. The rise in silver continued and the price in London was 28¼d. Sept. 30, against 28¾d. August 31.

**OCTOBER.—Current Events.**—The serious condition of European political affairs became an important influence during this month. The differences between France and England concerning Fashoda threatened war. The British Government insisted on the unconditional withdrawal of the French force under Major Marchand. Lord Rosebery, in a speech on the 12th, and the Duke of Devonshire and Sir Michael Hicks-Beach, Chancellor of the Exchequer, in public speeches on the 18th and 19th, were all equally emphatic on this point. Naval and military preparations in both France and England proceeded on an extensive scale. Meanwhile the domestic situation in France had become very threatening. Early in the month a strike of the laborers in the building trades in Paris assumed alarming proportions. Simultaneously public manifestations against the Government's policy in favoring a revision of the Dreyfus case added to the dangers of the situation. The labor difficulty was over by the 17th, but the Franco-English difficulty grew steadily more serious. On the 24th an outbreak of hostilities between the two countries appeared immediately imminent; English consols fell a full point and French rentes declined in an equally ominous

way; our foreign exchange market sharply advanced and the price of wheat spurted upward. On the 25th the French Chamber of Deputies met and introduced new disturbing elements; Gen. Chanoine, the Minister of War, in a passion tendered his resignation to the Chamber without notice to his colleagues. Later M. Brisson, the Premier, failed to secure a vote of confidence, and the whole Cabinet fell. After that, however, a turn for the better occurred, and the public funds sharply recovered. On the 29th the Court of Cassation in Paris decided to grant a revision in the Dreyfus case. On the 31st a new Ministry was formed under M. Dupuy, with M. de Freymet as Minister of War. The monetary situation abroad was likewise much disturbed, leading to advances in the bank rates at Berlin, Vienna, London and Paris, as narrated below. In the peace negotiations at Paris the only developments were the refusal of this country to assume the Cuban debt and the formal announcement on the 31st that our Government had decided to take the whole of the Philippine group. Trade here was quiet. Several large industries, notably cotton goods, woolen goods, leather, and anthracite coal, were in an unsatisfactory state. In all of them a policy of restriction was undertaken. The Fall River print-cloth manufacturers not only agreed to curtail output, but entered into a plan for pooling surplus stocks under the control of a selling committee of two trustees; the price of print cloths, which had dropped to 1 15-16 cents per yard, was advanced to 2 cents. The cotton mills in Augusta, Ga., announced a reduction averaging 10 per cent in the wages of their operatives. Raw cotton continued to rule low, closing at 5 5-16 cents for middling uplands. An active export demand caused an improvement in the price of wheat, and later the European war scare acted as a further stimulus; cash wheat in New York advanced from 73 $\frac{3}{8}$  October 1 to 80 $\frac{1}{4}$  October 24, and closed at 76 $\frac{1}{8}$  cents October 31. The yellow fever situation in the South (more particularly Mississippi) was serious until frost came, when many of the quarantine restrictions were removed. The gold reserve in the United States Treasury reached \$245,063,795 on the 7th. Government deposits in the national banks were further heavily increased, and stood at \$80,838,712 on October 1 and at \$95,014,970 October 31. Only a few millions on the \$200,000,000 loan remained to be paid at the close of the month. The final allotment of bonds under this loan was made on the 17th. At Virden, Ill., on the 12th, a conflict occurred between striking coal miners and the guards and railroad police upon a train bringing imported negro laborers, and 14 men were killed and 25 wounded. The Tradesmen's National Bank of this city (which had been identified with the Wool Exchange, &c.), after an examination by a Clearing House Committee, was obliged to close its doors on October 4. The Tioga National Bank of Owego, of which Thomas C. Platt was President, suspended because of a defalcation of one of its officers.

**Railroad Events and Stock Exchange Matters.**—The stock market was irregular, but evinced strength. Evidence of this was furnished on the 24th, when the European political and financial situation was so much disturbed, as mentioned above, with considerable sales here for foreign account, and when simultaneously the U. S. Supreme Court declared the Joint Traffic Association illegal. The market only showed temporary weakness, which the next day disappeared. The features of strength were the favorable returns of earnings of the granger roads and a growing belief that the November elections would be favorable to sound money. Dealings were not large outside the industrial shares, in which the fluctuations continued erratic. American Tobacco common sold up from 111 $\frac{1}{4}$  Oct. 17 to 143 $\frac{3}{4}$  Oct. 31, and American Sugar Refining common, on a cut in the price of sugar as the result of competition with Arbuckle Bros., sold down from 118 $\frac{7}{8}$  on the 4th to 108 $\frac{3}{4}$  on the 13th; the dealings in these two stocks amounted to 2,692,781 shares out of total sales of 7,463,383 shares. The anthracite coal shares were weak almost all through the month on the bad condition of the anthracite trade. Lake Erie & Western preferred declined sharply on rumors suggesting doubt as to the declaration of the next dividend, but recovered when the usual dividend was announced. The Atchison completed negotiations for the acquisition of the San Fran. & San Joaquin Val. RR. Delaware & Hudson decided to discontinue using its gravity road between Carbondale and Honesdale, Pa., for coal business, and sold its holdings of Rutland stock. Arbitrators ruled against the Canadian Pacific on its claim for differential rates on trans-continental freight traffic. The Philadelphia Reading & New England was sold at foreclosure; also the Ohio Southern. The Union Pacific Denver & Gulf reorganization plan was submitted. The quarterly dividend on Great Northern Railway was increased from 1 $\frac{1}{2}$  to 1 $\frac{3}{4}$  per cent. The U. S. Supreme Court decided that the Kansas City Live Stock Exchange was not in violation of the Anti-Trust law. The Little Rock & Memphis was sold at foreclosure and passed to the Choctaw Oklahoma & Gulf. The United States Rubber Co. listed \$1,125,000 additional preferred and \$3,500,000 additional common to pay for the purchase of the Boston Rubber Shoe Co.

**The Money Market.**—Everything tended to cause a return of ease in money. There were further gold arrivals from Europe and some from San Francisco by mail; the Government added over 14 million dollars to its deposits in the national banks, besides which its disbursements ran heavily in excess of its receipts, while the further payments into

the Treasury on the Government bond subscriptions were comparatively small; the latter part of the month the interior flow of currency was strongly this way. The money holdings of our Clearing House banks increased from \$190,859,200 Oct. 1 to \$216,485,100 Oct. 29, and the surplus reserve from \$15,327,150 to \$26,091,550. Deposits expanded from \$702,128,200 to \$761,574,200, and loans from \$635,572,800 to \$667,232,600. Conditions abroad induced considerable borrowing on sterling exchange as collateral. At the close rates for call money were 1 $\frac{1}{2}$ @2 per cent, while banks and trust companies quoted 2 per cent; business in time contracts was small at 2 $\frac{1}{2}$  for sixty to ninety days, 3 for four to five months and 3@3 $\frac{1}{2}$  for six months. Commercial paper closed at 3 $\frac{1}{4}$ @3 $\frac{1}{2}$  for double names and 3 $\frac{1}{2}$ @4 $\frac{1}{4}$  for prime and 4 $\frac{1}{2}$ @5 for good single names.

**Foreign Exchange, Silver, Etc.**—The monetary situation abroad controlled the course of exchange rates. At the German financial centres, where the money market had been disturbed for some time, the stringency increased, and on the 10th the Bank of Germany advanced its discount rate from 4 to 5 per cent. The Austro-Hungarian Bank put up its rate from 4 to 4 $\frac{1}{2}$  per cent, while on the 13th the Bank of England raised its minimum from 3 to 4 per cent. On the 20th the Bank of France also made a change for the first time since March, 1895, increasing its rate from 2 to 3 p. c. At the close the open market discount rates were 3 $\frac{3}{8}$  in London, 4 $\frac{3}{8}$  in Berlin, 4 $\frac{1}{2}$  in Frankfurt and 2 $\frac{3}{4}$  p. c. in Paris. These conditions kept the sterling exchange market strong. For actual business rates opened on the 1st at 4 81 $\frac{1}{2}$ @4 81 $\frac{1}{4}$  for sixty day bankers' bills, 4 84@4 84 $\frac{1}{4}$  for sight and 4 84 $\frac{1}{2}$ @4 84 $\frac{3}{4}$  for cable transfers. The market hardened only slightly until about the 20th, when the upward movement became pronounced; on the 24th the panicky conditions abroad caused a sharp further advance (cable transfers that day rising fully 1 $\frac{1}{4}$  cents), and on the morning of the 25th rates were even higher, sales then being reported at 4 82 $\frac{3}{4}$  for sixty day bills, 4 86 $\frac{1}{4}$  for sight, and 4 87 $\frac{1}{4}$  for cable transfers. After that more reassuring advices from Europe caused a reaction, but at the close rates were still 4 82 $\frac{1}{4}$ @4 82 $\frac{1}{2}$ , 4 85 $\frac{1}{2}$ @4 85 $\frac{3}{4}$ , and 4 86 $\frac{1}{2}$ @4 86 $\frac{3}{4}$ , respectively. The price of silver in London weakened and then strengthened again; it was 28 3-16d. Oct. 1, 27 9-16d. Oct. 13 and 28 $\frac{1}{4}$ d. Oct. 31.

**NOVEMBER.—Current Events.**—A great stimulus to business activity and to Stock Exchange speculation was given by the result of the national elections. The returns showed that the Republican or sound money party would not only retain its hold on the House of Representatives in the next Congress, but after March 4, 1899, would have such a large majority in the United States Senate that thereafter the silver obstructionists in that body would be shorn of their power to block financial legislation. Abroad, also, the outlook improved. The new French Ministry decided to recall the Marchand mission from Fashoda, and apprehensions of trouble between France and Great Britain disappeared. Another possible source of disturbance among the European nations was removed through the fulfilment of the pledge of the great Powers of autonomy to the people of the Island of Crete. On the 14th the last Turkish soldiers left the island, and subsequently Prince George of Greece assumed office as High Commissioner of the Powers. The peace negotiations between the United States and Spain dragged, but finally eventuated in definite assurance of peace. At a meeting of the Peace Congress on the 4th, the Spanish Commissioners rejected the proposition of the United States to take the entire Philippine group, even though Spain be reimbursed for certain "pacific" expenditures made by her. Out of this reports of a probable rupture arose, but they found acceptance only by "bear" operators on the Stock Exchange. At a meeting of the Congress on the 21st, formal announcement was made that the United States would insist on the cession of the islands (Spain to receive \$20,000,000) and November 28th was fixed as the date for a definite reply. On that date Spain acceded to these terms, but under protest. In Germany the financial situation continued acute, and the Imperial Bank of Germany, as noted below, raised its discount rate to 6 per cent, the highest point reached since the Paris financial crisis in 1882. Elsewhere in Europe, however, the effects of this action were slight. The coal strike at the Virden mines in Illinois came to an end, the Chicago-Virden Coal Company agreeing to pay the State scale of 40 cents a ton. There were large sales of print cloths, and with shortened production stocks were heavily reduced; prices advanced from 2 to 2 1-16 cents. Bleached cottons about the middle of the month were reduced  $\frac{1}{2}$  cent, to the lowest figure on record, but later, with the general improvement in the dry goods trade, part of the loss was recovered. Raw cotton also advanced, and middling uplands closed at 5 9-16 cents per pound, against 5 5-16 cents Oct. 31. At Augusta, Ga., the operatives struck against the reduction in wages determined on the previous month. The price of refined sugar was advanced 5 16 cent per pound, to 5 5-16 cents, with subsequent reaction to 5-18 cents. On the 26th and 27th a blizzard passed over the North Atlantic States and created great havoc, besides seriously interrupting traffic. Among the disasters was the foundering of the side-wheel steamer Portland, bound from Boston to Portland, with the loss of all on board. The Wool Exchange of this city was reorganized independent of the Macnaughtan brothers, and resumed business, but with the

auction sales eliminated. Senator Thomas C. Platt's Tioga bank also reopened its doors.

**Railroad Events and Stock Exchange Matters.**—Great buoyancy developed on the Stock Exchange as the result of the elections, and transactions were on a large scale—the stock sales 11,004,064 shares, the bond sales \$104,850,720. Among the new speculative favorites Atchison was prominent and the preferred stock advanced from 35¼ to 47¾, and the common from 12¼ to 17. A drive was made against Delaware & Hudson, which dropped to 93, but the latter part of the month even the anthracite properties shared in the rise. The Pacific roads' stocks fell off occasionally on reports of differences between the various companies as regards proposed extensions. The Baltimore & Ohio reorganization committee bought the first preferred stock held by the Johns Hopkins University and others, removing the only obstacle to the reorganization, and the securities sharply advanced. Chicago & Alton spurted up from 151¼ to 167, on report of a probable sale of the road; Bur. & Quincy sold up from 114¼ to 120¾, North West common from 131 to 142, Louisville & Nashville from 56¼ to 63¾, the higher prices being all made the last ten days. The American Cotton Oil Co. declared its first dividend (3 per cent) on the common stock. The Pacific Mail dividend was increased. The Atlantic Coast Line Co. distributed 100 per cent in stock. The Continental Tobacco Co., with authorized capital of \$75,000,000 (present issue \$60,000,000) was formed; also the International Silver Co., with \$20,000,000 capital. The Lebanon Springs Ry. was acquired in the interest of the new purchasers of the Rutland. The N. Y. Court of Appeals declared the Anti-Ticket-Scalping law unconstitutional. The Chicago & West Michigan announced that the December coupons would be paid in full. The People's Gas Light & Coke Co. (Chicago Gas), announced an increase in its stock from \$25,000,000 to \$30,000,000. The Union Pacific Denver & Gulf was sold at foreclosure. The Union Pacific definitely arranged to absorb the Oregon Short Line and to increase its stock \$27,460,100 for that purpose.

**The Money Market.**—The revival of trade and the increasing speculation on the Stock Exchange led to a slight hardening in money rates. From \$26,091,550 on Oct. 29 the surplus dropped to \$15,011,800 Nov. 12, but by Nov. 26 there was a recovery to \$18,857,575. There was a return flow of money from the interior, and after the first two weeks the money holdings of the banks again increased; they were reported \$214,039,900 Nov. 26, against \$216,485,100 Oct. 29. The loans between those dates increased from \$667,232,600 to \$691,419,800, and the deposits from \$761,574,200 to \$782,729,300. Call money temporarily touched 4 per cent on the 9th, but after that 3 per cent was the maximum. Banks and trust companies quoted 2¼ per cent at the close; time money then was 2¼ for thirty days, 3 for sixty to ninety days, 3 to 3¼ for four months, and 3¼ per cent for five to six months. For commercial paper rates were 3¼ to 3½ for double names, and 3¼@4¼ for prime and 4¼@5¼ for good single names.

**Foreign Exchange, Silver, Etc.**—Rates for sterling exchange declined heavily, leading to a renewal of gold imports the last of the month. The Bank of Germany made two further advances of one-half per cent each in its discount rate, on the 8th and 19th, bringing it up to 6 per cent, the highest figure since 1882. But the disturbance was not reflected to any great extent at the other financial centres. At London, indeed, the open market rate dropped to 3¼, though on the last day of the month there was a sudden spurt upward again to 3½@3¾, on the announcement of the taking of gold for New York, with coincident takings for Germany. At Paris the open market rate did not get above the official rate of the Bank of France, namely 3 per cent. At the German monetary centres the outside rate was 5¾ per cent on the 18th, but after the official rate was advanced to 6 per cent, it dropped to 5¼@5½, and so closed. Except on the first three days, when investment purchases of sterling were still a feature, the course of exchange was steadily downward. For actual business rates were 4 82¼@4 83 for sixty day bills, 4 86¼@4 86½ for sight and 4 86¾@4 87 for cable transfers on the 3d, but only 4 81¼@4 81½, 4 84¼@4 84½ and 4 84¼@4 85, respectively, on the 30th. Dealings in cable transfers were disturbed by doubts as to the proper amount of internal revenue stamp required, some bankers affixing only a two-cent check stamp. After the ruling of the Commissioner of Internal Revenue that such bills were subject to an ad valorem tax of four cents per \$100 [for ruling see CHRONICLE of November 26, page 1000], the issue of transfers became limited. The price of silver in London declined fractionally, being 27 9-16d. Nov. 30, against 29 5-16d. Nov. 1. Spain abolished the prohibition on the exportation of the metal.

**DECEMBER.**—**Current Events.**—With the definite signing of the Treaty of Peace with Spain on December 10 a further decided stimulus was given to trade revival. In the cotton goods industry, under the policy of restriction pursued, aided also by the plan of a joint selling agent, great inroads were made on the accumulated stocks, and print cloths further advanced from 21-16 cents to 2¾ cents per yard. The anthracite coal trade likewise revealed a change for the better, and an advance in prices January 1st Western points was agreed upon. Bank clearings at 7,357 million dollars were the largest for any month of any year. The gold reserve in the U. S. Treasury made a new high record

at \$246,973,027 Dec. 31. Iron production at 235,528 tons per week, December 1, also surpassed anything previously known and prices advanced moderately. Refined sugars underwent a further reduction, bringing granulated down to 5 cents per pound, but that was owing to the competition between the Sugar "Trust" and the independent refiners. The announcement that the insurgents at Iloilo, capital of the island of Panay and second city of the Philippines, had taken possession of that place on the evacuation by the Spaniards and before the American troops arrived, created some uneasiness in political circles, but was otherwise without influence. Breadstuffs shared in the rising tendency and in N. Y. wheat closed at 81¼ on Dec. 31, against 76½ cents Nov. 30, and cash corn at 44½ cents, against 40¾ cents. A favorable event was the decision of Judge McCormick in the United States Circuit Court at Dallas, enjoining the Texas Railroad Commission from enforcing any of its rate schedules made since 1894; also the decision of Judges Thayer and Amidon declaring the rates of the North Dakota RR. Commission unreasonable. On the other hand the Kansas Legislature met in special session and passed a law reducing rates. The Government new 3 per cents sold at 107¼, the highest price of the year.

**Railroad Events and Stock Exchange Matters.**—On the Stock Exchange the month proved the most buoyant of the whole year. Both the stock sales at 15,233,759 shares and the bond sales at \$126,677,900 were the largest of any month of any year. Prices almost continuously advanced, and in the last week touched in the great majority of cases the highest figures of the month and year. St. Paul common rising from 113¾ to 120¾, Rock Island from 107¾ to 114¾ and Burlington & Quincy from 118¾ to 125¼. Central Pacific further advanced from 31 to 44¼, on talk of an early submission of a reorganization plan. The Baltimore & Ohio receivers sent a letter to the Inter-State Commerce Commission announcing that published tariff rates would be strictly adhered to after the 1st of the year, and invoking the aid of the Commission to prevent deviations on the part of other roads. The Northern Pacific Company issued a statement intended to put at rest the stories that there was serious friction in the relations with neighboring roads. The House of Representatives on the 7th, by a vote of 119 to 101, passed the Anti-Ticket Scalping law. A plan for the reorganization of the Baltimore & Ohio Southwestern was submitted, making the road part of the B. & O. system. The American Tin Plate Co., with \$50,000,000 stock, was organized. Glucose Sugar Refining stock was listed on the Stock Exchange—\$24,027,300 common, \$12,619,30¾ preferred. The Chicago Great Western paid its first dividend on its preferred "A" stock. The Northern Pacific made its first dividend on the common stock, the Atchison its first dividend on the preferred stock; the Denver & Rio Grande preferred dividend was increased. The Cape Fear & Yadkin Valley was purchased at foreclosure by the Atlantic Coast Line.

**The Money Market.**—No new developments occurred in the money market. There were one or two flurries in call money, but these were less prominent than usual at the end of the year. On the 20th the Stock Exchange rate touched 4½ per cent, and on the 28th the urgency of belated borrowers caused a temporary advance to 6 per cent. On the latter day also some of the banks and trust companies obtained 6 per cent for new loans in a few instances. On the last day the range on the Stock Exchange was 2 to 4, while the rate at banks was 3@3½ per cent. In time money there was practically no change, offerings being liberal at 3 per cent for sixty days to four months and 3½ per cent for five to six months; sixty day loans on sterling exchange collateral were reported the last week at 2½ per cent. Commercial paper was 3 per cent for choice double names, and 3¼@3¾ for prime and 4@5 for good single names. The loans and deposits of the Clearing House banks rose to the highest points ever reached, the loans crossing 700 millions and the deposits 800 millions, and standing respectively at \$718,308,700 and \$823,037,700 on December 31. The money holdings Dec. 31 were \$224,940,400, against \$184,554,800 Jan. 1, and the surplus reserve \$19,180,975 against \$15,788,750. The Treasury Department Dec. 22 gave notice that the balance of moneys from the Union Pacific sale still remaining with the depository banks, estimated at \$11,500,000, would be withdrawn in ten weekly drafts, the first Dec. 28.

**Foreign Exchange, Silver, Etc.**—The exchange market was quiet and devoid of special features. Long sterling, kept strong by the investment demand for exchange, advanced from 4 81¼@4 81½ on the 1st to 4 81¼@4 83 on the 31st. Short sterling on the 1st opened at an advance of one-quarter of a cent, at 4 84¼@4 84½, touched 4 84¼@4 85 on the 20th, but closed at 4 84¼@4 84½. Cable transfers also opened at an advance of one-quarter cent, at 4 85@4 85¼, and closed at these figures, though having in the interval been both one-quarter lower and one-quarter higher. There were some considerable arrivals of gold at San Francisco from Australia, but only small amounts came from Europe after the first ten days. The Bank of England lost £3,639,212 bullion between Nov. 24 and Dec. 29, but the open market discount rate declined from 3½@3¾ to 3¼ per cent. At Berlin and Frankfurt, under the continuance of the crisis, there was an advance to 5½, with a reaction at the close to 5¼ per cent. In Paris the outside rate remained at 3 per cent. Silver continued weak, and the price further declined from 27 9-16d. Nov. 30 to 27 5-16d. Dec. 31.

## COURSE OF PRICES OF RAILROAD AND MISCELLANEOUS BONDS FOR THE YEAR 1898.

[Compiled from sales of bonds at the New York Stock Exchange.]

**Clearings by Telegraph.**—Sales of Stocks, Bonds, &c.—The unjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1893 there is an increase in the aggregate of only 3·8 per cent, but the figures cover only five business days this year, the New Year's holiday having intervened. In 1893 the figures embraced a full week. So far as the individual cities are concerned, New York exhibits an increase of 4·8 per cent, and the gains at other points are: Boston 9·1 per cent and New Orleans 5·1 per cent. The losses are, Philadelphia 8·1 per cent, Baltimore 12·8 per cent, Chicago 1·2 per cent and St. Louis 18·8 per cent.

CLEARINGS.		Week ending January 7.

—Redmond, Kerr & Co. advertise, on page ix, a list of investment bonds and guaranteed stocks.

—Benjamin Fisher, 50 State Street, Boston, advertises in another column a list of Eastern securities.

—Messrs. Lee, Higginson & Co., Boston, invite the attention of investors to American Bell Telephone fours.

—Messrs. C. H. White & Co. offer several issues of railway and municipal bonds. The advertisement is on page vii.

—Farson, Leach & Company offer a selected list of "January Investments." See their advertisement on page ix.

—Attention is directed to an advertisement of "unlisted stocks" dealt in by F. J. Lisman & Co. The list will be found on page vii.

—A list of bonds for January investments is advertised in another column by Messrs. E. H. Gay & Co., New York, Boston and Philadelphia.

—The attention of investors is directed to the long list of high-grade bonds advertised in this issue of the CHRONICLE by Messrs. Goldman, Sachs & Co.

—In the QUOTATION SUPPLEMENT issued with to-day's CHRONICLE will be found an advertisement of investment bonds for sale by Simon Borg & Co.

—L. S. Frankenheimer, retiring from active business, has withdrawn from the banking firm of Asiel & Co., and Siegfried S. Prince and William Erdmann have been admitted as partners of the same.

—Mr. Egbert Mills, for many years with the banking house of Konntze Brothers, has formed a partnership with Mr. J. W. Gilbough, under the firm name of Gilbough & Mills, with offices at 2 Wall Street.

—Rudolph Kleybolte & Co., 1 Nassau Street, offer for sale a number of high-grade investment municipal securities which they recommend as safe investments. They furnish in each instance full transcripts and attorney's opinion as to validity.

—C. Schumacher & Co. offer at par and interest the Georgia & Alabama Railway first mortgage consolidated 5 per cent 50-year gold bonds due 1945, and give notice that on Jan. 10 the price of the unsold portion will be advanced to 101 and interest.

—Messrs. Mason, Lewis & Co., of Boston and Chicago, having disposed of \$250,000 State of Jalisco, Mexico, 6 per cent gold bonds, maturing July 1, 1928, in less than three weeks after offering them, the firm will now sell (in conjunction with the Geo. D. Cook Co., Chicago) \$500,000 more of the same issue of bonds. It was the intention to place most of these bonds abroad, but the ready sale of the first lot offered in the American market and the many inquiries received for additional bonds prompted this offering of \$500,000 more here. The advertisement is published in another column.

\* Erroneously reported last week as common stock.  
 † The dividend noted last week on Rhode Island Perkins Horseshoe common stock was an error, none having been declared on the common.

WALL STREET, FRIDAY, JAN. 6, 1899.—3 P. M.

**The Money Market and Financial Situation.**—The investment demand for securities which has been frequently noted of late in Wall Street was somewhat overshadowed this week by heavy speculative trading. With the passing of the holiday period came the general belief that the money market is to continue easy and the large amount of funds released by interest and dividend payments is now available.

The news which accumulated over the triple holiday was not regarded as altogether favorable, especially such as referred to the political situation abroad and the attitude of the natives in the Philippine Islands. There have been liberal sales for foreign account, which may have been stimulated by the above, but are no doubt due in part to the preference which London has for some time shown for parting with American securities instead of gold.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 6 per cent. To-day's rates on call were 2½ to 6 per cent. Prime commercial paper quoted 3 to 3½ per cent.

NEW YORK CITY CLEARING HOUSE STATEMENT.

	1898. Dec. 31.	Difference from Prev. week.	1897. Dec. 31.	1897. Jan. 2.
Capital.....	\$58,272,700		\$58,222,700	\$60,772,700
Surplus.....	75,767,900		74,730,800	74,888,100
Loans & discounts.....	718,308,700	Inc. 6,095,600	607,741,600	491,375,900
Circulation.....	16,270,600	Inc. 34,300	15,507,200	19,600,100
Net deposits.....	823,037,700	Inc. 8,045,900	675,064,300	530,745,000
Specie.....	169,756,300	Inc. 780,600	104,730,700	76,312,300
Legal tenders.....	55,184,100	Inc. 792,800	79,824,100	89,640,900
Reserve held.....	224,940,400	Inc. 1,583,400	184,551,800	165,983,200
Legal reserve.....	205,759,423	Inc. 2,021,475	163,760,050	132,696,250
Surplus reserve.....	19,180,975	Dec. 438,075	15,788,750	33,286,950

The Bank of England weekly statement on Thursday showed an increase in bullion of £1,002,982, and the percentage of reserve to liabilities was 30.30, against 43.20 last week; the discount rate remains unchanged at 4 per cent. The Bank of France shows a decrease of 11,075,000 francs in gold and 12,425,000 francs in silver.

**Foreign Exchange.**—The foreign exchange market has been firm on a somewhat better inquiry for bills, and rates are quoted fractionally higher than last week.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 81¼ @ 4 82; demand, 4 81¼ @ 4 81½; cables, 4 85 @ 4 85¼; prime commercial, sixty days, 4 81¼ @ 4 81½; documentary commercial, sixty days, 4 80½ @ 4 81¼; grain for payment, 4 81¼ @ 4 81½; cotton for payment, 4 80¾ @ 4 81; cotton for acceptance, 4 81¼ @ 4 81½.

Posted rates of leading bankers follow:

	Jan. 6.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 82½	4 85½	
Prime commercial.....	4 81¼ @ 4 81½		
Documentary commercial.....	4 80½ @ 4 81¼		
Paris bankers' (francs).....	5 23½ @ 227½	5 19½ @ 25 20	
Amsterdam (guilder) bankers.....	39½ @ 39½	40 @ 40½	
Frankfort or Bremen (reichmarks) bankers	94½ @ 94½	94½ @ 94½	

**United States Bonds.**—Sales of Government bonds at the Board include \$50,000 4s, comp. in 2½, at 129¾; \$10,000 4s, reg., 1925, at 129; \$12,000 4s, comp., 1907, at 112½ to 112¾; \$60,000 4s, reg., 1907, at 112 to 112½; \$50,000 5s, comp., at 113¼; \$14,000 2s, reg., at 99¾; \$13,000 3s, reg., at 106½ to 107½; \$280,700 3s, comp., at 107 to 108, and \$6,800 ditto (small bonds) at 106½ to 107. The following are the daily closing quotations: for yearly range see seventh page following.

This table was compiled from the Board of Trade; no sale was made.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$4,000 Va. fund. debt 2-3s of 1911 at 82½.

In the market for railway bonds the volume of business was irregular, amounting to about \$6,300,000 par value on Tuesday to less than \$3,700,000 on Wednesday, and was well distributed throughout the list of medium class bonds. Columbus Hocking Valley and Toledo issues were highly erratic on the issuance of the reorganization plan.

Missouri Kansas & Texas were among the most active bonds and in sympathy with the stock advanced between 2 and 3 points. Union Pacific Denver & Gulf were in request and show a gain of 3½ points.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

	Sales	Week ending Jan. 6.	Jan. 1 to Jan. 6.
N. Y. Stock Exch.	1899.	1898.	1899.

**Railroad and Miscellaneous Stocks.**—The stock market reflects a speculative as well as an investment demand for shares, and has been irregular, although generally firm until to-day, when the market was weak and prices generally declined. Transactions averaged about 800,000 shares per day, and were well distributed. The irregularity mentioned applies to the railway list in only a few cases. Pittsburgh Cincinnati Chicago & St. Louis advanced nearly 9 points on a steady demand. Missouri Kansas & Texas preferred was bid up 3 points on rumors of a closer connection with Chicago & Alton. Brooklyn Rapid Transit was the most active stock on the list, and advanced over 14 points on rumors of progress with consolidation plans, and at the same time Manhattan Elevated gained 5½ points. Both of these stocks participated in the decline today.

Federal Steel has continued the active feature of the miscellaneous list, and bids fair to supplant American Sugar as the favorite in speculative circles. The advance in these shares during the week, however, is relatively limited.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every ITEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

York Southern.	October...	7,660	7,964	61,232

a These figures include results on leased lines. b Includes earnings from ferries, etc., not given separately. c Includes Des Moines & Kansas City for all periods. d Includes operations of the Chic. Burlington & Northern in both years. e Includes results on A. T. & S. Fe, Gulf Col. & S. Fe, S. Fe Pacific, old Atlantic & Pacific and So. Cal. Ry. f Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. g Beginning July, earnings of Memphis Division and Middleborough & Aiken branches are included for both years. h Results on Cin. Lebanon Northern are included from September 1 in both years. i Traffic suspended on account of Yellow Fever.

\* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio So'western for both years, but Ohio, Valley and Chicago and for Texas 1898 only. Results on Yazoo Branch excluded after July 1, 1898.

‡ Mexican currency.

§ Covers results of lines directly operated east of Pittsburg.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the fourth week of December our preliminary statement covers 56 roads, and shows 12.24 per cent increase in the aggregate over the same week last year.

4th week of December.	1898.	1897.	Increase.	Decrease.

Mexican Southern...	13,105	13,611		536
Northern Alabama...	5,192	4,177	1,015	
Texas Central...	12,936	8,704	4,232	
Un. Pac. Den. & Gulf...	79,082	91,306		12,224
Total (85 roads)...	8,894,861	8,218,551	800,730	143,428
Net increase (8.11 p. c.)			660,310	

For the month of December 63 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of December.	1898.	1897.	Increase.	Per Cent.
Gross earnings (62 roads)	\$ 33,266,666	\$ 30,887,488	\$ 2,379,198	7.70

It will be seen that there is a gain on the roads reporting in the amount of \$2,379,198 or 7.70 per cent.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroad reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of December 17, 1898. The next will appear in the issue of January 21, 1899.

\* After deducting "reserve fund for repairs of steamers," balance in November, 1897, was \$93,457, against \$59,331, and from May 1 to November 30 \$924,193, against \$363,151. The reserve fund for depreciation and general and extraordinary repairs of steamers has been increased to the standard of the English companies, i. e., five per cent upon the value of the steamers.

## ANNUAL REPORTS.

**Annual Reports.**—The index to recent annual reports is omitted this week, but reports published during the last half of 1898 can be found by reference to the general index in last week's CHRONICLE, where all references to annual reports are designated by heavy type.

## GENERAL INVESTMENT NEWS.

**Reorganization Plans, Etc.**—See index in last issue.

**American Steel & Wire.**—*New Acquisitions Proposed.*—*New Stock Issue.*—There have been numerous contradictory statements about as to the company's plans for acquiring control of additional plants. Consequently as the company's headquarters are in Chicago, the following from the Chicago "Economist" is of interest:

It can be said, authoritatively, that negotiations are well advanced for the acquisition of the Washburn-Moen Co. and for the Cleveland Rolling Mill Co. In fact it is understood that both concerns have practically been secured, the former at a price of \$3,500,000 and the latter for \$1,500,000, but the management of the American Steel & Wire Co. withholds official announcement on the subject. There is no doubt that the prospect of making these purchases was the cause of the rapid advance in Steel & Wire common and preferred the first of this week. It is reported that the concerns mentioned above will be paid for in cash, which will be raised by an issue of \$5,000,000 preferred stock, to be sold at par to holders of the preferred now outstanding, one share of new preferred to carry a share of common. Holders of the present preferred will be given the right to subscribe pro rata for the new stock. Last month a Boston house sent out a circular asking that Washburn-Moen stock be deposited under an option arrangement permitting its sale at 162½ any time up to Jan. 1. It is said that but little stock was deposited. It is also said, authoritatively, that this call for the stock had no relationship with the American Steel & Wire negotiations. Other plants may be acquired. The "Iron Age" has the following:

The American Steel & Wire Co. has practical control of the Cincinnati Barb Wire Co., the Pittsburgh Wire Co., the rod and wire plant of the Shenango Valley Steel Co. and of the Cleveland Rolling Mill Co. Negotiations are still progressing with the Oliver interests at Pittsburgh and with the Washburn-Moen Co. We understand that the capital stock of the American Steel & Wire Co., now \$24,000,000 equally divided between common and preferred, is to be increased to close on to \$100,000,000, also equally divided between common and preferred. Report has it that negotiations are pending for a steel plant in Central Ohio.—V. 67, p. 632.

**Baltimore & Ohio RR.**—*Schuylkill River East Side RR.*—*Proposed Plan.*—The Paul Committee representing the bonds of the Schuylkill River East Side RR. (see V. 67, p. 1159, 1206) announce in substantially the following words the terms of a proposed agreement with the Baltimore & Ohio:

The Baltimore & Ohio, as reorganized, to take a lease of the Schuylkill River East Side RR. at a rental sufficient to pay interest at the rate of 5 per cent per annum free of taxes upon the first mortgage bonds in consideration of the agreement on the part of the bondholders that the B. & O., as reorganized, shall have the option to purchase the said bonds at the price of 110 and accrued interest upon thirty days notice at any time after the expiration of two years from Dec. 1, 1898, and prior to Dec. 1, 1903. The B. & O., as reorganized, is also to guarantee the payment of a sum sufficient to pay the interest at 5 per cent upon the bonds until Dec. 1, 1903, and should the option to purchase not be exercised prior to that date, to guarantee the payment of interest until, and the principal at, maturity. Upon the arrangement becoming operative the coupon now in default will be paid in cash.

The arrangement will not become operative until all the holders of such bonds outstanding, or such lesser amount as such reorganization managers or the new company shall approve, shall have assented thereto and presented their bonds for stamping accordingly. Bondholders desiring to accept the arrangement must deposit their bonds, or their receipts representing the bonds already deposited with the Pennsylvania Company for Insurances on Lives and Granting Annuities, 517 Chestnut St., Philadelphia, on or before Jan. 10, 1899.

In case the proposed arrangement should not become operative, we will hold the bonds for the protection of the depositors. We regard the proposed arrangement as highly advantageous to the bondholders and urge a prompt deposit of the bonds.—V. 67, p. 1356.

**Baltimore & Ohio Southwestern Ry.**—*Receiver Appointed.*—At Cincinnati on Saturday last Judge Judson Harmon, general counsel of the company, was appointed its receiver. This is merely incidental to the proposed reorganization. The company confessed judgment for \$809,100 to the Mercantile Trust on a loan of \$800,000 made last October.

On Jan. 5 Judge Thompson, of the United States District Court, appointed Mr. Joseph Robinson co receiver. Mr. Robinson is now with the Norfolk & Western as Superintendent of the Scioto Valley Division.

**Plan Endorsed.**—The directors have endorsed and urgently recommend the acceptance of the plan of reorganization as published in V. 67, p. 1261, 1262.—V. 67, p. 1355.

**Boston Terminal.**—*New York New Haven & Hartford RR.*—*New Boston Station Opened.*—The new Union Station at Boston, one of the largest and finest railway stations in the world, was dedicated last Saturday, and on Sunday was put in regular use.—V. 67, p. 1355, 1208.

**Burlington Cedar Rapids & Northern Ry.**—*Extra Dividend.*—The directors have declared a semi-annual dividend of 2 per cent and an extra dividend of 2 per cent, both payable Feb. 1. The rate was 4 per cent per annum regularly from 1896 to 1898 and 3 per cent from 1893 to 1895, both inclusive.—V. 66, p. 570.

**Chicago & Alton RR.**—*No Sale Yet.*—It has been widely reported this week that the Chicago & Alton sale has been finally consummated, but from all we can learn the report is premature and the outcome of the deal is still dependent on various contingencies.—V. 67, p. 1262.

**Chicago Milwaukee & St. Paul Ry.**—*Bonds Called.*—Sixty-nine income sinking fund convertible 5 per cent bonds

(\$69,000 in all) have been selected by lot to be paid for at 105. See advertisement on another page.

**Improvements.**—Improvements costing, it is stated, \$2,000,000 are contemplated. President Miller is quoted thus:

"Most of the work covered by the proposed expenditures will be completed in 1899, a part of it will require a longer time. These expenditures will in no wise affect dividends, although the work is to be paid for out of the road's earnings. The track elevation of the Chicago division will be completed during the year. A double track from Savanna, Ia., to Sabula, Ill., 2½ miles, will be constructed. Grades will be cut down and bridges strengthened from Sabula, Ia., to Marion, Ia., a distance of 90 miles. Work of strengthening bridges from Marion, Ia., to Council Bluffs will be commenced. Grades on the La Crosse division will be lowered and bridges strengthened. There will also be many miles of tracks ballasted on all lines where it is needed. The road is building its own freight cars, and a full force will be maintained in the car shops until next September, when a sufficient number of cars will be completed to meet all requirements. As the road is well supplied with engines, none will be purchased."

**Des Moines Northern & Western Purchased.**—The Chicago Milwaukee & St. Paul Ry. Co. has acquired practically all the stock and bonds of the Des Moines Northern & Western. The road is 149 miles long and comprises two lines, one from Des Moines to Fonda, 114 miles, and another to Boone, 35 miles.—V. 67, p. 577.

**Citizens' Street RR. of Indianapolis.**—*Resignation of Director.*—*Plan of Reorganization.*—Mr. W. W. Kurtz is quoted as having replied substantially as follows to the inquiry why he was to retire from the board of directors:

"My retirement is principally for the reason (there are others) that a scheme has been formulated for the settlement of the franchise difficulties of the company which embraces a plan for the reorganization of the company of which I do not approve, because in its effect it divests the stockholders of too much of their rights and bestows them upon those who are not entitled to them in any manner."—V. 67, p. 1356.

**Columbus Hocking Valley & Toledo Ry.**—**Columbus Sandusky & Hocking RR.**—**Toledo & Ohio Central Ry.**—*Reorganization Plan.*—J. P. Morgan & Co., after a protracted examination that satisfies them of the necessity for a large reduction in the fixed charges, have issued a plan for the reorganization of the Columbus Hocking Valley & Toledo Ry. This plan, as expected, provides for leaving undisturbed the \$6,085,000 bonds issued prior to the \$3,000,000 consol. 5s of 1881, and also car trusts to the amount of \$1,070,000. The \$300,000 outstanding bonds of the Wellston & Jackson Belt Railway and the \$175,000 outstanding bonds of the Ohio Land & Ry Co. may be excluded from the reorganization or dealt with on such basis in cash, or in new securities, as the reorganization managers shall deem expedient.

The property will be foreclosed, and the other bonds exchanged for new securities on certain terms. The plan authorizes the issue of \$5,000,000 common and the same amount of preferred stock "for the purpose of acquiring interests in the Toledo & Ohio Central Ry. and Columbus Sandusky & Hocking RR. Co., or successor companies, if at any time thought practicable and desirable." A syndicate has been formed which undertakes to furnish the estimated cash requirements of the plan. The plan in detail is given in our advertising department.—V. 67, p. 1206, 1160, 732.

**Eastern Trunk Lines.**—*Rates to be Maintained.*—At a dinner given at Cincinnati on Dec. 29 by President M. E. Ingalls of the Cleveland Cincinnati Chicago & St. Louis and Chesapeake & Ohio railroads, an understanding was reached that freight rates shall be maintained from Jan. 2, according to the tariff filed with the Inter-State Commerce Commission at Washington. President Ingalls' guests included:

W. M. Green, Vice-President of the Baltimore & Ohio Southwestern; Samuel Hunt, Receiver of the Toledo St. Louis & Kansas City; James McCrea, Vice-President of the Pennsylvania (West); E. R. Bacon, President of the Baltimore & Ohio Southwestern; V. T. Mallott, Receiver of the Vandalia Lines; W. H. McBoel, Vice-President and General Manager of the Chicago Indianapolis & Louisville; M. D. Woodford, President of the Cincinnati Hamilton & Dayton; W. H. Conniff, President of the New York Chicago & St. Louis; Charles M. Hayes, General Manager of the Grand Trunk; George T. Jarvis, Receiver of the Louisville Evansville & St. Louis; J. J. Harahan, Vice-President of the Illinois Central; M. J. Carpenter, President of the Chicago & Eastern Illinois RR.; and Edward Colston, of Cincinnati.—V. 67, p. 1044.

**Litchfield Carrollton & Western RR.**—*Sale Confirmed.*—The sale of the property to Johnson Bros. & Faught of St. Louis, Mo., on Nov. 26, has been formally confirmed by the United States Court. It is understood the firm has transferred its rights to H. S. Carroll and D. R. Francis.—V. 67, p. 1161.

**Lynn & Boston RR.**—*New Stock.*—The Lynn & Boston RR. Co. has applied to the Massachusetts Railroad Commission for authority to issue \$960,000 new stock to be used in part for the retirement of the coupon notes of 1897, the total authorized issue of which is \$1,200,000.—V. 67, p. 1260; V. 65, p. 1171.

**Metropolitan West Side Elevated RR. of Chicago.**—*Sold.*—At the foreclosure sale Wednesday, Jan. 4, the property was purchased for \$6,000,000, the upset price, by Frederick P. Olcott, Chairman of the Reorganization Committee. The reorganization plan, now to be consummated, was in V. 67, p. 126, and provides for the issuance of \$7,500,000 common and \$9,000,000 preferred stock, and a mortgage to secure \$10,000,000 of 4 per cents due Aug. 1, 1938.—V. 67, p. 1357.

**Michigan Telephone Co.**—**Erie Telegraph & Telephone Co.**—*Purchased.*—A controlling interest in the \$2,500,000 capital stock of the Michigan Telephone Co., it is understood, has been acquired by the Cleveland Telephone Co., which is one of three subsidiary properties of the Erie Telegraph & Telephone Co. The Michigan Company in 1897 authorized the issue of \$750,000 of 5 per cents due July 1, 1917 (V. 65, p. 621). A Cleveland paper said recently:

Papers were executed to-day to transfer a large interest in the stock of the Michigan Telephone Co., and placing the management under the control of the managers of the Cleveland Telephone Co. The Michigan company operates

exclusively under the American Bell Telephone Company's license in Michigan, with 19,400 subscribers and 19,700 miles of long distance wire. The capital stock of the company is \$2,500,000.—V. 67, p. 901, V. 67, p. 682.

**Nashville Street Ry.—Bonds Called.**—All the remaining bonds of the old South Nashville Street Railway, \$115,900 in amount, have been called, and will be redeemed on Jan. 31 at First National Bank of Nashville.—V. 67, p. 1004.

**New York Gas & Electric Light Heat & Power—Edison Electric Illuminating Co. of New York.—Deal Pending.**—Negotiations for the acquisition of the Edison Electric Illuminating Co. of New York by the New York Gas & Electric Light, Heat & Power Co., it is understood, are proceeding favorably, and will probably soon be completed. While the terms are withheld, it is supposed the Edison stockholders will be given bonds in exchange for their shares in a manner similar to that employed in the case of the Brooklyn Company. The advance, moreover, in the securities of the Kings County Electric Light & Power Co., controlling the Brooklyn Company, as well as the appearance of Mr. Brady's name in connection with both the new companies, gives color to the idea some time since suggested that the Kings County Co. will also be controlled by the New York Gas & Electric Light, Heat & Power Co.—V. 67, p. 1263, 1207.

**New York New Haven & Hartford RR.—Bonds Paid.**—The company has paid in cash the \$1,300,000 New Haven & Northampton 7 per cent bonds due Jan. 1.—V. 67, p. 1208.

**New York Ontario & Western Ry.—Additional Coal Properties.**—The following official announcement is made:

"All the coal properties of the Lackawanna Iron & Steel Co. in and about Scranton (formerly of the Lackawanna Iron & Coal Co.), estimated to contain from 25,000,000 to 30,000,000 tons of anthracite coal, have been purchased by parties interested in the New York Ontario & Western Ry. Co., and the transportation of the output will be secured to the road of that company. The capacity of the collieries now open is about 800,000 tons per annum. The coal purchased is of the highest grade, and has been used extensively in the manufacture of steel at Scranton and other places."

The price paid by the syndicate, it is stated, was \$4,000,000. The additional coal traffic, it is expected, will raise the tonnage of the railroad company to a total of about 2,000,000 tons a year. It is understood that a company will be formed to mine and deliver the coal to the railroad, and that it will sell out to the New York Ontario & Western Ry. Co. at cost, should that company at any time decide to purchase the property.—V. 67, p. 1264.

**North Hudson County Ry.—North Jersey Street Ry.—North Jersey Interests Secure Control.**—Bernard M. Shanley, a large stockholder in the North Jersey Street Ry., and his associates, have purchased enough capital stock of the North Hudson County Ry. to give them control of the property. The purchase price is not announced, but it is said to have been about 165. This purchase has been followed by an agreement with the North Jersey Street Railway Co. by which the latter will allow the North Hudson to run its trolley cars over the North Jersey tracks in Wayne, Gregory and York streets, Jersey City, and thus reach the Pennsylvania Railroad ferry from Hoboken. This will do away with the use of horse cars over the Jersey City end of the Hudson County line.

Mr. Shanley and his associates have long owned a quarter interest in the \$1,000,000 stock of the North Hudson County, and the present purchase made from President Myles Tierney and Messrs. Ballantine and De Forest raises the amount owned, it is said, to about \$750,000. The change of control practically unites the North Hudson County to the North Jersey system, and it is thought doubtful whether any further steps towards merger will be taken, since they would involve, it is said, allowing passengers to ride over 15 miles for 5 cents. The Bergen County Traction Co. is also reported to have been acquired by North Jersey interests.—V. 62, p. 411; V. 67, p. 530.

**Ogdensburg & Lake Champlain Ry.—Rutland RR.—Sold.**—The reorganization committee of the Ogdensburg & Lake Champlain RR. has contracted to sell the old consols which it holds at 105 and overdue interest to the Rutland RR. Co. This is done in accordance with the terms of the original plan of reorganization, and renders inoperative the modification of the plan proposed last December. The total issue of consols is \$3,500,000, and the last coupon (aside from the 2 per cent recently paid for account of the new bonds proposed to be issued in exchange) was that of Oct., 1896. The sale, therefore, it appears, calls for the payment of \$4,000,000 or more. Announcement will be made at once to the security holders as to the amount payable to them for their interest in the proceeds of sale.—V. 67, p. 1161, 1209.

**Oregon RR. & Navigation.—Bonds Called.**—There have been called for the sinking fund \$159,000 of the Oregon Ry. & Navigation first mortgage 6 p. c. bonds. See advertisement on another page.—V. 67, p. 1208.

**Philadelphia Reading & New England.—Offer to Purchase.**—The reorganization committee has sent a circular to holders of certificates of deposit representing the first mortgage bonds offering to purchase about 49 per cent of their holdings. The Philadelphia "Financial News" says:

The prices offered, which are on a basis a little better than the foreclosure sale distributive value, plus 35 for assessment paid, are as follows: 4s, \$924 91; 4s, \$971 60; 5s, \$703 63. A holder of one bond may sell the whole, and all holders are requested to indicate what greater proportion than 49 per cent they would sell. The offer holds good until Jan. 10, inclusive, and holders will be

notified before Jan. 21 if a sufficient amount has been received to carry out the purchase. The committee say the reorganization plan is to be carried out, and holders who have made inquiry say that the management does not comprehend a transfer of a controlling interest to outside parties, though the offer caused some surprise that the contrary might be the case.—V. 67, p. 1058.

**St. Joseph & Grand Island Ry.—Dividend Reduced.**—The directors Thursday declared a dividend of 2 per cent on the first preferred stock. Both in January and July, 1898, 2½ per cent was paid.—V. 67, p. 947.

**St. Louis & Northern Short Line.—St. Louis Peoria & Northern Ry.—Lease.**—Since the organization last week of the St. Louis & Northern Short Line Co. (V. 67, p. 1358), its stockholders have authorized a lease of the St. Louis Peoria & Northern Ry. Co., now operating 164 miles of railroad from St. Louis to Peoria.

The new line northwesterly from Peoria to the Mississippi River has been definitely located to a connection with the "St. Paul" and "North Western" systems at East Clinton, and with the "Rock Island" system at Moline. The survey of the short connection southward from Marine, 28 miles from St. Louis, to a connection with the Louisville & Nashville system has been nearly completed. Two engineering parties are at work in the field to determine the low grade short line for the branch to Chicago. W. D. Taylor, formerly connected with the Louisville & Nashville system, is the Chief Engineer and Superintendent of Construction. Proposals for the equipment of the new company are being considered. The steel rails for the entire line contemplated have been purchased from the Illinois Steel Co. and partially delivered.

Of the \$13,160,000 cash subscribed for the completion of this St. Louis enterprise, as outlined in V. 67, pp. 843, 902, 957 and 1358, \$4,060,000 has been paid in, and the remainder is subject to call as required.

John N. Faithorn, now President and General Manager of the St. Louis Peoria & Northern Ry. Co., will become the President of the St. Louis & Northern Short Line. The St. Louis & Northern Short Line Co. has assumed the lease of terminal facilities in Chicago, made in October last by the St. Louis Peoria & Northern Ry. Co., and \$264,000 has been paid on account of rental, in conformity with the agreement for commutal of rental for ten years.—V. 67, p. 1358.

**Seaboard Air Line—Seaboard & Roanoke RR.—Offer to Purchase.**—A syndicate headed by John L. Williams & Sons, of Richmond, and Middendorf, Oliver & Co., of Baltimore, has offered to purchase the stock of the Seaboard & Roanoke (which controls the Seaboard Air Line, with its 928 miles of road) at a price which President Hoffman recommends the holders to accept. The total issue of Seaboard & Roanoke stock is \$1,388,400, of which about \$32,100 is held in the Hoffman pool, and is subject to sale upon vote of three-fourths in amount of the certificates of deposits representing the same (see V. 63, p. 715, 795, 924.) The pooling committee consists of Louis McLane and L. R. Watts.

The syndicate agrees to purchase the pooled stock, and it is understood it will offer to buy at the same price the shares not controlled by the pool. This price is reported in Baltimore to be \$200 per \$100 share. The syndicate, it is said, will also purchase stock in some of the other companies of the system, \$80, it is claimed, having been offered for Raleigh & Gaston shares and \$2.00 or thereabouts for shares of the old Bay Steamboat line.

Thomas F. Ryan, who owns about one-fourth of the Seaboard & Roanoke stock (including some of the pooled shares), and who has been trying for two years past to secure control of the property, on Thursday filed an application for an injunction in the Circuit Court at Baltimore to restrain the pooling committee from transferring about 3,000 shares of the pooled stock to any person other than himself and to compel the delivery to him of said 3,000 shares at \$125 per share. In accordance with an agreement made on Oct. 6, 1896 (see V. 63, p. 924), Mr. Ryan contends that a controlling interest in the Seaboard & Roanoke cannot be secured without this block of stock.

The purchasing syndicate is reported to include, with the firms above named, The Richmond Trust & Safe Deposit Co., the Mercantile Trust & Deposit Co. of Baltimore, the Baltimore Trust & Guarantee Co. and the Produce Exchange Trust Co. of this city. John Skelton Williams, who is prominent in connection with the transaction, is President of the Georgia & Alabama Ry., operating 459 miles of road between Montgomery, Ala., and Savannah, Ga., as shown on map in INVESTORS' SUPPLEMENT, page 64. Mr. Williams is quoted as saying:

"I do not apprehend that there will be any serious trouble caused by the action taken by Mr. Ryan. It may postpone the full development of our plan for a short while."

"Our contract with President Hoffman calls for the delivery of 7,400 shares of Seaboard & Roanoke stock. I expect Mr. Hoffman's directors will be in a position shortly to inform us whether they can do so. I am not at liberty to divulge our plan in full at present, as the details will have to be worked out. The syndicate, however, will maintain the Seaboard Air Line as an independent system. The purchase was not made in the interest of any other railroad company, nor has the Southern, the Atlantic Coast Line, or the Pennsylvania the least interest in the syndicate. We bought the property as an investment, and will operate it on our own account and not in connection with any other system."—V. 67, p. 1309.

**Western Maryland RR.—Bonds Paid.**—The \$120,000 of Baltimore & Hanover first 6s, due Jan. 1, 1899, were paid at the Mercantile Trust & Deposit Co., Baltimore.—V. 66, p. 810.

**Zanesville Ry. & Electric.—Sold.**—At the foreclosure sale on Jan. 3 the property was purchased as an entirety for \$75,000, the upset price, by J. M. Graham, of Boston, representing the bondholders.—V. 67, p. 1162.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, January 6, 1899.

The observance of a holiday early in the week has interrupted business to some extent. Merchants also in a number of instances have had their time engaged in preparing their books, stocks, etc., and salesmen are only just starting on the road; consequently business has barely gotten under way for the new year. Nevertheless, in a number of lines of merchandise trade has been reported as satisfactory and the feeling of confidence in future prospects has continued general. The situation at Iloilo, in the Philippine Islands, has received considerable attention. The speculative market has been less active, as there has been a falling off in the demand from outsiders. There has also been considerable selling by recent buyers to take profits.

Stocks of Merchandise.	Jan. 1, 1899.	Dec. 1, 1898.	Jan. 1, 1898.

Flour.....bbbls. & sacks	87,400	95,300	163,500

Lard on the spot has been in moderate demand, and early in the week prices were higher. At the close, however, there was increased pressure to sell, and the improvement was lost, closing at 5-75c. for prime Western and 5-25c. for prime City. Refined lard has been in moderate demand, but the close was quiet at 5-90c. for refined for the Continent. Speculation in lard for future delivery has been moderately active, and on buying by outsiders for investment account prices were advanced early in the week. At the close, however, the market was raided by prominent operators, and the improvement was lost.

### DAILY CLOSING PRICES OF LARD FUTURES.

January	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
.....	h. d.	5-87	5-87	5-87	5-87	5-72

Pork has been quiet and the close was slightly easier at \$9 62½@9 87½ for mess. Cut meats have been higher for pickled bellies. Tallow has been sparingly offered, and prices have advanced to 4c. Butter has been in only moderate demand, but offerings have been limited and values have held to a steady basis. Cheese has been quiet but steady. Fresh eggs have had only a limited sale. Cotton seed oil has been steady at unchanged prices, closing at 22@22½c. for prime yellow.

Brazil grades of coffee were dull and easier early in the week. Subsequently, however, there was a more active distributing business, and this, together with an improvement in the statistical position, had a strengthening influence, and the close was steady at 6½c. for Rio No. 7 on the spot. Mild grades have been quiet and easier at 8c. for fair Cutcuta. East India growths have been quiet and without changes. Speculation in the market for contracts has been moderately active and during the first half of the week prices declined under free offerings prompted by the full movement of the crop. The close was steadier on renewed buying for investment. Following are final asking prices:

Jan.....	5-45c.	April.....	5-75c.	Aug.....	5-95c.
Feb.....	5-55c.	May.....	5-80c.	Sept.....	6-00c.
Mar.....	5-65c.	July.....	5-90c.	Oct.....	6-05c.

Raw sugar has been in better demand and steadier, closing at 4 5-16c. bid for centrifugals, 96-deg. test, and 3 13-16c. for muscovado, 89-deg. test. Refined sugar has been moderately active at lower prices, closing at 4 15-16c. for granulated. Other groceries have been firm.

Kentucky tobacco quiet but steady. Seed leaf tobacco quiet and without changes. Sales for the week, 690 cases.

A firm tone has dominated the market for Straits tin. Offerings have been very moderate, and with a fair demand and stronger foreign advices prices have advanced to 20-50@20-70c. Ingot copper has continued in demand and at advancing prices, closing firm at 13½@13½c. for Lake. Lead has had a fair sale, but the close was less active; prices have advanced to 3-95c. for domestic. Spelter has been quiet and easy at 5-5-05c. for domestic. Pig iron has been in fair demand and firm, closing at \$10 25@12 25 for domestic.

Refined petroleum has been steady, closing at 7-50c. in bbbls., 5c. in bulk and 8-25c. in cases. Naphtha steady at 8-50c. Crude certificates have been dull; credit balances have been steady at \$1 19. Spirits turpentine has been firmer, but the close was easier at 45@45½c. Rosins have been quiet but steady at \$1 40 for common and good strained. Hops have been in better demand and steady. Wool steady.

## COTTON.

FRIDAY NIGHT, January 6, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 235,960 bales, against 206,053 bales last week and 352,880 bales the previous week, making the total receipts since the 1st of Sept., 1898, 6,085,935 bales, against 5,873,737 bales for the same period of 1897-8, showing an increase since Sept. 1, 1898, of 212,198 bales.

Speculation in cotton for future delivery has been only moderately active and no decided changes have occurred in values. Early in the week the tone was somewhat unsettled. Easier foreign advices, a continued full movement of the crop and reports of slightly easier interior markets at the South had a weakening influence. There was, however, no aggressive selling. The buying by outsiders continued, attracted by the comparatively low prices ruling, the healthy conditions existing in the cotton goods trade and the brisk demand for actual cotton, and this served to hold the downward tendency to prices in check. Subsequently unfavorable weather conditions at the South, a falling off in the crop movement and a steadier turn to foreign advices had a strengthening influence. Owing, however, to the fact that buying by outsiders had subsided to a considerable extent and there was comparatively little buying by regular operators, the improvement in prices was slight. To-day the market was moderately active and firmer. A limited number of foreign buying orders were received and there was some buying for Southern account. The crop movement was light, and this was given as the principal strengthening feature of the situation, although it was generally stated that the unfavorable weather at the South was largely responsible for the smaller receipts. At the advance in prices outsiders were moderate sellers to realize profits. The close was steady, with prices 3@5 points higher for the day. Cotton on the spot has been quiet but steady, at 5½c. for middling uplands.

The rates on and off middling, as established Nov. 16, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	6 1/4 on	Good Ordinary.....	6 1/4 off
Middling Fair.....	7/8 on	Good Middling Tinged.....	Even
Strict Good Middling.....	1/2 on	Strict Middling Stained.....	7 3/4 off
Good Middling.....	3/4 on	Middling Stained.....	7 1/2 off
Strict Low Middling.....	2 1/2 off	Strict Low Mid. Stained.....	1 off
Low Middling.....	7 1/4 off	Low Middling Stained.....	1 1/2 off
Strict Good Ordinary.....	1/2 off		

On this basis the official prices for a few of the grades for the past week—Dec. 31 to Jan. 6—would be as follows.

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary.....	Holiday	Holiday	4 1/2	4 1/2	4 1/2	4 1/2

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Jan. 6), we add the item of exports from the United States, including in it the exports of Friday only.

	1899	1898	1897	1896
Stock at Liverpool.....	bales. 1,370,000	910,000	1,071,000	1,116,000
Stock at London.....	3,000	3,000	9,000	5,000
Total Great Britain stock.....	1,373,000	913,000	1,080,000	1,121,000
Stock at Hamburg.....	16,000	7,000	18,000	23,000
Stock at Bremen.....	373,000	305,000	180,000	231,000
Stock at Amsterdam.....	3,000	3,000	6,000	8,000
Stock at Rotterdam.....	200	200	300	200

The imports into Continental ports the past week have been 226,000 bales.

The above figures indicate an increase in the cotton in eight to-night of 781,163 bales as compared with the same date of 1898, a gain of 956,569 bales over the corresponding date of 1897 and an excess of 1,058,766 bales over 1896.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897-98—is set out in detail below.

TOWNS.	This week.	Since Sept. 1, '98.	Shipments This week.	Stock Jan. 6.	This week.	Since Sept. 1, '97.	Shipments This week.	Stock Jan. 7.

The above totals show that the interior stocks have decreased during the week 12,863 bales, and are to-night 110,736 bales more than at the same period last year. The receipts at all the towns have been 5,043 bales more than the same week last year, and since Sept. 1 they are 824,223 bales more than for the same time in 1897-98.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Jan. 6 and since Sept. 1 in the last two years are as follows.

	1898-99.		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis.	37,928	581,433	30,718	516,129
Via Cairo.	23,323	244,496	11,000	210,298
Via Parker.	1,319	38,112	2,500	15,416
Via Rock Island.	8,114	85,886	5,086	62,224
Via Louisville.	10,490	76,714	4,307	61,035
Via Cincinnati.	5,217	92,914	4,988	84,439
Via other routes, &c.				
Total gross overland.	86,391	1,118,665	62,104	979,818
Deduct shipments—				
Overland to N. Y., Boston, &c.	24,976	272,892	21,257	232,970
Between interior towns.	2,940	16,942	3,736	18,594
Inland, &c., from South.	2,430	26,410	543	18,652
Total to be deducted.	30,346	316,144	25,536	270,216
Leaving total net overland.	56,045	802,521	36,568	709,602

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 56,045 bales, against 36,568 bales for the week in 1898, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 92,919 bales.

In Sight and Spinners' Takings.	1893-99.		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Jan. 6.	285,060	6,085,935	300,273	5,873,737

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening indicate that over a large portion of the South the weather has been rather unfavorable during the week. Rain has fallen in most sections, at some points heavily, interfering with the gathering of cotton where picking has not already ceased and hindering the marketing of the crop. Lower temperature has also prevailed.

Galveston, Texas.—There has been rain on three days during the week, to the extent of two inches and fifty-five hundredths. The thermometer has averaged 52, ranging from 28 to 67. December rainfall two inches and twenty-six hundredths.

Palestine, Texas.—There has been heavy rain on three days of the past week, the rainfall being two inches and eight hundredths. The thermometer has ranged from 18 to 62, averaging 40.

Corpus Christi, Texas.—There has been rain on one day of the week, the precipitation reaching twenty hundredths of an inch. Average thermometer 50, highest 70 and lowest 30. December rainfall one inch and thirty-three hundredths.

San Antonio, Texas.—We have had rain on one day of the week, the rainfall reaching twenty hundredths of an inch. Minimum temperature 22.

Paris, Texas.—We have had heavy rains since last report. The thermometer has averaged 40, the highest being 65 and the lowest 14.

New Orleans, Louisiana.—There has been rain on three days during the week, the precipitation reaching one inch and eleven hundredths of an inch. Average thermometer 54.

Shreveport, Louisiana.—Rain has fallen on two days of the week, the rainfall reaching thirty-five hundredths of an inch. The thermometer has ranged from 20 to 70, averaging 45.

Columbus, Mississippi.—The remainder of the crop in the field is not likely to be picked. It has rained on four days during the week, the rainfall being four inches and twelve hundredths. Average thermometer 59, highest 77 and the lowest 34. Month's rainfall two inches and fourteen hundredths.

Leland, Mississippi.—December rainfall two inches and fifty hundredths.

Greenville, Mississippi.—Heavy rainfall yesterday.

Vicksburg, Mississippi.—We have had rain on six days of the week, the rainfall being eight inches and fourteen hundredths. The thermometer has averaged 47, ranging from 20 to 74. December rainfall three inches and thirty-three hundredths.

Little Rock, Arkansas.—Rain has fallen on three days of the week to the extent of one inch and fifty hundredths. Average thermometer 34, highest 54, lowest 14.

Helena, Arkansas.—Not much cotton picked the past week. There has been rain on five days, the rainfall being one inch and seventy-six hundredths. Light snow on one day. Average thermometer 37. December rainfall three inches and eighty-six hundredths, and for the year fifty-four inches and sixty-one hundredths.

Memphis, Tennessee.—Cold and wet weather has interfered with marketing of cotton. No picking has been done. There has been rain on one day during the week, the rainfall reaching one inch and thirty-three hundredths. The thermometer has averaged 40.4, the highest being 66.6 and the lowest 12.7. December rainfall two inches and ninety-six hundredths.

Nashville, Tennessee.—Rain has fallen the past week to the extent of eighty-four hundredths of an inch. The thermometer has averaged 38, ranging from 12 to 65.

Mobile, Alabama.—Very inclement weather in the interior. Rain has fallen on three days of the week, the rainfall reaching forty-two hundredths of an inch. The thermometer has ranged from 27 to 67, averaging 51. December rainfall three inches and eleven hundredths.

Montgomery, Alabama.—There has been rain on one day of the week, the precipitation being only two hundredths of an inch, but it is raining heavily now. Average thermometer 48, highest 69 and lowest 27. Month's rainfall three inches and sixty-nine hundredths.

**Selma, Alabama.**—There has been rain on three days of the week, the rainfall reaching forty hundredths of an inch. The thermometer has averaged 48, the highest being 68 and the lowest 25.

**Madison, Florida.**—We have had rain on three days of the week, the rainfall reaching one inch and seventy hundredths. The thermometer has averaged 62, ranging from 38 to 78.

**Savannah, Georgia.**—There has been rain on three days during the week, the rainfall being three hundredths of an inch. Average thermometer 53, highest 75 and lowest 30. December rainfall two inches and sixteen hundredths.

**Augusta, Georgia.**—There has been rain on two days during the week, the rainfall reaching eighteen hundredths of an inch. The thermometer has averaged 48, the highest being 73 and the lowest 26.

**Stateburg, South Carolina.**—There has been rain on two days during the week, the precipitation being seventeen hundredths of an inch. The thermometer has ranged from 21 to 74, averaging 51. December rainfall one inch and forty-seven hundredths.

**Greenwood, South Carolina.**—It has rained on one day during the week, the rainfall being fifteen hundredths of an inch. Average thermometer 44, highest 58 and lowest 30. December rainfall two inches and twenty-two hundredths.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Spinners are considered to be well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

**JUTE BUTTS, BAGGING, &C.**—The market for jute bagging has been very dull during the week under review, at unchanged prices, viz., 5 1/2c. for 1 1/4 lbs. and 6 1/2c. for 2 lbs., standard grades. Car-load lots of standard brands are quoted at 6 1/2c. for 1 1/4 lbs. and 6 1/2c. for 2 lbs., f. o. b. at New York. Jute butts have also been dull and featureless at 90c. for paper quality and 1 1/4c. for mixing. From Messrs. Ira A. Kip & Co.'s circular we learn that the deliveries of jute butts and rejections at New York and Boston during Decem-

ber were 31,563 bales, against no bales for the same month last year, and for the calendar year 1893 the deliveries reached 391,129 bales, against 347,118 bales in 1897. Importers and speculators at New York and Boston on Dec. 31 held no stock, against no stock at the corresponding date in 1897; the amount afloat for the United States reaches 22,750 bales, against 118,957 bales last year.

## BREADSTUFFS.

FRIDAY, January 6, 1899.

Business in the market for wheat flour has been quiet and prices have been somewhat irregular. For supplies to arrive, owing to an advance in freight rates from the West, together with higher prices asked by the mills, values have been advanced. Holders of spot stocks have been slightly stronger in their ideas of values, but they have not held for the same advance as asked for flour to arrive. City mills have had a moderate sale at firm prices. Rye flour has been in moderate demand and held firmly. Buckwheat flour has been quiet but steady. Corn meal has had only a limited sale but prices have been unchanged and steady.

Speculation in wheat for future delivery has been only moderately active and the tone has been unsettled. Immediately following our last report there was a fairly sharp advance in prices. An expected large decrease in the visible supply, a good export demand and buying orders from the winter-wheat section were the strengthening features. Toward the close of the day, however, under selling by longs to realize profits, most of the improvement was lost. Tuesday the market was weaker. Continued selling by recent buyers to realize profits, more aggressive selling by bear operators and favorable crop accounts from Argentine depressed values. Wednesday the market opened easier, reflecting weaker foreign advices. Subsequently, however, large clearances from the seaboard and unfavorable crop accounts from the West turned the market stronger, and the early loss was more than recovered. Thursday the market again turned easier. Foreign advices were disappointing, and this, together with favorable State crop reports, prompted realizing sales, under which prices declined. Business in the spot market has been only moderately active, the demand from exporters having fallen off somewhat. The course of prices has followed closely after that of futures. To-day the market was easier under aggressive selling by prominent operators, and there was further selling by recent buyers to realize profits. The spot market was fairly active. The sales for export here and at outports were 450,000 bushels.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash wheat . o. b. ....	81½		80¼	81½	80¾	79¾

May delivery in elev. ....		Holl.	70¾	71¾	70¾	70
July delivery in elev. ....		day.	68¾	69¾	68¾	68

Indian corn futures have been moderately active, but the tendency of prices has been towards a lower basis. There has been free selling by recent buyers to realize profits. The movement of the crop has been larger, foreign advices have been dull and easier, the grading of the crop has improved as a result of the more favorable weather latterly, and there have been freer offerings by the country, the higher prices bringing out sellers. The spot market has been easier under fair offerings and at the decline exporters have been only moderate buyers. To-day the market was depressed by selling by prominent operators and under realizing sales by longs. The spot market was fairly active. The sales for export were about 500,000 bushels.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash corn f. o. b. ....	44½		43¾	43¾	43¾	43

May delivery in elev. ....		Holl.	37¾	37¾	36¾	36¼
July delivery in elev. ....		day.	37¾	37¾	37¾	37

Oats for future delivery at the Western market have been moderately active, but the tendency of prices has been towards lower basis. There has been considerable selling by longs to realize profits, and this, together with a fairly full movement of the crop, and sympathy with the decline in corn have been the depressing features. Locally, the home trade has been a moderate buyer in the spot market, and prices have held comparatively steady. To-day the market was easier in sympathy with the decline in other grains. The spot market was quiet.

### DAILY CLOSING PRICES OF OATS IN NEW YORK.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., January 6, 1899.

It was not expected that business during the past week would reach proportions of weeks immediately preceding, and an indifferent volume of sales has not, therefore, been a disappointment. Some lull after recent extensive buying in cotton goods was to be looked for even if the holidays had not exercised their usual restrictive influence. Present quietude has no effect upon the general tone. Sellers are fully reserved as before, exacting all the advances gained hitherto, and in some quarters moving prices still further upwards. The situation is a strong one. Pancy of stocks in first hands and a frequently oversold condition are a tangible foundation for the present state of the market, with large prospective needs to support it later on. Jobbing conditions throughout the country are excellent, reports generally showing light stocks on hand at the end of the year, with good consumptive demand coming forward. Low prices have been named on some leading heavy weight woolsens for next fall, and woolen goods generally are dull.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending December 31 were 1,164 packages, valued at \$60,427, their destination being to the points specified in the tables below:

NEW YORK TO DEC. 31.	1898.		1897.

\* From New England mill points direct.

The value of the New York exports for the year has been \$11,769,002 in 1898, against \$10,069,325 in 1897.

The market for bleached cottons is strong and indications point to a further advance in price in the near future. Stocks are much run down and demand steady. In brown sheetings and drills the situation is without material change; full prices are exacted for any goods in stock and sellers are reserved over business for future delivery. Light-weight gray goods are strong, with moderate demand. Business in wide sheetings has been indifferent in volume, but prices are well maintained, cotton flannels and blankets being in like condition. A slow demand reported for denims, ticks, plaids and other coarse colored cottons, without change in price. Kid-finished cambrics firm but slow of sale. The demand for prints of all kinds has been moderate, but the upward tendency of prices has been strongly marked by advances of ¼c. in various low-grade lines. Printed wash fabrics firm but quiet. There has been no change in the gingham division of the market, a moderate demand coming forward at firm prices. Print cloths have sold to a moderate extent; prices unchanged on the basis of 2¾c. for extras and 3¼c. for 38½-inch 64 squares.

WOOLEN GOODS.—Interest in the new heavy-weight season in men's-wear woollens and worsteds has been stimulated by the action of the Washington Mills in naming prices on their beavers, kerseys and clay worsteds. These prices are lower than last season by 7½ to 10 per cent in the beavers and kerseys and about 5 per cent in the clays. Prices on other important lines may be looked for now and buyers expect to find them showing approximating declines. The demand for fall has not loosened up to any extent as yet, but sellers look for it shortly to assume definite shape. In light-weights reorder business has been quiet and sellers have met it readily at previous prices. Overcoatings have ruled quiet and cloakings dull. Dress goods have been in moderate request, without material change in price. Flannels and blankets dull with a tendency to favor buyers.

FOREIGN DRY GOODS.—Business in foreign departments has been decidedly light this week in all staple lines, such as dress goods, silks and linens and in specialties in ribbons, laces and fancies only moderate, with no material change in the general tone.

## STATE AND CITY DEPARTMENT.

## MUNICIPAL BOND SALES IN DECEMBER.

Owing to the crowded condition of our columns this week we are obliged to defer until next week our usual monthly table of bond sales. We will say, however, that the December sales foot up \$7,235,343, not including \$2,995,758 of temporary loans reported. This brings the total for the year 1898 up to \$103,013,793.

**Bond Proposals and Negotiations** this week have been as follows:

**Baltimore, Md.—Bids.**—We give below the bids received December 30, 1898, for the \$250,000 3½% stock maturing Jan. 1, 1922, and \$250,000 3½% stock maturing March 1, 1945. As stated last week, these bonds were awarded to the Citizens' Trust & Deposit Co., Baltimore. The 1945 issue sold on a 2-56½% basis and the 1922 issue on a 2-89½% basis. These are exceedingly low rates, and show how very high the credit of the municipality ranks. New York City's bonds last November sold on a 3-05% basis, although a part of the same, namely the \$500,000 10-year assessment bonds, netted the purchaser only 2-79½% basis.

\* Including interest.

**Remidji, Beltrami County, Minn.—Bond Sale.**—On Dec. 31, 1898, the \$7,000 6% water-works bonds were awarded to A. P. White, Remidji, at 100-50. For description of bonds see CHRONICLE Dec. 17, 1898, p. 1273.

**Berea, Ohio.—Bond Offering.**—Proposals will be received until 12 M. February 6, 1899, by E. S. Loomis, Village Clerk, for \$30,000 5% water-works bonds. Securities are in denomi-

nation of \$500, dated February 1, 1899. Interest will mature semi-annually, and the principal will mature \$1,000 each May and November, from May 1, 1905, to November 1, 1919, inclusive. Each bidder must satisfy himself as to legality of the bonds prior to the time his bid is filed. Proposals must be accompanied by a certificate of deposit showing that the bidder has deposited with the Bank of Berea Co., a sum equal to 5% of the face value of bonds.

**Bound Brook (N. J.) School District.—Bond Offering.**—Proposals will be received until 8 P. M. January 16, 1899, by E. H. Castrolin, District Clerk, for \$15,000 4% bonds. Securities are in denomination of \$1,000, dated Feb. 1, 1899. Interest will be payable Feb. 1 and Aug. 1, and the principal will mature \$1,000 yearly on Feb. 1 from 1900 to 1914, inclusive.

**Brewton, Ala.—Bond Offering.**—Proposals will be received until 12 M. Jan. 16, 1899, by W. H. Strong, Mayor, for \$15,000 6% gold water and light plant bonds. Securities are in denomination of \$1,000, dated Feb. 1, 1899. Interest will be payable semi-annually at the Continental National Bank, New York City. Principal will mature Feb. 1, 1929. The bonded debt of the town at present is \$37,000. The assessed valuation is \$560,000, about one-half actual value. The population in 1890 was 1,500 and is now about 2,200. A certified check for \$500 must accompany proposals.

**Cambridge, Ohio.—Bond Sale.**—On Jan. 2, 1899, the \$7,000 4% cemetery bonds were awarded to Seasongood & Mayer, Cincinnati, at 104-839. Bonds mature Jan. 1, 1919. For further description see CHRONICLE Dec. 3, 1898, p. 1174. A full list of bids will be given next week.

**Cherry Creek (N. Y.) Union Free School District.—Bond Offering.**—Proposals will be received until 7:30 P. M. January 11, 1899, by G. Frank Lapham, Secretary Board of Education, for \$7,500 4% bonds. Securities are in denomination of \$300, dated January 1, 1899. Interest will be payable January 1 and July 1, at the Hanover National Bank, New York City. Principal will mature \$300 yearly on January 1 from 1913 to 1927, inclusive. A certified check for \$200 payable to C. A. Mount, President Board of Education, will be required with each proposal. The district has no other indebtedness.

**Cincinnati, Ohio.—Bond Issue.**—City Auditor Boyden has issued a bond for \$8,538 for the improvement of Howell Avenue.

**Columbia (Borough), Lancaster County, Pa.—Bond Offering.**—Proposals will be received until 12 M. Feb. 1, 1899, by C. W. Stevenson, Secretary, for \$170,000 3% bonds. Securities are issued to refund all the outstanding bonds (\$158,900) of the borough as they become due and payable and to fund a temporary loan amounting to \$11,100. Securities are in denominations of \$500 and \$1,000, \$145,000 dated April 1, 1899, and \$25,000 April 1, 1902. Interest will be payable April 1 and October 1 at the office of the Borough Treasurer, and the principal will mature April 1, 1929, subject to call after April 1, 1909. Bonds are exempt from local and State tax.

**Columbus, Ind.—Bond Sale.**—The sale of \$14,000 4% 10-year refunding bonds to the Chicago Loan & Trust Co. at par is reported.

**Columbus, Ohio.—Bond Sale.**—The city sinking fund has taken at par an issue of \$30,500 street improvement bonds, as provided by law.

**Forestville School District, Sonoma County, Cal.—Bond Sale.**—On December 30, 1898, the \$800 6% 1-10-year (serial) bonds were awarded to the William Hill Co., Petaluma, at 109. Following are the bids:

Wm. Hill Co., Petaluma.....	\$872.00	C. W. Savage.....	\$830.25
Santa Rosa National Bank.....	\$833.27	G. D. Clark.....	\$15 for
Oakland Bank of Savings.....	\$834.00		

**Franklin (Pa.) School District.—Bonds Not Sold.**—The only bid received on December 27, 1898, for \$15,000 3½% bonds was that of J. K. Bryden, Franklin. Bonds were not awarded. Securities are in denomination of \$500 and mature yearly on January 1 as follows: \$5,000 in 1904, \$1,000 from 1905 to 1909 and \$500 from 1910 to 1919.

**Gaffney, Cherokee County, S. C.—Bond Sale.**—F. M. Stafford & Co., Chattanooga, were the highest bidders on Jan. 3, 1899, for the \$18,000 5% 20-40-year (optional) gold water-works bonds. Following are the bids received:

F. M. Stafford & Co., Chattanooga.....	103-20	Edw. C. Jones Co., New York.....	101-50
N. W. Harris & Co., New York.....	103-23	W. J. Hayes & Sons (less \$175 for	
B. Kleybolte & Co., Cincinnati.....	102-49	blank bonds).....	100-00
Ferson, Leach & Co., New York.....	102-17		

**Gloucester, Mass.—Bids.**—Following are the bids received on Dec. 29, 1898, for the \$37,000 4% notes:

Hires & Cummings, Boston.....	103-94	W. Holman Cary & Co., Boston.....	103-627
Jose, Parker & Co., Boston.....	103-915	E. H. Rollins & Sons, Boston.....	103-517
H. L. Day & Co., Boston.....	103-749	Perry, Coffin & Barr, Boston.....	103-513
C. R. Wilbur & Co., Boston.....	103-551	Adams & Co., Boston.....	103-543
Blake Bros. & Co., Boston.....	103-565	S. W. Harris & Co., New York.....	103-354

E. H. Gay & Co., Boston.....	103-54	Vermilye & Co., New York.....	103-00

As stated last week, bonds were awarded to Rines & Cummings, Boston, at 103-94.

**Hackensack, N. J.—Bids.**—Following are the bids received December 28, 1898, for the \$56,000 4% gold sewer bonds:

C. Zabriskie, Jersey City.....	103-35	N. W. Harris & Co., New York.....	102-14
Walter Stanton & Co., N. Y.....	102-77	W. N. Truesdell, Newark.....	101-327
R. A. Smith & Co., New York.....	102-77	Edw. C. Jones Co., New York.....	101-315
E. H. Rollins & Sons, Boston.....	102-337	Benwell & Everett, New York.....	100-19
B. Kleybolte & Co., New York.....	102-31		

As stated last week, bonds were awarded to C. Zabriskie, Jersey City.

**Hamilton County (P. O. Cincinnati), Ohio.—Bond Offering.**—Proposals will be received until 12 M. January 28, 1899, by the County Commissioners—Geo. C. Zimmerman, Clerk—for \$15,000 4% aqueduct bonds. Securities are in denomi-

tion of \$500, dated January 28, 1899. Interest will be payable semi annually at the office of the County Treasurer. Principal will mature January 28, 1919. A certified check for \$100, payable to Tilden R. French, County Treasurer, must accompany proposals.

**Hamilton, Ohio.—Bond Sale.**—On January 2, 1899, the \$8,200 4 1/2 10 year Storm District No. 1 bonds were awarded to Briggs, Smith & Co., Cincinnati, at 102 25. Following are the bids:

Briggs, Smith & Co., Cincin... \$8,285 00 | New First Nat. B'k, Columbus... \$8,315 50  
Seasongood & Mayer, Cincin... 8,267 00 | Denison, Prior & Co., Clev... 8,285 00

**Herkimer, N. Y.—Bond Sale.**—On January 4, 1899, \$13,500 4% bonds were awarded to the Herkimer National Bank at 103 53.

**Idaho Falls (Idaho), School District No. 35.—Bond Sale.**—On Dec. 19, 1898, \$550 7 1/2 5-year bonds were awarded to Duke M. Farson Chicago.

**Jersey City, N. J.—Tax Arrearage Bonds Issued.**—On December 21, 1898, the Board of Finance passed a resolution authorizing the Mayor and Aldermen to issue not more than \$1,015,000 temporary loan bonds, in anticipation of the collection of taxes for the years 1875 to 1893, inclusive. These bonds are payable January 1, 1902, or upon 10 days' notice by the city, with interest not exceeding 4%, payable January 1 and July 1. By the resolution these bonds are to be sold to the Commissioners of the Sinking Funds of Jersey City and Hudson County at par and accrued interest. These bonds are issued in order to consolidate certain tax arrearage funds formerly established, and the tax-arrearage bonds now outstanding are all called for payment.

**Maryland.—Bids.**—Following are the bids received December 30, 1898, for the \$915,000 3 1/2 10-15-year (optional) consolidated loan of 1899:

Third Nat. Bank, Baltimore	102 18	\$100,000, 100 23
Sperry, Jones & Co., Baltimore	101 76 1/2	100,000, 100 29
Allen Caruthers, New York	101 75	100,000, 100 37
W. J. Hayes & Sons, Clev...	101 95 1/2	100,000, 100 53
T. Mosse, Scott & Co., Cincin	100 91	100,000, 100 58
R. Kiehlholt & Co., Cincinnati	100 63	100,000, 100 77
E. H. Gay & Co., Boston	100 51	100,000, 100 83
C. H. McKoy, Cumber...	100 10	100,000, 100 96
Safe Deposit & Tr. Co.,	100 10	100,000, 101 10
	20,000, 100 50	15,000, 101 11

Abraham White, New York.....

As stated last week, bonds were taken by the Sinking Fund.

**Mason County (Wash.) School District No. 1.—Bond Sale.**—The district recently sold \$2,000 5% bonds to the Board of State Land Commissioners.

**New Brunswick (N. J.) School District.—Bond Offering.**—Further details are at hand relative to the sale of \$38,200 4% gold bonds, bids for which will be received until 8 p. m. January 18, 1899, by Jos. Fisher, Treasurer Board of Education. Proposals are asked on four different lots separately. These lots, amounting to \$8,200, \$8,500, \$10,000 and \$11,500, respectively, bear date February 1, 1899. Principal will mature as follows: First lot of \$8,200, one bond of \$200 in 1900 and two bonds of \$500 yearly from 1901 to 1908, inclusive. Second lot of \$8,500, two bonds of \$500 yearly from 1909 to 1914 inclusive, and four bonds of \$500 in 1915. Third lot of \$10,000, four bonds of \$500 yearly from 1916 to 1920 inclusive. Fourth lot of \$11,500, four bonds of \$500 yearly from 1921 to 1924 inclusive, five bonds of \$500 in 1925, and two bonds of \$500 in 1926.

**North Adams, Mass.—Temporary Loan.**—This city has negotiated a loan of \$50,000 with Rogers, Newman & Tolman, Boston, at 3% flat. Loan matures October 3, 1899.

**North East, Pa.—Bond Sale.**—On January 3, 1899, the \$20,000 4% water bonds were awarded to the Lamprecht Bros. Co., Cleveland, at 104 17. Following are the bids:

Lamprecht Bros. Co., Clev...	104 17	Seasongood & Mayer, Cincin...	103 34 1/2
W. J. Hayes & Sons, Cleveland	100 42 1/2	F. S. Allis, Erie...	103 00
Edw. C. Jones Co., New York	104 00	N. W. Harris & Co., Clev...	102 88 1/2
Denison, Prior & Co., Clev...	104 00	Robinson Bros., Pittsburg...	102 85
Briggs, Smith & Co., Cincinnati	103 51 1/2	S. A. Kean, Chicago...	100 50

Bonds mature 20 years from date of issue. For further description of bonds see CHRONICLE Dec. 17, 1898, p. 1275.

**Polk County, Wis.—Bond Sale.**—On January 3, 1899, the \$25,000 4% bonds were awarded to the Minneapolis Loan & Trust Co., Minneapolis, at 105 82. Bonds mature January 1, 1919. Following are the bids:

Minn. L'n & Tr. Co., Minn...	\$26,455 00	State Bank of Chicago...	\$25,980 00

Robert J. Barr and Howard R. Yocum from the decision recently rendered by the Common Pleas Court No. 3 in dismissing the bill in equity filed against the city contesting the legality of the proposed loan of \$11,200,000. See CHRONICLE last week, p. 1367.

**Quincy, Mich.—Bond Election.**—An election will be held January 10, 1899, to vote on the question of issuing \$5,000 electric-light plant bonds.

**Rensselaer County (P. O. Troy) N. Y.—Bond Offering.**—Proposals will be received until 12 M. Jan. 26, 1899, by John Don, County Treasurer, for \$22,000 3½% refunding bonds. Securities are in denomination of \$1,000, dated Feb. 1, 1899. Interest will be payable semi-annually, and the principal will mature \$1,000 yearly on February 1, from 1900 to 1921 inclusive.

**Rochester, N. Y.—Temporary Loan.**—The city has negotiated a five months loan of \$150,000 at 2-87½.

**Saranac (Town), Clinton County, N. Y.—Bond Offering.**—Further details are at hand relative to the sale of \$9,000 4% bonds, bids for which will be received until 10 A. M. to-day (Jan. 7, 1899). Securities are in denomination of \$1,000, dated Jan. 10, 1899. Interest will be payable annually on April 1, and the principal will mature \$1,000 yearly on April 1, from 1900 to 1908, inclusive. Bids will be received at the Iron National Bank, Plattsburgh.

**Savannah, Ga.—Temporary Loan.**—This city has borrowed \$20,000 of the \$30,000 loan recently authorized by the Council.

**Scott County, Ky.—Bids.**—Following are the bids received on Dec. 29, 1898, for the \$46,000 4% turnpike bonds:

Seasongood & Mayer, Cincinnati \$47,324 80 | R. Kierbolte & Co., Cincinnati \$17,073 80  
Lamprecht Bros. Co., Cleveland \$7,223 00

As stated last week bonds were awarded to Seasongood & Mayer at 102-88.

**Sea Cliff, N. Y.—Bond Offering.**—Proposals will be received until 1 P. M. Jan. 10, 1899, by Fred. H. Maldiment, Village Clerk, for \$8,000 side walk and street improvement gold bonds. Interest will be payable February 1 and August 1 and the principal will mature two bonds yearly, beginning Feb. 1, 1900. A certified check payable to Henry C. Smith, Treasurer, for \$500 must accompany proposals. The bonds will be awarded to the person offering to take them at the lowest rate of interest. The bonded debt of the

village is \$54,000, the assessed valuation is \$844,570 and the population 1,450.

**Sherman, Texas.—Bond Sale.**—On December 31, 1898, the \$40,000 5½ 1-40-year improvement bonds were awarded to Farson, Leach & Co., Chicago, at 110-50. Following are the bids:

Farson, Leach & Co., Chicago	\$44,200	J. B. Oldham, Dallas	\$43,500
W. J. Hayes & Sons, Cleveland	43,723	Gillespie & Cullum, Dallas	43,400
N. W. Harris & Co., Chicago	43,721	Lamprecht Bros. Co., Cleveland	43,000
Mason, Lewis & Co., Chicago	43,800	Seasongood & Mayer, Cincinnati	42,344

For description of bonds see CHRONICLE Dec. 24, 1898, p. 1324.

**Tippecanoe (Village), Miami County, Ohio.—Bond Sale.**—On January 2, 1899, the \$1,173 80 6% street improvement bonds were awarded to the Atlas National Bank, Cincinnati, at 103-12, and the \$3,000 6% funding bonds to the Tippecanoe National Bank at 120-31. A full list of bids will be given next week. For description of bonds see CHRONICLE Dec. 17, 1898, p. 1277.

**Valparaiso, Ind.—Bond Sale.**—The \$51,000 4% refunding bonds have been awarded to the Farmers' National Bank of Valparaiso at 103-76 and new bonds free. Following are the bids:

Farmers' National Bank, Valparaiso	Premium \$1,920 00	Trowbridge, MacDonald & Niver Co., Chicago	Premium \$1,631 00
N. W. Harris & Co., Chicago	1,675 00	First National Bank, Fort	Co., for 3-8-10% bonds

\* And blank bonds.

Bids for these bonds were originally received last October and were given in the CHRONICLE Nov. 19, 1898, but were not awarded at that time. They will mature 20 years from date of issue, \$10,000 being subject to call after 10 years and \$15,000 after 15 years.

**Washington, Ind.—Bond Sale.**—This city has issued \$10,000 6½ 1-10 year street improvement bonds to Archer & Davis, contractors for the work.

**Wayne County, Neb.—Bond Offering.**—Proposals will be received until 12 M. Jan. 12, 1899, by J. R. Coyle, County Clerk, for \$25,000 5% court-house bonds. Securities are in denomination of \$500, dated Dec. 1, 1898. Interest will be payable semi-annually and the principal will mature \$2,500 yearly on Dec. 1 from 1904 to 1913, inclusive. A deposit of \$500 will be required. The present bonded debt is \$2,500. The assessed valuation is \$1,738,825, about one-fifth actual value. The population is estimated at 12,000.

### THE FINANCIAL SITUATION.

The business of the New York Stock Exchange this week has come to be conspicuous for several reasons. First of all the amount of the transactions has been enormous. On Monday the total sold reached 1,089,236 shares; Tuesday it was 1,022,750 shares; Wednesday it was 947,642 shares; Thursday it was 1,025,853 shares, and for the five days ending with Friday the aggregate reached 5,119,919 shares, probably the largest amount of any corresponding period in the existence of the Exchange. Prices likewise have as a rule been on the rise, notwithstanding an advancing market has been the feature of the business so many previous weeks, and even months. Another fact was that the movement has been chiefly confined to railroad properties, whereas last week industrial stocks made up the bulk of the operations. Still another fact was that there were no important developments to stimulate buying; indeed, if we may except the Louisville & Nashville semi-annual statement, with the dividend declared on its stock, and rumors of the arrangement of the differences existing among the anthracite coal roads, and among the Pacific roads in the Northwest, nothing specially noteworthy of a new and favorable character has occurred or assumed the shape of a plausible rumor during the week. Finally, the market has not been an ordinary speculator's market, but a market in which investors and large operators held the foremost place, while sales in this market on foreign account were claimed to be heavy.

A further feature of the activity has been large transactions also on American account in London. In fact, from reports current here it would almost seem that New York firms with London connections had taken possession of the London Exchange so far as dealings in American properties are concerned and that they have been buying very largely for their New York clients. Facilities are peculiarly abundant for such operations while so much American money is being transferred to London. It has, too, become not only just as easy, but now that an internal revenue tax on transfers of shares exists here, it may be cheaper to deal in London, where settlements are only made twice a month, than in New York. One banker informed us, as an evidence of the extent of this business, that the cause for the advance in foreign exchange cables this week was the demand for them for the transfer of money to London from New York on settlement day.

Outside of matters which especially concern the Stock Exchange, the week has likewise been uneventful. The fact is, scarcely a new feature has come to the surface. Affairs have of course all the time been developing along the old lines. That is to say, industrial movements show that business revival is week by week widening. No doubt is felt of a continuance of this favorable action for a considerable period; so long as prices of manufactures remain low enough to permit the keeping up of our large and expanding volume of exports, any occasion for special caution can hardly be anticipated. Imports are likely to show an increase in January; that was to be expected with the improved buying condition of the people. If by and by exports of manufactures should also show a decrease, the attitude would be less encouraging. But at the moment that is felt to be a remote contingency

for there is no evidence of any such tendency at present. The advances also in the prices of manufactures that have thus far taken place are legitimate and needful and not at all speculative, and there appears to be very little speculation in any of the markets for commodities.

A notable improvement, which we have referred to on previous occasions but which has further developed this week, is a change in the tendency and condition of the cotton market. The turn now established marks a complete transition from a lifeless demand and a continued decline, which was the condition only a few months ago, to active buying and a tendency upward. Southern producers might just as well as not have had their staple in this better shape all the time. They preferred to play with silver, endanger our standard of values, destroy industrial prosperity, tie up a large number of our cotton spindles, and so make their chief product a drug. Some no doubt will say the lifeless demand and constant decline were the result of over-production. Yes, of course it was over-production—not brought about, though, by raising too much cotton, but by diminishing our spinners' consumption through a contraction the silver scare produced in the natural demand for cotton goods. We proved that over and over again while spinners were suffering and cotton was declining, by showing that the ordinary growth in the United States in spinners' takings added to the growth Europe was showing would have left last year a decrease in the visible supply of cotton instead of an increase.

Now that the old industrial lethargy and depression have passed and cotton goods have at length begun to feel the inspiriting influence of the industrial revival, cotton almost last of all has got "in the swim" too. It may be claimed that this change is due to the frosts and bad weather since the 1st of September, which have lessened the yield of cotton. That conclusion is in part justified. And yet in our opinion the frost and bad weather have had less influence on the product than those who made big estimates a short time since would have us believe; it looks as if they were seeking by overdoing the frost damage to gracefully creep out of the error they got into by their extreme sanguine forecasts. The probabilities are this crop has been over-estimated all along. When we made up our crop statement in September we, as usual, studied the question of yield, and in that report (see COTTON SUPPLEMENT of Sept. 10) summarized the situation briefly; those facts gave no warrant for an increased product. The next week, while reviewing in the "Financial Situation" (CHRONICLE Sept. 17, page 555) the Agricultural Department's September figures of condition and comparing them with lower figures for September 1897, we added at the close—"In this case, however, the comparison (with Sept. 1897) is without doubt misleading as an indication of the relative yield in the two years, for there can be no question that the present crop will be smaller than that of last year." That was the result our investigations at that time led us to; in our crop report we summarized the facts obtained and the next week stated the conclusion the facts seemed to authorize. There has of course been some loss from frost etc. in the amount of staple gathered since, but the loss is more largely in quality than in number of bales, there being a good

deal of trashy cotton on the market. Aside from all this, however, the better shape the market for cotton goods is now in, and the promise that as spring opens spinners' consumption will assume larger proportions, makes it look as if a fair price for the Southern staple was one of the happy events the future had in store for the country. At the same time we think it an equally assured prospect that comparatively low prices for cotton have come to stay.

There is no truth in the report that lenders of money on call at the Stock Exchange are at the present moment using any special discrimination against industrial collaterals. Money lenders have for years made a distinction as to margin between loans on what is termed good active Stock Exchange collateral and upon industrial stocks. A loan upon a general assortment of railroad properties with perhaps a few hundred shares of an industrial stock would be accepted with a margin, say, of 20 per cent; whereas a loan on industrials as the principal collateral would not be taken at less than 25 to 30 per cent margin. This in reality has been as to margin the only discrimination, if such it may be termed, that has been in practice. As to the rate of interest on call money, it has been the same in both cases. Some banks, and a very few of the trust companies, always have refused to loan money on industrial stocks, even when they form but a small proportion of the collateral. Other banks and trust companies willingly, and perhaps freely, loan upon such properties, requiring, however, the wider margin above noted.

With reference to time money, the same practice prevails as to margin. It is, however, probable that if a time loan were asked for upon all industrials, including those which have recently been sharply advanced, a rate of interest higher than for good mixed security would be demanded. The course pursued in this particular, and also with reference to margin, has been the practice, as already said, for years, and originated when the industrials were first introduced on the market and when they were not so favorably regarded as they now seem to be. Hence the action is not at all new, and as a matter of principle it is neither novel nor singular. As a rule industrial corporations make less frequent and not generally complete exposures of their condition. Their market value is also subject to wide fluctuations and is largely influenced by speculative manipulation; consequently for loans on those specialties it is natural that a greater margin, and on time a higher rate, should be required. At the same time that practice appears to be no more a discrimination against industrial stocks than it is a discrimination against railroad stocks to make loans on Government bonds on a still narrower margin and a still lower rate.

Perhaps the most noteworthy feature in the railroad world at the moment is the improvement which has occurred in the rate situation east of Chicago. All accounts agree in the statement that tariff rates are being maintained. A Western shipper is quoted in the papers as saying that he had contracted for the shipment of a million bushels of grain to the seaboard, and for the first time in five years had been obliged to pay the quoted tariff charges. Many things have happened lately going to show the determination of the managers to apply a corrective to the demoral-

ization which has existed so long and during 1898 reached such a serious stage. The action of the Baltimore & Ohio receivers last month in invoking the aid of the Inter-State Commerce Commission in preventing deviations from the tariff schedules on file with the Commission was evidently only part of a general plan intended to secure a redress of the evil. This action was followed a little later by the dinner given by President Melville E. Ingalls, which was so largely attended by the leading officials of the roads in the territory of the Central Traffic Association. This week, a further step in the movement, illustrative of the earnestness of the officials in their purpose, was disclosed in the conference held on Thursday between the presidents of the leading trunk lines and the members of the Inter-State Commerce Commission, seeking so secure co-operation in bringing about uniformity in rates. Happy results are expected from this meeting, and it is thought not unlikely that similar conferences with the representatives of roads in other sections of the country may be arranged for in the future. To the trunk lines the mere elimination of cuts in rates would make an enormous difference, adding in a marked degree to their revenues, and no doubt it is the realization and appreciation of this fact that has helped to bring about the rise this week in several of the trunk line shares, like the Pennsylvania and New York Central.

In the anthracite trade, too, the improvement previously noted continues, and it is evident that the prospects of the anthracite properties are being viewed in a new and improved light. The Delaware & Hudson has announced that the dividends for 1899, based on the income of 1898, will be at the same rate as heretofore, namely 5 per cent, and this effectually disposes of the rumor, which was in part the basis of the attack on the company's shares last November, that the dividend would have to be reduced. Incidentally it also shows that conditions in the anthracite trade in 1898 were not nearly so bad as they were represented to be. As compared with the prosperity enjoyed by most other roads, the anthracite carriers of course did poorly, but it is the demonstration of experience that the anthracite trade is the last to feel the effects of general industrial revival, and from present indications it would seem certain that the results for the new year will be materially better than those for the year just closed. At all events there has been decided improvement during the last few weeks. Important benefits must necessarily follow if only the different interests can be got to work harmoniously together. The proposed retirement of President Sloan of the Lackawanna will be helpful in that direction.

Two records published this week serve to bring out in a striking way the great activity and development which has occurred in an industrial way and which is becoming more emphatic and pronounced with each succeeding week. We refer to our statement and analysis of the gross earnings of United States railroads for the late calendar year, given on another page, and to the "Iron Age's" figures of the current production of pig iron. Our earnings compilations indicate a gain of about 90 million dollars in the gross receipts of the railroads in 1898, after an increase in 1897 of about 70 million dollars. The "Age's" figures of iron production show a further decided expansion during

the late month in the make of iron, establishing a new high record. There was an addition of five furnaces net to the number in blast, while the output increased nearly 8,000 tons per week. On the 1st of January, according to these figures, the active furnaces numbered 200, with a capacity of 243,516 tons per week. Within a few days we should have the annual compilations of Mr. James M. Swank, of the Iron & Steel Association, and it will be interesting to see what the output of iron was during the late calendar year. In the meantime the figures of the "Iron Age" tell us that the country is now producing iron at the rate of over twelve million tons per year. A peculiarly gratifying feature is that coincidentally furnace stocks (sold and unsold) keep declining, there having been a further decrease during December, reducing the total to only 506,575 tons.

The Louisville & Nashville has this week taken the step expected, and announces the resumption of dividends on its shares. The first payment is to be  $1\frac{1}{2}$  per cent on February 10, based on the income for the half-year ending December 31 1898. The half-yearly statement shows that, after paying the amount required for this purpose, there will still be a surplus of \$634,799 on the operations of the six months. The company suspended dividend payments in 1893, and has since then been managed in a very conservative way. Surplus earnings have gone entirely into the property and all the various improvements and betterments have been paid for in this way, the construction account having been closed. The company is therefore, now that earnings are expanding, well able to distribute a portion of its yearly profits to the shareholders.

Money on call, representing bankers' balances, has loaned at 3 per cent and at 2 per cent at the Stock Exchange during the week, with the bulk of the business and the average at about  $2\frac{1}{2}$  per cent. The higher rate was recorded in the early part of each day and, as a rule, the supply was abundant in the afternoon. The banks and the trust companies seem to be the principal lenders of money, comparatively little being offered by commission houses. Generally speaking, very few of the renewals for the day are made after noon. In an active market with such large transactions as have been the feature this week there has been a good demand for money toward the stock delivery hour, 2:15, but this has been promptly met this week, and just before the close of the market rates have fallen to the lowest of the day. Banks and trust companies quote  $2\frac{1}{2}$  per cent as the minimum for loans over the counter, though in some cases loans have been made at 3 per cent. Time money is freely offered on good mixed Stock Exchange collateral at  $2\frac{1}{2}$  per cent for thirty days and 3 per cent for sixty days to six months. The inquiry is only fair and chiefly for sixty to ninety days. There is a good supply of commercial paper, with some indications of greater abundance very soon, but the demand continues excellent, not only from the city but from the East and the West, and there is no accumulation of names. Rates are 3 per cent for sixty to ninety day endorsed bills receivable,  $3@3\frac{1}{2}$  per cent for prime and  $4@5$  per cent for good four to six months' single names.

The Dreyfus incident does not appear to be at all grave, as the Paris Bourse is not materially disturbed. Elsewhere in Europe political and financial conditions are normal. The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety day bank bills in London  $2\frac{1}{2}@2\frac{3}{4}$  per cent. The open market rate at Paris is  $3@3\frac{1}{2}$  per cent and at Berlin and Frankfort it is  $4\frac{1}{2}@4\frac{3}{4}$  per cent. The higher open market discount rate at Paris is reported to be due to the increased demand thrown upon the market by the Bank. Pending the renewal of the charter of the Bank of France, it is stated that there is an indisposition to advance the rate. According to our special cable from London, the Bank of England gained £639,585 bullion during the week and held £30,980,408 at the close of the week. Our correspondent further advises us that the gain was due to receipts of £846,000 net from the interior of Great Britain and to an import of £5,000 from Australia, and to exports of £211,000, of which £201,000 were to the Argentine Republic and £10,000 to Germany.

The foreign exchange market has been active and generally strong this week. Among the features has been a revival of the demand for seventy-day bills for investment. It may seem strange that with the London open market rate of discount no higher than  $2\frac{3}{4}$  per cent and with sixty-day money ruling in the New York market at about 3 per cent there should be any advantage to the purchaser of seventy-day sterling for investment. The profit of the operation is said to be, at least for the moment, assured by the fact that the buyer of the seventy-day bill can now contract for the delivery of the maturing bill in March at  $4\ 84\frac{1}{2}$ , thus making the difference of two and a half cents between the long and the short drafts, which difference is equal to about 3 per cent per annum for sixty-three days, at the expiration of which time the transaction would be closed. Another feature of the market this week has been a good inquiry for cables to remit for the semi-monthly settlement of balances for stocks bought in London for New York account. The offerings of commercial bills against cotton, grain and provisions continue large, but the demand for them is good, and there appear to be no accumulations. The steamship Mariposa arrived at San Francisco on Wednesday from Sydney, N. S. W., with £500,000 gold in sovereigns.

Nominal rates for exchange remained unaltered at  $4\ 82\frac{1}{2}$  for sixty day and  $4\ 85\frac{1}{2}$  for sight until Wednesday, when Brown Bros. & Co., Heidelberg, Ickelheimer & Co. and the Canadian Bank of Commerce advanced the sixty day rate half a cent and the range thereafter was from  $4\ 82\frac{1}{2}$  to  $4\ 83$  for sixty day, sight being maintained at  $4\ 85\frac{1}{2}$ . Rates for actual business were advanced on Monday one-quarter of a cent all around compared with those at the close on Friday of last week, to  $4\ 82@4\ 82\frac{1}{2}$  for long,  $4\ 84\frac{1}{2}@4\ 84\frac{3}{4}$  for short and  $4\ 85\frac{1}{2}@4\ 85\frac{3}{4}$  for cables. The market on Monday and Tuesday ruled quite firm. On Wednesday the tone was steady. On Thursday the market was irregular and on Friday it was steady to firm, with rates for actual business  $4\ 82\frac{1}{2}@4\ 82\frac{1}{2}$  for long,  $4\ 84\frac{1}{2}@4\ 84\frac{3}{4}$  for short and  $4\ 85\frac{1}{2}@4\ 85\frac{3}{4}$  for cables. Commercial on banks  $4\ 81\frac{1}{2}@4\ 82$  and documents for payment  $4\ 81@4\ 81\frac{1}{2}$ . Cotton for payment  $4\ 81@4\ 81\frac{1}{2}$ , cotton for acceptance  $4\ 81\frac{1}{2}@4\ 82$  and

grain for payment 4 S1½ @ 4 S1½. The following shows daily posted rates for exchange by some of the leading drawers.

The following statement gives the week's movement of money to and from the interior by New York banks.

Week Ending Jan. 13, 1899.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$7,916,000	\$2,927,000	Gain \$4,989,000
Gold.....	1,321,000	489,000	Gain 832,000
Total gold and local tenders.....	\$9,237,000	\$3,416,000	Gain \$5,821,000

With the Sub-Treasury operations the result is as follows.

Week Ending Jan. 13, 1899.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$9,237,000	\$3,416,000	Gain \$5,821,000
Sub-Treasury operations.....	32,000,000	32,000,000	Loss 800,000
Total gold and legal tenders.....	\$11,237,000	\$36,016,000	Gain \$5,221,000

## THE DREYFUS MATTER AND THE FRENCH COURTS.

Two somewhat conflicting conclusions are drawn by the European press in general regarding this week's new incident in the Dreyfus revision matter. One, which is pretty generally reflected in the cable despatches to our own newspapers, is despondent, on the assumption that a public breach in the Court of Cassation itself, and an appeal by one of the members of that Court from his associates to the public, shakes the last stronghold of justice and common-sense. The other conclusion draws encouragement from the fact that even in the face of these desperate expedients by the opposition, the Government and the Court are steadily pursuing their way towards a sane and sober settlement of the question. With this view of the matter we most decidedly agree.

What has most impressed us in each successive effort of the anti-Dreyfus agitators, since serious statesmen resolved on pushing the affair to a conclusion, is the hysterical tone assumed in the various "denunciations." We hardly need to recall the exhibitions of tawdry sentiment by the army officers on the witness stand at Zola's trial, or the theatrical resignation of the war portfolio by Gen. Chanoine last October, accompanied as it was by an impassioned declaration to the Deputies that he was the "guardian of the honor of the army," and hurled without decent notice at the heads of his Cabinet associates.

As a result of this performance the Brisson Ministry did, to be sure, collapse, and a cry of exultation arose from the anti-Dreyfus agitators. But their triumph was short. The new Ministry put its hand firmly to the wheel, forced the revision question, in the face of frantic protests from the army, into the hands of the highest civil court, cleverly check-mated an attempt by the military clique to impose a star-chamber condemnation on the principal witness, and clearly allowed the fact to be understood that it was protecting the judiciary against either the army or any other outside influence.

This week, then, with the hour for submitting the formal decision of the Court at hand, the opposition makes another and very probably a final effort to turn back the hands on the dial of rational government; and the new explosion, disquieting as it may be from some points of view, shares with the previous outbreaks the element of absurdity. M. Quesnay de Beaurepaire, President of the civil division of the Court of Cassation, is perhaps as much a politician as a jurist; but his office was one of great dignity, the resignation of which, with angry accusations against his colleagues, was a matter for great regret, chiefly because such performances tend to bring the judiciary itself into disrepute. But when a dignity of this sort condescends to explain his action on the ground that one of his fellow-judges had ordered refreshments for a witness; when, in half a column of fustian declamation, he tells the public of his emotion and grief over a division in the Court, of soldiers "about to shed their blood for their slanderers," and of his own indignation that the high judiciary should "maltreat the army in favor of a traitor"—it is difficult to treat the episode seriously. We observe that even the Paris newspapers most read in the boulevards are talking impatiently of M. de Beaurepaire's "wordiness." It seems to be the Nemesis of the military clique in this controversy that at every important juncture the action of its advocates is surrounded with an atmosphere of opera-bouffe.

We do not, however, care to emphasize this element in the situation. What seems to us the really important fact is that this new and sensational demonstration by the anti-Dreyfus party appears, so far as it is possible to judge at this writing, to be going the way of previous demonstrations of the kind. It is, as usual, the sensation of the hour on the boulevards; it has provided, as usual, a theme for a few impassioned orators in the Deputies. But even in the Deputies, the Government weathered Thursday night's storm with little difficulty. The reader of the news hears little of a possible blockading of the course of justice as a result of the new outbreak: on the contrary the week's later dispatches uniformly foreshadowed an early and probably favorable report by the judges in the matter of revision. We do not hear of popular rioting against the pro-Dreyfus party; indeed, since the failure of the attempted public outbreak when the Dupuy Ministry announced its policy, there have been quite as many demonstrations for as there have been against the accused officers.

We do hear, in the various newspaper dispatches, of renewed probability that there will be a revolution in France, and that the existing government will go down at the hands of some one of the various pretenders. But then most readers of the dispatches can

recall curiously similar predictions, made when the Brisson Ministry went into office, when Zola made his charges, when Dupuy and his associates resolved on a revision policy, and when the Court of Cassation entertained the case. The predictions were as baseless then as they are now, and they merely reflect, in our judgment, a foolish habit grafted on criticism of French politics by recollection of an epoch now quite past and gone. It is a fact that France during the century following the revolution of 1789 changed its form of government eleven times, and that none of these numerous governments up to the Franco-Prussian war lasted longer than eighteen years. Therefore it seems to have been concluded by many critics that no French Government can outlive a generation.

But the present French Republic has already endured for nearly twenty-eight years; it has successfully withstood the shocks of internal dissension, parliamentary chaos, attempts at usurpation, resignation of two chief executives and assassination of another, and we see not the slightest reason to believe that it will not survive a military conspiracy. Indeed, to our mind the clearest proof of the strength of the French Government as an institution is the palpable weakness of its internal enemies. The army cabal, which began by threatening, presently came down to pleading for mercy, and eventually to begging somebody in a conspicuous place to speak for it. This is not the program of a formidable enemy to existing powers. The absurdity of the position of the various pretenders has been brought home to every Frenchman. These gentlemen have for months been urging that somebody call for them as deliverers, and nobody has called. The result has been that even the boulevard gossips have learned, what the investment markets and competent foreign observers understood many months ago, that national revolutions do not come because they are copiously advertised, and that what the great mass of people in France are resolved to have, first of all, is peaceable and intelligent Government. We suspect that this important fact has been learned in another very useful quarter. At the time of the Brisson Cabinet's collapse, three months ago, it was virtually impossible to induce a Paris newspaper of consequence to print any news except such as catered to the anti-Dreyfus sentiment. It needs only cursory reading of this week's Paris dispatches to learn that some of the most powerful journals of the city are discussing the present episode with a calm and unbiassed tone suited to rational criticism. This is perhaps the strongest of all proofs that the faction which, in this matter, loves darkness rather than light, has lost its case.

There are numerous reasons for this wholesome change in the situation; but the most potent influence, we imagine, has been the diplomatic experiences through which France has lately passed. The French people have learned, and perhaps not without humiliation, that critical international situations can arise as suddenly as parliamentary crises, and that it may be quite as well to confront such situations with a strong government not hounded and torn by internal dissension and conspiracy. When foreign relations have become visibly disturbed, the sober-minded and conservative people of any State are certain to be heard from, and this no less in France than in England, or Germany or the United States. The restraining influence of this sort of public opinion

made itself felt in France, particularly when the strain over Fashoda was greatest. It upheld the Ministry while that Ministry was managing an exceedingly difficult diplomatic retreat, and it is upholding the Government now in its very prudent moves to smoothe over the remaining elements of international friction. But it was quite inconceivable that this influence should be exerted thus powerfully in diplomatic affairs, and yet should leave the running sore of the Dreyfus complication unhealed in the body politic. As we take it, the citizens who now are really governing French public opinion have resolved to settle this matter once for all, and know, despite M. de Beaurepaire and the army cabal, that its settlement is in the proper hands.

### FAILURES AND THE CURRENCY WEAKNESS.

It hardly needs to be said that a study of a year's failures is never as agreeable as a study of its successes. Such statements have of course a special importance as a part of the history of commercial affairs; that is to say, the record for any twelve months would be incomplete without a list of the disasters. They nevertheless cover an unattractive field of inquiry and are a feature that, as a rule, in no measure foretells events, but reflects past conditions; hence, usually the disclosures have very little bearing upon the future. This is especially true of the current month's statement; in other words, this exhibit of insolvencies tells the story of what has happened in that particular since January 1898, but sheds no light by itself upon, nor does it convey any instruction with respect to, the course of business during coming months.

Thus it happened that every one knew before the receipt of Dun's compilations that when made public they would show a better state of things than last year's exhibit. It was likewise equally well known that since no special catastrophe, no commercial or financial crisis, had been an incident of the period reviewed, that therefore no important lesson could be drawn from the details given for the last year. So far as failures are concerned, the twelve months of 1898 include a very ordinary period of a gradual but decided recovery from business depression, and the disasters are the natural outcome of such a period. Hence we find the total number of insolvents for the year is only 12,186 with \$130,662,899 liabilities, against 13,351 in number and \$154,332,071 of aggregate liabilities in 1897; furthermore, there is no year since 1892 when either the number or the liabilities have been so small. The following statement shows these results each year since 1890, inclusive.

First 6 months.		Last 6 months.		Total Year	
Number	Amount	Number	Amount	Number	Amount
Failures.	Liabilities.	Failures.	Liabilities.	Failures.	Liabilities.
1898..6,718	67,444,639	5,488	63,218,280	12,186	130,662,899
1897..6,921	91,692,787	6,530	62,639,284	13,351	154,332,071
1896..7,026	97,869,682	8,062	123,227,152	15,088	226,096,834
1895..6,657	88,839,944	6,540	84,356,116	13,197	173,196,060
1894..7,035	101,733,306	6,847	71,259,550	13,885	172,992,856
1893..6,401	168,879,539	8,841	177,900,350	15,242	346,779,889
1892..5,503	62,273,680	4,851	51,770,487	10,344	114,044,167
1891..6,074	92,416,287	6,199	97,452,371	12,273	189,868,658
1890..5,385	65,319,384	5,522	124,537,580	10,907	189,856,964

The foregoing indicates that so far as the 1898 record is studied by itself or in connection with its predecessor, it proves to be in every way a correct reflection of the business situation. In the first place the improvement is found to be progressive.

The number of failures and the amount of liabilities are both smaller in the last half of the year than they were in the first half. That increase conforms to the progressive character of the industrial development, and shows a gradual lessening of the strain to which those engaged in commercial affairs have been for so long a time subject. Moreover, the totals for the year make a highly satisfactory comparison with most of the years in number of failures, and with all the years but 1892 in liabilities; this feature reflects the industrial situation also, for beyond doubt the business prospect is more promising to-day than at any date included in the foregoing compilation.

But when we take a long series of years for our study the figures of failures always afford very suggestive and useful teaching. We can, indeed, read the industrial history in that way more accurately and instructively than in any other. Of course there are failures in every twelve months—that is inevitable. By no means has every man the qualities which serve to turn out a successful merchant or business manager. The art of making two blades of grass grow where only one has hitherto been gathered, and so increasing the yield as to bring a net profit out of the year's product against a loss under the old conditions, is an end by no means attained by every agriculturist, and yet that is substantially the problem most successful business men have had to solve. Raising the two blades of grass is often easy enough; but so raising them as to secure a satisfactory addition to income requires diligence, judgment and thrift. It is no wonder, consequently, that failures are always a large incident in any year's events.

Hence with conditions for business ventures normal, that kind of disaster must be a pretty constant quantity, not so very unlike the death rate which is the basis of the life insurance contract. There are, though, years when the rate of failures is above and others when it is below normal. Those are the years that call for investigation. In that interest we give the following, which presents the number of failures and volume of disasters for each quarter of the twelve months since 1878.

FAILURES—	First Quar.	Second Qr.	Third Qr.	Fourth Qr.	Total.

Taken in this comprehensive way we get a kind of panoramic view of the ups and downs in our com-

mmercial life. No one who passed through the earliest cycle the above compilation covers can ever forget the phenomenal prosperity of the four years immediately succeeding the adoption of gold payments in 1879. That little piece of history stands forever as a striking protest against unsound money; whereas later history shows in an equally striking manner the trouble which compromises with currency errors entail. For unfortunately when we prepared the ground for the industrial prosperity that began in 1879, we sowed tares among the wheat. They grew together well enough so long as the tares were of small size. But in 1882 there were developing evidences of interference; in 1883 and 1884 this reached a decidedly troublesome stage. This is clearly shown in the gradual increase in the number and liabilities of the failures for the years 1882, 1883 and 1884.

Never since 1882 have our industries been wholly relieved from the harmful influence of silver issues of one kind and another begun in 1878. There was a partial suspension of the pressure in and after 1885 by a large increase in the holdings of gold and currency in the Treasury accumulated under Secretary Manning's Administration; and also by the retirement of bank notes, which contraction was begun in a small way before that date and continued until 1890, when the notes outstanding had been reduced about 180 million dollars, thereby and to that extent opening a place for the circulation of silver certificates; this was supplemented in some measure by the small-silver-certificate law of 1886, providing for the issue of one, two and five-dollar certificates and by the withdrawal by the Treasury Department (continued until 1891) of nearly all of the one and two-dollar legal tender and national bank issues. These changes and the pressure they eased are all reflected in the above statement of failures, as also is the later action of the 1890 law. We have no space to present the details and set out the facts, which we gave years ago, showing the workings of the devices referred to. We must content ourselves at this time with these general statements.

Of course now again we are rejoicing in our safety; but it is only a safety which fortuitous circumstances have bestowed and which in the nature of affairs cannot be permanent. To be sure, our currency problem has changed somewhat. The conditions, though, remain which were the cause of our latest and severest experience.

#### ENGLISH ORDERS FOR AMERICAN LOCOMOTIVES—EUPHRATES VALLEY RAILWAY PROJECTS—CO OPERATIVE PRODUCTION—FRENCH COLONIAL POLICY—A BILL AGAINST CORRUPTION IN BUSINESS.\*

MANCHESTER, December 28, 1893.

Last week contracts were concluded by the Midland Railway Company with two American locomotive manufacturers for twenty engines. Ten of them are to be made by the Baldwin Company of Philadelphia and ten by the Schenectady Company. The engines are to be constructed according to English specifications, and the prices to be paid are somewhat less than the current quotations of British makers for similar work. It is not the lower prices which have induced the Midland directors to send these orders across the Atlantic, but the fact that they cannot be obtained on this side within the time prescribed, viz., four months. The engines are for freight traffic. The Midland Company has itself large locomotive

\* Communicated by our Special Correspondent at Manchester.

works at its headquarters, Derby, but only passenger engines are produced there. The incident confirms a statement previously made in this correspondence to the effect that a considerable amount of orders for engineering and other iron and steel work has for some time been going to the United States because of the abundance of contracts held by manufacturers in this country. This transference of business is partly a consequence of the great engineers' strike and partly of the exceedingly good demand all over the world for engines, machinery, shipping, and a multitude of articles made from iron and steel. There is nothing irrational in the belief that notwithstanding these exceptional conditions, the United States will permanently retain a portion of this new business.

Attention is being drawn to a promising field for engineering and industrial enterprise of great extent in one of the earliest homes of civilization. Several schemes for the construction of railways in the valleys of the Euphrates and the Tigris have been brought forward during the last thirty years. Their main purpose has been to provide a short and rapid means of transport with India and the Far East. Partly no doubt for political reasons and partly because the Suez Canal has done so much to facilitate communication between the West and the East, these schemes have come to naught. But within the last fortnight it has been reported from Vienna that a proposal is now under the favorable consideration of the Sultan and the Government of Turkey for the laying down of a railway with branches between the Mediterranean and the Persian Gulf. On the Mediterranean seaboard the point of departure is Tripolis, a small place, without harbor as yet, but capable, it is said, of being made into a port. It is situated about sixty miles north of Beyrout. The line is to proceed over the northern spurs of the Lebanon Mountains, reaching a height of 2,000 feet, and thence to Palmyra ("Tadmor in the Wilderness," founded by King Solomon). From this point it will pass to the Upper Euphrates and then down the valley, throwing off a branch near Bagdad to the Persian frontier, and another southward into Arabia, the main line going on to Koweyb, which is also a possible port in the northeast corner of the Persian Gulf. A request for a concession has been addressed to the Turkish Government by a Russian in the name of an international syndicate of which he is the representative. He asks also for exclusive rights to construct irrigation works, to drain swamps and to utilize the mineral deposits on the line of route. It is calculated that at an average speed of 40 miles per hour from Tripolis to Koweyb, the time now occupied between Brindisi and Bombay may be reduced from 13 to 8 days. But apart from the doubt as to the attainment of so high an average speed on the railway, there is the certainty that the Peninsular & Oriental mail steamers can be very considerably expedited, their contract rate of steaming being now much below their potential capacity. When, therefore, together with this fact, the necessary disembarking at Tripolis and re-embarking at Koweyb are considered, the apparent advantage of the proposed line is greatly lessened.

On the other hand, it is undeniable that from some points of view the scheme suggests possible results of the highest importance. Within the last few days I have conversed with persons well acquainted with the regions surrounding the Tigris and Euphrates, includ-

ing a former Indian officer who has resided there for some years, and who had previously had abundant opportunity of observing the methods and the good fruits of irrigation and other public works in India. The impression produced by these conversations is that the great tract of country through which these rivers flow may, at no great cost, be converted into a source of wealth not incomparable to Egypt. The question is the more worthy of prominence because, owing to long neglect, the navigation on these rivers is becoming more and more difficult every year by the destruction of the banks and the diminishing depth of water. During the last three or four years large quantities of merchandise have at times accumulated at Bussorah, failing proper means of transport. Fully one-half of these consisted of imported cotton manufactures, chiefly English, Indian and American, on the way to Persia through Bagdad, the rest being for distribution in Mesopotamia and the adjacent districts. There can be no doubt that a competent Indian or American engineer, backed by a comparatively moderate amount of capital and a suitable arrangement with the Turkish Government, would be able to make a very profitable investment in improving the navigation and in converting, by irrigation and drainage, what is now little better than a huge wilderness into a highly productive region. Of the natural fertility of the soil there is no question. It is attested not only by the remains of ancient towns and villages and traces of canals which formerly supplied moisture to the land, but also by the reports of modern residents and travelers.

The decisive consideration in regard to these problems is the ultimate disposition of the Sovereign Power—the Sultan. He has already a personal interest in the navigation of the Tigris and the Shatt-ul-Arab, the name given to that river from its confluence with the Euphrates to the sea. Between Bussorah, near its mouth, and Bagdad—a distance by water of nearly 500 miles—only five small steamers of from 200 to 300 tons are allowed to ply, and three of them belong to him, the remaining two being owned by Messrs. Lynch Brothers of London. These are insufficient for the traffic. They cannot be loaded to draw more than four feet, and even thus restricted they are frequently obliged, on reaching the successive shallows, to discharge part of the cargo and drag it along the banks, to be replaced on board as soon as the deeper water is again reached. The private steamers are forbidden to tow barges, apparently for the purpose of reducing competition with the Sultan's craft. These, for want of repair, are fast going to ruin. Everything is done to get the greatest possible immediate revenue without the slightest regard to the future. It is conceivable, no doubt, that the Sultan might be disposed to sanction a project—if international all the better—for improving the navigation and constructing irrigation canals and drainage works, since it might be easily shown that the carrying out of these enterprises would vastly augment the revenue of his Government. But the present railway scheme—which is really Russian—involves possible political complications, and the risk of these, one may well imagine, the Sultan is very unlikely to incur. There is some reason to believe, moreover, that the proposal has been brought forward just now as a rival of another railway project in that part of the world of which more will probably be heard before long.

The Labor Department of the Board of Trade, corresponding in some of its functions with the Labor Bureau of Washington, has in recent years given increasing attention to the statistics of Co-operative Production and Distribution in the United Kingdom. It has just issued statistics for 1897 collected from the societies which engage in production. The figures showing the amount of the business done is not to be compared with those giving the value of the commodities passing through the distributive branches. They are, however, of great interest because they show that the producing departments do get through a large amount of work and that they embrace many kinds of industry. Returns were received from 805 societies, employing 29,668 persons, who produced goods of the aggregate value of \$47,257,860 during 1897. They received in wages and bonus the sum of \$7,491,030. In the following table the number of societies, and the number of men, women and children engaged in each kind of industry are shown.

Industries.	Societies.	—No. of persons employed.—

Percentage of total.....		58.1	25.5	16.4	100.0

NOTE.—The sum of the first column does not correspond with the number of societies represented, because a few of them carry on more than one kind of industry.

Dividing the whole sum earned by the total number of persons employed, the average works out to a little over \$252 each for men, women and children. Apportioning the aggregate earnings of \$7,491,030 according to the most likely estimate, it appears that the wages of men are about \$7 per week, reckoning 50 weeks to the year; of women \$4, and of children nearly \$3. It should be observed that the co-operative producing societies pay the regular standard rate of wages current in the industries and the localities in which their work is carried on. A further point of interest is that co-operation flourishes—in both the producing and distributing branches—chiefly in the northern counties of England, particularly in Lancashire and Yorkshire and in Scotland. In the South of England and in Ireland the spirit of independence and the habit of association for purposes of mutual advancement are much less fully developed than in other parts of the kingdom. Of the entire number of persons engaged in co-operative production, viz.: 29,668, there were 20,716 in England and Wales, 8,550 in Scotland, and only 402 in Ireland.

The results of "closing the door" in Madagascar to all but French productions are sufficiently indicated in a telegram received from Antananarivo yesterday. The new tariff, which is substantially the same as the home conventional tariff of France, was applied on August 26th 1897. For eight months of last year, consequently, the old arrangement was in force, under which imports from all countries received identical Customs treatment, and for four months the new one prevailed. The year was therefore a broken one.

But the telegram gives the amount of imports of textile fabrics—chiefly cotton goods—the principal commodity supplied to Madagascar from without during the eight months from February to October 1898, from France and from other countries respectively. Comparing these statistics with the corresponding figures for the whole of 1896—the last complete year of the former régime—the result is very striking. In 1896 the imports were \$772,000 from other countries and only \$96,500 from France. But in the eight months referred to they were not more than \$298,500 from other countries and \$1,158,000 from France. It is quite possible that in this last item some British and American goods, which used to be almost exclusively sent to Madagascar, may be included, having been first imported into France and there "nationalized" by payment of duty. There can be no doubt, however, that practically that market is now closed to all but French textile goods, since special efforts have been made to imitate the cloths of the United States and England, and the trade-marks by which they were known to the natives.

It may be as well to state, however, that it is understood here from some words spoken by Lord Salisbury not long ago that the British Government has never yet assented to the doctrine that the annexation of Madagascar annulled the treaties previously made by the deposed Queen of the Island with various countries—Great Britain and the United States included—which limited the rate of import duty to 10 per cent *ad valorem*. It is not unlikely, therefore that this question of the Madagascar Customs tariff may be amongst those which still remain unsettled between France and Great Britain. In this connection it may perhaps be not improper to refer to a conversation which recently took place between the present writer and a professor of one of the higher educational institutions of Paris. The subject was the attitude of the leading commercial nations toward French territorial expansion. The view was advanced that in England, where public opinion on this matter was perhaps more openly expressed than elsewhere, the expansion in so far as it meant the introduction of civilization and orderly government in regions where these do not exist, could be regarded in itself only with satisfaction, but that it was the policy of the closed door which effectually prevented the great commercial peoples from entertaining and expressing approval. The reply was: "Yes, it is very true, but the misfortune is that the mass of my countrymen know little or nothing of these things. They understand extension of territory and they like it, but they do not see the effect of the policy; they are hardly aware of its existence." Influential and well informed authorities in France are not altogether silent upon this subject, for the "Temps," writing a few weeks ago about the French foreign and colonial trade, took occasion to offer a word of advice to the colonial and national party. It was pointed out how trifling was the value of the colonial markets to French producers in comparison with the enormous outlet for their manufactures amongst the older nations which are competitors with France in the world's markets, and it was urged that there was great danger whilst pursuing the system of the closed door of provoking conflicts with the countries where French productions find their largest and most valuable outlets.

It is not improbable that, during the next session of Parliament, a measure may be submitted, the ob-

ject of which is to check corruption in business life. At all events, a bill has been drafted for this purpose by an eminent authority. The bill creates five offenses: the making of a corrupt payment; the offering of it; the receipt of it; the solicitation of it, and the omission to state the discount and other allowances on any amount rendered to an agent. Notwithstanding the well-known and absolute purity of all branches of the British public service, there can be no doubt that in several sections of commerce and industry, the giving of secret commissions or of gifts in one shape or another is not uncommon to persons occupying a position of trust in order to gain their favor in business transactions or to remove their aversion or their preference for others. There is no reason to believe that inducements of this kind are of much importance in the great majority of cases. But whatever be its extent or gravity, the evil has for some time been a good deal discussed and the London Chamber of Commerce made an attempt a few months ago to investigate it. Hence, probably, the draft bill.

It is a little too soon yet to frame exact and detailed statements as to the experience of the leading branches of trade and industry this year in the United Kingdom. Undoubtedly the prevailing condition marks a decided improvement upon that of 1897, and in some directions—in the iron, steel, engineering and ship-building departments, for example—it has been and still is highly prosperous. The cotton industry, too, maintains fully the improvement which set in four or five months ago. In Manchester business generally continues active. The returns of the City Bankers' Clearing House from January 1 to the 24th instant reach an aggregate amount of £199,337,223, against £189,609,320 in the corresponding period of 1897, showing an increase this year of £9,727,903, or at the rate of 5·13 per cent. This may be taken as indicating the minimum of the expansion which has occurred during the year in purely mercantile and industrial transactions, since there has been no unusual activity on the local Stock Exchange.

#### CLEARINGS AND SPECULATION IN 1898.

Bank clearings for the calendar year 1898 are fully in keeping with the character and course of trade during the twelve months. The year was in many respects a remarkable one. It was a period of great and growing activity in our industries as well as in Stock Exchange speculation. As a result many new high records were established in both directions. The statistics of bank clearings reflect this gratifying situation, and at the same time themselves contribute to make the year noteworthy by furnishing aggregates never previously attained.

The magnitude of the development in business and in speculation which occurred appears from the fact that while in 1896 the volume of clearings for the whole country had been only 51,333 million dollars, and even in 1897, after an expansion of 11·7 per cent, was but 57,321 million dollars, for 1898 the total rose to no less than 68,833 million dollars, representing a further addition of over twenty per cent. In other words, as compared with 1896, only two years before, when things were much disturbed and the Presidential campaign was fought on the silver issue, there has been an increase of fully one-third. If we go back to 1894—that twelve months of notoriously bad con-

ditions—we find a total then of only 45,545 million dollars, as contrasted with the 68,833 millions for 1898. Thus in the interval of four years there has been an expansion of fully one-half. There have been during the last two decades several other periods of active trade and speculation and large bank clearings, but 1898 outranks them all in the size of the total of the clearings. Perhaps the most significant circumstance is that this is the first time in seven teen years that the previous high record has been reached and exceeded, 1881 having until 1898 held that distinction with a total of 63,471 millions. This relates to the country as a whole, including New York City. New York by itself does not show the largest aggregate of bank clearings ever made, as will appear from the following, giving the figures both for New York and the whole country.

#### CLEARINGS.

Year.	New York Clearings.	Per Ct. Inc. or Dec.	Clearings Outside New York.	Per Ct. Inc. or Dec.	Total Clearings.	Per Ct. Inc. or Dec.

1883 .....	37,434,300,872	-20·2	14,297,171,924	+2·4	51,731,472,796	-15·0
1882 .....	46,916,955,031	-5·0	13,962,236,579	-0·9	60,879,241,610	-4·0
1881 .....	49,376,832,883	+27·9	14,094,506,331	+23·9	63,471,339,214	+27·0
1880 .....	38,614,448,223	+32·1	11,875,400,000	+34·4	49,989,848,223	+29·7
1879 .....	29,235,678,826	+47·2	9,290,800,000	+16·8	38,526,478,826	+38·5
1878 .....	19,858,671,307	-6·7	7,955,100,030	-6·2	27,813,771,307	-6·0

It will be seen from the foregoing that while the amount of checks cleared at this point in 1898 was 41,971 million dollars (contrasting with 33,427 millions in 1897 and 28,870 millions in 1896), back in 1882 the aggregate cleared at New York was 46,916 millions and in 1881 49,376 millions. The difference, however, against 1898 in these cases is explained entirely by the fact that notwithstanding the activity of speculation on the Stock Exchange during 1898 the share sales fell below those in these earlier years, and by the further fact that a very large portion of the dealings in stocks is now and has been since May 1892 cleared through the Stock Exchange Clearing House, effecting an enormous saving in the checks which must pass through the bank Clearing House. Except for these circumstances New York clearings would stand away ahead of those of all preceding years, just as do those at most other points. The record of the yearly stock sales back to 1879 is presented herewith.

#### NUMBER AND VALUE OF SHARES SOLD AT NEW YORK STOCK EXCHANGE

\* The shares of stocks we take from the record kept by the *Journal of Commerce* for the years 1879 to 1884, inclusive; since 1885 the totals are our own compilation.

† The values of sales for the years 1879 to 1882, inclusive, are the figures made up by *The Public*; the totals for the remaining years are our own computations.

While for the twelve months of 1898 the share sales fell somewhat behind those for 1882 and 1881, the

total for the last month, December, at 15½ million shares, has never before been equaled. The share sales by months for the last two years are subjoined.

What is true of the stock sales for December 1898 is true also of the bank clearings for that month. The total for the month is 7,357 million dollars, and at that figure is the largest of any month of any year. The low periods during the year 1898 were the second and third quarters, in the first of which the outbreak of war disturbed business, and in the second of which the near approach of the elections with the renewed aggressiveness of the silver advocates caused a temporary pause in trade. In the March quarter the aggregate of the clearings was 17,205 million dollars. In the June quarter the aggregate was only 15,808 million dollars and in the September quarter 16,103 million dollars. But in the December quarter the total advanced to no less than 19,764 million dollars. In the comparisons with the year preceding, the showing is best for the first six months, but this simply follows from the fact that in these six months of 1897 there had been no gain, while in the last six months of that year there had been a very decided gain. Only one month of 1898 recorded a loss from the same month in 1897, and that was September, when both Stock Exchange business and industrial activity experienced a temporary lull and when at the same time comparison was with a month in 1897 which had recorded 50 per cent increase over the previous year.

It is a striking and significant fact, illustrative of the general nature of the improvement which occurred, that in the whole list of places having clearing houses and furnishing clearing house returns, there are only four where the aggregate of checks exchanged represented a smaller amount than for 1897. Of these four places showing losses two, namely Providence and Fall River, are in the New England group, and two, Macon and Augusta, Ga., are in the Southern group. The reasons for these exceptions are perfectly obvious. In the South the low price of cotton has been an adverse feature, in New England those leading industries—cotton goods, woolen goods and leather—were all for part of the year very much depressed, though at the close they shared in the general improvement. In the CHRONICLE of January 7 1899 (page 1), we showed the clearings at every point, and also gave the totals by groups in comparison with the figures for 1897. In the New England group the increase was found to be only 5.9 per cent and in the Southern group 7.6 per cent, while in the Middle Western group the gain was 17.5 per cent, in the Far Western 17.6 per cent, in the Pacific 15.9 per cent and in the Eastern group, best of all, 24.0 per cent. In the following table we report the results for each group for each quarter of the last five years. Examination of the statement will disclose how pre-eminent the last quarter of 1898 was both for large totals and for improvement over the corresponding period of other years.

Among the larger cities New York stands foremost for its heavy ratio of improvement, having added 25.6 per cent to its clearings for 1897. This is owing to

the prominence of financial transactions at this point, these having been very heavy during 1898, and also to the activity of Stock Exchange speculation. We have already noted that much of the dealings in share properties on the Exchange is cleared by an independent method. Nevertheless, relative activity or inactivity of stock speculation is still a potent influence in affecting bank clearings. Obviously the check given by a customer to his broker in payment for stock purchased, and the check received by the seller of this stock from his broker, do not pass through the Stock Clearing House, but go to swell the volume of ordinary bank clearings. However, practically all the larger cities record satisfactory improvement over 1897, even if the ratio of gain does not in every case equal that of New York. Moreover in the great majority of instances the 1898 clearings are the best ever recorded. Here is a comparison for four years for December and the twelve months at the leading cities.

In the mercantile Exchanges, it is proper to say, speculation has been generally on a small scale. In the grain trade the Leiter deal seems to have operated to produce a species of paralysis, for the sales were only 994 million bushels in 1898, against 1,477 million bushels in 1897, 1,285 million bushels in 1896 and 1,899 million bushels in 1895, as will be seen by the following table. The Produce Exchange has long cleared its own transactions.

At the Cotton Exchange, likewise, dealings were much restricted, though there is no way of telling the

volume of transactions since the Exchange stopped reporting the sales last July on the going into effect of the War Tariff Act. The Cotton Exchange has cleared its business since March 5 1896.

## RAILROAD GROSS EARNINGS FOR 1898.

The improvement in railroad gross earnings during 1898 was, perhaps, the most noteworthy in American railroad history. In magnitude the gain reaches imposing figures. And this betterment in the revenues of the roads appears all the more significant, all the more striking, in view of the fact that it comes after very decided expansion in the year immediately preceding.

The reader need hardly be told that it is too early yet for exact and final results. The December figures are not yet available in the case of not a few roads, while as respects many other roads where periodical returns are lacking, months must elapse before we can expect authoritative statements of their business and revenues for the year. From the returns we have gathered, however, we are able to indicate very clearly the extent and widespread character of the improvement—and this, too, within fourteen days after the close of the period.

We have reports for the full twelve months from 133 companies operating 103,482 miles of road. On these 133 roads the gain over the preceding year reaches, roughly, 48 million dollars. In addition we have returns from 67 companies operating 59,699 miles of road which have as yet reported for only the eleven months to November 30. These 67 roads show for these eleven months a gain of 30½ million dollars. Altogether we have hence an actually recorded increase, as far as the returns have yet come in, of 78½ million dollars. In tabular form the results are as follows.

	Gross Earnings.			Miles of Road.	
	1898.	1897.	Increase.	1898.	1897.
	\$	\$	\$		
133 roads full year....	614,439,667	566,355,228	48,084,439	103,482	102,424
67 roads 11 months..	503,175,853	472,945,608	30,230,250	59,699	59,251
Grand tot. (200 rds.)	1,117,615,550	1,039,298,831	78,316,719	163,181	161,675

From the foregoing it is evident that the year was a strikingly good one with the carriers—a fact of course already well known. As the increase of \$78,316,719 is based on only 163,181 miles of road (and this including a few Mexican and Canadian roads) while the railroad mileage for the whole country may be placed at 187,000 miles, it seems safe enough to estimate that if our compilation could be made to cover the entire railroad system, the increase over 1897 would be found to be fully 90 million dollars. A statement similarly prepared twelve months ago showed for 1897 a recorded gain of \$58,904,761 on 159,651 miles of road, while for the railroad system as a whole the gain must have been in the neighborhood of 70 to 75 million dollars. Briefly, then, we may say that United States railroads added 90 million dollars to their gross receipts in 1898 after an addition of 70 million dollars in 1897. Such figures speak so eloquently of the condition of this great industry during the last two years of trade revival that it is unnecessary to reinforce them with any word of comment. We annex the following table, showing the comparisons for December, the closing month, as well as for the full twelve months, of each of the last six years.

	Mileage.		Earnings.		Increase or Decrease.

The contrast here presented between the earlier and the later years is illustrative of the great change which has occurred in the interval in the condition of the railroad industry—a change typical of that in the country's industries generally. In 1893 the roads then included in our compilations showed a falling off in their revenues in the sum of over 25 million dollars. In 1894 there was a further loss in the tremendous sum of 112½ million dollars. In 1895 recovery began with a gain of 50 million dollars. In 1896 the process of recovery was carried a trifle further with an increase of a little over 3 million dollars. In 1897 and 1898 there came genuine expansion with an increase of 59 million dollars in the first-named year and of 78 million dollars in the last-named year. Obviously the difference between a loss of 112½ millions in 1894 and a gain of 78 million dollars in 1898 is as wide as the difference in the market values of the securities and the speculative conditions on the Stock Exchange at the two dates.

The causes that have served to bring about this further improvement in railroad revenues are numerous. In the first place there was the advantage arising from the added expansion in the tonnage of the leading crops. Both the cotton traffic in the South, and the grain traffic in the West and East, again heavily increased after the decided increase in the previous year. Then the revival of trade all over the country added to the merchandise and general freight of the roads—a class of traffic which is considered very desirable because it pays higher average rates than the ordinary tonnage. The farming sections, too, enjoyed great prosperity. The price of wheat fell sharply after the collapse of the Leiter wheat deal, but the country was again blessed with abundant harvests; in the spring-wheat sections of the Northwest the yield was probably the largest ever made, and as the foreign demand for American grain remained undiminished, the farmer was able to dispose of his product at good, even though not high, prices. Thus the position of the Western agricultural classes was very favorable and they were able to buy supplies and goods from the East with great freedom, leading to an interchange of commodities on a large scale between the two sections. The part played by reviving trade in swelling the traffic of the roads is well shown by the increase in the shipments of iron ore from the mines to Lake Superior. These shipments are reported for 1898 at 13,650,351 tons, against only 12,215,645 tons for the year 1897 and 9,644,036 tons for 1896; and yet the gain in the ore shipments is only one of the many ways in which the growth and activity of the iron trade has operated to enlarge the business and the revenues of the roads. There followed from the same cause increased shipments of coal, of limestone, and of the finished products of iron and steel.

There was also comparative freedom from the adverse conditions and influences which in some other years have served seriously to interrupt traffic and reduce earnings. There was no general labor trouble of large dimensions, like that of the strike of the bituminous coal miners, which for several months of 1897 proved so deeply disturbing. The floods in the Mississippi and Ohio valleys, which had been of exceptional magnitude in that year (the overflow of the Mississippi then having been the worst on record), proved relatively unimportant in 1898. The winter was favorable to railroad operations in both years, but obstructions from snow and ice in 1898 were fewer and less severe even than in 1897. In like manner while there was a recurrence of yellow fever in the South (after the outbreak in the previous year), and while the quarantine restrictions resulting from the same put an embargo on railroad movements in certain sections for a time, the trouble in this way was of very much less consequence than it had been in 1897.

There were also some special favoring circumstances. Thus the movement of United States troops added materially to the revenues of a number of roads. Southern roads experienced the most advantage. Among those particularly benefited in that section may be mentioned the Southern Railway, the Florida Central & Peninsular and the Cincinnati New Orleans & Texas Pacific. In the East the Long Island Railroad was one of the lines where that circumstance played a prominent part in affairs. The ordinary passenger traffic over the roads increased only moderately, notwithstanding the activity and prosperity of trade. In the West the trans-Mississippi Exposition at Omaha, while it lasted, enlarged the passenger traffic of the roads running to that point.

The rate situation was the worst ever experienced in the railroad world, barring the times when the roads were actually at war with one another. The situation was particularly discouraging in the territory between Chicago and the seaboard, where utter demoralization prevailed; grain the latter part of the year was taken at only ten cents per hundred pounds. The decision of the U. S. Supreme Court in October declaring the Joint-Traffic Association illegal, seemed to knock the last prop from under the roads in their efforts to maintain agreed charges. Had it not been for the large increase in the tonnage offering (the facilities of the lines being taxed to the utmost at times), the effect upon the revenues of the roads must have been serious indeed. As it was, the Eastern trunk lines suffered greatly from that cause, and that will explain why these roads as a class have done so much less well than those further West.

In the South the low price of cotton was an inauspicious feature, but the movement of the crop was of unusual dimensions. Thus the receipts of the staple at the Southern outports for the twelve months of 1898 were 8,399,862 bales, against 7,113,439 bales in 1897 and 6,475,263 bales in 1896. In the same way the overland shipments were 2,022,187 bales in 1898, against 1,445,322 bales and 1,274,944 bales respectively.

The grain movement was of enormous proportions, whether measured by the receipts at the seaboard or by the deliveries at the Western primary markets. At the seaboard the arrivals of wheat, corn, oats, barley and rye aggregated in 1898 461 million bushels, against 420½ million bushels in 1897 and

263 million bushels in 1896, as will appear by the following.

## GRAIN AND FLOUR RECEIPTS AT SEABOARD.

	1896.	1897.	1898.	1895.
Flour.....bbls.	21,979,388	25,796,941	12,751,024	17,980,141
Wheat.....bush.	142,100,510	104,297,001	68,284,239	50,684,527

Barley.....bush.	6,219,471	13,436,911	13,332,033	5,046,020
Rye.....bush.	15,398,033	12,278,873	6,194,790	569,884

Total grain... 460,963,732 420,533,850 262,993,377 161,565,833

At the Western markets the receipts for the fifty-two weeks of 1898 aggregated 693,447,395 bushels, against 645,555,844 bushels in 1897, 550,760,654 bushels in 1896 and 429,477,590 bushels in 1895. We annex our usual table showing the details of these receipts. It will be observed that in 1898 the gain was most pronounced in wheat, but extended to all the other cereals except oats, where the total fell 15 million bushels behind that for 1897.

## RECEIPTS OF FLOUR AND GRAIN FOR FIVE WEEKS ENDING DECEMBER 31 AND SINCE JANUARY 1.

The foregoing figures cover just fifty-two weeks. In the following we show the movement at Chicago for the even year. The aggregate for 1898, it will be seen, is 296½ million bushels, against 283½ millions, 239½ millions and 175 millions, respectively, in the three years preceding. At the same time the provisions receipts were heavier, and the deliveries of live hogs were 9,866,036 head in 1898, against 8,363,724 head in 1897 and 7,659,472 head in 1896. The live-stock movement as a whole, however, amounted to only 276,043 car-loads, against 279,662 car-loads in 1897 and 277,437 car-loads in 1896.

The improvement in earnings continued all through the year (treating the roads as a whole), but the bulk of the large increase reported occurred during the first six months. For this period our statement published last July and made up on the same basis as the present exhibit recorded \$57,440,505 increase, while now we have \$78,000,000 increase for the whole year. Estimating the gain for the entire railroad system for the year at 90 million dollars, 70 millions of it may be said to have been made the first six months. This is just the reverse of the showing for 1897, when the bulk of the improvement took place the last six months. Below we furnish a summary of the monthly results. It will be noticed that during the first five months the ratio of improvement was each month 13 per cent or higher. After that it fell to much smaller figures, dropping in July to only 1.78 per cent. The reason for this reduction in the percentages was that a great contraction occurred about that time in the grain movement (in part because farmers were unwilling to send grain to market at the prevailing low prices, in part because of the exhaustion of old supplies and the absence of any considerable fresh supplies from the new crop), besides which business was somewhat disturbed by the Spanish-American war, and comparison was with improved returns in 1897. This last statement may be said to apply to the comparisons all through the last six months, improvement in 1897 in these six months having been so pronounced that the further gains in 1898 were necessarily on a reduced scale.

Among the separate roads there are many increases for large amounts, while the losses are few and unimportant. As a matter of fact there are only two roads where the falling off reaches as much as \$200,000, and these are both coal roads, namely the Philadelphia & Reading and the Erie, reflecting in this the unsatisfactory condition of the anthracite trade. The Southern Pacific leads all others in the amount of its increase, which for the eleven months foots up \$6,771,499, but there are over half a dozen others where the increase exceeds \$3,000,000, and still others in large numbers where the increase runs above a million dollars. The roads which as a rule have done best are the grain-carrying roads of the West and the roads to the North Pacific Coast, where in addition to a favorable agricultural situation there was great trade activity, aided in part by the Klondike gold discoveries. We show herewith all changes in excess of \$200,000.

PRINCIPAL CHANGES IN GROSS INCREASES.		EARNINGS FOR 11 MONTHS. INCREASES.

## THE GOLD CLAUSE IN TEXAS MUNICIPAL BONDS.

In our article in the issue of December 3 under the caption of "Validity of Municipal Bonds Payable in Gold," we were in error in assuming that the Special Court of Civil Appeals which decided the Texas cases was the court of final jurisdiction. An appeal from the decision of this court may be taken on a writ of error to the Supreme Court of

Texas. We gladly make room for the following letter from ex-Judge Edward Gray, who was the trial Judge in the cases referred to. With reference to the second part of Judge Gray's letter, we will only say that in our discussions we simply followed the language and arguments of the Civil Court of Appeals.

DALLAS, Texas, Jan. 7, 1899.

THE COMMERCIAL AND FINANCIAL CHRONICLE, New York:  
 GENTLEMEN—In your issue of December 3d, 1898, which has been shown to me, you review editorially the "validity of municipal bonds payable in gold." In this review you say that the decision of the Court of Civil Appeals at Fort Worth is authoritative and a final ruling on this question in Texas. In this you are in error. Our system of jurisprudence as now constituted is somewhat similar to that of your own State of New York and of the United States courts. That is, the District Court is the highest court of first impression. The Civil Courts of Appeal, of which we have five, located in as many districts, are intermediate courts similar to your Supreme Court in banc and to the Circuit Court of Appeals in the United States system. Then we have our Supreme Court, which sits at Austin, the capital, and to which all writs of error go from the several Courts of Civil Appeals. This last court is similar to your Court of Appeals, as I understand it, and to the Supreme Court of the United States. Now the Fort Worth municipal bond case in question, the Court of Civil Appeals having overruled the motion for rehearing, can go to the Supreme Court, if that court, upon examination of the record, sees fit to grant a writ of error therein. The probabilities are that the question being of such paramount importance, the Supreme Court will grant such writ, even though it then affirmed the decision of the Civil Court of Appeals, in order that the decision may be "authoritative and a final ruling." In any event, I am informed that a writ of error is now being applied for to the Supreme Court by the parties questioning the validity of the bonds, and the Supreme Court under the law has the jurisdiction to grant the writ in this case, if it decides to do so, and to review and affirm or reverse the decision of the Civil Court of Appeals.

In your discussion of this case it seems to me that your informant falls into another error as regards its merits, which is very important. That is you do not divide the sentence, "Gold coin of the United States of the present standard of weight and fineness." The lawyers questioning the validity of the bonds did divide this sentence, and as I understand them, admitted that had the bonds stopped at the words "Gold coin of the United States," they would have been valid, because gold coin of the United States is and will be money—that is dollars; and, as I understand it, this is the theory on which the United States Supreme Court in the Mississippi levee case (Woodruff vs. Miss. 162 U. S. 291) went off on, and by doing so to an extent avoids some inconsistencies between that decision and some former decisions of that court. The defense was not that the city under its legislative authority to "borrow money and issue its bonds therefor" could not promise to pay a specific kind of money but rather that it could not contract against the Government's changing the weight and fineness in its gold coin within thirty years of the life of the bonds, and that in its attempt to do so it had promised to pay a weight or quantity of gold that might be more or less than gold coin, and hence not dollars, nor money.

Any argument here on this question would be out of place. I have endeavored only to state the points. Having sat as the trial Judge in the case, and your article referring to me by name, as well as the fact that you admit no superior as to accuracy, and that your readers, the holders of these bonds, might be misled as to the finality of the Civil Court of Appeals decision, is my excuse for writing this.

Yours truly,

EDWARD GRAY.

## Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, Dec 31, 1898.

Business has been unusually active this week for the season of the year, although Monday was a holiday and very few people returned to town on Tuesday. The impetus in the first instance was undoubtedly given by New York. The extensive buying there with the great rise that took place early in the week led the professional element here to buy eagerly. In addition there was also a considerable movement in copper shares. The copper industry is wonderfully prosperous. There was a rise on Wednesday of 10s. per ton in the metal and there is a belief that a further rise will take place. There was a good deal of buying of copper company shares in consequence, not only on home account but likewise on Continental account. Generally speaking, most departments of the Stock Exchange have been fairly active. On Thursday it is true there was a decline in the American department owing to heavy selling from New York; but still the market has continued exceedingly strong for the time of year.

The British public, whether rightly or wrongly, assumes that peace is assured. There is no doubt at all that this country has never been more prosperous than it is at the present time; that the home trade is very active; that shipbuilding has beaten all records, and that if political confidence revives, the new year will prove yet better. But whether there will be political repose is difficult to decide at present. The good feeling which happily exists between the United States and this country, and the understanding that has been arrived at by our Government with Germany, seemed to be a good guaranty for peace. Moreover the Russian Government is in the direst stress for money. It cannot borrow upon the Continent. It has tried both in Paris and Berlin, and has failed. According to the newspapers it has also tried in New York, and failed there likewise. It is now trying here in London. It would seem, then, that Russia is not in a position to fight. She will not be able to complete her Siberian railway for some years yet, and she has not finished the reorganization of her army.

But there is almost universal unrest throughout the Turkish Empire. In Austria-Hungary the life of one single man keeps the Empire together: in Spain there may be a revolution at any moment, and in France nobody can say what may happen from day to day. It looks now as if the struggle between the civil and military authorities would end in the triumph of law. But there are great numbers, even of highly intelligent Frenchmen who hold a different opinion; and at the same time there is widespread unrest in France, and there is a belief, utterly unfounded but still genuinely held, that this country wishes to provoke France into war. As a matter of fact, the desire of this country is to live on good terms with France. But the French take an entirely different view of our attitude in the Fashoda incident, and their anger may possibly lead to renewed quarrels.

All this is felt very strongly by the more prudent people, the leading merchants, the great bankers, the wealthier members of the Stock Exchange, and they are unwilling, therefore, that a wild speculation should spring up. On the other hand, there is a section of the Stock Exchange which is convinced that all this is mere croaking, and who have earned very little during the period of depressed business in the Stock Exchange, and are very anxious now to make money in any way they can. There is thus a suppressed struggle going on between the wealthier, the more intelligent and the more conservative portion of the banking and the Stock Exchange community and the less serious and more impulsive—the one desiring to prevent speculation, the other to encourage it. The larger part of the general public is cautious and is not doing much, though it is buying more than it did lately. The professional element and the more reckless of the public are speculating to some extent.

Money has been in exceedingly strong demand all through the week. Very large amounts have been borrowed by the outside market from the Bank of England, and in many cases extravagant rates have been paid by stock brokers to carry over their accounts. Partly this is due to the end of the year preparations, partly to the withdrawals of gold for Germany, South America and elsewhere and partly to the unwillingness of many bankers to encourage speculation in any form.

The Bank of France has given notice to other bankers not to bring to that establishment financial bills. That has had a very sobering effect upon bankers all over Europe, and in some cases it has alarmed French depositors, who have withdrawn their deposits. Moreover some of the great French banks have given notice that they will withdraw some of the money they have been employing in Germany and in Austria-Hungary for a considerable time past. After this week money will begin to come back from the country districts in Germany to the branches of the Imperial Bank, and there ought therefore to be a considerable increase in the supply of money at the great banking centres. But if the French banks withdraw upon a large scale they may neutralize the effect of the return of the money, and possibly they may intensify the stringency.

The knowledge that this action was taken by the Bank of France has made English bankers very desirous to check speculation here. In Paris there will be even a greater effect. And in Germany it seems safe to predict that there must be a considerable fall in the prices of industrial securities. That most industrial companies are doing well is true. But their

securities are held upon borrowed money to such an enormous extent that the present prices are vastly inflated, and they must be reduced. Moreover the banks will have to put pressure upon their clients to sell if the French banks call in much money. Altogether, therefore, it looks as if the stringency in Germany would continue for some time. Rates possibly may not be so high as they are, but that they will be high for months yet appears very probable at present.

Meantime the money market in India is gradually hardening. The Bank of Bombay this week raised its rate of discount from 5 per cent to 6 per cent, as the Bank of Bengal had previously done. But the general impression is that there will not be so great a stringency as there was last year and the year before. However that may be the India Council is selling its drafts satisfactorily. It offered for tender on Wednesday 60 lacs, and the applications exceeded 310½ lacs. The whole amount offered was sold at prices averaging slightly over 1s. 4d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1898, Dec. 28.	1897, Dec. 29.	1896, Dec. 30.	1895, Jan. 1.
Circulation.....	27,308,285	27,347,680	26,814,125	26,463,425

Madrid.....	5	5	5	5	5	5	5	5
Copenhagen....	5	5	5	5	5	5	5	5

Messrs. Pixley and Abell write as follows under date of Dec. 29:

Gold.—There was considerable demand for delivery before Christmas, and £428,000 was borrowed, in bars, from the Bank for quick delivery. This is now being paid back daily. During the last day or two the enquiry has rather lessened. The Bank of England sold £478,000, mostly as stated above, and has received £330,000, of which £280,000 is in bars. The arrivals from the Cape total £15,500,000, against £10,126,000 in 1897. Arrivals: Australia, £181,000; Chili, £4,000; Capetown, £296,000. Total, £431,000. Shipments: Bombay, £20,000; Calcutta, £2,500. Total, £22,500.

Silver.—Owing to the holidays, the market has been a very dull one. There has been very little Eastern demand, and with a few selling orders, chiefly on New York account, the price has fallen to 27 1/2 d. The Indian rate to-day is Rs. 69 1/4 per 100 tolas. Arrivals: New York, £85,000; Chili, £36,000. Total, £121,000. Shipments: Bombay, £57,500; Calcutta, £25,000; Shanghai, £10,000. Total, £122,500. Mexican Dollars.—There are no fresh sales to report, and the nearest price is 26 1/4 d.

The quotations for bullion are reported as follows:

## Commercial and Miscellaneous News

**BONDS HELD BY NATIONAL BANKS.**—The following interesting statement furnished by the Comptroller of the Currency shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on December 31:

Description of Bonds.	U. S. Bonds Held Dec. 31, 1898, to Secure		
	Public Deposits in Banks.	Bank Circulation.	Total Held
Currency 6s, Pac. RR...	\$1,298,000	\$1,815,000	\$3,103,000
5 p. cts., 1894, due 1904	7,367,000	15,010,400	22,377,400
4 p. cts., funded 1907	23,130,500	133,972,050	157,102,550
4 p. cts., 1895, due 1925	9,907,500	20,715,850	30,623,350
3 p. cts., funded 1891	1,531,500	21,196,750	22,728,250
p. cts. '98, due 1908-18	28,036,420	40,930,000	75,026,420
Total...	\$71,233,920	\$232,942,850	\$311,266,770

Redeemable at option of the United States.

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks. There were so held on December 31 \$31,508,000 bonds, making the whole amount at that date in possession of the Government as security for deposits \$92,531,920.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods Jan. 5 and for the week ending for general merchandise Jan. 6; also totals since the beginning of the first week in January.

#### FOREIGN IMPORTS AT NEW YORK

For week.	1899.	1898.	1897.	1896.
Dry Goods....	\$2,257,106	\$2,390,152	\$2,014,273	\$3,183,076
Gen'l mer'chise	7,612,153	7,288,184	7,752,649	7,754,590
Total.....	\$9,869,259	\$9,678,336	\$9,766,922	\$10,937,666
Since Jan. 1.				
Dry Goods....	\$2,257,106	\$2,390,152	\$2,014,273	\$3,183,076
Gen'l mer'chise	7,612,153	7,288,184	7,752,649	7,754,590
Total 1 week.	\$9,869,259	\$9,678,336	\$9,766,922	\$10,937,666

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 9 and from January 1 to date:

#### EXPORTS FROM NEW YORK FOR THE WEEK.

	1899.	1898.	1897.	1896.
For the week.	\$11,902,705	\$7,999,491	\$9,792,649	\$9,538,612
Prev. reported				
Total 1 week.	\$11,902,705	\$7,999,491	\$9,792,649	\$9,538,612

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 7 and since January 1, 1899, and for the corresponding periods in 1898 and 1897.

#### EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

WALL STREET, FRIDAY, JAN. 13, 1899.—3 P. M.

**The Money Market and Financial Situation.**—Activity and strength continue unprecedented in the stock market, the record for the week at the Exchange exceeding all previous records in the matter of volume of business and advance in prices combined. The unusual demand is stimulated by an abundance of money in nearly all parts of the country, and by the optimistic tone of public sentiment which now so generally exists. A peculiar feature of the record referred to is the fact that the most conspicuous advance has been made and held by some of the more substantial issues, the fluctuations of which are usually within narrow limits. There is evidence that a wave of speculation, far-reaching in extent, is gaining force, and unless some influence should arise to check it, is likely to run its natural course and produce the usual results. But on the other hand the tendency of the times to harmony of action in the management of hitherto competing interests makes the prospect for future returns on investments more encouraging than does the history of the past. Aside from sales for short account, which in some quarters are believed to have been large, the supply of stocks has come from liberal sales, supposed to be for foreign account, and from a desire to realize the profits, which have accumulated rapidly of late. Money in this market is growing more and more abundant and the rates quoted below have been barely maintained.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 per cent. To-day's rates on call were 2 to 2½ per cent. Prime commercial paper quoted 3 to 3½ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £639,553, and the percentage of reserve to liabilities was 40·65, against 39·30 last week; the discount rate remains unchanged at 4 per cent. The Bank of France shows a decrease of 1,000,000 francs in gold and 1,075,600 francs in silver.

The New York City Clearing-House banks in their statement of Jan. 7 showed an increase in the reserve held of \$5,310,400 and a surplus over the required reserve of \$23,530,375, against \$19,180,975 the previous week.

**Foreign Exchange.**—A steady demand for both long and short bills kept the foreign exchange market firm through the week, and the tendency has been to higher rates.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 82½ @ 82½; demand, 4 81½ @ 81½; cables, 4 85½ @ 85½; prime commercial, sixty days, 4 81½ @ 82; documentary commercial, sixty days, 4 81 @ 81½; grain for payment, 4 81½ @ 81½; cotton for payment, 4 81 @ 81½; cotton for acceptance, 4 81½ @ 82.

Posted rates of leading bankers follow:

	Jan. 13.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 82½ @ 83	.....	4 85½
Prime commercial.....	4 81½ @ 82	.....	.....
Documentary commercial.....	4 81 @ 81½	.....	.....
Paris bankers' (francs).....	5 227½ @ 22½	.....	5 191½ @ 25 20
Amsterdam (guilders) bankers.....	39½ @ 40	.....	40½ @ 40½
Frankfurt or Bremen (reichmarks) bankers.....	94½ @ 94½	.....	94½ @ 94½

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 50c. per \$1,000 premium; Charleston buying par, selling 1-10 premium; New Orleans, bank, par; commercial, \$1 discount; Chicago, 35c. per \$1,000 premium; St. Louis, par.

**United States Bonds.**—Sales of Government bonds at the Board include \$50,000 4s. coup., 1925 at 129½; \$7,000 4s. coup., 1907, at 112½ to 113¼; \$23,000 4s. reg., 1907, at 111½ to 112½; \$98,000 5s. coup., at 112½ to 113¼; \$100,000 3s. reg., at 107; \$342,600 3s. coup., at 107½ to 107½, and \$2,140 ditto (small bonds) at 106½ to 107. The following are the daily closing quotations: for yearly range see seventh page following.

	Interest Periods.	Jan. 7.	Jan. 9.	Jan. 10.	Jan. 11.	Jan. 12.	Jan. 13.

\*This is the price bid at the morning board; no sale was made.

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$20,000 Louisiana con. 4s at 109; \$37,000 Tennessee settlement 3s at 96½ to 96½; \$25,000 Virginia 6s deferred trust receipts, stamped, at 7½ to 8, and \$9,000 Virginia fund. debt 2-3s of 1901 at 84 to 85.

The market for railway bonds has been strong on a volume of business averaging nearly \$6,000,000 par value per day. There is a conspicuous absence of high-grade issues from the sales reported, and transactions were exceptionally heavy in Atchison, Reading, St. Louis & Iron Mountain, St. Louis Southwestern, Standard Rope & Twine, San Antonio & Aransas Pass, Texas & Pacific and Manhattan Railway issues. The last named advanced over 3½ points on an urgent demand, St. Louis Southwest 2ds and Columbus Hocking Valley & Toledo 5s advanced 3 points.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales	Week ending Jan. 13.	Jan. 1 to Jan. 13.
N. Y. Stock Exch.	1899.	1898.
Government bonds	\$622,740	\$247,000

**Railroad and Miscellaneous Stocks.**—Transactions in stocks at the Exchange have averaged about 1,000,000 shares per day through the week, and were most conspicuous in standard railway issues. This is the more remarkable in view of the fact that in most cases prices have steadily advanced, and several new high quotations have been recorded. The movement was led by Pennsylvania Railway, which sold at 131½, an advance of 9½ points from our last quotation. There was no news made public in regard to the coal business, but Delaware & Hudson advanced nearly 6 points, Central of New Jersey 5½ points and Reading 1st preferred over 4 points. Northern Pacific was strong on reports of more harmonious relations with competing lines, and sold, ex-dividend, nearly 5 points above last week's close. Atchison preferred, in which the transactions were unusually heavy, made a similar record. Central Pacific and Union Pacific were in request, and the former was bid up 5½ points in expectation of a funding plan. Cleveland Cincinnati Chicago & St. Louis showed exceptional strength and advanced over 5 points. The grangers and other active shares, including New York Central, Southern Railway preferred, Louisville & Nashville, Minneapolis & St. Louis and Atchison common advanced an average of about 3 points. Brooklyn Rapid Transit was exceptionally strong to day and closes over 7 points higher than last week.

Transactions in the miscellaneous list were heavy in some cases and the usual erratic movement in prices is noted. The fluctuations in New York Air Brake covered a range of 14 points, American Sugar Refining 5½ points.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STREAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of December 17, 1898. The next will appear in the issue of January 21, 1899.

Roads.	Gross Earnings.		Net Earnings.

a Net earnings here given are after deducting taxes.  
b Net earnings here given are before deducting taxes.  
c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in November was \$135,533, against \$8,081 last year, and from January 1 to Nov. 30 \$1,182,214, against \$1,270,892. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

## STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

\* Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of December 17, 1893. The next will appear in the issue of January 21, 1894.

—V. 67, p. 1309.

## Chicago Great Western.

(Earnings for the half-year.)

The following is an approximate statement for the half-year ending Dec. 31, 1893:

Six Mos.	Gross.	Net.	Charges.	Surplus.
1893.....	\$2,968,644	\$1,030,001	\$719,699	\$310,301
1897.....	2,791,479	882,614	668,100	214,484
1898.....	2,393,946	642,501	634,462	8,039

The charges here include all prior charges and full interest on the debenture stock. The dividend of 2 per cent recently declared on the preferred shares calls for \$237,448, and leaves the surplus carried forward and held available for a dividend on preferred "A" at end of next six months of \$82,853.

**Statement.**—President Stickney says in substance:

The experience of two years has proven that the present motive power and cars are insufficient. Large expenditures were made prior to July upon the locomotives and every engine owned was made available for use, and yet the equipment has proven insufficient to carry the traffic. It is impossible to tell just the amount of business lost, but during the five months, August to December inclusive, the orders for cars have been at least one hundred cars per day in excess of the ability of the company to supply. It is, therefore, probable that if the company's equipment had been sufficient to meet the demand, the gross earnings of the half-year would have been increased fully half a million of dollars, and the net earnings, say, \$250,000. Realizing that the manufacturers would be full of orders, the company early in December contracted for 19 freight engines and 700 box cars, the engines to be delivered in February and March, and the cars in April and May.—V. 67, p. 1308.

## The H. B. Claflin Company.

(Report for half-year and year ending Dec. 31, 1893.)

During the last six months many industries improved rapidly, but manufacturers of cotton and wool were greatly depressed, staple cotton goods selling at the lowest prices ever known. Late in November, however, the underlying conditions of good rural prosperity began to give a more cheerful tone to trade, and at the close of the year the market for textile fabrics seems to be on the threshold of radical improvement.

The following, compiled for the CHRONICLE, compares the results of the half-year's business in four seasons and also the results for the calendar years 1894-1898 respectively:

## INCOME ACCOUNT HALF-YEAR ENDING DEC. 31.

6 mos. to Dec. 31.	Net earnings.	Interest and div'ds. Pref. stock.	Com. stk. (6%).	Balance surplus.
1898.....	\$25,297	\$142,125	\$114,873	\$25,299
1897.....	301,339	142,125	114,873	44,311
1896.....	199,403	142,126	114,873	df. 153,598

1894.....	245,435	142,126	114,873	df. 11,564

## INCOME ACCOUNT YEAR ENDING DEC. 31.

1898.....	\$528,545	\$284,252	\$229,748	\$12,547
1897.....	510,944	284,252	229,748	df. 3,055
1896.....	281,518	284,252	229,748	df. 252,480
1895.....	613,970	284,252	229,748	99,872
1894.....	484,313	284,252	229,748	df. 25,695

NOTE.—The surplus reserve brought forward from 1897 was \$120,356, and this amount added to the surplus of \$12,547 for the late year makes the total surplus reserve for account of the common stock \$132,903.

## BALANCE SHEET DEC. 31.

Assets—	1898.	1897.	Liabilities	1898.	1897.

## GENERAL INVESTMENT NEWS.

**Reorganizations, Etc.—Defaults, Reorganization Plans, Etc.**—The usual index is omitted this week, but that covering the items published to December 24, inclusive, will be found in the CHRONICLE of December 31.

**Akron Bedford & Cleveland (Electric) Ry.—New Loan.**—The stockholders will vote Feb. 6 on a plan to make a mortgage for \$1,000,000 for the purpose of "refunding the present mortgage indebtedness, paying the floating debt and making extensions and improvements." There are now outstanding \$300,000 of first mortgage 6 p. c. bonds.—V. 61, p. 178.

**American Bell Telephone.—Year's Output of Telephones.**—The following statement is published showing the increase in the number of telephones in use by licensees:

	Month end. Dec. 20—	1897.	1897.	1897.
Gross output.....	41,037	26,374	354,559	241,271
Returned.....	13,266	8,799	148,834	92,867
Net increase.....	27,771	17,575	205,725	148,404

Total telephones in use Dec. 20, 1898, 1,125,246, against 922,253 in December, 1-97.—V. 67, p. 1355.

**American Steel & Wire Co.—Steel Wire Consolidation.**—Plan.—Agreements have been entered into for the organization of a corporation under the laws of the State of New Jersey, to be known as the American Steel & Wire Co. This corporation will have authorized capital as follows:

Capital Stock.	Common.	Preferred.
Stock authorized.....	\$50,000,000	7% cumulative, \$10,000,000
Of which issuable in connection with exchange of Illinois Co.'s stock.....	21,600,000	12,000,000
To be purchased by syndicate.....	28,400,000	28,000,000
Issuable now for other purposes.....		
To remain as treasury stock, about.....		

The corporation will absorb the American Steel & Wire Co. of Illinois on the terms below stated and will acquire the following properties, either by direct ownership or through the ownership of not less than a majority of the capital stock where it is not practicable to take direct title:

Companies to be Acquired with \$15,000,000 of the \$28,000,000 Cash Furnished by Syndicate.	Reported Capital.
Washburn & Moen Mfg. Co. of Worcester, Mass., and Waukegan, Ill.	\$4,000,000
Worcester Wire Co. of Worcester, Mass.	1,500,000
Cleveland Roll Mill Co. of Cleveland, Mass., and its various forms..	4,000,000
Steel and open-hearth steel, as well as wire in its various forms..	1,500,000
Oliver & Snyder Steel Co. of Pittsburgh, Pa.	1,000,000
Oliver Wire Co. of Pittsburgh, Pa.	500,000
Newcastle Wire Nail Co. of Newcastle, Pa.	290,000
Pittsburg Wire Co. of Pittsburgh, Pa.	4,000,000
Cincinnati Barbed Wire Fence Co. of Cincinnati, Ohio.	
Laidlaw & Co. of Joliet, Ill., and Kansas City, Mo.	
Consolidated Bar Wire Co. of Lawrence, Kan., and Joliet, Ill.	
Newburg Wire & Nail Co. of Newburg, N. Y.	

A syndicate has been formed which will furnish \$23,000,000. Of this amount about \$15,000,000 will be used for the above purchase and \$13,000,000, exclusive of the working capital of the several concerns which will enter the new corporation, will be available for working capital. Whatever may be necessary of the working capital may be used for the purchase of other properties which may be agreed upon hereafter.

The syndicate agreements provide that the New Jersey company shall acquire such of the capital stock of the American Steel & Wire Co. of Illinois, not less than a majority as may be offered, on the following basis:

Each \$100 Stock Illinois Co.	Will Receive New Pref. New Com.
Common stock (\$12,000,000).....	\$120
Preferred stock (\$12,000,000).....	\$100

J. & W. Seligman & Co. of New York City, or its agent for that purpose, the Illinois Trust & Savings Bank of Chicago, Ill., will exchange the certificates of the American Steel & Wire Co. of Illinois, on the above-named basis, provided the same are presented and deposited at either of the offices above-named on or before Tuesday, Jan. 17, 1899.

It is desired that the fiscal year of the New Jersey corporation commence on Jan. 1, 1899, and therefore the stockholders in the American Steel & Wire Co. of Illinois are requested to deposit their stock promptly. The entire board of directors of the Illinois Company, believing that the consummation of the plan proposed will increase earnings, decrease expenses, result in a more stable cost of manufacture, and more satisfactory results to the stockholders, have decided to exchange their own shares in the Illinois corporation for shares in the New Jersey corporation upon the above basis. It is proposed that the new company shall declare regular quarterly dividends on the preferred stock of one and three quarters per cent, beginning about April 1, 1899. Subscriptions to the syndicate largely exceed \$28,000,000, the amount which the syndicate is to guarantee. All participants are to receive much less than the amount subscribed. See also advertisement on another page.

The "Iron Age" in an elaborate article on the consolidation and its constituent companies says:

The only charge upon the properties of the old company and upon the concerns acquired is \$750,000 in bonds, which expire during the current year, and before Aug. 1 will be paid off. The new company will have a working capital of \$17,342,500, less \$750,000 bonds as above. The aggregate valuation of the plants included in the consolidation is \$23,407,500, and it is estimated that the total tonnage of finished material marketed will be between 1,100,000 and 1,200,000 tons. It is estimated that the total sales during 1898 were between \$52,000,000 and \$80,000,000, in spite of the low prices which prevailed during that year. It is believed that the earnings of the new company will be increased by a saving in costs. We understand that, for instance, it will be possible to reduce the force of travelling salesmen by 250 men.

The properties acquired not only insure practical control of certain branches of the coarser wire industry, but make the consolidated company a dominating factor in nearly every department of it. The new concern also acquires an interest in many specialties and become, to a limited extent, a miner of iron ore, and in a larger degree a producer of pig iron and of steel.

**Incorporated.**—The company filed its certificate of incorporation at Trenton, N. J., yesterday.—V. 68, p. 40.

**American Sugar Refining.—Annual Meeting—Election.**—At the annual meetings of stockholders and directors on Wednesday, director W. B. Thomas was elected Treasurer and C. R. Heike (Auditor of the company) Secretary in the place of John E. Searles, who recently resigned as Secretary and Treasurer and also as a director.

Lowell M. Palmer was elected director for three years in place of Mr. Searles, and John Mayer was elected for one year to fill the unexpired term of William Dick, resigned. John E. Parsons, who is counsel for the company, was re-elected for a full term of three years.

**Change in Company's Policy.**—In his annual address President Havemeyer said in part:

"The changed and varying conditions of the business since the last stockholders' meeting has required a change of policy which, after full deliberation by the board of directors of the company, has resulted in a policy that meets with their unanimous judgment and approval. I can assure the stockholders that the board and its officers are doing all in their power to meet these varying conditions. It is most suitable that the stockholders should understand that the policy pursued under these changed conditions is in accordance with the unanimous judgment of the board of directors of the company."

**Present Accumulated Profits Reserved for Working Capital.**—A motion by Henry R. Read of Boston that the accumulated profits, less dividends declared to date, and less the dividend paid on Jan. 3, be reserved as a working capital was adopted, as also a resolution approving a new code of by-laws. In reference to these resolutions President Havemeyer said after the meeting:

The action of the directors on the dividend question does not imply that no dividend will be declared this year. The changes in the by-laws are such as to give the power to the President of the company to suspend any officer of the company. The board of directors, has power given to it to remove officers. An Executive Committee is created which has the power, under direction of the board of directors, to manage exclusively the affairs of the company with the exception of the power to authorize the expenditure of money. In relation to the clause in my annual report bearing on the policy of the company, the reference is to the diminishing difference between the prices of raw and refined sugars. The policy of the company has been changed in that the cuts in prices made by competitors have been met. The whole action of to-day's meeting is to give more concentrated power to the Executive Committee and the continuation of our trade relations.

The Executive Committee, which, under the new by laws, has much extended importance, is: H. O. Havemeyer, C. H. Senn, F. O. Matthiessen, William B. Thomas and Lowell M. Palmer.—V. 67, p. 1307.

**Atlanta Consolidated Street Railway.—Outstanding Loan of 1891 Called.**—Bonds of 1891, to the aggregate of \$57,000, being all the bonds of that series now outstanding, are called for redemption and will be paid at 106 and interest at the Old Colony Trust Co., Boston, Mass., on Feb. 2, 1899. The company recently made a new mortgage to secure \$2,500,000 of 5 per cent bonds, of which \$2,025,000 will be issued to re-place the loan of 1891 retired.—V. 67, p. 1355.

**Atlantic Transportation Co.—Receivers Appointed.**—This company, organized a year ago, has been placed in the hands of Edward P. Meany and Melville E. Ingalls, Jr., as receivers. The liabilities aggregate about \$1,000,000. The business of the company has consisted almost exclusively in transporting coal from Newport News to Providence and elsewhere, and the receivership seems to have been precipitated by the loss of three vessels in the recent great storm. The assets, it is said, consist of twenty-four purchased vessels more or less incumbered and valued at \$303,000, and estimate worth at forced sale, \$113,500; interest in chartered vessels and office furniture, \$2,000.—V. 66, p. 1187.

**Baltimore & Ohio RR.—Schnykill River East Side RR.—Large Majority of Bonds Deposited.**—The committee representing the bonds of the Schnykill River East Side RR. announce that \$4,185,000 of the \$4,500,000 issued have accepted the proposed plan, and that the time for the further deposit of bonds without penalty has been extended up to and including Jan. 20. Deposits should be made with the Pennsylvania Co. for Insurances of Lives, etc., 517 Chestnut St., Philadelphia.—V. 68, p. 40.

**Bangor & Aroostook Ry.—Bangor & Piscataquis RR.—Bonds Called.**—The Bangor & Piscataquis loan of April 2, 1893, \$300,000, having been called for payment, will be redeemed on April 1, 1899, at the Merchants' National Bank of Boston. The Bangor & Aroostook, as stated in the CHRONICLE of Dec. 3, 1898, page 1159, has sold \$1,500,000 of its own 5 per cent bonds, secured by a new mortgage, partly to provide for the retirement of the bonds now called and for the \$925,000 city of Bangor 6 and 7 per cent loan due April 1, 1899, and partly for improvements, etc.—V. 67, p. 1306.

**Bay State Gas.—Stock Increased to \$100,000,000.**—The New York Stock Exchange was formally notified yesterday that the company had increased its capital stock from \$50,000,000 to \$100,000,000.—V. 67, p. 369.

**Bethlehem Iron Co.—Carnegie Steel Co.—Steel Plant Sold.**—The Bethlehem Iron Co. has sold its steel plate mill, built two years ago, but idle last year, to Mr. Carnegie for a price supposed to be about \$1,000,000. It is proposed to move the mill to Pittsburg. President Linderman is quoted:

Mr. Carnegie was desirous of adding a plate mill to his plant as quickly as possible, so he made an offer for the mill which was regarded as fair and accepted. At the present price of steel plate the company could not manufacture it at a profit.—V. 67, p. 71.

**Boston & Lowell RR.—Bonds Authorized.**—The stock holders on Wednesday voted to issue \$620,000 bonds to be dated July 1, 1899, and to be payable in twenty years from date, the proceeds to be used in paying a like amount of bonds due July 1, 1899. The new issue, bearing 3½ per cent interest, has been awarded to Adams & Co.—V. 67, p. 523.

**Boston & Montana Consolidated Copper & Silver Mining Co.—Protective Committee.**—A committee, consisting of Albert S. Bigelow, Edward C. Perkins, and Sydney Chase, makes the following appeal to the company's stockholders:

In view of the recent attempt to injure the company, it has been deemed advisable that you should place yourselves in a situation to be at all times directly and summarily represented in Court, and otherwise, so that your wishes with respect to your property may be made known whenever required. A majority of the stockholders have accordingly requested us to act as a Stockholders' Protective Committee. It is not intended to take any action with respect to the stock, other than above outlined, without further notice to and assent of the stockholders. A form of agreement has been prepared under which a deposit of a majority of the stock has already been pledged. You are accordingly requested to immediately deposit your stock under the terms of this agreement, with the State Street Trust Co., 54 State St., Boston, Mass., in exchange for negotiable trust certificates.—V. 67, p. 1363.

**Brooklyn Rapid Transit.—Official Statement as to Readjustment of Securities of Subsidiary Company.**—An official statement issued by Secretary T. S. Williams on Jan. 7 says:

No plan for the readjustment of the Brooklyn City RR. Co.'s securities could be undertaken alone by that company, or by its lessee, the Brooklyn Heights RR. Co. It would have to meet the joint approval of the security holders of both companies. In order to be successful, any such plan must be so fair in its terms as to secure the approval of practically all those whose holdings are affected, and no plan will be presented which does not possess this essential element of fairness. When such a plan shall be formulated and approved by the directors of the Brooklyn Rapid Transit Co., it will be announced openly and confidently, and until then any rumors regarding the plan will be mere speculation.

**Annual Meeting.**—At the annual meeting of the Brooklyn City RR. on Monday the voting showed comparatively little change in the distribution of the company's capital stock. There was no contest with the Flower interests and only in-

formal discussion of the suggested readjustment of the company's finances. No formal plan to that end was presented.

**Extra Dividend.**—Besides the regular quarterly dividend of 2½ per cent an extra dividend of 1 per cent has been declared on the stock of the Brooklyn City RR.—V. 67, p. 1308.

**Buffalo St. Mary's & Southwestern RR.—Listed.**—The New York Stock Exchange has listed the company's \$1,000,000 first mortgage 5 per cent bonds.—V. 67, p. 1108.

**Cape Fear & Yadkin Valley Ry.—Proceeds of Sale.**—At the recent sale the railroad brought \$3,110,000, and certain equipment \$25,000, making the total proceeds of sale \$3,135,000. The absence of one of the judges has delayed the confirmation of the sale, but those interested calculate about as follows the amount which the bonds of each series will receive. From the \$3,135,000 must be deducted, say, \$200,000 for the expenses of the sale and the payment of \$108,000 of coupons having a prior lien. This leaves \$2,935,000, which, by the foreclosure decree, would belong: 55 per cent to Series A, 19 per cent to Series B, 19½ per cent to Series C and 6½ per cent to general mortgage. On this basis "A" bonds would receive about \$1,076 each, "B" \$759 each, "C" \$690.—V. 67, p. 1355.

**Central New England Ry.—Philadelphia Reading & New England RR.—Boston & Albany RR.—Incorporated.**—The Central New England Ry. has been incorporated to succeed the Phil. Reading & New England RR. The capital stock is \$6,000,000, of which \$3,150,000 is preferred stock. A first mortgage for \$1,250,000 and a general mortgage to secure (\$8,500,000) of income bonds will be executed. The directors are:

Arthur Brock of Lebanon, Pa., H. O. Selixas, Chester W. Chapin, D. A. Gearty, C. C. Burns and J. K. O. Sherwood of New York City; George A. Fletcher, H. L. Davis, R. M. Janger and John W. Brock of Philadelphia and James A. Rumrill of Springfield, Mass.

**Boston & Albany Interested.**—A large interest in the property has been acquired in accordance with the offer made last week by Louis V. Ball of this city, and by him has been transferred to Mr. Chapin, a director of the new company, and a brother-in-law of President Bliss of the Boston & Albany RR. James A. Rumrill, a director of the Boston & Albany, is also a director of the new company. It is therefore supposed that the B. & A. may perhaps be interested in the new company, and may use it as a connecting line to the anthracite coal roads which meet at Campbell Hall, N. Y. the western terminus of the Central New England.—V. 67, p. 41.

**Chicago Fort Madison & Des Moines Ry.—Sold and Reorganized.**—At the foreclosure sale at Fort Madison, Iowa, January 8, the property was purchased for the bondholders by Jesse A. Baldwin, of Chicago, for \$150,000. Subsequently the Chicago Fort Madison & Des Moines RR. Co. was organized as its successor, with capital stock of \$352,000. The new directors are: Isaac T. Burr, E. S. Conway, G. T. W. Braman, William H. Atlee, Samuel Atlee, G. D. Braman, E. H. Skinner, E. F. Potter and Jesse A. Baldwin. It is rumored the road will soon be extended from Ottumwa into Des Moines.—V. 67, p. 1002.

**Cincinnati New Orleans & Texas Pacific Ry.—Non-Preferred Claims**—"Cincinnati Commercial-Tribune" says:

Special Master Aaron A. Ferris has filed a supplementary report, according to which the claims of the non-preferred creditors approved amount to \$10,474. The Kentucky over-issue claims form the largest part of this. They amount altogether to \$353,478. Mr. Ferris says that after the payment of the \$3,716 of preferred judgment claims of Kentucky and Tennessee (see V. 67, p. 1202) out of the \$200,000 surplus earnings ready to be distributed Jan. 3, there will remain for distribution among the non-preferred creditors the sum of \$116,761. This allows a dividend of 22.8-10 per cent.—V. 67, p. 1232.

**City Trust Co. of New York City.—New Trust Co.**—Under this title a new trust company, with a paid-up capital of \$1,000,000 and surplus of \$1,000,000, is soon to begin business on lower Broadway or upper Wall Street. James Ross Curran, Assistant Cashier of the National City Bank, is named as President, and the organizing trustees are William R. Grace, John D. Crimmins and A. B. Boardman.

**Colorado Southern Ry.—Directors and Officers.**—The following directors and officers have been elected:

Directors: Frank Trumbull, Greenville M. Dodge, Frederic P. Olcott, Harry Walters, Henry Budge, J. Kennedy Tod, Oliver Ames, Norman B. Reem and Luther Koutze.

Officers: President, Frank Trumbull, Denver; Chairman of board of directors Greenville M. Dodge, New York; Vice-President (in charge of traffic), B. L. Wiechell, Denver; Secretary and Treasurer, Charles Wheeler, Denver; Assistant Secretary and Assistant Treasurer, H. Bronner, New York; General Auditor A. D. Parker, Denver; General Counsel, E. C. Henderson, New York, and General Solicitor E. E. Whittier, Denver.

**Possession Taken.**—The new company took possession of the property at midnight Jan. 12.—V. 67, p. 1308.

**Columbus (O.) Edison Electric Light Co.—Increase of Stock.**—The capital stock has been increased to \$300,000.

**Columbus Hocking Valley & Toledo Ry.—Deposits must be made by Feb. 1.**—Reorganization matters, we are informed, are progressing satisfactorily. Notice is given to holders of the securities disturbed that deposits and assents must be made by Feb. 1, and if accepted after that date will be subject to such terms and conditions as may be hereafter determined. Farther notice will be given when the cash payments from depositors of stock are required.

**Foreclosure Sale.**—The foreclosure sale is set for Feb. 24 at Columbus, O., the upset price being \$3,500,000 on the railroad property and \$750,000 on the property of the Hocking Coal & Railroad Co.—V. 68, p. 40.

**Dubuque (Ia.) Light & Traction.—Foreclosure Decree.**—Judge Shiras has ordered the foreclosure sale of the property.—V. 67, p. 1356.

**Electric Co. of America.—Pennsylvania Manufacturing Light & Power.—Incorporated.**—The Electric Company of America was incorporated at Trenton, N. J., last week, with \$35,000,000 authorized capital stock. The new corporation is authorized to manufacture, purchase, sell, etc., coal, coke, gas, oil, water, electricity, light, heat, steam and compressed air power, water, etc., and to own, acquire, construct, lease and operate plants in connection therewith. Its incorporators are: James E. Hayes of Camden and Elmer Smalling and Arthur Phillips of Philadelphia. The shares are \$50 each. A director of the Pennsylvania Manufacturing Light & Power Co. is quoted as saying:

The organization of the Electric Company of America is the outcome of difference of opinion in the Pennsylvania Manufacturing board of directors regarding the policy of expansion. The company will take over the properties outside of Philadelphia recently acquired by the Pennsylvania Manufacturing Co., paying the latter cash for expenditures made by the above-mentioned company. The American Company is organized for the purpose of acquiring electric lighting properties outside of Philadelphia, carrying out the policy of the United Gas Improvement Co. in acquiring gas properties. The Pennsylvania Manufacturing Light & P. Co. will confine its operations strictly to Philadelphia and no further instalments on the stock will be necessary.

The Philadelphia "Ledger" said yesterday:

The present issue will be 350,000 shares, the remainder (150,000 shares) being held in the treasury. Those who know about it say that of the issued stock 100,000 shares will go to the United Gas Improvement Co., 100,000 shares to the Pennsylvania Manufacturing Co. and 150,000 shares to the "exchanges and other interests." When these last are issued an initial instalment of \$5 per share will be called. This will produce \$1,750,000, out of which money the Pennsylvania Manufacturing Company will be reimbursed for the cash it has paid for the various outlying companies that go to the new concern. The stockholders of the Pennsylvania Manufacturing Co. will be allowed to subscribe to 100,000 of the 150,000 shares, on the basis of one share for three.

A Philadelphia paper recently said that the electric lighting companies in Camden, Atlantic City and Elberon, N. J., had been secured; likewise Bristol and Haverford; and that negotiations were pending with the Citizens' Electric Light Company of Delaware County and the companies in Chester and West Chester.—V. 67, p. 635.

**General Electric.—Dividends on Preferred.**—The directors have declared a dividend of \$11 66 $\frac{2}{3}$  per share, payable Jan. 31, on account of the overdue dividends on the preferred stock. The total amount so overdue, as reckoned last fall on the reduced stock, was \$39 89 per share of \$10 (see circular, V. 67, p. 900). This amount was reduced by payments of \$11 66 2-3, Nov. 15, 1898, of \$17 50, Dec. 22, 1898, and now of \$11 66 $\frac{2}{3}$ . Feb. 1, 1899, making in all \$40 83 $\frac{1}{3}$  provided for, and leaving yet to be met \$19 05 $\frac{1}{3}$ , or a total of about \$486,000 before dividends can be resumed on the common stock. There has also been declared a dividend of 2-3 per cent, to represent the dividend accrued since Aug. 17, 1898, when the reduction in the stock took place. The amount paid out by the company on account of the accumulated dividends on the preferred stock in the ten weeks ending Feb. 1, 1899, will have aggregated \$1,041,654.—V. 67, p. 900, 1160, 1263.

**General Commercial Co.—To furnish Artificial Ice in New York City.**—This company has been incorporated under the laws of New Jersey with capital of \$1,000,000, which may be increased to \$5,000,000. The incorporators are R. B. Ayres, W. J. Woodcock and A. L. Ayres. The plan is said to be to install on Staten Island an ice-making plant of the daily capacity of one thousand tons, and to transport its product by boats which it will acquire to New York City.

**Green Bay & Western RR.—Interest and First Dividend.**—The directors have declared an interest payment of 2 $\frac{1}{2}$  per cent on Class "A" debentures, and the first dividend of 1 $\frac{1}{2}$  per cent on the capital stock, out of the net earnings for the year 1898, payable at the office, No. 40 Wall Street, New York, on and after Feb. 15. Bonds closed Jan. 21 and reopen Feb. 16. Class "A" debentures (\$600,000) are entitled to 2 $\frac{1}{2}$  per cent interest if earned; then the common stock (\$2,500,000) to 2 $\frac{1}{2}$  per cent; then the two issues share ratably, but after 5 per cent has been paid on both, the class "B" bonds (\$7,000,000) are entitled to all surplus earnings.—V. 66, p. 298.

**Havana Electric Ry.—Incorporated.**—This company has been incorporated under the laws of New Jersey with \$1,000,000 of authorized capital stock. The incorporators are W. P. S. Melvin, G. K. B. Wade and Herbert A. Howell. The articles of incorporation permit it to manufacture and sell electricity, gas and fuel, and to operate railways, telephone lines, gas and electric light plants, etc.

**Kokomo City Street Railway.—Receiver.**—W. H. Stevens, of Detroit, Mich., holder of practically all the present loan, has applied for a receiver preparatory to foreclosure and the sale of \$70,000 new bonds.

**Little Rock Hot Springs & Texas RR.—Sold.**—This line, commonly known as the "Lott" road, projected from Little Rock to Paris, Texas, and graded and partly completed between Little Rock and Hot Springs, was sold at auction at Hot Springs, Ark., Jan. 4, by order of the United States Court, and purchased by Colonel S. W. Fordyce, of St. Louis, for \$50,000.—V. 67, p. 1207.

**Lorain & Cleveland (Electric) Ry.—Bonds Sold.**—The "Cleveland Leader" says that the company's \$700,000 of bonds which have been held in a pool have been sold to E. H. Gay & Co., of Boston, in connection with Cleveland banking institutions.

**Los Angeles & Pasadena RR.—Los Angeles Ry.—Sold.**—A press dispatch says the Los Angeles & Pasadena RR., owning 44 miles of track, has passed into the possession of Southern Pacific parties, the purchase price being \$1,600,000. The Los Angeles Ry. was acquired by the same interests and consolidated with other lines last September. At the same time the Los Angeles Ry. Co. made a new mortgage for \$5,

600,000, which doubtless provides the means for the present acquisition.—V. 66, p. 901; V. 67, p. 739.

**Louisville & Nashville RR.—Dividends Resumed.**—The directors on Wednesday declared a dividend of 1 $\frac{1}{2}$  per cent, payable on and after Feb. 10 to stockholders of Jan. 30. This is the first distribution to stockholders since 1893.

**Semi-Annual Statement.—Earnings for the six months ending Dec. 31, 1898, partly estimated, compare as follows:**

6 months end. Dec. 31.	Gross earnings.	Net earnings.	Fixed charges.	Other income.	Altogether charges.	Balance surplus.
1898, est'd.....	\$11,827,250	\$4,101,565	\$2,830,705	\$33,057	\$174,118	\$1,426,799
1897, actual.....	11,073,814	3,810,346	2,805,281	280,744	178,482	1,113,364
1896, ".....	10,592,917	3,531,253	2,822,681	216,962	251,222	074,242
1895, ".....	10,720,081	3,881,442	2,834,170	178,126	134,785	1,091,613
1894, ".....	10,186,878	4,106,638	2,820,706	179,814	1,065,282	400,434
1893, ".....	9,755,923	3,874,577	2,859,713	161,940	72,121	1,113,680

The dividend of 1 $\frac{1}{2}$  per cent declared this week on the \$52,800,000 stock calls for \$792,000 and leaves a balance on the six months' operations of about \$634,799.

**Bonds Offered.**—Vermilye & Co. are offering for sale at 99 and accrued interest \$10,000,000 of the new 5-20 year 4 per cent collateral trust gold bonds.—See full particulars under "Miscellaneous News," also advertisement on another page.—V. 67, p. 901.

**Madison Square Garden.—Coupon Payment.**—The interest due Nov. 1, 1898, on the first mortgage bonds was payable with interest thereon at the Mercantile Trust Co. on Jan. 3, 1899, each coupon receiving \$25 25.—V. 67, p. 690.

**Michigan Telephone Co.—Purchase Price.**—A circular letter has been issued by the Northern Trust Co., of Chicago, offering \$50 a share for the holdings of Detroit stockholders. The sale was mentioned last week.—V. 68, p. 40.

**Minneapolis General Electric.—Re-incorporated under Laws of New Jersey.**—The Minneapolis General Electric Co., which was organized about six years ago as a consolidation of the companies controlling the various lighting and power plants of Minneapolis has been re-incorporated under the laws of New Jersey, with the same name. The charter covers every method of producing and distributing light, heat and power by electricity. The company may build and use subways, obtain municipal permits and hold the stock and securities of other corporations. The paid-in capital stock remains the same as heretofore, viz.: \$600,000 preferred 6 per cent cumulative and \$1,500,000 common stock. The common and preferred stocks have equal voting powers. The company in 1893 made a mortgage for \$915,000, to secure 6 per cent bonds due 1908. Reorganization is pending.

**Missouri Pacific Ry.—St. Louis Iron Mountain & Southern Ry.—Bonds Called.—Refunding.**—The St. Louis Iron Mountain & Southern Railway Co. has called for redemption the \$2,500,000 Arkansas Branch first 5s and will pay them off at 105 and interest on June 1. All the other bonds underlying the general consol. 5s, namely, the \$4,000,000 of first mortgage 4 $\frac{1}{2}$ s and \$3,000,000 of second mortgage 5s are in like manner subject to call at 105, and the intention is to retire them all as fast as arrangements can be made, to the end that the general first consols (total issue limited to \$45,000,000) shall become a straight first lien.

To cover the present transaction, the company has sold to a syndicate headed by Henry Marquand & Co. \$2,500,000 general consolidated mortgage 5s and the syndicate has already marketed a large proportion of the bonds, so that there will be no offer made to holders of the called bonds to exchange.

The "New York Evening Post" says:

This call, however, was put first because under the terms of the mortgage only ninety days' notice was required, while for the first and second issues six months' notice of call had to be given. In the case of the latter issues, refunding will be put through in a short time, and it is expected that holders of them will have the opportunity to exchange for consolidated bonds on terms hereafter to be arranged.

The process of unification outlined above is described by its projectors as a detail in a plan of wide scope, involving the outstanding mortgages of this and other Gould roads. The object is to enhance the credit of the companies among investors by doing away with the multiplicity of existing bonds.—V. 67, p. 1207, V. 68, p. 237.

**National Carbon Co.—Carbon Company Consolidation.—New Company.**—A press despatch quotes Attorney Arthur J. Eddy, of Chicago, as announcing that a deal has been practically closed whereby the leading carbon manufacturing concerns of the United States have been or are about to be consolidated under the name of the National Carbon Co. The new company is to be a New Jersey corporation with its main offices probably in Cleveland. Its capitalization will be preferred stock, 7 per cent, non cumulative, \$1,500,000; common stock, \$5,500,000; total, \$10,000,000.

The following additional particulars are furnished:

The companies included are the National Carbon Co., Cleveland, Ohio; Brush Carbon Works, Standard Carbon Works, Crouse & Treadwell Carbon Co., Fostoria, Ohio; Thomson-Houston Carbon Co., Fremont, Ohio; Faraday Carbon Co., Jeannette, Penn.; Phoenix Carbon Co., St. Louis; American Carbon Co., Nellyville, Ind.; Washington Carbon Co., Pittsburg, Penn.; Partridge Carbon Co., Sandusky, Ohio. These companies include the entire active carbon industry of the United States and three-quarters of the carbon industry of the world. In addition to the United States industries the company will own a half interest in the Ottawa Carbon Co., of Ottawa, Canada, which company controls the carbon industry of Canada. The new company assumes no debts or liabilities of any description. It purchases the various properties upon conservative appraisals free of all liabilities, and it will have in the treasury a working capital of \$600,000. The following men will serve as directors, with two directors yet to be named: W. H. Lawrence, President National Carbon Company, Cleveland; Myron T. Herlick, Cleveland; James Parmelee, President Cleveland Electric Illuminating Co.; James Humbird, President Washington Carbon Co., Pittsburg; E. D. Ocker, Jeannette, Penn.; President of the Faraday Carbon Co.; Webb C. Hayes, Cleveland; J. C. Van Harncom, St. Louis.

**New England Gas & Coke Co. of Boston.—Bonds Offered, Contracts, Etc.**—Of the company's \$17,500,000 of first mortgage 5 per cent gold bonds \$3,500,000 are reserved for im-

improvements, \$2,000,000 have been issued in part purchase of properties, \$3,350,000 have been taken by private subscription, leaving \$3,640,000. These last were offered this week at par and interest by the Colonial Trust Co. of this city, the American Loan & Trust Co. of Boston and the Provident Life & Trust Co. of Philadelphia.—V. 67, p. 956.

**New Jersey Electric Ry. of Paterson, N. J.**—\$1,133,000 Bonds Sold.—At auction on Wednesday were sold \$63,000 of the company's first mortgage bonds at 63½, and \$370,000 at 64¼.—V. 66, p. 288.

**New Orleans Traction Co.—Crescent City RR.—Default. Purchase of Coupons.**—The Crescent City RR. Co. having failed to pay the January, 1899, coupon, the Walmsley Reorganization Committee, through its depositaries, the Continental Trust Co. of New York, the Fidelity Trust & Safety Vault Co. of Louisville and United States Trust & Savings Bank of New Orleans, La., advanced on Jan. 12th, 1899, upon bonds deposited with January, 1899, coupon attached, \$20 upon each \$1,000 bond so deposited.

**Second Assessment Called.**—In accordance with the plan of reorganization, holders of the preferred and common stock of the New Orleans Traction Co. are notified to pay on or before Jan. 25, 1899, the second instalment of 33½ per cent of the amount payable on their stock, namely \$2 per share on preferred and \$1 per share on common stock.—V. 67, p. 736.

**North Chicago Street RR.—West Chicago Street RR.—Chicago Consolidated Ry.—To Unite Leased Lines.**—At the meeting of the North Chicago Electric Ry. on Tuesday, President Yerkes recommended the formation of a new traction company, to be called, it is said, the Chicago Consolidated Ry. Co., to take over under lease or otherwise all the suburban leased lines of the North Chicago and West Chicago systems. These leased lines have outstanding a total capital stock of about \$14,400,000, and a bonded debt of \$6,500,000. The lines are as follows:

Cleary & Provine, Suburban U.P., Chicago Electric Transit, Chicago & Jefferson, Urban Transit, Chicago North Shore St. Ry., North Chicago Electric Ry., Ogden Street Ry., Evanston Electric Ry., North Side Electric Ry.

**Annual Statements.**—The annual statements of the North Chicago Street R.R. Co. compare as follows:

Year.	Gross.	Net.	Charges.	Dividends.	Bal. sur.
1898...	\$3,015,323	\$1,624,443	\$543,665	(12%) \$370,957	\$210,019
1897...	2,911,552	1,591,625	538,462	(12%) 791,943	163,220
1896...	2,913,710	1,519,322	524,231	(12%) 758,901	236,190
1895...	2,780,487	1,468,350	471,252	(12%) 659,922	337,206

—V. 67, p. 221.

**North Hudson County Ry.—New Officers.**—As a result of the recent change in control all the officers have tendered their resignations, and the following are announced:

Directors.—John W. Omberson, John Kean, John F. Shanley, John I. Waterbury, David Young, W. G. Shaller, John L. Walter, John D. Crimmins and Allan L. McDermott.

Officers.—President, David Young, who is also Vice-President and Manager of the North Jersey Street Ry. Co.; Secretary, W. C. Doubleday, who succeeded himself Treasurer, W. G. Shaller.—V. 68, p. 41.

**Northern Pacific Ry.—Listed.**—The New York Stock Exchange has listed \$369,000 additional prior lien 4s, making total amount listed to date \$83,270,000. There are \$6,274,000 of general first mortgage bonds now held by the public, exclusive of those called for redemption.—V. 67, p. 1357.

**Ogdensburg & Lake Champlain Ry.—Rutland RR.—Option—Cash or Guaranteed Bonds.**—The sale by the Parsons Committee noted last week of the certificates of deposits representing the old first consols was made on a basis "to net the certificate holders 105 per cent of the face of the bonds represented by the certificates and all accrued interest thereon up to Feb. 1, 1899. The amount thus coming to each holder of a certificate is at the rate of \$1,170 for each \$1,000 bond."

The committee has also arranged that the certificate holders shall have the right until Jan. 31, 1899, to take at 102½ a new Ogdensburg & Lake Champlain Ry. Co. first mortgage 4 per cent bond, carrying interest from Jan. 1, 1899, principal and interest guaranteed by the Rutland RR. Co., said guaranty to be endorsed on the bond. "Each holder of a certificate for \$1,000 of bonds will thus receive one new guaranteed bond, \$1,000, and \$140 in cash, being accrued interest on old bond to Jan. 1, 1899, and 2½ per cent of the principal thereof." (See notice in advertising column.) It is said the Rutland will build at once from Burlington to a connection with the Ogdensburg & Lake Champlain at Rouse's Point, a distance of 40 miles.—V. 68, p. 41.

**People's Gas Light & Coke Co. of Chicago.—Calumet Company Absorbed.**—The Calumet Gas Co., operating in South Chicago, has been formally absorbed and its \$500,000 of first mortgage 6s due July 1, 1917, assumed by the People's Co. The Calumet Company's \$2-3,000 of consolidated 5 per cent bonds were called for payment, interest ceasing Jan. 1.—V. 67, p. 1111.

**Reading Co.—Bonds Called.**—Thirty two Philadelphia & Reading RR. 10-year sinking fund 5 per cent coupon bonds of 1902 have been drawn for the sinking fund, and will be paid Feb. 1 at the office of the Pennsylvania Company for Insurances on Lives & Granting Annuities, 517 Chestnut St., Philadelphia.—V. 67, p. 1205, 1216.

**Rutland RR. Co.—Ogdensburg & Lake Champlain RR.—Meeting to Authorize Purchase and Guaranty.**—The stockholders of the Rutland RR. will vote Jan. 23 on a proposition to authorize the purchase of the bonds of the Ogdensburg & Lake Champlain RR. Co., and the certificates therefor, to acquire the stock of the Ogdensburg & Lake Champlain Ry. Co., and also its bonds secured by mortgage to the Central Trust Co., dated Dec. 15, 1899, and to guaran-

tee the payment of the principal and interest of such bonds, etc. The option accorded the bondholders of the old Ogdensburg & Lake Champlain is given under the caption of that company.—V. 68, p. 41.

**St. Louis Cape Girardeau & Ft. Smith Ry.—Foreclosure Decree.**—On Saturday last a final decree of foreclosure on all the mortgages of the company was entered by the Circuit Court at Jackson, Cape Girardeau County, Mo. The date of sale has not been fixed, but it is understood that it will take place in May. The bondholders' committee, of which Mr. Newman Erb is Chairman, has acquired all the outstanding divisional bonds and compromised the larger part of the claims for which priority was asked, and the way for the reorganization of this property appears now to be cleared. The committee was to meet this week to consider and complete the plan of reorganization.—V. 67, p. 1111.

**Santa Fe Prescott & Phoenix Ry.—Listed.**—The New York Stock Exchange has listed the company's \$4,940,000 first mortgage 5 per cent gold bonds of 1942.—V. 60, p. 631.

**Savannah Florida & Western Ry.—Payment of Bonds.**—The Metropolitan Trust Company of New York will pay on Jan. 16 the \$464,000 of 7 per cent 1st M. bonds of the South Georgia & Florida RR. maturing Jan. 15, 1899.

**Dividend.**—The company has declared a dividend of 2 per cent, payable Jan. 16. The last dividend was paid in January, 1896.—V. 66, p. 518.

**Sioux City & Northern RR.—Sioux City O'Neill & Western RR.—Foreclosure to Proceed.**—The motion of the Credits Commutation Co. of Sioux City to extend the time for the redemption of the securities pledged as collateral with J. Kennedy Tod & Co. was denied by Judge Shiras in the Federal Court at Sioux City. Application will now be made for the sale of the road under the decrees of foreclosure obtained some time ago.—V. 67, p. 1056, 902.

**Southern Pacific RR. of California.—Listed.**—The New York Stock Exchange has listed \$1,288,000 additional first consolidated guaranteed gold 5 per cent bonds of 1937, Series A and B, making total amount listed to date of first consol. 5s, stamped 1905-37, \$13,788,000.—V. 67, p. 1358.

**Spirits Distributing Co.—Standard Distilling & Distributing—American Spirits Manufacturing Co.—A Common Selling Agency—Dividends Guaranteed.**—An agreement has been reached by which the Spirits Distributing Co. will become the selling agency of the Standard Distilling & Distributing Co. as well as of the American Spirits Manufacturing Co. This is in furtherance of the policy of harmonious action. As a part of the transaction the Standard Distilling & Distributing Co. will guarantee dividends, on the first and second preferred stock of the Distributing Company of 6 and 2 per cent per annum respectively, as appears from a circular of which the following is an abstract:

If the proposed change in the certificate of organization of this company is made effectual then the holders of the first and second preferred stock of this company will be entitled to receive new certificates of stock for an equal amount of their present holdings of first and second preferred stock respectively. Such new certificates for first preferred stock will have endorsed thereon the absolute guarantee of the Standard Distilling & Distributing Co. to pay quarterly dividends of 1½ per cent each, on Jan. 15, April 15, July 15 and Oct. 15, in each year, beginning with Jan. 15, 1899. The new certificates for second preferred stock will bear the absolute guaranty of said Standard Distilling & Distributing Co. to pay half-yearly dividends of 1 per cent each, on April 15 and October 15 in each year, beginning with April 15, 1899. The certificates of stock indorsed in blank should be sent to the Manhattan Trust Co. on or before Jan. 24th inst.

A meeting of the stockholders of the Spirits Distributing Co. to effect the change in the certificate of organization will be held Jan. 26. A circular shows that the authorized issue of the several series of stock will remain as now, viz.: \$2,100,000 first preferred, \$1,576,000 second preferred and \$3,675,000 common; but the rights of the holders will be modified so as to be as follows:

The first preferred stock shall be entitled to a cumulative dividend in each year of an amount equal to 6 per cent upon its par value, payable from profits if earned. No mortgage shall at any time be made upon the property without the written consent of the holders of at least 70 per cent of the first preferred stock issued and outstanding. The second preferred stock shall be entitled to a non-cumulative dividend not to exceed 2 per cent in any year, payable from profits after the payment of all accumulated dividends on the first preferred stock and before the payment of any dividend on common stock. Upon the dissolution or winding up of the company, the first preferred stock shall be first entitled to receive out of the proceeds of sale an amount equal to its par value, after payment of which the second preferred stock shall be entitled to receive an amount equal to its par value before any payment on common stock.—V. 67, p. 957, 632.

**Staten Island Rapid Transit RR.—Offer for Income Bonds.**—The income bondholders' committee, H. L. Horton, Chairman, announces that having received an offer of 7½ per cent for the bonds deposited with it, it has abandoned further proceedings and has returned to depositors all bonds held by the committee. Of such bonds over \$1,100,000 have already been sold by depositors at the figure mentioned. Since taking this action the committee has been authorized by Speyer & Co. to announce that all holders of income bonds who shall deliver the same on or before Jan. 20 to that firm will receive therefor in cash 7½ per cent of the par value of the bonds. The loan is \$4,500,000, and it follows \$2,500,000 seconds and \$1,000,000 firsts.—V. 67, p. 1209.

**Summit Branch RR.—Summit Branch Coal.—Offer Accepted.**—A Philadelphia paper says: "It is officially announced that practically all the security holders of the Summit Branch RR. Co. have accepted the proposition made by the Pennsylvania RR. Co. for the sale of their holdings to that company."—V. 67, p. 1358.

**Swift & Co.—Stock Increased.**—At the annual meeting Jan. 5 the stockholders voted to increase the capital stock from \$15,000,000 to \$20,000,000, and to allow each stockholder of Jan. 16 to subscribe for one new share at par (\$100) for each three shares held by him. The annual report is on a preceding page.

**On Unlisted Department in Boston.**—The company's stock has been admitted to the unlisted department of the Boston Stock Exchange. The following facts are furnished:

The company was incorporated under the laws of Illinois April 1, 1885, for the sale and manufacture into commercial products of cattle, sheep and hogs. The capital stock consists of 150,000 shares of a par value of \$100, fully paid in in cash and non-assessable. The principal office is at Chicago. D. F. Hartwell of Chicago is transfer agent and the place of registration is the Illinois Trust & Savings Bank, Chicago. The officers are: President, G. F. Swift; First Vice-President, K. C. Swift; Second Vice-President, L. F. Swift; Treasurer, L. A. Carten; Secretary, D. E. Hartwell. —V. 67, p. 1209.

**Syracuse & East Side Ry.—Sold.**—At the foreclosure sale Dec. 29 the property was purchased for \$30,000 by William B. Broomall, of Chester, Pa., representing the reorganization committee. The committee claims to fear nothing from the prospective line of the Rapid Transit Co. to East Syracuse, believing the road will not be built. —V. 67, p. 1358.

**Tacoma Land.—Foreclosure.**—The property is to be sold under foreclosure in the course of a few weeks, an agreement having been reached with the Provident Life & Trust Co. of Philadelphia, the mortgage trustee. —V. 67, p. 801.

**Union Pacific RR.—Oregon Short Line RR.—Increase of Stock Authorized.**—The stockholders of the Union Pacific on Tuesday authorized the common stock to be increased by \$27,460,100 the new issue to be exchanged, share for share, for Oregon Short Line Stock. —V. 67, p. 1209.

**Walker Company—Westinghouse Electric & Manufacturing.—Re-arrangement of Walker Company's Bonds.**—Last September the Westinghouse Company purchased "substantially all of the outstanding stock and all but \$850,000 of the \$2,500,000 twenty-year bonds of the Walker Company." (V. 67, p. 635). It is now announced that, pursuant to an agreement then made, the bonds acquired by the Westinghouse Company have been subordinated in lien to the outstanding bonds, and a second mortgage for \$1,650,000 has been executed to secure the former. The Walker property is therefore subject to a first mortgage for \$850,000 and a 2 mort. for \$1,650,000, the bonds secured by the latter being all held by the Westinghouse Company. —V. 67, p. 635, 1261.

**Western New York & Pennsylvania Ry.—Half Yearly Advance Statement.**—At the annual meeting Jan. 9 all the old officers were re-elected. President De Conroy presented a statement showing the operations of the half-year ending Dec. 31, 1898, the figures for December being estimated. The statement compares as follows:

Six mos.	Gross.	Net.	Charges.	Int.	Sur.
1898.....	\$1,695,798	\$550,359	\$460,508	\$ 89,851	
1897.....	1,840,825	737,728	454,694	283,033	

The decrease in net earnings of \$187,369 is partly accounted for by expenditures of \$60,490 for maintenance of way, structures and equipment, including 25 new box cars, and United States revenue stamps. The net loss, due to decrease in traffic and freight rates, is placed at \$139,762. —V. 67, p. 957.

**Westinghouse Machine.—Increase of Stock.**—The stockholders will vote March 1 on a proposition to increase the stock from \$1,500,000 to \$3,000,000. This is preparatory to increasing the capacity of the plant at East Pittsburgh.

**West Virginia & Pittsburg RR.—Baltimore & Ohio RR.—Over 90 Per Cent Bonds Assent.**—Over 90 per cent of the bonds of the West Virginia & Pittsburg have assented to the proposition stated in the CHRONICLE of Dec. 24, page 1310, by which the road will be leased to the reorganized B. & O. at a rental equal to 4 per cent on the bonds, and the loan for five years to be subject to call at par. The time for deposit of bonds under the terms of the plan has been extended till Jan. 20. —V. 67, p. 40.

**Wheeling & Lake Erie Ry.—Sale Feb. 7.**—The sale is advertised for Feb. 7.

**Final Instalment of Assessment.**—The Reorganization Committee has called for payment at the Central Trust Co. on or before Jan. 30 the final instalment of \$4 per share on both common stock and preferred stock. Holders of Central Trust Co. certificates who have not made payment of one or more instalments required by the plan of reorganization may do so on or before the 30th day of January without penalty, but no payment will be received after that date, except under such penalty as the committee may impose. —Vol. 67, p. 1310.

**York Southern RR.—Sale Upheld.**—Judge Bittenger, at York, Pa., on Jan. 2, handed down an opinion sustaining the sale of this property to local capitalists. The Pennsylvania wished the sale set aside on the ground that W. F. Walworth, President, had violated a contract to sell that company the road. —V. 67, p. 905.

**Zanesville (O.) Electric Ry. Co.—Reorganized Company.**—This company has been organized with capital stock of \$300,000, the incorporators being: James R. Garfield, Harry A. Garfield, Frederic C. Howe, Frank T. Poole and Max J. Rudolph. It is successor no doubt of the Zanesville Ry. & Electric Co., foreclosed as stated last week. —V. 68, p. 41.

—G. Sidenberg offers to investors a selection of high-grade railroad bonds. Particulars in another column.

—Mr. Gustavus Maas, 26 Broad Street, has issued a very full list of miscellaneous and unlisted stocks and bonds, giving opening, high, low and closing bid and asked prices for 1898.

—The Boston Safe Deposit & Trust Co., 87 Milk Street, Boston, has issued as usual its annual hand-book, giving the places where coupons are paid in Boston. It is an excellent compilation.

—Messrs. F. J. Lisman & Co. have long been cramped for room in their offices on the fifth floor of 30 Broad Street, and have finally been compelled to lease a fine suite of rooms on the third floor of that building.

—In the first part of the QUOTATION SUPPLEMENT issued with the Jan. 7th number of the CHRONICLE will be found a selected list of investment bonds advertised by Simon Borg & Co. The attention of investors is directed to this list.

—Martin's "Stock Fluctuations" for 1898, covering all classes of securities sold in Boston, is now ready; it is compiled by J. G. Martin, 10 State Street, Boston. The issue of this publication for the past 25 years can be had at four dollars for the series.

—Messrs. Flagg & Worcester succeed to the business of Reed & Flagg, which firm was dissolved by the recent death of Mr. Reed. William H. Flagg, of the old firm, and Wilfred J. Worcester are the general partners, the address being, as before, 11 Pine Street.

—The Hand Book of Railroad Securities, issued by the publishers of the CHRONICLE, is now ready: price one dollar, or to CHRONICLE subscribers seventy-five cents. It gives a detailed statement of railroad securities and the income for a series of years, as well as the annual charges against income. The book also gives dividends and range of prices for a series of years brought down to January first.

—The Home Insurance Company of New York publishes in our advertising department on page V. a summary of its ninety-first semi-annual statement. A comparison with the statement issued in July, 1898, shows that the net surplus has increased during the six months over half a million dollars. The surplus as regards policy-holders is now nearly seven and a-half million dollars. The usual semi-annual dividend of five per cent is payable on demand.

—Messrs. Stahl & Straub, of Philadelphia, offer at par and accrued interest \$300,000 first mortgage 5 per cent 40-year gold bonds of the Brooklyn Borough Gas Co., Greater New York. The bankers state that the company is earning considerably more than its fixed charges and its business is rapidly increasing, the territory which it supplies, namely, the Thirty-first Ward of Brooklyn, being a populous and growing section of the city. The total issue of these bonds is \$500,000, of which \$200,000 is reserved in the treasury and can be sold only for extensions and improvements.

—The International Cable Directory Company, 30 Broad Street, publishers of the "Western Union Telegraphic Code," announce that the second edition of the work will be issued about March 1, 1899. This code is the largest ever printed in the English language, and at the same time it has been pronounced by experts the most exhaustive and comprehensive work of its kind in this country. It differs in one material respect from all other codes that have preceded it in that it is on file in telegraph offices, hotels, clubs, etc., on both sides of the Atlantic. The work is to all intents and purposes a universal code. The War Department at Washington and the Commissioners to the Paris Exposition of 1900 have both adopted it for purposes of telegraphic communication.

—Vermilye & Co., of New York and Boston, invite subscriptions at 99 and accrued interest for \$10,000,000 Louisville & Nashville Railroad Co. 5-20 year 4 per cent collateral trust gold bonds of the Louisville & Nashville Railroad Co., payable April 1, 1914, and redeemable at the option of the company on and after April 1, 1903. The bonds are secured by deposit with the United States Trust Co., of New York, trustee of the mortgage of \$14,000,000 unified mortgage 50 year 4 per cent gold bonds and \$4,000,000 Paducah & Memphis 50 year first mortgage 4 per cent gold bonds. The proceeds of this loan have been used to retire \$7,070,000 Louisville & Nashville consolidated mortgage 7 per cent bonds which matured in April, 1898, to reimburse the company for the purchase of the Paducah & Memphis Division, and for moneys expended in additions and improvements upon it and for other properties purchased in the past by the company. August Belmont, Chairman of the board of directors of the Louisville & Nashville Railroad Co., in a letter to the firm, states "that the annual saving of interest effected by the funding of the consolidated mortgage 7 per cent bonds into the collateral trust 4 per cents is about \$300,000. The company is now without floating debt and on Dec. 31, 1898, had cash on hand amounting to \$2,000,000 and stocks and bonds in its treasury available for its uses, which, at a conservative estimate are stated to be worth from \$9,000,000 to \$10,000,000. The company has had no construction account since 1891 and during the period of four years \$3,103,447 have been charged to operating expenses for permanent improvements which might have been charged to construction account, had there been one." Dividend payments at the rate of 3 per cent per annum have just been resumed by the Louisville & Nashville Railroad upon its capital stock of \$52,800,000. The price of the bonds as offered will net 4 1/4 per cent if redeemed in 1903 and nearly 4 1/10 per cent if allowed to run to maturity. The subscription books will open at 10 o'clock on Jan. 18 and close at 3 o'clock the same day or earlier at the discretion of the firm. The bonds will be deliverable Jan. 23.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, January 13, 1899.

Healthy business conditions have been apparent in nearly all lines of merchandise. The movement of supplies from the producer to the consumer has been on a fairly liberal scale, although in some instances it has fallen rather below expectations, due largely to the fact that the big buyers anticipated their wants to some extent prior to the holidays. Cotton has been firmer, a falling off in the crop movement having attracted fair buying for investment account. Reports from the West state that Ohio wool growers have adopted resolutions asking Congress to revise the wool and woolen goods schedule of the tariff so as to equalize the protection to manufacturers and to wool. There has been a conference at Washington of the American and Canadian lumber interests. The latter are making a strong effort to obtain entry for their lumber free of duty. Advances received from the Philippine Islands have been of a more reassuring nature.

Lard on the spot has been in moderate demand for export to the United Kingdom and prices have advanced; refiners also have been moderate buyers. The close was quiet at 5.80c. for prime Western and 5.25@5.30c. for prime City. Refined lard has had only a limited sale but values have held steady, closing at 5.90c. for refined for the Continent. Speculation in lard for future delivery has been moderately active. Early in the week prices advanced on smaller receipts of swine. At the close there was a reaction under larger receipts of hogs than had been estimated.

## DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January.....	5.72	5.77	5.80	5.87	5.87	5.80

Pork has had a fair sale and prices have been steady at \$9.50@10 for mess, \$10.50@11 for family and \$10.50@12 for short clear. Cut meats have been in slow demand, but values have been well maintained, closing at 3 3/4@4c. for pickled shoulders, 6 3/4@7 1/2c. for pickled hams and 5 1/8@5 1/2c. for pickled bellies, 14@10 lbs. average. Beef has been quiet but steady at \$8.50@9 for mess, \$9@10 for packet, \$11@12 for family and \$14@15 for extra India mess. Beef hams have been dull and unchanged at \$19. Tallow has been moderately active and firm at 4c. Oleo stearine has been firmer, closing at 5 3/4c. Lard stearine has been steady at 6 3/4c. Cotton-seed oil has been firmer, closing at 22 1/2@23c. for prime yellow. Butter has had a fair sale at full values, closing at 15@21c. for creamery. Cheese has been in light supply and firmly held, closing at 7@11 1/4c. for State factory, full cream. Fresh eggs have been in increased supply and easier, closing at 21c. for choice Western.

Brazil grades of coffee have had a moderate distributing sale and have brought steady prices. The market for invoices has been quiet, but, owing to a temporary scarcity, prices for the low grades have advanced slightly, closing at 6 5/8c. for Rio No. 7 on the spot. Mild grades have been quiet but steady at 8c. for fair Cuxuta. East India has been in slow demand, but values have held steady. Speculation in the market for contracts has been quiet. There have been no new developments, and as neither buyers nor sellers have been aggressive in their operations, changes in prices have been slight. The following are final asking prices:

Jan.....	5.50c.	April.....	5.75c.	Aug.....	5.95c.
Feb.....	5.55c.	May.....	5.80c.	Sept.....	6.00c.
Mar.....	5.65c.	July.....	5.90c.	Oct.....	6.05c.

Raw sugars have been in fair demand and firm at 4 1/2-16c. bid for centrifugals, 96-deg. test, and 3 13-16c. bid for muscovado, 89-deg. test. Refined sugar has been fairly active and firmer at 5c. for granulated. Pepper has advanced on short supplies. Other staple groceries have been firm.

Kentucky tobacco has been firm but quiet. Seed leaf tobacco has been in moderate demand and steady. Sales for the week were 1,795 cases as follows: 675 cases 1895 96 crops, Pennsylvania seed leaf, 12@13c.; 180 cases 1897 crop, flats, 14@17c.; 50 cases 1896 crop, New England Havana, 30@40c.; 200 cases 1897 crop, Zimmers, 16 1/2@17c.; 150 cases 1897 crop, Dutch, 15 1/2@16c.; 140 cases 1897 crop, Gebhart, 14@14 1/2c.; 100 cases 1897 crop, Onondaga, 11@12c., and 300 cases 1896-97 crops, Wisconsin Havana, 9@12 1/2c.; also 250 bales Havana at 70@90c. in bond and 140 bales Snamatra at 80c.@\$1.75 in bond.

Business in the market for Straits tin has been moderately active, and reflecting stronger advices from London, where there has been a flurry among shorts to cover contracts, prices advanced. The close was at some reaction from top prices at 21 5/8@21 7/8c. Ingot copper has been in fairly active demand and higher, closing at 13 1/2c. for Lake. Lead has had a fair sale, and prices have advanced to 4.05c. for domestic. Spelter has been firmer but quiet, closing at 5.15@5.25c. for domestic. Pig iron has been in fair demand and firm at \$10.25@12.25 for domestic.

Refined petroleum has been easier, closing at 7.40c. in bbls., 4.90c. in bulk and 8.15c. in cases. Naphtha higher at 9.50c. Crude certificates have been dull; credit balances have been easier at \$1.10. Spirits turpentine has been dull and unchanged at 45@45 1/2c. Rosins have been quiet but steady at \$1.45 for common and good strained. Wool has been quiet but steady. Hops have been in only limited demand, but values have held steady.

## COTTON.

FRIDAY NIGHT, January 13, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 206,902 bales, against 253,960 bales last week and 296,053 bales the previous week, making the total receipts since the 1st of Sept., 1898, 6,392,837 bales, against 6,145,209 bales for the same period of 1897-8, showing an increase since Sept. 1, 1898, of 147,628 bales.

Speculation in cotton for future delivery has been fairly active, and the tendency of prices has been towards a higher basis. The principal strengthening features have been continued buying by outsiders, stimulated by a material falling off in the crop movement. The latter, however, it is claimed by many in the local trade has been largely due to the continued unfavorable weather at the South. At the higher prices there has been persistent selling for foreign account. Liverpool in particular being conspicuous as a seller. The improvement in prices was most pronounced early in the week. Foreign advices were of an encouraging nature. Liverpool responded to the advance, and also reported a good demand from spinners in the spot market. It was likewise stated that the movement of the crop in Texas up to January 1st had been slightly below expectations, and this, too, had its influence in favor of values. During the latter part of the week the tone was unsettled. Foreign advices were disappointing; there was fairly free selling for foreign account, and local longs sold to realize profits. Continued buying, however, by outsiders and some demand from the South stimulated by the smaller movement of the crop absorbed the offerings and held values fairly steady. To-day there was a quiet market. The movement of the crop continued light, but there was an absence of buyers, and prices were only barely maintained. The close showed values 1 point lower to 1 point higher for the day. Cotton on the spot has been firmer, and prices were advanced 1-16c. on Saturday, Monday and Tuesday, closing at 6-16c. for middling uplands.

The rates on and off middling, as established Nov. 16, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	0. 1 1/4 on	Good Ordinary.....	0. 1 1/4 on
Middling Fair.....	3/4 on	Good Middling Tinged.....	Even
Strict Good Middling.....	3/4 on	Strict Middling Stained.....	7 3/4 off
Good Middling.....	3/4 on	Middling Stained.....	7 1/2 off
Strict Low Middling.....	3/4 off	Strict Low Mid. Stained.....	1 off
Low Middling.....	7/8 off	Low Middling Stained.....	1 1/2 off
Strict Good Ordinary.....	3/4 off		

On this basis the official prices for a few of the grades for the past week—Jan. 7 to Jan. 13—would be as follows.

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary.....	4 1/2	4 1/2	5	5	5	5

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Jan. 13), we add the item of exports from the United States, including in it the exports of Friday only.

	1899	1898	1897	1896
Stock at Liverpool.....	bales. 1,498,000	987,000	1,167,000	1,111,000
Stock at London.....	3,000	3,000	7,000	6,000
Total Great Britain stock.....	1,501,000	970,000	1,154,000	1,117,000

The imports into Continental ports the past week have been 124,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 636,898 bales as compared with the same date of 1893, a gain of 965,640 bales over the corresponding date of 1897 and an excess of 1,065,725 bales over 1896.

**Madison, Florida.**—We have had rain on two days during the week, to the extent of eighty hundredths of an inch. The thermometer has ranged from 36 to 78, averaging 60.

**Augusta, Georgia.**—There has been rain on five days during the week, to the extent of two inches and thirty-three hundredths. The thermometer has averaged 52, ranging from 31 to 73.

**Savannah, Georgia.**—There has been rain on five days the past week. The rainfall reached one inch and forty-two hundredths. The thermometer has averaged 49, the highest being 75 and the lowest 33.

**Stateburg, South Carolina.**—Trees and grass are now thickly encased in ice, but are thawing slowly. It has rained on two days during the week, the rainfall reaching one inch and fifty-nine hundredths. Average thermometer 44, highest 77, lowest 26.

**Charleston, South Carolina.**—Rain has fallen on five days of the week, to the extent of one inch and twenty-two hundredths. The thermometer has ranged from 37 to 69, averaging 49.

**Greenwood, South Carolina.**—There has been rain on four days of the week, the precipitation being two inches and fifty hundredths. The thermometer has averaged 36.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock January 13, 1899, and January 13, 1898.

	Jan. 12, '99.	Jan. 13, '98.
	Feet.	Feet.

Total all—						
1898-99..	.....	12,000	12,000	9,000	141,000	150,000
1897-98..	.....	3,000	3,000	13,000	74,000	87,000
1896-97..	3,000	15,000	21,000	31,000	186,000	217,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 32,000 bales. Exports from all India ports record a gain of 9,000 bales during the week and since September 1 show an excess of 63,000 bales.

**ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.**—Through arrangements we made with Messrs. Davis, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, January 11	1898-99.	1897-98.	1896-97.
Receipts (cantars)*...			
This week.....	175,000	237,000	145,000
Since Sept. 1.....	3,973,000	4,503,000	4,141,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool.....	11,000	167,000	8,000	181,000	16,000	208,000
To Continent.....	18,000	152,000	13,000	180,000	15,000	166,000
Total Europe.....	29,000	319,000	21,000	361,000	31,000	374,000

\* A cantar is 93 pounds.

† Of which to America in 1898-99, 15,918 bales; in 1897-98, 21,993 bales; in 1896-97, 20,442 bales.

This statement shows that the receipts for the week ending Jan. 11 were 175,000 cantars and the shipments to all Europe 29,000 bales.

**JUTE BUTTS, BAGGING, &C.**—The market for jute bagging has continued very dull during the week under review at 5½c. for 1½ lbs. and 6¼c. for 2 lbs., standard grades. Car load lots of standard brands are quoted at 6¼c. for 1½ lbs and 6½c. for 2 lbs., f. o. b. at New York. Jute butts have also been dull at 90c. for paper quality and 1¼c. for mixing.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market continues quiet for both yarns and shirtings. Manufacturers are generally well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Jan. 13) and since Sept. 1, 1898, the stocks to-night, and the same items for the corresponding periods of 1897-98, are as follows.

Receipts to Jan. 13.	1898-99.		1897-98.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1898	1899.
Savannah.....	1,185	43,741	1,822	49,240	15,488	25,801
Charleston, &c.....	101	4,712	262	8,980	3,192	5,768

Balt. &c.....	.....	.....	.....	1,002	.....	1,002	.....	.....
Total.....	.....	227	227	11,143	5,449	16,592	2,009	22,963
Total 1897-8	590	532	1,122	14,500	3,322	17,822	1,902	18,024

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exorted from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Jan 13 at Savannah, for Floridas, common, 9c.; medium fine, 10c.; choice, 13c.

Charleston Carolinas, medium fine, 18c.; fully fine, 23 to 25c.; extra fine, 40 to 50c.

**COTTON CONGRESS AT NEW ORLEANS.**—Mayor Flower, of New Orleans, has issued a call for a Cotton Congress to assemble in New Orleans on February 16. It is stated that the low price of cotton has aroused producers, and the agitation of the question of production has culminated in a sentiment that all interests affected by the low price of the staple be represented in a Cotton Congress. New Orleans factors have received letters from leading cotton planters in Alabama, Mississippi, Texas and Louisiana, urging the necessity of a convention, and Mayor Flower joined in the movement and issued the necessary call. He has also selected a representative committee of cotton men to make the necessary arrangements and issue invitations for the convention.

**AUGUSTA (GA.) STRIKE.**—The situation in Augusta is apparently but little changed. An attempt was made to start up the mills on Monday last, but it met with no great degree of success, only a limited number of hands responding. The operatives evince no disposition to accept the reduced wages.

**NEW ENGLAND MILL SITUATION.**—The Robeson Cotton Mills, Fall River, have been reorganized, and it is expected will resume operations in about one week. Reorganization of other mills has also been effected or is under way.

**SHIPPING NEWS.**—As shown on a previous page, the exports of cotton from the United States the past week have reached 253,265 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool, per steamer Nomadic, 2,343.....	2,343

Indian corn futures have received only a limited amount of attention, but the tone of the market has held steady, and for the week prices show a slight advance. There has been moderate buying for investment account, stimulated by a fairly active export demand and free clearances from the seaboard. The crop movement, however, has been larger, and this, together with freer offerings from the country during the latter part of the week, held the upward tendency to prices in check. Business in the spot market has been active. Shippers have been buyers and prices have been steadier. To-day the market was higher early in the day with wheat, but later the advance was lost. The spot market was moderately active. Sales for export here and at outports were 315,000 bushels.

Oats for future delivery in the Western market have been only moderately active, but there has been a gradual hardening of values. There has been a moderate amount of buying for investment account, and a comparatively small movement of the crop and limited offerings from the country had a strengthening influence. Business in the spot market has been fairly active and prices have been firmer. The home trade has been a buyer, and there has been some export demand. To-day the market was steady. The spot market was fairly active and firmer.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., January 13, 1899

The course of the market during the past week has not been marked by any new feature of moment. There has been a gradual improvement in the demand of a quiet character, but no such vigor on the part of buyers as marked their operations up to about a month ago. It is highly probable, however, that this improvement will continue, as the start made by the jobbing trade with their new lines of spring goods has been a decidedly satisfactory one and pointing to liberal supplementary supplies being called for in the near future. In the cotton goods division of the market the tone continues strong, and further incidental advances reported during the week show the prevailing tendency of prices in most directions. The cotton market has come to the support of goods again, its upward movement confirming opinions that cotton is more likely to rule higher than to recede. In the woolen goods division there have not been any further developments calculated to change the tone of the market. Collections continue good.

WOOLEN GOODS.—The response made by buyers to the new and lower prices for woollens and worsteds for men's wear in heavy-weights reported last week has not been inspiring; the demand on some lines has been fair, but as a rule clothiers and others have continued to buy conservatively. New lines opened this week have not changed the price situation, as they are on a parity with others opened earlier. In the spring business reorders have been fair for the time of year, and the light-weight stocks in most directions are being satisfactorily cleaned up. Satinets and similar low grade goods in moderate demand. For beavers and kerseys and other over-

coatings the demand is irregular and moderate in the aggregate. Cloakings dull and featureless. Dress goods show some increase in business doing and in wool cashmeres prices are 5 to 10 per cent higher in some makes. Flannels and blankets quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending January 9 were 12,251 packages, valued at \$443,002, their destination being to the points specified in the tables below:

NEW YORK TO JAN. 9.	1899.		1898	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.

China, via Vancouver.....				
Total.....	12,251	12,251	4,200	4,200

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$443,002 in 1899, against \$169,866 in 1898.

In staple cottons the chief feature has been a further advance in the price of leading makes of bleached cottons, Lonsdale 1½ being raised 1½ per cent, Fruit of the Loom ¼, and still finer goods ¼c. per yard. The advances are sustained by business done at them. Wide sheetings are quiet but firm. Business in brown sheetings and drills has been quiet, but at the close inquiries on export are more in evidence. Prices are decidedly firm, with an occasional advance of ¼c. in drills. Fine yarn goods strong. Denims are dull at previous prices and the coarse-colored cottons division generally is lagging somewhat behind the rest of the market. Cotton flannels and blankets firm but quiet. Kid-finished cambrics generally well sold. White goods show upward tendency. Prints are strong throughout and a number of advances of ¼c. reported in the lower grade goods. Open changes are not made as yet in fine qualities but sellers are reserved. Business in ginghams on a moderate scale but values well maintained. Print cloths are firm at 2½c. for extras, with a moderate business.

FOREIGN DRY GOODS.—There has been no material increase in business in this division. Dress goods and men's wear fabrics inactive. Silks in moderate request. Linens in better demand. Business in specialty departments moderate.

## Imports and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending Jan. 12, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1899 AND 1898.	Week Ending Jan. 12, 1899.		Since Jan. 1, 1899.		Week Ending Jan. 13, 1898.		Since Jan. 1, 1898.

# STATE AND CITY DEPARTMENT.

## REVIEW OF MUNICIPAL BOND SALES IN DECEMBER AND FOR THE YEAR 1898.

Although the total of the sales of municipal bonds recorded during the year just closed was nearly 35 millions less than that for the year 1897, yet the retrospect is one that can be viewed with considerable satisfaction.

The year opened very auspiciously for municipal bonds, but the latter part of February the Cuban difficulty began to exert a disquieting influence, and from that time until the victory at Manila the market was in a much disturbed condition. During this period many attempts to float securities which under ordinary circumstances would have commanded wide and active bidding met with failure, either because no bids were received or else those received were so unsatisfactory as to be rejected. As a result the totals for these months were far below the average.

Commencing in May, the market began to recover, first slowly and later very rapidly, until in August we recorded the largest total ever reached for any one month, with the exception of November 1896. Indeed, the sales for the last six months of the year were but little over 5½ millions behind those of the corresponding months of 1897, and but for the decided falling off in the December aggregate would have exceeded the 1897 result.

Excepting during the war period prices advanced through the year, and it is nothing unusual now to record sales of bonds on a 3 and 3·10 per cent basis. Perhaps the most notable instance of a low basis was furnished by the sale on December 30, 1898, of \$500,000 3½ per cent stock of the city of Baltimore, at a figure netting only about 2·87 per cent. Western municipalities have fared nearly as well in this respect as those in the East. Thus the city of St. Louis on July 27 sold bonds on a 3·086 per cent basis and on December 22 disposed of another issue at a price netting only 3·012 per cent.

We append herewith a table showing the monthly totals for the past five years.

TOTAL MUNICIPAL BOND SALES BY MONTHS.

	1894.	1897.	1896.	1895.	1894.
January.....	\$9,147,593	\$10,405,776	\$6,507,721	\$10,332,101	\$7,072,267

September.....	6,173,666	9,272,691	3,603,457	11,423,212	8,249,347
October.....	4,906,607	6,872,993	4,688,163	6,697,012	8,685,435
November.....	7,721,284	6,893,775	34,913,594	6,524,901	4,549,580
December.....	7,306,343	17,855,473	10,664,257	8,545,804	13,486,374

Grand total.....\$103,084,703 \$137,991,034 \$106,496,060 \$114,021,633 \$117,176,226

During the month of December, a decided falling off in the total of the sales is recorded, there being but \$7,306,343 bonds disposed of, not including \$3,000,753 of temporary loans reported. This total may be compared with \$7,721,284 for November, 1898, and \$17,855,473 for December, 1897.

The number of municipalities issuing bonds was 125, omitting 143 separate issues, as against 110 municipalities and 134 issues in November, 1898, and 154 municipalities and 194 issues in December, 1897.

The principal sales for the month, other than those of Baltimore and St. Louis mentioned above, were as follows: \$915,000 3 per cent 10-15 year (optional) bonds of the State of Maryland, taken by the sinking fund; \$430,000 5 per cent 30-year funding bonds of

Portland, Ore., awarded to Rudolph, Kleybolte & Co., Cincinnati, at 124·83; \$312,000 4 per cent 20-year bonds of Hoboken, N. J., awarded to Benwell & Everitt, New York, at 108·27; and \$275,000 4 per cent 30-year gold refunding bonds, of Atlanta, Ga., awarded to Sperry, Jones & Co., Baltimore, at 109·316.

In the following table we give the prices which were paid for December loans to the amount of \$6,598,287, issued by 93 municipalities. The aggregate of sales for which no price has been reported is \$708,056, and the total bond sales for the month \$7,306,343. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

These additional loans will make the total sales (not including temporary loans) as reported for November 1898 amount to \$7,721,284.

**Kansas.—Special Session of Legislature Concluded.**—The special session of the State Legislature closed on January 7, 1899. The session lasted 16 days, during which 35 bills were passed. The regular session convened three days later.

**Tacoma, Wash.—Warrants Illegal.**—On January 5, 1899, Judge Carroll, in the Superior Court, handed down a decision in the case of the New York Security & Trust Co. against the city of Tacoma, which, it is stated, will invalidate all warrants re-issued by ex-Treasurer Boggs, amounting, with interest, to about \$1,000,000. These warrants were presented by the original payee in 1892, 1893 and 1894 to City Treasurer Boggs, paid by him and then re-sold to warrant buyers and the money deposited in banks which afterwards became insolvent. The court upheld the city's claim that Boggs, having paid for the warrants with funds belonging to the city, and having deposited the amount received from the Union Savings Bank & Trust Co. in banks where it remained until the banks failed, the loss should be charged to the Union Savings Bank & Trust Co. and not to the city. In other words, the decision is "that Boggs was acting as the agent of the trust company, and that the deposit he made of money received from it should be treated as a trust fund for its benefit and not chargeable as a loss to the city." "The law is well settled that purchasers of bonds or warrants must, at their peril, know the conditions under which they were issued," Judge Carroll sums up the case as follows:

"Boggs was employed by the Union Savings Bank & Trust Company and received commissions; he was the agent of the plaintiff's assignor, and not the agent of the city. His acts were unauthorized and voidable, if not absolutely void; were, in fact, not only ultra vires, but criminal; that the city has never yet accepted the bank accounts as payment from Boggs; and in fact not, therefore, reasonable and equitable to charge the loss the city has been put to, to the parties who were the approximate cause of the loss."

The case will be appealed to the State Supreme Court.

## Bond Proposals and Negotiations this week have been as follows:

**Alken, S. C.—Bond Sale.**—On January 10, 1899, the \$15,000 4½% gold bonds maturing January 1, 1949, and \$10,000 4½% gold bonds maturing January 1, 1939, were awarded to W. J. Hayes & Sons, Cleveland, at 106-86½. Following are the bids:

W. J. Hayes & Sons, Cleve., 106-86½; New Nat. Bk., Columbus 125-250 00; R. Kiehlboite & Co., Cin., 106-131 00; W. St. Julian Jervay, Charles 125-062 50; Faxon, Leach & Co., N. Y., 125-037 50; Fidelity Deposit Co., Balt., 25-000 00; J. W. Dickey, Augusta 125-077 50; S. A. Kean (less 19¢), 25-000 00

For description of bonds see CHRONICLE December 31, 1898, p. 1367.

**Albany County, N. Y.—Bond Offering.**—County Treasurer E. L. Barclay will offer for sale at 12 m. February 15, 1899, at his office in the City Hall, Albany, \$37,000 4% registered bonds. Interest will be payable semi-annually and the principal will mature \$11,000 yearly on March 1 from 1900 to 1917, inclusive, and \$19,000 on March 1, 1918. Bonds are issued pursuant to a resolution adopted by the Board of Supervisors December 14, 1898, and are for the purpose of replacing a like amount of war-loan bonds due March 1, 1899.

**Alliance, Ohio.—Bond Offering.**—Proposals will be received until 2 p. m. January 31, 1899, by J. H. McConnell, City Clerk, for \$51,000 4% city bonds. Securities will be in

denomination of \$1,000, dated February 20, 1899; interest will be payable semi-annually at the office of the City Treasurer. Principal will mature \$8,000 yearly on February 20 from 1920 to 1928 and \$9,000 on February 20, 1929. Bonds are issued for the purpose of paying a part of the purchase price of the Alliance water-works plant, pursuant to a city ordinance passed December 19, 1898, and the laws of Ohio, Vol. 87, page 172. Proposals must be accompanied by a certified check or draft in the sum of \$1,000.

**Appleton, Wis.—Bond Offering.**—Proposals will be received until 7:30 p. m. February 1, 1899, by M. K. Gochmaner, City Clerk, for \$50,000 3½% public-building and street-improvement bonds. Securities are issued under authority of Section 133, General Charter Laws, Chapter 326, Laws of 1889, amended by Chapter 312, Laws of 1893, and were authorized by ordinance passed January 4, 1899. Bonds are in denomination of \$250, dated April 1, 1899. Interest will be payable semi-annually at the American Exchange National Bank, New York City. Principal will mature \$2,500 yearly on April 1 from 1900 to 1919, inclusive.

**Aspen School District No. 1, Pitkin County, Col.—Bond Offering.**—Proposals will be received at any time by the Board of Education—Dr. A. J. Robinson, President—for \$30,000 5% 20-year (optional) refunding bonds. Securities are issued pursuant with Section 3094, Mills' Annotated Statutes of Colorado, as amended in Session Laws of 1897. Interest will be payable semi-annually.

**Athens, Ohio.—Bond Offering.**—Proposals will be received until 12 m. to day (January 14, 1899.) by W. B. Golden, Village Clerk, for the following bonds:

\$1,700 6% improvement bonds, in denomination of \$85.  
2,500 6% improvement bonds, in denomination of \$125.  
3,000 6% improvement bonds, in denomination of \$150.

Securities are dated Jan. 1, 1899. Interest will be payable March 1 and September 1 at the First National Bank of Athens or at The Importers' & Traders' National Bank, New York City. Principal will mature one bond of each series every six months from September 1, 1899, to March 1, 1909, inclusive. All bids must be unconditional.

**Bartow, Ga.—Bond Offering.**—Proposals will be received until 12 m. February 1, 1899, by R. H. Malone, City Clerk, for \$1,600 6% school bonds. Securities are in denomination of \$100, dated January 1, 1899. Interest will be payable annually and the principal will mature 20 years from date of issue.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

**Bexar County, Texas.—Bond Sale.**—Local papers report the sale of \$240,000 5% refunding railroad-subsidy bonds at 101-66. These bonds were originally sold on March 6, 1898, to Dietz, Denison & Prior, Cleveland, but the award was afterwards canceled. See CHRONICLE May 28, 1898.

**Bryan, Tex.—Bond Issue.**—This city will shortly issue \$15,000 5% 25-40 year (optional) street improvement bonds. Date of sale has not yet been determined.

**Buffalo, N. Y.—Bond Issue.**—The city has authorized bonds to the amount of \$4,701 02, bearing 3% interest, to meet expenses of the Board of Public Works. Bonds are dated January 2, 1899, and mature January 2, 1900, and were awarded to the Park Bond Redemption Sinking Fund.

**Cambridge, Mass.—Loan Authorized.**—The City Treasurer has been authorized to borrow \$300,000 from time to time, in anticipation of the collection of taxes.

**Cambridge, Ohio.—Bids.**—Following are the bids received on January 2, 1899, for the \$7,000 4% cemetery bonds awarded, as stated last week, to Seansgood & Mayer, Cincinnati, at 104-839:

Seansgood & Mayer, Cin., 73-338 75; Denison, Prior & Co., Cleve., 72-215 00; Briggs, Smith & Co., Cin., 72-261 50; W. J. Hayes & Sons, Cleve., 71-778 00; N. W. Harris & Co., Chicago, 72-247 00; S. A. Kean, Chicago, 71-575 50; Mack, Lewis & Co., Chicago, 72-241 00; Central Nat. Bank, Cambridge, 71-000 00; R. Kiehlboite & Co., Cin., 72-241 00; New First Nat. Bk., Columbus, 70-650 50; German Nat. Bank, Cin., 72-650 50

**Camden (N. J.) School District.—Bond Offering.**—Proposals will be received until 4 p. m. January 23, 1899, by the Finance Committee of the Commissioners of Public Instruction, Philip Wilson, Chairman, for \$135,000 4% refunding school bonds. Securities will be in denomination of \$1,000, dated April 1, 1899; interest will be payable April 1 and October 1 at the National State Bank, Camden. Principal will mature April 1, 1919, subject to call after April 1, 1909. Proposals must be accompanied by a certified check on a national bank, payable to the Treasurer of the Commissioners of Public Instruction of Camden, in the sum of 5% of the amount of bonds bid for.

**Canton, Ohio.—Bond Offering.**—Proposals will be received until 12 m. January 23, 1899, by Louis N. Ley, City Clerk, for \$15,000 water-works refunding coupon bonds. Securities will be in denomination of \$1,000, dated February 1, 1899; interest will be payable semi-annually at the banking house of Konntze Bros., New York City, or at the office of the City Clerk, Canton, at the option of the purchaser. Principal will mature February 1, 1909. Interest will be at not more than 5%. Bonds are issued pursuant to Section 2701 of Revised Statutes of Ohio and a city ordinance passed Dec. 12, 1898, authorizing their issue. Proposals must be accompanied by a certified check from the First National Bank of Canton in the sum of \$500, and each bidder must state in his bid that he has satisfied himself as to the legality of the bonds and the proceedings upon which their issue is based. Bids must be made upon blank forms furnished by the City Clerk.

**Carthage, Mo.—Bond Sale Withdrawn—Bond Litigation.**—Mr. R. Lundy, City Clerk, writes us that the sale of the \$25,000 electric-light bonds advertised to take place December 28, 1898, had been withdrawn for the present. Mr. Lundy states that certain parties have brought suit, alleging that the proceedings of the Council in calling a special election to authorize the issuing of the bonds were illegal. As soon as the matter is settled the bonds will again be placed on the market.

**Cherry Creek (N. Y.) Union Free School District.—Bond Sale.**—On January 11, 1899, the \$7,500 4% bonds were awarded to W. J. Hayes and Sons, Cleveland, at 107-94. Following are the bids:

W. J. Hayes & Sons, Cleveland.....107-94	Farmer's & Mech. Sav. Bank.....108-00
H. H. Smith & Co., New York.....107-80	Geo. M. Hahn, New York.....105-29
Walter Stanton & Co., New York.....106-58	Seymour Bros. & Co., New York.....103-63
Dime Savings Bank, Albany.....106-25	S. A. Kean, Chicago.....103-00

Bonds mature \$300 yearly on January 1 from 1903 to 1927, inclusive. For further description of bonds see CHRONICLE last week, p. 47.

**Chicago Junction, Ohio.—Bond Sale.**—On January 5, 1899, the \$10,000 5% water-works extension coupon bonds were awarded to Feder, Holzman & Co., Cincinnati, at 118-10. Following are the bids:

Feder, Holzman & Co., Cinclin.....118-10	Seasongood & Mayer, Cinclin.....111-55
New First Nat. Bk., Columbus.....115-85	W. J. Hayes & Sons, Cleveland.....111-52
R. E. Field, Cincinnati.....115-27	Denison, Prior & Co., Cleveland.....110-60
Spitzer & Co., Toledo.....112-45	Lamprecht Bros. Co., Cleveland.....109-75

Bonds mature \$1,000 yearly on March 1 from 1926 to 1935, inclusive. For further description of bonds see CHRONICLE November 26, 1898, p. 1122.

**Cleveland, Ohio.—Bond Sale.**—On January 9, 1899, the \$50,000 4% Giddings Brook coupon bonds were awarded to N. W. Harris & Co., Chicago, at 112-834. Following are the bids:

N. W. Harris & Co., Chicago.....\$50,417 00	Adams & Co., Boston.....\$50,200 00
Denison, Prior & Co., Cleve.....50,330 00	New First Nat. Bank, Colum.....50,175 00
R. L. Day & Co., Boston.....50,319 50	Estabrook & Co., Boston.....50,040 00
W. J. Hayes & Sons, Cleve.....50,285 00	Lamprecht Bros. Co., Cleve.....50,037 05
Rines & Cummings, Boston.....50,279 00	Seasongood & Mayer, Cinclin.....55,768 00

Bonds mature October 1, 1918. For further description of bonds see CHRONICLE December 17, 1898, p. 1274.

**Bonds Authorized.**—The City Council has passed ordinances providing for the issuance of \$60,000 4% bonds for various sewer districts. Securities are in denomination of \$1,000, dated Oct. 1, 1898. Principal will mature Oct. 1, 1908.

**Description of Bonds.**—The \$500,000 park bonds authorized by the City Council on December 27, 1898, will be in denomination of \$1,000, dated October 1, 1898. Interest will be at the rate of 4%, payable semi-annually. Principal will mature \$250,000 October 1, 1929, and \$250,000 October 1, 1931.

**Columbus, Ind.—Bond Sale.**—In the CHRONICLE last week we stated that, according to reports, \$44,000 4% refunding bonds were sold to the Chicago Loan & Trust Co. Since then we have been advised that these bonds were sold at private sale on December 15, 1898, to Trowbridge, MacDonald & Niver Co., Chicago, at par. Bonds mature 20 years from date, subject to call after 10 years.

**Concho County, Texas.—Bond Sale.**—The \$19,000 5% refunding bonds have been awarded to J. B. Oldham, Dallas, at par. Bonds are in denomination of \$1,000 and mature October 10, 1938, subject to call after October 10, 1908.

**Connellsville, Pa.—Bond Sale.**—The sale of \$35,000 4½% 17½-year (average) bonds to E. D. Shepard & Co., New York, at par is reported.

**Dallas County, Ala.—Bond Sale.**—On January 9, 1899, the \$65,000 bridge bonds were awarded to the City National Bank, Selma, at 100-192 for 4 per cents. Following are the bids:

City Nat. Bank, Selma.....Premium.....\$125 00	R. Kleybolte & Co., Cincinnati.....\$1 50
S. A. Kean, Chicago.....97 55	Seasongood & Mayer (for 146s).....600 85

Bonds mature 20 years from date of issue, subject to call \$5,000 yearly, beginning January 1, 1901. For further description of bonds see CHRONICLE Dec. 31, 1898, p. 1368, and Dec. 17, 1898, p. 1274.

**De Pere, Wis.—Bond Offering.**—Proposals were asked for until 12 m. yesterday (January 13, 1899), by M. J. Maes, City Clerk, for \$3,000 4% bonds. Securities are in denomination of \$100, dated January 15, 1899. Interest will be payable annually and the principal will mature January 15, 1909. At the time of going to press the result of this sale was not known.

**De Witt (N. Y.) School District No. 14.—Bond Sale.**—On January 10, 1899, this district sold \$1,800 5% 1-6-year (serial) school bonds to S. A. Kean, Chicago, at 101. Other bidders were: Walter Stanton & Co., N. Y., 100-277, and T. J. Webb, Syracuse, 100-291.

**District of Narragansett, R. I.—Bond Sale.**—This district has sold its \$60,000 4% 30-year funding bonds to Boston bankers at 107. Bonds are dated January 1, 1899. These bonds were advertised for sale November 10, 1898, but all bids received at that time were rejected.

**Elgin City, Union County, Ore.—Bond Sale.**—This city recently sold \$12,000 6% 20-year gold bonds issued for a gravity water system to Morrison & Whitehead, Portland. Securities are in denomination of \$1,000 and interest will be payable January 1 and July 1.

**Ellsworth (Minn.) School District.—Bonds Voted.**—This district recently authorized the issuance of \$10,000 new school-house bonds by a vote of 144 to 23.

**Evanston, Ohio.—Bond Sale.**—On January 9, 1899, this village sold \$1,000 6% Fire Department bonds to Briggs, Todd & Co., Cincinnati, at 116-50. Following are the bids:

Briggs, Todd & Co., Cinclin.....\$1,165 00	Atlas National Bank, Cinclin.....\$1,137 50
Chas. Hoto, Cincinnati.....1,162 40	Raymond F. Daly, Detroit.....1,080 00
Feder, Holzman & Co., Cinclin.....1,148 25	S. A. Kean, Chicago.....1,015 00

Principal matures January 15, 1908. For description of bonds see CHRONICLE December 17, 1898, p. 1274.

**Florence, Ala.—Bond Sale.**—On January 2, 1899, \$70,000 5% 20-year bonds were sold to Chicago investors at 101-25 and the remaining \$30,000 was taken by the holders of the old 6% bonds on the same basis. For description of bonds see CHRONICLE December 31, 1898, p. 1368.

**Franklin, N. H.—Temporary Loan Negotiated.**—This town has negotiated a loan of \$20,000 for six months at 3-12% with Edgerly & Crocker, Boston, Mass.

**Franklin, Pa.—Bond Offering.**—Proposals will be received until 12 m. February 3, 1899, by E. Jeunet, City Clerk, for \$25,000 3½% refunding bonds. Interest will be payable March 1 and September 1 at the office of the City Treasurer and the principal will mature 20 years from date of issue, subject to call after five years. Bonds are free of tax. The bonded debt of the city is \$26,000, the assessed valuation \$1,835,364 and the real valuation about \$4,000,000.

**Fremont, Neb.—Bond Election.**—An election will be held on Jan. 30, 1899, to vote on the question of refunding the outstanding 5 and 6 per cent bonded indebtedness of this city with 4½% 20-year bonds.

**Glenville, Ohio.—Bond Offering.**—Proposals will be received until 12 m. February 6, 1899, by Ira C. Farley, Village Clerk, for \$30,000 5% sewer bonds. Securities will be in denomination of \$500; interest will be payable semi-annually wherever the purchaser may desire. Principal will mature \$10,000 on October 1 in the years 1901, 1902 and 1903.

**Grossdale (Village), Ill.—Bond Sale.**—This village recently sold to Mason, Lewis & Co., Chicago, \$3,000 6% 8-10-year (optional) bonds at 101. Securities are dated January 1, 1899.

**Henry County, Ohio.—Proposed Purchase of Bonds.**—The County Commissioners have given notice that they will pay 104 and accrued interest for any number of the 4% refunding bonds issued July 1, 1890, and maturing July 1, 1900, if delivered on or before July 1, 1899.

The official notice of this offer will be found among the advertisements elsewhere in this Department.

**Hoboken, N. J.—Bond Offering.**—Proposals will be received until 8 p. m. January 18, 1899, for \$75,000 4% refunding bonds. Securities are in denomination of \$1,000 and will mature in 1919.

**Huntsville, Ala.—Bond Offering.**—Proposals will be received until 7:30 p. m. February 7, 1899, by E. R. Matthews, City Clerk, for \$20,000 5% water-works bonds. Securities are in denomination of \$500, dated February 1, 1899. Interest will be payable semi-annually at the Mechanics' National Bank, New York City. Principal will mature February 1, 1929. A certified check for \$500, payable to the City Clerk, must accompany proposals.

**Irwin, Pa.—Bond Sale.**—On January 9, 1899, \$12,000 10-20-year (optional) redemption bonds and \$4,000 street-improvement bonds were awarded to Denison, Prior & Co., Cleveland, at 101-083 and 101-575, respectively.

**Islip (Town), Suffolk County, N. Y.—Bond Offering.**—This town will sell at public auction at 11 a. m. to-day (January 14, 1899), at the South Side Bank, Bay Shore, \$12,000 4% gold bonds. Securities are in denomination of \$1,000, dated January 2, 1899. Interest will be payable January 1 and July 1 and the principal will mature \$4,000 yearly on January 1 from 1900 to 1902, inclusive.

**Jackson, Miss.—Bond Sale.**—On January 3, 1899, the \$20,000 5½% school and bridge bonds were awarded to F. R. Fulton & Co., Chicago, at 103-06. Securities will be issued in denomination of \$100. Principal will mature in 20 years, subject to call after five years.

**Bond Election.**—An election will be held February 1, 1899, to vote on the question of issuing \$100,000 5% 5-20-year (optional) sewer bonds. We are advised that in the event the bond proposition carries, bids will be received for the same on March 7, 1899.

**Knoxville, Tenn.—Temporary Loan.**—This city has borrowed \$5,000 from local banks at 6% for the purpose of paying salaries of school teachers.

**Montgomery County, Ala.—Bond Sale.**—On January 2, 1899, the Board of Revenue sold \$50,000 5% road bonds at 107-25.

**Morgan County, Ala.—Bond Election.**—An election will be held January 17, 1899, to vote on the question of issuing \$75,000 turnpike bonds.

**Mount Vernon (N. Y.) School District.—Bond Offering.**—Proposals will be received until 8 p. m. January 24, 1899, by the Board of Education, Mr. Joseph S. Wood, President, for \$50,000 3½% school bonds, which will be numbered from 151 to 200, inclusive, and will be in denomination of \$1,000 each, dated February 1, 1899. Interest will be payable February 1 and August 1 at the office of the City Treasurer and the principal will mature \$5,000 yearly on February 1 from 1939 to 1943, inclusive. Proposals must be accompanied by a certified check to the order of the Board of Education of the city of Mount Vernon in the sum of \$1,000. Bonds will be either registered or coupon.

**Nassau County, N. Y.—Loan Authorized.**—At a meeting of the Board of Supervisors held January 3, 1899, the County Treasurer was authorized to borrow \$10,000 for one year at 4% interest.

**Newport (Town), N. Y.—Bond Offering.**—Charles L. Fellows, Town Supervisor, will sell at 2 p. m. January 28, 1899, \$11,500 4% highway and bridge bonds. Securities are in denomination of \$500, dated February 1, 1899. Interest will be

payable annually on February 1 at the National Bank of Newport. Principal will mature yearly on February 1 as follows: \$500 from 1900 to 1914, inclusive, and \$1,000 from 1915 to 1918, inclusive. The purchaser will be required to deposit a certified check for \$1,500 at the time of sale.

**New York City.—Bonds Authorized.**—On January 11, 1898, the Board of Estimate and Apportionment authorized the issuance of \$569,399.25 corporate stock for equipment for the Street Cleaning Department and \$1,500,000 for the new East River bridge.

**Omaha, Neb.—Bond Sale.**—On January 7, 1899, \$40,800 4½ street-improvement bonds were awarded to the Lamprecht Bros Co., Cleveland, at 101½. Following are the bids:

Lamprecht Bros. Co., Cleveland, 101½; C. H. White & Co., New York, 100½; Blake Bros. Co., New York, 101½; Hugh Murphy, 100½; Spitzer & Co., Toledo, 101½.

Securities are in denominations and mature as follows:

District 6, \$1,500, in denomination of \$500 and maturing \$1,000 in 1, 2, 3, 4, 5, 6 and 7 years, \$500 in 8 years.

District 630, \$1,500, in denomination of \$500 and maturing \$500 in 3, 4 and 9 years.

District 630, \$3,000, in denomination of \$1,000 and maturing \$1,000 in 3, 4 and 9 years.

District 640, \$5,000, in denomination of \$1,000 and maturing \$1,000 in 2, 5 and 7 years, \$2,000 in 9 years.

District 641, \$1,000, in denomination of \$100 and maturing \$100 in 3, 4 and 9 years.

District 645, \$3,500, in denomination of \$500 and maturing \$500 in 3, 4, 5, 6, 7, 8 and 9 years.

District 646, \$1,500, in denomination of \$500 and maturing \$500 in 1, 2, 3, 4, 5, 6, 7, 8 and 9 years.

District 647, \$5,000, in denomination of \$1,000 and maturing \$1,000 in 3, 5, 7, 8 and 9 years.

District 650, \$5,000, in denomination of \$1,000 and maturing \$1,000 in 3, 4, 5, 7, 8 and 9 years.

District 653, \$1,500, in denomination of \$500 and maturing \$500 in 1, 2, 3, 4, 5, 6, 7, 8 and 9 years.

**Plymouth (Pa.) School District.—Bond Sale Postponed.**—We are advised that on account of an error in one of the papers, stating that the \$16,000 4½ school bonds would not be sold until January 17, 1899, the Board has decided to postpone action in the matter until that date. Bids were originally asked for until Jan. 11, 1899.

**Preble County (P. O. Eaton), Ohio.—Bond Sale.**—This county has sold \$4,000 6½ ditch bonds to the Preble County National Bank, Eaton, at 104½. Bonds mature \$500 every six months.

**Rutland, Vt.—Temporary Loan.**—The city has negotiated a loan of \$8,500 with R. L. Day & Co., Boston, at 3½ discount. Loan matures October 14, 1899.

**St Paul, Minn.—Certificates Authorized.**—An ordinance has passed the City Council authorizing the issuance of certificates in anticipation of the collection of taxes. These certificates will be issued from time to time and they can be issued to the amount of 80% of the total tax levy.

**Bonds Proposed.**—The Board of Aldermen has passed a resolution requesting the Legislature to authorize the issuance of bonds for market buildings and sites.

**San Juan County (P. O. Silverton), Col.—Bond Sale.**—On January 2, 1899, this county sold \$97,000 6½ refunding bonds to M. D. Thatcher, Pueblo, at par. Securities will be in denominations of \$100, \$500 and \$1,000; interest will be payable semi-annually at the office of the County Treasurer or in the city of New York, at the option of the holders. Principal will mature 20 years from date of issue, subject to call after 10 years.

**Saranac, N. Y.—Bond Sale.**—On January 7, 1899, the \$9,000 4½ bonds were awarded to Isaac W. Sherrill, Poughkeepsie, at 102½. Bonds mature \$1,000 yearly on April 1 from 1900 to 1908, inclusive. For further description of bonds see CHRONICLE last week, p. 49.

**Shreveport, La.—Bond Offering.**—Proposals will be received until February 1, 1899, by H. B. Murff, Comptroller, for \$40,000 5½ street-paying bonds. Securities will be in denomination of \$500, dated January 1, 1899; interest will be payable January 1 at office of City Comptroller. Principal will mature January 1, 1919. Bonds were voted December 17, 1898, and are issued pursuant to Article 281, Constitution of Louisiana. The official circular states that there is no litigation pending or threatened affecting the legality of this issue.

**Sioux City, Iowa.—Bond Issue.**—We are advised by J. H. Quick, Mayor, that the city has practically concluded an arrangement for the exchange of \$325,000 4½ funding bonds for a like amount of warrants now outstanding. A description of the bonds will be found in the CHRONICLE Dec. 17, 1898.

**South Omaha, Neb.—Bond Sale.**—We are advised that this city has sold \$1,500 sewer bonds to a local investor.

**Tarrant County, Tex.—Bond Sale.**—On January 2, 1899, W. J. Hayes & Sons, Cleveland, were given the contract to refund \$432,000 bridge and court house bonds with a new issue of 4 per cents. The price paid by the Cleveland firm was 101½.

**Troy, N. Y.—Bond Offering.**—Proposals are asked until 12 m. January 18, 1899, by Jas. W. Coffey, Comptroller, for \$107,000 3% bonds known as "Public Building Bonds of 1899." Securities will be issued in such denomination (but not less than \$5,000) as the bidder shall desire, and will bear date of February 1, 1899; interest will be payable semi-annually at the City Chamberlain's office. Principal will mature yearly on February 1 as follows: \$10,000 in 1905 and 1906, \$12,000 in 1907, \$10,000 in 1908, \$15,000 in 1909 and \$10,000 from 1910 to 1914, inclusive. Bonds are issued under Chapter 670 of Laws of 1892 and Chapter 761, Laws of 1897, and in pursuance of a resolution of the Common Council adopted January 5, 1899, and approved January 7, 1899. A certified check for 1% of par value of bonds, payable to the City of Troy, must accompany proposals.

**Troy, Ohio.—Bids.**—Following are the bids received Dec. 20, 1898, for the \$6,000 5% funding bonds awarded, as stated in the CHRONICLE Dec. 31, 1898, to Briggs, Smith & Co., Cincinnati:

Briggs, Smith & Co., Cincinnati.....	\$6,551 50	W. J. Hayes & Sons, Cleveland.....	\$6,451 00
Denison, Prior & Co., Cleveland.....	6,545 00	Troy National Bank.....	6,235 00
Atlas Nat. Bank, Cincinnati.....	6,528 00	Seasongood & Mayer, Cincinnati.....	6,228 75
German Nat. Bank, Cincinnati.....	6,495 00		

**Urbana, Ill.—Bond Sale.**—This city has sold \$2,000 5% bridge bonds. Securities are dated January 1, 1899, and mature January 1, 1909. Interest will be payable semi-annually.

**Warren County, Ky.—Bond Sale.**—On January 5, 1899, the \$140,000 4% coupon bonds were awarded to Seasongood & Mayer, Cincinnati, at 106. Bonds mature 30 years from date of issue, subject to call as follows: \$35,000 after 10 years, \$35,000 after 15 years, \$35,000 after 20 years and \$35,000 after 25 years. For further description of bonds see CHRONICLE December 31, 1898, p. 1370.

**Water Valley, Miss.—Bonds Voted.**—This city has voted to issue \$20,000 6% 5-20-year (optional) bonds. Full details and date of sale have not yet been determined upon.

**West Union, W. Va.—Bond Sale.**—On January 6, 1899, the \$6,000 6% water-works bonds were awarded to the West Union Bank at 106-666. Following are the bids:

West Union Bank.....	\$6,400	McCormick & Morrison, Sisters-	
W. J. Hayes & Sons, Cleveland.....	6,370	ville.....	\$6,077
S. A. Kean, Chicago.....	6,240	Duke M. Farson, Chicago.....	6,067

Bonds mature 25 years from date of issue, subject to call after 10 years. For further description of bonds see CHRONICLE December 17, 1898, p. 1278.

**Whitley County, Ind.—Bond Sale.**—The County Commissioners have sold at private sale, according to local reports, \$22,000 5% bonds at par.

**Wichita, Kan.—Bond Sale.**—This city last month contracted with Spitzer & Co., Toledo, to refund \$50,000 6% Kansas Midland Railway aid bonds. New bonds are dated January 1, 1899, and mature in 30 years, subject to call after 20 years, and bear 5% interest.

**Woodfield, Monroe County, Ohio.—Bond Offering.**—Proposals will be received until 8 P. M. February 9, 1899, by the Mayor and Village Clerk, for the \$8,000 6% electric-light plant bonds voted last October. Securities are in denomination of \$500, dated January 5, 1899. Interest will be payable semi-annually at the Monroe Bank of Woodfield. Principal will mature \$500 yearly on September 1 from 1904 to 1919, inclusive. Bidders must satisfy themselves as to the legality of the bonds prior to filing their proposals, which must be made on blanks furnished by Geo. P. Dorr, Village Clerk. A certificate of deposit showing that the bidder has deposited with the Monroe Bank a sum equal to 5% of the face value of the bonds bid for must accompany proposals.

**Woburn, Mass.—Loan Authorized.**—The city Treasurer has been authorized to borrow \$80,000 in anticipation of the collection of taxes.

## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, January 21, have been \$3,040,965,319, against \$1,897,105,908 last week and \$1,397,185,496 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending January 21.		
	1899.	1898.	Per Cent.
New York	\$1,149,751,508	\$710,121,184	+60.6
Boston	117,432,184	103,619,141	+13.3
Philadelphia	82,189,962	66,427,267	+23.5
Baltimore	30,774,899	15,000,077	+105.5
Chicago	111,603,760	82,916,873	+34.6
St. Louis	33,893,471	25,664,528	+31.9
New Orleans	10,238,431	11,693,148	-12.4
Seven cities, 5 days	\$1,395,853,205	\$1,023,742,318	+36.2
Other cities, 5 days	180,095,873	162,018,497	+11.2
Total all cities, 5 days	\$1,705,948,828	\$1,175,760,815	+45.1
All cities, 1 day	935,016,491	721,424,681	+29.5
Total all cities for week	\$2,040,965,319	\$1,397,185,496	+46.1

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, January 14, and the results for the corresponding week in 1898, 1897 and 1896 are also given. In comparison with the preceding week there is an increase in the aggregate exchanges of ninety-one and a-half million dollars, wholly at New York. Contrasted with the week of 1898 the total for the whole country shows an increase of 31.3 per cent. Compared with the week of 1897 the current returns record a gain of 83.6 per cent, and the excess over 1896 is 78.7 per cent. Outside of New York the increase over 1898 is 16.5 per cent. The excess over 1897 reaches 42.9 per cent, and making comparison with 1896 the gain is seen to be 87.2 per cent.

*THE FINANCIAL SITUATION.*

The first two days of the week there was a great change in the aspect of the stock market. Nothing external happened to affect affairs. The cause of the reaction that occurred was wholly internal. A too rapid and promiscuous advance was the source of the weakness; more sellers than buyers were an obvious consequence, and the natural result was just what happened—great irregularity, some stocks continuing to advance but accompanied with quite general declines according to the quantum of merit in each case existing for the rise. All this may be taken as an incident, or rather an accident, appertaining to the situation; or, better perhaps, as a by-play indicative not of a settled turn in the general drift, but a temporary diversion, the old tendency being held in abeyance for the time. Bonds did not share in the backset to any degree except those that were speculative. No financial or political strain or railroad development had interfered with the smooth working of any material interest. Industrial concerns remained wholly uninfluenced and unchanged.

The truth is, instead of actual weakness in the business situation, a fresh disclosure was made that furnished a new and emphatic revelation of its strength and soundness. We refer to the foreign trade statement the Bureau of Statistics issued, showing the last month of 1898 to have been the best of a marvelous series of monthly returns which have distinguished the year and brought in the prosperous cycle. A favorable merchandise balance of \$83,426,000, the largest ever recorded, was the announcement for December. That was a highly gratifying sum added not only to the country's insurance fund but to its savings account; we say to the insurance fund because it served to further protect our standard of values beset by a defective currency system, and as it represented sales of our surplus products not consumed at home it may be said to figure also as a part of the nation's net income. With a development in progress of that kind and volume, this Wall Street experience was seen to be of little account in the general situation. On Wednesday the reaction had wholly lost its force, and a return of the buoyant movement, so evident a feature last week, became manifest, widening and increasing on Thursday and Friday. The truth is the speculative spirit is contagious, and the buyers in Wall Street now represent every part of the country. The mass of men would risk much to secure wealth. On an occasion like the present the risk looks small and money-making easy. A feature, however, of this latest rise is that the securities which have mainly shared in the advance have been the investment properties; that demand cannot be speculative.

It looks as if some one had pressed the button and suddenly waked up both the Currency and Coinage committees of the House from a kind of hypnotic sleep. The sleep was well enough; and under the circumstances we may say commendable; but the result of the awakening is what makes the public a little nervous. The first evidence of action was a movement from the Banking and Currency Committee. In the absence of its Chairman, Representative McCleary on behalf of that Committee stated in the House Tuesday that the vote in the Committee on the Currency Bill which was reported at the last session, and generally bears his name, had

been irregularly taken and therefore asked that it be re-committed. That request was somewhat of a surprise for it looked as if there might be an ulterior reason for getting the bill out of the way. Still, no objection was made to the request and it was granted. On Wednesday at a meeting of that Committee Mr. Mitchell moved to report the bill to the House. This motion was tabled by a vote of 7 to 5, which result, the report said, was accepted as decisive that no further action on the measure would be had. Thereafter, however, two other bills before the Committee were discussed, but no vote was reached, and the Committee adjourned to next week, leaving it uncertain what would be done then. We presumed, though, that nothing further would be attempted during the six weeks of the session which now remain. No doubt the public feels that such a course would be the most judicious and satisfactory disposition of the matter that could be made.

But there is a second committee in the House that has in charge our currency standard and it also had a part in the same revival which put the new spirit into the Banking and Currency Committee. Thursday this Committee—the one on Coinage, Weights and Measures—called Secretary Gage before it to give his views of the measure that bears the name of the Hill bill; under the Secretary's suggestions that bill seems now to have become quite a lengthy currency as well as a coinage measure, and as it has, according to the press report, received Mr. Gage's endorsement, we have no doubt that all sound money classes would be glad to see it put on our statute books. But with the Senate constituted as it now is, with only a few weeks left of this short session, and with more than the usual number of important measures before Congress to be disposed of, would it not be very unwise to attempt currency legislation. Even granting that a satisfactory bill could be speedily perfected and passed by the House, it would certainly meet a determined opposition in the Senate. We cannot imagine that any good purpose would be served by forcing a heated discussion at the present time in that body, especially as every one knows it would end in nothing being accomplished; or, if anything was done, it would be the passage through the Senate of a 16-to-1 silver attachment. Such a procedure would be a sore trial to public patience and, as we think, prove a serious loss to the cause of sound money. Besides, we have conditions for action far more promising to look forward to. Both houses of the next Congress will be favorable to effective currency legislation. A special session soon after the fourth of March will afford the best opportunity the country has ever had of perfecting a measure of reform which will permanently relieve our industries from all danger to its standard of values.

When one gets astride of a hobby the ability to dismount or to advance materially seems to be nonexistent. An individual, for instance, may brood and work over our currency derangement and its reform until he has brought his mind so in thrall to a single idea as to believe that his device is a perfect measure, the only one that can bridge the difficulties. This is a common form of hobby riding. Perhaps however it is seen most often among those who grapple with the social problem and its allied subjects; at least it does more real harm in that connection than in any

other. We have an illustration of our suggestion in the lecture of the Mayor of Toledo, Mr. Samuel M. Jones, delivered at the People's Institute, Cooper Union, Monday night to a respectable audience, on "What a City Should Own." That is a many-sided question. In most men's minds the issue depends chiefly upon which ownership, city or private, is better for the people. Mr. Jones did not give us any real light on that point. He had made up his mind, mounted his hobby, and apparently only came to announce his conclusions. So he settled the problem off-hand according to his liking, dismissing all doubt, and getting loud applause by declaring that "private ownership of public franchises was a crime against democracy." Again, with the same assurance, he told them, "it is idle to talk of electing honest men when we maintain a dishonest system." Then again, that "every municipality should retain possession of its franchises, or the municipality will be owned by the corporation to whom they were granted." The speaker appeared to have become so thoroughly wedded to his idea, so fixed on his hobby, that he was not aware he was heedlessly assuming in all these statements what good citizens of every city are studying industriously to get right and wrong of. Consequently he indulged in numerous pretentious clap-traps like those we have cited.

The Mayor of Toledo should bear in mind that he is treading heedlessly over ground that others equally honest have long and diligently worked over, to discover which ownership is the more profitable for the people, the more desirable in the interest of good government, the more likely to act as a corrupting political influence—a railroad corporation owned by the municipality or a railroad corporation owned by the public. On those issues not a ray of light for New York or Toledo can be gotten out of Glasgow or any foreign city. Illustrations to be at all applicable must be of cities within our own country. With reference to the single point of profitableness to the people, the results secured by our Metropolitan Street Railway Company seem to have made out in that particular a pretty fair case as the matter stands in favor of private ownership. There is probably no city in the world where the people can ride so cheaply as they can in New York—that is, where the people get paid back for its franchise so liberally. Under the system of transfers put in operation by the Metropolitan the average fare taken during the crowded commission hours, when the poorer classes are going to and from their work, is only 2½ cents. This has been accomplished also not through any compulsion or suggestion by city authorities. Yet this is one of the "crimes against democracy" which our Toledo friend referred to. We only cite the facts given for their bearing upon a single feature of the problem, and as indicative of the character of the search for results which will tend to settle wisely the questions raised.

The growing activity in business and speculation is producing new and previously unsurpassed financial records each week. It seems likely that the aggregate of bank clearings for the United States for the six days ending to-day will closely approach, if it does not actually exceed, two thousand million dollars. This is far in excess of any previous similar aggregate. It was only two months ago (November 19) that the total for the first time crossed

the 1,700-million mark, and not until the present year was the 1,800-million point touched. Since the beginning of 1899 a new high total has been established each succeeding week. For the six days ending January 7 the exchanges footed up 1,805 million dollars, for the week ending the 14th 1,897 million dollars and for the week ending the 21st the probabilities, as already stated, point to an aggregate in excess of 2,000 million dollars. At New York the total last week amounted to 1,252 million dollars, the very largest figure ever attained, but this week it will be about 1,400 million dollars, though the exact figures will not be known until the publication of to-day's report of clearings. Of course Stock Exchange speculation is largely responsible for these phenomenal aggregates. The effect of this speculation is also seen in the rapid advance in the price of Stock Exchange seats. This week \$35,000 was paid for a seat, a price never before reached, the previous highest figure having been \$34,500 in 1885—fourteen years ago. Moreover \$38,000 is now bid. In 1896, only three years ago, the price was \$15,000.

Another indication of the growth and expansion in progress is furnished in the action this week looking to the enlargement of the Stock Exchange. Arrangements have been completed for the purchase, by the Exchange, of the property No. 8 Broad Street, 21 feet 7 inches by about 100 feet, for \$425,000, or about \$241 per square foot. The highest price previously paid for property in that vicinity was \$330 per square foot in 1882 for the lots corner of Wall and Broad Streets, occupied by the Wilks building. A year ago the Stock Exchange bought the property No. 16 Broad Street, adjoining the Exchange on the south, for \$825,000. With the property now acquired the Exchange will have a frontage on Broad Street of about 150 feet. The Stock Exchange moved from Lord's Court to its present location December 9, 1865. It then had a space 75 by 53 feet. In 1870 the building was reconstructed, and the new edifice was occupied in the following year. In 1879 an adjoining lot, 24 feet on Broad Street and 68 feet on New Street, was bought for \$375,000, and by the enlargement of the Stock Exchange building in 1881 a space 138 feet long and 63 feet wide was obtained. In 1887 the floor space was further enlarged, embracing the full size of the lots, and, as noted above, the property at No. 16 Broad Street was acquired in 1897. These various extensions of the Stock Exchange have been made imperative by the marvelous growth of the business during the past thirty years.

The action of the Chicago St. Paul Minneapolis & Omaha Railroad Company in increasing its dividend was not unexpected, but furnishes another evidence of the growing prosperity of the roads in that part of the country. The first dividend on the common stock was made in February 1897, when two per cent was paid. This was followed by another annual dividend of the same amount in February 1898. Now the company has declared 3½ per cent. It is interesting to note that this increase will add \$139,800 to the net income of the Chicago & North Western, which owns \$9,320,000 of the common stock of the Omaha, besides \$5,380,000 of the preferred stock. The Omaha has had an eventful history. The acquisition of the property by the North Western was marked by some sensational incidents, it will be remembered. The

purchase was made the latter part of 1882. A violent rate war was in progress at the time among the roads in that part of the country. The late William H. Vanderbilt went into the open market and purchased control of the Omaha, and then turned the holdings so acquired over to the Chicago & North Western. The rate war came to an end shortly afterwards. The value of the new acquisition to the North Western from a strategic standpoint was generally recognized, but whether a direct return could be expected on the investment was regarded as doubtful. For a time even the preferred stock yielded no income, and when payments on these shares were resumed they were begun on a small basis. Not until 1893 was the preferred stock given the full 7 per cent to which its preference entitles it; but since then this payment has been maintained without interruption, and now the dividends on the common shares are creeping up in the same way. The price of these shares touched par this week, and the general belief is that the property will ultimately be amalgamated with the North Western.

One noteworthy feature of the week has been the reduction by the Imperial Bank of Germany of the official rate of discount from 6 per cent, to which it was advanced November 19 1898, to 5 per cent. At the same time the "Lombardy" rate, or the rate of discount charged by the bank on collateral, which is invariably 1 per cent above the Bank rate, was reduced from 7 per cent to 6 per cent. On Thursday the Bank of England dropped its official figure to  $3\frac{1}{2}$  per cent. The action by the Imperial Bank in reducing the rate of interest is important for the reason that it seems to denote a permanent relaxation of the financial tension at Berlin, which has caused more or less concern and much derangement of the European financial markets at least for the past four months. As early as September 22 last year the financial tension at Berlin had become so acute that the Bank of England, with the object of checking the movement of gold to Berlin from London, advanced the minimum rate of discount to 3 per cent, and on October 13 this rate was further advanced to 4 per cent. On October 20 the Bank of France, which seldom makes a change in its official rate, was impelled to advance the rate to 3 per cent. Until the end of the year the European discount markets were firm by reason of the situation at Berlin. Then came what was regarded as only temporary ease at London and at Berlin, caused by the customary withholding of offerings for discount, but immediately after the turn of the year open market rates, particularly at Berlin, gradually advanced. Now, however, they have receded in response to the change in the Bank rate.

The condition of money as indicated by the reports on December 1 of the national banks to the Comptroller of the Currency is interesting. It seems that there is a wide distribution of what is called money throughout the country. Indeed, while the New York City national banks, on the date mentioned, held 26.81 of reserve to liabilities, at no other centre except St. Louis was the reserve so low. These statistics fully confirm the statements which have been made from time to time by New York bankers that the country generally has been well supplied with funds. That the supply is abundant

now is attested by the fact that banks at even remote interior points are seeking employment in the New York commercial paper market. Individual deposits of the national banks have uniformly increased and these deposits in institutions at Far Western points are 14 million dollars larger than they were in December 1897 and 11 million dollars greater than in July last. In the item of specie holdings the gain in the three central reserve cities compared with 1897 is 56 million dollars, of which about 50 million dollars is in this city.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at 2 per cent and at 3 per cent, with the bulk of the business and the average at  $2\frac{1}{2}$  per cent. Comparatively little money has been loaned at the extreme rates and this only at the end of the day, when a demand for a small amount would cause an advance to 3 per cent or liberal offerings of unemployed balances would force a decline to 2 per cent. Banks and trust companies quote  $2\frac{1}{2}$  per cent as the minimum. Time money is in liberal supply, while the demand is moderate, and rates on good mixed Stock Exchange collateral are  $2\frac{1}{2}$  per cent for thirty to sixty days and 3 per cent for ninety days to six months. Some loans have been made at  $2\frac{1}{2}$  per cent for four months and money is offered for a year on choice collaterals at  $3\frac{1}{2}$  per cent. Borrowers on an unusually large assortment of industrial collateral are required to pay slightly higher rates. The offerings of commercial paper seem to be growing less abundant, indicating its prompt absorption and also lighter mercantile requirements. Bankers who are collating the returns from their customers, which are usually forwarded to them at this season, note the fact that the merchants are in an excellent financial condition as the result of the last year's business, and this will doubtless account for the comparatively small amount of paper which has been made. The demand for such paper continues good and it is quite general, inquiries coming from nearly all sections of the country, and particularly from the East and the West. Rates are  $2\frac{1}{2}$ @3 per cent for sixty to ninety day endorsed bills receivable,  $3\frac{1}{4}$ @ $3\frac{3}{4}$  per cent for prime and 4@5 per cent for good four to six months' single names. The movement of money this week has been generally toward this centre, and transfers through the Treasury have been small. At least \$1,000,000 gold has been received by one banking house by mail from San Francisco; \$1,761,076 has been imported at New York, \$1,728,199 being from Europe.

The European political situation appears to be without a single disturbing feature and Bourse conditions reflect the very marked decline in discount rates at the principal centers. The Bank of England minimum rate of discount was reduced on Thursday to  $3\frac{1}{2}$  per cent, from 4 per cent at which it had stood since October 13. This action by the Bank thus promptly followed a reduction by the Imperial Bank of Germany on Tuesday of its rate of discount to 5 per cent from 6 per cent, to which it was raised November 19. The cable reports discounts of sixty to ninety day bank bills in London  $2\frac{1}{2}$ @ $2\frac{3}{4}$  per cent, against 1 15-16 per cent on Wednesday. The open market rate at Paris is  $2\frac{1}{2}$ @3 per cent and at Berlin and Frankfurt it is  $4\frac{1}{2}$ @ $4\frac{3}{4}$  per cent. According to our special cable from London, the Bank of England

gained £988,097 bullion during the week and held £31,968,505 at the close of the week. Our correspondent further advises us that the gain was due to the import of £149,000 from the Cape and to the receipt of £339,000 *net* from the interior of Great Britain.

The foreign exchange market has been steady to strong this week, and especially so for long sterling. This has been influenced in part by the demand for remittance, which has been diverted to this class of bills by the easier discount rates in London. At the same time the supply of sixty-day bills has been small. The inquiry or remittance appears to have resulted from adjustments in connection with the return of securities from London, and instead of forwarding checks or drawing cables the remitters have selected long sterling, which has been placed on a remitting basis by the fall in London open market discounts, this fall making sixty-day bills relatively cheaper than checks for this purpose. There seems to have been no other demand for these bills, and as it is evident that there can be little or no profit in investments in long sterling while London discount rates remain below the rates for money ruling in this market, it follows that these investment operations are suspended. Moreover, the high price for these bills would naturally deter investment purchases of them in expectation of any advantage which might possibly result from the difference between long and short sterling, which difference has been reduced to two cents per pound this week against two and a-half cents last week. While sixty-day bills have been strong, short sterling, or checks, and cable transfers have remained steady, and practically unchanged as to rates, since the beginning of the week. It is announced that \$2,250,000 gold has been shipped from Sydney, N. S. W., for San Francisco. The arrivals of gold from Europe during the week have amounted to \$1,728,199, and it is reported that \$500,000 has been shipped this week from London for New York. Nominal rates for exchange have ranged during the week from 4 82½ to 4 83½ for sixty-day and from 4 85½ to 4 86 for sight, there having been an advance in the former by the majority of the drawers on and after Tuesday, and all drawers posted the higher rate on Friday. Rates for actual business opened on Monday at an advance of one quarter of a cent for long and short compared with those at the close on Friday of last week, to 4 82½@4 82½ for the former and 4 84½@4 85 for the latter, while cables remained unchanged. The market was strong on Monday and on the following day, especially for sixty-day bills, and on Wednesday there was a further advance in these drafts of one-quarter of a cent to 4 82½@4 83, while no change was made either in short sterling or in cables. The market was inactive and steady on Thursday. On Friday the tone was firm. The following shows daily posted rates for exchange by some of the leading drawers.

## THE SITUATION IN THE ARMY.

It is with some reluctance that we undertake to discuss the situation created or reflected by last week's performance before the Board of Inquiry at Washington, and brought to a head by the court-martial proceedings, now impending. Such incidents as happened in connection with Commissary-General Eagan's testimony are not only painful, they are humiliating. They are the kind of occurrences which hostile critics of American character and institutions invariably seize upon and use for their own purposes. For this reason, if Gen. Eagan's action had signified nothing more than one man's bad taste, recklessness, or misconduct, we should much have preferred to pass it by in silence, leaving the whole episode, with its proper consequences, to the President and the court martial.

But we fear that last week's public outbreak of one army officer against another means more than this. The most striking part of the episode is the manner in which the newspaper-reading public received the account of Gen. Eagan's testimony. Of indignation among such readers there was plenty; of surprise, very little. The truth is that most people accepted the incident as the natural climax to a long series of episodes, all pointing in the same direction. A considerable part of the public did not believe that any action would be taken in the matter by Gen. Eagan's superiors. The mere fact that such an incident should meet with such reception by the public proves that something is radically wrong with the organization and management of the army. If this be so, it is high time the evil was made plain in all its ramifications. A certain undertone in the comment of some of the Continental newspapers suggests their feeling that

while the United States people are quick to point out in their brother-nation's eye such a mote as the Dreyfus army scandal, they are calmly tolerant of the beam in their own. And surely, if no steps were taken by our people to redress the evil, the reproach would be deserved.

We do not here refer to the issues of fact between Gen. Miles and Gen. Egan. We are not concerning ourselves with the more or less conflicting testimony on the camp abuses, the transport abuses, the medical abuses and the food abuses to which the Board of Inquiry has been listening for some months past. Whatever may be true as to the responsibility of this officer or that for these various shortcomings, it is quite evident that the public has taken the side of Gen. Miles, chiefly because every well-informed man in the community is aware that meat not fit to eat was served out as rations to our soldiers again and again. By people who know this to be true, controversy as to who made out the requisitions, and as to whether the commissaries were "experimenting" or not, is very justly regarded as unimportant. Indeed, we are much inclined to think that the public has supported Gen. Miles largely because he ventured to locate the responsibility. They had had five months of explanations which did not explain; of demonstrated evils for which, it appeared, nobody was to blame; of a chain of officers and bureaus admitting bad management in this or that direction, but each in turn washing his own hands of it. They were less disposed, even than they were last summer, to accept as final the Secretary's theory of "unavoidable circumstances." The people who resent such apologies are largely people in charge of business enterprises of their own. They know what would be said of their private business if every department of it went wrong and nobody would admit responsibility, and they know also that the United States Army is as much a business machine, from that point of view, as a bank or a railway company or a dry-goods house.

It is, in short, as a great business organization that the War Department and the army are under criticism—an organization handling, even now, eighteen to twenty million dollars a month, entrusted with the care of one hundred thousand men, and in some conceivable emergency, with the safety of the nation. We submit that if any corporation of one-tenth the magnitude of this were to find its business plans steadily going astray, its employees not only disclaiming responsibility but indulging in personal recrimination, and its owners vaguely but helplessly suspecting that hostile cliques were at work inside, checkmating one another's purposes, there would be unanimous agreement that a totally wrong system of management was in practice. No other conclusion is possible regarding the army.

We admit that the history of armies, and their peculiar place in the social and political system, in some degree affect this analogy. No enlightened government, least of all one built up on Anglo-Saxon traditions, is likely to consent to the placing of its army in irresponsible military hands. One State at least on the European Continent is proving to-day how vast may be the mischief of even a slight departure from civil control over military affairs. The experience of our own political ancestors during many generations made them exceedingly jealous and reluctant to recognize even the principle of a

standing army, and having recognized the institution, the same experience led them to retain in the hands of the civil power not merely the grants of money for the maintenance of the army, but the control of the army's actual means of life. Hence it happened, not only that the President was declared by the Constitution to be commander-in-chief of the army and navy of the United States, but that the Secretary of War is directed by statute to keep under his "immediate control and supervision" the "transportation of troops, munitions of war, equipments, military property and stores," and to "prescribe the kinds as well as the amount of supplies to be purchased by the Subsistence and Quartermaster Departments." These powers, conferred in the earliest days of the Republic, were undoubtedly deliberate checks placed by the American people in the way of a conceivable military dictatorship.

But to conclude from such precautions that the Commissary Department of the army was designed as an open or secret enemy to the commanding general would be to make the whole provision of our army laws absurd. In the very statute placing these duties under the special supervision of the Secretary of War, the general duty of this cabinet officer is declared to be to "conduct the business of the Department in such manner as the President shall direct." The control of the President over the commander of the army is precisely similar. The President may overrule his Secretary in the matter of supplies; he may even overrule his generals in the matter of strategy, as was repeatedly done by Mr. Lincoln. This very centralization of final authority shows the clear and logical purpose of the law. If the separate branches of the service do not work in harmony, it is certainly not because control is scattered and divided; this is no more true in the army than in the navy. The friction among the army bureaus must be ascribed to a lack of harmony of principle and purpose, and there can be little doubt that the root of mischief is political. If the army were managed in all its branches with a single view to economy and efficiency, as the navy confessedly is managed, collision between its bureaus and departments would be as rare as they are in the navy. But if any less worthy influence is permitted to dominate even the smallest wing of a department of this sort, it is quite inevitable that the whole morale of the army must be affected. This, no doubt, is equally true of all other executive departments; but the army's case is by far the most serious in this regard, because of the magnitude of the interests involved. The collapse of France in the war of 1870 will always remain the sternest warning of modern history as to what must be expected with demoralization in the staff and department work complete.

Reform in this matter of army management will come just as promptly, and will go just as far, as is demanded by intelligent public opinion; and for this reason it may perhaps be not wholly a misfortune that the climax of the official discord has come thus violently. Certainly, people who were laying the question aside with the comfortable reflection that "inside quarrels" in army affairs were a natural and unimportant incident of war, have received a rude shock from last week's episode. We hope that public indignation will not subside until a correction is devised for the system which has made the results possible.

### LEHIGH VALLEY RAILROAD—IMPROVED OPERATING RESULTS.

It is one of the inestimable blessings of the period of depression through which American railroads have passed in recent years that it has taught them lessons of economy in management and efficiency in operations which could have been learned in no other way. This thought is forced upon our attention as each fresh report is received, disclosing some new record attained, and it is particularly forced upon our attention after the study of the annual return of the Lehigh Valley Railroad Company, showing the great progress made in the directions indicated by this important property during the last three years.

As part of the progress and development established, new men and new methods have come to the front. By new methods we mean not alone better and more advantageous ways of conducting the operating and administrative affairs, but a franker and less secretive policy in dealing with the security holders. In the case of no other railroad company is the change in this respect so markedly apparent as in the case of the Lehigh Valley. Formerly the affairs of this company were practically a sealed book. Those then at the helm did not deem it necessary even to incorporate a balance sheet in their annual return. How different the state of things to-day when we have an annual report issued in folio form and covering fifty pages. Every operating detail and every essential element in the financial condition of the company is furnished for public inspection. Such a course obviously serves admirably well for bringing out the strong points displayed in the recent management of the property, but is no less calculated to lay bare weaknesses or defects should any exist.

As far as the operating and financial results for the late year are concerned, the Lehigh Valley may be said to have passed creditably through an unfavorable period. The income accounts, in their final analysis, show nothing available for the stockholders; but under the conditions which the management were obliged to meet, it is quite an achievement to have been able to come through the year on an even keel. On the one hand large expenditures had to be made out of earnings to bring the property up to the standard of competing roads. On the other hand the managers were confronted with the problem of declining rates on both their merchandise and their coal traffic and by a condition of the anthracite trade which proved embarrassing even to the staunchest of the anthracite roads. Much of the Lehigh Valley's merchandise traffic is through traffic moved at trunk line rates, where, as we all know, things during 1898 were demoralized as never before. That it was possible for the Lehigh Valley Company to make both ends meet under such an adverse state of affairs reflects credit on the management, but also reveals the inherent strength of the property. More than that, though under the peculiar circumstances narrated stockholders are left without any returns, the report must nevertheless be pleasing to them in showing the progress already made and in the prospect it opens up of further improvement in the near future under a continuation of the existing policy for a year or two longer.

On its railroad operations the company did better than in the previous year, and this notwithstanding

it derived a decreased revenue from its coal business on an increased tonnage. The income account shows a surplus above all charges for the twelve months of \$474,104, which compares with a surplus of only \$102,663 in the preceding twelve months. On the other hand there is a debit from the coal-mining business—that is from the operations of the Lehigh Valley Coal Company—in the sum of \$1,142,807, this contrasting with a credit of \$10,177 in 1896-7. The results for the two companies combined, therefore, show an apparent deficiency of \$668,703. But there is a qualifying circumstance to take into account which alters the significance of this deficiency. The Coal Company spent \$700,648 during the twelve months for colliery improvements, which has been included in arriving at the \$1,142,807 loss above. Eliminating this \$700,648, the \$668,703 deficiency from the operation of the Coal and the Railroad companies combined would disappear, and there would be instead a trifling surplus on the business of the two companies—in a very bad year.

The depressed state of the anthracite industry is well shown in the fact that, independent of the colliery improvements, there was a loss on the operation of the Coal Company of \$419,708, against a profit in 1896-7 of \$434,662, a difference against the late year in the sum of \$854,370. This loss the Railroad Company had to meet, besides providing for the interest on the Lehigh Valley Coal Company's bonds, which latter is charged directly in the Railroad Company's accounts. In a word, without considering interest charges at all, the coal-mining business netted a loss of \$419,708. It must be regarded as a gratifying fact that, according to present indications (the anthracite trade now being reported in a better condition), the promise for the current year in this particular is decidedly more assuring.

Aside from the direct loss in the coal-mining business, the depression also operated to reduce transportation rates for coal and thus to cut down the revenues of the railroad from that class of tonnage. The road carried 11,574,835 tons of coal in 1897-8, against 11,530,047 tons in 1896-7, and yet receipts from the coal traffic aggregated only \$8,136,391 against \$8,560,418, being a falling off of \$124,026. Much has been said of the high rates of toll charged on anthracite shipments, but the Lehigh Valley realized an average of but 6.69 mills per ton per mile on its coal traffic in 1897-8, that comparing with 7.12 mills in 1896-7. To be sure, this is the average for all kinds of coal (for both bituminous and anthracite), but the bituminous coal forms only a very small percentage of the whole—less than 8 per cent.

But in the matter of rates the decrease in the average on coal was by no means the most serious adverse factor. The shrinkage in the compensation received on the general freight, arising from the great demoralization of trunk line rates, as already noted, reached even larger dimensions. Here the further drop was over 15 per cent. The company actually realized on its entire merchandise tonnage an average of only 4.06 mills per ton per mile; that is, it was obliged to move two and a-half tons of freight one mile in order to earn the gross sum of one cent. The average on the total tonnage (coal and general freight combined) was 5.12 mills, the average for the previous year having been 5.80 mills. It is to be noted that while this is somewhat better than the general aver-

age (4.58 mills) on the Baltimore & Ohio, whose tonnage comprises an enormous amount of soft coal carried at very low rates, it is lower than the general average on the Erie for the same year, this latter having been 5.58 mills.

How was the company able to move freight at such extremely low figures, and with the anthracite coal trade at the same time in such an unsatisfactory state? The answer is the same as it has been in so many other cases. By the practice of rigid economy, by promoting efficiency in operations, and by cheapening in numberless ways the cost of the service. At the same time the traffic has been developed in a diligent, systematic and persistent way, so that though (owing to the fall in rates) the yield per unit of traffic has heavily declined, the aggregate number of units moved has in even greater degree been increased. In the anthracite coal trade, on account of the peculiar conditions existing, there was of course no chance for an expansion in revenues. We have already pointed out that the earnings from that traffic in 1897-8 were \$124,026 less than those for 1896-7, and as compared with the year preceding the decrease is still larger. In fact the revenue from coal freights in 1897-8 was the smallest of any year since 1893-4.

But when we look at the other classes of traffic, we see in what a noteworthy manner the business of the road has been added to. The earnings from the general freight have increased each year since 1894 with but one exception. Starting with \$5,982,857 in 1894 (which of course was a very low year with the roads everywhere) the total in 1895 was \$6,849,062, in 1896 \$7,472,104, in 1897 \$7,403,471 and in 1898 \$7,571,978. This is the record too, it should be remembered, in face of declining rates. In the passenger traffic the growth has been no less striking. The passenger revenues in 1894 were \$2,104,677, in 1895 \$2,316,540, in 1896 \$2,556,535, in 1897 2,672,547, in 1898 \$2,718,838. So, too, many of the smaller items of traffic have been steadily, even if slowly, expanding.

In these various ways the income of the Railroad Company has been raised, so that the aggregate of the gross earnings for 1898 at \$19,742,538 compares with only \$17,330,593 in 1894. Through increased economy and efficiency in operations the growth in net earnings has been proportionately much heavier even than that in the gross. In the interval since 1894 the total of the net has risen from \$4,009,764 to \$5,554,310, an addition of not far from 40 per cent. In the same four years the ratio of expenses to gross earnings has been lowered each year. It was 76.86 per cent in 1894, 75.56 per cent in 1895, 74.89 per cent in 1896, 73.69 per cent in 1897 and 71.87 per cent in 1898. During the last two of these years the *amount* of the expenses has actually been reduced over half a million dollars, notwithstanding the contemporaneous large increase in the volume of traffic moved.

The most gratifying feature in connection with this reduction in expenses and the lowering in the operating ratio is that coincidentally the management have been able to spend enlarged sums on maintenance and renewal account. For maintenance of way more was appropriated in 1898 than in any of the four preceding years, with one exception, while for maintenance of equipment the allowance was far in excess of that of these earlier years. As a matter of fact, the equipment appropriation has been steadily and

largely increased year by year, until for 1898 the outlay on that account was \$3,126,027, against only \$2,028,327 for 1894.

The saving has been entirely in the cost of conducting transportation, thus reflecting genuine economy and showing the advantages resulting from the recent improvements on the property. In 1894 the transportation cost was \$8,872,479, in 1895 \$8,784,188, in 1896 \$9,230,031, in 1897 only \$8,647,390, while in 1898, with the heaviest traffic ever known, it was but \$8,242,906. One way in which this saving has been made possible is indicated in the fact that the road reports an average train-load for the late year of close to 384 tons—383.87 tons. What an exceptional figure this is will appear when we say that the average of the New York Central for the year ending June 30 was 299 tons, that of the Erie for the same year 300 tons, that of the Baltimore & Ohio for the six months to June 30, 314 tons, that of the Lake Shore for the calendar year 1897 321 tons, and that of the Great Northern for the twelve months ending last June 318 tons. In fact, the average is better even than the very remarkable record established by the Chesapeake & Ohio in its last fiscal year, namely 379 tons.

Gratifying as these achievements are, the management expect still better results hereafter. It is their intention to continue making liberal expenditures with this end in view. Here is their announcement of policy as contained in the report.

The policy of the present management has been, and for some time to come must continue to be, in the line of liberal, and perhaps unusual, expenditures on both road-bed and equipment, in order to adapt the property to the most economical operation.

Substantially all the business of the company is competitive, or governed by competitive rates, and a study of the figures in this report (and especially a comparison of them with figures in previous reports) will show that rates are steadily and rapidly declining. To derive any profit from them the railway must be so improved in its characteristics as to be able to work much more cheaply than ever before.

The companies with which the Lehigh Valley Railroad is in competition have been adapting themselves to like requirements for many years; but the Lehigh Valley Railroad having done less in these respects until recently, must now proceed with greater activity.

The special changes contemplated during the present year are: (1) the substitution of heavy engines for some of the lighter ones, so as to admit of heavier train loads; (2) lengthening of sidings, &c., to hold the longer trains; (3) strengthening of bridges to carry heavy engines; (4) concentration of shop work; (5) continued improvement of equipment. Every dollar expended for these purposes is in the direction of ultimate, and to some extent immediate, economy of operation.

There can be no doubt of the correctness of the position here outlined. The Lehigh Valley is well situated, it has good grades, and it can be operated with great economy if plant and rolling stock are raised to the highest standard of efficiency. We see that much has already been accomplished in that direction. It is the opinion of the managers that more remains to be done in the same direction. In this way it is their opinion the train-load can be increased still further, thus insuring even greater economy in operation. Attention the current year, we understand, will be devoted mainly to improving the railroad property. As far as the mines are concerned, the large expenditures for improvements made in the late year it is believed "will obviate the necessity for unduly large expenditures in the present fiscal year" on that account.

## THE LATE YEAR'S FOREIGN COMMERCE.

It is difficult to speak of the late year's foreign commerce without using superlative forms of expression. But never was the superlative form more clearly justified. The showing for December furnishes a fitting close to a year that was remarkable all through. The merchandise exports for that month excelled by 7½ million dollars the total for November, which itself had surpassed all previous records. In brief, the exports reached the unprecedented sum of \$137,247,448. The magnitude of the balance in the country's favor was no less striking and exceptional. The merchandise imports amounted to only \$53,821,489, and hence there was an excess of exports in the striking sum of 83½ million dollars. It is needless to say that such a large monthly balance is wholly unexampled. Indeed, there have been many occasions in the past when the credit in our favor has not been as large as this for a whole period of twelve months.

When we come to the statement for the calendar year, we are dealing with figures of such magnitude it is difficult for the mind to grasp them, though it is easy enough to see their import. The aggregate of the merchandise exports for the twelve months reaches the impressive total of (roughly) 1,255 million dollars. Never before in any period of twelve months have we exported goods and commodities to such a large aggregate amount. The nearest approach to it was in the fiscal year ended last June, when the exports amounted in value to 1,231½ million dollars. And the result is all the more noteworthy because it was deemed wholly unlikely that this aggregate for the fiscal year would be, or could be, duplicated in the calendar year, since it was based on breadstuffs shipments of unprecedented amount made at high prices, while these prices (at least as to wheat) had heavily declined. But the breadstuffs shipments were fully maintained (and even increased in some cases, as we shall presently see,) as far as quantity is concerned, while the loss in value was made good in other ways. Here are the totals of the merchandise imports and exports for each calendar year since 1869.

MERCHANDISE EXPORTS AND IMPORTS (CALENDAR YEARS).

Calendar Year.	Exports.	Imports.	Excess.	Total Foreign Trade.

Before proceeding with our analysis, it may be well enough to correct an erroneous statement that has been made in the current discussions of these extraordinary results. It has been stated that our exports for the twelve months have exceeded those of Great

Britain for the same twelve months. The statement is true only in a qualified sense. Large though our export trade has been, it was not equal to that of the United Kingdom. Taking domestic produce alone, the United States exports run ahead of those of Great Britain in quite a considerable sum. On the other hand making the comparison on the same basis as the United States figures—that is, with the domestic and foreign produce combined—the British aggregate exceeds ours in amount of at least 170 millions, though the exact official data have not yet come to hand.

But even if we do not enjoy the distinction of out-ranking the United Kingdom, our export movement is remarkable enough, as has already been indicated. As compared with only three years before, the total, at 1,255 million dollars, marks an addition of over 50 per cent. Nor has the expansion been merely in our shipments of the leading staples, like cotton, breadstuffs, provisions, etc. These have been of extraordinary, and in some instances of unprecedented, dimensions. But the most striking feature of the recent outward trade has been the growth in our shipments of manufactures and of general and miscellaneous goods and articles. This fact is clearly brought out in the following table, showing that while since 1895 the export values of the leading staples have risen from 535 to 813 million dollars, the rest of the exports rose at the same time from 289 to 442 million dollars. This latter movement of course was made possible by the low prices at which we have been selling our goods and commodities, through the economies which the recent years of depression have enforced, thus opening to us the markets of the world.

EXPORTS OF LEADING PRODUCTS FOR SIX CALENDAR YEARS.

Exports.	1898.	1897.	1896.	1895.	1894.	1893.

All other, exp.	442,026,313	398,291,701	352,467,566	290,690,678	275,385,319	284,112,552
Total.....	1,254,925,169	1,099,709,015	1,005,837,241	824,860,136	825,102,248	875,831,848

The value of the cotton shipments in the foregoing at \$232,626,426 is a little larger than the similar total for the late fiscal year, which was \$230,650,422, but it is not quite equal, it will be seen, to the total for the calendar year 1896. Yet in quantity the cotton shipments of 1898 have never previously been even approached. In the fiscal year ending June 30 1898 we sent out 7,581,004 bales of cotton. But in the calendar year 1898 we sent out 8,146,617 bales, which compares with 6,455,319 bales in the calendar year 1897, 6,030,535 bales in 1896 and but 5,515,591 bales in 1895. The value of the breadstuffs' exports at \$317,755,833 for the calendar year compares with \$333,897,119 for the fiscal year, but has otherwise been unequalled. Had it not been for the decline in the price of wheat, the calendar year total would stand entirely surpassed, for the flour and wheat shipments, at 223,198,339 bushels, are in excess of those for the late fiscal year, while the corn shipments, at 207,238,927 bushels, fall but little below those for that period.

The import trade has developed features no less striking and significant. Our imports for the calendar year have aggregated only 633 million dollars, against 742 million dollars in 1897 and 801 million dollars in

1895. The total is actually the smallest since 1885, and, leaving out this last-named year and 1884, is the smallest since 1879. No doubt the recent severe period of depression through which the country passed induced our people to practice great economy, and the war with Spain, for which 1898 is distinguished, did not tend to a revival of the import trade; but presumably the chief reason for the falling off has been the fact that in so many lines of goods the domestic article is displacing foreign-made goods.

With the imports so small and the exports phenomenal in extent, the trade balance in the country's favor for the calendar year exceeds even that recorded in the fiscal year, and reaches the imposing figure of 621 million dollars. Stated in another way, our exports, in value, have been nearly double the imports. As a result of such conditions we received larger or smaller accessions to our stock of gold in every month of the year, and imported gross for the twelve months 158 million dollars and net nearly 142 million dollars of metal, both the largest totals on record. We annex the following to show the gold and silver movement for each year since 1869.

## GOLD AND SILVER IMPORTS AND EXPORTS.

Year Ending Dec. 31—	Gold.			Silver.		
	Exports.	Imports.	Excess of Exports (+) or Imports (-).	Exports.	Imports.	Excess of Exports (+) or Imports (-).

1898.....	18,194,954	158,036,252	-141,841,298	53,767,104	2,029,721	+51,737,383

NOTE.—For years 1886 to 1898 inclusive the figures embrace gold and silver in ore; in the years preceding both were included in the merchandise movement.

One other statement seems necessary to complete the record. We have stated that the net import movement of gold in the late year reached nearly 142 million dollars. But this was not only a small way to liquidate the large balance owing to us on the merchandise movement. Combining the merchandise trade with the gold movement, and also taking into account the silver movement, exports still exceed imports in the sum of over 504 million dollars. Here is a table made up on this basis and covering the last five years.

## YEARLY TRADE BALANCE.

	1893.	1897.	1890.	1895.	1891.
Excess of—					
Merchan. exports.....	\$21,236,535	\$57,113,816	\$24,287,683	\$23,190,789	\$18,789,307
Silver exports.....	21,767,880	25,578,990	33,777,001	29,837,730	20,612,213
Total.....	43,004,415	82,692,806	58,064,684	53,028,519	39,401,520
Gold imports.....	131,811,298	*255,809	4,474,389	*70,571,010	*30,499,128
Grand total.....	\$94,815,713	\$82,948,615	\$31,590,317	\$123,597,538	\$69,900,648

\* Excess of exports.

It will be seen that besides the 504 millions excess for 1898 there was an excess of 383 millions for 1897 and of 311 millions for 1896, making for the three years together a grand aggregate only a little less than 1,200 million dollars. Without attempting now to go into the question how much of this must be regarded as offset by the yearly amounts due by us for interest, freights, &c., it is sufficient to say that in this extraordinary balance we have the key to the state of our foreign exchange market and confirma-

tion also of the current reports that large amounts of American capital are being loaned in one way or another at the European centres.

## RAILROAD NET EARNINGS FOR NOVEMBER.

Our compilation of the gross and net earnings of United States railroads for the month of November which we give to-day reveals the same characteristics as the statements for the months preceding. The only difference is that the improvement is more moderate, and this is natural, following, as it does, from the circumstances as to the comparison. In the gross the increase reaches \$2,992,813, or 3.71 per cent, in the net \$754,391, or 2.57 per cent, as will be seen by the following.

	November. (135 roads.)			January 1 to November 30. (126 roads.)		
	1898.	1897.	Increase.	1898.	1897.	Increase.
Gross earnings.....	\$3,750,407	\$9,757,594	\$2,992,813	\$770,392,435	\$721,073,078	\$49,319,357
Oper. exp.....	53,801,629	61,382,101	2,234,422	528,744,067	493,713,002	35,031,065
Net earnings.....	\$3,149,878	\$9,395,493	\$754,391	\$241,648,368	\$227,360,076	\$14,288,292

We have stated that a smaller improvement now is natural. It is not necessary to go over again the ground covered in the review of the incidents and events of the month contained in our issue of December 10, such as the interruption to trade caused by the general elections, the severe weather experienced in certain parts of the country, etc. One important fact, however, should not be lost sight of: comparison is with earnings in the preceding year which recorded an amount of improvement greater than that disclosed in any similar compilation ever published by us. In the gross the increase then was \$11,321,425, or 17.28 per cent; in the net, \$5,866,061, or 26.04 per cent. The present year's gains come on top of these extraordinary gains in 1897. The following carries the comparisons back for a series of years.

Year and Number of roads.	Gross Earnings.			Net Earnings.		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
November						
1893 (131)	\$6,739,020	\$2,113,848	-\$4,625,172	\$2,305,293	\$2,204,823	-\$100,470
1894 (117)	\$6,838,820	\$3,037,146	-\$3,801,674	\$2,114,091	\$2,130,261	-\$116,170
1895 (139)	\$1,085,304	\$8,910,401	+\$7,825,097	\$2,019,233	\$2,407,057	-\$387,824
1896 (184)	\$7,217,258	\$2,835,707	-\$4,381,551	\$1,908,027	\$2,879,683	-\$971,656
1897 (139)	\$6,228,890	\$5,507,471	+\$721,419	\$2,391,817	\$2,525,748	-\$133,931
1898 (135)	\$3,750,407	\$9,757,594	+\$6,007,187	\$3,149,878	\$9,395,493	+\$6,245,615
Jan. 1 to Nov. 30.						
1893 (121)	\$24,890,987	\$40,133,807	-\$15,242,820	\$100,382,490	\$207,508,742	-\$107,126,252
1894 (139)	\$77,914,462	\$58,059,740	-\$19,854,722	\$172,589,811	\$202,943,182	-\$30,353,371
1895 (128)	\$94,954,896	\$68,239,701	-\$26,715,195	\$190,023,471	\$170,853,814	-\$19,169,657
1896 (123)	\$58,634,444	\$81,185,137	-\$22,550,693	\$181,076,688	\$185,000,336	-\$3,923,648
1897 (12)	\$72,913,014	\$34,670,030	-\$38,242,984	\$218,053,410	\$191,351,556	-\$26,701,854
1898 (123)	\$75,392,455	\$21,073,071	-\$54,319,384	\$219,643,444	\$230,330,016	-\$10,686,572

Among the separate roads the returns are in keeping with the conditions outlined above. The gains are not so large or pronounced as in many other months, and there are some fair-sized losses in the net occasioned either by the unsatisfactory condition of rates, bad weather, or a disposition to be more liberal in the matter of expenditures.

## PRINCIPAL CHANGES IN GROSS EARNINGS IN NOVEMBER.

Increases.		Decreases.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—Among the events of the week in banking circles was the retirement of Mr. Richard B. Ferris from the vice-presidency of the New York National Banking Association. Mr. Ferris entered the service of the bank as check clerk in 1849, and at the time of his retirement he had completed fifty years of continuous service in the institution, filling every official position up to and including that of Vice President. He assumed the duties of the last named office January 12, 1892, holding that position seventeen years. In recognition of his services the directors of the bank passed highly complimentary resolutions, at the same time voting him a liberal pension. Mr. Ferris is succeeded as Vice President by Mr. J. L. Riker, Second Vice President. Mr. E. S. Mason, now President, succeeded Mr. Ferris as Cashier, and on the death of Mr. Fry, was made President.

—Mr. David Dows, Jr., who died this week at the age of forty-two, was one of the directors of the Corn Exchange Bank, of which his father was also a director.

—At a recent meeting of the board of directors of the Hamilton Bank of New York City, Mr. Edwin S. Schenck, Vice-President and Cashier, was elected to the presidency, to fill the vacancy caused by the resignation of Mr. William S. Gray, whose private business makes it impossible for him to attend to the duties of bank president, although he will still remain a director. Mr. Frederick B. Schenck, the President of the Mercantile National Bank of the City of New York, was unanimously elected Vice-President. The new President entered the Hamilton Bank as Assistant Cashier shortly after the consolidation with the Bank of Harlem, and has been promoted through the various steps of Cashier and Vice President. He is well known to all of the bank's dealers, and has the distinction of being the youngest bank president in the city of New York.

—Mr. Henry R. Ickelheimer, of the well-known foreign exchange banking house of Heidelberg, Ickelheimer & Co., has been elected a director of the Importers & Traders' National Bank, of which his father, Mr. Isaac Ickelheimer, of the same firm, was one of the original directors, so continuing until his death. Mr. Henry R. Ickelheimer is only about 35 years old, but nevertheless is thoroughly equipped for the duties of the position.

—A. B. Hepburn, former Comptroller of the Currency, and until this week Vice-President of the National City Bank, resigned from that position on Tuesday and the following day entered upon the discharge of his duties as Vice-President of the Chase National Bank, to which he was recently elected, taking the place of Mr. William H. Porter, who, as was announced in this column a few weeks ago, was elected Active Vice-President of the Chemical National Bank. Mr. Hepburn has had a long and valued experience in banking, and the Chase National will enjoy the distinction of having for its chief executive officers two ex Comptrollers of the Currency, Henry W. Cannon being the President of the bank. Previous to his connection with the City National, Mr. Hepburn was, it will be remembered, President of the Third National, which bank was absorbed by the City.

—It was officially announced on Wednesday by the Cashier of the National City Bank, Mr. G. S. Whitson, that Mr. A. B. Hepburn had resigned as a Vice-President, and that Messrs. Walter H. Tappan, Arthur Kavanagh, Horace M. Kilborn and James A. Stillman had been appointed Assistant Cashiers. Mr. J. Ross Curran, Assistant Cashier, will shortly sever his connection with the City National Bank, to take the presidency of the City Trust Company of New York. This institution will have a capital of \$1,000,000 and a surplus of the same amount, and will be located at 85 Wall Street.

## Monetary &amp; Commercial English News

[From our own correspondent.]

LONDON, Saturday, January 7, 1899.

Monday was a holiday upon the Stock Exchange, and when the members re-assembled on Tuesday morning they began to put up prices in every direction, more particularly American and copper shares. But very soon selling began from Germany and France. Business eased off, and prices declined; and the market has been dull ever since.

Last week the Bank of France gave notice to the other great French banks that it would not discount financial bills, the intention being to compel these banks to withdraw the money they have been so long employing in financing speculation in Germany. Instantly the banks gave notice that they would withdraw the money, and the German banks naturally made immediate preparations to meet the demand. They sold on a large scale, particularly American securities, certainly here in London, and it is said likewise in New York.

Fortunately the Bank of France waited until the last week of the old year to take this very drastic measure. If it had compelled the withdrawal of much French money earlier, in all probability it would have precipitated a crisis in Berlin. But this week money is returning from the interior to the branches of the Imperial Bank all over Germany, and thus the banks are able to meet the extraordinary demand of the French banks.

The best opinion seems to be that by the end of this month the greater part of the money due to France will be repaid, and that there will be no serious troubles. Some failures are reasonably to be expected and there will be a large lock-up. But the worst speculation was in the shares of industrial companies, and these companies, speaking generally, are sound and pay good dividends. At the worst, therefore, they can be nursed by the large banks. They cannot be sold abroad, of course, to any extent; but it is believed that Germany is able to dispose of enough of American, Russian and similar securities to provide itself with the funds that it immediately needs.

More serious, however, than the position in Germany is the critical state of things in France. As soon as it became known that the Bank of France refused to discount financial bills the public in Paris jumped to the conclusion that the Bank had reason to know that war with England was impending. The jingling press in Paris ever since the Fashoda affair has been trying to make the public believe that the British Government wants to force France into a war. The statement is absolutely without foundation. There is not the slightest desire of that kind in any class in this country. All that is really asked of France is that she shall act toward us as we are prepared to act towards her. But the press has so impregnated the public with the notion, that when it was found that the Bank of France would not discount any bills intended to finance speculation in Germany, the public imagined war with England was imminent.

Depositors in France, in consequence, have been withdrawing deposits from the banks and even from the official savings banks. The withdrawals last week amounted to two millions sterling, or 10 million of dollars, and it is said that the more careful are beginning to remit money to London so as to make sure that it is perfectly safe. No doubt the public is largely influenced by the internal condition of the country. At any moment there may obviously be a military coup d'état, or an attempt at one, or there may be a public rising. At all events, when even the humblest, the people who deposit in the savings banks, have lost confidence in the Government institutions to the extent that they are withdrawing

their money from the savings banks, it is evident that the position is becoming exceedingly grave. The banks, finding the depositors demanding their money, have borrowed and discounted during the week ended Wednesday night from the Bank of France over five millions sterling, or more than 25 million dollars, and the note circulation of the Bank of France has increased by more than 25 million dollars in the same week.

The position being such, it is little wonder that business should be checked all over Europe and that the high hopes which were formed as the old year drew to a close are dashed for the time being. In spite of everything it seems safe to predict that there will be no war between this country and France. But whether there will be internal trouble no man can say.

For the time being money is very plentiful and easy, as it was sure to be. The payment of interest and dividends in London during the first week of January are upon an extraordinary scale. On one day—Monday, the 2nd—one single London house paid out in interest and dividends five million dollars, or a million sterling. Last week the great houses were collecting funds to make these payments and so caused a temporary stringency. This week the paying out of the funds has enabled the open market to repay what it borrowed from the Bank, and money is quite easy. Probably the ease will continue for a week or two. For the payments will go on all through the month. But the collection of the revenue will very soon now accumulate immense sums in the Bank of England. As was reasonably to be expected from the flourishing state of trade, the revenue is coming in even better than the most sanguine expected. It is far exceeding the estimates of the Chancellor of the Exchequer, and in the last quarter of the financial year—our financial year ends on March 31—the proportion of the taxes collected is much greater than in any other three months.

Therefore exceptional sums will begin to accumulate in the Bank of England about the end of this month or early in February. It is difficult to fix a date because the Government may have to make payments for ships or similar things which nobody can foresee, and of which nobody is aware outside of the Government offices. But in ordinary years the Bank of England begins to get control of the open market about the end of January or the beginning of February, and its control increases until the middle of March. This year there are special reasons why the Bank should endeavor not only to obtain control but to exercise it to the fullest extent. In the first place, its stock of gold is small, considering the great activity of trade and the demands it has to meet from all quarters. In the second place the United States can, if it pleases, take an immense amount of gold. In the third place, the Imperial Bank of Germany may be compelled to take gold, owing to the position of things as explained above, and gold is sure to go to South America, especially to Argentina, to move the crops, which are large, and may go to India, where the money market is becoming tight.

This week the Bank of Bengal raised its rate from 6 per cent to 7 per cent. And it is evidence of the great desire of the exchange banks to supply themselves in time with funds to meet the export season, which is now beginning in full swing, that while the India Council offered for tender only 60 lacs of bills on Wednesday, the applications were for a little more than 12½ times as much. The whole amount offered was allotted at 1s 4 1-32d per rupee. A small amount was subsequently sold by private contract at 1s 4 1-16d per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols &c., compared with the last three years:

	1899. Jan. 4	1898. Jan. 5.	1897. Jan. 6	1896. Jan. 5.

Measrs. Pixley and Abell write as follows under date of Jan. 5:

Gold.—The demand was in a fair way to die out at one time, but, with an American inquiry coming forward, none of the recent arrivals have reached the Bank. The advance by the Bank before Christmas has now been repaid. The Bank has bought £150,000 and sold £176,000 in sovereigns for South America. Arrivals: South Africa, £494,000; India, £152,000; total, £676,000.

Silver.—With a good deal of selling the market has declined to 27½d., and at this level India has bought somewhat freely. Indian price Rs. 69½. Arrivals from New York, £291,000. Shipments: Bombay, £45,000; Hongkong, £4,300; total, £39,300.

Mexican Dollars.—No dealings during the week. Shipments to Hongkong, £80,080.

The quotations for bullion are reported as follows:

#### Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods Jan. 12 and for the week ending for general merchandise Jan. 13; also totals since the beginning of the first week in January.

##### FOREIGN IMPORTS AT NEW YORK.

For week.	1899.	1898.	1897.	1896.
Dry Goods.....	\$1,637,555	\$2,422,030	\$2,672,915	\$3,031,933
Gen'l mer'dise.....	7,281,536	4,119,189	8,168,086	6,289,156
Total.....	\$8,919,091	\$6,571,219	\$10,841,001	\$9,330,139
Since Jan. 1.				
Dry Goods.....	\$3,894,661	\$4,312,182	\$4,687,188	\$6,215,059
Gen'l mer'dise.....	14,393,689	11,437,373	15,920,735	14,030,046
Total 2 weeks.....	\$18,788,350	\$16,249,555	\$20,607,923	\$20,268,105

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 16 and from January 1 to date:

##### EXPORTS FROM NEW YORK FOR THE WEEK.

	1899.	1898.	1897.	1896.
For the week.....	\$13,742,687	\$9,569,887	\$9,092,204	\$8,076,167
Prev. reported.....	11,802,705	7,989,491	8,792,649	9,538,642
Total 2 weeks.....	\$25,545,392	\$17,559,358	\$17,884,853	\$17,614,809

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 14 and since January 1, 1899, and for the corresponding periods in 1898 and 1897.

## EXPORTS AND IMPORTS OF SPECIM AT NEW YORK.

Gold	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....				
France.....				
Germany.....				
West Indies.....	\$118,296	\$1,169,338	\$5,014	\$10,203
Mexico.....			30,091	30,081
South America.....		5,000	8,719	17,568
All other countries.....				2,350
Total 1899.....	\$118,296	\$1,173,338	\$43,514	\$60,202
Total 1898.....	524,040	546,940	224,865	1,045,709
Total 1897.....	62,100	98,900	11,672	143,738

Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$955,385	\$1,840,540		
France.....	52,450	82,450		
Germany.....				
West Indies.....	30,000	42,000	\$21,971	\$21,935
Mexico.....			20,384	20,384
South America.....			27,495	36,231
All other countries.....				3,578
Total 1899.....	\$1,067,835	\$1,964,990	\$49,366	\$82,132
Total 1898.....	873,565	1,747,974	61,050	214,114
Total 1897.....	813,000	1,437,544	45,909	77,089

Of the above imports for the week in 1899 \$760 were American gold coin and \$3,295 American silver coin. Of the exports during the same time \$59,400 were American gold coin and \$17,000 were American silver coin.

**Reports of Non-Member Banks.**—The following is the statement of condition of the non-member banks for the week ending Jan. 14, based on averages of the daily results. *We omit two ciphers (00) in all cases.*

WALL STREET, FRIDAY, JAN. 20, 1899.—5 P. M.

**The Money Market and Financial Situation.**—A volume of business second only to that of last week, and notwithstanding some brief periods of general reaction, a net advance in prices which is most conspicuous in high-grade railway issues, are the principal features of the week at the Stock Exchange. So far as there is any change in the general situation it favors the conditions noted. About the only change, however, is the easier money markets abroad, which has resulted in lower discount rates by the Imperial Bank of Germany and the Bank of England. Easier money at Berlin and London has a tendency to stimulate activity at those centers, which is felt in a greater or less degree in Wall Street, but it is no doubt true that activity in American securities at London has much less significance than formerly, as New York houses are reported to be using the cable freely to facilitate their own operations.

The foreign trade statement for December and for the year 1898, which has been given out this week, contains facts which are most interesting and encouraging. The statement shows that the exports for the periods mentioned are larger than for any month and year in our history and that the imports for the year are smaller than during any year since 1885. Notwithstanding the steadily increasing trade balance in our favor, the foreign exchange market has been firm through the week, as noted below. This fact is no doubt due in large measure to the easy money markets at home and abroad.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 per cent. To-day's rates on call were 2 to 2½ per cent. Prime commercial paper quoted 2½ to 3½ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £988,097, and the percentage of reserve to liabilities was 44.80, against 40.65 last week: the discount rate was reduced from 4 to 3½ per cent. The Bank of France shows an increase of 3,925,000 francs in gold and 1,375,000 francs in silver.

The New York City Clearing-House banks in their statement of Jan. 14 showed an increase in the reserve held of \$6,968,700 and a surplus over the required reserve of \$28,263,075, against \$23,530,375 the previous week.

	1899 Jan. 14	Differ'n' fr'm Prev. week.	1898 Jan. 15	1897. Jan. 16.

**Foreign Exchange.**—The market for foreign exchange hardened on lower discount rates abroad and a somewhat better inquiry for demand sterling bills. Rates are fractionally higher.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 82½@4 83; demand, 4 84½@4 85; cables, 4 85½@4 85½; prime commercial, sixty days, 4 82½@4 82½; documentary commercial, sixty days, 4 81½@4 82½; grain for payment, 4 82@4 82½; cotton for payment, 4 81½@4 81½; cotton for acceptance, 4 82½@4 82½.

Posted rates of leading bankers follow:

	Jan. 20.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 83½	4 85½@4 86	
Prime commercial.....	4 82½@4 82½		
Documentary commercial.....	4 81½@4 82½		
Paris bankers' (france).....	5 22½@211½	5 19½@19½	
Amsterdam (guilders) bankers.....	39½@39½	40½@40½	
Frankfort or Bremen (reichmarks) b'kers	94½@94½	94½@94½	

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 75c. per \$1,000 premium; Charleston buying par, selling 1½ premium; New Orleans, bank, \$1 00 premium; commercial, 25c. premium; Chicago, 10c. per \$1,000 premium; St. Louis, par.

**United States Bonds.**—Sales of Government bonds at the Board include \$11,500 4s. comp., 1-25 at 129 to 129½; \$8,000 4s. comp., 1907, at 112½ to 113; \$91,500 4s. reg., 1907, at 112 to 112½; \$5,000 3s. reg., at 107 to 107½; \$121,400 3s. comp., at 107½ to 108, and \$3,200 ditto (small bonds) at 107½ to 107¾. The following are the daily closing quotations: for yearly range see seventh page following.

4s, (Cher.) 1899, reg.	March.	102½	102½	102½	102½	102½	102½

\* This is the price bid at the morning board; no sale was made.

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$32,000 Virginia fund, debt 2-3s of 1891 at 85 to 85½; \$55,000 Virginia 6s deferred trust receipts, stamped, at 8; \$5,000 Louisiana con. 4s at 109½, and \$4,000 Tennessee settlement 3s at 96½ to 96¾.

The daily transactions in railway bonds have been nearly up to the unusually large average of last week, and the same general characteristics of the market are prominent. These are the absence of high-grade issues, the general upward tendency of prices and an exceptional advance in some issues. The latter movement was led by Fulton Elevated 1sts, which sold on Thursday at 74¾, against 60 asked at the close last week. The most conspicuous exception to the upward tendency were Kansas City Pittsburg & Gulf 1sts, which declined 4 points.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

	Week ending Jan. 20.	Jan. 1 to Jan. 20.	1898.
N. Y. Stock Exch.	1899.	1898.	1898.
Government bonds	\$240,700	\$191,000	\$1,359,440
State bonds.....	102,100	21,000	202,100
R.R. & misc. bonds.	35,757,700	20,389,000	88,470,900
Total.....	\$36,100,500	\$20,491,000	\$90,033,440
Stocks—No. shares	5,702,384	2,015,614	14,435,168
Par value.....	\$553,839,350	\$199,614,450	\$1,397,491,900
Banks shares, par val.	1,450	8,200	27,250
Total.....	\$553,839,350	\$199,614,450	\$1,397,491,900

We add the following daily record of the transactions:

	Week ending Jan. 20.	Shares.	Par value.	Railroad, Ac.	State Bonds.	U. S. Bonds.
Saturday.....	695,944	\$68,992,400	\$3,381,500	\$54,000	\$14,500	
Sunday.....	1,088,598	105,098,350	4,718,000	17,000	184,000	
Tuesday.....	758,757	71,980,550	5,475,000	17,000	32,000	
Wednesday.....	839,057	81,278,850	5,214,500	8,000	4,800	
Thursday.....	1,098,799	108,711,950	7,603,200	5,900	4,300	
Friday.....	1,242,200	121,577,250	9,171,500	8,100	21,200	
Total.....	5,702,384	\$553,839,350	\$35,757,700	\$102,100	\$240,700	

The sales on the Boston and Philadelphia Exchanges were:

	Listed shares.	Unlisted shares.	Bond sales.	Listed shares.	Unlisted shares.	Bond sales.
Saturday.....	98,934	8,861	\$178,700	46,315	1,769	\$91,000

Friday.....			Telegram not received.	46,037	47,570	\$207,400
Total.....				300,808	186,187	\$1,807,830

**Railroad and Miscellaneous Stocks.**—Except some reaction during the early part of the week, the stock market has been strong and the volume of business nearly equal to that of last week, to-day exceeding all previous records.

There was considerable irregularity in the movement of prices, but evidence that a large proportion of the buying was legitimate and substantial in character is seen in the advance of such stocks as Pennsylvania, New York Central, North West, and other leading granger issues. Burlington & Quincy led the movement in an advance of 9½ points on rumors of progress with refunding plans. These plans are in contemplation but not likely to mature in the near future.

The Atchison issues were among the most active and the preferred gained about 5 points. Manhattan Elevated was erratic, covering a range of nearly 10 points in its fluctuations, and closing with a net gain of about 8 points.

The miscellaneous list received considerable attention, and with more or less irregularity followed the general course of the market. New York Air Brake made a sensational advance of 26 points, nearly all of which it has retained. American Steel & Wire issues followed, with a gain of about 13 and 14 points for the common and preferred, respectively.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every steam railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

a These figures include results on leased lines. b Includes earnings from ferries, etc., not given separately. c Includes Des Moines & Kansas City for all periods. d Includes operations of the Chic. Burlington & Northern in both years. e Includes results on A. T. & S. Fe. Gulf Col. & 4. Fe. S. Fe. Pacific and Atlantic & Pacific and So. Cal. Ry. f Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. g Beginning July, earnings of Memphis Division and Middlesborough & Alton branches are included for both years. h Results on Clin. Lebanon Northern are included from September 1 in both years. i Traffic suspended on account of Yellow Fever.

\* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio So'western for both years, but Ohio Valley and Chicago and for Texas 1898 only. Results on Yazoo Branch excluded after July 1, 1898.

‡ Mexican currency.

§ Covers results of lines directly operated east of Pittsburg.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the second week of January our preliminary statement covers 57 roads, and shows 4.27 per cent increase in the aggregate over the same week last year.

2d week of January.	1899.	1898.	Increase.	Decrease.

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations—see page 125.

	Gross Earnings.		Net Earnings.

York Southern, b (continued)—				
July 1 to Nov. 30....	32,237	33,339	10,604	13,583

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in November was \$135,533, against \$86,081 last year, and from January 1 to Nov. 30 \$1,182,214, against \$1,270,892. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.

d After July 1, 1897, expenses include taxes.

e The company's policy is to spend entire net earnings for betterments such as ballasting, new rails, etc.

f Thirty per cent of gross earnings.

g After allowing for other income received, net from July 1 to November 30, 1898, was \$25,061, against \$245,370.

h Includes results on Des Moines & Kansas City for all periods.

i Includes besides the entire Pacific System and the Atlantic properties, the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.

k Figures for November, 1898, are estimated.

l Figures beginning with July, 1897, include At. T. & S. Fe, Gulf Col. & Santa Fe Pacific (old Atlantic & Pacific) and So. California Ry., but not Sonora Ry. and N. M. & Arizona, which previous to July had been included.

m For Nov., 1898, taxes and rentals amounted to \$142,192, against \$146,307, and from July 1 to Nov. 30, \$711,325, against \$711,908, after deducting which net for Nov., 1898, was \$1,291,957, against \$1,227,356. From July 1 to Nov. 30, 1898, net after deducting taxes and rentals is \$4,256,806, against \$4,401,101.

n Includes Chesapeake Ohio & Southwestern from July 1, 1897, Ohio Valley from August 1, 1897, and Chicago & Texas from October 1, 1897, but does not include the Yazoo Branch after July 1, 1898.

o Including income from ferries, &c.

### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

## ANNUAL REPORTS.

**Annual Reports.**—The usual index is omitted this week but that published in the CHRONICLE of Dec. 31 covers all reports published to Dec. 24, inclusive.

### Lehigh Valley R.R.

(Report for the year ending Sept. 30, 1898.)

The remarks of President Alfred Walter, from the annual report, and other information relating to the Railroad Company and the Coal Company, are given on pages 132 to 137 of to-day's CHRONICLE. Below we compare the balance sheets for three years and in the CHRONICLE of Jan. 14, on page 32, will be found comparative tables of operations, earnings, etc.

### Choctaw Oklahoma & Gulf Railroad.

(Report for year ending Oct. 31, 1898.)

President Francis I. Gowen says in substance: **Business.**—The business of the company has been generally satisfactory. The railroad department has shown substantial increases in earnings, and the steadily increasing prosperity of the region through which the road extends, and the increased acreage that is each year put under cultivation, would seem to assure a constant and steady growth in the future business of the company.

**Coal Properties.**—The output of our mines increased from 385,769 tons for the preceding year to 426,538 tons last year, and the outside mines also substantially increased their production over the preceding year, their output being 126,645 tons. The increase in the output of coal, however, has not kept pace with the increased market demands.

**Extensions.**—During the year extensions of the road eastward  $6\frac{1}{2}$  miles to a connection with the Kansas City Pittsburg & Gulf RR. and westward 46 miles from Fort Reno to Weatherford were completed. The operation of the former extension was commenced in the month of September, while full train service over the latter was not inaugurated until about the end of the year. Since the close of the fiscal year, however, the business secured by the westward extension has been most satisfactory, while the large increase in the lumber business of the company is attributable to the extension to the Kansas City Pittsburg & Gulf RR.

**Financial.**—The amounts expended during the year on account of extensions, new equipment, additions and betterments amounted to \$749,247, as follows:—

Eastern extension  $6\frac{1}{2}$  miles, \$92,738; Western Extension to Weatherford, 46 miles, \$408,984; new equipment, \$128,927; preliminary surveys, \$4,572; additions and betterments to railroad, \$70,324; additions, etc., to mines, \$43,763.

The cost of the above was provided for in part by a sale of \$500,000 general mortgage bonds, and of 1491 shares of preferred stock (part of the Treasury assets), which together realized \$520,319, and the balance through the use of the earnings of the past and preceding years.

The property has been kept in good order. During the year 71,900 new cross-ties were put in the track and 8 miles ballasted with rock and cinder; 26 pile openings were filled in, cast-iron pipe being put in to take care of the drainage.

**The Choctaw & Memphis Lease.**—The Choctaw & Memphis RR., when completed, will afford an outlet to the Mississippi River at Memphis. In order to insure permanent control of this line, a lease will be taken by your company for the term of 95 years, upon the following basis:—

Your company will assume no obligations in respect to the construction of the extension, and no obligation will arise under the lease until the extension has been constructed and adequately equipped in conformity with the standard of your own road. The rental to be paid will be all the net earnings of the Choctaw & Memphis RR. up to an amount which shall be equal to the interest on the bonds of that company and a 6 per cent dividend upon its preferred stock and one-half of the surplus net earnings over and above such amount. The remaining one-half of such surplus earnings will be retained by your company; and in consideration of this participation in the earnings of the leased line, your company will guarantee that the annual net earnings accruing to the Choctaw & Memphis Co. shall be equal to the interest on its bonds, and for the first year of the lease to 3 per cent, for the second year to 3 per cent and thereafter to 4 per cent on its preferred stock. The capitalization of the Choctaw & Memphis is not to exceed: bonds, \$12,500 per mile; preferred stock, \$3,250 per mile; common stock, \$6,250 per mile.

If, therefore, the Choctaw & Memphis can earn at the rate of \$75 per mile for the first two years the guaranteed charges will aggregate only \$750 and \$312 50 respectively per

mile), your company will, without cost to itself, derive all the benefits that manifestly will inure from its direct control of a line to Memphis, while if the earnings of that line should exceed \$1,000 per mile, your company will receive in addition a direct pecuniary return from its participation in these earnings. No reason is perceived why, when its business is once established, the earnings of the road should not closely approximate those of your own line, and upon this basis your company should receive a substantial profit. Furthermore, our business through Memphis will doubtless be very considerable, for in connection with the north and south lines which the road now crosses, advantageous routes will be formed for through shipments between Memphis and points east of Memphis, and Texas and Northwestern points. The lease has been duly authorized by both companies.

**Opening of Indian Territory.**—During the year Congress passed an Act, generally known as the Curtis Act, which provides for the allotment of the entire surface of the lands in the Indian Territory among the individual Indians themselves, the allottee to have the power to lease, and, under certain limitations and restrictions, to sell, his allotment. Some time, perhaps a year or more, will be consumed in the preliminary steps, but when allotment is finally completed a substantial agricultural development of the lands should follow. The land is fertile, and the effect within a few years upon the business and earnings of your company should be very material, for out of the total mileage of 273 miles, 148 miles of your line is in the Indian Territory.

**Earnings.**—Earnings, etc., have been:

	1897-8.	1898-7.	1898-6.

#### West Chicago Street Railroad.

(Report for the year ending Dec. 31, 1898.)

President Yerkes said, in substance:

"There were carried on all the lines, including full fares and transfers, 111,916,319, showing that the receipts per passenger carried were 35.5 cents. The mileage of track has not been changed since the last meeting, owing to the fact that the management does not feel that it is prudent to lay any further tracks at the present time. Considerable improvement has been made in the rolling stock, and some new cars added. A considerable amount of track on the South Side, and a small quantity on the West Side, is now being operated only to preserve the franchises. This is owing to the fact that we are not permitted to run electric cars in the district bounded by Fifth Avenue, Van Buren Street, Randolph Street, and the Lake. If permission were given to run cars in the aforementioned district, the facilities with which people could be moved from the heart of the city would be much facilitated. This, we think, will eventually be understood by the city authorities.

"The business of the company is increasing, more particularly in the last few months. The competition of the elevated roads is being felt less than at any time in the past. It is a matter of regret that the increased demand for transportation cannot be met by the street railroad companies, owing to inefficient legislation, as business generally is extremely prosperous, and it looks as if we might expect a considerable increase in our receipts for the coming year."

The earnings, etc., were as follows:

	1898	1897	1896	1895
Passengers carried.....	80,600,505	78,594,932	.....	.....
Receipts from—

—V. 68, p. 86.

#### North Chicago Street Railroad.

(Report for the year ending Dec. 31, 1898.)

President Yerkes said in substance:

The total earnings on the capital stock amounted to 13.65-100 per cent, against (for the previous year) 14.47-100 per cent. This difference in percentage of earnings is owing to the increase of capital stock in the early part of last year; the money realized from that increase going to pay our former indebtedness. The number of passen-

gers carried, including transfers, was 74,391,630, which shows an average of 3.7-10 cents for each passenger carried. During the past year we have not added any miles to our trackage and have made but few improvements, with the exception of the office building, which has been enlarged. There have also been some cars added to our equipment. This has been owing to the fact that the management did not feel warranted in spending money for that purpose at present.

The road, buildings and rolling stock are in first-class condition, as has always been the case. The general business of the country is good and when that condition exists street railways always partake of their share of the prosperity.

**Earnings.**—The earnings, etc., for four years past were:

	1898.	1897.	1896.	1895.
Passengers carried.....	58,422,077	56,351,147	58,523,620	53,897,428
Miles run.....	10,916,737	10,644,270	10,590,036	9,697,326

—V. 68, p. 86

#### Chicago City Railway.

(Report for the year ending Dec. 31, 1898.)

At the annual meeting, Jan. 16, Joseph Leiter, formerly Second Vice President, was made First Vice-President, vice William B. Walker, and D. G. Hamilton was made Second Vice-President. Other officers and directors remain unchanged. The increase in the capital stock from \$13,000,000 to \$14,000,000 was duly authorized. The board debt remains unchanged at \$4,619,500. The miles run in 1897 aggregated 24,378,000 against 24,552,900 in 1893, 21,911,900 in 1895 and 21,047,410 in 1894.

The number of passengers carried and miles run are as follows:

	Passengers carried.				Miles run.	
Chl. City Ry.—	1898.	1897.	1898.	1898.	1897.	
Cable lines.....	38,492,684	41,414,616	46,433,411	11,878,020	12,622,610	
Horse lines.....	477,313	691,051	2,874,631	141,900	198,960

—V. 67, p. 1206.

#### Northwestern Elevated Railroad of Chicago.

(Report for year ending Dec. 31, 1898.)

At the annual meeting of the Columbia Construction Co., President George A. Taillie said:

No work on our structure has been done since our last annual meeting. Foundation work commenced during the month of September and has been practically completed on all the right of way in the control of the company. There remains about 2,215 feet to be put in between Chicago Avenue and Schiller Street.

Negotiations have been going on continuously since our last meeting to place a loan to complete the Northwestern Elevated road in accordance with the plan heretofore authorized, but nothing was accomplished until December, when an arrangement was completed with Blair & Co. of New York, whereby the Northwestern Elevated R.R. Co. secured a loan of \$1,500,000 to pay off all the outstanding obligations of this company, incurred for labor, material and right of way, and to complete the road and put it into operation.

In order to do so, it became necessary to make the following changes namely: Reduce the capital stock of the Northwestern Elevated Railroad Company from \$15,000,000 to \$10,000,000, of which there will be preferred stock, \$5,000,000, common stock \$5,000,000. Authorized bond issue was reduced from \$15,000,000 to \$5,000,000.

The parties making the loan are to receive as a bonus preferred stock, \$1,000,000; common stock, \$1,000,000, leaving to be divided among our stockholders upon the final completion of the road and payment of the loan, of preferred stock, \$1,000,000 and of common stock, \$4,000,000, or about 93.74 per cent of each class of stock upon their holdings of Columbia Construction Company's stock.

This loan was finally consummated on Dec. 24, 1898, and all bills and accounts payable of the Columbia Construction Co. have been paid by the Northwestern Elevated R.R. Co.

There are outstanding the due bills issued to our stockholders on account of interest, which will be surrendered with the Columbia Construction Company's stock, in exchange for the common and preferred stock of the Northwestern Elevated upon the payment of the loan of \$1,500,000, and the affairs of the Columbia Construction Company wound up and the company dissolved, it having now practically gone out of business.

At the meeting of the Northwestern "L" stockholders, President D. H. Londerback said:

The contractors having the contract for the erection of the superstructure have been delayed in prosecuting the work on account of negotiations with the mill people, who are very full of work at this time of year, but they hope to make satisfactory arrangements to have our work put in process of manufacture. The car builders are proceeding to build the cars; also the truck manufacturers to build the trucks. We let the contract this week for the construction of the viaduct over the Northwestern steam tracks on Wells Street. This leaves practically nothing to be contracted for, except the powerhouse building, the necessary copper for the transmission of current and the station houses and terminal buildings. The balance of the right of way required is being rapidly settled for, and our engineering department is clearing the same, ready for foundations in the early spring.—V. 67, p. 1357.

## Lake Street Elevated R. R.

(Report for the year ending Dec. 31, 1898.)

President Louderback, in the annual statement, said:

The management has just concluded negotiations with the town of Cicero for a new license. The ordinance authorizes the extending of the present structure a distance of about 1,000 feet, the building of an incline from that point to the surface of the street, and the construction of a surface line from the end of the incline in Lake Street and South Boulevard to Lombard St. Also, the building of a surface line on South Boulevard, from Austin Avenue to Harlem Avenue, (the west line of Cicero Township), on the right, to connect the line on Lake Street and South Boulevard (by way of Willow Avenue or Lombard Street) with the line of the Harlem & Batavia R.R., enabling the Lake Street company to run its cars over the tracks of the Harlem & Batavia R.R. to the west line of Cicero.

Construction of the line to Lombard St. will begin as soon as the material can be got on the ground, the whole to be ready for operation by April 15, 1899. In the meantime, through an arrangement made with the Cicero & Proviso Street R.R. Co. and the Suburban R.R. Co., there has already been put into effect the schedule of rates which will apply when the extensions referred to have been built, viz.:

For continuous rides between Austin Avenue and any point in the city of Chicago on the line of the Lake Street Elevated R.R. or the Union loop, twenty-ride tickets for \$4; straight to-cent fare where commutation tickets are not purchased. From or to any intermediate point between Harlem Avenue and Austin Avenue to or from any point in Chicago along the line of railroad of this company, including the Union loop, twelve-ride tickets for \$4; straight to-cent fare where tickets are not purchased.

The full benefit to be derived from the building of the proposed extension will not accrue until after April 15, 1899, when this company commences to run its own cars through to the western terminus without transfer of passengers.

During the year business has not been all that could be wished, but there has been a substantial increase, and by rigid economy expenses have been reduced, so that there remains but a small deficit on the year's operation. Some of the increase may be attributed to the better times that have prevailed and some to our having had the full benefit of the entire loop during 1898, which was not the case in 1897.

Earnings, expenses and charges have been as follows:

	1898.	1897.	1898.	1895.
	\$	\$	\$	\$
Passengers carried.....	12,391,020	11,229,590		
Gross earnings.....	633,403	579,961	573,669	517,305
Operating expenses.....	324,947	329,124	339,383	290,003
Net revenue.....	308,456	250,837	234,286	227,293
Taxes.....	13,849	18,612	12,278	17,000
Interest on bonds.....	221,677	227,605	215,125	230,454

"Extraordinary" exp. in 1897, \$31,880, making def. for year \$72,841				
—V. 67, p. 74.				

## GENERAL INVESTMENT NEWS.

**Reorganizations, Etc.—Defaults, Reorganization Plans, Etc.**—The usual index is omitted this week, but that covering the items published to December 24, inclusive, will be found in the CHRONICLE of December 31.

**American Bell Telephone—American Telephone & Telegraph.—Proposed Deal.**—The "Boston Journal" says: "Although local telephone officials are not, as yet, disposed to do much talking about the plan for merging the Bell Company into the American Telephone & Telegraph Co., it is known, on excellent authority, that in due time—possibly within 60 or 90 days—formal announcement of the project will be made. It is largely this plan that is lifting the price of the stock to its highest level on record. The outstanding stock of the American Company is held almost wholly by the Bell people. Indeed the two corporations are even now practically one, excepting in name. The American Company—a New York corporation—with its extensive long-distance service, makes a most valuable asset for the Bell Company, and the right to take its stock by the Bell stockholders will be a very desirable one.

"It also transpires that the American Company is planning at some time in the future to take in as well all the sub-companies of which it has a majority control. Indeed, it is claimed that on the consummation of this plan the American Company will also, by purchasing control of the other companies, hold possession of every Bell Company of importance in the country."—V. 68, p. 83; V. 67, p. 577.

**American Steel & Wire—Plan Operative.**—J. & W. Seligman & Co. announced Wednesday that a large majority of the preferred and common stock of the American Steel & Wire Co. of Illinois had been deposited under the agreement of Jan. 5, and that the plan had been declared operative. The time for depositing certificates of stock has been extended to Jan. 25, when it is expected that all of the outstanding securities will be deposited, making the agreement unanimous.

**Earnings, Etc.**—The success of the plan is considered remarkable. Of the 240,000 shares of the old American Steel & Wire Co., over 220,000 shares have already been deposited for exchange. The net earnings of the companies in the present consolidation were last year about \$4,500,000, or equal to the full 7 per cent dividend on the new preferred and 3½ per cent on the common stock. The earnings, with better prices for goods and heavy saving in expenses, are said to be now showing full 7 per cent dividends on the common stock. The gross sales of the new company amount to about \$50,000,000, and exports to Europe of steel rods, barbed wire, etc., are heavily increasing. The \$28,000,000 cash syndicate subscriptions are selling at 20 per cent premium. The Federal Steel and American Steel are working in complete harmony.—V. 68, p. 83.

**American Tobacco.—Purchase of Catlin Tobacco Co.**—The plant of the Catlin Smoking Tobacco Co., located in St. Louis, has been purchased, it is stated, by or in the interest of the American Tobacco Co. for a cash consideration said to be about \$3,000,000.—V. 67, p. 1206.

**Atlantic Coast Line of Virginia—Consolidated.**—The Richmond & Petersburg R.R. Co. and the Petersburg R.R. Co. under an Act of the Legislature of Virginia have consolidated as the Atlantic Coast Line of Virginia. No new bonds have been issued. The bonded debt of the two roads remain unchanged. The capital stock of the new company (Atlantic Coast Line of Virginia) is \$3,000,000. The preferred stock of the Petersburg R.R. Co. was retired. The consolidation, it is stated, was on this basis: Petersburg R.R. stockholders received 150 per cent in Atlantic Coast Line of Virginia known as "B" stock, and the Richmond & Petersburg R.R. stockholders received 50 per cent Atlantic Coast Line of Virginia "B" stock and 100 per cent "A" stock.—V. 67, p. 1264.

**Birmingham (Ala.) Water Works Co.—City Enjoined.**—A press despatch says that Judge Carmichael in the Chancery Court at Birmingham, on Jan. 9, handed down a decree confirming the injunction obtained by the company to prevent the city from enforcing the ordinances adopted last July, which declared its contract void and established a new set of water charges. The following also is given:

The Chancellor decides that the contract made on May 31, 1888, between the city and the Water Works Company is for thirty years and is binding on the city. The Chancellor finds that the company has expended on its water system \$1,411,289; that its capital stock is \$500,000; that it has a mortgage debt of \$334,000; and it has expended out of its earnings the sum of \$250,289. The company alleged that the new system of water rents proposed would diminish its gross income by \$30,000 per annum, which would be 25 per cent of the total earnings.

**Cambria Steel Co.—Listed.—Terms of Lease.**—The Philadelphia Stock Exchange has listed \$16,000,000 common stock of the Cambria Steel Co. Par value of shares, \$50 each; \$1 50 paid. Registered by the Pennsylvania Co. for Insurance on Lives, etc. Transfer office, Harrison Building, Philadelphia, Pa. The official statement says in substance:

The company was incorporated Nov. 11, 1898, under the laws of Pennsylvania, for the manufacture and sale of iron and steel, or of any other metal, or of any article of commerce from metal. The company is the lessee of all the property and franchises of the Cambria Iron Co. for a period of 999 years, from Dec. 31, 1893, which lease provides in part:

\* The said Steel Company covenants and agrees with the said Iron Company, in addition to all the other moneys herein provided for, to pay in equal semi-annual installments to the said Iron Company, as annual rental for the demised premises, a sum which shall be equal to 4 per cent per annum upon the par value of the capital stock of the said Iron Company, as the same shall from time to time be outstanding; said rental to be a net sum for distribution among the stockholders of the said Iron Company, free from all taxes or deductions whatsoever, payment of all such taxes and charges having been assumed by said Steel Company; or the Steel Company may, on or before April 1 and Oct. 1 in each year pay directly to each stockholder of the Iron Company a sum equal to 2 per cent on the par value of the shares, all payments so made shall be a credit upon the amount of the semi-annual rental to the said Iron Company.

Under the terms of the lease, the Cambria Steel Co. has assumed all the liabilities of the Iron Company, of every character whatsoever, including the payment of all taxes, charges and assessments upon the property, stocks, capital stock, bonds and loans of the Iron Company, and in addition the payment of a sum not to exceed \$5,000 per annum to the Iron Company for the maintenance of its organization; the lease further provides in part as follows:

\* \* \* This engagement especially including the bonds in the sum of \$2,000,000 heretofore issued by said Iron Company, bearing interest at the rate of 6 per cent per annum, payable semi-annually, the principal of the said bonded indebtedness maturing in the year 1911, which semi-annual installments of interest and the principal of said indebtedness, as hereby expressly assumed by the said Steel Company, and it covenants, promises and agrees to pay said installments of interest and the principal of the said indebtedness as the same shall fall due. \* \* \*

Authorized capital stock \$16,000,000, all issued, upon which there has been paid in \$1 50 per share. The stock is subject to further calls at the discretion of the board of directors up to the par value of \$50 per share; the second instalment of \$1 50 per share is payable June 1, 1899. It is believed that additional calls during possibly five years will not exceed the rate of three dollars per share per annum, payable \$1 50 per share, semi-annually. The company has no funded debt of its own, but has assumed the payment of the principal and interest of the \$2,000,000 above described. No floating debt."

**Annual Meeting.**—The annual report of the Cambria Iron Co. read at the meeting this week showed, it is said, net earnings of \$636,000; surplus over charges, etc., about \$300,000. Dividends to the amount of 4 per cent (about \$319,000) were paid.—V. 67, p. 1054.

**Cape Fear & Yadkin Valley Ry.—Atlantic & Yadkin Ry. —Sale Confirmed—New Company.**—The foreclosure sale of the Cape Fear & Yadkin Ry. to the Atlantic Coast Line interests has been confirmed. It is understood the new company will be called the Atlantic & Yadkin Ry.—V. 68, p. 84.

**Central New England Ry.—Officers.**—The following officers have been elected: John W. Brock of Philadelphia President, J. K. O. Sherwood of New York Treasurer and C. A. Heller of Philadelphia Secretary.—V. 68, p. 84.

**Central R.R. of New Jersey.—Sale of Bonds to Fund Back Taxes.**—The taxes in arrears on the company's terminal property at Communipaw were recently adjusted at about \$576,000, payment to be made of about \$141,000 in cash, and the remainder through an issue of 4 per cent bonds (see V. 67, p. 1054). These bonds, aggregating \$433,860, issued by Jersey City and guaranteed by the company, were sold this week, as stated in our State and City Department. There are ninety-six bonds in all and the Central will pay them at their maturity as follows.

\$95,916 64 Dec. 1, 1899; \$75,468 11 Dec. 1, 1900; \$66,202 30 Dec. 1, 1901; \$76,616 26 Dec. 1, 1902; and \$122,365 11 Dec. 1, 1903.

The company has heretofore included these taxes in its balance sheet under "other indebtedness and accrued charges,

including taxes in litigation." The guaranteed bonds, therefore, merely replace the old liability.—V. 67, p. 1034.

**Central Vermont RR.—Grand Trunk Ry.—Reorganization.**—The Act incorporating the Central Vermont RR. had a provision that the charter must be accepted by the Grand Trunk and the committee representing the Consolidated of Vermont 5 per cent bonds within 60 days after the passage of the Act. This acceptance was duly filed on Jan. 13. Foreclosure and reorganization are accordingly expected to follow in accordance with the plan in V. 67, p. 735 without delay. The charter followed the plan of reorganization which was agreed upon by the various interests, with the exception of the provision that of the \$12,000,000 bonds authorized (of which \$11,000,000) should be immediately outstanding) about \$200,000 should be specifically set aside to pay certain unsecured claims. Some of these claims had already been adjudged by the United States Court to be inferior to the lien of the mortgage.—V. 67, p. 1303.

**Chicago City Ry.—New Stock.**—The proposition to issue an additional \$2,000,000 capital stock was carried unanimously at the annual meeting on Jan. 16. The annual report appears on a preceding page.—V. 67, p. 1206.

**Chicago St. Paul Minneapolis & Omaha RR.—Dividend Increased.**—The directors on Thursday declared an annual dividend of  $3\frac{1}{2}$  per cent on the common stock, being an increase of  $1\frac{1}{2}$  per cent over the rate in 1898 and in 1897. The first distribution to this stock was made in 1897.—V. 63, p. 516.

**Chicago Milwaukee & St. Paul Ry.—Sale of  $3\frac{1}{2}$  Per Cent Bonds.**—The company has sold \$3,500,000 of  $3\frac{1}{2}$  per cents secured by its general mortgage. The bonds sold are a portion of the amount given in the last annual report as held in the company's treasury. The issues so far under this mortgage have been 4 per cents and have been called Series A. The new bonds will be Series B, and it is understood the issue is mainly to cover the recent purchase of the Des Moines Northern & Western.—V. 63, p. 40.

**City Electric Ry. of Decatur, Ill.—Receiver.**—Secretary W. L. Shellabarger has been appointed receiver.—V. 61, p. 558.

**Cleveland Electric Ry.—Change of Control.**—At the annual meeting on January 18, Henry A. Everett became President, resuming the position from which he was deposed four years ago. Charles L. Pack becomes Vice-President.—V. 63, p. 1146.

**Columbus & Cincinnati Midland RR.—Cash Offer Accepted.**—The first mortgage bondholders' committee had \$1,800,000 bonds deposited out of the \$3,000,000 issued. All the depositors have accepted the offer of 94 flat in cash made for them and have received payment. The bonds have been withdrawn from the Guarantee Trust & Safe Deposit Co. by the purchasers, who, it is understood, have purchased also some portion of the remaining \$200,000.—V. 67, p. 1159.

**Delaware RR.—Consolidation.**—The company's stockholders on Jan. 14 approved the "agreement of consolidation and union" between the company and the Queen Anne's & Kent RR. Co., Cambridge & Seaford RR. Co. and Delaware & Chesapeake RR. Co. Their purchase will be effected through the issue of \$300,000 of capital stock and the assumption by the company of the debt of the Delaware & Chesapeake RR. Co., consisting of \$100,000 of 4 per cent bonds. "This sum is largely below the cost of these properties to the Philadelphia Wilmington & Baltimore RR. Co., embracing as they do an aggregate of 107 miles." The consolidation increases the capital stock of the Delaware RR. from \$2,687,325 to \$2,987,325. The report for 1898 shows a surplus on the year's operations over the 6 per cent dividend on the stock of \$103,999.—V. 67, p. 1336.

**Edison Electric Illuminating of New York—New York Gas & Electric Light Heat & Power Co.—Official Circular as to Sale of Stock.**—A circular issued by Spencer Trask & Co., Vermilye & Co. and the Central Trust Co. says in substance,

George Foster Peabody, of Spencer Trask & Co., representing the principal stockholders of the Edison Company, has entered into an agreement with the State Trust Co. for the sale of the Edison stock represented by him, to become binding only in case the holders of at least 55 per cent of the stock shall have agreed to the sale by Feb. 15, 1899 (with an allowance of ten days additional to stockholders living abroad), on the following terms, viz.: 230 per cent of the par value of Edison stock payable in 4 per cent purchase money gold bonds, due Feb. 1, 1949, of the New York Gas & Electric Light Heat & Power Co., at par; that company to have the right to pay off the bonds at par and accrued interest at any time within three years from Feb. 1, 1899. Vermilye & Co. agree to purchase these bonds from any assenting stockholder prior to March 25, 1899, at the price of 85 per cent and accrued interest.

The issue of bonds is to be limited to \$21,000,000. They will be secured by a purchase money mortgage, which will be a first lien on the Edison shares, and by the deposit of \$4,000,000 in cash with the trustee, the Central Trust Co. of New York (with reserve power to invest the same in improvements or extensions of the Edison plant and property), and by a second mortgage upon the property and franchises of the Power Company, subject to a first mortgage securing \$15,000,000 bonds, of which \$11,500,000 are now outstanding, and the mortgage securing the same and the other necessary

instruments are to be satisfactory to the trustee and the bankers.

The Central Trust Co. will be depositary for the assenting shares.—V. 68, p. 41.

**Electric Co. of America—Pennsylvania Manufacturing Light & Power Co.—Subscriptions.**—Subscriptions to the stock of the Electric Co. of America by Penna. Mfg. Light & Power stockholders of Jan. 19 will be received at the office of the latter from Jan. 23 to Jan. 30, inclusive. The \$5 called is payable on subscription.—V. 68, p. 85.

**Fitchburg RR.—Rumors.**—The recent advance in the price of the company's preferred stock has revived the story that Vanderbilt interests have secured a sufficient amount of the preferred shares practically to dictate the policy of the management. In an item below regarding the Rutland RR. the facts are given regarding the proposed through line from Ogdensburg on the Rome Watertown & Ogdensburg division of the New York Central, via the Rutland and the Fitchburg roads to Boston. Quite possibly the announcement of this plan, though it involve only an operating agreement, might lead to the movement in Fitchburg preferred. On the other hand it is well known that W. Seward Webb of the Vanderbilt connection and his associates have purchased control of the Rutland (to say nothing of the Lebanon Springs Road, V. 67, p. 1035), and it would be only natural if in view of the intended through service he should be strengthening his holdings in the stock of the Fitchburg, a company in which he is already a director. As in the Rutland case the additional Fitchburg shares, if any, acquired by him are probably to be looked upon as a private investment and not for account of the Central.

**Rights of Preferred Shares.**—In connection with the reported purchase of preferred shares the following from the articles of consolidation of 1887 are important:

The common stock shall have no voting power until it shall have received dividends for two consecutive years amounting to no less than 1 per cent per annum, excepting that it shall have the right to vote on an equality with the preferred stock upon any question of issuing more preferred or common stock, and also upon any question of leasing any part of the consolidated road, or of hiring or uniting with any other road.

The common stock amounts to \$7,000,000 and has never paid a dividend. The preferred is \$17,360,000 and has been paying 4 per cent per annum for some years. The articles of consolidation, however, provide as follows:

After the payment of the above dividend upon the preferred stock to the amount of 4 per cent per annum in any one year, any balance of annual earnings, which may be decided, shall be applied to the payment of dividends upon the preferred and common stock, each share of preferred and common stock sharing equally in the additional dividends so declared and paid.—V. 67, p. 1033.

**Fox River Electric Ry., Green Bay, Wis.—Sold.**—At the foreclosure sale on Jan. 14 the property was bid in for \$75,000 by Chas. E. Vroman for the security holders.—V. 67, p. 1308.

**General Electric.—Dividend.**—The first semi-annual dividend on the 7 per cent preferred stock was declared a week ago, as stated in our last issue. It is payable Jan. 31 and amounts to 3-2 per cent, representing the sum accrued since Aug. 17, 1898, when the reduction in the stock issues took place. By a transposition of figures the amount was reported in the item last week as 2-3 per cent.—V. 68, p. 85.

**Georgia & Alabama Ry.—Georgia & Alabama Terminal Co.—Guaranty of Bonds Authorized.**—At a meeting Dec. 31 the stockholders of the Georgia & Alabama Ry. adopted a resolution to guarantee \$1,000,000 of bonds to be issued by the Georgia & Alabama Terminal Co. Regarding the Terminal, President John Skelton Williams said recently:

Within the past few months parties acting in the interest of the G. & A. Ry. have secured on the Savannah River, directly opposite the city of Savannah, about one mile of water front and nearly one thousand acres of land, admirably suitable for terminals. The Georgia & Alabama Terminal Co. has been organized for the purpose of owning the terminals and for carrying out their development on a large scale. The entire capital stock of the Terminal Co. will be owned by the G. & A. Ry., which latter company guarantees the bonds issued by the Terminal Co. for this development.

According to careful estimates, the possession of independent terminals at Savannah, after the first year or so, may be expected to increase the company's net revenues, after paying the additional fixed charges involved in the purchase of land and the construction of terminals, by more than \$15,000 per annum. The terminal development at Savannah is now underway and it is expected to be completed by the opening of the next cotton season. With its own independent terminals at Savannah, the Georgia & Alabama Railway will be able to secure a larger proportion of the coal and iron business from the Birmingham region, having heretofore cut off from this business almost entirely, owing to the want of adequate terminals at Savannah.—V. 67, p. 956.

**Great Northern Ry.—St. Paul Minneapolis & Manitoba Ry.—Exchange of Stock.**—Of the \$25,000,000 capital stock of the Great Northern Ry. authorized to be issued to retire the \$20,000,000 stock of the St. Paul Minneapolis & Manitoba, \$22,756,500 has thus far been listed, raising the Great Northern issue to \$72,756,500, and leaving not over \$1,794,800 of the Manitoba stock unexchanged.—V. 67, p. 1336.

**Herring-Hall-Marvin.—Reorganization Plan.**—A plan of reorganization will probably be issued next week.—V. 68, p. 35.

**Indiana & Lake Michigan Ry.—St. Joseph South Bend & Southern RR.—Reorganization Plan.**—The Bulkeley Committee announces a plan for the reorganization of the Indiana & Lake Michigan Ry. Co. under the title of the St. Joseph South Bend & Southern RR., with \$250,000 five per cent preferred and \$500,000 common in stock. The stock issued will be held for five years by voting trustees, viz: Morgan G. Bulkeley, S. C. Danham and Colgate Hoyt. The present first mortgage bondholders pay an assessment of 25 per cent by Feb. 15, receiving par in new common stock and 25 per cent in preferred. Those failing to pay the assessment are subject to an extra penalty of 5 per cent. The plan leaves in the treasury \$20,000 common and \$130,000 preferred stock for future requirements.—V. 67, p. 1305.

**International Air-Power Co.—American Air-Power Co.—Metropolitan Street Ry.—Rhode Island Locomotive Works.—Incorporated.**—The International Air-Power Co. was incorporated at Trenton, N. J., last Saturday with a capital stock of \$7,000,000, of which \$500,000 is to be 3 per cent preferred cumulative stock. The par value of the stock is \$100. The incorporators are Robert I. McKinstry, Joseph H. Hoadley, William Knight and Henry E. Knight, of New York, and Edwin F. Glenn, of Philadelphia.

Joseph Leiter is quoted by the "New York Sun" as saying:

The International Air Power Co. has acquired and now owns the rights for all patents all over the world which the American Air Power Co. recently owned, with the exception of the street car rights in North and South America, which the American Air Power Co. still controls. The International Company will be a manufacturing company having factories at Worcester, Mass., and Providence, R. I., and will manufacture vehicles of all kinds the motive power of which will be compressed air. We will also manufacture locomotives.

The Metropolitan Street Ry. Co. is largely interested in both the American Air Power Co. and the International. The American Company is now equipping the cross-town lines of the Metropolitan Street Ry. Co. with compressed air motive power, viz.: Chambers St., 11th St., 23rd St., 25th St., 29th St. and 34th St. The last three lines, it is expected, will be running compressed air cars within a month.

I have nothing to do with the auto-truck company, which was incorporated yesterday in New Jersey, and of which company Richard Croker is one of the incorporators. That company is going to control the trucking business in this city. Mr. Croker came to me and asked me if the International Company could make the trucks. I told him we could. There are about eighty different patents on auto-trucks and somewhere near 100 on street cars. The International Company will use the Hoadley and Knight patents. We have demonstrated by experiments that compressed air for motive power is cheaper than horse-power. The new company has received so many orders that we wouldn't venture to deliver any new orders within four months. We have several manufacturing plants in sight that we may purchase. We have already got control of the Rhode Island Locomotive Works at Providence. The offices of the Company will be in the Postal Telegraph building.—V. 63, p. 190; V. 67, p. 1263; V. 66, p. 135.

**Jamestown & Chautauqua Ry.—Jamestown & Lake Erie Ry.—Reorganized Company.**—The Jamestown & Chautauqua Ry. Co. has been incorporated with capital stock of \$475,000, of which \$125,000 is preferred, as successor of the Jamestown & Lake Erie Ry. Co. foreclosed. The directors are:

William A. C. Ewen of Dobbs Ferry, William L. Quintard, S. Rending Hertrou, L. C. Herckenrath, McK. D. McKee, Walter S. Jenks, and Charles A. Watrous of New York City; Richard S. Storrs of Orange, N. J., and E. G. Wooding of Cranford, N. J. Officers—President, W. A. C. Ewen; Vice-President, W. L. Quintard; Treasurer, Richard S. Storrs; Secretary, McK. D. McKee.

The company will issue on its 30 miles of road \$250,000 of 5 per cent 100-year bonds, dated Nov. 15, 1893, interest M. & N.; Trustee, Continental Trust Co.—V. 67, p. 256.

**Kingston & Pembroke Ry.—Stock Sold—Reorganization Effected.**—The preferred stock offered has been all subscribed for, and the reorganization plan as originally outlined carried out. This pays all the floating indebtedness of the company. "The road has now only a bonded debt of \$572,000, at 3 per cent, and no other indebtedness, is in good condition, with favorable prospects." The reorganization plan was in V. 67, p. 274, and the offering of \$1,000,000 preferred stock in V. 67, p. 1309.

**Kokomo City Street Ry.—Receiver.**—Charles L. Harry, local manager, has been appointed receiver, and the road ordered to be sold under foreclosure.—V. 68, p. 85.

**Lake Erie & Western RR.—New Director. Etc.**—At a meeting of the directors this week Frederick W. Whitridge of Cary & Whitridge, counsel to the company, was elected director as successor of the late Calvin S. Brice and as representative, it is believed, of an interest which has recently purchased additional stock. Mr. Whitridge was elected Chairman of the board, but the office of President was not filled. No decision it is stated, has been reached regarding the payment of the February dividend.—V. 67, p. 1355.

**Louisville & Nashville RR.—Over-Subscribed.**—The \$10,000,000 5 20-year 4 per cent collateral trust gold bonds were largely over-subscribed.—V. 68, p. 85.

**Metropolitan West Side Elevated Ry. of Chicago.—Reorganized Company.**—This company has been organized as successor of the railroad company recently sold under foreclosure. Extensions to Cicero, Proviso, Lawndale and Layden are authorized by the articles of incorporation.

**Decree Value of Old Bonds.**—The decree of sale was duly confirmed on Jan. 31. Deducting the expenses of sale allowed by the Court from the sale price of \$6,000,000, there remains \$5,971,102 90 to be distributed among the holders of the 14,763 bonds of \$1,000 each outstanding. The distribution is equal to \$404.49 1-7 on each bond.—V. 68, p. 40.

**Minneapolis & St. Louis RR.—New Mortgage.—Bonds Sold.**—The Minneapolis & St. Louis RR. Co. has authorized a new mortgage, under which it will issue its first refunding 50-year 4 p. c. gold bonds. A sale of \$5,000,000 of these bonds has been made to a syndicate headed by Redmond, Kerr & Co., the proceeds from which will be used in part for the purchase of that portion of the line of the Wisconsin Minnesota & Pacific running from Morton, the present terminus of the Minneapolis & St. Louis, west to Watertown, South Dakota, a distance of 123 miles. This road is owned by the Chicago Rock Island & Pacific, but has been operated by the Minneapolis & St. Louis. The other branch of the road—Red Wing, Minn., to Mankato, 93 miles—is not purchased. There are no Wisconsin Minnesota & Pacific bonds.

The balance of the proceeds from the sale of the first issue of bonds under the new mortgage will be used to extend the New Ulm branch south to Storm Lake on the Illinois Central, a total distance of 153 miles from Winthrop. The bonds on

the New Ulm branch (Winthrop to New Ulm, 18 miles), will be canceled and the new loan be made a first lien thereon, as also on the equipment to be acquired for this division. This line to Storm Lake, Iowa, will extend the Minn. & St. Louis Road into the rich grain and live-stock territory of that section.

The total issue under the new mortgage is limited to \$25,000,000, of which \$5,000,000 are now to be issued, and \$10,000,000 will be reserved to retire the underlying bonds at maturity and the balance for future extensions and improvements and for other purposes, under severe restrictions. The report that the \$2,500,000 of first preferred stock of the company is to be called at par and retired at once is untrue, though a little later bonds may, perhaps, be issued for this purpose. Provision is made that the 5 per cent bonds which were reserved to retire the original first mortgages shall be canceled and these new 4 per cent bonds be issued in their stead, so that eventually the new 4s will be a first mortgage on the entire property. This will make the funded debt of the company \$15,000,000 in all, being at the rate of \$23,800 per mile, without considering the value of the terminals in Minneapolis, which are said to be worth several million dollars.

An expert sent out by Redmond, Kerr & Co. has examined the property and reports very favorably.—V. 67, p. 756, 791.

**Nassau Electric RR.—Brooklyn Rapid Transit.—Attitude effected.—New officers.**—The sale of the stock in the Nassau Road formerly held by the Johnson Brothers, C. T. Wilson & Co. and others to interests friendly to the Brooklyn Rapid Transit Co. has resulted in changes in the management. The officers and directors as recently elected by the Nassau are:

Officers—President John E. Borne, President of the Colonial Trust Co.; Vice-President, Hugh J. Grant; Treasurer, C. D. Menecely, the Auditor of the Brooklyn Rapid Transit Co.; Secretary, W. F. Ham. Directors—John E. Borne, Hugh J. Grant, C. D. Menecely, W. F. Ham, Wm. H. Bailey, P. H. Flynn, Silas B. Dutcher and Frederick C. Cochen.

Mr. Flynn, though reported to have been offered a high price for his stock, persistently held out for a still higher price and was apparently the main obstacle to consolidation as originally proposed with the Rapid Transit Company. As the week has progressed, however, rumors have become current of plans for the early organization of a traction company to unite by stock ownership, lease or otherwise, the various elevated and surface street railways of the city. President Borne of the Nassau road early in the week said:

"The Nassau system will be operated independently and on the same general lines as heretofore, but it will be run in entire harmony with the Transit system. While consolidation may eventually take place, there are no definite plans for this end in view. Eventually changes will be made to bring the Nassau system into closer relations with the operations of the Transit system. Expensive and losing competition will be done away with. It is impossible, however, to say when the consolidation could be brought about. For all I know to the contrary, the Nassau may be an independent company anywhere from one month to fifty years. Meanwhile both companies will be operated in complete harmony."—V. 67, p. 1307; V. 68, p. 81.

**National Carbon Co.—Incorporated.**—This company was incorporated at Trenton, N. J., on Monday. The authorized capital stock is \$10,000,000, of which \$4,500,000 is 7 per cent non-cumulative preferred. The consolidation has been financed largely in Chicago, where subscriptions to its stock have been selling above par; 86½% was paid for the preferred a few days ago. When the subscription books closed, it is said applications for over \$1,200,000 of stock outside Chicago and over \$1,000,000 in Chicago were refused. The business embraces the manufacture of carbon points for electric arc lighting, battery cells for telephones and call bells, battery plugs, carbon brushes for motors and dynamos. A full statement regarding the enterprise was in last week's CHRONICLE, page 85.—V. 68, p. 85.

**New York & Hoboken Ferry.—Purpose of New Company.**—The purpose of the recent incorporation of this company, as successor of the Hoboken Ferry Co., but with the same amount of stock, and a proposed immediate issue of \$3,300,000 additional bonds, has not as yet been fully explained. The following from the "New York Evening Post" of recent date is therefore of interest:

The affairs of the ferry line are left in charge of the present officials, who will operate the boats of the old company. At the time of the incorporation the officers admitted that there would be an extension of the company's line. Yesterday one of them refused to add anything to this, saying that nothing definite could be made public in the matter until April, when the President, Roswell Eldridge, at present away from the city, is expected to return. The Superintendent of the line at Hoboken said the company would need at least two more boats, and there was a crying need for a new ferry house further up town than Christopher Street. The growth of Hoboken and the extension of the trolley lines in it and connecting it with Jersey City and other nearby points had greatly increased travel to and from New York City, while the increase in the number of commuters from various points in New Jersey was in fully as large proportion.

From other sources it was learned that the company had been making efforts to secure the control of certain piers in the neighborhood of West Twenty-third Street, but that, so far, it had been unsuccessful. To this fact, undoubtedly, is due the reticence as to the proposed addition.—V. 67, p. 1004.

**New York & Queens County.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31 have been reported.

mos ending	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, def.
Dec. 31.					
1898	\$80,914	\$28,515	\$7,004	\$65,812	\$30,292
1897	86,860	28,900	6,974	63,467	27,592
6 months—					
1898	225,146	100,298	14,312	180,006	15,398
1897	225,275	95,116	14,544	126,931	17,269

Loans and bills payable \$169,571, against \$177,114 on June 30.—V. 67, p. 737.

**Northern Pacific Terminal Co.—Called Bonds.**—Twenty first mortgage bonds have been drawn for sinking fund, viz:

Nos. 94, 407, 471, 632, 697, 714, 836, 910, 999, 1,431, 1,517, 1,598, 2,229, 2,288, 2,470, 2,556, 2,511, 3,661, 3,776, 3,817.

and will be redeemed by Farmers' Loan & Trust Co. at 110 and interest on Feb. 10.—V. 67, p. 530.

**Northwestern Elevated RR. of Chicago.—Bonus to Parties Making the Loan.—Share of Stockholders in Columbia Construction Co.**—In the "Annual Reports" of the Northwestern Elevated on another page will be found the statement of President Ynille of the Columbia Construction Co. as to the recently effected loan of \$4,500,000. From this it appears that subscribers to the loan receive as bonus \$1,000,000 each of common and preferred stock in the Elevated Company. It also appears that the Columbia Construction Co. will receive eventually \$4,000,000 of each class of stock and that consequently the stockholders of the Construction Company will receive 93.74 per cent of each upon their holdings of Construction stock.—V. 67, p. 1357.

**Ogdensburg & Lake Champlain RR.—Rutland RR.—Rutland-Canadian RR.—Guaranteed Bonds Offered.**—E. H. Rollins & Sons of Boston, and Dunscomb & Jenison of this city offered for sale this week at 104½ and interest such part of \$3,500,000 Ogdensburg & Lake Champlain 4 per cent 1st mortgage gold bonds, guaranteed by endorsement by the Rutland RR. Co., as may be not taken by the holders of the old bonds under the option mentioned last week.

**Extension.—Proposed Through Line**—In view of the interest attaching to the plans of the syndicate which recently purchased the Rutland, we cite the bond circular:

A new line named the Rutland-Canadian R.R. is now in process of construction from Rouse's Point directly south, crossing the islands of Lake Champlain to Burlington, the northern terminus of the Rutland R.R. This road, when completed, will form the connecting link between the Ogdensburg & Lake Champlain R.R. and the Rutland R.R., establishing a through line from the lakes to tidewater of 392 miles, 16 miles shorter than any other route, and extending from Ogdensburg, the western terminus of the O. & L. C. R.R., to Bellows Falls, the southern terminus of the Rutland R.R., 278 miles, and thence to Boston over the Fitchburg R.R., 114; total distance, 392 miles.

The purchase some months ago of the Rutland R.R. by a syndicate, including interests prominently identified with the New York Central & Hudson River R.R., had in view the establishment of this line, which has been assured by the purchase of the Ogdensburg & Lake Champlain R.R. by the Rutland R.R. Co., and by the building of the Rutland-Canadian R.R. The debt of the combined properties will be:

	Bonds.	Miles.	Interest charges.
Ogdensburg & Lake Champlain	\$1,500,000	118	\$140,000
Rutland R.R.	3,500,000	120	179,481
Rutland-Canadian when issued.	1,000,000	40	40,000

Total debt (\$28,057 per mile).....\$5,000,000 278 \$359,481

The issue of first mortgage 4 per cent O. & L. C. bonds is limited to \$4,100,000; \$900,000 are specially reserved by the mortgage for new construction, acquisitions and betterments.

**Directors.**—The directors of the Rutland R.R. Co. are as follows:

Perceval W. Clement, George H. Ball, John W. Stewart, W. Seward Webb, Horace G. Hing, George E. V. W. Rosetter, George Bird, Wallace C. Clement.—V. 66, p. 88; V. 67, p. 954.

**Pacific Cable Co.—Exclusive Concession from Hawaiian Government Void.**—Secretary of State Hay on Dec. 31 formally disapproved the concession made to the company in July last by the Hawaiian Government, granting an exclusive right to lay a cable to Hawaii (see V. 67, p. 170).

**Palmetto Co.—Listed in Philadelphia.**—The Philadelphia Stock Exchange has listed \$2,500,000 common stock of the Palmetto Co. Par value of shares, \$25 each, full paid. Registered by Merchants' Trust Co.; transfer office, 944 Drexel Building, Philadelphia, Pa. Official statement says:

The Palmetto Co. was incorporated December 2, 1898, under the laws of West Virginia; organized for the utilization of the palmetto plant in the manufacture of rice, ground cork substitute, fibre, medicinal constituents and other products. The property consists of its patent rights, trade secrets, inventions, discoveries and agreements of Arthur L. Kennedy and others. Factory located at Aetor, in the Palmetto Belt, south of Jacksonville, Florida. Authorized capital stock, \$3,500,000; issued, \$2,500,000, of which \$25,000 for cash and \$2,475,000 for property, patent rights, etc., all issued, full paid and non-assessable. The remaining \$1,000,000 unissued is reserved in the treasury to be issued as the business may require. No funded or floating debt.

**People's Light & Power Co. of New Jersey—North Hudson Heat, Light & Power of Hoboken—Consumers' Light, Heat & Power Co. of Elizabeth.—Increase of Stock.**—The directors of the People's Light & Power Co. recently voted to increase the capital stock from \$5,000,000 to \$20,000,000. Not more than \$5,000,000 of the additional shares, it is said, will be issued at present, and this, it is reported, will be issued in case of the purchase as planned of the North Hudson Heat, Light & Power Co. of Hoboken and the Consumers' Light, Heat & Power Co. of Elizabeth. The North Hudson Company was incorporated last November, with \$2,000,000 authorized capital stock, as successor of the Hudson Electric Light Co. and made a mortgage for \$2,000,000. The Consumers' Company was incorporated, with \$1,000,000 capital, in May last for the purpose, it was understood, of acquiring the Suburban Electric Co. of Elizabeth, the last-named company having outstanding \$300,000 of first mortgage 5s, due March 1, 1926, but subject to call after March 1, 1901, at 102 and interest. The People's Company itself has issued no bonds. Its President is Philip Ney Jackson. The companies absorbed by it, it is said, will thus include:

Newark Electric Light & Power Co., Newark Schuyler Electric Light Co., Thompson-Houston Electric Co. of Newark, Central Power Co., Consumers, Electric Light & Power Co., Excelsior Light & Power Co., Kearny Electric Light & Power Co., Jersey City Electric Light & Power Co., Essex Co. Electric Light Co. of East Orange, Suburban Electric Light & Power Co. of Orange, Montclair Light & Power Co., Edison Electric Light & Power Co. of Newark, North Hudson Heat, Light & Power Co. of Hoboken and the Consumers' Heat, Light & Power Co. of Elizabeth.—V. 67, p. 224, 1907; V. 68, p. 1941.

**Pressed Steel Car Co.—Pressed Steel Car Consolidation.—Incorporated.**—This company was incorporated at Trenton, N. J., on Jan. 13, with an authorized capital of \$25,000,000, of which one-half is 7 per cent non-cumulative preferred, with preference also as to payment of principal in case of liquidation. The incorporators are Adrian H. Larkin,

Arthur H. Van Brunt and Francis L. Patton, Jr. A Philadelphia paper says:

The Pressed Steel Car Co. is organized for the purpose of uniting the Fox Pressed Steel Equipment Company and the Schoen Pressed Steel Company of Pittsburgh. These companies have heretofore operated in opposition, but together they will control a practical monopoly in the manufacture, use and sale of pressed steel freight cars, steel trucks, truck frames and bolters, and pressed steel specialties for cars which are now in general use on the principal railways.

The profits of the two companies, based on the last four months of 1898, are at the rate of \$1,500,000 a year, or equal to 7 per cent on preferred stock and 6 per cent on common stock. It is estimated that the profits for 1899 will exceed \$3,000,000. Dividends of 1½ per cent on the preferred stock and 1¼ per cent on the common stock will be declared quarterly, beginning about April 1, 1899.

For the purpose of paying existing debts of the companies, prior to the consolidation, and to provide \$1,500,000 working capital for the new company, preferred stock amounting to \$3,000,000 has been offered at par, with an equal amount of common stock. The preferred stock was largely over-subscribed. The amount of the allotment will not exceed 40 per cent.

**Seaboard Air Line—Seaboard & Roanoke RR.—Injunction Denied.—Control Transferred.**—Judges Wickes and Stockbridge on Jan. 16, denied the injunction asked for by Thomas F. Ryan to restrain the transfer of 3,000 shares of the stock of the Seaboard & Roanoke held in the Hoffman pool. On Wednesday accordingly the entire amount pooled, viz., \$32,100 of the total issue of \$1,338,400, was transferred to the syndicate headed by John Skelton Williams. The price paid was \$300 per share, as agreed upon two weeks ago.—See V. 68, p. 41.

**St. Paul & Duluth RR.—Sale of Bonds—Preferred Stock called for Payment.**—The company has sold \$1,000,000 of its new consol. 4s and has applied a portion of the proceeds to making good the \$690,776 due the land and stumpage fund. In accordance, therefore, with the plan already announced, this \$690,776 is being applied to the redemption of preferred stock. The company has recently purchased and retired 4,131 shares, and there was a drawing on Monday, Jan. 16, 1899, when 2,782 shares of the preferred were drawn and retired. After the shares above referred to have been canceled, the outstanding issue of preferred stock will be \$4,099,662.—V. 67, p. 1309.

**United Lighting & Heating Co.—Pennsylvania Globe Gas Light—Kilson Incandescent Gas Light Co.—United Gas Improvement.—Incorporated.**—The United Lighting & Heating Co. has been incorporated under the laws of New Jersey to manufacture, sell and lease to public and private consumers, gas and oil machines and appliances of all kinds for the production and supply of light, heat and power. The company, it is stated, will consolidate the oil-lighting interests of the United States. Its capital stock is \$12,000,000 of which \$6,000,000 is non-cumulative preferred. A Philadelphia paper said recently:

Arrangements, it is learned, are being perfected to combine the street-lighting business east of the Mississippi river, now controlled by the Pennsylvania Globe Gas Light Co., the controlling stock of which is owned by the United Gas Improvement interests, and the Kilson Incandescent Gas Light Co., with which George D. Widener, Arthur Kilson, George W. Elkins and Michael Elmer, Jr., are identified. The companies controlled by the Pennsylvania Globe Gas Light Co. and also to be absorbed are: The Welsh Street Lighting Co. of Chicago; New York & New Jersey Globe & Gas Light Co. of New York; Chicago & Gas Light Co. of Chicago; Canton Globe & Gas Light Co. of Canton, Ohio; Pennsylvania Globe & Gas Light Co. and two other companies not yet named.

It is understood that George W. Elkins will be the President of the new company. It is also understood that \$5,000,000 preferred and one-half the common goes to the owners of the Pennsylvania Globe Gas Light Co. and its allied interests involved in the deal. The Kilson Company, in exchange for its present \$3,000,000 stock gets \$3,000,000 common stock in the new company. There will be issued \$1,000,000 preferred to cover cash in the treasury of the two companies, and the remaining \$1,000,000 preferred remains in the treasury. The Pennsylvania Globe Gas Light Co. has an authorized capital of \$30,000,000; paid in, \$30,000. This company is said to be earning over \$100,000 net per annum, or more than the amount of the new preferred dividend requirements.

The "Philadelphia Ledger" says:

All the stock of the new United Heat Light & Power Co. has been placed, and there will not be a public offering made. The United Gas Improvement Co. owns the controlling interest in this company, whose shares will be placed in the regulated department of the Exchange.

**Union Traction Co. of New Jersey.—Reorganization Notice.**—The McCormick Committee gives notice that a majority of the outstanding first mortgage bonds having been deposited under the plan of reorganization dated July 12, 1898, the plan has been declared operative. No further deposits, it is announced, will be received after Jan. 25, 1899, on any terms or conditions.—V. 67, p. 1358.

**Wheeling & Lake Erie Ry.—Deposits of Stock.**—Referring to the notice published last week by the reorganization committee, the stockholders' committee has extended the time within which holders of preferred or common stock may become parties to stockholders' agreement until Jan. 30, 1899.

**Status of Property.**—As already announced, the property will be sold on Feb. 7 under foreclosure of the consolidated mortgage and subject to the underlying mortgages, namely, the Lake Erie Division, Wheeling Division and extension and improvement mortgages. These three mortgages being left undisturbed, and the old consols being exchanged for preferred stock, the fixed interest charge of the new company will be only \$306,200 per annum. The receivers, it is stated, have expended about \$1,100,000 for improvements including 31 miles of new side track spurs, etc., and have about \$150,000 still to pay out, making \$1,250,000 in all.

The gross and net earnings for the three months ending Oct. 31, 1898, make in connection with the interest charge of the reorganized company the following exhibit (taxes being included in operating expenses):

	Gross.	Net.	Interest.	Surplus.
3 mos.				
1898.....	\$425,193	\$130,900	\$76,550	\$54,350

The quarterly dividend on the first preferred calls for \$25,000.—V. 68, p. 87.

## Reports and Documents.

### LEHIGH VALLEY RAILROAD COMPANY.

EXTRACTS FROM THE FORTY-FOURTH ANNUAL  
REPORT—FOR THE FISCAL YEAR ENDED  
NOV. 30, 1898.

PHILADELPHIA, January 10, 1899.

To the Stockholders of the Lehigh Valley Railroad Company:

The following report of the business of your Company and its allied interests for the fiscal year ended November 30, 1898, is submitted:

#### MILEAGE.

The mileage of railroads owned and operated by the Lehigh Valley system, the main line of which extends from Jersey City, N. J., to Buffalo, N. Y., is as follows:

	Miles.	Inc'ed.	Dec'ed.
Owned and controlled by ownership of entire capital stock.....	979,088	.....	4,310
Controlled by ownership of majority of stock.....	32,331	27,100	.....
Leases.....	27,878	.....	.....
<b>Total mileage oper. (owned and controlled).....</b>	<b>1,330,357</b>	<b>22,790</b>	<b>.....</b>
Trackage rights over railroads owned by other companies.....	63,440	3,060	.....
<b>Total mileage operated.....</b>	<b>1,393,797</b>	<b>25,850</b>	<b>.....</b>
Easton & Northern Railroad.....	8,137	.....	.....
<b>Total mileage.....</b>	<b>1,401,934</b>	<b>25,850</b>	<b>.....</b>

The increase in mileage was caused by the absorption in January, 1898, of the Montrose Railway, which, prior to that time was independently operated, to additional construction of the Seneca County Railway, and sundry small branches less tracks abandoned.

#### EARNINGS.

By reference to the income account, it will be noted the gross earnings from operation of your railroad for the year ended November 30th, 1898, amounted to \$19,742,537.96,

#### INCOME ACCOUNT.

	1898.	1897.	Increase.	Decrease.	Per Cent.
<b>EARNINGS FROM OPERATION—</b>					
From coal traffic.....	\$8,436,391 89	\$8,560,418 07	.....	\$124,026 18	Dec. 1.45

<b>Ratio of operating expenses to earnings.....</b>	<b>71.87 per cent.</b>	<b>73.69 per cent.</b>	<b>.....</b>	<b>.....</b>	<b>Dec. 1.82</b>

\* These figures do not include the operation of the Lehigh Valley Coal Company, for which see page 135.

an increase over the corresponding fiscal year, 1897, of \$183,371, or .94 per cent.

The expense of operation amounted to \$14,188,227.88, a decrease, as compared with the previous fiscal year, of \$225,102.67, or 1.56 per cent.

The net earnings from operation amounted to \$5,554,310.08, an increase over the previous fiscal year of \$408,473.67, or 7.94 per cent.

The percentage of operating expenses to earnings was 71.87 per cent, as compared with 73.69 per cent in 1897, a decrease of 1.82 per cent.

#### COAL TRAFFIC.

The earnings from transportation of anthracite and bituminous coal were \$8,436,391.89, a decrease of \$124,026.18, or 1.45 per cent, as compared with the previous year.

There were 11,574,835 net tons of coal transported during the year, an increase of 44,783 tons as compared with the previous year, or 3.88 per cent.

The average rate per ton was 72.89 cents, as against 74.24 cents for the previous year, a decrease of 1.35 cents, or 1.82 per cent.

The average rate per ton per mile was .630 cent, as against .672 cents for the previous year, a decrease of .042 cent, or 6.25 per cent.

The number of tons carried one mile was 1,339,436,383, an increase of 65,687,322 ton miles, or 5.16 per cent.

The coal was carried an average distance of 115.72 miles, an increase of 5.25 miles, or 4.75 per cent.

#### MERCHANDISE TRAFFIC.

The earnings from miscellaneous freight traffic were \$7,571,978.39, an increase of \$168,507.56, or 2.28 per cent, as compared with the previous year.

The total tonnage, exclusive of Company material, was 7,373,933 tons, an increase of 1,034,407 tons, or 16.32 per cent.

The average rate per ton was 102.69 cents, a decrease of 14.09 cents, or 12.07 per cent.

The average rate per ton per mile was .403 cent, a decrease of .072 cent, or 15.06 per cent.

The number of tons carried one mile was 1,864,684,005, an increase of 316,394,560 ton miles, or 20.44 per cent.

The miscellaneous freight was carried an average distance of 252.88 miles, an increase of 8.65 miles, or 3.54 per cent.

Company's material amounted to 175,351 tons, a decrease of 30,746 tons, or 14.92 per cent.

#### PASSENGER TRAFFIC.

The earnings from passenger traffic were \$2,718,858.43, an increase of \$46,311.30, or 1.73 per cent.

The total number of passengers carried was 4,569,005, a decrease of 312,605 passengers, or 6.40 per cent.

The average receipts per passenger were 59.51 cents, an increase of 4.76 cents, or 8.69 per cent.

The average receipts per passenger per mile were 1.856 cents, a decrease of .117 cent.

The number of passengers carried one mile was 146,509,672, an increase of 11,020,661 passenger miles, or 8.13 per cent.

The average distance each passenger traveled was 32.07 miles, an increase of 4.32 miles, or 15.57 per cent.

The passenger train miles for the fiscal year ended

November 30th, 1898, were.....4,789,009 miles.

For fiscal year ended November 30th, 1897 (estimated).....5,786,820 "

Showing a reduction of ..... 997,820 miles.

\*No records available for year 1897.

The average number of passengers carried one mile per mile run by passenger trains increased from 23½ passengers in 1897 to 30½ in 1898, an increase of 7 passengers, or 29.79 per cent.

#### EXPRESS AND MAIL.

The earnings from express and mail traffic were \$402,958.53, an increase of \$36,291.85 over the previous year, or 9.89 per cent.

#### MISCELLANEOUS EARNINGS.

The miscellaneous earnings were largely derived from the coal docks at Perth Amboy, Buffalo, North Fair Haven, and Ithaca, the earnings from which were, for the year ended November 30th, 1898, \$394,367.50, an increase of \$43,230.14 over the previous year, or 12.31 per cent.

The rents received from real estate belonging to the Company, occupied by other parties, was \$154,725.04, a decrease of \$3,700.19 as compared with the previous year, or 2.33 per cent.

The remainder of the miscellaneous earnings was derived from telegraph, dining cars and restaurants, news privileges, storage, &c., and aggregated \$63,198.13, an increase of \$16,756.52 as compared with the previous year, or 36.08 per cent.

#### OPERATING EXPENSES.

The policy of the present management has been, and for some time to come must continue to be, in the line of liberal, and perhaps unusual, expenditures on both roadbed and equipment, in order to adapt the property to the most economical operation.

Substantially all the business of the Company is competitive or governed by rates, and a study of the figures in this report (and especially a comparison of them with figures in previous reports) will show that rates are steadily and rapidly declining. To derive any profit from them the railway must be so improved in its characteristics as to be able to work much more cheaply than ever before.

The companies with which the Lehigh Valley Railroad is in competition have been adapting themselves to like requirements for many years; but the Lehigh Valley Railroad, having done less in these respects until recently, must now proceed with greater activity.

The special changes contemplated during the present year are: (1) the substitution of heavy engines for some of the lighter ones, so as to admit of heavier train loads; (2) lengthening of sidings, &c., to hold the longer trains; (3) strengthening of bridges to carry heavy engines; (4) concentration of shop work; (5) continued improvement of equipment. Every dollar expended for these purposes is in the direction of ultimate, and to some extent immediate, economy of operation.

#### MAINTENANCE OF WAY AND STRUCTURES.

The cost of Maintenance of Way and Structures for the year was \$2,036,050.09, an increase of \$2,561.41, or 4.23 per cent.

Towards facilitating the prompt movement of traffic, and thus conducing towards economy in "Conducting Transportation," expenditures have been made during the year for additional tracks and sidings, together with other facilities for the acquisition of business, the cost of which it is thought prudent at this time to charge against operating expenses. The details of these expenditures on the several divisions, amounting in the aggregate to \$319,962.69, will be found in the pamphlet report.

Included in the repairs and renewals made during the year were the following:

Repairs of docks and coal stocking grounds, Perth Amboy.....	\$54,162.51
Dredging at Perth Amboy.....	5,236.50
Paving roadway, Grand Street, Jersey City.....	6,133.32
New coal trestle at Allentown.....	4,235.61
Renewal and extension of water tank and standpipes at Wilkes-Barre.....	3,453.56
New coaling trestle at Sayre.....	10,803.76
Filling trestles on Auburn Division.....	11,650.32
New passenger and freight station at Martville.....	1,226.11
Filling trestles on Buffalo Division.....	9,300.00

Track repairs include 7,199.57 tons of 90-pound steel rails and 41.02 tons of 80-pound steel rails, which were laid in the track, with the necessary frogs, switches, &c. There were also laid 627,417 cross-ties and 2,692,762 feet B. M. of switch and bridge ties.

The rails on the Thorndale Branch were taken up during the year, owing to the supply of bark on that line being exhausted.

Additions to the interlocking plants, costing \$21,676.45, were also made during the year.

The expense of repairs of bridges amounted to \$250,511.92, including \$146,189.32 for renewals of iron bridges.

#### MAINTENANCE OF EQUIPMENT.

The condition of the locomotives, passenger cars, freight, coal, and service cars has been maintained during the past year. On November 30th, 1898, your equipment was in better general condition than at the end of the previous fiscal year, there being 1,413 cars of all classes in shop, or awaiting repairs, as compared with 2,005 cars for the corresponding date of 1897; and 73 locomotives, as compared with 80 locomotives in 1897.

It should be remembered, however, that a considerable portion of your equipment is of an obsolete type, particularly the four-wheel coal cars, which are being condemned and taken out of service as rapidly as good judgment

warrants. There are also a number of engines which, owing to their light capacity, are not economical for service, and it will be necessary to replace them with engines of greater tractive power at an early date. During the period required to restore such portions of your equipment to a modern standard, it is to be expected that the expenditures charged to maintenance will be unusually heavy, but when completed the resulting saving in cost of transportation should be large.

The expense of Maintenance of Equipment amounted to \$3,126,026.66, an increase of \$129,163.03 as compared with the previous year, or 4.31 per cent.

In this amount is included the estimated cost to replace the following equipment worn out or destroyed:—

18 locomotives.....	\$185,250.00	1 passenger car.....	\$6,325.00
2663 4-wheel coal cars.....	303,582.00	1 express car.....	2,267.00
68 8-wheel coal cars.....	30,200.00	3 combination cars.....	1,628.00
194 box cars.....	76,337.38		
41 other freight cars.....	12,544.95	Total.....	\$666,652.40
5 caboose cars.....	1,875.00		
151 service cars.....	33,643.07		

This amount was credited to the Equipment Renewal Reserve Account, the credit balance of which at the beginning of the year was \$635,320.78. The balance of account for Depreciation of Equipment of Controlled Companies, \$288,966.48, has been added to these amounts, bringing the total credit to Equipment Renewal Reserve Account up to \$1,590,939.66.

Against this has been charged equipment bought as follows:

1,000 box cars, costing.....	\$186,801.03
14 locomotives.....	157,753.72
1 dining car.....	11,645.00
There were built in the Company's shops:—	
14 box cars, Car Trust "Series A" on account.....	5,875.26
1 coal car, Car Trust "Series B".....	804.47
14 coal cars, Lehigh Valley Terminal Railway Car Trust.....	6,320.18

Total charges during the year..... 769,199.76

Leaving a credit balance, November 30th, 1898, available for the purchase of new equipment to replace equipment destroyed as it will be required, of..... \$321,739.90

In addition, the cost of 250 box cars, amounting to \$146,700.27, was charged to Maintenance of Equipment; 1,582 cars were equipped at the Company's shops with master car builder couplers, and 70 cars with air brakes, at a total cost of \$45,736.18, which was also charged to the same account.

The total number of locomotives owned on November 30th, 1898, by the several roads in your system was 736, of an average age of 10 1-5 years.

The total tonnage capacity of your freight and coal equipment in service November 30th, 1898, was 889,732 tons, as compared with 873,558 tons the previous year, an increase of 16,174 tons. Of your total coal and freight equipment, 24,654 cars, or 58.27 per cent, are now equipped with master car builder couplers; and 13,613 cars, or 32.18 per cent, with air brakes.

The average mileage made by engines was 45,653.8 miles in passenger service and 31,549.5 miles in freight service. The greatest mileage was 118,433 miles in passenger service and 57,363 miles in freight service.

#### CONDUCTING TRANSPORTATION.

The items of operating expenses comprised under the heading of Conducting Transportation amount to \$3,242,905.84, a decrease as compared with the previous year of \$104,484.54, or 4.68 per cent, notwithstanding an increase of coal and freight transported one mile of 382,081,882 tons and of 11,020,461 passengers carried one mile.

Large decreases are shown in the cost of train and engine service, car service, and cleaning and inspecting cars.

Rents of tracks and terminals increased, due to the heavier movement of traffic on lines belonging to other companies over which your company has trackage rights.

The increase in fuel for locomotives is due to the heavier traffic; and the increase in station agents and clerks is attributable to a re-classification of employees now placed under this head instead of under another account, as formerly.

#### GENERAL EXPENSES.

The general expenses amounted to \$568,388.37, a decrease of \$27,062.14 as compared with the previous year, or 4.54 per cent.

#### LEHIGH VALLEY TRANSPORTATION COMPANY.

The fleet of the Lehigh Valley Transportation Company, operating on the Great Lakes, and which is owned entirely by your Company, consists of the following vessels:—

##### STEEL STEAMERS.

	Carrying Capacity
"E. P. Wilbur," built in May, 1888.....	3,000 tons.
"Seneca," built in August, 1889.....	3,000 "
"Saranac," built in April, 1890.....	3,000 "
"Tuscarora," built in June, 1890.....	3,000 "

##### WOODEN STEAMERS.

	Carrying Capacity
"Tacoma," built in August, 1881.....	2,250 tons.
"Oceanica," built in September, 1881.....	2,050 "
"Clyde," built in September, 1881.....	1,800 "
"R. A. Packer," built in September, 1881.....	1,320 "
"H. E. Packer," built in September, 1882.....	1,650 "
"Fred Mercur," built in October, 1882.....	1,650 "

Total carrying capacity..... 22,720 tons.

## FLOATING EQUIPMENT.

The floating equipment of the Easton & Amboy Railroad employed in New York Harbor and Long Island Sound consists of:

4 tugs, 40 barges, 7 propellers.

In addition to these the Easton & Amboy Railroad Company owns one half interest in the New York Lighterage & Transportation Company, owning:

5 tugs, 76 floats, 1 wrecking boat.

There are also 225 canal boats, 15 scows, 2 dredges, belonging to the Company, operated on the Morris Canal.

## FINANCIAL.

The mortgage of the Lehigh Valley Railroad Company dated May 15th, 1868, bearing 6 per cent interest per annum, known as the First Mortgage, matured, under its terms, on June 1st last.

As it was deemed to the interest of your Company, in lieu of providing for the payment of said issue of bonds, to arrange with the holders for the extension of the time of payment of the principal thereof to June 1st, 1948, and for the reduction of the interest thereon to 4 per cent per annum, payable semiannually in gold coin, free of taxes, your Board authorized and instructed the officers of the Company to cause to be prepared a suitable extension agreement and the necessary coupon sheets, and to cause to be stamped on the face of each of the said bonds, coupon or registered, when presented, the words "Extended at 4% per annum interest, in accordance with the annexed agreement."

Under the authority thus given, practically the entire issue of these bonds has been presented and extended.

Both the original trustees named in this mortgage being dead, your Company appointed The Girard Life Insurance, Annuity & Trust Co. of Phila. as trustee to succeed them.

The issue of sterling bonds under the Consolidated Mortgage was extinguished by the final drawing of bonds of the par value of \$284,000, payable Dec. 1, 1897, all of which, with the exception of one bond, have been presented and paid.

The semiannual amounts due on car trusts, \$100,000 on series A and \$50,000 on series B, were paid; and payments to the amount of \$75,000 on account of the provisions of the sinking fund of the Mortgage and Collateral Trust Deed were made to the trustees, reducing the principal of said mortgage by a corresponding amount. The total principal of your funded debt was thus reduced \$509,000 during the year.

The increase in charge for interest on funded debt is due to a full year's interest being included on the Mortgage and Collateral Trust Bonds issued in 1897, in which year interest was charged only from the date of sale of the bonds; the increase thus shown was reduced by the saving in interest on the First Mortgage bonds and by the interest on bonds retired as noted above.

Your Company has no floating debt.

## CAPITAL STOCK.

The share capital of the Company remains unchanged. It consists of—

800,696 shares common stock, par \$50.....\$40,334,800 00  
2,126 shares preferred stock, par \$50..... 106,300 00

Total capital stock .....\$40,441,100 00

## GENERAL REMARKS.

The Joint Traffic Association, of which this Company with thirty-one others was a member, as stated in previous reports, was dissolved in November last, in obedience to a decision of the Supreme Court of the United States that its articles of association were violative of the statute known as the Sherman Anti-Trust Act. No substitute for the method thus abandoned has yet been devised for bringing the trunk lines of the country into such harmonious co-operation as is essential to the maintenance of just rates for transportation. There is, however, reason to believe that public opinion is awakening to the importance of preserving the railroads of the country from destruction, and that the aid of the Government, by legislation or otherwise, and of the business community, may ere long be given to the honest and earnest efforts which are being made to adopt and maintain impartially rates that shall promote and not restrict the trade of the country.

The account with the Philadelphia & Reading Railroad Company, lessees, is in the same position as stated in the last annual report, no agreement having been reached. The Company's attorneys are prepared to bring this matter to an issue at an early date, so that a legal determination of your claims under the lease may be secured.

Mr. Stephen Little was requested to make an examination of, and to verify, the accounts of the Railroad Co. and the Coal Co. for the fiscal year. His certificate as to their correctness is hereinafter submitted for your information.

The general balance sheet and detailed statements of earnings and expenses, together with various statistical tables, will be found appended to this report.

A summary of the operations of the Lehigh Valley Coal Company during the year, its general balance sheet, income account, and profit and loss account, are shown in the following pages.

Net results from operation of RR. Co. for year.....profit, \$474,104 43  
Net results from operation of Coal Co. for year.....loss, 1,142,807 41

Total debit for the year (both companies).....\$668,702 98  
This debit is more than represented by the amount expended for colliery improvements during the year, viz., \$700,648 90

which is included in the loss of the Coal Company,

Mr. Charles Hartshorne resigned as Vice-President, which office he had held continuously for thirty years from 1868, with the exception of the years 1880 to 1882 inclusive, during which period he was President of the Company. His resignation as Vice-President became effective January 1st, 1899.

Mr. Thomas McKean, a valued member of the Board of Directors, died on March 16th last. Mr. Wilson S. Bissell, of Buffalo, N. Y., was elected a Director of the Co. May 18, 1898, to fill the vacancy caused by the death of Mr. McKean.

By order of the Board,

ALFRED WALTER, President.

## CONDENSED BALANCE SHEET NOVEMBER 30TH, 1898, AND COMPARISON WITH NOVEMBER 30TH, 1897.

## LEHIGH VALLEY COAL COMPANY.

There was produced during 1898, from the collieries operated by the Lehigh Valley Coal Company and its tenants, and from collieries operated by tenants of the land companies in which the Lehigh Valley Coal Company or the Lehigh Valley Railroad Company is interested through ownership of stock, a tonnage aggregating 4,426,138 17 tons of all sizes, an increase of 41,696 06 tons as compared with the figures for 1897.

The sources from which this tonnage was derived during 1898 are shown in the table below, together with the amounts derived from the same sources during the fiscal years of 1897 and 1896, viz.:

	1898.	1897.	1896.
Lehigh Valley Coal Company.....	2,609,126 00	2,613,725 15	2,519,756 18
Tenants of Lehigh Valley Coal Company.....	1,113,447 15	1,139,003 03	1,492,155 18
Other tenants.....	703,565 02	631,713 13	786,278 04

Total tonnage.....4,426,138 17 4,384,442 11 5,098,191 00

The tonnage for 1898, with the exception of that from North Franklin, amounting to 58,113 04 tons, was transported to market over the Lehigh Valley system.

The capacity of the collieries operated by the Lehigh Valley Coal Company in 1898 averaged about 19,000 tons per day, but the changes and improvements which have been made during 1898, the results of some of which have not been felt as yet, together with those contemplated during the early part of 1899, will increase this amount by the time the busy season opens to about 22,500 tons per day.

During the month of October the total shipments over the Lehigh Valley Railroad amounted to 969,530 tons of anthracite coal (exclusive of trackage coal, etc.), of which the Lehigh Valley Coal Company contributed 395,596 tons, or about 40 8 per cent, making it the largest single month's shipment in the history of both the Railroad and Coal Company.

The cost of mining at the collieries operated by the Lehigh Valley Coal Company, based upon shipments of all sizes, and including in addition to the regular mining expenses all charges to general expense, royalty, sinking fund, insurance, taxes, depreciation and improvement account, was per ton, for the years 1896, 1897, and 1898, respectively: \$1 8994, \$1 5522 and \$1 7881.

NOTE.—No allowance was made in cost of mining in 1897 for depreciation of the old improvement account.

## IMPROVEMENT CHARGES.

During the year 1899 there was expended at the anthracite mines \$700,648 90 for colliery improvement work, by which is meant expenditures for dead work and facilities made (1) with a view to opening mining territory, and (2) for the purpose of effecting substantial savings in the cost of your future mining operations. All this expenditure has been charged directly to income.

The cost of mining has also borne a depreciation charge of five cents per ton, amounting to \$130,456 29, which, together with the sum first mentioned, makes a total of \$831,105 19 charged to cost of mining for the year on account of new work and for reduction of the old improvement account.

This amount was, of course, abnormal, but it was nevertheless necessary last year in order to facilitate the purposes above indicated. The success of the Lehigh Valley properties, both railway and coal, must largely depend upon economy of operation; therefore the interests of all concerned will be promoted by reaching such economy as rapidly as it can consistently and judiciously be reached.

With the uncertainties which at all times surround the anthracite trade, it is essential that the Lehigh Valley Coal Company shall be able to mine as cheaply as its competitors, otherwise, in times of keen competition like the present, it must either do business at a loss or withdraw from the coal business altogether.

The present cost of mining by the Lehigh Valley Coal Company is too high, and reduction must come from concen-

tration of work and improvement of appliances for mining. This necessarily involves the systematic abandonment or alteration of much existing plant, including small "breakers." The replacement of the property so abandoned is a heavy drain on income, but other companies which have gone through the process are now deriving the benefits, and it is fully believed that a like result will attend the Lehigh Valley Coal Company in due time.

In view of the large expenditures for colliery improvements during the last fiscal year, it is believed that a state of efficiency has been reached which will obviate the necessity for unduly large expenditures in the present fiscal year; their extent thereafter must depend upon circumstances not yet fully determined.

Following will be found the principal items included in the expenditures for 1898, above referred to, viz.:

<b>FRANKLIN COLLIERY:—</b>		
New boiler plant.....		\$14,293 18
<b>PROSPECT COLLIERY:—</b>		
New breaker.....	\$131,674 66	
New boiler plant.....	54,597 12	
New slopes and pumping plant.....	49,509 83	
Grading.....	12,376 27	
Scales and offices.....	1,369 03	
New mine cars.....	4,501 12	
	<hr/> 254,028 63	
<b>HENRY COLLIERY:—</b>		
New boiler plant.....	\$57,978 99	
Shaft tower.....	1,763 11	
Compressor plant.....	1,510 08	
New cars.....	986 25	
	<hr/> 62,238 43	
<b>WYOMING COLLIERY:—</b>		
New slopes.....		17,655 80
<b>MALDEN COLLIERY:—</b>		
New cars.....		2,195 00
<b>EXETER COLLIERY:—</b>		
New boiler plant.....	\$2,803 52	
New shafts.....	26,856 09	
New cars.....	861 25	
	<hr/> 30,520 86	
<b>HAZLETON No. 1 COLLIERY:—</b>		
New tunnel.....		24,783 78
<b>HAZLETON SHAFT COLLIERY:—</b>		
New breaker.....	\$124,403 17	
New boiler plant.....	17,339 80	
New shaft and pumping plant.....	40,241 13	
Tracks and grading.....	19,547 40	
Holisting plant.....	12,968 49	
Outbuildings and scales.....	4,072 94	
New cars.....	18,984 42	
	<hr/> 237,556 85	
<b>CENTRALIA COLLIERY:—</b>		
New breaker.....	\$22,100 23	
Holmes rock plane.....	30,325 83	
Seven-foot slope.....	1,051 61	
Ramps and warehouses.....	1,829 42	
New cars.....	2,089 80	
	<hr/> 57,396 59	
<b>Total.....</b>		<hr/> \$700,648 90

Included in the cost of mining coal was the sum of \$54,140 05 for account of the sinking fund under the terms of the mortgage of 1892. This amount has been paid to the trustees under the mortgage, for the purchase and cancellation of bonds. There were purchased during the year \$100,000 par value of bonds, secured by mortgage on the Snow Shoe Lands; and \$25,000 was paid to the trustees under the same mortgage on account of sinking fund, leaving the principal of said mortgage outstanding at the close of the year, \$375,000.

NEW YORK, December 31st, 1898.

ALFRED WALTER, ESQ.,

President Lehigh Valley Railroad Company:

DEAR SIR:—Complying with your request, I beg to report that I visited Philadelphia, Pa., and in the Comptroller's office of your Company there, examined and verified—

I.

The general profit and loss accounts of the Lehigh Valley Railroad Company and the Lehigh Valley Coal Company respectively, with the adjustments therein, for the fiscal year ended November 30th, 1898;

II.

The earnings and operating expenses and income accounts of the Lehigh Valley Railroad Company and the Lehigh

Valley Coal Company, respectively, for the fiscal year ended November 30th, 1898;

III.

Their general balance sheets at November 30th, 1898.

I therefore certify that the elements constituting such general profit and loss accounts, income accounts and balance sheets, are fully and fairly set forth, and reflect truthfully the transactions of the two Companies, respectively, for the year under review, and their financial condition at the end thereof.

As usual, every courtesy and facility necessary to my examination were freely extended to me, and is hereby acknowledged.

Yours very truly,

STEPHEN LITTLE.

### LEHIGH VALLEY RAILROAD—STATEMENT OF EARNINGS AND EXPENSES FOR FIVE YEARS, 1894 TO 1898, INCLUSIVE.

#### EARNINGS.

	Coal Traffic.	Freight Traffic.	Passenger Traffic.	Express and Mail.	Miscellaneous Sources.	Gross Earnings.	Net Earnings.
1894.....	\$8,391,541 81	\$5,982,857 70	\$2,104,677 12	\$262,590 95	\$588,926 19	\$17,330,593 77	\$4,009,764 52

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, January 20, 1899.

Thus far the progress of the new year has been marked by a steady increase in business activity. Manufacturers and jobbers in nearly all lines of merchandise have reported a fairly good run of orders at satisfactory prices. Demand for raw materials also has improved and the tendency of prices has been towards a higher basis. Cotton has been fairly active and higher. The sharp falling off in the crop movement noted latterly is beginning to exert a greater influence upon the situation. Breadstuffs have been only moderately active, as exporters have been disposed to hold off in the hope that by keeping out of the market for a time prices would weaken. Thus far, however, prices have held to a steady basis. The strength and activity in the metal market, particularly copper, has received considerable attention. Disquieting reports have been received from Samoa, and warships have been ordered there by Great Britain and by the United States.

Lard on the spot has been in only limited demand, but there has been no pressure to sell, and prices have advanced, closing at 5.90c. for prime Western and 5.30c. for prime City. Refined lard has been quiet, but prices have advanced and the close was firm at 6c. for refined for the Continent. Speculation in lard for future delivery has been moderately active, and prices have advanced on buying by commission houses, stimulated by the smaller receipts of swine. The close was firm:

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January.....	5.80	5.87	5.82	5.85	5.87	5.82

Pork has had a fairly large sale and prices have been firm, closing at \$9.50@10.00 for mess, \$10.50@11.00 for family and \$10.50@12.50 for short clear. Cut meats have been quiet and values have been barely maintained, closing at 3½¢@4c. for pickled shoulders, 6½¢@7½¢. for pickled hams and 5½¢@5½¢. for pickled bellies, 14¢@10 lbs. average. Beef has had a fair sale at steady prices, closing at \$3.50@9.00 for mess, \$9.00@10.00 for packet; \$11.00@12.00 for family and \$14.00@15.00 for extra India mess. Beef hams have been dull at \$19.00. Tallow has been firm but quiet at 4c. Oleo stearine has been more active and firmer, closing at 6c. Lard stearine has advanced to 6½¢. Cotton seed oil has been in moderate demand and firmer, closing at 23¢@23½¢. for prime yellow. Butter declined early in the week, but the close was firm at 13¢@10¢. for creamery. Cheese has been in moderate demand and firm at 7¢@11½¢. for State factory, full cream. Fresh eggs have sold at lower prices, but the close was at some recovery from bottom prices, at 19c. for choice Western.

Brazil grades of coffee have had only a limited distributing sale, the trade generally being disposed to hold back and await developments. Supplies in sight were large, still there was no pressure to sell, and values have held to a steady basis. The market for invoices has been quiet and unchanged, closing at 6½¢. for Rio No. 7 on the spot. Mild grades have been quiet but steady at 8c. for fair Cuzcuta. East India growths have been in better demand and firm for desirable grades, closing at 25c. for standard Java. Speculation in the market for contracts has continued quiet and prices have weakened slightly under limited offerings, a continued full movement of the crop, and in response to easier European advices. The close was steady. The following are final asking prices:

Jan.....	5.35c.	April.....	5.65c.	Aug.....	5.85c.
Feb.....	5.40c.	May.....	5.70c.	Sept.....	5.90c.
Mar.....	5.55c.	July.....	5.80c.	Oct.....	5.95c.

Raw sugars have been more freely offered. Demand has been light, and prices have weakened to 4½¢. for centrifugals, 96-degrees test, and 3¾¢. for muscovado, 89-degrees test. Refined has been quiet but steady at 5c. for granulated. Pepper has been active and higher, on prospective short supplies. Teas have been firm.

Kentucky tobacco has been in moderate demand and prices have held firm. Seed leaf tobacco has had only a limited sale, but prices have been steady. Sales for the week 1.00 cases; also 600 bales Havana at 60¢@90c. in bond and 120 bales Sumatra at 80c. @ \$1.60 in bond.

Business in the market for Straits tin has been fairly active, the consuming trade continuing in the market for supplies despite the higher prices ruling. Cable advices have been stronger, indications being that the market was under close control and shorts were nervous. The close was firm at 22½¢@22½¢. Ingot copper has been in demand, and under moderate offerings prices have advanced to 14½¢. for Lake. Lead has advanced, but the close was quiet at 4.25¢@4.30c. for domestic. Spelter has been in moderate demand and firmer, closing at 5.30¢@5.40c. for domestic. Pig iron has been less active, and values have been unchanged at \$10.25¢@12.25 for domestic.

Refined petroleum has been steady, closing at 7.40c. in bbls., 4.90c. in bulk and 8.15c. in cases. Naphtha higher at 10c. Crude certificates have been dull; credit balances have been steady at \$1.16. Spirits turpentine has been dull and easier, closing at 43½¢@44c. Rosins have been dull and prices have weakened to \$1.37½¢@1.49 for common and good strained. Wool has been quiet but steady. Hops have been in moderate demand and firm.

—The 29th annual statement of the Home Life Insurance Company is gratifying, and reflects credit upon the management of this company. The total income for 1898 was \$3,212,055, while the total disbursements aggregated \$1,672,345. The amount of insurance in force is \$45,574,331. The assets admitted by the Insurance Department of the State foot up \$10,550,150. The surplus amounts to \$1,152,963. The yearly work shows a gain in assets, a gain in surplus, a gain in new business, a gain in premium income and a gain in insurance in force. In fact, on all the lines of progress the Home Life has made a noteworthy advance.

—Albert Loeb & Co. offer to investors at 107 and accrued interest \$500,000 Brooklyn Queens Co. & Suburban Ry. Co. first consolidated 5 per cent gold bonds, payable in 1941 and redeemable at the company's option July 1916. The principal and interest of these bonds are guaranteed by the Brooklyn Heights RR. Co. and the entire capital stock of both companies is owned by the Brooklyn Rapid Transit Co.

—B. L. Smyth & Co. offer, at 87½ and interest, netting 5¾ per cent to investors, \$150,000 Sherman Shreveport & South ern Railway Co first mortgage 5 per cent gold bonds due June 1, 1943. The bonds are unconditionally guaranteed, both principal and interest, by the Missouri Kansas & Texas Railway Co., as endorsed on each bond.

—C. B. Van Nostrand, 36 Wall Street, makes a specialty of dealings in Hocking Valley securities and also in new securities "when issued."

—G. Sidenberg offers to investors a selection of high-grade railroad bonds advertised in another column.

## COTTON.

FRIDAY NIGHT, January 20, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 207,595 bales, against 208,902 bales last week and 235,960 bales the previous week, making the total receipts since the 1st of Sept., 1898, 6,500,432 bales, against 6,379,149 bales for the same period of 1897-8, showing an increase since Sept. 1, 1898, of 121,283 bales.

Total 1897...	101,926	14,631	78,079	4,873	189,509

Speculation in cotton for future delivery has been on a fairly extensive scale. The tendency of prices has been towards a higher basis. The improvement has been based primarily on the fact that the movement of the crop has continued light. During the latter part of the week more favorable weather conditions were reported at the South, but it was also stated that despite that fact no material increase in the movement of the crop need be expected for the remainder of this month. The buying by outsiders for investment has continued the principal feature of the trading. There has been considerable selling for foreign account, and recent buyers in a number of instances have sold to realize profits. The new buying, however, has had sufficient force to absorb these offerings and carry prices to a higher basis. Foreign advices have been stronger, the continued small movement of the crop at the South evidently beginning to have some influence, despite the fact that markets abroad, particularly Liverpool, were carrying large stocks. To day the market opened easier on disappointing foreign advices and selling for foreign account. Subsequently, however, the small movement of the crop for the week stimulated an active demand for investment account, Wall Street commission houses being the principal buyers, and prices advanced. The close showed a net gain for the day of 1 to 8 points for the near-by deliveries, but the distant months were 1 point lower. Cotton on the spot has been more active and firmer, a sale on Tuesday of 4,015 bales for consumption, being the feature of the trading. Prices declined 1 1/2c. on Monday, but advanced 1/4c. on Wednesday. The close was firm at 6 1/2c. for middling uplands.

The rates on and off middling, as established Nov. 16, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	0. 1 1/4 on	Good Ordinary.....	0. 1 1/2 off
Middling Fair.....	7/8 on	Good Middling Tinged.....	Even
Strict Good Middling.....	1/2 on	Strict Middling Stained.....	3/4 off
Good Middling.....	3/8 on	Middling Stained.....	7/8 off
Strict Low Middling.....	2 1/2 off	Strict Low Mid. Stained.....	1 off
Low Middling.....	7/8 off	Low Middling Stained.....	1 1/2 off
Strict Good Ordinary.....	3/4 off		

On this basis the official prices for a few of the grades for the past week—Jan. 14 to Jan. 20—would be as follows.

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	5	4 1/2	4 1/2	5 1/2	5 1/2	5 1/2

Good Middling Tinged.....	6 1/2	6	6	6 1/2	6 1/2	6 1/2

The quotations for middling upland at New York on Jan. 20 for each of the past 32 years have been as follows.

1899.....	6 1/2	1891.....	9 3/4	1883.....	0. 10 1/2	1875.....	0. 15 3/4
1898.....	5 1/2	1890.....	10 1/2	1882.....	12	1874.....	16 3/4
1897.....	7 1/2	1889.....	9 1/2	1881.....	11 1/2	1873.....	20 3/4
1896.....	8 1/2	1888.....	10 1/2	1880.....	12 1/2	1872.....	22 3/4
1895.....	5 1/2	1887.....	9 1/2	1879.....	17 1/2	1871.....	15 3/4
1894.....	7 1/2	1886.....	9 1/2	1878.....	11 1/2	1870.....	25 3/4
1893.....	9 1/2	1885.....	11 1/2	1877.....	13 1/2	1869.....	29 3/4
1892.....	7 1/2	1884.....	10 1/2	1876.....	13	1868.....	17 1/2

NOTE.—On Oct. 1, 1874, grades of cotton as quoted were changed. According to the new classification Middling was on that day quoted 3c. lower than Middling of the old classification.

**THE VISIBLE SUPPLY OF COTTON** to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Jan. 20), we add the item of exports from the United States, including in it the exports of Friday only.

	1899	1898	1897	1896
Stock at Liverpool.....bales.	1,018,000	1,008,000	1,193,000	1,111,000
Stock at London.....	4,000	4,000	8,000	5,000
Total Great Britain stock.	1,022,000	1,012,000	1,201,000	1,116,000
Stock at Hamburg.....	18,000	7,000	13,000	23,000
Stock at Bremen.....	316,000	351,000	191,000	276,000

The imports into Continental ports the past week have been 122,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 399,591 bales as compared with the same date of 1898, a gain of 956,598 bales over the corresponding date of 1897 and an excess of 1,112,939 bales over 1896.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897-98—is set out in detail below.

TOWNS.	Movement to January 20, 1899.			Movement to January 21, 1898.		
	This week.	Since Sept. 1, '98.	Stock Jan. 20.	This week.	Since Sept. 1, '97.	Stock Jan. 21.
Alabama.....	188	13,897	330	1,663	380	2,049

Ohio.....	30,614	710,203	30,970	81,509	31,185	71,200
Oklahoma.....	325	28,752	325	318	19,704	319
Oregon.....	385	18,012	476	1,038	19,890	255
Pennsylvania.....	13,878	188,050	16,866	16,364	8,447	150,129
Rhode Island.....	75	13,609	73	185	13,402	185
South Carolina.....	10,945	548,516	13,620	135,144	13,068	400,491
Tennessee.....	859	18,273	3,852	2,484	5,66	25,939
Texas.....	859	18,273	1,192	2,484	1,773	39,357
Vermont.....	617	81,989	749	1,601	984	113,324
Virginia.....	28,648	219,250	38,179	1,055	43,303	143,967
Washington.....	1,092	73,517	675	2,781	80,500	2,182
West Virginia.....	120,025	5,460,511	144,202	673,768	139,835	4,703,980
Wisconsin.....	139,835	4,703,980	160,384	602,828	160,384	602,828

The above totals show that the interior stocks have decreased during the week 24,177 bales, and are to-night 70,940 bales more than at the same period last year. The receipts at all the towns have been 19,330 bales less than the same week last year, and since Sept. 1 they are 756,531 bales more than for the same time in 1897-98.

**OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.**—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Jan. 20 and since Sept. 1 in the last two years are as follows.

Shipped—	1898-99		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Jan. 20.				
Via St. Louis.....	30,970	643,770	30,736	576,727
Via Cairo.....	16,690	277,246	11,005	235,741
Via Parker.....			1,058	18,285
Via Rock Island.....	256	35,785	1,525	35,249
Via Louisville.....	9,436	110,301	6,977	76,220
Via Cincinnati.....	7,597	91,30	4,431	71,762
Via other routes, &c.....	5,086	106,036	4,129	91,805
Total gross overland.....	70,035	1,267,127	59,861	1,105,769
Deduct shipments—				
Overland to N. Y., Boston, &c.....	21,817	317,651	20,562	273,756
Between interior towns.....	437	18,267	76	18,901
Inland, &c., from South.....	3,231	32,152	2,191	22,151
Total to be deducted.....	25,485	368,068	22,829	314,808
Leaving total net overland.....	44,550	899,062	37,032	790,961

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 44,550 bales, against 37,032 bales for the week in 1898, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 108,101 bales.

In Sight and Spinners' Takings.	1898-99.		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Jan. 20) and since Sept. 1, 1898, the stocks to-night, and the same items for the corresponding periods of 1897-98, are as follows.

Receipts to Jan. 20.	1898-99.		1897-98.		Stocks	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1899	1898.
Savannah.....	1,263	45,004	1,623	50,968	14,804	25,292
Charleston, &c.....	181	4,893	169	9,249	2,723	6,108
Florida, &c.....	508	5,764	64	4,933	2,763	3,028
Total.....	1,952	55,661	1,861	64,950	20,290	34,428

The exports for the week ending this evening reach a total of 1,565 bales, of which 1,465 bales were to Great Britain, — to France and 100 to Reval, and the amount forwarded to Northern mills has been 1,605 bales. Below are the exports for the week and since September 1 in 1898-99 and 1897-98

Exports from—	Week Ending Jan. 20.			Since Sept. 1, 1898.			Week.	Since Sept. 1.

Quotations Jan. 20 at Savannah, for Floridas, common, 9c.; medium fine, 10c.; choice, 18c.

Charleston, Carolinas, medium fine, 18c.; fully fine, 22 to 35c.; extra fine, 40 to 50c.

**EGYPTIAN CROP.**—Mr. Fr. Jac. Andre of Boston is advised by mail under date of Alexandria, Dec. 30, that the Alexandria General Produce Association has reduced its estimate of the Egyptian cotton crop to 5,500,000 cantars.

**MEMPHIS COTTON EXCHANGE ELECTION.**—The regular annual election for officers of the Memphis Cotton Exchange, was held on the 11th inst., and the following were elected to serve during the ensuing year: C. C. Cowan, President; Cleland K. Smith, M. W. Moseley and Godfrey Frank, vice-presidents; William Bowles, Jr., John M. Richardson, S. B. Chislin, B. G. Sargent, Dennis Smith, E. W. Porter and J. B. Cabell, board of directors, and M. S. Buckingham, Treasurer. Mr. Henry Hotter was re-elected Secretary by the board of directors. This is his nineteenth consecutive annual appointment.

**JUTE BUTTS, BAGGING, &c.**—The market for bagging has been without feature the past week. There have been practically no dealings, but prices are nominally unchanged at 5½c. for 1½ lbs. and 6½c. for 2 lbs., standard grades. Car-load lots of standard brands are quoted at 6½c. for 1½ lbs. and 6½c. for 2 lbs., f. o. b. at New York. Jute butts have continued very dull at 90c. for paper quality and 1½c. for mixing.

**AUGUSTA (GA.) STRIKE, &c.**—A little progress has been made the past week in resuming operations in the cotton mills at Augusta. The Langley Mills have nearly a full force, but it is stated that the operatives will stop work upon orders from the strike committee. The Klug, Sibley and Augusta mills are running in part, but the Enterprise is entirely idle.

**SHIPPING NEWS.**—As shown on a previous page, the exports of cotton from the United States the past week have reached 227,398 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
New York—To Liverpool, per steamer Cymric, 6,204.....	6,204
To Hull, per steamer Francisco, 1,732 upland and 100 Sea Island.....	1,832

## BREADSTUFFS.

FRIDAY, January 20, 1899.

Only a limited volume of business has been transacted in the market for wheat flour and prices have been only barely maintained, indications being that to make sales sellers in some instances have been disposed to make slight concessions. Mills generally have about caught up with their orders for forward deliveries, and have shown more of a disposition to obtain new business. A limited amount of business has been transacted for export, at fair prices. Rye flour has been in moderate demand and steady. Buckwheat has had a slow sale, but values have held to a steady basis. Corn meal has been quiet and values have been barely maintained.

Speculation in wheat for future delivery has been quiet, but the tone of the market has held steady, prices for the week showing no decided changes. The export demand has been only limited and cable advices have reported rather indifferent markets. Owing, however, to the strength of the statistical position and the bullish sentiment shown by outsiders, there has been no pressure to sell and fluctuations in prices have been within a narrow range. Early in the week there was a fractional advance in prices. The increase in the visible supply was below general expectations and the world's shipments for the week were smaller than expected. Tuesday the market turned easier. A correction in the Russian shipments, the amount being increased 1,000,000 bushels was the principal depressing feature, although easier foreign advices and a larger movement of the crop in the North-west had a weakening influence. Subsequently, however, the market again turned steady. Offerings were light and on moderate buying, stimulated in part by reports that the amount of wheat remaining in farmers' hands in the North-west was small, had a strengthening influence. The spot market has been steady, but the volume of business transacted has been only very moderate, as exporters have been holding back in the hope that prices would weaken. To-day the market was dull and prices weakened slightly in response to easier foreign advices. The spot market was moderately active at slightly lower figures. Sales for export here and at outports were 280,000 bushels.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash wheat f. o. b.	80½	80½	80	80½	80½	80½
Mar. delivery in elev.	78½	78½	78	78½	78½	77½
May delivery in elev.	75½	75½	74½	75½	75	74½

### DAILY CLOSING PRICES OF NO. 2 SPRING IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery in elev.	71½	71½	70½	70½	70½	76½
July delivery in elev.	69½	69½	68½	68½	68½	68½

Indian corn futures have been quiet and no decided changes have occurred in values. Early in the week there was a fractional decline in prices, the weakness being most pronounced on Tuesday, when values weakened ½c. per bushel under slightly increased pressure to sell prompted by a larger movement of the crop and easier foreign advices. Wednesday and Thursday the market was steadier. There was a better demand and smaller receipts had a strengthening influence. Business in the spot market has been only moderately active, as exporters have been limited buyers. To-day the market was quiet but steady. The spot market was moderately active and steady. Sales for export here and at outports were 315,000 bushels.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash corn f. o. b.	43	42½	42½	42½	42½	42½
May delivery in elev.	42	41½	41½	41½	41½	41½

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Jan. delivery in elev.	34½	34½	34½	34½	34½	34½
May delivery in elev.	37	37½	36½	36½	36½	37
July delivery in elev.	37½	37½	37	37½	37½	37½

Oats for future delivery have been quiet and during the first half of the week the tone was easier in sympathy with a decline in corn. There was fairly free selling by prominent operators, and the crop movement was fairly full. Subsequently, however, there developed a steadier tone on a slightly improved demand and less pressure to sell. Business in the spot market has been quiet and prices have

weakened slightly. To-day the market was quiet and unchanged. The spot market was steady; demand was limited.

### DAILY CLOSING PRICES OF OATS IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
No. 2 mixed in elev.	34	34	33½	33½	34	34
No. 2 white in elev.	35½	35½	35½	35½	35½	35½

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS IN CHICAGO.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., January 20, 1899.

The demand in the primary market is gradually improving, but more on account of accruing requirements of jobbers and others than from any pronounced disposition on their part to purchase ahead to any extent. In the cotton goods division it has been more a question of solidifying advances already made than of further progress upwards, and prices are without material change. The conditions at first hands are, however, unusually good and probabilities favor a still higher level of values being reached. Distribution to consumers is on a liberal scale. Stocks here are limited, mills in many instances under contract for a considerable time to come, and the course of raw material is a supporting influence. It is significant that the current demand takes care of previously unsold supplies coming forward and prevents accumulation of stocks, even though buying is not of a spirited character. In the woolen goods division the situation has not developed to any extent and is still somewhat uncertain. Collections are still reported satisfactory.

WOOLEN GOODS.—There have not been any new lines opened during the week of sufficient importance or at prices calculated to change the situation in heavy-weights from what was last reported. Compared with a year ago the decline in prices as far shown may be taken as averaging from 10 to 15 per cent in both staple lines, such as Clays, serges and plain chevots, and in low and medium-grade fancies. The high-class goods have yet to be shown. In the

overcoating division kerseys and beavers are proving a disappointment, the demand running more to rough-faced fabrics than a year ago. Cloakings are dull and without special feature. Business in dress goods has been more liberal and the tone rather better. Flannels and blankets quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending January 16 were 3,830 packages, valued at \$137,457, their destination being to the points specified in the tables below:

NEW YORK TO JAN. 16.	1899.		1898

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$580,459 in 1899, against \$309,635 in 1898.

The recent advances in bleached cottons are well maintained in all grades, with a demand of moderate proportions coming forward. Wide sheetings firm but quiet. In cotton flannels and blankets the new season is approaching, and indications are that it will open at advanced prices. The export demand for heavy brown cottons has been more in evidence this week, but orders are difficult to place, owing to the oversold condition of leading mills. Home demand moderate. Fine yarn gray goods strong, with fair demand. Ducks firm, with moderate sales. Brown Osnaburgs quiet but steady. Plaids in fair request at previous prices. Denims, ticks and other coarse colored cottons quiet, with sellers at unchanged prices. Kid-finished cambrics are firm. Fancy calicos have been in moderate demand, but tone of market good. In more staple lines sellers are reserved for goods not in stock and firm on the latter. Fine wash fabrics firm. Gingham in good condition throughout and very firm in price. Print cloths have ruled quiet but prices firmly maintained.

FOREIGN DRY GOODS.—Dress goods for spring in rather better demand. Silks are firm with moderate orders. Linens in improved request at previous prices. Fair business reported in ribbons, laces and specialty departments.

IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS

The importations and warehouse withdrawals of dry goods at this port for the week ending Jan. 19, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1899 AND 1898.	Week Ending Jan. 19, 1899.		Since Jan. 1, 1899.		Week Ending Jan. 20, 1898.		Since Jan. 1, 1898.

STANDING BUSINESS CARDS.	Six Months (26 times) 50 00
Two Months (8 times) \$22 00	Twelve Months (52 times) 87 00

Beatrice, Neb.—*Bonds Valid.*—We take the following from the Omaha "Bee" of January 5, 1899, relative to the validity of \$50,000 railroad-aid bonds issued in 1889:

Judge Munger handed down a decision that is of considerable importance to the city of Beatrice and which is regarded with marked interest by everyone who is interested in municipal bonds.

In August, 1889, the city of Beatrice issued bonds amounting to \$50,000 as a bonus toward the construction of the Kansas City & Beatrice Railroad. The bonds were regularly voted and were subsequently sold to the Northwestern Mutual Life Insurance Co. For four or five years the coupons were redeemed as they matured, and then the municipal authorities refused to settle. It was asserted that some promises made by the railroad company with regard to the construction of a round-house and shops at Beatrice had not been fully carried out and the city decided that it had been confounded. Then the insurance company brought suit to compel the city to keep faith and the case was tried in the United States Court. Judge Munger has now decided that the bonds are valid and this is a practical defeat for the city.

Davenport, Iowa.—*Bond Litigation.*—Regarding the litigation over certain bonds of this city, Mr. E. M. Sharon, Counsel, writes us as follows:

The case of William Russell Allen and others against the city of Davenport relates to the paying and bonds of 1898. The Supreme Court of the State, in a decision filed December 17, 1898, held the contract between the city and the construction company to be a direct promise to pay, which the city could not make on account of being indebted above the constitutional limitation.

The Court says that the contract and the assessment and bonds based thereon are illegal, but holds otherwise that the form of bond is not a city indebtedness, being payable out of the special fund, and would be valid if based upon a legal assessment.

As a matter of fact no bonds were issued on account of the Allen paying, because no waiver as provided for in the law (Chapter 7 of the Acts of the 25th G. A. of Iowa) had been filed, but was filed in case of all bonds actually issued. A petition for rehearing will be filed by the city in the case.

Nebraska.—*Reduction in Interest.*—A bill recently introduced in the State Legislature provides for the reduction of the interest on all warrants of county, city, town, school district or other municipal subdivision less than a county, from 7 to 4% per annum. The maximum interest on county, city, township, precinct or school bonds is also reduced from 7 to 5% per annum.

New York City.—*The Mayor's Message.*—On January 10, 1899, Mayor Robert A. Van Wyck transmitted his annual message to the Municipal Assembly, the greater portion of which is taken up with a discussion of the financial condition of the city. The Mayor states that the bonded debt on January 1, 1899, was as follows:

Funded debt of New York City, issued subsequent to Jan. 1, '98.	\$30,164,900 91
Funded debt of New York City, issued prior to Jan. 1, 1898.	221,018,333 78
Funded debt of corporations in the Borough of Brooklyn, including Kings County.	8,500,867 73
Funded debt of corporations in the Borough of Queens.	7,550,221 22
Funded debt of corporations in the Borough of Richmond.	3,136,798 20

Total funded debt Jan. 1, 1899.	\$343,209,127 84
Temporary loan in anticipation of the collection of taxes.	7,000 00

Total bonded debt Jan. 1, 1899.	\$343,276,727 84
Sinking funds.	99,050,291 87

Net bonded debt Jan. 1, 1899.	\$244,226,435 97
-------------------------------	------------------

"In addition to the above figures there are bonds outstanding of various corporations now included in the city of New York as follows:

Bonds which have been approved as to legality, but which have not yet been presented for registration.	\$205,040 00
Bonds which have not yet been approved as to legality.	2,418,406 18

"The amount of the outstanding bonds of the county of Queens and of the town of Hempstead and school districts therein which will be chargeable to the city of New York has not yet been judicially determined.

"The indebtedness of Queens County represented by bonds and certificates outstanding on Dec. 31, 1897, was as follows:

Bonds.	\$4,823,000 00
Court fund loan certificates.	14,510 96

Total.	\$4,837,510 96
--------	----------------

he bonded indebtedness of the town of Hempstead on December 31, 1897, was \$470,000 00

"The bonded indebtedness of school districts in the town of Hempstead, partly within and partly outside the Borough of Queens, was on December 31, 1897, as follows:

School District No. 13.	\$800
School District No. 15.	19,000
School District No. 16.	15,000
School District No. 12.	15,000
School District No. 21.	10,000

Total.	\$44,800
--------	----------

"Litigation is now pending to determine, in accordance with the provisions of Section 1583 of the Greater New York Charter, the amount of the debt of the county of Queens which should equitably and properly be assumed by the city of New York as now constituted."

In commenting upon the budgets for the years 1898 and 1899 the Mayor makes the following comparison:

	1898.	1899.
City of New York.	\$67,197,767 14	\$83,710,793 19
County of New York.	7,434,032 14	8,961,101 09
County of Kings.	2,407,987 19	2,328,097 98
County of Queens.	118,045 90	403,846 14
County of Richmond.		118,283 73
Total.	\$77,559,332 37	\$95,520,082 63
		77,559,332 37

Increase \$15,960,749 66

The Mayor remarks that the budget for 1898, as adopted by the Board of Estimate and Apportionment (\$77,559,332 37) fell short of the requirements by \$7,175,850 88, and this sum had to be provided for in the budget for 1899. For this and other reasons the budget for 1899 is an abnormal one to the extent of more than \$10,000,000.

*Tax Valuation.*—The Commissioners of Taxes and Assessment have completed the tax rolls for 1899, and the real estate value is placed at \$2,950,046,317, an increase over 1893 of \$421,512,876. Following is a comparative table for the years 1898 and 1899:

	Real Estate.	Ass'd Valuat'n	Ass'd Valuat'n	Increase.
	1898.	1899.	1899.	
Borough.				
Manhattan.	\$1,754,982,400	\$2,062,361,475	\$307,379,075	
The Bronx.	101,685,823	123,987,520	22,301,697	
Brooklyn.	\$670,107,742	614,807,025	44,699,283	
Queens.	77,486,325	108,371,845	30,885,660	
Richmond.	24,371,561	40,518,412	16,146,861	
Total.	\$2,528,533,441	\$2,950,046,317	\$421,512,876	

\* Figures for 1897.

Pima County, Ariz.—*Bonds Valid.*—We take the following dispatch from Washington, dated January 3, 1899, from the Philadelphia "Public Ledger":

An important suit involving the validity of county bonds in Arizona was decided in the Supreme Court of the United States to day. The case validates \$289,904 worth of bonds issued by Pima County in aid of the Arizona Narrow Gauge Railroad. It was based upon a petition for a mandamus upon the Governor and other Territorial officers to compel them to issue bonds in lieu of those originally issued in 1883. The Supreme Court of the Territory denied this petition, but the opinion of the Federal Supreme Court, which was handed down to day by Justice Brown, reverses this decision and remands the case for further proceedings in compliance with the original petition. The opinion of the Court is based upon the authority of the Act of Congress of June 6, 1896.

South Dakota.—*Bill Reducing Legal Rate of Interest.*—A bill reducing the rate of interest to 10% on contract and 7% without contract has been passed unanimously by the House.

## Bond Calls and Redemptions.

Ashland, Ore.—*Bonds Redeemed.*—In 1886 this city issued 12 bonds of \$500 each, bearing 8% interest, for the purpose of obtaining funds to commence a system of water-works. During the year 1897 three of these bonds were paid and three more were paid in September and three in December, 1898, leaving three bonds outstanding.

Caldwell County, Ky.—*Bond Call.*—R. B. Ratliff, County Treasurer, has called for payment March 1, 1899, at the First National Bank, Princeton, the following bonds: Nos. 12, 19, 20, 32, 34, 45, 50, 54, 57, 61, 70, 73, 74, 88, 93, 95, 96, 105, 112, 117, 126, 149, 153, 154, 160, 163, 164, 180, 186 and 192.

Cole County, Mo.—*Bond Call.*—The county called for payment Jan. 1, 1899, 5% bonds Nos. 19 to 28, inclusive. Securities are in denomination of \$500, dated January 1, 1888.

Council Bluffs, Iowa.—*Bond Call.*—W. B. Reed, City Treasurer, has called for payment at the National Park Bank or Kountze Bros., New York City:

Intersection paving bonds, issued October 1, 1888, numbering from 142 to 148, inclusive, denomination \$500, maturing in 20 years, optional any time after 10 years, will be paid April 1, 1899.

Intersection grading bond No. 1, denomination \$500, issued March 10, 1888, maturing March 10, 1908, optional any time after 10 years, will be paid March 10, 1899.

Intersection grading bond No. 2, denomination \$500, issued March 1, 1888, maturing March 1, 1908, optional any time after 10 years, will be paid March 1, 1899.

Intersection grading bonds, numbering from 3 to 11, inclusive, issued April 2, 1888, denomination \$500, maturing April 2, 1908, optional any time after 10 years, will be paid April 2, 1899.

Intersection grading bonds Nos. 12 and 13, denomination \$500, issued August 1, 1888, maturing August 1, 1908, optional any time after 10 years, will be paid February 1, 1899.

Intersection sewer bond No. 47, denomination \$500, issued November 25, 1887, maturing November 25, 1907, optional any time after 10 years, will be paid May 25, 1899.

Intersection sewer bonds, numbering from 80 to 83, inclusive, denomination \$500, issued February 20, 1888, maturing February 20, 1908, optional any time after 10 years, will be paid February 20, 1899.

Intersection sewer bonds Nos. 87 and 88, denomination \$500, issued May 14, 1888, maturing May 14, 1908, optional any time after 10 years, will be paid May 14, 1899.

Intersection sewer bonds, numbering from 89 to 94, inclusive, denomination \$500, issued October 23, 1888, maturing October 23, 1908, optional any time after 10 years, will be paid April 23, 1899.

Davidson County, Tenn.—*Proposed Redemption of Bonds.*—The County Court has passed a resolution calling for payment March 1, 1899, ninety-five \$1,000 bonds issued in 1894 and maturing in 1909, subject to call after March 1, 1899. Bonds will be paid from money now held in the Sinking Fund.

Dawes County, Neb.—*Bond Call.*—W. F. Hayward, County Treasurer, has called for payment two \$1,000 funding bonds of this county.

Franklin, Pa.—*Bond Call.*—City Treasurer O. D. Bleakley calls for payment March 1, 1899, after which date interest will cease, all bonds of this city heretofore issued and unpaid and now being due and payable either by the terms of said bonds or at the option of the city. The City Council having authorized the issuance of \$25,000 3½% semi-annual refunding bonds for the purpose of exchanging said new bonds for so many of the old bonds as their holders elect to so exchange, and to pay off the balance of the old bonds not exchanged for the new bonds, the holders of old bonds are notified that they are entitled to exchange them for a like amount of bonds of the new issue on notice to the City Treasurer on or before February 1, 1899, of their desire so to do.

**Indiana.—Bonds to be Redeemed.**—The State Board of Finance on January 1 redeemed \$200,000 of the bonded indebtedness of this State and has decided to pay off an additional \$200,000 about January 10, 1899. This last payment, it is stated, will reduce the debt to \$4,816,615.

**Lathrop, Mo.—Bond Call.**—This city called for payment January 1, 1899, the following 54 bonds in denomination of \$100, and dated July 1, 1893: Nos. 1, 2, 4 to 7 and 9 to 22, inclusive.

**Mobile, Ala.—Bond Coll.**—Bonds Nos. 3527, 3588, 3625, 3683, 3799, 3868, 3937 and 3959 have been called for payment February 1, 1899, at the First National Bank of Mobile.

**Mount Joy, Pa.—Bond Call.**—The borough has called for payment March 1, 1899, at the Union National Bank, Mt. Joy, \$500 water bonds, Nos. 55 to 58, inclusive.

**Murfreesboro, Tenn.—Bonds Redeemed.**—This city has redeemed \$5,500 of its outstanding bonds.

**Pike County, Mo.—Township Bonds Called.**—The County Treasurer has called for payment the following township bonds: Buffalo Township, \$25,000; Calumet Township, \$2,000; Cuiver Township, \$5,000, and Peno Township, \$3,000.

**San Antonio, Bexar County, Tex.—Bonds to be Redeemed.**—An ordinance has been passed by the City Council, authorizing the payment and cancellation of \$42,500 improvement bonds issued January 1, 1876.

**Seattle, Wash.—Warrant Call.**—A. H. Foote, City Treasurer, has called for payment January 5, 1899, judgment fund warrants Nos. 203 to 230, inclusive. The City Treasurer has also called for payment January 3, 1899, the following warrants: Ninth Avenue et al., ordinance No. 4360, warrant No. 812; East Jefferson Street et al., ordinance No. 4760, warrant No. 664; Boren Avenue et al., ordinance No. 4873, warrant No. 764; First Avenue, ordinance No. 5003, warrants, Nos. 807, 891, 893. Interest will cease on the following warrants on January 8, 1899: Eighteenth Avenue, ordinance No. 4875, warrant No. 655; James Street, ordinance No. 4936, warrants Nos. 851, 852, 853, 854, 855; Dearborn Street, ordinance No. 4999, warrants Nos. 795, 796, 797, 798, 799, 862; Washington Street, ordinance No. 4779, warrants Nos. 818, 814, 815; Taylor Avenue, ordinance No. 5004, warrants Nos. 808, 806; Westlake Avenue et al., ordinance No. 4784, warrants Nos. 777 to 833, inclusive.

**St. Louis City (Iowa) School District.—Bond Call.**—The district called for payment January 2, 1899, at the Fourth National Bank, New York City, or at the First National Bank, Chicago, \$382,000 4½% bonds, as follows:

\$85,000 refunding bonds, Nos. 1 to 85, dated July 1, 1899.  
 \$5,000 bonds, Nos. 86 to 170, dated July 1, 1899.  
 \$5,000 bonds, Nos. 171 to 179, dated January 1, 1900.  
 \$5,000 refunding bonds, Nos. 181 to 188, dated January 1, 1900.  
 \$5,000 bonds, Nos. 189 to 223, dated July 1, 1899.  
 \$5,000 refunding bonds, Nos. 224 to 284, dated July 1, 1899.  
 \$5,000 bonds, Nos. 285 to 294, dated April 2, 1900.

**Wallingford, Conn.—Bond Call.**—Wm. H. Newton, Town Treasurer, called for payment December 31, 1898, at the First National Bank of Wallingford \$35,000 bonds, series of June 15, 1883, and \$25,000 bonds, series of January 1, 1884.

**Washington County (Ky.) Railroad District.—Bond Call.**—P. Simms, Treasurer, called for payment January 3, 1899, \$1,000 bonds Nos. 7 and 10 issued by this district.

## Bond Proposals and Negotiations this

week have been as follows:

**Albany, N. Y.—Bonds Authorized.**—On January 6, 1899, the Board of Finance authorized the issuance of \$100,000 3½% 120 year water bonds for the completion of the filtration plant.

**Allentown (Pa.) School District.—Bond Sale.**—This district recently sold \$11,500 4½ 5-20 year (optional) refunding bonds to the Lehigh Valley Trust & Safe Deposit Co., Allentown, at 113-76. A bid of 102-33 was also received from Dick Bros. & Co., Philadelphia. Securities are issued to refund a like amount of 7½ bonds, and will be dated January 2, 1899.

**Alton, Ill.—Bond Sale.**—The city has issued \$9,600 6% street paving bonds to David Ryan, contractor, at par. The balance (about \$5,000) of the contract price was paid in cash. Bonds are dated September 1, 1899, and mature \$2,900 yearly on January 2, from 1900 to 1903, inclusive.

**Ashtabula (Ohio) School District.—Bond Offering.**—This district will sell at 2 p. m. February 11, 1899, \$7,000 4½ bonds, for an addition to one of the school buildings. Securities are issued pursuant with sections 8991, 3992 and 3993, Revised Statutes of Ohio. They are in denomination of \$700, dated February 11, 1899. Interest will be payable semi-annually, and the principal will mature \$700 each April 1 and October 1 from April, 1900, to October, 1904, inclusive.

**Ateahafalaya (La.) Levee District.—Bond Agreement.**—The Board of Commissioners has entered into an agreement with the New York Security & Trust Co. and Edw. C. Jones Co., New York City, for the sale of \$850,000 1½% refunding bonds at 107 and accrued interest. These bonds were authorized by Act No. 14, Laws of 1898, and will be issued to refund bonds now outstanding subject to call in 1900. The above firms also agree to take \$150,000 of bonds (new issue) at the same price provided they be issued prior to January 1, 1902. Bonds mature 50 years from date, subject to call \$100,000 yearly after 40 years.

**Bangor, Me.—Loan Authorized.**—The City Treasurer has been authorized to borrow \$60,000 for current expenses. This loan, we are advised, will be made in small amounts as money may be needed, and will most likely be taken at home.

**Battle Creek, Mich.—Bonds Proposed.**—Legislature will be petitioned for authority to issue not more than \$20,000 bonds, for street paving purposes.

**Bellefontaine, (Ohio), School District.—Bond Offering.**—Proposals will be received until 2 p. m., January 24, 1899, by F. R. McLaughlin, clerk, for \$12,000 4½ bonds. Securities are issued pursuant with Section 3993, Revised Statutes of Ohio. They are in denomination of \$500, dated January 24, 1899. Interest will be payable March 1 and September 1, at the Treasurer's office. Principal will mature \$500 each six months from March 1, 1913, until September 1, 1914, inclusive. A deposit of \$150 will be required of bidders. The bonded debt of the district is \$10,000 and the assessed valuation \$2,362,060.

**Bent County (P. O. Las Animas), Col.—Bond Offering.**—Proposals will be received until 2 p. m., February 6, 1899, by the Board of County Commissioners, for \$33,000 refunding bonds. Securities will be in denomination of \$100, \$500 or \$1,000, to suit purchaser. Interest will be at not more than 7%. Principal will mature 50 years from date of issue, subject to call after 10 years. The Board requests bids as follows: For the lowest rate of interest the purchaser will be willing to accept and take the bonds at par and, second, the rate of interest at which the purchaser will be willing to take the bonds and pay a premium. Proposals must be accompanied by a check for \$2,000 payable to the County Treasurer.

**Berkshire County, Mass.—Bonds Proposed.**—The county has petitioned the Legislature for authority to borrow \$35,000 to meet notes maturing February 1, 1899.

**Bertie County, N. C.—Bonds Proposed.**—A bill has been introduced in the State Legislature authorizing the issuance of \$5,000 funding bonds.

**Bonds Authorized by House.**—The House has passed a bill authorizing the issuance of \$30,000 bonds.

**Beverly, Mass.—Temporary Loan.**—This city has negotiated a loan of \$50,000 with Rogers, Newman & Tolman, Boston, at 2-77½. Loan runs nine months.

**Blockton, Iowa.—Bond Offering.**—Proposals will be received until 7:30 p. m. February 6, 1899, for from \$3,000 to \$4,000 water-works bonds. Bids are asked on bonds bearing 4 and 5% interest, which will be payable semi-annually. Principal will mature 20 years from date of issue.

**Bloomville (Village), Ohio.—Bond Election.**—An election will be held January 30, 1899, to vote on the question of issuing \$8,000 electric light plant bonds.

**Boscobel, Wis.—Bonds Voted.**—At the election held December 29, 1898, the proposition to issue \$9,000 electric-light plant bonds carried by a vote of 127 to 89. Full details of the issue have not yet been determined upon.

**Bonded Brook (N. J.) School District.—Bond Sale.**—On January 16, 1899, the \$15,000 4½ bonds were awarded to the Somerville Dime Savings Bank at 103-61. Following are the bids:

Somerville Dime Savings Bank.....103-61	Senwell & Everett, New York .. 101-07
New Brunswick Savings Bank.....103-00	Edw. C. Jones Co., New York .. 100-75
Water Street Co., N. Y.....102-24	W. J. Hayes & Sons, Cleveland.....100-75
Seasongood & Mayer, Cincinnati.....102-43	S. A. Kean, Chicago.....100-25
R. Kiebolte & Co., New York.....101-80	N. W. Harris & Co., New York.....100-15

**Boyle County, Ky.—Bond Sale.**—On January 14, 1899, the \$16,000 4½ turnpike bonds were awarded to Seasongood & Mayer, Cincinnati, at 102-71. Following are the bids:

Seasongood & Mayer, Cincinnati.....102-71	Dentson, Prior & Co., Cleveland.....102-100
R. Kiebolte & Co., Cincinnati.....102-60	N. W. Harris & Co., Chicago .. 102-045
Feder, Holman & Co., Cincinnati.....102-250	S. A. Kean, Chicago.....100-690

Bonds mature in 15 years, subject to call \$3,000 yearly after 1901.

Bonds mature \$1,000 yearly on Feb. 1 from 1900 to 1914, inclusive. For further description of bonds see CHRONICLE January 7, 1899, p. 47.

**Bozeman, Mont.—Bond Sale.**—On January 17, 1899, the \$165,000 5½ water-works bonds were awarded to Mason, Lewis & Co., Chicago. Bonds mature Jan. 1, 1919, subject to call after Jan. 1, 1909. For further information relative to these bonds see CHRONICLE, Dec. 17, 1898, p. 1273.

**Brewton, Ala.—Bond Sale.**—On January 16, 1899, the \$15,000 6½ gold water and light plant bonds were awarded to the New First National Bank of Columbus at 108-33. Bonds mature February 1, 1929. For further description of bonds see CHRONICLE, January 7, 1899, p. 47.

**Bridgeton (N. J.) School District.—Bonds Authorized.**—This district will shortly issue \$15,000 4½ school bonds. Interest will be payable semi-annually at the Bridgeton National Bank, and the principal will mature \$3,000 yearly on April 1, from 1914 to 1918 inclusive. Date of sale has not yet been determined upon.

**Brockton, Mass.—Temporary Loan.**—This city has negotiated a nine months loan of \$200,000 with a local savings institution.

**Buffalo, N. Y.—Bond Issue.**—The city has authorized bonds to the amount of \$3,197 15, bearing 3½ interest, to meet the payment of judgments. Bonds are dated January 1, 1899, and mature July 1, 1900, and were awarded to the Park Bond Redemption Sinking Fund.

**Carbon County (P. O. Price), Utah.—Bonds to be Issued.**—Mr. L. O. Hoffman, County Attorney, writes us that the county has not yet sold the \$3,800 bonds which were recently authorized to fund the floating debt created prior to 1894. Mr. Hoffman states that they desire to negotiate the sale of 5½ 10-20 year (optional) bonds, if possible.

**Charlotte, N. C.—Bonds Proposed.**—The issuance of \$300,000 water and sewer bonds is the subject of consideration in the State Legislature.

**Chattanooga, Tenn.—Bonds Proposed.**—Local papers state that this city will probably petition the Legislature for authority to issue \$650,000 bonds for a new water-works system.

**Cleveland, Ohio.—Bond Offering.**—Proposals will be received until 12 m. February 20, 1899, by H. L. Rossiter, City Auditor, for \$60,000 4% sewer district bonds, maturing October 1, 1903. Securities will be coupon bonds of \$1,000, dated October 1, 1903, interest payable semi-annually, both principal and interest being payable at the American Exchange National Bank, New York City. A certified check drawn on a national bank for \$10,000, payable to the "Treasurer of the City of Cleveland," must accompany bids.

**Corpus Christi, Texas.—Bond Sale.**—This city recently sold to the Noel Young Bond & Stock Co., St. Louis, \$90,000 refunding bonds. These bonds bear 4% interest for the first 10 years and 5% for the next 30 years. They will mature August 1, 1933, subject to call after August 1, 1908.

**Cullman, Ala.—Bonds Proposed.**—The city will petition the State Legislature for authority to issue bonds for water-works, electric lights and other improvements.

**Dallas, Ore.—Bonds Not Yet Authorized.**—The City Council has as yet taken no action in the matter of issuing the \$25,000 water works bonds mentioned in the CHRONICLE October 29, 1898. It is not probable that anything will be done towards the authorization of these bonds until spring.

**Davidson County, Tenn.—Proposed Refunding of Bonds.**—The County Clerk has appointed a committee to secure the necessary legislation to refund \$250,000 4% bonds due July 1, 1899.

**Dayton, Ohio.—Bonds Proposed.**—The question of issuing bonds for an electric-light plant is under consideration. The matter has been referred to the City Civil Engineer and a special committee of the City Council for an estimate of the cost of such a plant.

**De Pere, Wis.—Bond Sale.**—On January 13, 1899, the \$3,000 4% 10-year bonds were awarded as follows: \$1,400 at 101, \$1,000 at 100-65 and \$800 at 100-50. For description of bonds see CHRONICLE last week, p. 96.

**Dorrancton (Borough), Luzerne County, Pa.—Bond Sale.**—On January 5, 1899, \$3,500 5% refunding bonds were sold at 102-54. Securities are in denomination of \$500, with interest payable semi-annually. Principal will mature one bond yearly.

**Duluth, Minn.—Bond Sale.**—The city has sold to N. J. Upham Co. all improvement certificates to be issued prior to January 1, 1900, at par and accrued interest. The probabilities are, we are advised, that \$25,000 of these certificates will be put out. They will bear 6% interest, payable January and July at the American Exchange National Bank, New York City. Principal will mature in from three to five years.

**Bonds Proposed.**—A resolution has been introduced in the City Council providing for an election to vote on the question of issuing \$150,000 water bonds.

**Durham, N. C.—Bonds Proposed.**—A bill recently introduced in the State Legislature provides for the issuance of school bonds by this town.

**Eau Claire, Wis.—Bond Sale.**—On January 11, 1899, \$10,000 4% 20-year bridge bonds were awarded to J. W. Edmondson, Chicago, at 107-91. Following are the bids:

J. W. Edmondson, Chicago.....	107-91	S. A. Kean, Chicago.....	103-125
Denison, Prior & Co., Cleveland.....	107-70	Chippewa Val. B'k, Eau Claire.....	105-00
State Bank of Chicago.....	107-20	Trowbridge, MacDonald & Niver.....	104-30
Farron, Leach & Co., Chicago.....	108-84	Co., Chicago.....	104-30
R. Kieyolte & Co., Cincinnati.....	108-66	Duke M. Farson, Chicago.....	104-31
State Savings Bank, St. Paul.....	108-50	Briggs, Smith & Co., Cincinnati.....	104-015
W. J. Hayes & Sons, Cleveland.....	1-4-43	Mason, Lewis & Co., Chicago.....	103-827
N. W. Harris & Co., Chicago.....	106-35	Seasongood & Mayer, Cincin.....	103-78

**Elizabeth City, N. C.—Bonds Proposed.**—The State Legislature has under consideration a bill authorizing the issuance of bonds for public improvements.

**Etowah County, (P. O. Gadsden) Ala.—Warrant Offering.**—Proposals will be received until January 31, 1899, by the County Commissioners, S. W. Riddle, Chairman, for \$10,000 6% warrants. These warrants are authorized by the State Legislature to the amount of \$40,000 and will be issued \$10,000 yearly. Interest will be payable April 1 and October 1, at the Western National Bank, New York City, and the principal will mature in 6 years.

**Fitchburg, Mass.—Bond Sale.**—The Sinking Fund of this city has taken the \$11,000 3½% street improvement bonds which were authorized December last.

**Loan Authorized.**—The City Council has authorized the Treasurer to borrow \$400,000 in anticipation of the collection of taxes.

**Franklin (Pa.) School District.—Bond Sale.**—The \$15,000 3½% bonds have been awarded to the Lamprecht Bros. Co., Cleveland, at 101. These bonds were offered for sale on December 27, 1893, but the only bid received, that of J. K. Bryden of Franklin was rejected. Bonds mature yearly on January 1 as follows: \$5,000 in 1904, \$1,000 from 1905 to 1909 and \$500 from 1910 to 1919.

**Fredonia, Wilson County, Kan.—No Bonds to be Issued.**—It has been reported in some of the papers that a petition is being signed for an election to vote on the question of issuing \$20,000 light and power plant bonds. This, we are advised by the city clerk, is incorrect. The plant is being built by Mr. A. Otto, a private citizen, and therefore the city will not issue any such bonds.

**Galesburg, Ill.—Bond Sale.**—The sale of \$16,000 6% street improvement bonds to the Second National Bank of Galesburg at 102-186 took place on November 28, 1898. Only one other bid was received, that of T. B. Potter & Co., Chicago, at 102-04. Bonds are dated October 20, 1893, and mature \$4,000 yearly on April 1, from 1900 to 1903, inclusive.

**Gloucester County, Va.—Bonds Not to be Issued at Present.**—We are advised that the \$50,000 railroad-aid bonds voted on Nov. 8, 1898, will not be issued until the railroad is completed from Richmond to Gloucester Point.

**Greensburg, Pa.—No Bonds Authorized.**—We are advised that the report in some of the papers that this town would shortly sell \$32,000 refunding bonds is incorrect, as no bond issue has yet been ordered. The matter has been talked of, however.

**Hamilton, Ohio.—Bonds Authorized.**—The issuance of \$4,900 bonds to pay off indebtedness on the electric-light plant has been authorized.

**Herman, Neb.—Bonds Not Sold.**—We are advised by Lonis Wachter, Village Clerk, that the \$2,000 4½% 5 20-year (optional) water-works bonds have not yet been sold. Bids for these bonds will be received at any time.

**Hoboken, N. J.—Bond Sale.**—On January 13, 1899, the \$75,000 4% 20 year refunding bonds were awarded to Benwell & Everitt, New York, at 108-785. Following are the bids:

Benwell & Everitt, New York.....	108-785	E. H. Gay & Co., New York.....	107-79
N. W. Harris & Co., New York.....	108-58	Edw. C. Jones Co., New York.....	107-43
Denison, Prior & Co., Cleveland.....	108-44	Provident Ins. & Sav. Soc.....	107-30
W. J. Hayes & Sons, Clevel.....	108-375	Lamprecht Bros. Co., New York.....	107-21
Farron, Leach & Co., New York.....	107-849	Hudson Trust & Sav. Ins.....	107-15

**Holyoke, Mass.—Loan Authorized.**—The Board of Aldermen has authorized the City Treasurer to borrow \$400,000 in anticipation of the collection of taxes.

**Hoosick Falls, N. Y.—Bond Offering.**—Proposals will be received until 12 m. January 23, 1899, by Martin A. Murphy, Village President, for \$5,000 repair and improvement bonds. Securities are in denomination of \$500 and mature one bond yearly on July 1, from 1899 to 1903 inclusive. Bonds will be sold to parties that will take them at the lowest rate of interest.

**Houston, Tex.—Bonds Proposed.**—The City Council has under consideration an ordinance providing for the issuance of \$100,000 5% street-paving and sewer bonds.

**Independence, Mo.—Bond Sale.**—This city recently sold \$15,000 4% 1-5-year sewer bonds to the First National Bank of Independence at par and accrued interest. The city has received several offers for the remaining \$60,000 of this issue, but rejected them all, as the proposed dates of maturity were not satisfactory. Proposals for the \$60,000 bonds maturing in from 5 to 20 years will be considered by the officials.

**Islip, (Town), N. Y.—Bond Sale.**—On January 14, 1899 the \$12,000 4% gold bonds were awarded to the Union Savings Bank of Patchogue, at 101-25. Bonds mature \$4,000 yearly on January 1 from 1900 to 1902, inclusive.

**Jefferson County, Mont.—Refunding Bonds Proposed.**—At a meeting of the Board of County Commissioners, to be held early this month, the question of refunding the bonded debt of the county will be considered.

**Jersey City, N. J.—Bond Sale.**—The city has sold the \$435,788 4% bonds issued to pay the overdue taxes of the Central Railroad of New Jersey. The bonds were taken by The Astor National Bank; The Union Trust Co.; Richard Hoe; A. C. Barnes; Estate of David Davis and Richard De Forrest. Securities mature as follows: \$95,116 64, December 1, 1899; \$75,468 11, December 1, 1900; \$66,202 30, December 1, 1901; \$76,616 28, December 1, 1902 and \$122,385 11, December 1, 1903. They will be paid by the railroad company at maturity.

**Johnson County, Iowa.—Bonds Proposed.**—The question of issuing from \$100,000 to \$125,000 court house bonds is being considered.

**Kansas City (Kan.), School District.—Bond Sale.**—On January 4, 1899, this district sold the \$75,000 high school bonds recently voted, to Benjamin Schnierle, Cashier, Wyandotte State Bank, Kansas City, at 102-80.

**Kearny Township, N. J.—Bond Sale.**—The Newark "Advertiser" reports the sale of \$55,000 street and sewer bonds, \$62,000 East Newark tax-adjustment bonds and \$10,000 water bonds at 101 181.

**Kenosha, Wis.—Bonds Authorized.**—The Common Council has authorized the issuance of \$170,000 3½% bonds. The matter is in the hands of the Finance Committee.

**Kettle Falls (Town), Wash.—Bond Election.**—An election will be held on February 17, 1899, to vote on the question of issuing \$2,000 6% 10-year water-works bonds.

**Lakewood Hamlet, Ohio.—Bond Election Postponed.**—The election which was to have been held January 26, 1899, to vote on the question of issuing \$150,000 sewer bonds has been indefinitely postponed.

**Lancaster, Pa.—No Bonds Authorized.**—We are advised by the City Clerk that the statement in one of the papers that this city had authorized the issuance of \$170,000 10 30-year refunding bonds was incorrect. We presume that the item referred to Columbia, Lancaster County, Pa., which place is now advertising for sale \$170,000 refunding bonds.

**Lansdowne (Borough), Pa.—Bond Offering.**—Proposals will be received until January 27, 1899, by H. L. Warren, Secretary, for \$15,000 4% highway improvement bonds. Securities were voted at an election held September 29, 1898. They are in denomination of \$500, dated January 1, 1899. Interest will be January 1 and July 1, and the principal will mature January 1, 1929, subject to call \$1,000 yearly. Bonds are free of all taxes to the holders thereof. A certified check for 5% of the amount of bid must accompany proposals.

**Lincoln County, Ky.—Bonds Refused.**—It is stated that Briggs, Smith & Co., Cincinnati, have refused to take the 4% bonds recently awarded to them.

**Lincoln County, S. Dak.—No Bonds to be Issued.**—It has been reported that at the recent election this county voted to

issue \$25,000 court-house bonds. We are advised by County Treasurer W. J. Byrnes that the money will be obtained by a direct tax and that no bonds will be issued.

**Lincoln, Neb.—Bond Sale.**—On January 15, 1899, all bids received for the \$402,000 refunding bonds were rejected on account of irregularities. The securities were afterwards sold to Farson, Leach & Co., Chicago, at 100-025 for 4 per cents. Bonds mature one-tenth yearly, commencing March 1, 1910, all bonds being subject to call after ten years.

**Little Falls, N. Y.—Loan Authorized.**—The Common Council has authorized the Mayor to borrow \$25,000 in anticipation of the collection of taxes.

**Louisburg, N. C.—Bonds Proposed.**—A bill authorizing the issuance of \$30,000 6% water, light and sewer bonds is being considered in the State Legislature.

**Lynn, Mass.—Temporary Loan.**—The city has borrowed \$80,000 for one year at 3% from the sinking fund.

**Bond Sale.**—Local papers report the sale of \$8,000 4% 10-year school and engine house bonds to R. L. Day & Co., Boston, at 107.

**Madison County (P. O. London), Ohio.—Bond Offering.**—Proposals will be received until 12 M. January 24, 1899, by W. D. Wilson, County Auditor, for \$16,940 6% ditch bonds, as follows:

\$1,000 Vandave ditch improvement bonds, in denomination of \$100.  
1,700 Dunkin ditch improvement bonds, in denomination of \$170.  
230 P. C. & St. L. Ry. Co. ditch improvement bonds, in denomination of \$55.  
180 Strain ditch improvement bonds, in denomination of \$90.  
664 1/4 City Chapel ditch improvement bonds, in denomination of \$110.  
3,300 Putnam ditch improvement bonds, in denomination of \$330.  
100 Tully Road No. 2 ditch improvement bonds, in denomination of \$75.  
5,150 Phifer ditch improvement bonds, in denomination of \$320.  
1,120 Fitzgerald ditch improvement bonds, in denomination of \$115.  
1,250 Gordon ditch improvement bonds, in denomination of \$125.  
1,000 Blanch ditch improvement bonds, in denomination of \$100.

Bonds are dated February 1, 1899. Interest will be payable February 1 and August 1 at the office of the County Treasurer. Principal will mature one bond of each series each February and August, beginning August 1, 1899. Each bidder will be required to deposit 5% of bid with the County Treasurer.

**Marietta (Pa.) School District.—Bond Election.**—At the spring election (February 21, 1899) the question of issuing \$15,000 4% 5-30 year (optional) school bonds will be voted upon.

**Marlborough, Mass.—Temporary Loan.**—A six months' loan of \$50,000 has been secured by this city from Rogers, Newman & Tolman, Boston.

**Mattoon, (Ill.) School District.—Bond Election.**—An election will shortly be called to vote on the question of issuing \$32,000 bonds to reconstruct city school buildings.

**Meriden, Conn.—No Bonds to be Issued at Present.**—Mayor Amos lives some time ago vetoed a resolution passed by the Common Council November 7, 1898, which provided for the issuance of \$200,000 street-improvement bonds. The Mayor took the ground that it would be unwise to issue bonds for this amount when the city's indebtedness was so close to its limit. On January 2, 1899, the Common Council sustained the veto.

**Middlesex County, Mass.—Bonds Proposed.**—The county has petitioned the State Legislature for authority to issue \$10,000 bonds to complete the hospital of the House of Correction, East Cambridge.

**Millville (Borough), Pa.—Bond Offering.**—Proposals will be received until 6 P. M. January 27, 1899, for \$5,000 5% new water-pump bonds. Securities are in denomination of \$250, dated February 1, 1899. Interest will be payable semi-annually, and the principal will mature \$250 yearly on February 1 from 1900 to 1919, inclusive. Holders of bonds will be required to pay State tax.

**Mississippi Levee District.—Bond Sale.**—The District has awarded to Randolph Kleybolte & Co., Cincinnati, \$450,000 5% 10-25 year (optional) refunding bonds at 100-40. The old bonds, bearing 6% interest, will be called for payment March 1, 1899.

**Montgomery, Ala.—Bonds Authorized.**—The City Council has passed ordinances authorizing the issuance of \$25,000 4% school bonds and \$30,000 4% park bonds. Securities are in denomination of \$500, dated January 1, 1899. Interest will be payable semi-annually at the American Exchange National Bank, New York City. Principal matures Jan. 1, 1929.

**Bond Sale.**—The City Council has awarded to the broker age firm of A. Strassburger, Montgomery, \$20,000 6% 1-20-year (serial) street-improvement bonds at 101.

**Nassau County, N. Y.—Bond Offering.**—It was reported in some of the papers that this county would sell yesterday (January 20) \$150,000 bonds. Mr. Henry M. W. Eastman, County Treasurer, writes us that the county bonds will not be sold until February 2, 1899. Full details of this offering will be published in a later issue.

**Nelsonville, Ohio.—Bond Offering.**—Proposals will be received until 12 M. February 4, 1899, by James Sharp, Village Clerk, for \$7,000 6% coupon bonds. Securities are in denomination of \$350. Interest will be payable semi-annually and the principal will mature one bond each six months from August 1, 1899.

**New Brunswick (N. J.) School District.—Bond Sale.**—On January 18, 1899, the \$38,200 4% gold bonds were awarded as follows: First lot of \$3,200 to Seasongood & Mayer, Cincinnati, at 101-083; second lot of \$8,500 to N. W. Harris & Co., New York, at 104-42; third lot of \$10,000 to the Lamprecht Bros. Co., Chicago, at 105-90; and the fourth lot of \$11,500 to the New Brunswick Fire Insurance Co., at 107 3/5. For description of bonds see CHRONICLE, Jan. 7, 1899, p. 45.

**Newburyport, Mass.—Temporary Loan.**—The city has negotiated a one-year loan of \$50,000 with the State Treasurer at 2-95%.

**Newport News, Va.—Proposed Bond Election.**—We are advised by A. A. Moss, Mayor, that at the election to be held in this city early in March the people will be asked to vote on the question of issuing \$50,000 street-paving, \$30,000 city-market and \$10,000 garbage-furnace bonds. If the bonds are issued they will bear 4% interest, payable semi-annually at Newport News. Principal will mature 30 years from date of issue, subject to call after 20 years. Date of sale not yet determined.

**New Scotland, N. Y.—Bonds Proposed.**—A bill has been introduced in the State Legislature authorizing the town to borrow \$5,000 to pay a judgment.

**Newton, Mass.—Loan Authorized.**—A loan of \$80,000 in anticipation of the collection of taxes has been authorized.

**Norfolk (Conn.) Sewer District.—Bonds Proposed.**—This district has under consideration the issuance of \$25,000 sewer bonds. We are advised that the details of the issue will not be determined upon until early in March.

**Norfolk, Neb.—Bond Sale.**—On January 16, 1899, \$38,000 4% 10-20-year (optional) refunding bonds were awarded to Farson, Leach & Co., Chicago, at 101-65.

**Norfolk, Va.—Bonds Authorized.**—The City Councils have authorized the issuance of the \$150,000 Brambleton Ward paving bonds voted last November.

**North Adams, Mass.—Loan Authorized.**—A loan of \$150,000 in anticipation of the collection of taxes has been authorized.

**Oklahoma County, Okla.—Bond Sale.**—This county has sold at a premium to M. L. Turner, President of the Western National Bank of Oklahoma City, \$77,600 5% 21-30 year refunding bonds and \$22,000 5% 21-30 year court house bonds.

**Omaha (Neb.) School District.—Bond Offering.**—Proposals will be received until February 20, 1899, for the \$250,000 4% 20-year high-school bonds, voted at the November election.

**Oquawka, Ill.—Bonds Proposed.**—The issuance of \$5,000 electric-light plant bonds is being talked of in this village, but as yet the authorities have not taken the question under consideration.

**Pawtucket, R. I.—Bonds Proposed.**—The Common Council has passed a resolution requesting the State Legislature to authorize the issuance of \$50,000 school bonds and \$100,000 street-improvement bonds.

**Peckville, Pa.—Bond Election.**—An election will be held Feb. 21, 1899, to vote on the question of issuing \$5,000 electric-light bonds.

**Perth Amboy, N. J.—Bids.**—Following are the bids received on Jan. 16, 1899, for \$25,000 4% school bonds:

W. J. Hayes & Sons, Cleveland, 105-000	Benwell & Everitt, New York, 105-13
R. H. Gay & Co., Boston, 105-000	Blodgett, Merritt & Co., Boston, 103-07
Seasongood & Mayer, Cincinnati, 105-764	Perth Amboy Sav. Institution, 103-90
R. Kleybolte & Co., New York, 105-25	Bertron & Storrs, New York, 102-21
Edw. C. Jones Co., New York, 105-573	Walter Stanton & Co., N. Y., 102-06

**Philadelphia, Pa.—Temporary Loan Proposed.**—The Finance Committee of the City Councils has reported favorably a bill authorizing a temporary loan of \$300,000 for the purpose of equipping and building the Philadelphia museums. This loan is provided for in the \$11,200,000 "Loan Bill" now the subject of litigation.

**Phoenix, Ariz.—Bond Election.**—An election will be held January 24, 1899, to vote on the question of issuing \$385,000 gold water-works and sewer bonds. Securities, if authorized, will bear interest at 5%, payable semi-annually. They will be in denomination of \$1,000 and will mature 30 years from date of issue, subject to call \$10,000 yearly after 10 years.

**Piqua, Ohio.—Bonds Proposed.**—The City Council has under consideration the issuance of \$15,000 street-improvement bonds.

**Port of Portland, Ore.—Bonds Proposed.**—The State Legislature has under consideration a bill authorizing the issuance of \$500,000 bonds to make improvements in the Columbia River channel and \$250,000 bonds for a dry-dock.

**Reidsville, N. C.—Bonds Authorized by State Legislature.**—The State Legislature has passed a bill authorizing the issuance of \$25,000 6% water bonds by this place.

**Rock Valley (La.) School District.—Bond Sale.**—On January 2, 1899, \$3,500 5% 5-10 year (optional) school bonds were sold to Mason, Lewis & Co., Chicago, at par. Interest will be payable semi-annually.

**St. Paul, Minn.—Certificate Sale.**—On January 15, 1899, the city sold \$175,000 3% tax certificates to various local investors, seventy-six in number.

**San Antonio, Bexar County, Texas.—Bond Offering.**—Proposals will be received until 12 M. January 23, 1899, by Bryan Callaghan, Mayor, for \$390,000 gold refunding bonds. Securities are in denomination of \$1,000, dated January 1, 1899. Interest will be payable January 1 and July 1 in San Antonio or at the city's financial agency in New York City. Principal will mature 20 years from date of issue. Proposals must be accompanied by an amount equal to 2% of the amount of bonds bid for. Bids for these bonds were originally asked for on Dec. 22, 1898, but all received at that time were rejected.

**Sandusky, Ohio.—Bonds Proposed.**—This city proposes to issue \$50,000 4% bonds for the paving of Central Avenue. Full details of the issue have not yet been determined.

**Sea Cliff, N. Y.—Bond Sale.**—On January 17, 1899 (postponed from January 10) the \$8,000 sidewalk and street-improvement bonds were awarded to Bertron & Storrs, New York, who bid on 3 1/2% bonds. Securities mature two bonds yearly, beginning February 1, 1900. For further description see CHRONICLE January 7, 1899, p. 49.

**Shelby, Iowa.—Bonds Defeated.**—At the election held January 10, 1899, the proposition to issue \$1,000 water-works bonds, was defeated by a vote of 72 to 148.

**Solvay, N. Y.—No Bonds Sold Recently.**—The sale of \$32,000 5% 20-year sewer bonds to J. F. Webb, Syracuse, at 118-47, was recently reported in some of the papers. This, we are advised, is incorrect. The \$32,000 sewer bonds were sold August 25, 1897, and an additional \$7,000 in January, 1898, and no other sale has occurred since the latter date.

**Somerville, Mass.—Loan Authorized.**—The City Treasurer has been authorized to borrow \$100,000 in anticipation of the collection of taxes.

**South Bend, Ind.—Bond Sale.**—On January 3, 1899, \$5,000 4% water bonds were awarded to E. H. Gay & Co., Boston, at 107-59. Following are the bids:

E. H. Gay & Co., Boston.....\$5,379 50	Denison, Prior & Co., Cleve.....\$5,300 00
Seamond & Mayer, Cincin. 5,367 01	S. A. Kean, Chicago.....5,200 00
W. J. Hayes & Sons, Cleveland. 5,324 00	St. Joe Co. Savings Bank.....5,050 00
Feder, Holzman & Co., Cincin. 5,317 85	South Bend National Bank....5,025 00

Securities are in denomination of \$1,000, dated January 2, 1899. Interest will be payable semi-annually and the principal will mature January 2, 1919.

**Springfield, Mass.—Note Offering.**—Proposals will be received until 12 m. January 24, 1899, by E. T. Tift, City Treasurer, for \$300,000 note or notes, dated January 26, 1899, and maturing November 8, 1899, without grace. This loan is to be made in anticipation of the collection of taxes and bidders are requested to name rate of interest at which they will discount the notes. Discount is to be figured for 286 days on the basis of 365 days in the year.

The official notice of this offering will be found elsewhere among the advertisements in this Department.

**Syracuse, N. Y.—No Bonds at Present.**—Regarding the report that the City Council was considering the issuance of \$250,000 high-school bonds, Mr. E. F. Allen, City Treasurer, advises us that the question is at present nothing but talk.

**Taunton, Mass.—Bond Sale.**—On January 18, 1899, \$30,000 4% water bonds were awarded to N. W. Harris & Co., New York, at 113-195. Following are the bids:

N. W. Harris & Co., Boston.....113-195	Foght & French, Boston.....112-200
Lee, Higginson & Co., Boston.....112-71	C. P. Phelps & Co., Boston.....112-19
Vermilye & Co., New York.....112-79	Adams & Co., Boston.....112-10
Fuller, Tilton & Co., Boston.....112-75	Estabrook & Co., Boston.....112-137
H. L. Day & Co., Boston.....112-659	E. H. Gay & Co., Boston.....112-03
Blake Bros. & Co., Boston.....112-59	Jones, Parker & Co., Boston.....111-965
Poor & Grosvenor, Boston.....112-57	C. B. Wilbur & Co., Boston.....111-821
E. H. Rollins & Sons, Boston.....112-436	Parry, Coffin & Burr, Boston.....111-84
Blodget, Morrill & Co., Boston.....112-323	W. Holman Cary & Co., Boston.....111-387
Parkinson & Burr, Boston.....112-277	S. A. Kean, Chicago.....106-00

Bonds are dated July 1, 1898, and mature July 1, 1918.

**Tillamook (Ore.) School District.—Bond Issue.**—This district has issued \$2,000 bonds for school purposes.

**Troy, N. Y.—Bids Rejected.**—We are advised by James W. Coffey, City Comptroller, that all bids received on January 18, 1899, for the \$107,000 3% public-building bonds were unsatisfactory and no award was made.

**Ulster County (P. O. Kingston), N. Y.—Bond Offering.**—This county will sell at public auction at 2 P. M., February 21, 1899, \$60,000 4% refunding bonds and \$14,000 4% court house extension bonds. The refunding bonds are in denomination of \$1,000, dated March 1, 1899. Interest will be payable March 1 and September 1. Principal will mature \$3,000 yearly on March 1, from 1900 to 1919, inclusive. The court house bonds are in denomination of \$500, dated March 1, 1899. Interest will be payable March 1 and September 1, and the principal will mature March 1, 1924. A deposit of 10% of the purchase money will be required of purchasers.

**Upshur County, W. Va.—Bonds to be Issued.**—This County will sell about April 1, 1899, \$40,000 5% 20-year court-house bonds. Securities will be in denomination of \$500.

**Ute, Iowa.—Bonds Proposed.**—This city will sell early in the spring an issue of not more than \$1,800 bonds for a new water-works engine.

**Utica, N. Y.—Bonds Authorized.**—The Common Council has authorized the issuance of \$3,596 91 and \$1,012 72 respectively of 1-6 year paving bonds, dated December 23, 1898, interest to be at not more than 5%.

**Bonds Proposed.**—A bill will be introduced in the State Legislature, authorizing this city to issue \$60,000 school bonds to bear not more than 5% interest.

**Valley County (P. O. Ord), Neb.—Bonds Not Yet Sold.**—In the CHRONICLE September 3, 1898, we stated that this County was offering for sale \$32,000 4½% refunding bonds. These bonds, the County Clerk writes us, have not yet been disposed of. The bonds were all but sold to the State, when

## NEW LOANS.

### \$300,000 City of Springfield, Mass., TEMPORARY LOAN.

CITY TREASURER'S OFFICE,  
CITY HALL, January 17, 1899.

The undersigned will receive sealed proposals until Tuesday, January 24, 1899, at twelve o'clock noon, as follows:

The rate of interest at which bidders will discount the City of Springfield's note or notes for three hundred thousand dollars (\$300,000), the note or notes to be dated January 26, 1899, and to become due and payable November 8, 1899, without grace.

Discount to be figured for 286 days on the basis of 365 days in the year. Said loan is to be made in anticipation of the taxes of the present municipal year, in accordance with an order passed by the City Council and approved by the Mayor, January 16, 1899, and is to be made subject to the approval of the Committee on Finance.

The right is reserved to reject any and all proposals. All proposals will be opened in the Mayor's office, Tuesday, January 24, 1899, at 12 o'clock, noon. Address proposals to the undersigned indorsed "Proposals for Temporary Loan."

E. T. TIFT, City Treasurer,  
Springfield, Mass.

it was found that some error was made in registering them. The County Clerk says that he thinks the bonds will be sold to the State as soon as the error can be corrected, which he presumes will be done in the near future.

**Vanderburgh County, Ind.—Bond Offering.**—Proposals will be received until 2 P. M. February 16, 1899, by Louis H. Legler, County Auditor, for \$80,000 3½% refunding bonds. Securities are in denomination of \$1,000, dated May 1, 1899. Interest will be payable May 1 and November 1 and the principal will mature May 1, 1914. A deposit of \$2,500 or a certified check on some bank in Evansville for that amount will be required with each proposal.

**Vigo County, Ind.—Bond Sale.**—On January 16, 1899, the County Commissioners awarded \$75,000 3½% county bonds and \$29,000 5% Linton Township gravel-road bonds to Fareon, Leach & Co., Chicago, at 100-60 and 102-033, respectively. Other bids were received from Seasongood & Mayer, Cincinnati, Denison, Prior & Co., Cleveland, and Mason, Lewis & Co., Chicago.

**Vineland, Cumberland County, N. J.—Bonds Proposed.**—There is talk in this borough among citizens of the issuance of \$140,000 electric-light, sewer and water-works bonds, but nothing has as yet been done towards the authorization of the bonds.

**Wadesboro Township, N. C.—Bonds Authorized by House.**—The House has passed a bill authorizing this township to issue \$25,000 bonds for road improvements.

**Waitsfield, Vt.—Bonds Voted.**—This town has voted to issue \$19,000 bonds, but we are advised it is uncertain when the bonds will be sold.

**Waltham, Mass.—Loan Authorized.**—On January 9, 1899, the Board of Aldermen authorized the City Treasurer to borrow \$200,000 in anticipation of the collection of taxes.

**Washington County, Ohio.—Bond News.**—We are advised that the \$125,000 court-house and jail bonds voted last November will be dated September 1, 1899, and will not be sold until near that date.

**Waterford, N. Y.—Bonds Proposed.**—A petition is being circulated requesting that bonds be issued for street-paving purposes.

**West Hoboken, N. J.—Bond Offering.**—Proposals will be received until 8 P. M. February 1, 1899, by the Town Council.

for \$45,000 school bonds. Full details of this offering will be published in a later issue.

**Williamsport (Town), Md.—Bonds Proposed.**—This city proposes to issue \$20,000 water-works and electric-light plant bonds at not more than 5% interest. These bonds were authorized by the General Assembly of 1898, and Mr. M. E. Cullen, Town Treasurer, writes us that they may be prepared to issue them in the near future.

**Woburn, Mass.—Loan Authorized.**—The City Treasurer has been authorized to borrow \$120,000 in anticipation of the collection of taxes.

**Yonkers, N. Y.—Bond Offering.**—Proposals will be received until 11 A. M. January 25, 1899, by Leslie Sutherland, Mayor, for \$125,000 4% redemption bonds and \$13,500 4% assessment bonds. The redemption bonds are issued under Section 13, Title v., City Charter, and will be dated February 1, 1899. Interest will be payable semi-annually and the principal will mature Feb. 1, 1902. The assessment bonds are issued under Section 36, Title vii., City Charter, and will also be dated February 1, 1899. Principal will mature February 1, 1900.

*OUR INVESTORS' SUPPLEMENT.*

We give our subscribers a new number of our *INVESTORS' SUPPLEMENT* to day. The *SUPPLEMENT* contains editorial articles on the following subjects:

DISCIPLINE WITHOUT SUSPENSION.  
MASTER CAR BUILDERS' COUPLER.  
LONG RAILS.  
HEAVY LOCOMOTIVES.  
TIE PLATES.

*REPORTS OF TRUST COMPANIES IN NEW YORK AND BROOKLYN.*

On pages 165 to 168 of the current number of our *INVESTORS' SUPPLEMENT* will be found complete reports of the condition of all the trust companies in New York City and Brooklyn on December 31 1898, as compared with December 31 1897 and June 30 1898.

*THE FINANCIAL SITUATION.*

We have had another week during which the transactions at the Stock Exchange have exceeded all precedent and prices have further and materially advanced. Monday stock sales reached 1,603,441 shares (according to the list), with rising prices all day; it is claimed that sales of thousands of shares failed of being recorded. Tuesday there was a reaction; sales of stock were still very large, being 1,371,410 shares, but values were lower, there being a decided decline near the close of the market. Wednesday the sales were somewhat less, though they continued abnormal, reaching 1,136,492 shares; prices not only recovered Tuesday's decline, but made a further decided advance. These features of large sales, with rising prices, were repeated Thursday, when the sales were 1,527,597 shares, and Friday, when they were 1,032,591 shares, making the total sales for the five days aggregate 6,671,531 shares. There were no new special developments affecting values or that could be specified as giving buoyancy to the market. Rumors of new combinations among our railroads were abundant, the most conspicuous being the formation of a through line from ocean to ocean by the consolidation of the Union Pacific, &c., with the New York Central, through the issue of a 3½ per cent bond, somewhat after the plan of the Lake Shore arrangement; but traced to their source we could find nothing of a substantial character to confirm them. All our commercial markets continue in a healthy state and advancing. Cotton is higher with a good demand for consumption. Wheat is likewise moving up again. Iron and steel, and last of all even coal, seem to be advancing in price and production. We have written to-day on subsequent pages with reference to the year's output of iron and coal. The articles will well repay study. In brief the industrial tide is evidently rising, with all the signs favorable to a continued upward movement.

Bank managers are looking around with an anxious eye to see why it is they have not a part in the forward movement. They have a part, to be sure, but it looks as if it were wholly on the expense side of the account. To some observers the very fact of large business makes it seem as if banks were reaping large benefits. Exchanges are enormous; clearings are unprecedented; deposits are unparalleled; surely this must represent in part enlarged income and not all enlarged outgo. And yet, speaking strictly of banking business, it is probably true there is no

added revenue gotten out of the increased volume of transactions. They tax the clerical force to the utmost but leave no profit. A very large percentage of the gain in deposits has been due to country bank funds, which have been attracted to this centre through the policy which has been persistently pursued for years of paying interest on such deposits. Despite efforts which have been made from time to time to reduce the rate of interest paid from 2 per cent to 1½ per cent, it is not done. Only a few of the strongest banks now pay the lower rate and by far the greater majority pay 2 per cent. Hence, while the banks of this city earn an average of not more than 2½ per cent on the deposits of the country bank, they really net not over ½ of 1 per cent.

A feature just now of this branch of the business is that the Chicago banks and other institutions at Western points are not paying more than 1½ per cent on deposits of banks within their respective centers. Consequently these country institutions, instead of sending their surplus to Chicago and to the other cities where only 1½ per cent interest is allowed, send them to New York, where they draw 2 per cent. At the same time the New York banks have no monopoly at this center for the employment of their funds. They have to meet not only the competition of banks and other moneyed institutions foreign to the State, east and West and South, but they have to compete with foreign exchange houses to some extent, especially in the call loan branch of the money market, besides the competition of local trust companies and other home institutions. As trust companies enjoy the advantages of lighter taxation while the balances which they deposit with banks draw 2 per cent interest, they can afford to loan money not only on call, but on time, at rates lower than those charged at banks. For these reasons the one-half of 1 per cent which the New York banks can earn as a maximum on their country deposits is obtained with much difficulty and only by strictly economical management.

Some of our New York banks are at the moment getting a lesson in economy of administration from some interior cities. Chicago, for instance, adopted a policy recently of charging one dollar per month to those of their customers who keep an average deposit of not more than \$300. It is admitted that these small accounts are unprofitable to the majority of banks. The customers are supplied with checks, deposit tickets and other stationery, and also their signature and endorsements are guaranteed and their checks collected. In such cases the drafts are always for small sums, and the clerical force necessary in banks having many of these accounts is larger than would be required for ordinary business of a different and more profitable character. If Chicago banks have found it advantageous to make a charge for keeping such accounts, it would certainly seem to be of as great, if indeed not greater, advantage to New York banks to pursue a similar course and thus obtain revenue sufficient to compensate for the expense of caring for small deposits. The adoption of this policy is not likely to be a general movement at all, but some officials regard it as among the important policies of bank administration which will sooner or later have to receive attention.

It has been matter of Street inquiry—how is it that the old machinery for conducting business when stock transactions aggregated only, say, 174,425 shares a day (the average in January 1896) and bank clearings only about \$98,500,000 (the average in the same month and year) can be made to work with Stock Exchange transactions over 1,600,000 shares a day (as on Monday of this week) and bank clearings \$317,216,834, as on Tuesday of this week? It is no doubt a little surprising. The Stock Exchange ticker to be sure did get behind they say about fifteen minutes; but through a fear of being voted a not-up-to-date machine very shortly buckled to and closed up the gap. Had it not been, however, for the Clearing House of the New York Stock Exchange, the settlements for the business which has been this week handled could not, it is claimed, have been done; and yet it and the New York Bank Clearing House seemed to carry through their added millions of work as smoothly as if they had never undertaken anything less, and were especially adapted for working out the biggest jobs.

In subsequent articles we discuss both last year's anthracite coal production and the iron output for the twelve months. The two present a striking contrast—the one reflecting the depression to which the anthracite trade almost alone among the larger industries was subject, and the other disclosing a total of iron production which not only surpasses anything ever before attained, but which runs ahead even of the highest estimates that had been made by competent authorities. Consideration of the anthracite situation, as we show, reveals some encouraging features, notwithstanding the poor record made in the results for 1898. Business cannot go on expanding all over the United States without the anthracite trade sooner or later being brought under the spell of the same influence. The anthracite properties on the Stock Exchange have been appreciating in value on the belief that the efforts in progress for securing greater harmony among the different interests will be crowned with success. There can be no doubt that such efforts are to be encouraged in every way. At the same time there is reason to believe that the movement rests mainly on the idea that the demand for anthracite will greatly increase the present year and that therefore the maintenance of prices will be more easily accomplished. Such expectations seem wholly reasonable, and whether or not present arrangements contemplate some very large scheme, the revival of demand counted on should in itself greatly improve the prospects of all the anthracite properties; for it must be remembered that the roads are already working together more harmoniously and prices are on a better basis. We may note, too, that according to this week's reports concessions have also been, or are likely to be, made to the individual operators, thus leading to a better understanding in that direction. The need there is for larger revenues is evident from the annual statement of the Delaware Lackawanna & Western, submitted yesterday afternoon, showing a deficit of \$510,000 below the amount required for the 7 per cent dividends paid.

In the iron trade the situation can be described as nothing less than marvelous. The country produced nearly twelve million tons of pig iron in the

late year and even this proved inadequate to the requirements, since at the same time stocks were drawn down. The current output is on a still larger scale, and yet it seems to fall short of the consumptive wants. The "Iron Age" in its market report this week says the demand for iron is very active, and that what iron is offered is readily snapped up without much quarreling as to prices. It seems to be beyond question that large though the make of iron was in 1898 the year 1899 will see still higher records established. It is important to bear in mind that we have by no means reached the limit of our productive capacity. Here is what Mr. James M. Swank has to say on this point in reviewing the statistics for the year: "Making a survey of the whole field, we estimate the actual idle furnace capacity of the country to day at 4,500,000 tons per annum, of which probably 2,500,000 tons will be available in the next six months if there should be an extraordinary demand for pig iron." With such a large reserve capacity consumers would obviously be very foolish to bid up prices on one another.

The Eastern trunk lines have just announced an important departure. They have decided to change the differential rates on export business which have existed for so long, and which gave Philadelphia an advantage of two cents per hundred pounds over New York, and Baltimore and Newport News an advantage of three cents per hundred pounds. Some of the newspaper accounts have had it that this step has been taken because of the demoralization in rates. This is a mistake. There is no demoralization of rates in trunk line territory. We have it on the best of authority that not for many years have tariff schedules, both as to passengers and freight, been so faithfully observed in this part of the country. The change means simply the adoption of a new policy. It is in some measure an experiment. The export business through the Southern ports has reached such proportions of late, and conditions have altered so essentially in some respects since the existing differentials were established many years ago, that it has been thought best to try and see what the effect of a reduction of the differentials would be. It will be remembered that the merchants of this city only last year brought an action before the Interstate Commerce Commission with this end in view, and that the Commission in effect decided that the case was not sufficiently clear to warrant their interference. The railroads have now voluntarily lowered the differentials by cutting them in two; that is, Baltimore and Newport News are to have an advantage of only 1½ cents instead of 3 cents, and Philadelphia an advantage of 1 cent instead of 2 cents. President S. R. Callaway of the New York Central is quoted in the "New York Times" as saying that the new differentials will tend to promote stability in rates. He declares that with a 3-cent differential against New York it was impossible for the roads to maintain schedule rates. The revised differentials apply only to grain, and become effective February 1. The lines are also to cease paying commissions on passenger business.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at 2½ per cent and at 3 per cent, with the bulk of the business and the average at 2½ per cent. The disinclination of lenders generally to make engagements on

time on industrial stocks at rates which are regarded as reasonable by borrowers has induced the latter to rely almost wholly upon the call-loan branch of the money market for accommodation, and this is one reason assigned for the comparative firmness of call loans and also for almost daily transactions at 3 per cent. Banks and trust companies quote  $2\frac{1}{2}$  per cent as the minimum. Time contracts are freely offered on good Stock Exchange collateral at  $2\frac{1}{2}$  per cent for thirty to ninety days and 3 per cent for four to six months. The offerings of commercial paper are increasing, but the demand continues urgent not only from the city but from Eastern, Western and near-by Southern buyers and good names do not accumulate. Sales have been made of four month's single-name paper of strictly first class to trust companies at  $2\frac{1}{2}$  per cent. Quotations are  $2\frac{3}{4}$  @ 3 per cent for sixty to ninety-day endorsed bills receivable,  $3@3\frac{1}{2}$  per cent for prime and  $4@5$  per cent for good four to six months' single names.

The European political and financial situation remains without notable feature. The Bank of England minimum rate of discount is unchanged at  $3\frac{1}{2}$  per cent. The cable reports discounts of sixty to ninety day bank bills in London at  $2@2\frac{1}{2}$  per cent. The open market rate at Paris is  $2\frac{3}{4}$  @  $2\frac{1}{2}$  per cent, and at Berlin and Frankfurt it is  $4@4\frac{1}{2}$  per cent. According to our special cable from London the Bank of England gained £714,266 bullion during the week and held £32,682,771 at the close of the week. Our correspondent further advises us that the gain was due to the import of £49,000 bought in the open market, to receipts of £841,000 net from the interior of Great Britain, and to shipments of £176,000 wholly to the Cape.

The foreign exchange market has been moderately active during the week, though changes in quotations have been slight. One feature has been a smaller supply of commercial bills against grain and cotton, while another feature has been the marketing of running-off bills and an indisposition to renew them, there being no immediately prospective advantage in continuing the investment operation. Early in the week there was a fairly good inquiry for cables in connection with the approaching settlement in London, and after Wednesday the market grew firmer for long and short sterling, both of which were reported to be influenced by a demand to remit for stocks bought in London for New York account. Gold imports from Europe were \$243,325 and the total imports were \$321,379. Nominal rates for exchange have remained unaltered during the week at  $4\ 83\frac{1}{2}$  for sixty day and from  $4\ 85\frac{1}{2}$  to  $4\ 86$  for sight. Rates for actual business opened on Monday unchanged, compared with those at the close on Friday of last week, at  $4\ 82\frac{3}{4}$  @  $4\ 83$  for long,  $4\ 84\frac{3}{4}$  @  $4\ 85$  for short and  $4\ 85\frac{1}{4}$  @  $4\ 85\frac{1}{2}$  for cable transfers. The market had an easy tone and on the following day rates for actual business in long sterling were reduced one quarter of a cent to  $4\ 82\frac{1}{4}$  @  $4\ 82\frac{3}{4}$ , in consequence of a light inquiry, while no change was made either in short sterling or in cables. On Wednesday long sterling was steady, while cable transfers were firm, but the only change made in rates for actual business was in short sterling, which was reduced one-quarter of a cent to  $4\ 84\frac{1}{4}$  @  $4\ 84\frac{3}{4}$ , influenced, as above noted, by offerings

of running off-bills. On Thursday the tone was firmer and rates for actual business in long and short sterling were advanced one-quarter of a cent, to  $4\ 82\frac{3}{4}$  @  $4\ 83$  for the former and  $4\ 84\frac{3}{4}$  @  $4\ 85$  for the latter, while cables were unchanged. The tone was firm on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

### THE COINAGE COMMITTEE'S CURRENCY BILL.

Mr. Hill's bill which the Coinage Committee of the House agreed on Saturday (January 21) to report favorably, and "to employ every possible parliamentary expedient" for its passage, has in it very commendable features; at the same time it is, in our opinion, an extremely defective piece of currency machinery and a peculiarly untimely movement. What we said last week shows why we think the movement untimely. Let us repeat briefly the reasons. (1) There are not work days enough in six weeks to perfect and pass any currency measure. (2) Currency-discussion ending in nothing would not find favor with the business public, because an effort that could do no good would be a hopeless affair and might interfere with the rapid expansion of business enterprise. (3) If the proposed bill went so far as to

get into the Senate that body, as now constituted, would simply substitute and pass a 16-to-1 measure. (4) Such action as that would certainly harm business, discourage the sound-money sentiment, and endanger if not postpone sound-money legislation for a long period. (5) After the fourth of March a majority both of the Senate and of the House will be in favor of a gold-standard measure; with that condition in prospect it seems as if no greater folly could be practiced than to attempt anything at this session which would tend to put in jeopardy the grand opportunity for currency legislation which is now so near us. In the light of these facts can there be any doubt with reference to the claim made above of untimeliness?

As to the faulty character of the measure presented, that seems to us, judged by experience, to be if possible even more evident. We have nothing but praise for the features of the bill as independent propositions. The criticism is, that as the measure stands there is the best of reasons for the belief that its operation would prove disturbing to our money market, and consequently to all our industries. We need not cite the whole bill, but only the more prominent provisions, including those which promise when at work to be harmful. It proposes to enact (1) that the standard unit of value shall, as now, be the dollar, and shall consist of twenty-five and eight-tenths grains of gold nine-tenths fine; (2) that all obligations for the payment of money shall be performed in conformity with the standard provided as above; (3) that all obligations of the United States for the payment of money now existing, or hereafter to be entered into, shall, unless hereafter otherwise expressly stipulated, be deemed and held to be payable in gold coin of the United States; (4) that the Treasurer shall pay in gold coin all greenbacks and Treasury notes presented for payment and as paid *cancel* the same up to such an amount as shall equal the increase in national bank notes subsequent to the passage of the Act; (5) if after five years there shall be any greenbacks or Treasury notes outstanding, one-fifth of the same shall each year as received be retired and canceled, and at the end of ten years they shall cease to be a legal tender except in payment for dues to the United States; (6) that greenbacks and Treasury notes after having been once redeemed in gold shall not be paid out again except in return for gold. With reference to silver the policy of the Act is equally explicit. The coinage of silver dollars is forbidden except from bullion now in the Treasury, which bullion may also be applied to the coinage of subsidiary silver; a gold reserve is required of 25 per cent of outstanding Treasury notes and greenbacks and five per cent of the entire coinage of silver dollars, to be used for the redemption of the different forms of money in circulation, no silver certificate over 5 dollars and no national bank note under 10 dollars are to be issued.

No one can fail to be interested in a measure having in view so many desirable objects as this analysis shows. We have cited the leading features to indicate how important they are, and how satisfactory would be the result if all could be attained and carried into practice. And yet the truth is, the transition from an old-established and faulty currency system to a new and scientific one requires more than a law blotting the old system out of existence. We must have at hand an acceptable substitute, one that conforms to the conditions it is to meet, and the con-

ditions its action will make. We must have a new device that will cure every possible derangement it may cause and enable the undertaking beyond a doubt to succeed.

The great danger confronting our effort is that, when our system has been half worked out, the country will tire of it and stay its consummation. At present we have a Congress coming into office the fourth of March that is for sound money. We have a public opinion strongly in favor of such legislation. We have business revival in course of rapid development. This confidence, this enthusiasm for sound money, this industrial activity, are conditions that must be retained and cultivated, and not endangered. While contraction of the old legal tenders is in progress on the one hand there must be on the other facilities given for the expansion of a substitute, with ample scope in case of accidents. Currency panics are always in part sentiment. It is the fear of money stringency that checks buoyancy and enterprise, as well as and perhaps more often than actual conditions that are certain to produce stringency. We repeat then that the law should include a new currency device free to expand and contract, one at all points in touch with commerce, to meet present developing industrial operations, if we are going into the business of withdrawing the old legal tenders and Treasury notes from circulation.

We are fully aware, and in fact have set out above the provision, that no more legal tenders can be canceled than is equal to the amount of the new issues of notes taken out by national banks. That restriction is of very little use as a corrective to the emotional fear, which will be encouraged for speculative purposes and be on the alert as soon as canceling the legal tenders begins. Moreover there is danger of contraction from another provision of the proposed law. The legal tenders and Treasury notes when they have once been put into the Treasury for gold cannot be taken out except for gold. Suppose after a number of millions of these notes have thus gone into the Treasury a little scare should arise with regard to the gold reserve; suppose a natural export of that metal to set in; how easy it would be with no way provided for note expansion and with contraction by cancellation and by deposit in the Treasury progressing, to excite a fear of a scarcity of money, leading to hoarding of gold and currency. Remember there is no chance under the measure proposed of new issues of notes in response to the demands of commerce; no chance for any issues except based on bonds—a currency system whose contraction and expansion is simply responsive to the price of Government securities and the profitableness or unprofitableness of note issues.

Finally, we have already once tried an experiment of the kind the Coinage Committee's bill proposes—that is, of supplying by bank issues the want for currency when contracting the legal tenders—and failed disastrously. Why should we be so forgetful or so venturesome as to assume we shall be any more successful now? It was, to be sure, a long time ago that the country passed through that experience. Mr. McCulloch was then Secretary of the Treasury. In his first annual report, December 1865, he expressed the opinion that the legal tenders were a war measure and should be retired as the war was closed and as a first step towards resumption of gold payments. The people and

Congress were heartily in accord with the suggestion, and on the 18th day of December, only two weeks after the opening of the session, the House passed a sympathetic resolution by a vote of 144 to 6, stating that it cordially concurred in the views of the Secretary, and pledged that co-operative action would be taken as speedily as possible. In pursuance of that resolution and on the 12th of March 1866, a law was passed authorizing the Secretary to exchange bonds for legal-tender notes, not more than 10 millions of dollars to be canceled within the first six months and thereafter not more than 4 millions a month. To supply the place these notes had filled Congress then, as now, depended upon the national-bank notes. It was too at that time as safe a reliance as it ever could be, for the law had been changed, so that the State banks were tumbling over one another to get into the system, and taking out notes was very profitable.

How the arrangements for substituting bank notes for legal tenders worked at that time is quickly told. In October 1865 (the last bank return before the above resolution was passed by Congress) the national-bank notes outstanding were \$171,321,903. In January 1866 the amount was \$213,239,530. In January 1868 the amount outstanding was \$294,377,390. These figures show a much larger addition to bank notes concurrently with the withdrawal of legal tenders than is contemplated by the bill the present Coinage Committee has proposed. The provision now made is only one bank-note dollar for each legal tender dollar of those canceled and none to fill the place of those retained in the Treasury uncanceled. Whereas from October 1865 to January 1868 the additions to bank currency were 123 million dollars. Moreover, previous to October 1865 the new bank note issues had been very rapid, for in January 1865 there were only 66½ million dollars of bank notes outstanding, showing an enlargement of the volume of the bank notes afloat of 227½ million dollars in the three years. And yet in January 1868 the sentiment of the people had changed so absolutely, through the canceling of 70 million dollars of legal tender notes, that the cry went up to Congress from all over the country to stop that contraction; and stop it Congress did. In January 1868 a law was passed declaring that on and after that date the authority given the Secretary to reduce the currency "by retiring or canceling United States notes" was suspended.

That is the history of a very desirable but badly managed movement. It began with the country full of enthusiasm for it, and ended in the short space of about two years with the people thoroughly disgusted at currency reform and with the effort for its attainment begun so auspiciously an absolute failure. What we want to guard against most of all now is a similar waste of our opportunity. It is a rare chance we have. Shall we show ourselves capable of taking advantage of it?

#### DEADLOCKS IN THE SENATORIAL ELECTIONS.

The spectacle of a series of angry contests in half a dozen State legislatures over the choice of a new United States Senator has become familiar enough to be anticipated with each alternate year. There was a time when the prolongation of such contests far into the term fixed by law for the new incumbent

would have excited comment and surprise. To-day surprise would probably be excited if all the Senatorial candidates were able to present their credentials on the 4th of March following the convocation of the legislatures. There have been instances—as in 1897—when, with extremely important legislation pending in Congress, three States or more have been left with only one member in the Federal Senate, and have been left so through the refusal of their legislatures to make a choice.

Incidents of this month—notably in Pennsylvania, California, Delaware, Utah and Montana—foreshadow a probable repetition of such a spectacle. Along with the re-appearance of the legislative deadlock has come another phenomenon, more novel and even less agreeable; open and hardly disguised corruption as an element in the struggle. In one State of the Union the taking of bribes has been confessed before an examining committee, and the candidate in support of whom the bribes were offered continues to lead in the balloting. In another State, the capital, where the legislature is sitting, swarms with private detectives, and it appears to be quite unanimously admitted that only the certainty of exposure has prevented the use of money to influence votes.

It is hardly possible that such a situation should continue long without reviving discussion of the familiar proposition for popular election of Senators. This discussion has rather commonly been regarded as nothing more than academic; for the Constitution of the United States provides that the two Senators of each State shall be "chosen by the legislatures thereof," and this rule could be altered only by an amendment to the Constitution. Very strong reasons are required to force the American people to amend their organic law, and as yet there has been no sufficiently powerful inducement in the case of the Senatorial elections. Two facts, however, should be noticed: one, that the use of money in such contests has notoriously increased of recent years; the other, to which we have already referred, that the tendency to deadlocks resulting in prolonged Senatorial vacancies has similarly grown more general. It is quite easy to imagine a spread of these two mischievous results so continuous as to bring the people, very abruptly, face to face with the problem of popular elections.

The selections already made this year in the various States for Senators in the new Congress show a very interesting diversity in the motives governing the choice. It may be said in general that four distinct processes of selection have been employed. A considerable number of the legislatures have simply re-elected the incumbent of the last Senate, thus following the rule which has had in Senatorial history a prevalence very curious for a people so restless and politically changeable as ours. Among this month's successful candidates for the Senate are Mr. Hale of Maine, who has already served in that body eighteen years; Mr. Hawley of Connecticut and Mr. Aldrich of Rhode Island, whose previous service has been of similar length; and Mr. Cockrell of Missouri, whose unbroken term of service has reached twenty-four years. These are not singular instances; they are paralleled by other Senators who have occupied their seats, like Mr. Allison, Mr. Vest and Mr. Hoar, during twenty or more years, and whose re-election at the expiration of their present terms is at least not regarded as improbable. The late Senator Morrill of Vermont had

at the time of his death occupied his seat for no less than thirty-two successive years.

Most of the instances under this class, it will be observed, occur in Senators from States where one political party is in continual ascendancy, and where, therefore, there was more likelihood that one leading statesman's title to the seat would be recognized at each successive Senatorial election. A second class of influences governing such elections, rather rare, has been lately exemplified in Indiana's choice of Mr. Beveridge to succeed an incumbent of another party; a choice which seems to have been made on the fair and proper ground that a public man, capable of representing the State with intelligence and brilliancy, deserved the honor. If such methods of choice were still the unvarying rule in the selection of Senators, there would be little demand for a change in the system.

But it is quite within the facts to say that both these methods of selection are coming more and more to be regarded as old-fashioned. In the great and so-called pivotal States of the East and West the tendency has been distinct, either to choose a Senator at the mere dictation of a single party leader or under the influence of outside personal pressure, honest or otherwise, which wholly removed the argument of Senatorial fitness. It is the steady growth of these two tendencies in the most important sections of the Union which gives rise to the most serious misgivings over the system of legislative choice of Senators.

It may be argued that the people can apply a pressure on their legislators sufficient to counteract the most mischievous tendencies in this direction, as they did two years ago in Delaware, and as they seem to be doing now in Pennsylvania. It may also be alleged that even when a party leader has the selection of Senator practically in his own hands, he may make as wise a choice as the legislature uninfluenced would have done, or wiser. This has undoubtedly happened in the case of Mr. Depew's election last week for New York State. But the answer is obvious enough, that even if public sentiment succeeds in obstructing what the public looks upon as wrong, it may be at the expense of a long continued vacancy in the State's representation at Washington, as happened lately with the Oregon Senatorship; or possibly, as with Delaware in 1897, it may have the unnatural result of returning a member of a party not in the majority. On the other hand, even if it be conceded that a political dictator may choose wisely and properly his candidate for sure election to the Senatorship, it equally follows that his choice may be wrong and objectionable. The history of both parties, in numerous recent Senatorial elections, shows that the average legislature in a doubtful State will ratify as dumbly and submissively the one sort of nomination as the other.

We are far from placing under sweeping and indiscriminating condemnation the system of party "bosses" or dictators. The system itself is so far from being new or anomalous that it has existed pretty much since the foundation of our Government, and it grows out of the needs of party organization and discipline as plainly to-day as it did in the days of Thurlow Weed or Martin Van Buren; or, for that matter, of Jefferson or Hamilton. But while the fact of party leadership by a single politician may be as old as American politics, it is very possible that the attitude of the State legislators towards such leaders,

and towards the general duties of their office, may in the meantime have changed completely. That this change has actually occurred in a large portion of the States there is no doubt whatever; and the change has in such States altogether removed the argument which caused the founders of the Constitution to commit the choice of Senators to the legislatures.

The sole and only reason for that provision was the theory of the statesmen of 1788 that the legislatures would deliberate more calmly and with better judgment than the people, and would therefore select from their own independent knowledge the fittest candidate for Senator. But when the majority in a legislature merely ratifies, without discussion or debate, the choice of their party leader, or when such spectacles are possible as those now placed before the people of Pennsylvania or California, the purpose of the Constitution is not only not fulfilled, but is exactly reversed. It is true that such reversal of the Constitution's purposes has occurred already in the case of the Presidential nomination and election. But in this case the change accomplished indirectly, and through the logic of events, precisely what the advocates of popular Senatorial elections are urging through amendment of the law. Moreover, as Senator Hoar very forcibly points out in the current "Scribner's," the Presidential nominating conventions have almost invariably refused to choose the candidates supported by the most conspicuous party leaders.

The progress of this year's Senatorial contests deserve, therefore, to be watched with close attention. We do not believe that the American people as a whole will long consent to choice of Senators at the will of a single party leader or under the influence of money. We doubt if they retain as a rule any very large respect for their own State legislatures. We know that their impatience is excited by being informed, at frequent State elections, that they must vote for a legislative candidate, good or bad, because otherwise they are voting for an opposition Federal Senator. But above all, we believe that these communities are genuinely disgusted at such performances as are now distinguishing half the Senatorial elections, and genuinely outraged at a system which, even with all this endured, fails to elect, and leaves the State without its Constitutional representation at Washington. Such feeling needs to be only a little strained to lead to a successful revolt against the system.

#### THE MAGNITUDE OF OUR IRON PRODUCTION.

The American Iron & Steel Association, through Mr. James M. Swank, who has long been an acknowledged authority in this line, has completed its compilation of the statistics of iron production for the late calendar year, and we have been favored with a copy of the statement. It reveals results which are certain to arrest attention. A large total of production had been looked for, but the actual figures exceed the best estimates.

For the last half of 1898 Mr. Swank reports the make of iron not far from six million tons (5,904,231 tons) and for the full calendar year nearly twelve million tons—11,773,934 tons. Never before in the history of the United States, never before in the history of any country, has the output reached such large proportions so

a similar period. It may give the reader a better idea of the magnitude of this product to say that previously in no calendar year had the outturn reached even ten million tons. As against the 11,773,934 tons for 1898 the make of domestic pig in 1897 was 9,652,680 tons (and that was large beyond precedent), in 1896 8,623,127 tons, in 1895 9,446,308 tons and in 1894 6,657,388 tons. It will thus be seen that as compared with 1897 the increase has been roughly 22 per cent, and as compared with 1896 not far from 37 per cent.

It is a striking and a significant fact that ever since the Presidential election of 1896, the result of which operated so distinctly to revive confidence, each period of six months has shown an increase on its predecessor. Starting with the low total of 3,646,891 tons for the last six months of 1896, the output the first half of 1897 was 4,403,476 tons, the second half 5,249,204 tons, the first half of 1898 5,886,703 tons and the last half of that year 5,904,231 tons. We show below the half-yearly totals back to 1887, permitting the reader to see the progress and the fluctuations for the last eleven years.

#### PRODUCTION OF PIG IRON IN HALF-YEARLY PERIODS.

	Gross Tons.		Gross Tons.
1887 1st half.....	3,049,294	1893—1st half.....	4,562,918
2d half.....	3,867,854	2d half.....	2,581,584
1888—1st half.....	3,020,092	1894—1st half.....	2,717,983
2d half.....	3,469,846	2d half.....	3,939,405
1889—1st half.....	3,661,603	1895—1st half.....	4,087,558
2d half.....	3,942,039	2d half.....	5,358,750
1890—1st half.....	4,560,513	1896—1st half.....	4,978,238
2d half.....	4,842,190	2d half.....	3,848,891
1891—1st half.....	3,388,107	1897—1st half.....	4,403,476
2d half.....	4,911,763	2d half.....	5,249,204
1892—1st half.....	4,769,683	1898—1st half.....	5,886,703
2d half.....	4,387,317	2d half.....	5,904,231

Impressive as the record disclosed in the above figures is, they do not tell the whole story of the year's wonderful activity. With a product large beyond all precedent there has been a coincident reduction of unsold stocks to the smallest figures known for years. In other words, consumption exceeded the production, extraordinary though the latter was. Mr. Swank reports the stocks of pig-iron which were unsold in the hands of manufacturers, or which were under their control in warrant yards or elsewhere on December 31 1898, and which were not intended for their own consumption, as only 291,233 tons, against 571,577 tons similarly held on June 30 1898 and 656,489 tons on December 31 1897. In brief the unsold stocks at the end of 1898 were only 2.4 per cent of the total pig iron production for the twelve months, and Mr. Swank states that this is the lowest percentage of unsold stocks recorded at the close of any year for a quarter of a century past. There is one other item of stocks to be taken into account, namely the holdings of the American Pig Iron Storage Warrant Company. That portion of these holdings still under the control of the makers has been included in the figures given. In addition there were 124,100 tons in the yards of the Warrant Company which had passed out of the hands of the makers. Adding these on, the total of iron which may be said to have been on the market on December 31 1898 was 415,333 tons, against 756,336 tons June 30 1898 and 874,978 tons December 31 1897. Allowing for the changes in stocks and also for the imports, the following is the comparison as to consumption, etc. In the imports we have taken not merely the imports of the pig metal but the imports of all kinds of iron and steel. These imports, so large a decade ago, have dwindled, as is known, to small proportions, and for 1898 we estimate them at only 150,000 tons.

\* Including 36,200 tons net held in the warrant yards of the American Pig Iron Storage Warrant Company Dec. 31, 1898, not under the control of makers; 29,500 tons Dec. 31, 1897; 45,250 tons Dec. 31, 1896; 63,640 tons Dec. 31, 1894; 61,800 tons Dec. 31, 1895; 136,037 tons Dec. 31, 1896; 218,499 tons Dec. 31, 1897, and 124,100 tons Dec. 31, 1898. + Partly estimated.

The record of growth as to consumption, etc., is hence even more noteworthy than that as to production. Altogether, 12,383,579 tons were consumed or exported in 1898, against 9,783,178 tons in 1897, and 8,547,073 tons in 1896, the addition in these two years having thus been nearly one-half. The exports formerly were so small that they could be ignored in the discussions. Latterly, we need hardly say, they have become very important. Much of these exports are of such character—machinery and the like—that it is not possible to report them according to the weight of metal contained in the shipments; but taking the bulky forms of iron and steel, we should judge the outward movement during 1898 must have reached close to 900,000 tons. In value the exports of all kinds of iron and steel for the eleven months of 1898 (the figures for the twelve months are not available at the date of this writing) were \$74,722,112, against \$56,858,303 in the corresponding eleven months of 1897 and \$43,458,448 in the eleven months of 1896.

One other fact should not be lost sight of in considering the year's large production and consumption. Unlike some other periods, new railroad construction did not play a very important part in it. The output of rails in 1898 was no doubt heavier than in 1897, since the railroads spent more freely for renewals. But as far as the requirements for new track are concerned, though railroad construction was prosecuted on a somewhat greater scale only about 3,000 miles of new road altogether were added during 1898. We have only to compare this with the nearly 13,000 miles of new track provided in 1887 to see that construction work was not very active.

Nor was production stimulated by any very great rise in prices. During the current year since the first of January some substantial advances have occurred, but throughout 1898 values ruled low. Indeed, the first six or seven months prices declined; the latter part of the year this loss was recovered and some advance established. Bessemer pig in Pittsburgh at the close of 1898 was quoted at \$10 75 per ton against \$10 00 at the beginning; gray forge in Pittsburgh at \$9 50 against \$9 00, and steel billets at \$16 25, against \$15 00. Bearing in mind that the comparison is with very low prices, it will be seen that the advance was only moderate, all things considered. The following furnishes a comparison of the yearly averages for leading articles.

#### AVERAGE YEARLY PRICES OF IRON AND STEEL, 1891 TO 1898.

The 1898 figures in a number of cases, it will be noticed, are smaller even than those for 1897. Thus No. 1 anthracite foundry pig iron at Philadelphia averaged only \$11 66 per ton in 1898, against \$12 10 in 1897, \$12 95 in 1896, and very much higher prices in the earlier years.

### ANTHRACITE COAL PRODUCTION AND PROSPECTS.

It is possible now to give accurate statistics regarding last year's anthracite coal production and the shipments over the different routes. The figures are especially interesting and timely at this juncture, when rumors of a combination among the different companies for the better and more effective control of the anthracite trade are again current, and when the securities of all the anthracite properties are being advanced on the strength of such reports. Entirely apart, however, from these considerations, the statistics are deserving of careful analysis and study. They serve to throw a great deal of light on the situation which prevailed in the late year, yielding such unsatisfactory results, and they are important in their bearing on the near future.

The anthracite coal trade is one of the important industries which did not participate in the business revival which was the most distinguishing characteristics of trade affairs in the United States during 1898. Various explanations have been given for this, but they have all been more or less incomplete. We know that prices have been low, the average for 1898, taking the year through, having been, we should judge, 15 to 20 cents a ton smaller than for 1897. But why were prices low? Because of a lack of harmony among the different interests, it will be said. Why was there a lack of harmony? The reply to this will no doubt be that certain of the companies refused to be governed by the policy of restriction, and mined coal greatly in excess of their allotments, thus demoralizing the market. This statement deserves to be tested. In the figures for the year to which we have above referred we have the data for such a test. Before proceeding further in the discussion, therefore, it will be well to present the data showing just what the shipments were over each road. Here is the table.

	1898.		1897.		1896.		1895.

We think the comparisons between 1898 and 1897 in the above will be a surprise. They show much smaller deviations between the two years than might reasonably have been expected. Out of eleven companies included in the statement only five have increased their shipments as compared with the year preceding, and in only two of these cases can the increase be said to be considerable. The Lackawanna, which has always been pointed to as the chief offender in this respect, is not one of these two. That road indeed did again add to both its amount and percentage, but in view of all the talk there has been the addition seems comparatively small—not much more than one hundred thousand tons. On the other hand the Lehigh Valley, it would seem, has

enlarged its shipments 460,360 tons, raising its ratio a full point, that is from 15.43 per cent to 16.43 per cent. But just what this means we confess ourselves unable to understand. Assuming that the figures are correct (they come to us from official sources), there must be some qualifying circumstance connected with the increase, for the company's annual report to November 30 indicated only a trifling increase in production and no increase at all in shipments. The other road over which the shipments were materially expanded is the Delaware Susquehanna & Schuylkill, the Coxe Bros.' road. This road moved 1,555,429 tons, or 3.71 per cent of the whole, in 1898, against 1,324,086 tons and 3.18 per cent in 1897. The road's allotment under the agreement of January 1896 was 3.50 per cent. It thus ran somewhat ahead of its proportion in 1898, just as it had the previous year run somewhat behind.

On the whole the changes here disclosed in the relative position of the different carriers are hardly sufficient to explain the depression and unsatisfactory prices which prevailed during the year. Nor are the differences between the actual and the allotted percentages very large, or wider than usual. In no case does the excess amount to more than a fraction of one per cent. The Lehigh Valley sent to market 16.43 per cent of the aggregate against an allotment of 15.65 per cent, the Lackawanna 13.83 per cent against an allotment of 13.35 per cent, the Pennsylvania Coal Company 4.43 per cent against an allotment of 4.00 per cent, the Coxe Bros. road, as already stated, 3.71 per cent against an allotment of 3.50 per cent, the Pennsylvania Railroad 11.46 per cent against 11.40 per cent, and the New York Ontario & Western 3.27 per cent against 3.10 per cent. The Reading sent forward only 19.62 per cent though entitled to 20.50 per cent, the Central New Jersey 11.04 per cent though entitled to 11.70 per cent, the Delaware & Hudson 9.29 though entitled to 9.60 per cent, the Erie 3.81 per cent though entitled to 4.00 per cent, and the New York Susquehanna & Western 3.11 per cent though allotted 3.20 per cent.

Thus there is pretty close accord. Some deviations would be unavoidable in any event, since even with every interest bent on living up to the agreed basis, it would be quite impossible in each case to make the production equal the exact amount of the allotment. Considering that the agreement between the producing interests is a very intangible affair—that it amounts to little more than a tacit understanding which each road is free to observe or not as it chooses—it is really surprising that not more roads have run ahead of their assigned percentages. Especially does this appear true when we remember that 1898 was a year of rising prosperity in business, and that at such a time it would be natural for the managers of the coal companies to imagine that the coal trade too would experience a revival in demand, whereas as a matter of fact the demand did not improve at all.

This last furnishes the clue to the unsatisfactory nature of the year's outcome. It was not that individual action proved a bar to favorable results. The lack of co-operation on the part of some interests certainly added to the difficulties of the situation. But the root of the trouble lay deeper than that. It is to be found in the fact that the expected increase in demand did not materialize. The coincident fall in prices is referable to the same circumstance. It was not a cause but an effect. Had there been an ac-

tive demand, prices would have been more easily maintained. As it was, the market failed to take increased supplies, and prices dropping concurrently the roads suffered in a double way. There is no way of showing this restriction in demand except by means of the figures of production. Hence it is important to note carefully the comparison as to aggregate shipments given in the table above. It will be observed that from 46,511,000 tons in 1895 the output dropped to 43,177,000 tons in 1896, and then to 41,637,000 in 1897. In other words, in two years the annual product fell off nearly five million tons, and yet in face of this great loss the recovery in 1898 amounted to barely 262,000 tons. In this lack of growth and recovery we have the key to the whole situation.

It is the assurance that the deferred growth is almost certain to come the current year that makes the outlook so much brighter now. There is nothing surprising in the fact that general business prosperity did not make itself manifest in the coal trade during 1898. The failure to do so simply repeats past experience. We have often pointed out in these columns that the anthracite trade is always the last to feel the impulse of reviving trade and also the last to recede when the tide turns in the other direction. But the very fact that the period of depression has lasted so long would seem to be the best of reason for believing that we are on the threshold of a great change. At all events a good many of the managers entertain the opinion that very substantial improvement cannot be long delayed. General Manager J. E. Childs of the New York Ontario & Western has presented this view with great force in the recent annual reports of the company. It would also be in consonance with past experience if the expansion or revival, when it did occur, should reach very large proportions. After the panic of 1873 anthracite production, which had been 21,689,959 tons, continued to fall off until 1878, when the output was only 17,306,911 tons, but in 1879 at one bound there was an addition of over 8,800,000 tons, to 26,142,689 tons. Counting upon a repetition in 1899 of what occurred in 1879, some are predicting an output for the current year of 50,000,000 tons. But even if the output should only be 2 to 3 million tons larger than for 1898, and if at the same time circular prices should be maintained, it would mean a great deal to the companies.

It is a recognition of the fact that an improved demand may reasonably be expected that lies at the bottom of the attempts now being made to place the trade on an assured basis. Some signs of revival indeed were apparent already towards the close of 1898, and it will be recalled that prices immediately stiffened and the outlook brightened. This improvement has continued up to the present time, gaining in force. It furnishes a substantial basis for expectations of better income statements for all the coal companies. Speculation in the market seems to rest entirely on rumors of some great combination of the different interests. In the fact cited we have something much more definite and tangible and invested with no less importance and promise. Whatever the plans of the coal managers, they can hope to do no more than to secure proper and effective co-operation, so as to take advantage of a favorable situation and guard against the slaughter of prices which might otherwise occur. But on a rising trade current a mere understanding might be as efficacious as a more binding agreement.

## COTTON SUPPLY AND CONSUMPTION IN EUROPE.

Mr. Ellison's "Annual Review of the Cotton Trade for the Year 1898" was issued in Liverpool on Tuesday of the current week. We have received by cable, and present to-day, the matters of interest contained in it. Among them we include an estimate of the imports into Europe for the full cotton season of 1898-99. With regard to the calendar year 1898 the figures show a gratifying increase in consumption in Great Britain as well as on the Continent. The results for the year just closed, stated in bales of the uniform weight of 500 lbs., are appended.

SPINNERS' TAKINGS, CONSUMPTION AND STOCKS IN 1898.

In 500-lb. Bales.	Gr. Britain.	Continent.	Total.
Stocks January 1 1898.....	103,000	265,000	373,000
Takings.....	3,562,000	4,897,000	8,459,000
Supply.....	3,670,000	5,162,000	8,832,000
Consumption.....	3,471,000	4,628,000	8,099,000
Stocks January 1 1899.....	199,000	534,000	733,000
Weekly consumption.....	66,750	89,000	155,750

According to the above the mills in Great Britain have consumed on the average 66,750 bales of 500 lbs. each per week during 1898, or 3,865 bales per week more than in 1897, although compared with 1891 the gain is somewhat less, being only 2,520 bales per week. On the Continent there has been a constant and at some times rapid rise in consumption since 1884, but the past three years the increases have been especially marked. From 80,750 bales per week in 1896 the total rose to 85,000 bales in 1897 and 89,000 bales in the past year. Since the first of October Continental consumption has been estimated at 90,000 bales. The surplus stocks at all the European mills have been added to materially during the year, standing, according to Mr. Ellison's estimate, at 733,000 bales at the close, against 373,000 at the opening. To bring out clearly the comparison the 1898 figures make with previous years we have compiled the following, which embraces the period from 1891 to 1898 inclusive.

Bales of 500 Lbs.	Spin'rs' Stock Jan. 1.	Takings.	Supply.	Consumption.	Spin'rs' Stock Dec. 31.	Weekly Consumption.
<b>Gr. Britain.</b>

Not since 1890 have the financial results of operations of the mills in Great Britain been so satisfactory as in the year lately closed. In fact, in only one year since 1883 has the average profit per mill been

as great as in 1898. Our cable states that 70 companies in the Oldham district report an aggregate profit of £231,518 in 1898, or an average of £3,307 per mill, against only £1,857 per mill in 1897 and but £508 in 1896. From 1885 to 1886 and from 1892 to 1894 were periods of loss, ranging from £31 per mill in 1885 to £1,127 in 1892. The greatest profit per mill—£4,170—as well as the heaviest aggregate—£376,041—was reached in 1890. The showing made by the Oldham mills since 1883 has been as follows.

1898.....	70 Companies—Profit, £231,518.	Profit per mill, £3,307
1897.....	79 " " 147,724.	" " 1,857
1896.....	92 " " 46,772.	" " 508
1895.....	95 " " 83,329.	" " 667
1894.....	93 " Loss, 15,837.	Loss " 177
1893.....	93 " " 72,768.	" " 782
1892.....	90 " " 101,434.	" " 1,127
1891.....	93 " Profit, 10,763.	Profit " 116

1889.....	86 " " 220,587.	" " 2,565
1888.....	85 " " 250,932.	" " 2,054
1887.....	98 " " 85,810.	" " 975
1886.....	90 " Loss, 61,718.	Loss " 686
1885.....	87 " " 2,739.	" " 31
1884.....	60 " Profit, 125,000.	Profit " 2,083

Yarns and goods exports from Great Britain in 1898 were the heaviest on record, reaching a total of 1,296,781,000 lbs., and exceeding the shipments for the previous year by 75,088,000 lbs. Compared with 1896, however, the excess is only about three million pounds.

We have also received by cable the figures of takings, consumption, &c., for the three months of the season since October 1. The spinners takings in actual bales and pounds have been as follows.

October 1 to January 1.	Great Britain.	Continent.	Total.
<b>For 1898.</b>			
Takings by spinners...bales	1,018,000	1,226,000	2,244,000
Average weight of bales lbs	511	494	501.7
Takings in pounds.....	520,198,000	605,614,000	1,125,812,000
<b>For 1897.</b>			
Takings by spinners...bales	926,000	1,203,000	2,129,000
Average weight of bales lbs	505	499	501.7
Takings in pounds.....	467,720,000	600,386,000	1,068,106,000

According to the above, the average weight of the deliveries in Great Britain is 511 pounds per bale this season, against 505 pounds during the same time last season. The Continental deliveries average 494 pounds, against 499 pounds last year, and for the whole of Europe the deliveries average 501.7 pounds per bale against 501.7 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to Jan. 1.	1898.			1897.		
Bales of 500 lbs. each. 000s omitted.	Great Britain	Continent.	Total.	Great Britain	Continent.	Total.
Spinners' stock Oct. 1.	56.	483.	549.	31.	193.	214.
Takings to Jan. 1.....	1,040.	1,211.	2,251.	935.	1,200.	2,135.
Supply.....	1,096.	1,704.	2,800.	966.	1,393.	2,349.
Consumption 13 weeks	897.	1,170.	2,067.	858.	1,118.	1,976.
Spinners' stock Jan. 1	199.	534.	733.	103.	265.	373.
<b>Weekly Consumption 000s omitted</b>						
In October ..	69.0	90.0	159.0	65.0	86.0	151.0
In November	69.0	90.0	159.0	65.0	86.0	151.0
In December	69.0	90.0	159.0	65.0	86.0	151.0

The foregoing shows that the weekly consumption is now 159,000 bales of 500 pounds each, against 151,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 287,000 bales during the month, and are now 360,000 bales more than at the same date last season.

Mr. Ellison's estimate of imports, consumption and stocks for the full season of 1898-99 has also reached us by cable. He bases his results, so far as American cotton is concerned, on a crop of 11,500,000 bales, and

places the aggregate imports from all countries for the twelve months at 9,400,000 bales of ordinary weight. This total is made up of 7,900,000 bales from the United States, 700,000 bales from the East Indies, 680,000 bales from Egypt and 120,000 bales from Brazil, Smyrna, West Indies, &c. Presented in tabular form the estimate is as follows, comparison being made with revised results for 1897-98 and 1896-97.

IMPORTS OCTOBER 1 TO SEPTEMBER 30.			
	Estimated.	Actual.	Actual.
	1898-99.	1897-98.	1896-97.
American.....	7,900,000	7,253,000	5,813,000
East Indian.....	700,000	767,000	895,000
Egyptian.....	680,000	613,000	682,000
Sundries.....	120,000	127,000	213,000
Total.....	9,400,000	8,795,000	7,603,000
In bales of 500 lbs.....	9,308,000	8,762,000	7,383,000
Stock in Europ'n ports, bales 500 lbs.	855,000	496,000	691,000
Stock at Europ'n mills, bales 500 lbs.	549,000	214,000	228,000
Total, in bales 500 lbs.....	10,712,000	9,412,000	8,302,000
Consumption, 52 weeks.....	8,218,000	8,008,000	7,592,000
Stock at ports and mills Sept. 30.....	2,496,000	1,404,000	710,000
Of which at the mills.....	549,000	549,000	214,000
Leaving at the ports, bales of 500 lbs.....	1,947,000	855,000	496,000

On the bases of these estimates the combined stocks at ports and mills in Europe at the close of the season of 1898-99 will be 2,496,000 bales of 500 lbs. each, or an increase of 1,092,000 bales over September 30 1898 and a gain of 1,786,000 bales over 1897.

#### LISTINGS OF NEW SECURITIES ON THE NEW YORK STOCK EXCHANGE IN 1898.

The character and size of the listings on the New York Stock Exchange during the year 1898 were determined in large measure by five special circumstances, namely: (1) The war; (2) certain extraordinary refunding operations; (3) the conclusion of two reorganizations of the first magnitude; (4) the first step in the merging of several leading railroads; (5) a revival of the popularity and demand for great industrial consolidations.

First of these, the war, led to the issuance and listing of more than 189 millions of Government 3 per cent bonds; that event went far towards producing the remarkable result attained, viz: a total listing of bonds for the year in excess of 700 millions and in excess too of all previous records. Except, moreover, for this one item, the aggregate of loans representing new capital would have been by far the smallest of any twelve months in our fourteen-year compilation; without that the total would have reached only 56 millions, contrasting with 81 millions, the previous smallest record, and with 261 millions, the largest figure ever reached in a single year. The war consequently worked both ways. It produced the large Government loan, but it so contracted enterprise that, though the beginning and the ending of the year were bright, there was little inclination during the greater part of the twelve months to attempt the floating of bonds on or for new undertakings.

The three circumstances next mentioned united to swell to enormous proportions the total of securities issued and listed in exchange for old securities. (a) The refunding operations in progress during the year were accompanied by the listing in the aggregate of over 91 millions of refunding bonds by the following five companies: Lake Shore, Northern Pacific, New York Central, Rock Island and North West. Included in this large total are 25½ millions of New York Central 3½s and about 48 millions of Rock Island 4s.

But besides these five cases there has been effected, or well begun, during the year the refunding of various other issues of bonds whose disappearance from the market is important as raising to the position of first liens, or substantially such, loans to an immense aggregate that would otherwise remain a second mortgage. The following table brings together the more important of these:

Company.	1898.	1899.	1900.
Atchafalaya & O. fd notes.....	\$10,109,000	\$11,500,000	Gen. 4s. \$121,074,000
Den. & Rio Gr. 1st mort. 7s.....	6,387,500	61,034,500	4s. 14s. 32,998,000
Or. R.R. & Nav. 1st mort. 6s.....	2,428,000	61,202,000	Con. 4s. 19,031,000
Ind. Ill. & L. Divided bonds.....	1,757,500	None.	1s. 2,500,000
Erie & Pitts. Old 7s.....	2,611,000	230,000	Gen. 3 1/2s. 3,868,000
Ch. St. L. & N. W. 7s & 6s.....	1,432,000	280,000	Consols 17,907,000
Long Is. R.R. Old 7s.....	1,389,300	724,703	Consols 4,731,000
Great Northern. Col. trust.....	15,000,000	None.	Stock issued.

A. These are the Chicago & St. Louis 6s due in 1915. B. Due Nov. 1, 1900.  
 C. Due in 1906, but being called for the sinking fund; on Jan. 28, 1899, only \$601,000 remained outstanding. D. Due Oct. 1, 1900. E. Due Dec. 1, 1907.  
 F. Due in 1918.

The 15 millions of Great Northern 4s were replaced by an issue of the company's capital stock. In all the other cases here included the interest of the transaction attaches, as we have said, not to the manner of the refunding, or to the amount refunded, but to the effect occasioned by it on the company's remaining issues of bonds.

(b) The total of securities issued in exchange, was also swelled through the New York Central's acquisition of practically all the shares of the Lake Shore and Michigan Central roads in exchange for its own 3 1/2 per cent bonds of two issues.

In place of the nearly 69 millions of stock which these companies had in the hands of the public a year ago, there are now only about 7 1/2 millions, the balance being represented by about 108 millions of bonds. Three other mergers, or partial mergers, should be mentioned in connection with the foregoing. The Erie RR. Company has acquired the major part of the \$26,000,000 stock of the N. Y. Susquehanna & Western in exchange for its own stock. The Susquehanna shares have consequently been stricken from the list and the Erie shares increased.

Similarly, also, the New York New Haven & Hartford has acquired nearly the entire capital stock of the New England RR., the latter property having disappeared from the list, where its shares when known as the New York & New England were once such a feature. The Illinois Central has completed its purchase on extremely favorable terms of the lines of the old St. Louis Alton & Terre Haute and Chesapeake Ohio & Southwestern systems, and also of the Cedar Falls & Minnesota road, and has issued and listed on account of the same about 27 millions in bonds. Through these various virtual consolidations, independent companies with an aggregate length of road in excess of 4,500 miles have gone under the absolute control of existing large trunk lines. The Great Northern has in progress the exchange of the 20 millions of 6 per cent guaranteed stock of the leased Manitoba road for 25 millions of its own stock, and one of the last acts of the year by the Listing Committee of the Stock Exchange was to authorize the listing on Jan. 3 1899 of the new shares in so far as distributed. It may be added that yesterday there remained only about \$765,040 of the Manitoba company's stock outstanding.

The two reorganizations which have affected the list most conspicuously during the year were the Union Pacific, which afforded 61 millions of common and 75 millions of preferred stock and 90 millions of first mortgage 4s, and the Chicago Terminal Transfer, which added \$13,000,000 common and \$17,000,000 of preferred stock and \$13,000,000 of first mortgage 4s.

The last-named company was successor of the old Chicago & Northern Pacific.

The great industrial consolidations, though one of the characteristics of the closing months of the year, must, for lack of space, be dismissed with only a few words. As a matter of fact, however, the accession of the new industrial companies to the regular list of the Exchange has not been at all general. The Federal Steel Company has created and listed nearly one hundred millions in new stock, but for the most part this replaced the well-known shares of the Illinois Steel and Minnesota Iron companies and the stock of the Elgin Joliet & Eastern Railway. A more nearly complete addition to the material for investment or speculation, as the case may be, is seen in the listing of the common and preferred shares of the Glucose Sugar Refining and the International Paper companies, each of these companies having supplied in the aggregate more than 36 1/2 millions of new stock. The other industrials of the first importance, if we may omit the 7 millions stock of the Knickerbocker Ice Co. of Chicago, have made their debut principally on the unlisted department, where the following new issues were being dealt in on Jan. 1, 1899:

Company.	Common.	Preferred.	Company.	Common.	Preferred.
Amer. Maltine...	\$13,750,000	\$12,500,000	Am. Steel & W...	\$12,000,000	\$12,000,000
National Biscuit	29,000,000	23,000,000	Stand. Dis. & D...	15,000,000	8,000,000

Below are our usual tables, giving at much length the facts as to the year's listings. The first table gives the totals of the various classes of securities listed for each of the last fourteen years.

LISTINGS ON NEW YORK STOCK EXCHANGE.

Bonds.	New issues.	Old issues newly listed.	Replacing old securities.	Total.
1898.....	\$245,219,480	\$26,243,000	\$428,902,200	\$700,064,680
1897.....	87,720,502	15,713,500	253,981,900	357,415,902

Mem. D. 1st 4s, 4½s & 5s of '98	167,000	Redeem a/c. rd loan.
Un. P. 1st M. & Land Grant 4s.....	90,000,000	Reorg'n of old comp'y.
Wash. Cent. 1st 4s.....	1,533,000	Reorganization.
West. Vir. Cen. & Pitts. 1st 6s.....	230,000	Improvements.
<b>NZ Total.....</b>	<b>\$458,993,200</b>	

The railroad building for the year amounted to approximately 3,000 miles, the largest total since 1892, and yet the above table, aside from four millions in bonds issued by the Mobile & Ohio on its recently-constructed line to Montgomery, and a few smaller amounts of other issues, there are as yet scarcely any bonds on the list to represent the lately completed mileage.

The following embraces the listings of street railway and miscellaneous loans:

## LISTINGS OF STREET RAILWAY BONDS.

Company and title of loan.—	Amount.	Purpose of issue.
Brook. Qu. Co. & Sub. cons. 5s gen. \$2,235,000..		Old bonds just listed.
Brook. Rap. Trsn. gold 5s of 1915.	227,000	Improvements, etc.
Milwaukee Electric Ry. & Light Consol. 5s.....	603,000	{ Payment of obligations assumed upon acquisition of Milwaukee St. Ry., purchase of Milwaukee Ave. Light Co. and improvements.
Union Elev. RR. (Chic.) 1st 5s.....	312,000	{ Construction of RR. and power house, etc.
<b>Total.....</b>	<b>\$3,397,000</b>	

## LISTINGS OF MISCELLANEOUS BONDS.

Company and title of loan.—	Amount.	Purpose of issue.
Adams Express Coll. Trust 4s.....	\$12,000,000	100 per cent dividend.
Brooklyn Union Gas consol. 5s.....	159,000	

Company and title of loan.—	Amount.	Purpose of issue.
Columbus (O.) Gas 1st 5s.....	40,000	Improvements.
Chic. Jun. Rys. & Un. Stock Ys. { Co.—5 p. c. non-cum. Inc. bds. }	2,610,000	{ Old issue just listed.
Detroit City Gas 5s.....	4,313,000	Exch. for old bonds.
International Paper 1st cons. 6s \$8,408,000..		{ Property of constituent companies and underlying bonds.
Knickerbocker Ice 1st 5s of 1928.....	2,000,000	{ New property and improvements.
Pacific Coast 1st 5s.....	4,446,000	Exchanged for Oregon Impt. securities.
People's Gas L. & Coke Refg 5s	2,500,000	Ref. Ch. Elec. Fuel Bds.
Mutual Fuel Gas 1st 5s, guar.	5,000,000	Purchase of plant.
Reoh. & Pitts. Coal & Iron 5s.....	1,100,000	Helvetia prop'y.
U. S. Mort. & Trust Co. Col. Tr.	6,000,000	Real estate loans.
U. S. Govt. 3s of 1893.....	189,097,490	War loan.
<b>Total.....</b>	<b>\$237,672,480</b>	

The Adams Express 100 per cent dividend in bonds and the consolidated 6s of the great paper company are the items here especially worthy of notice.

Finally are given railroad and miscellaneous stocks.

## LISTINGS OF RAILROAD STOCKS.

Company and class of stock.—	Amount.	Purpose of issue.
Chic. Bart. & Quin., common..	2,670,700	Exch. for convert. b'ds.
Chic. & East. Ill. pref.....	1,000,000	{ Imp'ts and pay't of car trust notes.
Chicago Great Western com.....	\$7,600	{ Exch. for C. St. P. & K. C. bonds.
Do. 4 p. c. deb., lot. in scrip.	8,000	
Do. 5 p. c. pref. A. div. in scrip.	9,600	Exchange.
Do. 4 p. c. pref. B.....	44,910	
Chic., Ind. & Louis., pref.....	1,118,250	Improvements.
Chic. Mil. & St. Paul preferred.	2,227,500	Exc. for convert. b'ds.
Do. do. common..	705,439	Exchange.
Chic. & Northwest, common....	28,917	
Do. do. pref.....	20,000	Issued in exchange.
Chic. R. I. & Pac., common ..	3,844,000	Stock dividend.
Chic. Term. Transfer RR. com.....	13,000,000	Exch. for certificates of 17,000,000..
Do. do. pref.....	17,000,000	proprietary interest.
Col. Mid. - Vol. Tr. cert. for pref.	4,779,800	Exchanged for old securities under plan.
Col. Mid. - Vol. Tr. cert. for com.	3,420,200	
Erie RR - Voting trust certificates for 1st preferred.....	13,410,000	Exchanged for N. Y. Sus. & Western stock.
Erie RR - Voting trust certificates for common.....	10,856,400	
Great Northern.....	25,000,000	{ To retire 4s of 1892, \$15,000,000; ex for Seat. & Mon. stock, \$10,000,000.
Ill. Central RR. common.....	2,500,000	Improvements.
Iowa Central Ry. common.....	24,600	Issued under reorgau.
Do. do. preferred.....	102,300	ization plan.
Kan. City Pitts. & Gulf, com ..	630,000	Improvements.
Pitts. Ft. W. & C.—Guar. sp. st'k.	335,205	Imp. dur. cal. yr. 1898.
N. Y. N. H. & H. RR. common.	4,672,000	Exch. for New Eng. and Sh. L. & N. stock.
Rio Grande West., pref.....	200,000	Div. on common stock.
St. Louis & San Fran. common.	18,000	For St. L. K. & S. W. b'ds.
Southern Ry.—Voting trust certificates for preferred.....	2,090,800	Acc. pur. of M. & C. Ry.
Union Pacific RR. common ..	61,000,000	
Do. do. preferred ..	75,000,000	Reorganization &c.
<b>Total.....</b>	<b>\$216,632,121</b>	

## LISTINGS OF STREET RAILWAY STOCKS.

Company and class of stock.—	Amount.	Purpose of issue.
Twin City Rapid Transit 7 p. c. { cumulative, preferred..... }	577,000	{ Part payment of guarantee 8 p. c. ofts.
bird Ave. Rlt (New York) com...	2,003,000	{ Account change to underground e'co. sys.
Union Elev. RR., (Chicago) common	5,000,000	Old stock just listed.
<b>Total.....</b>	<b>\$7,577,000</b>	

## LISTINGS OF MISCELLANEOUS STOCKS.

Company and class of stock.—	Amount.	Purpose of issue.
Amer. Spirits Mfg., common .....	\$56,780	
Do. do. pref.....	14,120	Exchange.
American Tobacco Co., common..	3,100,000	
Do. do. pref.....	2,063,000	Improvements.
Branawick Dock & Impt. Co., com.	5,000,000	Exch. under plan.
Chase National Bank, common...	500,000	Inc. of capital stock.
Columbus (Ohio) Gas, common...	71,900	Extens. and improve'ts.
Columbus & Hook. Coal & Iron...	4,700,000	Ex. for old securities.
Consolidated Gas Co., common...	1,500,000	{ Extensions, meeting maturing bonds, etc.
Consol. Kara. City 8. & Ref., pref.	1,128,675	Improvements.
Detroit City Gas, common.....	2,944,300	Exch. for old stock.
Edison Elec. Ill. Co. of N. Y., com.	1,085,200	Improvements.
Eastern Elevator Co., common ..	1,000,000	Old stock just listed.
Erie Telegraph & Telephone, com.	200,000	Improvements.
Fed. Steel Co., pref.....	{ 46,000,000..Exchanged for old sec.	
	{ 6,767,600..To syndicate for cash.	
	{ 37,000,000..Exchanged for old sec.	
	{ 9,484,300..To syndicate for cash.	
General Electric, common.....	19,278,000	Entire reduced capital stock.
Do. do. pref.....	2,531,200	
Glucose Sugar Refin., common...	24,027,300	Purchase of properties and working capital.
Do. do. pref.....	12,619,300	
International Paper, common ..	16,040,000	Property of constituent companies.
Do. do. pref.....	20,530,700	
Knickerbocker Ice, common.....	4,000,000	Original capital and to acquire new prop.
Do. do. pref.....	3,000,000	
Mergenthaler Linotype, common	10,000,000	Old stock just listed.

Company and class of stock—	Amount.	Purpose of Issue.
New Central Coal, common.....	\$1,000,000	{ Entire capital stock redu. from \$5,000,000
Pacific Coast, 1st pf., n. c. 5 p. c. .	1,515,500	{ Exchanged for Oregon Improvement secur- ities under plan.
2d pf., n. c. 4 p. c. .	3,914,400	
Common.....	6,309,600	
People's Gas Light & Coke (Chi- cago) common.....	827,000	{ Exchanged for Chic- ago Gas Trust receipts.
Pullman's Palace Car.....	18,000,000	{ 50 p. c. stock dividend.
U. S. Rubber, common.....	3,500,000	{ On account purch. Bos. Rub. Shoe Co. stock.
pref.....	4,125,000	
West. El. & Mfg., assenting stock.	590,000	{ Account purchase of Walker Co.
Total.....	\$273,944,775	

The issues in the above not already mentioned but deserving more than passing notice, are (1) the new Pullman shares, 18 millions in amount; (2) the 7½ millions of Rubber stock used in the purchase of the Boston Rubber company, subject to bonds to the amount of \$5,000,000; (3) the Mergenthaler Linotype, \$10,000,000, and (4) the 12 millions or more of stock of the reorganized Oregon Improvement Company, now the successful Pacific Coast Company.

### BUSINESS IN ENGLAND IN 1898.

[Communicated by our London Correspondent.]

LONDON, January 14, 1899.

The trade of the United Kingdom has been better during 1898 than perhaps in any previous year of our history. The Board of Trade returns of imports and exports do not at first sight bear out this statement, but a little examination will show that there is nothing inconsistent between the figures of the Board of Trade and the statement itself. The value of the exports of British and Irish produce and manufactures for the whole twelve-months amounted to £233,391,000, being a decrease compared with the preceding twelve months of £829,000, or 0·35 per cent. On the other hand, the value of the imports amounted to the enormous total of £470,604,000, being an increase over the preceding year of £19,575,000 or 4·34 per cent.

The falling off in the exports seems to show at first sight that this country is being beaten in the competition for the foreign markets of the world. But in reality there is nothing to prove that this is so. The falling off follows in the first place from the small purchases by the United States of British and Irish produce and manufactures, which, it need hardly be pointed out, is largely the result of the Dingley tariff. In the second place, the falling off is due to the poverty of so many of our foreign customers. India has just passed through a severe famine, and although happily last year the crops in that country were good, the people were not immediately able to recover from the severe privations they had passed through. Moreover, during the early months of the year there was extreme stringency in the Indian money market. And, lastly, the country was tried by plague. As the year drew to its close there was gratifying evidence that India was beginning to recover from the losses she had suffered. Very considerable orders have of late been placed in this country, and particularly in Lancashire, on Indian account, and there is every reason to hope that if the growing crops are good the imports of India will increase rapidly in the immediate future. In the same way both Australia and Argentina suffered severely from locusts and drought in 1896, with the result that immense quantities of food had to be imported, especially into Australasia, and consequently our exports to both countries fell off.

Over and above these things the financial difficulties of Spain, Portugal, Italy, Greece and other

countries, the struggle of the nationalities in Austria-Hungary, the unrest in the Balkan Peninsula, the troubles in Crete, the Spanish-American war, the disputes of the Powers respecting China, and lastly the strained relations between this country and France, which lasted throughout the whole year, weighed upon every department of business. The differences with France had reference to disputed questions respecting the Newfoundland shore, West Africa, the Nile Valley, Madagascar, Siam and China. But the gravest of all appeared to be the position taken by the French officials in West Africa. Our Government contended that these officials had invaded districts which were placed by treaty under British protection and at one time grave fears were entertained that hostilities might ensue. Luckily the questions at issue in West Africa were settled. But scarcely were they so when the appearance of the Marchand expedition at Fashoda brought a still graver question to the front. Thus the financial difficulties of so many of our customers were aggravated by political anxieties and our foreign trade suffered in consequence.

It will be seen from the figures given above that the value of the imports into this country for the whole twelve-months exceeded the value of the exports (not including £60,619,000 re-exports of foreign goods) in round figures by 237½ millions sterling. It is the largest excess ever known, and it has in some superficial minds excited apprehension lest the country is living to some extent upon its capital. As a matter of fact, the excess of the imports over the exports does not represent capital, at all events does not to any material extent, but is the result partly of our prosperity and to some extent of the fears that are felt abroad. The Board of Trade returns give only the declared values of our exports when they are being put on board at the place of shipment. Therefore they do not include freight, insurance, commissions and the like; while the value of the imports shows the declared values at the place of landing, and consequently includes freight, insurance and commission. This alone accounts for a large part of the excess of the imports. During the past year there was a rise in freights of from 30 per cent to 50 per cent, due mainly, no doubt, to the war between the United States and Spain, which for so considerable a time withdrew so large an amount of American and Spanish shipping from trade. Thus, if we add not only the ordinary freights, insurance and commission, but the increased rates last year, it will be seen at once that the value of the exports was immensely larger than they appear to have been from the Board of Trade returns. Furthermore, the Trade returns do not give the coal which is shipped either for consumption on board or to serve as ballast. That again diminishes very considerably the apparent excess of our imports.

Beyond this, it will be recollected that the war between the United States and Spain, having withdrawn so much shipping from trade, gave rise to a very great demand for shipping, not so much for the trade between this country and other countries as for the commerce between other countries. An unusually large amount of British tonnage has been chartered during the year to ply between other ports of the world, not returning to a British port, and this has increased enormously the earnings of our ships during the twelve-months. Moreover, this country has investments in almost every part of the world, and the investments are usually remitted in other forms than in cash. Consequently almost the whole of what we received in the shape of interest, dividends, profits, and so on, appears in some form in the imports, and goes to swell them enormously. But it need hardly be added that these do not have to be

paid for, and do not mean, therefore, that we are living upon our capital.

Moreover, the great prosperity of the United States and the improved condition of Argentina added considerably to our receipts last year under the head of profits, dividends and interest. Lastly, very large sums were remitted to this country by other countries, for one reason or another. In the great majority of the cases I am now referring to, the money was not remitted because it was owned here, but for safe-keeping or for the purpose of making payments later on. For example, during the past year and a-half China borrowed about eight millions sterling in Germany and as much more here at home. The amount borrowed in Germany had to be remitted to the Bank of England, where it was paid over as part of the indemnity due from China to Japan. A small portion of the sum, no doubt, has been sent out to Japan, and another portion, doubtless, has been paid in the United States and elsewhere for ships and munitions of war. But the great bulk of the money has been retained here or has been paid out here for orders placed previously. Again, the Russian Government borrowed during the same year and a-half from 20 to 24 millions sterling in Germany. Far the greater part of this amount was remitted gradually to Paris and to London, and the remittances on account of these loans, as well as on account of the Chinese loans, appeared in some form in our imports. It may be added that Germany, between the beginning of September and the end of December, had to repay very considerable sums which had been borrowed here previously. And furthermore it is worthy of notice that all through the year French investors have been buying largely in this country, mainly for the purpose of securing their capital. Even during the West African negotiations and the Fashoda incident the purchases were on a very large scale, and all these went to swell our imports. As a matter of fact, then, the unusual magnitude of our imports proves that never before has the country been doing so well, and never before have our neighbors in Europe had greater confidence in the stability of our institutions and the soundness of our investments.

But perhaps the best evidence of the wonderful prosperity of our trade last year is furnished by the ship-building returns. The total tonnage constructed amounted to 1,559,125 tons, against no more than 1,222,921 tons in the year before, showing an increase of 336,304 tons in a single year. It may be worth while adding that out of the immense total only 17 vessels were sailers, with a total tonnage of barely 4,352 tons; while as many as 744 mercantile steamers were turned out, with a total tonnage of 1,393,318 tons. Speaking broadly about one-third of the total tonnage was built in Scotland and about two-thirds in England and Ireland. Ship-building is becoming a very important industry in Belfast. Elsewhere in Ireland it is a trifling matter. In the actual returns Belfast does not appear to have done quite as much as she really did, because one immense vessel of about 17,000 tons built for the White Star Line, though practically finished, was not actually launched at the end of the year. Even leaving out this immense ship, two yards at Belfast constructed more shipping than any single yard on the Clyde, and what is still more curious one or two English yards turned out more tonnage individually than any single yard on the Clyde. But the Clyde still holds the first place by far if we take the tonnage in the aggregate.

The great majority of the ships was built for British owners, but a large number was constructed for foreign countries and for the Colonies. In consequence of the great ship-building strike in 1897, business, upon the Clyde more particularly, was practically suspended for months together. The output in 1897, therefore, was very much smaller than it would have been if everything had gone smoothly. Consequently much of the work done during the year just closed was really only making up for the loss of time in the previous 12 months, owing to the great strike. But orders came in at the same time on an unusual scale in 1898, and everything seems to indicate at present that the activity of the new year will be at least as great as that of its immediate predecessor. Every three months during 1898 the amount of tonnage under construction showed a marked gain on the preceding three months, so that in spite of the enormous increase in shipping actually launched, there is a

large addition to the tonnage which is only being built, and which will not be finished, in many cases, for two years yet.

Broadly speaking, the ships turned out in the past year are of the very newest type and of the greatest capacity. All British ship-owners are vying with one another to get the most perfect kind of vessel, and in many instances ships that were built only a very few years ago and were then supposed to be marvels of marine engineering skill are now being rejected as unsuited to the time, and are being sold to foreigners, more particularly to the Scandinavian countries. Our ship-builders, besides being busy for the great trading ship-owners of this and other countries did a large amount of work for our own and foreign governments, and the British Government itself built four battleships, one first-class cruiser, two third-class cruisers and two sloops, with a total measurement of 73,090 tons, costing altogether £4,575,120. There are other cruisers practically ready but not actually launched.

Largely, no doubt, owing to the activity of ship-building, the iron and steel trades have been extraordinarily prosperous. The production of pig-iron, to take a single example increased throughout the year, and yet the consumption increased so much more rapidly that at the end there was a considerable reduction in the stocks held. What is still more remarkable, while this was going on there was but a slight rise in the price of pig-iron warrants. As a natural consequence there has been an increased import of pig-iron, not only from Spain and Sweden, but from the United States as well. And yet, to the wonder of everybody, the rise in prices has been trifling. An earnest effort is being made to increase still further the production of pig-iron. But in the trade generally it is doubted very much whether, while the consumption is growing so rapidly and is likely to continue to grow for some time yet, production can be proportionately augmented. That the great prosperity of the United States, the contemplated increase in the army and navy, and so on, will very soon raise iron and steel prices in the United States, is assumed as certain here. And there is much anxiety, therefore, lest prices at home may rise so rapidly and so seriously as to affect the iron and steel trades generally. During the past year they have been wonderfully active here; indeed they have been very active all over the world. At the present time all manufacturers are so busy the orders are passing them by and going in considerable numbers to the United States.

Some months ago one of the largest Indian railway companies tried to place orders for locomotives and rolling stock in this country and found that no firm of any standing would undertake to complete and deliver in less than two years. The company could not wait so long and the orders, therefore, went to the United States. Since then other Indian and Colonial railway companies have had the same experience, and a couple of weeks ago one of the greatest of the English railway companies—the Midland—had to place orders in the United States which could not be executed in time at home. There is every certainty, therefore, assuming that there are no great strikes, and nothing entirely unforeseen happens, that the present activity will go on for some years yet. But if there should be increased activity in the United States so that the States should be able to consume its own production, the question is being asked here, with some anxiety, what will happen? Will prices rise so that manufacturers will be unable to execute their orders except at very serious loss? That there has not been a very marked rise already is puzzling most people. The explanation generally given is that certain great firms have the control of the market, and so far have been successful preventing a rise. If the explanation be true, it seems certain that the rise must come before very long.

Naturally the unprecedented activity of the iron and steel trades has made the coal trade almost equally prosperous. For a considerable time the strike in South Wales had a bad effect on our trade. But happily the strike has now been long over and the industry is as active as it well can be.

The other great industries call for little comment. As the Board of Trade returns show there has not been very much demand abroad for our goods. But the home demand has been excellent, and in spite of complaints here and there there is scarcely a single important industry

which has not done a fairly good business; while most have done an exceptionally large and profitable one. In the flax trade there is some complaint of dullness, and the manufacturers of linen likewise complain that they are still suffering from the effects of the Dingley tariff, while in the woolen trade a development is making itself evident which is deserving of some notice. American purchases of Yorkshire woollens have continued to decline, the value of the total exports to the United States having fallen off about  $2\frac{1}{4}$  millions sterling. But on the other hand, as in so many other cases, the home demand has increased, and in spite of all the grumbling there has been fairly good employment. There has been a distinct revival in the demand for bright fabrics—more particularly new and handsome fancy cloths made from mohair and alpaca—with the result that all in this branch of the industry have been fully and profitably employed. In the cotton trade there is at the close of the year a decidedly more hopeful feeling. The total imports amounted to 4,393,000 bales of an average weight of 507 lbs. per bale—the largest quantity landed in one year in this country; 393,000 bales have been exported, leaving (after allowing for increased stocks) 3,457,000 for home consumption. The handling here of this, the largest quantity of cotton in the history of the trade, has been accomplished with the smallest variations in value recorded for many years, showing that the trade is thoroughly sound, and the final result both to importers and to merchants is that the year has been admittedly fairly prosperous.

The agricultural classes shared in the general prosperity. Since 1876, indeed, there has not been so good a year or one that favored farmers so much in every way. The fall of 1897 was exceptionally mild and dry, so that farmers were able to prepare their lands in the most satisfactory way and to get in their autumnal crops under the most favorable conditions. The spring of 1898 was equally satisfactory. The summer was unusually hot. Consequently there have been exceptionally large crops gathered, under the best of conditions. The hay crop was larger than for many years. The average yield of wheat, according to the Government returns, was  $33\frac{3}{4}$  bushels per acre, and the estimated average for barley was as high as  $35\frac{3}{4}$  bushels. In the case of wheat, over three counties the estimated yield was as high as  $37\frac{1}{4}$  bushels, while in the Southwestern counties, where the lowest average yield was returned, the estimate was as high as  $30\frac{3}{4}$  bushels, comparing with  $26\frac{1}{4}$  bushels in 1897 and  $29\frac{1}{4}$  bushels, the average for the ten years ended December last. Even, therefore, the lowest average for any part of England last year was higher than the average for the whole of England for the ten years ended last month, and was considerably higher than the average for 1897. The price, it is true, fell, but even now the average price of wheat is decidedly higher than it was a few years ago, while the prices both of oats and barley are also very much higher.

Upon the whole, the farmers have done exceedingly well, and the quality of all kinds of grain is as satisfactory as the quantity. There are some complaints in the case of the pastoral industry that the competition of the United States and of the Australasian colonies, as well as of Argentina, by means of the enormous imports of fresh meat, is forcing down prices and making the future less encouraging. But in spite of those complaints the pastoral industry is doing well. Food of all kinds for cattle is plentiful and cheap, the weather is open and mild, and though prices are not as good as they were twelve months since, they are very much more satisfactory than they were a few years ago. The truth is that the general prosperity of the country is so great that the consumption of all kinds of agricultural produce is increasing week by week, and in spite of the immense imports of not only grain but food stuffs of every kind, prices do not decline as they did a little while ago.

Upon the Exchange the year has been uneventful and disappointing. It began with high hopes. Trade even then was advancing at great strides, and it looked as if all causes of serious strife had been removed. Very soon, however, Russian progress in China alarmed the public here, and there was an outcry because Lord Salisbury had not prevented the acquisition by that country of Port Arthur and Talienwan. At the same time the rising on the northwest frontier of India was still unsuppressed, and Lord Kitchen-

er's advance upon Khartoum was being actively prepared. It looked as if there was an understanding between Russia, France and German hostile to this country; that the United States would not interfere; and that the keeping open of the trade for the rest of the world with China would devolve upon the British Empire alone. Then came the crisis in the long dispute with France respecting West Africa. Certain positions were seized by the French which, in the opinion of our authorities, were undoubtedly British, and for a little while there was serious danger of a collision. That was happily averted, and an arrangement was arrived at. But the Fashoda incident quickly sprang up, once more to threaten our relations with France. Major Marchand was withdrawn. But the French Government declined to open negotiations respecting the other points at issue between the two countries—the French-Newfoundland shore, Madagascar, Siam and China. Above all, even while withdrawing Major Marchand, France refused to recognize our position in the Nile Valley.

Thus to the very end of the year political anxieties continued, the investing public held aloof from the market, promoters recognized that the time for bringing out great loans and companies was inopportune, and business stagnated upon the Stock Exchange. The examination of Mr. Hooley added to the discouragement of company promoters. Mr. Hooley a few years ago was in business in a small way in a midland town. Suddenly he blossomed forth as a large promoter of bicycle companies. In that business he made a very large fortune, and then he went in for grandiose schemes involving millions of money. His career lasted altogether only a couple of years, and early in 1898 he had to declare himself bankrupt. At his first examination he made sensational charges against a great number of persons, many of them noblemen who had hitherto been regarded as men of high character. The effect of these charges was to disincline the public for the moment to have anything to do with new issues. If it were really true, as Mr. Hooley alleged, that a number of noblemen who had been supposed to be men of honor had sold themselves to that gentleman to serve as directors upon his companies, how could the public trust any board or know who was acting in a bona fide way?

Never perhaps in years of prosperity in trade and confidence in the money market have so few new issues been brought out. And rarely has there been so little investment upon the Stock Exchange. Speculation, too, has been singularly absent and dull. There has been, of course, a certain amount of speculation in American securities, but it has been very largely confined to members of the Stock Exchange and professional operators. The great public has done little. Outside of the American department there has practically been no speculation at all. And the same may be said generally of the European bourses.

In Paris business has been practically paralyzed by the Dreyfus affair, by the dread of a military *coup d'état*, and by the fear of a collision with this country. Moreover, the new Bourse regulations have prohibited the outside market from dealing in the great majority of securities, and the inside or recognized market does not give very much facility to speculators. The Paris Bourse, moreover, has suffered considerably from the Spanish reverses. French investments in Spain are generally estimated at about 160 millions sterling, or 800 million dollars. And in the present condition of Spain nobody can foresee what may happen or how much lower that country may sink. Furthermore, France has invested largely in Austria-Hungary, and the struggle of the nationalities there makes it doubtful whether her investments will prove at all profitable. Lastly, the position in the Balkan Peninsula and of Turkey generally is not favorable to the French Bourse and the French banks. Germany ever since August has been passing through the early stages of a crisis. The money market has been extremely stringent and German operators have had all they could do to maintain the home market.

Thus political apprehension, the disturbed state of so great a part of the world, and the pecuniary difficulties of the several Continental bourses, have all combined to impress upon the London market the extreme necessity for caution.

The money market has been decidedly much more active than the stock market, and has seen much greater changes.

The discount rate of the Bank of England was at the beginning of the year 3 per cent. The shipment of considerable amounts of gold to New York before the war with Spain began caused the Bank to raise its rate to 4 per cent in April. In consequence a large amount of gold was sent into the Bank, and at the end of May the rate was reduced to  $3\frac{1}{2}$  per cent. A little later it went down to 3 per cent and at the end of June to  $2\frac{1}{2}$  per cent. Very soon, however, it became plain that the Directors of the Bank of England had acted too precipitately. Trade in Germany had been exceedingly active and prosperous for some years and speculation had become wild. There was a great manufacture of industrial companies and the securities of these companies were run to very high quotations. The best opinion is that, speaking broadly, the industrial companies are sound, that they will continue to pay good dividends, and that in the end no serious loss will fall upon Germany. But prices have been run too high, and as there is no market for the sale of these industrial securities abroad, the encumbered speculators cannot relieve themselves in that way.

During the speculation very large sums were raised in London and Paris. But about the beginning of September the London banks refused to discount any more of the numerous German bank acceptances which were then circulating in the market. The German banks upon this were compelled to take up and pay off the acceptances. To do so as quickly as was required they had to curtail the accommodation they had previously been giving to their foreign customers, especially those of Russia and the Scandinavian countries, and these customers had to apply for help to London. To a considerable extent, then, the money was ultimately supplied by London; for the foreign customers of the German banks were in many cases unable to re-pay what they had obtained, without help from London. Still a considerable amount had to be remitted direct from Berlin to London. Rates rose rapidly in Berlin and the French banks, which had already lent considerably to Germany, lent immense sums. The Imperial Bank of Germany was forced to raise its rate to 6 per cent, and the Bank of England advanced its rate to 3 per cent in September and to 4 per cent in October. The latter rate has proved sufficient so far, partly because a great deal of money due to America has been left in London for employment here and partly because it is understood that a very considerable amount of help has been given by American bankers to German bankers likewise. But up to the very end of the year there was a certain amount of apprehension respecting the state of things in Germany.

If it be really true, as has been estimated on good authority, that French money employed in Germany amounts to something like 30 millions sterling, or 100 million dollars, it is evident that it was in the power of the French banks to cause very serious financial trouble in Germany during November and December. It is quite true, of course, that if they had done so they would suffer themselves. But, supposing there had been an insurrection in Paris, or an attempt at a *coup d'état*, or had any of the numerous dangers that from time to time have seemed to hang over Paris actually occurred, the French banks might have been compelled to withdraw their money suddenly and a crisis might have been brought about in Germany. Luckily, the French banks remained cool and the Bank of France contented itself with raising its rate of discount to  $3\frac{1}{2}$  per cent.

In the very last week of the year, however, the Bank of France intimated to the great French banks that they had better not bring to it for discount financial paper. Everywhere it was understood that this meant the French banks must withdraw a considerable amount of the money that they were then employing in Germany and in Austria-Hungary. Rightly or wrongly, the Paris market jumped to the conclusion that the Bank of France had arrived at the opinion that the domestic difficulties were becoming more threatening even than they looked to the rest of the world, and that a war with England was not all improbable. The other French banks immediately began to call in money from Germany, and the uneasiness in Paris grew to such a pitch that deposits were withdrawn from several of the banks, it is said at the rate of two millions sterling a week. Happily by this time money had begun to return from the interior to the Imperial Bank of Germany, and so far, therefore, no adverse results have followed.

Meanwhile the value of money has been decidedly higher throughout the year than for a considerable time past. The average Bank of England rate has been  $3\frac{1}{4}$  against £2 12s. 10d. in the year before. The average open market rate has been £2 12s. 8d. against £1 16s. 8d. the year before. And the average rate allowed on deposits at notice by discount houses has been £1 19s. 3d. against £1 9s. 0d. the year before.

The imports of gold have been on a large scale—£43,721,630, according to the Board of Trade returns, and the exports have amounted to £36,590,050. There appears to be thus an excess of imports over exports of £7,131,570. From South Africa alone over 16½ millions sterling were received, nearly 4½ millions sterling from France, not much under 4 millions sterling from Germany, over a million and a-half sterling from Holland, and nearly a million and a-half sterling from China, and almost 2½ millions sterling from Japan. But on the other hand large amounts were exported, nearly 11 millions sterling to the United States, over 12½ millions sterling to Germany for the greater part of which, however, went to Russia, over 2½ millions sterling to India, nearly 1½ millions sterling to France and over £1,100,000 to Holland.

The silver market fluctuated a good deal. The imports very slightly exceeded the exports; but the price varied considerably. In the early part of the year the price was maintained at 26½d. for a considerable time by Indian buying. In March, however, the quotations fell to 25d. In May Spain began to buy on a considerable scale and continued until November. The price rose to 28 5-16d., which was the highest quotation of the year. Then the price dropped to 27½d., and it fluctuated during December between 27½d. and 27¾d.

The appended table, made up from the official statements of the Bank of England, shows the position of the Bank as regards bullion, reserve, etc., each week of the year.

## FAILURES BY BRANCHES OF TRADE.

We take from Dnn's Review the following statement showing the failures in the United States by branches of trade for the twelve months ending December 31 in each of the last three years.

But gradually the French public is beginning to see that in accusing our Government of a desire to force France into war they are altogether over-shooting the mark, and apparently a more reasonable and more practicable spirit is growing up. Some of the better French papers are endeavoring to convince Frenchmen that a war with the British Empire would mean the loss of all the foreign possessions of France, and that therefore it is the part of wise men to come without further delay to a reasonable settlement.

The resignation of M. Quesnay de Beaurepaire and the charges brought by him against his late colleagues likewise made a very bad impression in the city as well as upon the Continent. But it seems clear now that the resignation has entirely missed its mark, and that the ex judge has simply ruined himself. A very much better feeling has sprung up in Paris respecting home politics as well as foreign. It is coming to be thought that the Reactionaries have exercised all their machinations; that the Dreyfus inquiry will be carried calmly to its conclusion; and that before very long revision will be ordered. In short, the hope is entertained by the more enlightened and more far-seeing people in France that at last the Military Party is very near a complete defeat.

As a consequence of all this, the withdrawal of deposits from the French savings banks and from some of the other banks, which was exciting a good deal of apprehension a week ago, has come to an end and the calling home of French money from Germany is likewise being stopped. The impression is now gaining ground that the Bank of France is satisfied with the effect it has made, that it will interpose no fresh obstacles, and moreover that it will not raise its rate of discount above 3%.

In Germany the stringency in the money market continues, as is natural seeing that while money is returning from the interior to the Imperial Bank, yet the French banks are calling home from Germany considerable sums. For all that the Imperial Bank is gaining strength. The impression both in Germany and in London and Paris is that the Imperial Bank will not have to keep its rate at 6% much longer, and that the worst of the stringency is over.

In Belgium, on the other hand, it looks as if a difficult time was setting in. In Belgium, as in Germany, trade has been exceedingly good for a considerable time past and speculation has run rampant; entirely too many electrical companies have been created as well as other industrial companies; and prices have been run up too high. The State Bank keeps its rate of discount at 8%; but the rate of discount in the open market is from 3½% to 3¾%, and it is feared that rates will rise considerably more. In fact, the action of the Bank of France, which is supposed to have been directed against the lending of large sums in Germany, has had a much greater effect in Belgium, and threatens to cause a good deal of trouble there.

In spite of all, however, there is a clear recovery in the Paris market. Confidence is reviving, there is much more inclination to buy, and in fact French operators have been purchasing South African mining shares on a very considerable scale in London during the past three days.

Early in the week there was an inclination here to think that speculation in New York was being carried too far. Everybody recognizes how wonderfully prosperous the United States is, and that the prosperity will continue to grow for some years yet; but the majority of the more cautious people were inclined to think that prices were being run up too fast, and that a sharp reaction was to be expected. Accordingly, a very large amount of shares was sold at the beginning of the week. It is estimated by good Stock Exchange authorities that on Tuesday and Wednesday London sold in New York no less than 100,000 shares. Whether the estimate is correct or not, undoubtedly the sales were very numerous. On Thursday, although selling continued, there was also a good deal of buying. The more cautious are inclined to think that the professional operators both here and in New York and Paris are going too far and too quick in the American market, in the South African mining market, and in industrials; but the more speculative public thinks that the advance in prices will continue for months yet.

The real truth is that the course of the London market proper depends mainly upon the course of politics. If the French Government is willing to enter into negotiations with our own, with an earnest desire to settle on a fair basis all the questions outstanding, the investor will begin to buy once more and then markets will become stronger than they have been for many a year. But as long as the fear remains that we may be involved in war with France at any moment, the investor will not buy on any considerable scale, and the absence of the investor means a naturally weak market. Money continues fairly easy as it almost always is during the first half of January. Interest and dividends on an enormous scale have been paid and are being paid. But the market will begin to tighten up towards the end of the month. If there should be an outflow of money from New York to the interior next month, such as occurred in February last year, the more careful observers are of the opin-

ion that gold may be taken by New York on a considerable scale, and if New York begins to take gold rates will rise here very rapidly. It is possible too that gold may go to Germany and to Russia, while it is thought probable that some gold may go to India.

The position in India just now is becoming very interesting, and may have a considerable influence on the European money markets. On Wednesday the India Council offered for tender 60 lacs of rupees, and the applications exceeded 737 lacs. The whole amount offered was sold at prices averaging about 1s. 43-32d. for bills and 1s. 41-4d. for telegraphic transfers. It will be seen that for two weeks in succession the applications have been over twelve times the amount offered by the Council. From this it is evident that the exchange banks are extremely anxious to supply themselves with cash for the exporting season just now beginning, and that they are very largely dependent for that purpose upon the India Council.

The belief here amongst the best-informed is that the Indian money-market will not be as stringent as it was last year and the year before, mainly because the Government is much better in funds and has neither famine nor war to struggle against, and the Government is keeping very large balances with the Presidency banks. But the rate of discount both in Bombay and Bengal is now 7 per cent, and it will almost certainly before long rise to 8 per cent. The Presidency banks, even though fully backed by the Government, cannot accommodate exporters fully. But how are the Exchange banks to get out funds if they cannot sell silver freely? Of course the India Council can increase its sales as it pleases, and indeed it is suggested that the Council should sell for the purpose of accumulating gold in London; in other words, that it should accumulate half a million or a million sterling in gold, and keep the amount ear-marked for itself in the Bank of England.

Another suggestion is that the Council should refuse to sell more than it requires and should thus compel the banks either to pay in gold to the credit of the Council in London or else to send out gold to India. A third proposal is that gold should be sent direct from Australia to India, and in fact it is reported this week that about half a million sterling is so being sent. It will be seen that India may exercise a very considerable influence upon our money market before long.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1899. Jan. 11.	1898. Jan. 12.	1897. Jan. 13.	1896. Jan. 15.
Circulation.....	87,731,420	87,502,390	26,024,906	25,780,000

Meers, Pixley and Abell write as follows under date of Jan. 12:

Gold—During the week America has been a fair buyer, but has now entirely ceased. Germany, which has also been buying somewhat steadily, is now more inclined to await lower prices. With the recent rather intermittent demands no advance in price took place, and lower rates seem likely for the next arrivals. Arrivals: West India, 237,000; South Africa, 2177,000; Chili, 26,000; total, 2,220,000. Shipments: Bombay, 235,000. From the Bank, 235,000, which goes chiefly to Buenos Ayres.

Silver—The India demand has died away, but there has been sufficient Continental inquiry for spot and short delivery silver to keep the market steady. With inquiries for forward delivery from the Straits the discount on forward supplies has disappeared, and the same quotation holds good for both "cash" and "forward." The Indian price is Rs. 64 1/2 per 100 Tola. Arrivals: New York, 2173,000; West India, 29,000; Chili, 223,000; total, 2,205,000. Shipments: Bombay, 2102,000.

Mexican Dollars—The demand for the Straits still keeps good, and the last price at which business was done is 26 3/4d.

The quotations for bullion are reported as follows:

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO JANUARY 1.—The Comptroller of the Currency has furnished

us the following, showing the amounts of national bank notes December 1, together with the amounts outstanding January 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to January 1.

<b>National Bank Notes—</b>		
Amount outstanding Dec. 1, 1898.....		\$242,702,038
Amount issued during Dec.....	\$2,400,910	
Amount retired during Dec.....	1,367,843	1,033,087
Amount outstanding Jan. 1, 1899.....		\$243,735,105
<b>Legal Tender Notes—</b>		
Amount on deposit to redeem national bank notes Dec. 1, 1898.....		\$28,773,496
Amount deposited during Dec.....	\$2,450,523	
Am't. released and bank notes retired in Dec.....	1,504,901	945,622
Amount on deposit to redeem national bank notes Jan. 1, 1899.....		\$29,719,118

\* Circulation of National Gold Banks, not included in above, \$82,765.

According to the above the amount of legal tenders on deposit January 1 with the Treasurer of the United States to redeem national bank notes was \$29,719,118. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months.

Deposits by—	Sept. 1.	Oct. 1.	Nov. 1.	Dec. 1.	Jan. 1.
Insolvent bks.	1,137,622	1,615,570	1,620,511	1,680,194	1,796,158
Liquid bks.	6,175,778	6,081,894	6,035,750	6,067,130	6,325,710
Red'g'd fund.*					
Act of 1874.	23,089,511	22,603,423	21,844,564	21,026,171	21,597,250
Total.....	30,402,911	29,300,887	29,500,825	28,773,495	29,719,118

\* Act of June 20, 1874, and July 12, 1882.

GOVERNMENT REVENUE AND EXPENDITURES.—Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of December. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the calendar years 1898 and 1897.

- 2,442.—The First National Bank of Carthage, New York. Edward N. Smith appointed Receiver in place of Josiah Van Vranken, to take effect November 17, 1898.
- 3,036.—The Consolidated National Bank of San Diego, California. William J. Cook appointed receiver in place of Andrew J. O'Connor, deceased, to take effect November 29, 1898.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods Jan. 19 and for the week ending for general merchandise Jan. 20; also totals since the beginning of the first week in January.

#### FOREIGN IMPORTS AT NEW YORK.

For week.	1899.	1898.	1897.	1896.
Dry Goods....	\$2,501,264	\$2,335,968	\$2,463,479	\$3,911,517
Gen'l mer'chise	5,731,182	6,995,452	4,914,070	7,233,947
<b>Total.....</b>	<b>\$8,232,446</b>	<b>\$9,331,418</b>	<b>\$7,377,549</b>	<b>\$11,145,464</b>
Since Jan. 1.				
Dry Goods....	\$6,395,925	\$7,148,148	\$7,150,867	\$10,128,578
Gen'l mer'chise	20,624,871	18,432,825	20,834,905	21,286,993
<b>Total 3 weeks</b>	<b>\$27,020,796</b>	<b>\$25,580,973</b>	<b>\$27,985,472</b>	<b>\$31,413,569</b>

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 23 and from January 1 to date:

#### EXPORTS FROM NEW YORK FOR THE WEEK.

	1899.	1898.	1897.	1896.
For the week.	\$9,230,596	\$10,797,289	\$7,781,814	\$7,649,948
Prev. reported	25,845,392	17,559,358	17,884,853	17,614,809
<b>Total 3 weeks</b>	<b>\$34,775,988</b>	<b>\$28,356,627</b>	<b>\$25,666,667</b>	<b>\$25,264,757</b>

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 21 and since January 31, 1899, and for the corresponding periods in 1898 and 1897.

#### EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....			\$1,557,856	\$1,557,856
France.....				
Germany.....			184,927	184,927
West Indies.....	\$167,486	\$1,335,824	3,832	14,035
Mexico.....			8,672	38,758
South America.....	600	5,600	2,311	19,879
All other countries.....			2,548	4,893
<b>Total 1899.....</b>	<b>\$168,086</b>	<b>\$1,341,424</b>	<b>\$1,760,146</b>	<b>\$1,620,348</b>
<b>Total 1898.....</b>	<b>779,545</b>	<b>1,325,585</b>	<b>725,433</b>	<b>1,770,203</b>
<b>Total 1897.....</b>	<b>26,400</b>	<b>125,300</b>	<b>37,782</b>	<b>181,520</b>

Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$982,000	\$2,822,540	\$9,165	\$9,165
France.....		82,450		
Germany.....				
West Indies.....	4,000	46,000	227	22,162
Mexico.....			93,082	114,070
South America.....			18,649	54,890
All other countries.....			2,266	5,844
<b>Total 1899.....</b>	<b>\$986,000</b>	<b>\$2,950,990</b>	<b>\$123,989</b>	<b>\$206,121</b>
<b>Total 1898.....</b>	<b>1,096,650</b>	<b>5,844,628</b>	<b>26,370</b>	<b>240,518</b>
<b>Total 1897.....</b>	<b>880,330</b>	<b>2,317,874</b>	<b>99,694</b>	<b>176,783</b>

Of the above imports for the week in 1899 \$5,024 were American gold coin and \$59 American silver coin. Of the exports during the same time \$168,086 were American gold coin and \$4,600 were American silver coin.

**New York City, Boston and Philadelphia Banks.**—Below we furnish a summary of the weekly returns of the Clearing-House Banks of New York City, Boston and Philadelphia. The New York figures do not include results for the non-member banks.

WALL STREET, FRIDAY, JAN. 27, 1899.—3 P. M.

**The Money Market and Financial Situation.**—A volume of business which taxed the facilities of the Stock Exchange and the clerical force in brokers' offices as they never were taxed before has been transacted this week in Wall Street. The public is in the market and its capacity for absorbing securities seems at the moment unlimited. The freedom with which money is offered to borrowers and the low rate that is obtainable on savings bank deposits and funds held outside the circles of active trade have contributed in no small degree to the conditions mentioned. Of course in such a market as we have had this week a considerable amount of speculation is represented, but after making allowance for such transactions the legitimate purchases of high grade securities have been on a large scale.

It is not surprising that the upward movement of prices has been accompanied by rumors of various consolidation schemes. Some of these were of enormous magnitude, but in most cases there is no evidence that such rumors had any foundation in fact.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 1/4 to 3 per cent. To-day's rates on call were 2 1/4 to 3 per cent. Prime commercial paper quoted 2 1/4 to 3 1/2 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £714,266, and the percentage of reserve to liabilities was 45.90, against 44.80 last week; the discount rate remains unchanged at 3 1/4 per cent. The Bank of France shows an increase of 6,875,000 francs in gold and 1,925,000 francs in silver.

**Foreign Exchange.**—The foreign exchange market has been alternately easy and firm, with very little change in rates or general conditions.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 82 1/4 @ 83; demand, 4 81 1/4 @ 85; cables, 4 85 1/4 @ 85 1/4; prime commercial, sixty days, 4 82 1/4 @ 82 1/2; documentary commercial, sixty days, 4 81 1/2 @ 82 1/4; grain for payment, 4 83 @ 82 1/4; cotton for payment, 4 81 1/2 @ 81 1/4; cotton for acceptance, 4 82 1/4 @ 82 1/4.

Posted rates of leading bankers follow:

	Jan. 27.	Sixty days.	Demand.
Prime bankers' sterling bills on London.....	4 83 1/4		4 85 1/4 @ 86
Prime commercial.....	4 82 1/4 @ 82 1/2		
Documentary commercial.....	4 81 1/4 @ 82 1/4		
Paris bankers' (francs).....	5 21 1/2 @ 21 1/2		5 19 1/2 @ 20 1/2
Amsterdam (guldens) bankers.....	39 1/2 @ 39 1/2		40 1/2 @ 40 1/2
Frankfort or Bremen (reichmarks) bankers.....	94 1/2 @ 94 1/2		94 1/2 @ 94 1/2

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 premium, selling 75c. per \$1,000 premium; Charleston buying par, selling 1 1/4 premium; New Orleans, bank, \$1 00 premium; commercial, 25c. discount; Chicago, 5c. per \$1,000 premium; St. Louis, 25c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$300,000 4s, coup., 1925, at 129 to 129 1/4; \$5,000 4s reg., 1925, at 128 1/4; \$55,000 4s, coup., 1907, at 112 1/4 to 113; \$3,000 4s, reg., 1907, at 112 1/4; \$170,000 3s, coup., 107 1/2 to 107 3/4, and \$14,000 2s, reg., at 99 1/4 to 99 1/2. The following are the daily closing quotations: for yearly range see seventh page following.

4s, (Cher.) 1899, reg. March.		102 1/4	102 1/4	102 1/4	102 1/4	102 1/4	102 1/4

\*This is the price bid at the morning board; no sale was made.

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$30,000 Tennessee settlement 3s at 95 to 96 1/4; \$90,500 Virginia fund, debt 2-3s of 1891 at 86 1/4 to 87 and \$10,000 Virginia 6s deferred trust receipts, stamped, at 7 1/4.

The market for railway bonds has been unusually active and generally strong. Transactions at the Exchange averaged about \$7,000,000 par value per day, of which high-grade issues formed a very small percentage. The movement of prices was irregular, although net changes are generally to a higher level. An advance of 5 points was made by Cleveland Cincinnati Chicago & St. Louis general 4s, Kansas City Pittsburg & Gulf 4s and Oregon Short Line income B issues.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales	Week ending Jan. 27.	Jan. 1 to Jan. 27.
N. Y. Stock Exch.	1899.	1898.
Government bonds	\$547,000	\$86,000
State bonds.....	185,600	27,000
R.R. & misc. bonds.	39,777,500	25,028,010
Total.....	\$10,499,100	\$11,119,010

Total.....	7,439,553	\$719,941,850	\$39,777,500	\$165,000

The sales on the Boston and Philadelphia Exchanges were:

	Listed	Unlisted	Bond	Listed	Unlisted	Bond
	shares.	shares.	sales.	shares.	shares.	sales.
Saturday..	71,977	7,003	\$14,835	37,616	21,750	\$133,166
Monday...	97,800	14,950	\$31,000	52,977	43,548	\$48,195
Tuesday...	71,140	19,013	\$75,400	79,641	39,200	\$97,438
Wednesday...	68,540	11,600	\$204,275	60,949	48,434	\$110,845
Thursday...	88,332	43,194	\$99,850	43,654	52,868	\$248,800
Friday....	38,000	59,000	\$125,000	60,345	12,555	\$307,910
Total....	439,080	143,659	\$1,344,850	349,708	266,053	\$1,624,280

NOTE.—The total of sales on the Boston Exchange for the week ending Jan. 27, omitted last week on account of non receipt of our telegram for Friday, were as follows: Listed shares, 444,561; unlisted shares, 145,900; bonds, \$1,441,650.

**Railroad and Miscellaneous Stocks.**—The distinctive features of last week's stock market have been emphasized this week, including the enormous volume of business, well distributed, the advance of gilt edged railway stocks, and irregular movement of speculative issues.

The eagerness with which the investing public is purchasing stocks is illustrated by the advance of New York Central to 140, Pennsylvania to 138 1/4, North West, to 152 1/4, Burlington & Quincy to 141 1/4, St. Paul above 130, Illinois Central 122, and some other standard shares proportionately high. Of course there have been recessions from the quotations mentioned, but in most cases they are limited to a fraction of the advance recorded. While this movement was in progress Pittsburg Cincinnati Chicago & St. Louis fluctuated over a range of nearly 20 points, Canada Southern over 13 points. Reading 1st preferred a range of 8 points, Delaware & Hudson and New York Ontario & Western nearly 6 points. Metropolitan Street Railway made a sensational advance on Thursday to 220 1/4, against 197 on Wednesday. At the same time Manhattan Elevated sold 5 1/4 points above the lowest price of the week, and Brooklyn Rapid Transit covered a range of nearly 7 points. Twin City Rapid Transit has been conspicuous in largely increased transactions and an advance of about 17 points within the week. With so much interest manifested in railway stocks it is not surprising that the miscellaneous list has been neglected and fluctuations in that department relatively narrow. General Electric is an exception; it has steadily advanced and shows a gain of about 11 points. Pacific Mail advanced 7 points.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **STEAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.		Jan. 1 to Latest Date.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of January 31, 1899. The next will appear in the issue of February 18, 1899.

	Gross Earnings.		Net Earnings.	
	1899.	1897.	1898.	1897.
Allegheny Valley, b. Dec.	227,140	223,188	90,993	92,735

July 1 to Dec. 31...	7,399,141	6,613,473	1,984,829	2,233,409

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

\* After allowing for other income received, total net from July 1 to December 31, 1898, was \$296,210, against \$243,916.

† For Dec., 1898, taxes and rentals amounted to \$120,832, against \$127,436, and from July 1 to Dec. 31, \$311,187, against \$839,314, after deducting which net for Dec., 1898, was \$1,291,238, against \$988,941. From July 1 to Dec. 31, 1899, net after deducting taxes and rentals is \$3,448,031, against \$5,383,041.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

	—Int., Rentals, &c.—		—Bal. of Net Earn'g.—	
Roads.	1899.	1897.	1898.	1897.
Chic. & East. Ill. .... Dec.	123,005	127,229	128,009	110,910
July 1 to Dec. 31 ...	761,354	780,042	469,133	330,160
Philadelphia & Reading—				
All companies. .... Dec.	750,000	753,662	236,203	226,298

\* Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of January 21, 1899. The next will appear in the issue of February 18, 1899.

Total.....	44,192,409	45,380,967	45,973,585	46,593,422
Liabilities—	.....	.....	.....	.....
Stock.....	26,200,000	26,200,000	26,200,000	26,200,000
Funded debt.....	3,067,000	3,067,000	3,067,000	3,067,000
Net cash and current accounts payable.....	1,031,879	799,990	1,468,908	.....
Surplus account.....	13,893,530	15,313,977	15,237,677	17,326,422

Total liabilities.....44,192,409 45,380,967 45,973,585 46,593,422

The report shows that 5½ per cent was earned on the stock in 1898 against 7.29 per cent in 1897, 5.05 in 1896, 5.17 in 1895, 6.24 in 1894, 11.04 in 1893, 9.98 in 1892, 9.21 in 1891, 10 in 1890 and 8.20 in 1889.

The items which go to make up the above "net cash and current accounts" are as follows:

	1898.	1897.	1896.
Accounts receivable as follows:—	.....	.....	.....
Cash on hand.....	1,039,661	1,017,624	1,156,587
Coal on hand (less than market val.)	1,821,034	2,205,705	2,409,923
Advances to leased roads.....	1,173,510	1,101,334	985,534
Advances on coal to be delivered, &c.	1,559,863	1,584,703	1,586,230
Coal bills and sundry accounts due.....	2,083,819	1,706,321	1,616,604
Sundry accounts receivable.....	401,771	630,560	422,097
Total.....	8,059,688	8,227,237	8,166,976

	1898.	1897.	1896.
Less accounts payable, viz:—	.....	.....	.....
Past due div'ds, interest and rentals.....	185,998	175,412	150,563
D. L. & W. div. payable in January.....	452,500	458,500	454,500
Rentals payable after Jan. 1.....	1,689,514	1,870,138	1,664,175
State taxes payable after Jan. 1.....	444,600	513,076	492,203
December pay-rolls payable in Jan.....	913,756	906,652	825,546
Bonds and mortgages.....	107,074	107,074	139,741
Vouchers due and pay. after Jan. 1.....	3,150,213	2,955,228	2,885,156
Sundry railroad accounts.....	2,161,904	2,241,147	3,240,000
Total.....	9,091,568	9,027,228	9,635,883
Balance of accounts payable.....	1,031,880	799,990	1,468,908

\*Of which \$6,086,756 has been paid since close of year. The surplus account was charged during the year with \$910,711 for depreciation of rolling stock, etc.

—V. 87, p. 1303.

## Atlantic &amp; Danville RR.

(Report for year ending June 30, 1898.)

President B. Newgass says in part:

A dividend of 1 per cent on the preferred stock was again paid last September. The increased earnings and the financial condition of the company would have justified the payment at a higher rate, but the policy was followed of further strengthening the cash reserves. The General Manager reports the entire property in thoroughly good condition. A standard-gauge branch of 5 miles is now under construction by the company into a copper-mining district of North Carolina. The capital stock remains the same as last year, and no occasion has arisen to draw into requisition any portion of the \$262,000 first mortgage bonds deposited with the Mercantile Trust Co. The company has continued to conduct its business on a strictly cash basis, and has incurred no obligations of either car trust or other character.

have been sold to replace them, effecting a saving in the company's interest charge of about \$8,250 per annum.—V. 68, p. 40.

**Central Union Gas Co.—Natural Gas Consolidation.—Consolidation Plan.**—A committee consisting of F. P. Olcott, Chas. F. Dieterich, Anthony N. Brady, John Sloan, Samuel Thomas, E. C. Benedict and Samuel Thorne, has arranged that this company, to be organized under the laws of New Jersey shall unite the companies named hereinafter and others in Central and Southern Indiana and Ohio, controlling illuminating gas, natural gas and electric-lighting companies, properties, plants and franchises in that section. The new company will be authorized to issue capital stock as follows: 7 per cent cumulative preferred stock, \$30,000,000; common stock, \$30,000,000. Of this authorized capital, \$5,000,000 each of preferred and common are to be retained in the treasury to provide for contingencies; for the purchase of additional properties; or for extensions, improvements, etc. The companies to be acquired forthwith are:

- |   |                                |
|---|--------------------------------|
| (1.) Indianapolis Gas Co.                   | (9.) Covington Gas Co.         |
| (2.) Indiana Natural & Illuminating Gas Co. | (10.) New Weston Gas Co.       |
| (3.) Fort Wayne Gas Co.                     | (11.) Piqua Gas Co.            |
| (4.) Logansport & Wabash Valley Gas Co.     | (12.) Sidney Gas Co.           |
| (5.) Lafayette Gas Co.                      | (13.) Troy Gas Co.             |
| (6.) Ohio & Indiana Gas Co.                 | (14.) Springfield Gas Co.      |
| (7.) Dayton Gas Co.                         | (15.) Urbana Gas Co.           |
| (8.) Tippecanoe City Gas Co.                | (16.) South Charleston Gas Co. |
|   | (17.) Mt. Sterling Gas Co.     |

The assent of a majority of all the stocks and bonds of the first six companies mentioned has been secured to the plan; and, in the case of the last eleven companies, consent in respect to every share and bond has been obtained. Although a sufficient number have assented to make the plan operative, it is desirable to make it unanimous if possible. Holders are, therefore, invited to exchange their stocks and bonds for the preferred and common stock of the Central Union Gas Co. upon the following terms:

Constituent companies.	Old capitalization.	7% pref.	To receive new shares—Common.
Indianapolis Gas, 8% stock.....	\$2,000,000	\$2,200,100	\$1,190,000
Indiana Nat. & Ill. Gas Co. 6% stock 1,000,000	800,000	800,000	500,000
1st mortgage 6s (M. & N.), 1908.....	820,000	858,000	174,000
For Wayne Gas 7% stock.....	2,000,000	1,800,000	750,000
1st mort. 6s (J. & J.), 1925.....	2,000,000	1,800,000	200,000
Logansport & Wab. V. Gas 6% stock 1,750,000	1,750,000	1,050,000	875,000
1st mortgage 6s (J. & D.), 1925.....	1,750,000	1,400,000	350,000
Ohio & Indiana Gas Co. 6% stock.....	2,000,000	1,100,000	1,200,000
1st mortgage 6s (J. & D.), 1926.....	2,000,000	1,600,000	400,000
Lafayette Gas Co. 7% stock.....	1,000,000	800,000	400,000
1st mortgage 6s (M. & N.), 1924.....	1,000,000	800,000	200,000

A syndicate headed by Poor & Greenough has undertaken to effect an exchange of not less than two thirds of the stocks and bonds of all the constituent companies, and to secure the delivery of the properties, plants and franchises to the new company free of indebtedness except as above provided. To provide funds wherewith to pay for securities of the constituent companies whose holders require cash as a condition of assenting to the consolidation, the syndicate has sold to Messrs. Poor & Greenough \$7,500,000 preferred stock, which was offered this week for subscription at par with an equal amount of common stock, and was largely over-subscribed.

The seventeen constituent companies above named, "are stated to be earning at the rate of about \$3,500,000 net per annum—an amount about sufficient to provide for dividends at the rate of 7 per cent upon the preferred stock and 3 per cent upon the common stock to be issued in pursuance of this plan—with the prospect of a considerable increase at once from economies effected by consolidation. The first six of the companies have, since they commenced operations, earned about \$13,000,000, of which about 60 per cent has been net and has been disbursed in about equal amounts for construction, interest on bonds and dividends on the stock. The last eleven of the companies are now earning at the rate of over \$900,000 per annum, of which over \$600,000 is net."

**Central Vermont RR.—Reorganization Notice.**—The Baker Committee notifies the holders of 1st mortgage 5 per cent bonds of the consolidated RR. of Vermont that the contract of Sept. 29, 1893, which provides for the reorganization of the Central Vermont RR. Co. has become operative, and it is expected that the reorganization will be completed promptly. Bondholders who do not deposit their bonds with the American Loan & Trust Co. of Boston on or before Feb. 15 will be entitled to no benefit under this agreement.—V. 68, p. 129.

**Charleston (S. C.) Light & Traction.—Consolidation of Gas, Electric Light and Street Railway Companies.**—The Baltimore Trust & Guarantee Co. is at the head of a syndicate which has undertaken the consolidation of the Charleston Gas Co., the Charleston Edison Light & Power Co., the Charleston City Ry. Co. and the Charleston & Seashore RR. Co. The stockholders of the gas company have accepted quite generally the offer of \$20 per \$25 share for their holdings. The consolidated company, it is understood, will have the name at the head of this paragraph, and will authorize the issue of \$2,500,000 stock and of \$2,500,000 five per cent 100 year gold bonds. Of the latter sufficient will be reserved to retire, at or before maturity, all the bonds of the constituent companies, the present capitalization being as follows:

Stock.	Bonds.	Stock.	Bonds.
Charl. City Ry. \$350,000	\$740,000	Charl. Ed. L. & P.	\$100,000
Charl. & Sea shore RR. 350,000	350,000	Charl. Gas Co.	698,150

—V. 65, p. 1172.

**Chicago Burlington & Quincy RR.—Bonds Called.**—Eighty-one Denver Extension 4 per cent bonds due Feb. 1, 1922, of \$1,000 each, and fifteen of \$100 each, have been drawn for payment, and will be purchased at par at the New England Trust Co., Boston, on Feb. 1.—V. 67, p. 1356.

**Chicago & Fox Lake Electric Ry.—\$300,000 Loan.**—Good progress with the preliminaries is being made and it is stated on reliable authority that the line will be completed and in operation by July 1 between Chicago and Fox Lake, 51 miles, of which 26 miles will be operated by electricity. At some point north of the city the passengers or cars will be transferred and enter the city over one of the present lines of steam railroad. The company has its agents at work, and the greater part of the right of way has been secured. The company will make an issue of \$300,000 in bonds to build the road. These are now engraved and will be placed in a short time. The officers are as follows: S. P. Island, President; R. E. Taylor, Secretary; E. C. Weeks, Treasurer; J. Woolridge, Manager. The new road will carry freight as well as passengers.—"Chicago Economist."

**Chicago Great Western Ry.—Meeting to Authorize \$3,000,000 Debenture Stock, Refunding, Etc.**—An extraordinary general meeting of the holders of the 4 per cent debenture stock and of the 5 per cent preferred "A" stock is called for Jan. 30 to authorize the issue of \$3,000,000 4 p. c. debenture stock, to rank *pari passu* with the existing 4 per cent stock. It is proposed to apply \$7,192,159 of the proceeds of this issue to the payment and retirement of the following indebtedness:

Chicago St. Paul & Kansas City Ry. prior 11s 5 per cents of 1889, subject to call on any interest day at 105,	\$2,823,150
Seven p. c. equip. lease warrants, due various dates to 1901.	1,042,950
Chicago Great Western Ry. equipment lease warrants, 5s and 6s, due various dates to 1906	170,358
Chicago Great Western equipment lease warrants due at various dates up to 1903, but subject to call at any time.	460,000
Sterling loan, 6s (\$96), due in 1901 and \$481,848 in 1902	1,454,544
Five per cent gold notes, due in 1903	1,100,000

The balance will provide for necessary capital expenditures in the years 1900 and 1901.

At the annual meeting in London on Jan. 11 the Right Hon. W. Lidderdale, Chairman, said that the extraordinary meeting for the 30th inst. is called in furtherance of the policy approved at the extraordinary meeting last January, of redeeming the terminable debt ranking ahead of the debenture stock. The directors believe that the time for carrying out this policy is not distant. All, however, should understand that, unless the redemption of the terminable debt can be effected on terms resulting in a decided reduction of the interest charge, no stock will be sold, and that the purposes stated in the notice of the meeting will be strictly adhered to.

**Additional Car Trusts, Etc.**—The finance committee assented last month to the purchase of ten locomotives and 700 box cars, at a cost of about \$480,000. In payment have been issued 5 per cent equipment lease warrants, payable part each year to Dec., 1903, but subject to call at any time.

President Stickney asked also the appropriation of \$1,094,203, of which he expects to receive \$200,000 from debenture stock paid out in scrip dividends and from the suspense account, leaving \$894,203 to be provided otherwise. As \$120,227 is required to meet maturing obligations, the net increase of liability is reduced to \$634,076. The finance committee authorized the expenditure, but as there was strong feeling against any material increase in the amount of five year notes outstanding, an endeavor will be made to sell debenture stock, of which a sufficient amount remains in the treasury out of an issue authorized in May, 1895. Should any notes be issued they will be made redeemable at the option of the company.—V. 68, p. 82.

**Chicago Rock Island & Pacific Ry.—Sale of Refunding Bonds.**—Strong, Sturgis & Co. have purchased from Speyer & Co. \$5,000,000 Chicago Rock Island & Pacific general 4 per cent bonds, which have been reserved to retire a like amount of Chicago & Southwestern 1st mortgage 7 per cent bonds, maturing Nov. 1, 1899.—V. 67, p. 319.

**Cleveland Berea Elyria & Oberlin Ry.—New Bonds.**—The company, it is stated, proposes to make a new mortgage to secure \$500,000 of 5% bonds, of which \$373,000 will be reserved for the retirement at or before maturity of a like amount of divisional 6s. The remainder will be used for extensions, etc. A line to Rockport and also a 12 mile extension from Berea to Medina are said to be under consideration.—V. 63 p. 793.

**Cleveland Canton & Southern Ry.—Meeting to Authorize Preparation of Plan, Etc.**—A meeting of the holders of Mercantile Trust Co. certificates of deposit for Cleveland & Canton first mortgage bonds will be held to day at noon, at Room 325, 32 Nassau Street, to authorize the committee, consisting of Charles A. Peabody, Jr., H. L. Thornell and H. K. Pomroy, upon acquisition of the property at foreclosure sale on Feb. 4 to pay the prior liens, to acquire the needed branch lines and to make improvements; also to empower the committee to prepare and adopt a plan of reorganization and to carry the same into effect, and to make such equitable distribution of such new securities as may be provided for in such plan. A new company will be organized to take over the property, but it is understood the issuance of a plan for complete reorganization will be deferred.—V. 67, p. 1356.

**Columbus (O.) Gas Light & Heating.—Consolidation.**—The \$1,215,000 bonds and \$1,144,700 stock of the Columbus

Gas Co. were listed on the New York Stock Exchange two years ago. It is now proposed to unite the management of that company (which manufactures its gas) with that of the Central Ohio Natural Gas & Fuel Co., the latter being a natural gas company. The controlling company will be known as the Columbus Gas Light & Heating Co. A circular issued by Emerson McMillen says in substance:

The undersigned has caused to be incorporated a company under the laws of West Virginia, to wit: The Columbus Gas Light & Heating Co., which will have a capital stock of \$5,000,000, of which \$3,300,000 will be 6 per cent non-cumulative preferred and \$1,700,000 will be common stock. It is the purpose of this new company to acquire control of a majority in amount of the stocks of the Central Ohio Natural Gas & Fuel Co. and of the Columbus Gas Co., and for which will be given one share of the preferred and one-half share of the common stock of the new company for each share of the Natural Gas Co., and one share of the preferred and one-fourth share of the common stock of the new company for each share of the Columbus Gas Co. It is also the purpose of the new company to acquire additional natural gas lands in the territory south of Columbus. It will endeavor to acquire the natural gas leases recently made by the State of Ohio along the Ohio Canal.

The stockholders consulted have concurred in the opinion that it is not only a good thing to do, but an essential thing, if the present intrinsic value of the investments is to be maintained. To participate please deposit your stock with the Dealer National Bank, Columbus, O., on or before Feb. 1, 1899.

Below mention is made of a rival company recently organized with the name "Federal Gas & Fuel Co."—V. 67, p. 25.

**Delaware & Hudson Canal.—Dividend Rate for 1899.**—The report that the dividend rate for 1899 has been fixed at 5 per cent is officially confirmed.

**Gravity Road.**—The Gravity R.R. on Sunday ceased to be operated with stationary engines. The gauge was changed from narrow to standard, and the line will hereafter be operated with steam locomotives and principally for passengers, the coal traffic going over the Erie. See item and editorial in CHRONICLE of Nov. 5, 1898.—V. 67, p. 1034.

**Englewood (N. J.) Gas & Electric.—Consolidation.**—This company was incorporated at Trenton, N. J., on January 14, to consolidate the Englewood Electric Light Co. and the Bergen County Gas-Light Co. The consolidated company has an authorized capital of \$400,000 and, it is said, will issue \$200,000 of bonds.

**Erie Telegraph & Telephone.—New Bonds.**—Poor & Greenough offered this week for subscription at 98½ and accrued interest \$2,001,000 debenture 5½ gold bonds, being part of an authorized issue of \$5,000,000. The bonds offered provide for the recent acquisition of the Michigan Telephone Co. and for the necessary extensions in the territories of the sub-companies controlled by the Erie Co. The control of the Michigan Telephone Co. places under the management of the Erie Co. a total of 51,300 subscribers. The Erie Co. has now outstanding \$7,000,000 of bonds, as against \$3,630,500 January 1, 1898.—Vol. 65, p. 40.

**Federal Gas & Fuel Co. of Columbus, Ohio.—New Enterprise.**—This recently incorporated Ohio company has elected the following officers: D. H. Kimberley, of Cleveland, President; F. W. Kelly, of Columbus, Vice-President; C. L. Kurtz, of Columbus, Secretary, and Charles O. Evans, of Cleveland, Treasurer. The "Cleveland Leader" says:

The company is capitalized at \$2,000,000, and controls between 25,000 and 30,000 acres of gas land, including the Hooking Canal, (recently sold by the State to E. M. Poston, of Columbus, and other persons) in the southern part of the State, and extending for a distance of about 12 miles through a gas producing territory. The company will immediately proceed to sink wells, and is now negotiating for a large amount of pipe. The first pipe line will extend to Columbus. The company has the right of way into the city of Columbus for a pipe line. It contemplates extending pipes in the near future to Cincinnati, Toledo and this city.

**Flint & Pere Marquette R.R.—Dividend.**—The company yesterday declared a dividend of 1½ on its preferred stock, payable February 15, the first dividend since 1893.—V. 67, p. 1363.

**Great Northern Ry.—Duluth Mississippi River & Northern R.R.—Reported Purchase.**—A press despatch yesterday from Duluth, said: "The Great Northern Ry. Co. has purchased the entire holdings in Minnesota of the Wright-Davis Syndicate of Michigan, with the exception of their pine lands; it therefore now owns the Duluth Mississippi River & Northern R.R., the Swan River Logging Co., and the Mahoning Longyear and Bennet mines, near Hibbing. The price is said to be \$5,000,000. Negotiations have been under way for several weeks, and yesterday in St. Paul the transactions were closed."—V. 68 p. 129; V. 61 p. 231.

**Kansas City Pittsburg & Gulf R.R.—Kansas City Suburban Belt R.R.—Kansas City Shreveport & Gulf Terminal—Port Arthur Channel & Dock Co.—Readjustment and Consolidation.**—A committee consisting of Ernst Thalmann, Chairman; Louis Fitzgerald, J. Lowber Welsh, J. De Goeyen, Jr., William L. Bull, August Heckscher and Arthur E. Stilwell, has been appointed by a majority of the holders of the stocks and bonds of the Kansas City Pittsburg & Gulf R.R. Co., Kansas City Suburban Belt R.R. Co., Kansas City Shreveport & Gulf Terminal Co. and Port Arthur Channel & Dock Co., to devise and carry out a plan for the readjustment of the affairs of the companies by means of consolidation and otherwise.—V. 67, p. 1309.

**Kings County Elevated Ry.—Deposits of Bonds.**—The holders of the first mortgage bonds of the Kings County & Fulton Elevated railway companies are informed by the Belmont committee that "in view of pending negotiations and for other reasons," it is necessary for the proper protection of these bonds they be deposited with the Guaranty Trust Co. and under the control of the reorgani-

zation committee as soon as possible. As it is impracticable at the present time to formulate any plan of reorganization, the agreement under which deposits are asked contains a provision that any depositing bondholder may withdraw his bonds without charge within thirty days after the publication of the plan of reorganization, in case the plan is unsatisfactory to him. Deposits should be made by Feb. 10.—V. 67, p. 1356.

**Metropolitan Tobacco Co. of New York City.—Incorporated.**—This company, with authorized capital stock of \$1,000,000, of which \$500,000 is preferred, was incorporated at Albany Jan. 21. The directors are:

Adolph D. Bendheim, Miers Bendheim, Henry Bendheim, Nathan Wise, Julius G. Miller, Moses Weinstein, Henry Lehman, Lipman Arenberg, Casper Citron and Arthur Stern, of New York City, and Jacob Wolf, of Yonkers.

**Minneapolis & St. Louis R.R.—Special Meeting of Stockholders Feb. 14.**—A special meeting of the stockholders is called for Feb. 14 at Minneapolis to ratify the action of the directors in the purchase and acquisition of the Minneapolis New Ulm & Southwestern R.R., 30 miles, and of the portion of the Wisconsin Minnesota & Pacific extending from Morton, Minn., to Watertown, 123 miles; also to authorize the \$25,000,000 mortgage referred to in our last issue. Under this mortgage \$10,000,000 is reserved to refund all the prior liens and \$2,500,000 to retire the first preferred stock, when the directors may deem advisable, while for the acquisitions referred to above \$5,300,000 bonds are to be issued. The remainder of the loan is to be held for future requirements under severe provisions.—V. 68, p. 139.

**Nashville Chattanooga & St. Louis Ry.—Dividend Passed.**—The company will not pay its usual quarterly dividend next month, the directors having ordered that the surplus earnings be used to pay for additional equipment and a reduction of the floating debt. The road is controlled by the Louisville & Nashville, and paid 4 p. c. per annum in 1895-98 and 5 per cent 1889-92, but in 1893 and 1894 only 3¼ and 3½ per cent respectively.—V. 67, p. 1035.

**National Enameling & Stamping Co.—Enamel Company Consolidation.—Incorporated.**—This company was incorporated at Trenton on Jan. 21. The authorized capital stock is \$10,000,000 7 per cent (payable quarterly) cumulative preferred and \$20,000,000 common. The company's prospectus says in substance:

The four principal manufactures of enameled and tin ware goods in this country, namely: the St. Louis Stamping Co. of St. Louis, Kleckhofer Bros. Co. of Milwaukee, Haberman Manufacturing Co. of New York and Matthal Ingram & Co. of Baltimore, will transfer their respective properties to the consolidated company. There will be no mortgage or other indebtedness on its plants.

The company will authorize the sale of \$2,000,000 of its preferred stock to raise \$2,000,000 in cash for working capital. There will be delivered with this preferred stock \$1,001,000 of common stock. The total issue of stock to purchase the four plants and to furnish the working capital will be \$7,375,000 preferred and \$15,100,000 common. The preferred stock will represent only the actual value of properties transferred and cash contributed to the company, while the earning capacity, good will, patents, trade-marks and other manufacturing advantages, of which the new company will become the exclusive owner, are not taken into account.

To pay the yearly 7 per cent dividend on the preferred stock will require annual earnings of only \$516,250. The profits of the Milwaukee, New York and Baltimore companies for the year 1897 amounted to \$773,000, and although the St. Louis concern, the oldest and largest of the four, owing to large extensions and reconstruction of its plants, did not make any considerable earnings for the year 1897, yet its average yearly earnings for the ten years immediately preceding 1898, amounted to \$300,000.

It is estimated that by means of this consolidation the saving alone in freights, expenses of administration and traveling salesmen will be nearly, if not quite, equal to the annual dividend on the preferred stock.

John P. Murphy, at Milwaukee National Bank, is authorized to receive subscriptions.

**National Lead.—Dividend on Common.**—The directors on January 19 declared a dividend of 1½ on the common stock. The same amount was paid in 1895 and 1898, but there was no distribution on the common shares in 1896 and 1897.—V. 66 p. 331.

**National Tin Plate & Stamped Ware Co.—Incorporated.**—Articles of incorporation were filed at Trenton, N. J., on Thursday by three concerns, all having the same incorporators, viz., the National Tin Plate Co., the United States Tin Plate Co. and the National Tin Plate & Stamped Ware Co. The incorporators are: David G. Reid, William B. Leeds and James B. Dill. The authorized capital stock of the National Tin Plate & Stamped Ware Co. is \$10,000,000 of 7 per cent cumulative preferred and \$10,000,000 common. The capital stock of each of the other companies is \$125,000. These organizations are supposed to be organized in opposition to the National Enameling & Stamping Co. incorporated on Saturday last, as above stated.

**New Orleans Traction Co.—Last Instalment Called.**—In accordance with the plan of reorganization, holders of the preferred and common stock are notified to pay on or before Feb. 10th, 1899, the third and last instalment of 33¼ per cent of the amount payable on their stock, namely \$2.00 per share on the preferred stock and \$1.00 per share on the common stock.—V. 67, p. 1208.

**New York Central & Hudson River R.R.—Rumors Denied.**—The rumors of a pending consolidation of the company with the Chicago & North Western and the Union Pacific have been denied by the leading officials of the several companies, including Mr. Dapsw, Mr. Sykes, and finally on Thursday by Mr. W. K. Vanderbilt over his own signature.—V. 67, p. 1369.

**New York Gas & Electric-Light Heat & Power Co.—***Empire City Subway Co.—Increase of Stock.*—It was recently announced (V. 67, p. 1263), that control of the Empire City Subway Co. had been acquired in the interest of the New York Gas & Electric-Light, Heat & Power Co. A call is now advertised for a meeting of the subway company on Jan. 31 to increase the capital stock from \$1,500,000 to \$1,750,000.

**New Mortgage.**—The New York Gas & Electric Light, Heat & Power Co. has arranged to make a mortgage to secure \$15,000,000 of 5 per cent bonds. Of this total \$11,500,000 is to be issued for the acquisition of new properties and for enlargement of plant. The bonds of the Mount Morris Electric Co. (\$2,000,000 authorized) remain undisturbed, and as they are subject to call at 105 after Oct. 1, 1900, will presumably be then replaced by the new issue. So far as now known the capitalization of the new company (excluding the Kings County Electric Light & Power Co., if indeed that company is to be absorbed) includes the following:

New York Gas & Electric Light, Heat & Power stock (authorized).....	\$25,000,000
First mortgage 5a (present issue to be \$11,500,000).....	15,000,000
Purchase money mortgage (Edison shares as collateral)....	21,000,000
Edison Electric Ill. first 5a and consols outstanding.....	6,500,000
Mount Morris Electric Light Co. 1st M. gold 5a, due Sept. 1, 1940 (subject to call at 105 Oct. 1, 1900), authorized \$2,000,000, outstanding last accounts.....	988,000

—V. 68, p. 130.

**New York Philadelphia & Norfolk RR.—Authorized.**—The stockholders on Jan. 24 authorized the new securities, etc., as stated in our issue of Dec. 31, 1898, page 1357.

**Northern Pacific Ry.—Bonds Called.**—In the CHRONICLE this week are published the numbers of 459 general first mortgage bonds of the Northern Pacific RR. which have been drawn for the sinking fund, and will be paid at 110 and accrued interest on presentation at the Central Trust Co. Interest thereon will cease July 1, 1899.—V. 68, p. 86.

**Ogdensburg Transit Co.—Deposits Asked.**—The holders of the \$759,500 first mortgage 6 per cent bonds of this company are requested to deposit their bonds forthwith with the International Trust Co., 45 Milk Street, Boston. Charles H. Cole, R. B. Fuller and F. H. Prince, are acting as the committee to protect the loan, which was guaranteed by the Old Central Vermont and Ogdensburg & Lake Champlain railroad companies, but which was not included in the reorganization of either company.

**Oregon Railroad & Navigation Co.—Listed.**—The New York Stock Exchange has listed \$447,000 additional consolidated mortgage 4 per cent gold coupon bonds, making total amount listed to date, \$19,481,000. The amount of first mortgage 6s of the Oregon Railway & Navigation Co. has been further reduced from \$1,045,000 to \$691,000.—V. 68, p. 41.

**Oregon Short Line RR.—Union Pacific RR.—Exchange of Stock.**—The Mercantile Trust Company has issued the following: "Holders of stock of the Oregon Short Line RR. Co. may exchange their shares for shares of the increased common capital stock of Union Pacific RR. Co., share for share, by depositing with the Mercantile Trust Co., No. 120 Broadway, New York City, their certificates, duly endorsed in blank and witnessed or proved and stamped as required by the United States Internal Revenue Law and paying to the credit of the Union Pacific RR. Co. at the time of such deposit the sum of \$3 per share. The privilege of making such exchange is subject to termination at any time without notice." The Mercantile Trust Co. will issue temporary receipts to be exchangeable for the stock certificates of the Union Pacific whenever the latter are listed on the New York Stock Exchange.—V. 68, p. 86.

**Peoria Decatur & Evansville Ry.—Notice to Bondholders.**—The Scudder Committee notifies those second mortgage bondholders who have not withdrawn their bonds that until Feb. 1, 1899, they have the right—

(a) To sell their certificates to the Colonial Trust Company at 15 per cent.

(b) To have their certificates stamped assented, and thereby to become entitled.

1. To receive 50 per cent of their holdings in new common stock, when issued.

2. To buy a certain amount of the new preferred and common stock, as provided in the amended plan.

If such bondholders do not avail themselves of these rights on or before Feb. 1, 1899, they will receive 14 per cent of the face of their certificates.

The amended plan was given in our issue of Dec. 31, p. 1357.

**Pittsburg & Western Ry.—Bond Deposits.**—More than a majority of the 4 per cent first mortgage bonds have been deposited with J. P. Morgan & Co. Further deposits must be made before Feb. 7 to insure participation, as later deposits, if received, will be subject to penalty.—V. 67, p. 1264.

**Pittsburg & Western Ry. Co.—Listed.**—The New York Stock Exchange has listed \$5,000,000 J. P. Morgan & Co. engraved certificates of deposit for first mortgage 4 per cent gold bonds of 1917; the amount of bonds to be reduced accordingly.—V. 67, p. 1264.

**Pressed Steel Car Co.—Prospectus, Etc.**—In the CHRONICLE last week we noted the incorporation of this new company and added a few statements from the company's prospectus regarding the enterprise. Some additional data are furnished below. The company's patents number 138 issued in the United States and 17 in foreign countries, and the opinions

of eminent counsel at law are quoted to the effect that these patents afford a practical monopoly as to the pressed steel devices embodied in car construction. The advantages claimed for the pressed steel cars are: (1) a saving of 4,000 pounds per car in dead weight; (2) their extremely small requirements in the way of repairs; (3) their long life, 40 years it is claimed against 15 years for wooden cars; (4) an original cost per ton of carrying capacity of only about the same amount as that of a wooden car; (5) their large capacity, reducing the number of cars per train; (6) their comparative immunity from damage in case of accident. The prospectus contains the following as to the constituent companies:

The Fox Pressed Steel Equipment Co. had orders during the year 1898 for over 35,000 pressed steel trucks and 28,000 bolsters, the net earnings on which will be more than \$650,000. The present actual capacity of the works in important products is 120,000 trucks per year, or 105,000 bolsters per year. Under the consolidation by additional facilities now arranged for in the Pittsburgh works, the capacity will be increased from 200 to 400 trucks per day.

The Schoen Pressed Steel Co. has orders on its books, unfilled, aggregating over \$1,000,000 worth of cars from Lake Shore & Michigan Southern Ry., Baltimore & Ohio Southwestern Ry., Baltimore & Ohio RR., Pennsylvania RR., Pennsylvania Co., Oregon Short Line, Pittsburg Bessemer & Lake Erie RR. and Pittsburg & Lake Erie RR. The company has just completed enlargements of their plant, doubling their capacity, and the demand is so great that they are compelled to still further increase. For this year the capacity of the plant will be: 12,000 steel cars, 180,000 bolsters, 30,000 truck frames, in addition to the smaller articles, such as centre-plates, stake pockets, corner bands, etc., which are used on wooden cars. Prior to the completion of the new plant the earnings have been on the basis of about \$900,000 per annum.

Since the prospectus was printed, contracts have been let for 1,000 cars for the Union Pacific, 5,000 for the Baltimore & Ohio and 500 for Egypt.—V. 68, p. 131.

**Pullman's Palace Car Co.—Dividend.**—The company has declared its first dividend at the rate of 1½ per cent quarterly, in place of 2 per cent as heretofore. This is in accordance with the intention of the managers as announced last fall at the time the 50 per cent distribution in stock was made. We are informed that the gross earnings show an increase of about \$100,000 a month compared with last year, with only a small increase in expenses.

**Real Estate.**—The rumors current a week or two ago that the company would sell at auction the real estate which the laws of Illinois forbid it to hold, or would turn it over to a real estate company, whose shares will be distributed to the Pullman stockholders were at the time officially pronounced to us as without basis of truth. The company has divided its surplus and has no further "melons to cut." What length of time the Court will allow for the disposal of the real estate was not then known, but it was supposed that from three to five years would be allowed and consumed in the operation. "Pullman" was never an incorporated town. It was merely a large piece of private property, and while regretful that Mr. Pullman's idea of a model city, free from grog shops and other nuisances permitted by the ordinary municipal authorities, cannot be carried out, the managers believe that, in a financial way, the company will be benefited through this merger with the city of Chicago, the real estate carried by the company at a small valuation thereby becoming city lots. The latest rumor is that a real estate company, known as the Chicago Canal & Dock Co., may be used as a medium through which the sale of the real estate will, to a greater or less extent, be accomplished.—V. 67, p. 957.

**Rapid Transit in New York City.—Memorial of Commission.**—The Rapid Transit Commission on Tuesday sent a long memorial to the Legislature reciting all that has been done under the Rapid Transit Act and suggesting the methods open at present for accomplishing the purpose of the Act. President Orr's statement on these matters was cited in our issue of Dec. 10, page 1209.—V. 67, p. 1209.

**Reading Company.—Listed.**—The New York Stock Exchange has listed \$1,952,000 additional general mortgage 4 per cent gold coupon bonds, making total amount listed to date, \$62,456,000. The issue of these \$1,952,000 bonds was made as follows: \$452,000 to retire old bonds paid and canceled, viz.: \$200,000 Delaware River Terminal bonds, \$119,000 of the ten-year sinking fund bonds and \$133,000 ground rents and bonds; the remaining \$1,500,000 of the said general mortgage bonds are a portion of the \$20,000,000 bonds reserved for new acquisitions and betterments. "The policy of the Reading companies is to charge to their operating expenses all general improvements of their existing property, and also to charge in the same way sufficient amounts for maintenance and renewal of equipment. The development of business, however, requires large additions to terminal facilities at Philadelphia (including new wharves, etc.), and to the equipment of the railroad, and it is intended to use these \$1,500,000 bonds for these and other like purposes which are expected to develop an increase of business sufficient to justify the expenditure."—V. 68, p. 86.

**Richmond Petersburg & Carolina RR.—Seaboard & Roanoke RR.—Mortgage for \$2,500,000.**—The Richmond Petersburg & Carolina RR. Co. has filed a mortgage to the Mercantile Trust & Deposit Co. of Baltimore as trustee to secure an issue of first mortgage gold bonds for \$2,500,000. The bonds are \$1,000 each, bear 5 per cent interest and mature Jan. 4, 1949. The road is to be 103 miles in length, extending from a point in North Carolina on the Raleigh & Gaston RR., near Ridgeway, to and through the cities of Petersburg, Manchester and Richmond, to a connection with the Richmond Fredericksburg & Potomac Railway, just north of Richmond.

The Richmond Petersburg & Carolina R.R. was recently reported in a daily paper as having been leased to the Raleigh & Gaston R.R. Co. for twenty years. This report may perhaps have been premature, but at all events the line is understood to be intended as an extension of the Seaboard & Roanoke system. One of the new owners of the latter is quoted as saying that construction will be pushed as rapidly as possible.—V. 67, p. 843; V. 68, p. 131.

**Rubber Goods Manufacturing Co.—New Consolidated Company.**—This company was incorporated at Trenton, N. J., on Thursday. Its authorized capital stock is \$25,000,000 of 7 per cent accumulative preferred stock and \$5,000,000 of common stock. The incorporators are:

Charles Stewart Smith, director of the United States Rubber Co.; Charles H. Dale, President of the Peerless Rubber Manufacturing Co.; Henry Steers, Alvah Trowbridge, Ulysses D. Eddy, George W. Hebard, R. L. Edwards, Percy Chubb, Herbert J. Davis, Thomas Russell, Ansel L. White, George S. Dearborn, and Camillus G. Kidder.

Charles R. Flint, organizer and Treasurer of the United States Rubber Co., which manufactures most of the rubber footwear in this country, is quoted as follows:

Some time ago I was requested to undertake the organization of the company, and now that it has been organized we will hold the matter open for perhaps ten days to give all who desire an opportunity to come into it. Then the plan is to be put in active operation. I am not willing to say at present what companies have signified their intention of joining the new company, but I may say that the policy of the Rubber Goods Manufacturing Company is not to acquire all of the companies engaged in the manufacture of rubber goods, but to acquire properties that have demonstrated a capacity to manufacture goods cheaper than their competitors. By the combination of such concerns and through the securing of special facilities for obtaining crude rubber, it is expected that the cost of producing rubber goods can be still further reduced.

**States Island Rapid Transit R.R.—Baltimore & Ohio R.R.—Proposition to Holders Second Mortgage 5s.**—Of the \$2,500,000 of second mortgage 5s. all except \$5,000 have been deposited under the agreement issued by Hallgarten & Co. This firm now gives notice of the following offer:

The Baltimore & Ohio R.R. Co. (as reorganized) will purchase the bonds at par and interest in cash, in five years, and in the meantime guarantee interest thereon at 4 per cent per annum. In consideration thereof, the B. & O. (as reorganized) is to have the right to purchase the bonds at any time within such five years, at par and interest in cash, upon thirty days' notice. In case, during said five years, a plan for the reorganization of the States Island R. T. R.R. shall be issued with the approval of the B. & O., that company will secure for the bondholders the option for two weeks to take the new securities thereby provided in lieu of the cash price as above stated. In case, however, the mortgage securing the bonds should be foreclosed, new 4 per cent bonds to the same amount shall be created having the same lien upon the same property, and the agreement of the B. & O. (as reorganized) shall apply equally to such new bonds.

The agreement will not become effective unless all the bonds, or such lesser amount as the B. & O. Reorganization Managers shall approve, assent thereto, and have their bonds stamped accordingly at the Central Trust Co. At the time of such delivery of the existing bonds, or new bonds, the overdue interest on the bonds, represented by the certificates of deposit, will be paid in cash at its face value, with interest.

Certificate holders not heard from within four weeks from Jan. 27 will be held to have assented. The agreement makes binding on all the deposited bonds any plan accepted by 75 per cent thereof.—V. 68, p. 86, 84, 87.

**St. Paul & Duluth R.R.—Listed.**—The N. Y. Stock Exchange has listed \$1,000,000 first consolidated mortgage 4 per cent bonds, 1 to 1,000, inclusive.—V. 68, p. 131.

**Stuttgart & Arkansas River R.R.—Sold.**—At the foreclosure sale January 19 the property was purchased by Theodore C. Sherwood of Kansas City for \$36,000. A. C. Barstow of Providence, R. I., and others, it is said, will reorganize the company and extend the road.—V. 67, p. 138.

**Tennessee Coal, Iron & R.R.—Refunding, Etc.**—Arrangements have been completed for the retiring of \$700,000 of the company's 7s bonds that are subject to call, namely the \$400,000 Enreka and \$300,000 Alice loans. Vice President Shook, is quoted as saying that the demand for all of the company's products has been phenomenally large and that its export business is especially gratifying, 1,600 tons of pig iron being daily marketed abroad.—V. 67 p. 801.

**Trust Companies in New York and Brooklyn.**—In the INVESTORS' SUPPLEMENT for January, issued with to-day's CHRONICLE, will be found on pages 165 to 168 the reports of the New York and Brooklyn Trust Companies as of Dec. 31, 1898, June 30, 1899, and Dec. 31, 1897.

**United States Mortgage & Trust Co.—Listed.**—The New York Stock Exchange has listed \$1,000,000 real estate first mortgage collateral trust 4 per cent gold coupon bonds, Series H, 1903 1918.—V. 67, p. 484, 487.

**United Telegraph Telephone & Electric Co.—\$500,000 New Bonds.**—This company, whose office is at 1510 and 1511 Marquette Building, Chicago, Ill., has made a first mortgage for \$1,500,000 on its telephone property at Hyde Park, Chicago, to the Chicago Title & Trust Co., as trustee. The first issue will be \$500,000 20-year gold 6s. A circular says:

The first issue of bonds will be \$500,000 to complete bonds, equal and in full 3,000 telephone instruments and enlarge switchboard, and by the terms of the mortgage for each 1,000 telephone instruments connected in addition to the first \$500,000 in bonds may be issued, until the full issue is exhausted and 10,000 phones supplied.

The company reports 500 telephones connected.

**Virginia Electric Ry. & Development Co.—New Enterprise.**—Mortgage for \$1,500,000.—The company has filed a mortgage to the Richmond Trust & Safe Deposit Co. as trustee to secure an issue of \$1,500,000 of bonds. This company was organized about two months ago with \$1,000,000 of authorized capital stock and absorbed the Southern Electric Co. The plan is said to be to build a power plant on the

James River and to erect a pulp mill. F. C. Todd is President.

**Virginia Iron Coal & Coke Co.—New Coal & Iron Co.**—This company has been organized with a capitalization of \$7,500,000 stock (all common) and \$7,500,000 of 50-year five per cent gold bonds, and has acquired the following properties: South Atlantic & Ohio R.R., Bristol to Big Stone Gap, 71 miles; Bristol & Elizabethton R.R., 22 miles; furnaces at Bristol, Roanoke, Salem, Palaski, Maxmeadows and Marion, Buena Vista, Radford, Graham and other points; also 125,000 acres of coking coal, 65,000 acres ore lands. All the property will be developed as quickly as possible, and will be under the management of President George L. Carter of New York. The new company has been financed by a syndicate headed by Messrs. Moore & Schley.

**Wabash Railroad Co.—New first mortgage—Des Moines Division.**—The company proposes to build a new line from Moulton, Iowa, to Albia, Iowa—a distance of about 27 miles—there to connect with the Des Moines & St. Louis Ry., 66½ miles, already constructed. This will give the company a new line of about 93½ miles, will shorten the distance to Des Moines about 24 miles, as compared with the present line of the Wabash by way of Ottumwa, and will save a rental of about \$18,000 per annum, paid to the Rock Island.

The company also proposes to build a new line from East Hannibal, Illinois, to Quincy, Illinois—a distance of about 17 miles, and at the same time to acquire valuable terminals at Quincy. The construction of this line will give the company the shortest line between Quincy, Ill., and Kansas City, Mo., and at the same time enable the Wabash to terminate its present contract with the C. B. & Q. R.R. Co. for the use of the line between Camp Point, Ill., and Quincy, saving thereby a rental of \$22,000 per annum. The cost of the new line from East Hannibal to Quincy, including terminals, will be about \$300,000. This line and its terminals will be mortgaged to the trustee of the Des Moines Division 1st mortgage for the sum named (\$300,000). The Wabash R.R. Co. has authorized a mortgage to be known as the Des Moines Division 1st mortgage for \$1,800,000, which will cover the new lines, terminals and equipment noted above. Deducting the estimated cost of the Quincy terminals (about \$125,000) and the rolling stock, the mortgage would be less than \$12,000 a mile. In case the company can make arrangements with the C. B. & Q. R.R. for the use of their line and terminals in Quincy, the line from East Hannibal to Quincy may not be built, and the mortgage will be made \$1,600,000 instead of \$1,800,000. The new bonds under the mortgage, which will be forty-year gold 4 per cents, have been sold to Messrs. J. & W. Seligman & Co. The sale discharges all the floating debt and reduces the amount of equipment notes outstanding.—V. 67, p. 1358.

**Williamsport (Pa.) Gas Co.—Officers and Mortgage.**—H. E. Gawtry has been elected President, Hon. Henry C. McCormick Vice-President, and Mr. T. W. Stephens, of Wilson & Stephens, Treasurer. The \$350,000 first mortgage 5 per cent bonds will probably be ready for delivery shortly after Feb. 1st. They are due Feb. 1st, 1939. Interest is payable (F. & A.) at the office of the Trustee, the Fidelity Insurance, Trust & Safe Deposit Co., at Philadelphia; also in New York.—V. 67, p. 1310.

**Wrightsville & Tennille R.R.—Oconee & Western R.R.—Purchase.**—The stockholders of the Wrightsville & Tennille R.R. on January 10 confirmed the recent purchase of the Oconee & Western R.R., and authorized an increase of its own capital stock from \$125,875 to \$300,000. The Central of Georgia owns \$70,250 of the present issue, including all the \$70,000 preferred.—V. 67, p. 902.

—Messrs. Spencer Trask & Co. have issued their annual pamphlet on listed railroad and industrial securities, and will be glad to send copies to applicants.

—The Jefferson & Clearfield Coal & Iron Co. has declared a dividend of 2½ per cent on the preferred stock of the company out of the net earnings for the six months ending Dec. 31, payable February 15 next.

—The fifty-fourth annual statement of the Mutual Benefit Life Insurance Company of Newark, N. J., of which Amos Dodd is President, makes a favorable showing. To the balance, \$61,096,824 32½ Jan. 1, 1899, is added \$14,539,729 26 in premiums, rents and interest, and all expenditures were \$9,285,251 98, so that the balance Jan. 1, 1899, was \$64,341,301 60, and the total assets that date \$66,219,976 49, with a legal standard surplus of \$5,334,189 71.

—The annual statement of the Atlantic Mutual Insurance Co. issued this week will be found in our advertising columns. The assets of the company stand at \$10,874,933. Six per cent interest on the outstanding certificates of profits will be paid February 7. The outstanding certificates of the issue of 1893 will be redeemed on the same date. A dividend of forty per cent is declared on the net earned premiums of the company for the year ending December 21, 1899, for which certificates will be issued on and after Tuesday, the second of May next. The profits of the Company revert to the assured and are divided annually upon the premiums terminated during the year, thereby reducing the cost of insurance. For such dividends certificates are issued bearing interest until ordered to be redeemed, in accordance with the charter.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, January 27, 1899.

The bullish sentiment which has been prevalent in financial circles for some time past has spread to and become quite pronounced in most staple products. There has been considerable activity to the speculative dealings and broadening of the market for grain and cotton, the result of heavy buying by outsiders for investment account. This buying has also reached coffee, which for the past few years has shown a gradually declining tendency, the result of over-production. Merchants and jobbers in practically all lines of merchandise have reported a free movement of actual supplies, with prices in the main favoring sellers. The fact that the Senate has set an early date for voting on the ratification of the Paris Treaty, has been received with satisfaction by many. At the close disquieting reports relative to the situation in the Philippine Islands had an unfavorable influence in speculative circles.

Lard on the spot has been in moderate demand, as both exporters and refiners have been limited buyers. Prices have advanced and the close was firm at 6.05c. for prime Western and 5.40c. for prime City. Refined lard has had a moderate sale at firmer prices, closing at 6.10c. for refined for the Continent. Speculation in lard for future delivery has been moderately active, and prices have advanced on buying by commission houses and disinclination on the part of packers to sell. The close was firm and higher.

### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January.....	5.92	6.00	5.97	5.97	5.97	6.05

Pork has had a fairly large sale and at higher prices. The close was firm at \$9 7 1/2 @ 10.50 for mess. Cut meats have been in only limited demand, but values have held steady, closing at 5 1/2 @ 5 3/4 c. for pickled bellies, 14 @ 10 lbs. average. The demand for beef has been quiet and values have been uncertain, closing at \$3 50 @ 9 for mess, \$10 50 @ 11 50 for family and \$14 50 @ 15 50 for mess. The demand for tallow has been moderate and prices have advanced to 4 1/2 c. Oleo stearine has had a limited sale at steady prices, closing at 5 1/2 c. Lard stearine has advanced to 7c. Cotton-seed oil has been in fairly active demand for export, and prices have advanced to 24 @ 24 1/2 c. for prime yellow. Butter has been in moderate demand and steady. Cheese has had a fair sale at full values. Fresh eggs have been in fairly full supply and easier, closing at 18 1/2 c. for choice Western.

Brazil grades of coffee have had a fair distributing sale, the country trade taking supplies of the low grades with some show of freedom, and prices have advanced. The market for invoices has been moderately active and firmer, closing at 6 1/2 c. for Rio No. 7 on the spot. West India growths have been in moderate demand and steady at 8c. for fair Cmcnta. East India growths have had a moderate sale to arrive, closing steady at 25c. for standard Java. Speculation in the market for contracts has been decidedly more active, particularly during the latter part of the week and prices have advanced on buying by outsiders for investment account. The close was fairly active and firm.

The following are final asking prices:

Jan.....	5.60c.	April.....	5.85c.	Aug.....	6.15c.
Feb.....	5.60c.	May.....	5.90c.	Sept.....	6.25c.
Mar.....	5.75c.	July.....	6.05c.	Dec.....	6.40c.

Raw sugars have been firmer in response to stronger advices on beet sugar from Europe. The close was firm at 4 1/2 c. for centrifugal, 96-deg. test, and 3 13-16c. for Muscovado, 89-deg. test. Refined has been in fairly active demand, and firm at 5c. for granulated. Teas and spices have been in fair demand and firmer. Other staple groceries have been firm.

Kentucky tobacco has been quiet but steady. Seed leaf tobacco has been in moderate demand and steady. Sales for the week were 1,500 cases as follows: 250 cases 1897 crop, Zimmers, 16 1/2 @ 17c.; 100 cases 1897 crop, Dutch, 15 1/2 c.; 250 cases 1895-96 crops, Pennsylvania seed leaf, 12 1/4 @ 13c.; 100 cases 1895 crop, Pennsylvania Havana, 12 1/2 c.; 100 cases 1898 crop, New England Havana, spotted, 28 @ 35c.; 300 cases 1897 crop, Wisconsin Havana, 10 @ 12 1/2 c.; 250 cases 1898 crop, Wisconsin Havana, 11 @ 12c., and 150 cases 1897 crop, State Havana, 12 @ 15c.; also 550 bales Havana at 80c. @ \$1.00 in bond and 125 bales Sumatra at 85c. @ \$1.65 in bond.

Business in the market for Straits tin has been on a fairly liberal scale, and, reflecting stronger cable advices and on the strength of the statistical position, prices have advanced, closing firm at 24 1/4 @ 24 1/2 c. Ingot copper has had a large sale and the tendency of prices has continued upward, closing firm at 16 @ 16 1/2 c. Lead has had only a moderate sale, but prices have advanced, closing firm at 4.35c. for domestic. Spelter has had a fairly large sale, and prices have advanced to 5.45c. for domestic. Pig iron has sold with some freedom and prices have been advanced slightly, closing at \$11 @ 12.25 for domestic.

Refined petroleum has been unchanged, closing at 7.40c. in bbls., 4.90c. in bulk and 8.15c. in cases. Naphtha steady at 10c. Crude certificates have been dull; credit balances have been steady at \$1.16. Spirits turpentine has been more active and firmer, closing at 44 1/2 @ 45c. Rosins have been quiet and easier at \$1.35 for common and good strained. Wool has been quiet but steady. Hops have had a fair sale at full values.

## COTTON.

FRIDAY NIGHT, January 27, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 177,290 bales, against 207,595 bales last week and 206,902 bales the previous week, making the total receipts since the 1st of Sept., 1898, 6,677,722 bales, against 6,587,859 bales for the same period of 1897-8, showing an increase since Sept. 1, 1898, of 89,863 bales.

Speculation in cotton for future delivery has broadened very materially the past week. The trading has been decidedly active and the tendency of prices has continued towards a higher basis, values having advanced to slightly above a six-cent basis. Naturally, after the advance which has been experienced the past few weeks, there has been free selling by recent buyers to realize profits. The outside public, however, has continued to show confidence in the situation, and this demand, together with buying by shorts to cover contracts, has been of sufficient volume to absorb the offerings and steadily carry prices to a higher basis. In fact, the upward tendency to values in the local market has been such as to place values on a relatively higher basis than in either New Orleans or Liverpool. As a consequence local dealers expect to see considerable cotton attracted to this market. During the latter part of the week advices were received from the South stating that indications were that there would be a freer movement of the crop during February. These reports prompted increased pressure from longs to sell to realize profits. To-day the market was stronger earlier in the day on continued active buying by outsiders for investment account. There was also some buying by New Orleans, accompanied by reports of bad weather in Texas. Subsequently, however, the disquieting reports relative to the situation in the Philippine Islands prompted free selling by longs to realize profits, and nearly all of the improvement was lost, final prices being 3 to 5 points higher for the day. Cotton on the spot has been firmer; prices advanced 1/2c. on Saturday and on Monday, declined 1-16c. on Tuesday and advanced 1-16c. on Wednesday. The close was firm at 6 1/2c. for middling uplands.

The rates on and off middling, as established Nov. 16, 1895, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	6 1/4 on	Good Ordinary.....	6 1/4 on
Middling Fair.....	7 1/2 on	Good Middling Tinged.....	Even
Strict Good Middling.....	7 1/2 on	Strict Middling Stained.....	7 1/2 on
Good Middling.....	7 1/2 on	Middling Stained.....	7 1/2 on

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Jan. 27), we add the item of exports from the United States, including in it the exports of Friday only.

	1899.	1898.	1897.	1896.
Stock at Liverpool.....bales.	1,715,000	1,014,000	1,230,000	1,103,000

Total, 31 towns, 1898-99	126,311	5,586,522	174,837	625,242	135,976	4,841,966	147,834	590,970

The above totals show that the interior stocks have decreased during the week 43,536 bales, and are to-night 34,272 bales more than at the same period last year. The receipts at all the towns have been 9,665 bales less than the same week last year, and since Sept. 1 they are 744,556 bales more than for the same time in 1897-98.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Jan. 27 and since Sept. 1 in the last two years are as follows.

January 27.	1898-99.		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	28,770	872,509	31,360	608,087
Via Cairo	20,030	297,316	10,994	246,735
Via Parker			1,263	19,548
Via Rock Island	763	39,448	1,600	36,829
Via Louisville	5,731	116,032	3,528	79,748
Via Cincinnati	6,904	97,934	6,401	78,163
Via other routes, &c.	3,968	110,054	5,764	97,669
Total gross overland	66,166	1,333,293	60,910	1,166,679
Deduct shipments—				
Overland to N. Y., Boston, &c.	21,400	339,051	16,343	290,099
Between interior towns	198	18,460	743	19,644
Infant, &c., from South	2,490	34,642	635	22,726
Total to be deducted	24,088	392,153	17,721	332,519
Leaving total net overland*	42,078	941,140	43,189	834,150

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 43,078 bales, against 43,189 bales for the week in 1898, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 106,990 bales.

In Sight and Spinners' Takings.	1898-99.		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Jan. 27	177,290	6,677,722	208,710	6,587,150

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Athens	6 1/2	Columbus, Miss	5 1/2	Nashville	5 1/2
Atlanta	5 1/2	Eufaula	5 1/2	Natchez	5 1/2
Charlotte	6 1/2	Little Rock	5 1/2	Raleigh	6 1/2
Columbus, Ga.	5 1/2	Montgomery	5 1/2	Shreveport	5 1/2

WEATHER REPORTS BY TELEGRAPH.—Advices to us this evening by telegraph from the South denote that there has been some improvement in the weather the past week. Rain has fallen in most localities, but the precipitation has on the whole been light. The temperature has been lower. Reports from Texas indicate that farm work has been retarded by recent unfavorable meteorological conditions.

Galveston, Texas.—Snow has been general over the panhandle. Farmers are as a rule behind with their work, bad weather retarding preparation of ground for planting. There has been rain during the week to the extent of two inches and sixty-one hundredths, on four days. The thermometer has averaged 54, the highest being 70 and the lowest 38.

Palestine, Texas.—It has rained on two days of the week, the precipitation reaching three hundredths of an inch. The thermometer has averaged 47, ranging from 32 to 62.

Corpus Christi, Texas.—It has rained on two days of the week, to the extent of eighty-two hundredths of an inch. Average thermometer 52, highest 68, lowest 36.

Paris, Texas.—Changeable weather during week. The thermometer has ranged from 26 to 63.

San Antonio, Texas.—We have had rain on one day of the week, the rainfall reaching four hundredths of an inch. Minimum temperature 30.

New Orleans, Louisiana.—It has rained on three days of the week, to the extent of twenty-one hundredths of an inch. The thermometer has averaged 51.

Shreveport, Louisiana.—The week's rainfall has been only a trace on two days. The thermometer has averaged 49, ranging from 31 to 68.

Columbus, Mississippi.—There has been rain on one day during the week, to the extent of thirty hundredths of an inch. The thermometer has ranged from 30 to 78, averaging 56.

Leland, Mississippi.—Rain has fallen during the week, to the extent of ninety-six hundredths of an inch. Average thermometer 44, highest 68 and lowest 25.

Meridian, Mississippi.—The continued wet weather prevents preparations for planting. It has rained on three days of the past week.

Vicksburg, Mississippi.—We have had rain on two days of the past week, to the extent of two hundredths of an inch. The thermometer has averaged 48, the highest being 68 and the lowest 31.

Helen, Arkansas.—Not much farm work is being done. There has been rain on one day during the week, to the extent of twenty-four hundredths of an inch, and there has been a light fall of snow on one day. The thermometer has ranged from 25 to 59, averaging 42.

Memphis, Tennessee.—We have had rain and snow on one day of the past week, the rainfall being seventy-four hundredths of an inch. Average thermometer 45, highest 63, lowest 30.

Nashville, Tennessee.—Rain has fallen during the week, the precipitation reaching seventy hundredths of an inch. The thermometer has averaged 44, the highest being 62 and the lowest 26.

Mobile, Alabama.—Unsettled weather in the interior. We have had rain on three days of the week, the rainfall reaching one inch and six hundredths. The thermometer has averaged 49, ranging from 30 to 68.

Montgomery, Alabama.—Rain fell on the first two days of the week, to the extent of twenty-eight hundredths of an inch, but since then the weather has been dry and cold. The thermometer has ranged from 30 to 62, averaging 46.

Selma, Alabama.—We have had rain on three days of the week, the rainfall reaching seventy-six hundredths of an inch. Average thermometer 46, highest 67 and lowest 32.

Madison, Florida.—It has rained on two days during the week, with rainfall to the extent of sixty hundredths of an inch. The thermometer has averaged 59, the highest being 73 and the lowest 39.

Savannah, Georgia.—Rain has fallen on two days of the week, to the extent of twenty-eight hundredths of an

inch. The thermometer has ranged from 31 to 74, averaging 52.

**Augusta, Georgia.**—Demand for cotton active. We have had rain on two days of the past week, the rainfall being twenty-one hundredths of an inch. Average thermometer 51, highest 72, lowest 30.

**Charleston, South Carolina.**—We have had rain on two days during the week, the precipitation reaching sixty-four hundredths of an inch. The thermometer has averaged 51, the highest being 66 and the lowest 31.

**Stateburg, South Carolina.**—It has rained lightly on one day of the week, to the extent of three hundredths of an inch. The thermometer has averaged 49, ranging from 25 to 72.

**Greenwood, South Carolina.**—There has been rain on two days of the past week, the precipitation reaching forty-three hundredths of an inch. The thermometer has ranged from 5 to 54, averaging 41.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts of cotton at Bombay and the shipments from all India ports for the week ending Jan. 26, and for the season from Sept. 1 to Jan. 26 for three years have been as follows:

## BREADSTUFFS.

FRIDAY, January 27, 1899.

Early in the week only a limited volume of business was transacted in the market for wheat flour. Subsequently, however, demand improved, and during the past two or three days there has been a fair amount of activity to the trading. The upward tendency to values for the grain has been the principal stimulating feature. The demand has been principally from the home trade, although there has been a fair call from exporters; prices have advanced. Rye flour was in fairly active demand during the second half of the week, and the tendency of prices was toward a higher basis. Buckwheat flour has been firm but quiet. Corn meal has had a fair sale and prices have advanced.

Speculation in wheat for future delivery was quiet early in the week, but at the close there was considerable activity to the trading, and the tendency of prices was toward a higher basis. The bullish sentiment which has prevailed in financial circles for some time past has apparently spread to nearly all staple products. At any rate, during the past few days there has been fairly free buying of wheat by the general public for investment account. This demand, together with something of a revival of the export demand and buying by large Western operators and shippers who were short, to cover their contracts, sufficed to advance prices sharply, particularly as there has been little aggressive selling, few operators caring to operate against the flood of buying orders which have come on the market latterly. European markets have failed to respond fully to the upward turn to values in the local and Western markets, and the crop movement has been fairly large. These factors, however, have been offset by the heavy clearances from the seaboard and the decided strength of the statistical position, supplies in sight being comparatively small. Business in the spot market has been fairly active, although there has been some holding back of export orders due to the high prices. The premium on cash wheat has been lowered somewhat; consequently the advance in prices for actual wheat has been hardly so great as for futures. To-day the market was fairly active and prices advanced on outsiders buying, and in response to stronger foreign advices. Subsequently, however, there was a reaction under realizing sales prompted by unfavorable reports as to the situation in the Philippine Islands. The close showed prices practically unchanged for the day. The spot market was fairly active. Export sales reported here and at outlets were 225,000 bushels.

Indian corn futures were quiet at the opening of the week. Subsequently, however, the market became moderately

active and the tendency of prices was towards a higher basis. The principal strengthening factor was the increased demand from outsiders for investment account. Sympathy with the rise in wheat values, however, had much to do with the advance. The export demand was fairly brisk, the Continent especially being a good buyer during the latter part of the week, and this too had a strengthening influence. The spot market has been firm. Exporters have been more active buyers and prices have advanced. To-day prices advanced on buying by outsiders and continued active export demand. The spot market was active and former sales for export here and at outlets were 700,000 bushels.

Oats for future delivery at the Western market have received a moderate amount of attention. There has been a gradual hardening of prices on fairly free buying for investment account. The fact, however, that this demand has been met by liberal offerings from the country has held the advance in check to some extent. The spot market has been fairly active, but the demand has come exclusively from the home trade; prices have advanced, following the rise in values for futures. To-day the market for futures was steady. The spot market was fairly active and firmer. The sales included 20,000 bushels for export.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., January 27, 1899.

There has been no material change in the character of business doing in cotton goods on home account. The general demand has been moderate, but from the number of bids in the market only a little short of the higher prices which most sellers ask, it is evident that some larger purchasers are growing anxious again. The continued upward movement in the raw cotton market is, without doubt, exercising an influence over the views of both sellers and buyers as regards the future of the goods market. The former are growing more reserved over business for future delivery in most descriptions of staple cottons, and have occasionally further advanced their prices. The demand on export account has been more in evidence, but as a rule bids are either under sellers' ideas, or for earlier shipment than the mills can give. Good sales this week have put the print cloth market secure well into March, and higher prices are looked for. The woolen goods division has been quite unsettled by unexpectedly low prices on some new lines for fall.

WOOLEN GOODS.—The action of the Washington Mills in opening their heavy-weight lines of Clay mixtures, serges and chevots at a reduction of from 15 to 20 per cent from the prices of last heavy-weight season has for the time being well nigh demoralized the heavy-weight situation. A decline of these leading goods was looked for, but there was no outside suspicion that it would be so severe. It is not certain that other agents will to any extent meet it, as the present disposition is to wait for further developments. The demand for the Washington goods has been on such a large scale during the past few days that they may soon be out of the way of competing further to any extent. The re-order business in light-weights has been of satisfactory proportions. In overcoatings prices

are irregular. Cloakings inactive. Dress goods are steadier in tone, with more business doing; flannels and blankets quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending January 23 were 23,630 packages, valued at \$737,164, their destination being to the points specified in the tables below:

NEW YORK TO JAN. 23.	1899.		1898.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	20	131	354	471

China, via Vancouver.....	.....	.....	.....	.....
Total.....	23,630	39,711	9,391	17,913

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,317,623 in 1899, against \$447,407 in 1898.

Actual sales of heavy-weight sheetings and drills have been moderate, but some good-sized bids turned down. Advances of  $\frac{1}{4}$ ¢ per yard quoted in some leading makes of standards and three and four-yard goods. In fine browns Pepperell has been advanced  $\frac{1}{4}$ ¢. Fine yarn makes are strong and well sold ahead. Duck is firm, with moderate demand. Brown Osnaburgs quiet but firmer. Bleached cottons are without change, moderate business passing at full prices. Wide sheetings are well held; buying moderate. Cotton flannels and blankets quiet. In denims the market is improving, and advances of  $\frac{1}{4}$ ¢ @  $\frac{1}{2}$ ¢ per yard made in several quarters. Ticks are steady. Plaids firm in all leading makes; other coarse colored cottons quiet. Kid finished cambrics firm at previous prices. Prints, both fancies and staples, have been in moderate request only, but tone of market strong. Fine printed wash fabrics also strong. Gluehams in excellent shape, though no advances quoted. Print cloths at the close of the week are nominally  $\frac{1}{4}$ ¢, but bids thereat refused for any position. Sales have been large of regular cloths.

FOREIGN DRY GOODS.—Conditions in the foreign goods division of the market continued without change of moment. The demand in staple departments is light for dress goods, dress cottons and for silks; linens firm with more doing; burials occasionally advanced  $\frac{1}{4}$ ¢.

IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS

The importations and warehouse withdrawals of dry goods at this port for the week ending Jan. 26, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1899 AND 1898.	Week Ending Jan. 26, 1899.		Since Jan. 1, 1899.		Week Ending Jan. 27, 1898.		Since Jan. 1, 1898.

**Allen County, Kan.—Payment of January Interest.**—M. L. Decker, County Treasurer, has notified the Kansas State fiscal agents—The National Bank of the Republic, New York City—to decline to pay the January coupons on \$136,700 6% funding bonds maturing July 1, 1900, and to refer all persons presenting such coupons to the County Treasurer. This, we understand, was done so that the county officials would be able to obtain the names of the holders of the outstanding bonds and to enable them to open communication looking to the refunding of the same. A statement to the effect that the county had entered into an agreement with Spitzer & Co., Toledo, to refund the old bonds was given in the CHRONICLE November 19, 1898.

**Beatrice, Neb.—Bond Decision Appealed.**—We are advised by H. L. Harper, City Clerk, that the city has carried the case involving the validity of \$50,000 railroad-aid bonds to the Court of Appeals. Judge Munger's decision declaring the bonds valid was given in last week's CHRONICLE.

**San Francisco, Cal.—New City Charter.**—The State Legislature has passed the bill granting a new charter to the city of San Francisco.

**Tacoma, Wash.—Warrant Litigation.**—On January 17, 1899, the second (the Mullenberg case) of the eleven warrant suits growing out of the re-issuance of warrants by ex-Treasurer Boggs was taken up before Judge Carroll, in the Superior Court. The first of these cases, that of the New York Security & Trust Co., was decided adversely to the warrant holders by Judge Carroll, whose decision was reported in the CHRONICLE January 14, 1899.

**Virginia.—Deferred Certificates.**—The Committee on the Stock List has "unliated" the stamped trust receipts. This is done, it is stated, to remove misapprehension. The Virginia Debt Commissioners cannot act unless a majority of holders give certain assurances, which cannot be given unless the certificates are assembled, and it also requires a majority to obtain the listing of the receipts issued by Messrs. Brown Brothers & Co. The Southern parties associated with the committee have sent on a plan of settlement, and the Legislature being now in session the committee make advertisement to day urging prompt depositing. It appears that they require less than \$1,500,000 of certificates to make a majority. It is evident that holders must co-operate sooner or later and obviously no one can be benefited by causing delay. It is to be hoped that this vexatious subject will be promptly disposed of.

**Waxahachie, Texas.—Bond Litigation.**—Mr. E. A. Du Bose, Mayor, under date January 23, sends us the following facts relative to the litigation over \$43,000 railroad subsidy bonds the legality of which has been before the courts for several years. The Mayor says: "The bonds were issued in 1876—20-year 8% bonds. At or near maturity the city made an effort to issue refunding bonds to cover balance of about \$43,000. To our great surprise and regret the Attorney-General of Texas refused to approve the bonds on the ground that the original issue was illegal. Without his approval the debt could not be paid. Suit was then begun in the United States Court, and we now await the decision of the Court. The case will be heard on the 24th in New Orleans. It is a case in which the city could not pay without litigation." See CHRONICLE January 8 and 22, 1898.

**West Virginia.—The Virginia Debt Question.**—On January 17, 1899, the House of the State Legislature unanimously adopted the following resolution:

Resolved, By the Legislature of West Virginia, that this Legislature declines and refuses to take any action in regard to what is known as the Virginia debt or "Virginia deferred certificates," either by considering any proposition of adjustment or settlement, so called, or by authorizing the appointment of any committee having for the purpose the consideration of the same, and that it is the sense of the Legislature that the State of West Virginia is in no way obligated for the payment of any portion of said debt or certificates.

### Bond Calls and Redemptions.

**Boston, Mass.—Bond Call.**—The city called for payment January 1, 1899, £37,000 5% bonds issued in 1876, as follows: 220 bonds of £100 each, amounting to £22,000, and 30 bonds of £50 each, amounting to \$15,000. Interest ceased January 1, 1899. The notice is given through Messrs. Baring Bros. & Co., London.

**Hopkinsville, Ky.—Bond Redemption.**—This city has redeemed and canceled \$6,000 Ohio Valley Railroad bonds. We are advised that \$58,000 of these bonds become optional in 1901 and will be refunded at a lower rate of interest.

**Seattle, Wash.—Warrant Call.**—City Treasurer A. H. Foote has called for payment February 1, 1899, Columbia Street warrants (Ordinance No. 5067) Nos. 951 to 956, inclusive, Blanchard Street warrants (Ordinance No. 5070) Nos. 959 and 960, Lenora Street warrant (Ordinance No. 5066) No. 812.

**South Omaha, Neb.—Warrant Call.**—City Treasurer F. A. Broadwell has called for payment warrants on the following funds: School fund warrants up to and including registered No. 1894, interest fund warrant to No. 231, judgment fund warrant to No. 16; new series fire and water fund warrant to No. 103, public light fund to registered warrant No. 58, street repair fund warrant to No. 89, salary fund warrant to No. 286, engineer fund warrant to No. 28, general fund warrant to No. 78, water fund warrant to No. 15. The amount of call is about \$24,400.

### Bond Proposals and Negotiations this week have been as follows:

**Albany, N. Y.—Bond Offering.**—On February 8, 1899, at 12 M., the city will sell at public auction at the office of the City Chamberlain \$100,000 registered 3½% water bonds and \$30,000 registered 3½% free public-bath bonds. Both issues will bear date of February 1, 1899. Interest on the water bonds will be payable May 1 and November 1 at the office of the City Chamberlain, and the principal will mature \$5,000 yearly on May 1 from 1900 to 1919, inclusive. Interest on the bath bonds will be payable February 1 and August 1 at the office of the City Chamberlain, and the principal will mature \$3,000 yearly on February 1 from 1900 to 1909, inclusive. The water bonds are issued pursuant to Chapter 555, Laws of 1897, and resolutions of the Common Council passed June 21, 1897, and the Board of Finance, passed July 13, 1897, and January 6, 1899. The bath bonds are issued pursuant to Chapter 473, Laws of 1892, as amended by Chapter 351, Laws of 1895, and the General Municipal Law, being Chapter 685, Laws of 1892, also City Ordinance passed December 5, 1898, and Resolution of Board of Finance passed January 6, 1899.

**Algonac, Mich.—Bonds Defeated.**—This place recently voted against the issuance of \$10,000 electric-light plant bonds.

**Allegheny, Pa.—Bond Issue.**—It has been reported that the Finance Committee has decided in favor of the issuance of \$63,628 street-improvement bonds. Mr. James Brown, City Comptroller, writes us that "in the event of these bonds being authorized, it is my intention to place them in the sinking fund, and they will not be offered in the market."

**Allen County, Ind.—Bonds Proposed.**—A bill recently introduced in the State Legislature permits this county to issue additional bonds to complete the new court-house.

**Ambler, Pa.—Bond Election.**—At the regular spring election to be held in February the question of issuing \$18,000 bonds for improvement of streets, etc., will be submitted to the people.

**Anderson, S. C.—Bonds Proposed.**—The State Legislature has under consideration a bill providing for a special election in this place to vote on the question of issuing municipal bonds.

**Antelope, Ore.—Bonds Authorized by State Legislature.**—The first bill to pass both houses of the State Legislature, now in session, authorized the town of Antelope to issue bonds for the construction of water-works and sewers.

**Athens, Ga.—Bond Election.**—An election will be held February 27, 1899, to vote on the question of issuing \$100,000 4% street-improvement bonds. Securities, if authorized, will mature \$3,000 yearly for 29 years and \$13,000 30 years from date of issue.

**Atlantic County, N. J.—Bonds Proposed.**—A bill has passed the State Senate authorizing the issuance of \$25,000 asylum bonds.

**Bastrop County, Texas.—Bonds Approved and Recorded.**—The Attorney-General has approved and the Comptroller has recorded \$50,000 5% bridge bonds of this county.

**Berkshire County, Mass.—Bonds Authorized by State Senate.**—The Senate has passed a bill authorizing the County Commissioners to borrow money to pay part of its debt.

**Bexar County, Texas.—Bond Approval Temporarily Recalled.**—On January 20, 1899, the Attorney General approved for registration \$340,000 refunding railroad bonds, \$138,000 refunding court-house bonds and \$41,500 refunding bridge bonds, but afterwards recalled his certificate of approval. The grounds upon which the approval was withdrawn were that E. P. Hill, employed by the State in the bond department had received an attorney's fee of \$3,895 from the County Commissioners' Court for certain services, among which was the securing of the approval of the bonds. It appears from Attorney-General Smith's statement of the case that Mr. Hill had assured the Attorney-General that he had examined all the papers relative to the bonds and had found that all the requirements of the law had been complied with. "He failed, however," Mr. Smith said, "to inform me of the fact that Mr. Crane had previously had these bonds under investigation and had turned them down because of the absence of certain links in the line of evidence as to the legality of the original issue, which the statutes provide should

be completed before their validity ceases to be subject to question, and so far as I have to-day been able to ascertain said link has never been supplied."

**Binghamton, N. Y.—Bonds Proposed.**—A resolution has been introduced in the State Legislature authorizing this town to borrow \$10,000 to pay the balance of the contract price for the construction of a bridge pavement on Court Street.

**Boyd County (P. O. Catlettsburg), Ky.—Bond Offering.**—Proposals will be received until 1 P. M. February 20, 1899, by Ellis F. Lawrence, County Clerk, for \$15,000 4% redemption bonds. Securities will be in denomination of \$1,000, dated April 1, 1899; interest will be payable April 1 and October 1 at the office of the County Treasurer. Principal will mature April 1, 1909. Bonds are issued pursuant to Section 1857, Kentucky Statutes. A certified unconditional check for 2% of amount of bid must accompany proposals. The county debt (including this issue) is \$25,000. Assessed valuation is \$4,122,267; estimated real valuation, \$6,000,000. Population 12,000. In addition to assessed valuation as here given there are taxable franchises amounting to about \$1,000,000.

**Bozeman, Mont.—Bids.**—Following are the bids received on January 17, 1899, for the \$165,000 5% water-works bonds awarded, as stated last week, to Mason, Lewis & Co., Chicago, at 101-890:

	Premium.		Premium.
Mason, Lewis & Co., Chicago	\$3,120	Denison, Prior & Co., Cleveland	\$2,300
H. B. Palmer & Co., Helena	3,115	H. H. Kline & Sons, Denver	2,295
Seymour Bros. & Co., New York	3,100	Nelson Story, Bozeman	2,270
N. W. Harris & Co., Chicago	3,010	Lamprecht Bros. Co., Cleveland	2,100
Union Bank & Tr. Co., Helena	3,000	W. J. Hayes & Sons, Cleveland	1,000

For further information relative to these bonds see CHRONICLE December 17, 1898, p. 1273.

**Bridgeport, Ohio.—Bond Offering.**—Proposals will be received until 12 M. March 1, 1899, by John A. Fawcett, Village Clerk, for \$75,000 4% street-improvement bonds. Securities will be in denomination of \$1,000, dated April 1, 1899; interest will be payable semi-annually. Principal will mature April 1, 1929. Bonds are issued pursuant to Sections 2835, 2836, 2837 and 2837a of the Revised Statutes of the State of Ohio and a village ordinance passed January 6, 1899.

**Bristol County (P. O. Taunton), Mass.—Bond Offering.**—Proposals will be received until 10 A. M., February 6, 1899, by the County Commissioners, George T. Durfee, Chairman, for \$100,000 4% notes of this county. Securities are issued under Chapter 348 Acts of 1893, Chapters 239 and 530 Acts of 1894, Chapter 210, Acts of 1897, and Chapter 387, Acts of 1898. They are in denomination of \$20,000, dated February 7, 1899. Interest will be payable semi-annually and the principal will mature February 7, 1903.

**Cambridge, Mass.—Bonds Proposed.**—The municipal authorities have under consideration the petitioning of the Legislature for authority to issue \$100,000 sewers and \$500,000 park bonds.

**Camden (N. J.) School District.—Bids Rejected.**—On January 23, 1899, there were 18 bids received for the \$135,000 4% refunding school bonds, the highest being that of W. J. Hayes & Sons, Cleveland, who bid 105-79; but as they failed to enclose a certified check, their bid was thrown out. The next highest bidder was that of the New Jersey Trust and Safe Deposit Co., Camden, which bid 105. The committee, however, decided that a better price could be obtained for the bonds, and for that reason all of the bids were rejected. For description of bonds see CHRONICLE Jan. 14, 1899, p. 95.

**Canton, Ohio.—Bond Sale.**—On January 23, 1899, the \$15,000 water-works refunding coupon bonds were awarded to Briggs, Todd & Co., Cincinnati, at 101-103 for 3½ per cent. Principal will mature February 1, 1909. Following are the bids:

	3½% Bonds.	4% Bonds.	4½% Bonds.	5% Bonds.
Briggs, Todd & Co., Cincinnati	101 60			
Seasongood & Mayer, Cincinnati	129 75	709 00		
Feder, Holman & Co., Cincinnati		604 75	11,225 00	
Denison, Prior & Co., Cleveland	112 50	724 75		
Lamprecht Bros. Co., Cleveland		529 00		
Central Savings Bank, Canton		751 00		
Recur & Bell, Toledo				1,684 00
W. J. Hayes & Sons, Cleveland		665 00		
New First Nat. Bank, Columbus		575 00	1,492 50	
R. Kleybolte & Co., Cincinnati				1,952 25
C. H. White & Co., New York	Par			

For description of bonds see CHRONICLE of January 14, 1899, p. 95.

**Carbon County School District No. 30, Gebo, Mont.—Bond Sale.**—On January 16, 1899, the \$1,400 8% bonds of this district were awarded to D. G. O'Shea, Red Lodge, Mont., at 101-893. Securities will be in denomination of \$25 and \$100, and will mature 10 years from date of issue, subject to call after 5 years.

**Carroll County, Ky.—Bond Sale.**—On January 5, 1899, this county sold \$25,000 4½ 10-25 year (optional) bonds to Seasongood & Mayer, Cincinnati, at 103-021. There were eight bids received, ranging from \$300 less than par to the price at which the bonds were sold. Interest will be payable semi-annually at the Columbia Finance & Trust Co., Louisville, Ky.

**Champaign County (P. O. Urbana), Ohio.—Bond Offering.**—The County Commissioners will sell at public auction at 2 P. M. January 30, 1899, \$3,628 6% ditch bonds, as follows:

\$3.0 McMoran Bros. ditch No. 230, each bond \$50.
200 Grove ditch No. 231, each bond \$50.
229 Webb ditch No. 232, each bond \$39.
2,000 Grand ditch No. 233, each bond \$250.

Interest on above bonds will be payable February 1 and August 1, and the principal will mature one bond of each series every six months from August 1, 1899.

**Charlotte, N. C.—Bonds Authorized by Legislature.**—The bill providing for the issuance of \$300,000 water and sewer bonds has passed both houses of the State Legislature.

**Clay County, N. C.—Bonds Proposed.**—An Act to authorize this county to issue bonds is being considered in the State Legislature.

**Clinton, Tenn.—Bonds Proposed.**—A bill was recently introduced in the State Legislature to authorize this town to issue school-building bonds.

**Colliersville, Shelby County, Tenn.—Bonds Proposed.**—The issuance of water-works bonds is the subject of a bill now before the Legislature.

**Colton, Cal.—Bond Sale.**—We are advised by D. Johnston, City Clerk, that \$20,000 6% semi annual 1-40-year gold water-works bonds have recently been sold to the Lamprecht Bros. Co., Cleveland, at 107-875. Water-works bonds of like amount and same description were sold by this city on Sept. 30, 1898, to A. H. Conger, Los Angeles, Cal., but whether this is a re-sale or not we are not informed.

**Columbus, Neb.—Bond Offering.**—Proposals will be received until 8 P. M. March 3, 1899, by Wm. Becker, City Clerk, for the \$37,500 4½% funding bonds which were authorized by a vote of 139 to 2 at the election held on January 17, 1899. Securities will bear date of March 1, 1899. Interest will be payable March 1 and September 1 at Nebraska State Fiscal Agency in New York City. Principal will mature March 1, 1919, subject to call after March 1, 1909.

**Corry, Erie County, Pa.—Bond Sale.**—This place has sold \$50,000 3½% refunding bonds to Farson, Leach & Co., New York, at par. Bonds are dated March 1, 1899. Bonds mature 20 years from date of issue, subject to call as follows: \$20,000 after 5 years, \$20,000 after 10 years and \$20,000 after 15 years.

**Donaldsonville, La.—Temporary Loan.**—This town has borrowed \$1,500 from the Bank of Donaldsonville.

**Dyersburg, Tenn.—Bonds Proposed.**—The issuance of \$50,000 water and light bonds is provided for in a bill now before the State Legislature.

**Eagle County (P. O. Red Cliff), Col.—Bond Offering.**—Proposals will be received until 12 M. February 15, 1899, by the Board of County Commissioners—George E. Bowland, Clerk—for \$103,000 5% refunding bonds. Securities are in denomination of \$1,000, \$500 or \$100, as the purchaser may desire. Interest will be payable semi-annually and the principal will mature 20 years from date of issue.

**Ellsworth (Minn.) School District No. 40.—Bond Offering.**—Proposals will be received until 7 P. M. February 15, 1899, by F. W. Stanton, Clerk, for from \$2,000 to \$10,000 5% school bonds. Securities will be issued in denominations of from \$500 to \$1,000, to suit purchaser. Interest will be payable semi-annually and the principal will mature 15 years from date of issue. Certified check for 10% of \$7,000 must accompany each proposal.

**Essex County, N. J.—Bonds Proposed.**—This county will shortly issue between \$300,000 and \$325,000 4% refunding bonds. These securities will be issued to refund over \$500,000 7% war bonds maturing April 1, 1899, of which issue about \$200,000 will be paid out of the money on hand in the sinking fund. Full arrangements for the new issue have not been made as yet.

**Everett, Mass.—Bonds Proposed.**—This city has petitioned the Legislature for authority to issue \$100,000 30-year sewer bonds.

**Fitchburg, Mass.—Bonds Proposed.**—This city has petitioned the Legislature for authority to borrow \$100,000 to build a hospital.

**Ganado (Texas) School District.—Bonds Approved and Recorded.**—The Attorney General has approved and the Comptroller has recorded \$2,000 school bonds of this district.

**Georgetown (Ohio) School District.—Bond Sale.**—This district recently sold \$2,500 5% semi-annual school bonds to the First National Bank, Georgetown, at 112-60. Following are the bids:

First Nat. Bank, Georgetown	112-60	Wood & Flite, Georgetown	109-02
Seasongood & Mayer, Cincinnati	112-58	Feder, Holman & Co., Cincinnati	108-07
Budolph Kleybolte & Co., Cincinnati	112-12	Citizens' National Bank, Ripley	108-00
S. Kuhn & Sons, Cincinnati	112-10	S. A. Kean, Chicago	108-00
Atlas National Bank, Cincinnati	111-76	First Nat. Bank, Barnesville	102-56
New 1st Nat. Bank, Columbus	109-75		

**Goodhue (Minn.) School District.—Bond Sale.**—We are advised that the \$2,500 5% school-house bonds which were voted last fall have been sold.

**Greenville, Tenn.—Bonds Defeated.**—On January 24, 1899, the proposition to purchase the system of water-works for the town and to issue bonds in payment for the same was defeated.

**Grundy County, Tenn.—Bonds Proposed.**—The issuance of \$4,000 jail bonds is being considered in the State Legislature.

**Hampshire County, Mass.—Loan Negotiated.**—On January 25, 1899, the Commissioners of this county placed a loan of \$30,000, in anticipation of taxes, with Bond & Goodwin, Boston, at 2½%. The State Treasurer put in a bid of 2¾% and there was a third bid at 3% with a bonus of \$7.

**Hidalgo County, Texas.—Bonds Approved.**—On January 17, 1899, the Attorney General approved \$15,500 court-house and jail refunding bonds of this county.

**Hillsboro County (P. O. Tampa), Fla.—No Bonds at Present.**—There has been talk in the newspapers in regard to the issuance by this county of \$300,000 bonds for deepening the river channel. We are officially advised that there has been nothing done by the county as yet in the matter.

**Ironton, Ohio.—Bonds Voted.**—At the election held in this city on January 23, 1899, by a vote of 1,197 to 448, the people expressed themselves in favor of issuing \$15,000 public-park bonds.

**Jeffersonville, Ind.—Bond Offering.**—Mr. Thos. B. Rader, Mayor, writes us that he will receive proposals at any time for the purchase of \$87,000 3½% 25-year refunding bonds. The old bonds which the above issue will refund have been in litigation for some years and were declared illegal by the Supreme Court. Later the city obtained permission from the State Legislature to refund them, but was unable to do so until the present, as the legality of the Act was attacked in the courts. On December 20, 1898 (see CHRONICLE, Dec. 24), the Supreme Court declared the Act legal. Local papers state that an offer of par for 3½% 30-year bonds has been received, but as yet it has not been accepted, as the Council's resolution authorizing the bonds specified 25 years as their maturity.

**Jersey Shore (Borough), Pa.—Bond Election.**—An election will be held in this borough on February 21, 1899, for the purpose of submitting to the tax-payers the question of issuing \$13,000 street-paving bonds.

**Keene, N. H.—Loan Negotiated.**—This city has negotiated a \$25,000 loan at 3% with a local party, for which five-year notes were given, the city having the privilege of paying any part of principal from sinking funds or any other moneys not otherwise appropriated.

**Knoxville, Tenn.—Bonds Proposed.**—A bill now before the State Legislature allows this city to fund \$100,000 existing indebtedness.

**Laurel, Del.—Bonds Proposed.**—A bill providing for \$20,000 water-works bonds has been introduced in the State Legislature.

**Limestone County, Texas.—Bond Sale.**—We are advised by the County Clerk that the \$50,000 refunding court-house bonds which were registered on Dec. 22, 1898, have been sold.

**Lincoln County, Ky.—History of Bonds.—Bond Offering.**—The following letter from Harvey Helm, Attorney-at-Law, Stamford, gives the history of the \$42,000 4% bonds which we stated last week had been refused by Briggs, Smith & Co., Cincinnati, to whom they were originally awarded:

By an Act of the Kentucky Legislature in 1896 the counties in this State were authorized to issue and sell bonds and with the proceeds buy turnpikes. Section 9 authorized bonds in denomination of not less than \$100 nor more than \$1,000, interest payable semi-annually, bonds to run not longer than 30 years and to be redeemed within that time at pleasure of the court. Section 3 provides that when plan has been transferred the charter, franchise, &c., is dissolved at once. In violation of these plain and manifest provisions of the law the former Fiscal Court, without any advertisement, simply peddled out the bonds to the turnpike company, issuing bonds of any denomination from \$100 to \$10,000, and in one bond made the interest payable annually and the bond to run 30 years, nonconditionally. This Court has had the difficulty of straightening out the entire matter, and has succeeded in getting the holders of all these bonds to surrender that now there is no controversy whatever. The whole matter has been cleared away and the county has entered all proper orders for the sale of \$52,000 worth of 4% bonds, to be sold February 15, 1899, and when floated will be all and the only county bonds issued for the purchase of turnpikes. At the time Briggs, Smith & Co. purchased the bonds (\$42,000) there remained about \$10,000 of the old county bonds unsundered, but which have since been turned in, making the present issue \$52,000. We have endeavored to persuade the holders of this \$10,000 to surrender them prior to the sale to B. S. & Co., but failed.

**Lincoln County, N. C.—Bonds Proposed.**—An issuance of road bonds is provided for in a bill now before the State Legislature.

**Lyons, Ill.—Bonds Voted.**—On January 21, 1899, the citizens of this township authorized the issuance of \$35,000 bonds for an addition to the high school. The vote was 841 to 334.

**Madison County, Ohio.—Bond Sale.**—On January 24, 1899, the \$16,940 6% ditch bonds were awarded to Seasongood & Mayer, Cincinnati, at 101-03. Following are the bids:

Seasongood & Mayer, Cineln.	\$17,114 50	Feder, Holzman & Co., Cin.	\$17,044 00
R. Kleybolte & Co., Cineln.	17,090 00	Hicks, Todd & Co., Cineln.	17,017 95
First Nat. Bank, Circleville.	17,075 00	New First National Bank,	
S. A. Kean, Chicago.	17,049 60	Columbus	17,005 00

For description of bonds see CHRONICLE Jan. 21, 1899, p. 147.

**Maine.—Temporary Loan.**—The State has borrowed \$100,000 for one year from E. H. Gay & Co., Boston, at 2-75% and \$11 premium. Following are the bids received:

E. H. Gay & Co., (\$11 prem.)	2-75%	Adams & Co., (\$12 50 prem.)	3-00%
Hogers, Newman & Tolman, Bos.	2-74%	Curtis & Motley (\$11 prem.)	3-00%
Bond & Goodwin (\$5 prem.)	2-75%	Edgerly & Crocker (\$5 prem.)	3-00%
E. S. Mesleley & Co., (\$5 75 prem.)	2-91%	Jose, Parker & Co., Boston	3-00%

**Martinsburg, W. Va.—Bonds Proposed.**—House bill No. 28 authorizes the authorities of the place to refund its outstanding bonded debt.

**Montrose (Village), Minn.—Bond Offering.**—Proposals will be received until 12 M. February 18, 1899, by H. G. Wright, Village Recorder, for \$1,500 4% village improvement bonds. Securities will be in denomination of \$500. Interest will be payable semi-annually at any bank desired by the purchaser, and the principal will mature \$500 on February 18 from 1900 to 1902, inclusive.

**Morgan County, Ala.—Bonds Voted.**—At the special election held January 17, 1899, it was voted to issue \$75,000 turnpike bonds.

**Morganton, N. C.—Bonds Authorized by State Legislature.**—The State Legislature has passed a bill authorizing the issuance of \$5,000 bonds for a light and power plant.

**Morristown, Tenn.—Bonds Proposed.**—A bill now before the State Legislature authorizes this town to fund its indebtedness.

**Mount Airy, N. C.—Bill to Restore Township.**—The House of the State Assembly has passed a bill to restore Mount Airy Township. Two years ago, it is stated, the Fusionists abolished this township in order to repudiate \$20,000 of bonds it had issued in aid of a railway, these bonds being now held by a Baltimore savings bank.

**Mount Vernon (N. Y.) School District.—Bond Sale.**—On January 24, 1899, the \$50,000 3½% school bonds were awarded to the Edward C. Jones Co., New York City, at 108-27. Following are the bids:

Edward C. Jones Co., New York	108-27	Seasongood & Mayer, Cineln.	108-35 2
Bertson & Storrs, New York	108-10	N. W. Harris & Co., New York	108-52 9
E. H. Gay & Co., Boston	107-88 9	Seymour Bros. & Co., New York	108-53
Farson, Leach & Co., New York	107-82	Pastebester Sav. Bk., Mt. Vernon	108-75
Street, Wykes & Co., New York	107-66	Yonkers Sav. Bank, Yonkers	108-50
Dealson, Prior & Co., Boston	107-61 9	New First Nat. B'k, Columbus	102-35
Jose, Parker & Co., Boston	107-27 3	S. A. Kean, Chicago	102-03 1

Principal will mature \$5,000 yearly on February 1 from 1939 to 1948, inclusive. For further description of bonds see CHRONICLE January 14, 1899, p. 96.

**Newburgh, N. Y.—Bonds Proposed.**—A bill recently introduced in the State Legislature authorizes the Almshouse Commissioners to borrow \$8,000 for improvements to the almshouse.

**New Haven, Conn.—Loan Negotiated.**—This city has negotiated a temporary loan of \$800,000 with F. S. Mosely & Co., Boston, at 2-739%; also \$150,000 for one year at 2-74% through Geo. W. Curtis of New Haven, negotiated for the purpose of refunding old town notes bearing 4 and 5% interest. The \$800,000 loan was made in anticipation of the collection of taxes, and the money will not be advanced by the Boston firm in a lump sum, but in such amounts as may be needed by the city during the first six months of 1899, interest to run from the date notes are drawn.

**New Mexico.—Bonds Proposed.**—Reports state that Hon. H. O. Bnrum, Chairman of the Committee on Finance, is promulgating a plan for refunding the entire Territorial bonded debt, amounting to \$1,066,800, into 4% bonds. The present rate of interest is from 5 to 6%.

**New York City.—Bonds Authorized.**—The Board of Estimate recently authorized the issuance of \$2,715,000 3% consolidated stock to redeem a like amount of 6% Brooklyn water bonds maturing July 1, 1899. Also \$500,000 bonds to take up a similar amount of Park Ave. assessment bonds and \$500,000 bonds to pay awards for lands in the Croton watershed.

**Newton, Mass.—Loan Negotiated.**—This city has borrowed \$100,000 from the Colonial National Bank of Boston.

**Norfolk, Coun.—Bonds Proposed.**—A bill providing for the issuance of sewer bonds has been introduced in the State Legislature.

**North Adams, Mass.—Bonds Proposed.**—The City Council has voted to petition the Legislature for authority to refund its bonded indebtedness.

**Oregon City, Ore.—Bonds Proposed.**—The State Senate has passed a bill authorizing the Water Commissioners of this city to issue \$50,000 bonds, \$10,000 of which is to refund bonds now outstanding and the remaining \$40,000 is to provide for the changing of the water supply.

**Pawtucket, R. I.—Loan Negotiated.**—This city has recently negotiated a loan of \$50,000 with the Colonial National Bank of Boston.

**Peabody, Mass.—Loan Negotiated.**—The Colonial National Bank of Boston has loaned this town \$10,000.

**Perth Amboy, N. J.—Bond Sales.**—We are advised that the \$25,000 4% school bonds for which proposals were asked until January 16, 1899, and the bids for which we published last week, were awarded to W. J. Hayes & Sons, Cleveland, at 106-068.

On January 20, 1899, this city also sold \$17,000 4½% 30-year refunding water bonds to the same firm at 117-07.

**Philadelphia, Pa.—Loan Authorized.**—The Common Council has passed the ordinance authorizing a four-months loan of \$200,000 for the purpose of equipping and building the Philadelphia museums.

**Plymouth (Pa.) School District.—Bond Sale.**—On Jan. 17, 1899, the \$16,000 4% bonds of Plymouth Township school district were awarded to Eugene Ward, Attorney, at 101-593. Following are the bids:

	Premium.		Premium.
Eugene Ward, Plymouth	\$255	W. J. Hayes & Sons, Cleveland	\$190
New First Nat. Bank, Columbus	\$250	S. A. Kean, Chicago	\$160
Denison, Prior & Co., Cleveland	240	D. P. Reese, Plymouth	Par

\* Bid flat.

**Pueblo, Col.—Bond Sale.**—The sale of \$300,000 4½% refunding and improvement bonds to Trowbridge, MacDonald & Niver Co., Chicago, at par is reported.

**Revere, Mass.—Bonds Proposed.**—This town has petitioned the State Legislature for authority to issue \$150,000 30-year highway bonds.

**Rockingham County, N. H.—Bonds Proposed.**—A bill was recently introduced in the State Legislature permitting the funding of the county's floating indebtedness.

**Saginaw County, Mich.—Bonds Proposed.**—The Board of Supervisors have under discussion the question of issuing \$200,000 road bonds.

**St. Albans (W. Va.) School District.—Bonds Proposed.**—The State Legislature has under consideration a bill authorizing this district to issue bonds.

**St. Joseph, Mich.—Bond Election.**—An election will be held in this place to vote on the question of issuing \$10,000 school bonds.

**Salem, Ore.—Proposed New Charter.**—This city will make application to the State Legislature for a new city charter, one of the features of which will be the authority contained therein for the refunding of the city's debt at a lower rate of interest.

**San Antonio, Texas.—Bond Sale.**—On Jan. 23, 1899, the \$390,000 20-year gold refunding bonds were awarded to the

Mutual Life Insurance Co., New York City, as 4 per cents. For description of bonds see CHRONICLE Jan. 21, 1899, p. 147.

**South Dakota.**—*Bill Authorizing Bonds for Water Supply.*—The Legislature has under consideration a bill authorizing cities and towns to exceed the limit of indebtedness for water supply purposes.

**Springfield, Mass.**—*Loan Negotiated.*—On January 24, 1899, this city negotiated a loan of \$300,000 with the Providence Institution for Savings at 2.50% and \$10 premium. Loan matures November 8, 1899, without grace. Following are the bids:

Providence Institution for Savings (\$10 prem.).....	2.50%	Blake Bros. & Co., Boston.....	2.75%
Fuller, Tilton & Co., Boston.....	2.60%	Edgerly & Crocker, Boston.....	2.75%
Rogers, Newman & Tolman (\$5 prem.).....	2.70%	Jose, Parker & Co., Boston.....	2.75%
Chas. Wet & Co., Boston.....	2.75%	Curtis & Motley, Boston.....	2.75%
		Duncomb & Jennison, New York.....	2.80%
		Nat. Bank of the Republic, N. Y.....	3.00%

**Travis County, Texas.**—*Bond Sale.*—The county has contracted to sell at par to Rudolph Kleybolte & Co., Cincinnati, the \$136,000 4% 10 40 year refunding bridge bonds mentioned in the CHRONICLE December 3, 1898. These bonds, we are advised, have nothing to do with the \$47,000 Montopolis bridge bonds which were declared void several years ago.

**Troy, N. Y.**—*Bond Offering.*—Proposals are asked until 12 M. February 1, 1899, by Jas. W. Coffey, Comptroller, for \$107,000 3½% bonds known as "Public Building Bonds of 1899." Securities will be issued in such denomination (but not less than \$5,000) as the bidder shall desire, and will bear date of February 15, 1899; interest will be payable semi-annually at the City Chamberlain's office. Principal will mature yearly on February 15 as follows: \$10,000 in 1905 and 1906, \$12,000 in 1907, \$10,000 in 1908, \$15,000 in 1909 and \$10,000 from 1910 to 1914, inclusive. Bonds are issued under Chapter 670 of Laws of 1892 and Chapter 761, Laws of 1897, and in pursuance of a resolution of the Common Council adopted January 19, 1899, and approved January 23, 1899. A certified check for 1% of par value of bonds, payable to the City of Troy, must accompany proposals.

These bonds were offered for sale as 3 per cents on January 18, 1899, but the bids received were not satisfactory.

**Umatilla County, Ore.**—*Bonds Proposed.*—The County Court has under consideration the issuance of about \$140,000 bonds to fund outstanding warrants.

**Union County (P. O. Elizabeth), N. J.**—*No Bond Issue.*—It has been reported that this county had under consideration the issuance of bonds for road purposes. Upon inquiry we learn that the county has no intention of issuing bonds for roads or any other purposes.

**Union County, Tenn.**—*Bonds Proposed.*—The State Legislature has under consideration a bill providing for the issuance of court-house bonds.

**Wallingford (Conn.) School District.**—*Bonds Proposed.*—The House of the State Assembly has passed a bill authorizing this district to issue refunding bonds.

**Waltham, Mass.**—*Bond Offering.*—Proposals will be received until 4 P. M. January 30, 1899, by the City Treasurer, for \$5,000 4% water bonds, maturing Oct. 1, 1913, and \$4,000 4% surface drainage bonds, maturing January 1, 1919.

**Ware County, Ga.**—*Loans Negotiated.*—This county has recently placed the following 8% one year loans: \$3,000 with Henry Strickland; \$1,500 with D. A. Jordan, and \$1,000 with the Knights of Pythias.

**Washington County, Tenn.**—*Bonds Proposed.*—The issuance of bonds for the improvement of roads is contemplated, but as yet nothing definite has been done in the matter. This county, we are advised, has no outstanding indebtedness.

**Washington, Pa.**—*Bond Election.*—An election will be held in February to vote on the question of issuing \$8,000 fire-apparatus bonds.

**Watertown, Mass.**—*Proposed Purchase of Water-Works.*—A town committee appointed for the purpose has completed arrangements whereby the town acquires the property of the Watertown Water Supply Co. for \$400,000. A town meeting will be held February 2, 1899, to ratify the arrangements and to act on the question of raising the necessary money.

**West Hoboken (Town), N. J.**—*Bond Offering.*—As stated last week, proposals will be received until 8 P. M. February 1, 1899, by the Town Council for \$45,000 4% school bonds. Further details are now at hand. Thirty of these bonds will be in denomination of \$1,000 and thirty in denomination of \$500 each, and all will bear date of March 1, 1899; interest will be payable semi-annually, and securities may be registered or have coupons attached, at the option of the pur-

## NEW LOANS.

**\$45,000**

TOWN OF

**WEST HOBOKEN,**

HUDSON COUNTY, N. J.,

**SCHOOL BONDS.**

Sealed proposals will be received by the Town Council of the Town of West Hoboken, at the Town Hall, corner of Charles Street and Clinton Avenue, in said town, on

**Wednesday Evening, February 1, 1899,  
AT EIGHT O'CLOCK.**

for the purchase of forty-five thousand dollars "School Bonds" of said town, to be issued under the authority of the Act of the Legislature of New Jersey entitled "An Act to authorize the purchase of lands and the construction of school houses thereon, and the issuing of bonds to raise money to pay the cost of the same, in towns of this State," approved June 14, 1898; said bonds will bear interest at the rate of four per cent per annum, payable semi-annually, and may be either registered or have coupons attached for the payment of each half-year's interest, at the option of the purchaser; thirty of said bonds will be for the sum of one thousand dollars each, and thirty will be for the sum of five hundred dollars each; the bonds will bear date March 1st, 1899, and will be delivered on that day, and will become due and be payable as follows, viz: Fifteen hundred dollars thereof on the first day of March, 1902, and fifteen hundred dollars thereof annually thereafter.

The bonds will be sold to the person or corporation offering the terms most advantageous to the town. The bonds will be delivered to the purchaser on the first day of March, 1899, on receipt of the price bid.

Each proposal must be accompanied by a deposit of three per cent of the amount of the bid, which deposit may be either in money or certified check to the order of the town, for which deposit the receipt of the Town Treasurer will be given; the deposits of unsuccessful bidders will be returned immediately after the award of the bonds is made; the deposit of the successful bidder will be retained and will be applied as part payment of the purchase price, or, in case of failure to complete the purchase within the prescribed time, the bonds will be again advertised for sale, and all costs and expense attending such re-advertising, as well as all loss suffered by the town on account of such failure, will be retained out of and deducted from such deposit and the balance returned to the depositor.

All proposals must be enclosed in sealed envelopes which shall be endorsed "Proposals for School Bonds."

No conditional bid will be received. All bids that do not comply with the terms stated herein will be considered informal, and will be rejected.

Dated January 18, 1899.

By order of the Town Council,

JOHN P. McMAHON,  
Town Clerk.

## INVESTMENTS.

### Virginia Deferred Certificates

The date fixed by the Walker contract of June 19, 1900, for the withdrawal without charge of the certificates deposited thereunder with the Farmers' Loan & Trust Company, having expired in 1898, and the stamped receipts heretofore issued for such certificates being now no longer quoted on the New York Stock Exchange, the holders of those and other certificates are urged to deposit the same with Messrs. Brown Brothers & Co., the Depositories of the undersigned Committee, in order that a new quotation may be promptly secured from the Stock Exchange, and a plan of settlement immediately presented for the acceptance of depositing creditors before it is too late for the present session of the Legislature.

The holders of upwards of \$6,000,000 of Virginia Deferred Certificates have already deposited with or pledged their certificates to this Committee. A considerable further deposit is now necessary in order to obtain the proposed new quotation and to admit of pressing the matter of settlement.

JOHN CROSBY BROWN, Chairman;  
J. KENNEDY TOD,  
GEORGE COPPELL,  
CLARENCE CARY.  
ROBERT L. HARRISON, Secretary.

### NOTICE TO HOLDERS OF HENRY COUNTY, OHIO, BONDS.

The Commissioners of Henry County, Ohio, will pay for any number of the 4% Refunding Bonds, issued July 1st, 1890, redeemable July 1st, 1900, at four per cent (4%) premium, and accrued interest, at the Treasurer's office, Napoleon, Ohio, if delivered on or before July 1st, 1899.

DAVID F. COE, County Auditor.

STATE, CITY & RAILROAD BONDS

chaser. Principal will mature \$1,500 yearly on March 1 from 1902 to 1931, inclusive. Bonds are issued pursuant to an Act of the Legislature of New Jersey approved June 14, 1898. Proposals must be accompanied by 3% of the amount bid, either in money or certified check to the order of the town. John P. McMahon is the Town Clerk.

The official notice of this bond offering will be found elsewhere among the advertisements in this Department.

**Wilkesbarre, Pa.—Bond Offering.**—Proposals will be received until 12 m. February 1, 1899, by Frank Deitrick, City Clerk, for \$94,800 3½% refunding bonds. These bonds are part of a \$210,000 loan issued for the purpose of refunding \$80,000 4½% sewer bonds and \$150,000 5% improvement bonds. The remaining \$115,200 have been taken by the holders of the old bonds. New bonds will be dated February 1, 1899, and interest will be payable semi-annually. Securities will mature on February 1 as follows: \$300 in 1905, \$500 in 1908, \$4,000 in 1919 and \$9,000 yearly from 1920 to 1930, inclusive. Bonds are free from all taxes except those assessed for State purposes. Bidders must satisfy themselves as to the legality of the bonds and so state in their proposals. A certified check for 10 per cent of the amount of bonds bid for, payable to the City Treasurer, must accompany proposals.

**Winthrop, Mass.—Bonds Proposed.**—Legislative authority is being sought by this town for the issuance of \$35,000 30-year road bonds.

**Woodson County (P. O. Yates Center), Kan.—Bond Offering.**—Proposals will be received until 12 m. February 8, 1899, by W. O. Eccles, County Clerk, for the \$80,000 5% courthouse and jail bonds which were voted at the election held in November last.

**Woodsville (N. H.) School District.—Bonds Proposed.**—A bill now before the State Legislature provides for the issuance of bonds by this district.

**Yonkers, N. Y.—Bond Sale.**—On January 25, 1899, the \$125,000 4% redemption bonds and \$13,500 4% assessment bonds were awarded to the Yonkers Savings Bank at 102½ for the former and 100½ for the latter. Following are the bids:

	Redemption Bonds.	Assessment Bonds.
Yonkers Savings Bank, Yonkers.....	102½	100½
Jose, Parker & Co., Boston.....	102½	100½
Allen, Sand & Co. (all or none).....	102½	100½
Benwell & Everitt, New York.....	102½	100½
Farson, Leach & Co., New York.....	102½	100½
People's Savings Bank, Yonkers (\$50,000).....	102½	100½
De Van & Co. (all or none).....	102½	100½

The redemption bonds will mature February 1, 1902, and the assessment bonds will mature February 1, 1900. For further description of bonds see CHRONICLE of last week, p. 149.

**Bonds Proposed.**—A bill now before the State Legislature authorizes this city to spend \$96,000 on docks and piers and \$55,000 on the Fire Department, and also provides that the issue of bonds for street improvements may reach \$340,000.

### THE FINANCIAL SITUATION.

The week's business at the New York Stock Exchange has in volume and character furnished quite a contrast with the previous week's operations. The movement is still large, if looked at through the surroundings of most any week a year ago, and as to the spirit prevailing it is fully as hopeful as ever, though more conservative and less hysterical. On Monday the stock sales aggregated 1,037,040 shares, attended by a moderate reaction, especially in the morning, with prices irregular all day; Tuesday the sales were 784,152 shares, with continued irregularity but rather more steadiness; Wednesday the sales were 872,052 shares, with the tone healthy and vigorous, very little sign of reaction being left after the opening; Thursday the sales amounted to 790,400 shares, and the market was quite irregular; yesterday there was a sharp and general recession in prices in the morning, but this was followed by an equally striking recovery in the afternoon, the sales reaching 939,732 shares. Indeed, all through the week the tone has moderated very considerably if compared with a week ago, but on that account it has become more reliable. We thus for the five days have stock sales aggregating 4,423,376 shares, against 6,671,531 for the same five days of the previous week. We shall not probably see last week's transactions repeated very soon; they were every way phenomenal. A good measure of their extent is the fact that the week's clearings at our New York Clearing House reached \$1,494,429,886, all of which went through as easily as any ordinary week's business. Another feature illustrative of the same condition is the fact that almost every item in the bank statement last Saturday established a new record: average loans were reported at \$726,372,200, specie at \$193,484,900, cash reserve at \$254,641,500 and deposits at \$861,637,500.

Some say Wall Street has been sobered by the delay in ratifying the Peace Treaty with Spain. That effect would hardly be regretted if the influence went no further; that is, if the tendency of the present unsettled state of authority in the islands that have at least for the time being become our charge, was not harmful to all industrial affairs. It is consequently gratifying to be assured that the debate in the Senate is to be closed on Monday, and that there is no doubt now of the adoption of the peace settlement by the necessary two-thirds vote. The Chamber of Commerce gave expression Thursday to the state of public opinion in urging the ratification as a condition precedent to all discussion respecting our future responsibility and duty in this new territory. We trust, too, that Senators will not only take speedy action but will see that their duty lies in showing as great unanimity of opinion as possible on the question of ratification. A close approach to unanimity in their action is highly desirable, as it would have no little influence in forwarding the arrangement of a stable government in those islands.

A Republican caucus Thursday night voted to authorize Chairman Grosvenor to appoint a committee of eleven for the purpose of considering monetary legislation, and after a conference with a like committee of the Senate to report their views to a Republican caucus at the first session of the Fifty-sixth

Congress. We cannot see any clear opening for a committee of the kind suggested, or any good purpose possible for it to serve. There are already two regular committees of the House which, according to its rules, have such matters in charge. We were of the opinion that they had been commendably industrious and had gone far towards unifying and crystallizing their views. It is further likely that those who now hold places on those committees, and have been elected to the next Congress, will be continued in their positions. That is customary, and because they have made the subject their study it is good policy. Is it not a little offensive to forestall the work of a body appointed especially for that business and supposed to be selected because eminently fitted for it—would it not be a little offensive at the opening of the next Congress to present the committee with a bill endorsed, "to be reported! by order of the Caucus Committee of Eleven!" Then, too, it is quite possible that Speaker Reed might object to have the work of his appointments superseded. He is not in the habit of naming men for official position who are not endowed with reason and views, or of having any affiliation with that sort of character; only wooden men it would seem could accept such positions. Still, no one would like to see the currency business of the next Congress advanced better than we would. But as we look at it, no way offers to hasten its work except by hastening the day of its meeting, having the regular committees appointed, and setting them to work. If that could be done and the Republicans appointed could be the Caucus Committee, the idea would be a feasible one.

Acting upon the exposition in this column last week of the unprofitable character of accounts of small depositors, bank managers are beginning more thoroughly to investigate the matter with a view to applying the most effective remedy. Those who have made a careful inquiry are convinced that the only correct system is to make every account pay at least the actual cost of carrying. It will no doubt be surprising to those who are unfamiliar with the details of bank management to learn that there are individual accounts in some banks with deposits averaging only about \$14 monthly which yield a yearly gross profit to the bank of only 33 cents; that other accounts, with deposits averaging \$33 monthly, yield 80 cents per annum gross profit, and even an account with a monthly average of \$637 of deposits yields only \$18 50 per annum gross. Surely there is little or no advantage to a bank which does business on such a narrow margin and it is only just that such small depositors should be required to pay for the privileges they enjoy. Another loss we have often referred to which demands a radical remedy is found in the exchange account of banks. There is scarcely an institution in the city which shows a profit on this item of country bank business. Checks are received for collection, the amount is promptly credited, and in many cases the bank receiving the checks has to wait from five to ten days before getting returns, meanwhile paying interest on the deposit as entered, and losing interest on the amount of the check during the process of collection. There are probably very few banks in this city which have a system which enables the managers readily to ascertain the exact cost of carrying or handling each separate account. The following illustrations are taken by

permission from the records of one of the largest banks in this city, and doubtless other institutions have a similar experience. One country bank sent to its correspondent here during last year forty-eight items for collection, aggregating less than \$2,500. The average cash balance of the bank per month was \$50, and the gross profit of the account for the year was not quite \$7 25. One Eastern bank had an average monthly balance with its New York correspondent of about \$204,000, on which there was a gross profit of a little more than \$1,300 after paying over \$4,000 interest on the bank's balances. A New York State bank last year sent eight hundred and fifty checks to its correspondent for collection, amounting altogether to less than \$175,000. The average monthly cash balance of the bank was a little more than \$18,500 on which an aggregate of nearly \$370 interest was paid for the year and the gross profit of the account was not quite \$120. Still another illustration is that of the account of a bank in a near-by interior city. The average monthly balance with its correspondent here was less than \$25,000. After paying about \$375 in interest and nearly \$225 cost of collecting more than 7,000 items during the year, the gross profit was only about \$178. The net profits, after deducting from the gross profits each account's proportionate share of the cost of operating the bank, are in many cases, even where gross profits are shown, so small as to be discouraging. In one instance at least an account showed an actual loss in gross. This was the case of a bank which had an average monthly balance of a little less than \$43,000. Checks numbering nearly 7,800 and aggregating over \$1,000,000 were collected during the year at a cost of about \$385, and nearly \$970 interest was paid on the balances. The gross loss on the account was a fraction over \$238. It is not surprising that some of the larger banks of this city which, through investigation, have discovered the unprofitable character of this business of collecting for country banks, under the existing system, have decided to decline such accounts unless their correspondents will agree to defray the cost of collection and also modify their requirements regarding the payment of interest on items in process of collection.

A Berlin cable on Tuesday announced that the 200,000,000 marks of 3 per cent Imperial consols issued by the German Government, purchased last week by the Deutsche Bank of Berlin, would be placed by the Bank chiefly in Great Britain and in the United States. The cable further stated that the price paid by the Deutsche Bank was 91½, and that the consols would be issued to the public at 92. It was subsequently stated, on the authority of the London Times, that this issue of bonds was first offered to other discount banks in Berlin, but the offer was refused, the banks being unwilling to accept a rate of interest below 3½ per cent. Considered simply in the light of a cable announcement of a bond negotiation between the Government of Germany and the Deutsche Bank of Berlin, the news would probably have attracted little attention in this country had it not been for the accompanying statement that part of the bonds would be placed in the United States. The question naturally arose: Why should not a German 3 per cent interminable bond at 92 be a desirable investment for American capitalists and corporations? The security would be beyond question, the interest

would be payable absolutely in gold, and at the price named the bonds would yield at least 3¼ per cent per annum. Moreover, why should not the Deutsche Bank take advantage of an easy market for money and seek to place the bonds here rather than endeavor to negotiate them in Europe? Inquiry among foreign bankers as to the probability of the success of such an issue in this country revealed considerable difference of opinion, the majority regarding it as likely that American investors would prefer home to foreign securities. It was suggested, however, that some corporations, and especially life insurance companies, whose business made investments in foreign securities desirable or necessary, might, for reasons of policy, be inclined to purchase these bonds. Among these companies, therefore, there seemed to be a possible market. It was regarded as quite conceivable also that some of our larger banks, and especially those whose relations with prominent German institutions have been very intimate, would likewise be readily induced to invest in these securities, particularly as at least one of these banks has from time to time more or less participated in loans by other foreign governments for the purpose of employing accumulating deposits which it was unable as profitably to employ at home.

The important fact to be considered is the effect which such investments, should they be made, either more or less permanently by life insurance companies or by other corporations or individuals, or possibly temporarily by banking institutions, would have upon the foreign exchange situation. We are now practically loaning to Europe a very large amount in the form of deferred sterling or Continental drafts. It is quite possible that at least half of the amount is being loaned in Berlin alone. To the extent that German bonds are absorbed by Americans, an equal amount of these loans in Berlin might be liquidated, and moreover to that extent the Berlin financial situation would be relieved. The 200,000,000 marks of the German loan is equal to \$47,600,000. It is fair to presume that three-fourths of the loan can readily be placed in London, in which case one-fourth, or \$11,900,000, would probably come to this country, reducing imports of gold in settlement of Europe's indebtedness by that amount. Should the Deutsche Bank succeed in placing a portion of this loan in this country, it is not improbable that France, Russia and perhaps other European countries would likewise seek to enter into similar negotiations, resulting in more harmonious and permanent political and commercial relations and in advantage to our capitalists and financial institutions.

The "Evening Post" of this city directs editorial attention to the fact that the question of the gold standard has recently come up in practical form at the capitals of two States in which silver sentiment has been strong. The reference is to Topeka, Kans., and Memphis, Tenn. In Topeka the city authorities were able to settle the question themselves, and they decided to put out a municipal obligation payable in gold. In Memphis the desire was to issue bonds to extend the water-works system, and legislative permission to that end had to be secured. A bill general in its nature was readily passed, and this provided that the bonds might be made "payable in such money as the legislative council or other governing agency" might determine. But Governor McMillin as a "friend of

silver" felt called upon to veto the measure. He saw in it an intention "to break down the bi-metallic principle and advance the principles of the single standard." The "Post" well says that the result is that the taxpayers will have to pay a higher rate of interest than would otherwise be the case, for there can be no doubt that a gold bond would command a better market price than a currency bond.

The sequel in the Topeka case remains to be told. We have all the facts in our possession. The bonds were sold on a  $3\frac{1}{2}$  per cent basis—that is, the city was able to sell at par a bond bearing only that rate of interest. Moreover, the issue was disposed of at private sale without the need of any circular or printed notice, and of course without advertising the bonds for sale. Mr. Charles S. Elliott, the City Treasurer, in a letter to us, says that "the point that went far toward securing the rate was the fact that they are gold bonds and are said to be the only gold bonds ever issued in the State of Kansas." He also informs us that the sale of the bonds was negotiated by Mr. Edward Wilder, Treasurer of the Atchison Topeka & Santa Fe Railway, who took a personal pride in seeing that the bonds were gold obligations and issued at a low rate. It is many years since Topeka has put out any bonds, so no direct comparisons as to the saving in interest can be made. Yet every municipal bond house will confirm our statement that for a Kansas municipality to be able to place a bond issue on a  $3\frac{1}{2}$  per cent basis is something quite remarkable. Two or three issues of exceptionally good county bonds in Kansas were disposed of last year, but the interest basis in those cases was as high as 4.35 to 4.88 per cent. The credit of Topeka has always been good, and we do not wish to be understood as suggesting that every Kansas municipality can float  $3\frac{1}{2}$  per cent obligations, provided only repayment is stipulated in gold. Still, it is noteworthy that the previously existing bonds of Topeka all bear 5 and 6 per cent interest.

The marvelous activity for which the month of January has been distinguished is strikingly reflected in the totals of bank clearings. The record for December was certainly remarkable, with an aggregate of 7,357 million dollars, but for January the aggregate is over a thousand million dollars larger, being 8,493 millions. The increase over last year in the same month is 41 per cent, and this is after an increase in 1898 over 1897 of 33 per cent. At 8,493 millions the amount compares with 5,942 millions in 1893, which was the best previous January total. It is worth noting that the clearings have been steadily rising month by month since last September, when the aggregate was 5,496 millions, followed by an expansion to 5,929 millions in October, to 6,477 millions in November, to 7,357 millions in December and now to 8,493 millions in January. To be sure, Stock Exchange speculation has played an important part in swelling the volume of clearings, but even outside of New York bank exchanges were 20.4 per cent in excess of January 1898, and the latter in turn had shown an increase of 21.5 per cent over January 1897. It remains true nevertheless that dealings on the Stock Exchange were on a tremendous scale, as set out at length in our article in the QUOTATION SUPPLEMENT to-day.

At the same time the records of mercantile failures show gratifying decreases. Col. W. M. Grosvenor of "Dun's Review" has compiled the figures and has kindly furnished us with an early copy of the same. They are highly interesting. The number of insolvents is reported only 1,019 for 1899, against 1,355 for 1898, 1,621 for 1897, and 1,685 for 1896 while the liabilities foot up only \$7,721,897, against \$10,451,513 for 1898, \$18,359,585 for 1897 and \$21,735,743 for 1896. Col. Grosvenor states that the disasters in January were the smallest in any of the sixty-four months for which records exist, excepting August 1898 and July 1897. Of course rising prices, such as have prevailed even in the mercantile world, tend to diminish the risks of business.

The Norfolk & Western Railway has declared another semi-annual dividend of two per cent on its Adjustment Preferred Stock, and at the same time has issued its income statement for the six months ended December 31, being the first half of the current fiscal year. The results show that with an addition to the gross earnings of \$168,351, expenses were reduced \$23,700, thus bringing an improvement of \$192,051 in the net. The saving in expenses was the result strictly of economy in operations, and more was spent upon maintenance of way and also more upon maintenance of equipment than in the corresponding six months of 1897. The final result, after deducting interest and other charges and allowing for miscellaneous income, shows \$952,859 available for the stock in the six months of 1898, against \$777,049 in the six months of 1897. The two per cent dividend calls for only \$454,682, thus leaving a surplus over and above the dividend in the sum of nearly half a million dollars. Of course the six months to December 31 constitute by far the better half of the year, but it is noteworthy that according to the figures given the whole year's dividends were earned in these six months. The officials of the road take a very hopeful view of the future. They lay great stress upon the increase in traffic to be derived from the starting up of the various idle furnaces along its lines through the organization of the Virginia Iron, Coal & Coke Co., with a capital of \$15,000,000, to which reference was made in the CHRONICLE of last week, page 189.

The Pennsylvania Railroad return for the month of December shows comparatively moderate changes. On the lines east of Pittsburgh and Erie there is an increase of \$119,200 in gross earnings, with an increase of \$38,000 in net, while on the lines west of Pittsburgh and Erie there is \$278,100 decrease in gross with \$196,100 decrease in net. Iron production, which plays such an important part in the prosperity of the road, was on a very large scale, and general trade, as our readers know, was also large and active. The fact therefore that there has been no great response to these favorable conditions in the road's earnings must be taken to reflect largely the unsatisfactory condition of rates. Here is a six-year comparison:

LINES EAST OF PITTSBURG.	1898.	1897.	1896.	1895.	1894.	1893
December.	\$	\$	\$	\$	\$	\$
Gross earnings.....	5,737,004	5,617,804	5,192,801	5,639,604	5,153,789	5,302,845
Operat'g expenses.	4,034,707	3,953,607	3,554,107	3,939,907	3,604,871	3,587,690
Net earnings...	1,702,297	1,664,297	1,638,697	1,699,697	1,548,918	1,715,155
Jan. 1 to Dec. 31.						
Gross earnings.....	65,603,612	64,228,012	62,096,576	64,827,177	58,704,283	66,375,221
Operat'g expenses.	44,943,650	43,691,250	43,592,808	44,044,309	40,363,744	46,896,011
Net earnings...	20,659,962	20,536,762	18,503,768	19,682,868	18,340,539	19,479,208

It will be observed that gross earnings for the twelve months on these Eastern lines increased \$1,380,600 and net earnings \$128,200. On the Western lines there was \$2,164,300 increase in gross with \$687,800 decrease in net.

Money on call, representing bankers' balances, has loaned at 2 per cent and at 3 per cent at the Stock Exchange during the week. The bulk of the business has been at  $2\frac{1}{2}$  per cent and at  $2\frac{1}{2}$  per cent. Loans at 2 per cent have been comparatively few, while those at 3 per cent have been chiefly made late in the day to borrowers who had failed to make earlier provision. As large loans have been daily made at  $2\frac{1}{2}$  per cent, the average for the week has been at about  $2\frac{1}{2}$  per cent. Banks and trust companies quote  $2\frac{1}{2}$  per cent as the minimum, though loans have been made by them nearly every day in fairly large amounts at 3 per cent. Time contracts are freely offered, but lenders are inclined to demand from  $\frac{1}{2}$  of 1 per cent to  $1\frac{1}{2}$  per cent higher than the undermentioned rates for loans in great part or wholly upon industrial collateral. Quotations for loans on good mixed Stock Exchange security are  $2\frac{1}{2}$  per cent for thirty to sixty days and 3 per cent for ninety days to six months. Brokers report the supply of commercial paper good, but at the same time there is an urgent demand, chiefly from out of town. The inquiry from city buyers seems to have somewhat abated. Rates are  $2\frac{1}{2}$  @ 3 per cent for sixty to ninety day endorsed bills receivable,  $3$  @  $3\frac{1}{2}$  per cent for prime, and  $4$  @  $5$  per cent for good four to six months' single names. Banks having large correspondence report continued ease among institutions at the West and Northwest, and some Western banks are offering funds at unusually low rates. For instance it is reported that Wisconsin banks are offering money at 4 per cent on real estate mortgages, and that they find it difficult to make other loans, even at 5 per cent. The movement of money between banks has been again in the direction of this centre this week and the transfers through the Treasury have been small, and chiefly to New Orleans.

The European financial situation seems to be growing easier. There is not the least disturbing political development and the monetary equilibrium appears to have been adjusted, judging from lower discount rates at Berlin, and also from the fact that the Bank of France is more freely meeting the demand for accommodation. The Bank of England minimum rate of discount was reduced on Thursday to 3 per cent from  $3\frac{1}{2}$  per cent, at which it had stood since January 19. The cable reports discounts of sixty to ninety day bank bills in London  $1\frac{1}{2}$  @ 2 per cent. The open market rate at Paris is  $2\frac{1}{2}$  per cent, and at Berlin and Frankfurt it is  $3\frac{1}{2}$  @ 4 per cent. According to our special cable from London, the Bank of England gained £292,123 bullion during the week and held £32,974,894 at the close of the week. Our correspondent further advises us that the gain was due to the import of £126,000 (of which £116,000 was bought in the open market and £10,000 was from Australia), and to receipts of £166,000 net from the interior of Great Britain.

The foreign exchange market has been strong this week, influenced mainly by a demand for remittance for stocks recently bought in London for New York account and which have arrived here during the

week. This inquiry was at first most urgent for cables, but later it seemed to have extended to short sterling, though it is quite possible that this class of exchange was subjected to some manipulation having for its object the marketing of running-off bills. Easy discounts in London were assigned as one reason for the strength of long sterling and at the same time it was reported that commercial bills were comparatively scarce. This statement appeared to be confirmed by brokers who usually handle large lines of commercial drafts, and who reported that the bills now coming forward were mostly deliveries on old contracts, and that drafts against grain and provisions were noticeably small. Concurrently with the rise in sterling there was an advance in Continental exchange, chiefly francs and marks, which were reported to be affected in sympathy with the rest of the market, and also by the easier financial and monetary situation at Paris and at Berlin. It is worthy of note that the buyers of seventy-day sterling early in January, who based their investment operations upon their ability to make contracts at that time for the delivery of sight bills in March at 4 84 $\frac{1}{2}$ , seem to have made no mistake, for they now have a clear profit, at least on paper, of three and a-half cents per pound sterling on their holdings of investment bills, assuming that these were bought at about 4 82 $\frac{1}{2}$ . Some running-off drafts have been marketed this week, but the offerings do not appear to have made much impression upon the tone for sight sterling. Of course the rise in exchange tends effectually to arrest the movement of gold hither from London, which movement was made possible until last week by the low rates for sight sterling. The engagement announced early this week of \$575,000 gold by the Bank of British North America was made last week. It is reported that at least \$1,425,000 more gold has been obtained in London for shipment hither, though the names of the consignees are not given. Imports of gold from Europe this week were \$663,923, and total imports were \$674,489.

The range for nominal rates was from 4 83 $\frac{1}{2}$  to 4 84 for sixty day and from 4 85 $\frac{1}{2}$  to 4 86 for sight until Friday, when 4 84 $\frac{1}{2}$  for the former and 4 86 $\frac{1}{2}$  for the latter were posted by a few drawers. Rates for actual business opened on Monday unchanged, compared with those at the close on Friday of last week, at 4 82 $\frac{1}{2}$  @ 4 83 for long, 4 84 $\frac{1}{2}$  @ 4 85 for short and 4 85 $\frac{1}{2}$  @ 4 85 $\frac{1}{2}$  for cables; the tone was firm though inactive. On the following day the feature was an urgent demand for cables to remit for stocks which had arrived from Europe, and this class of exchange sharply advanced half a cent to 4 85 $\frac{1}{2}$  @ 4 86, while rates for actual business in long and short sterling moved upward one-quarter of a cent to 4 83 @ 4 83 $\frac{1}{2}$  for the former and 4 85 @ 4 85 $\frac{1}{2}$  for the latter. The market was strong and it so continued on Wednesday, when there was a further advance in rates for actual business in long and short sterling of one quarter of a cent, to 4 83 $\frac{1}{2}$  @ 4 83 $\frac{1}{2}$  for the former and 4 85 $\frac{1}{2}$  @ 4 85 $\frac{1}{2}$  for the latter, while cables remained unchanged. On Thursday there was an advance of one quarter of a cent all around in rates for actual business, to 4 83 $\frac{1}{2}$  @ 4 83 $\frac{1}{2}$  for long, 4 85 $\frac{1}{2}$  @ 4 85 $\frac{1}{2}$  for short and 4 86 @ 4 86 $\frac{1}{2}$  for cables, and the market closed firm at the higher figures. The tone was strong again on Friday until toward the close, when it grew easier at a decline in rates for actual

business of one quarter of a cent for long and short. The following shows daily posted rates for exchange by some of the leading drawers:

	FRI. Jan. 27.	MON. Jan. 30.	TUES. Jan. 31.	WED. Feb. 1.	THUR. Feb. 2.	FRI. Feb. 3.

The market closed easier on Friday, with rates for actual business 4 83¼@4 83½ for long, 4 85¼@4 85½ for short and 4 86@4 86½ for cables. Commercial on banks 4 83@4 83½ and documents for payment 4 82½@4 83. Cotton for payment 4 82@4 82½, cotton for acceptance 4 82½@4 83 and grain for payment 4 82½@4 83.

The following statement gives the week's movement of money to and from the interior by New York banks.

Week Ending Feb. 3, 1899	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$8,924,000	\$3,085,000	Gain, \$5,839,000
Gold.....	1,297,000	921,000	Gain, 878,000
Total gold and legal tenders.....	\$8,221,000	\$4,008,000	Gain, \$4,215,000

With the Sub-Treasury operations and gold imports the result is as follows.

Week Ending Feb. 3, 1899.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$8,221,000	\$4,008,000	Gain, \$4,215,000
Sub-Treasury operations.....	25,300,000	24,300,000	Gain, 1,000,000
Total gold and legal tenders.....	\$33,521,000	\$28,308,000	Gain \$5,215,000

Bullion in principal European banks this week:

### THE BILL TO INCREASE THE ARMY.

It will doubtless be remarked by future historians as one of the most curious anomalies of the present period that at the very moment when a conference of European governments was under call, for the purpose of stopping the increase in their standing armies, the United States Congress should be voting upon a bill to double the numbers of its own. There will, on the other hand, be less occasion for surprise to the future student in the fact that Europe received the so-called "disarmament plan" with polite but very obvious skepticism, while the "army reorganization plan" in the American House of Representatives encountered an opposition which eventually forced a compromise robbing the bill of its most characteristic features.

In brief, the original bill, introduced on January 25 by Mr. Hull of the Military Committee, provided authority for an increase in the regularly enlisted army to 100,000, as against 62,000 at the present day. Mr. Hull, while submitting the bill, suggested an amendment authorizing explicitly a minimum force,

in the President's discretion, of 50,000. The bill as proposed at once called forth a vigorous and outspoken opposition. In part this opposition naturally concerned itself with strictures on the colonial policy as a whole, and many of the speeches traversed the ground covered in the recent Senate on Mr. Vest's resolution.

It was, however, apparent from the first that the opposition was resting its case on two other principles: First, disapproval of an increased standing army as necessarily dangerous to republican institutions; and, second, objection to the granting of means to carry out a given policy before that policy was decided upon. The greater stress was laid on the second of these arguments; it was plainly present in the minds of opposition speakers, even when they did not make it the burden of their reasoning. On both sides of the debate this phase of the question led to somewhat unwarranted imputations of purposes and motives. Opposition speakers in one or two cases accused the President of improper assumption of authority over the Filipinos; Administration speakers charged the opponents of the bill with cowardice and lack of patriotism. But these were extreme instances. In the main the debate was confined to a sober and sensible expression of judgment on the policy of granting a permanent increase in the standing army at a time when the purposes of such increase were not formally decided. In the end, Mr. Hull's suggested amendment was adopted in a somewhat altered form. The army's minimum strength was stated at 50,000, but the President was empowered, in his discretion, to increase the organization to a maximum size of 100,000. The vote of last Tuesday on the bill as thus amended was 168 to 125, and was almost strictly a party vote, six Republicans voting with the minority and four Democrats with the majority.

It appears to be quite unanimously agreed that the bill will not pass the present Senate; the House discussion and vote are therefore chiefly useful as indicating popular sentiment in the matter. No conservative observer of the situation can, we think, find fault with the reluctance of legislators to vote a heavily increased standing army until its purposes had been settled; and before these purposes could be legally defined it was necessary, not only that the peace treaty should be ratified, but that the future status both of Cuba and of the Philippines should be decided. The argument that it is easy to increase an army but hard to reduce it, and that an increase except for ascertained purposes would be folly, has undoubted force. The army cost our Government less than \$36,000,000 in 1897; increased to the Hull Bill's maximum, it would cost, by an estimate of the Adjutant-General, fully \$100,000,000. The question of taxation to support this increased armament is not to be ignored. The American history of 1770 and 1776 disposes at once of any suggestion that the colonies (if we have colonies) could be made to share the burden, and the European history of a century later suggests that it is not easy to stop when army expansion as a principle has once been adopted. As a more remote consideration, we have before us not only the traditional dangers of a powerful standing army to representative institutions, but the example of contemporary Germany as to the possible social influence of such an organization, and the example of contemporary France as to its possible political influ-

ence. These considerations, it seems to us, sufficiently warrant the action of the conservative element in Congress.

We do not suppose, however, that an increase in the regular army would be opposed if our policy regarding the Spanish cessions were to be settled, and if it were then to be shown that the policy adopted could not be safely carried into action without such larger armament. The instinctive opposition of the American people to a large standing army is not less strong than that of the English people, with whom the memory of the struggle with Charles I. and with Cromwell's subsequent military dictatorship has always been a controlling principle. Yet England has steadily enlarged its colonial armament along with its colonial acquisitions, and in the last half century has doubled even its standing army on English soil; chiefly, as might be supposed, in the engineer and artillery branches of the service, which could be relied upon for defense against invasion. We may presume with safety that our own Congress will acquiesce similarly in what are proved to be the needs of the situation. But the needs must first be shown, and that can be done only through decision as to the disposition of the Philippines. Until such decision is arrived at, it is quite obvious that the volunteer forces now occupying the Island of Luzon must continue to serve the purpose. Gen. Wood, in his testimony before the Senate Committee last week, estimated that 50,000 American troops will be needed to police and garrison Cuba. But it is obvious that the Government's plans regarding Cuba will have much to do with such estimates, and with the terms on which authority for an increased armament are granted. If this is true regarding Cuba, where the conditions surrounding American occupation are well known, much more is it true regarding the Philippines, whose situation is unknown to us except through the general statements of army commanders and the few reports that reach the people from Manila or Iloilo.

On the whole, the episode of the army reorganization bill seems to us highly creditable to our national legislature and our people. It has proved one very important fact, which of itself goes far to remove the dangers of military or territorial expansion—that our legislators are deliberate and are not disposed to rush blindly into new experiments. Mr. Dolliver, in his recent speech in the army bill debate, contrasted the unanimity of the House in voting the \$50,000,000 defense appropriation last March with its division this year over the question of a colonial policy and an increased army; and he expressed his own regrets at the change from last year's united action. We are not able to sympathize with such regrets. Whatever might be our wish as to the Government's eventual decision in these matters, we are strongly of the belief that a continuance of legislation without a dissenting voice or a vigorous opposition, now that the war emergency is past, would be the most ominous of all developments possible in the situation. It is a fact well worth remembering that the present military Frankenstein was fastened on Continental Europe thirty years ago because no legislator had the courage to oppose a popular policy, urged by a popular minister after a successful war.

There is another reason why the postponement of action on the present bill may be more fortunate than otherwise. In view of recent developments in army affairs, it is believed by the majority of competent

critics that a reorganization of the army, which the Hull Bill professes as its purpose, ought to go further than a mere increase in divisions, officers and enlisted men. It was remarked in the course of the recent debate that two results would inevitably follow the reconstruction of the army on the lines prescribed—a still further division of responsibility and a much greater possible opportunity for promotion by favoritism. Mr. Hull himself in effect admitted these points of weakness, but contended that they were virtually unavoidable. We believe, however, that Gen. Miles and other officers hold a somewhat different opinion. All things considered, we are certainly disposed to think that a more thorough and careful review of this phase of the question is indispensable.

#### CHICAGO & NORTH WESTERN RAILWAY.

A study of the recent income statements of the Chicago & North Western Railway Company reveals anew and in a very impressive way the great strength and splendid earning capacity of this important property. There are few railroad companies in the country, especially of like magnitude, that can show such a gratifying record, both as to the income results and the character and excellence of the management. When we say "excellence of the management" we have reference not only to the safe and conservative way in which the finances of the company over a long period of time have been administered, but also to the intelligence and thoroughness displayed in the operating departments.

The company's fiscal year ends May 31. We have obtained a statement (as has been our custom for so long) for the late calendar year. The figures come to us from a source not open to the general public. The company issues monthly returns of the gross earnings with great promptness and regularity, but the net earnings are reported only in the annual report. Hence this report for an intermediate period is always welcome. The present year it has been looked forward to with especial interest, in view of the rumors affecting the control of the property, unfounded though these rumors may have been. Moreover, the wonderful prosperity which the carrying industry, especially in the part of the country traversed by the North West. lines, is enjoying, makes every one desirous of knowing what the record of this great property may have been in such a period.

Noteworthy results were a foregone conclusion. First, because of the excellent condition and high standard to which the property has been brought; secondly, because of the satisfactory operating results which such a state of things permits; thirdly, because of the conservative policy pursued in the distribution of dividends (the dividends being kept moderate, thus insuring a large surplus which year by year is put back into the property), and, fourthly, because conditions as to crops and general business have been so highly favorable. The company, as we all know, did remarkably well even when traffic conditions were adverse. Hence greatly improved returns follow as a matter of course in times of prosperity. The exhibit in this respect fully meets expectations.

Taking the full twelve months of the calendar year, we find that gross earnings have increased almost four million dollars as compared with the twelve months of the previous calendar year. Such an ample income inclined the management to a liberal policy in

the matter of outlays for renewals and betterments, and hence we note an increase in expenses for the same twelve months of over three million dollars. But, even after these liberal outlays, the showing as to the net is highly gratifying, the total of these net being \$13,038,433, which compares with \$12,136,018 for 1897, with \$10,950,228 for 1896, with \$11,804,827 for 1895, and with but \$9,008,634 for 1894. In the gross the increase of four million dollars in the late year follows larger or smaller increases in each of the three preceding years, so that the total at \$37,496,980 for 1898 contrasts with only \$29,119,362 for 1894. In other words, from the low total of the last-named year there has been an increase of over 8½ million dollars, or not far from 30 per cent.

It will no doubt be supposed that in view of the arrangements now being carried out for refunding the company's debt, under which high-rate bonds are being exchanged for the new issue of 3½ per cents, the company had lower aggregate interest charges to provide for in 1898. But it appears that the amount charged for interest, after providing for offsetting credits for income from investments, has been actually larger for 1898 than for 1897, being reported \$6,297,647 against \$6,140,102. This increased charge will seem all the more strange when we say that the credits for income from investments were \$456,935 against only \$336,790 in 1897. But the explanation is really very simple. In order to secure the exchange of the old bonds for the new bonds, the company had to make an allowance for the difference in interest up to the time of the maturity of the old bonds, and hence we find \$367,782 included in the year's charges, for "interest paid in advance of maturity on bonds taken up and funded into 3½ per cent general mortgage gold bonds of 1897." This is only additional evidence of the company's conservatism and its strict methods of book-keeping.

But even with heavier charges to meet, the showing as to the amount earned for the shareholders is such as can be matched by few other companies. In brief, the call for dividends at the prevailing rates was only about 3½ million dollars. The amount remaining for dividends on the year's operations was over 6½ million dollars. In other words, there is a surplus balance over and above the amount required for all charges and dividends in the sum of more than three million dollars. We have become accustomed to seeing large surpluses in the case of the North Western, but this is the heaviest amount shown in any recent year. Here is a comparison covering 1898, 1897, 1896 and 1895.

Twelve months ending Dec. 31.				
CHIC. & NORTH WEST.	1898.	1897.	1896.	1895.
Miles road end of year.	5,977	5,052	5,031	5,031
Gross earnings.....	\$37,496,980	\$33,571,172	\$32,177,153	\$31,558,629
Expenses.....	24,458,547	21,435,154	21,226,925	19,753,802
Net earnings.....	13,038,433	12,136,018	10,950,228	11,804,827
Charges—				
Int. (less credits)....	6,297,647	6,140,102	6,403,533	6,443,616
Sinking funds.....	202,000	197,260	221,412	325,990
Total.....	6,499,647	6,337,362	6,624,945	6,769,606
Balance for stock ...	6,538,786	5,798,656	4,325,283	5,035,221
Dividends.....	3,521,581	3,519,622	3,517,758	3,125,716
Surplus.....	3,017,205	2,279,034	807,525	1,909,505

†After allowing for a credit of \$244,907 for income from investments in 1895, \$257,909 in 1896 and \$336,790 in 1897.

‡In this we have included \$367,782 interest paid in advance of maturity on bonds taken up and funded into 3½ per cent general mortgage gold bonds of 1897, and have allowed for a credit of \$456,935 for income from investments. 309

Thus the surplus at \$3,017,205 for 1898 compares with \$2,279,034 for 1897 and with only \$807,525 for 1896. It is over a million dollars better even than the surplus for 1895, when dividends were on a smaller scale. The company is giving the shareholders, as already stated, only moderate returns, the common stock getting five per cent, the preferred stock seven per cent. Had it been deemed advisable ten per cent could have been distributed on both classes of stock, and then a balance of about \$400,000 could have been carried forward. In keeping the dividends low, the interests of both the proprietors and the public are promoted. The shareholders are ensured the continuance of their dividends even in times of adversity, and through the appropriation of large surpluses each year for betterments and improvements (which under a different policy would have to be provided for by new bond issues with a resulting increase in charges) the public gets lower rates and better facilities than would otherwise be possible.

As the calendar year covers seven months of the current fiscal year, it is always interesting to take these seven months out and present them separately. We accordingly give the following table, showing the gross and net earnings monthly for each of these seven months for the last three years.

MONTHLY GROSS AND NET EARNINGS.						
CHICAGO & NORTH WEST.	Gross Earnings.			Net Earnings.		
	1898.	1897.	1896.	1898.	1897.	1896.
First 5 mos....	\$14,110,160	\$11,451,402	\$13,583,398	\$4,244,396	\$4,065,807	\$4,027,000
June.....	3,010,842	2,920,887	2,935,937	875,976	1,011,447	818,693
July.....	2,840,104	2,055,787	2,860,307	875,976	858,892	905,008
August.....	3,461,438	3,182,952	2,755,723	1,057,612	1,069,708	890,148
September....	3,627,947	3,571,996	3,848,647	1,615,601	1,458,197	1,120,107
October.....	3,713,561	3,642,046	3,316,887	1,561,741	1,466,291	1,463,413
November....	3,428,983	3,313,030	2,482,806	1,557,496	1,220,720	942,538
December....	3,393,965	2,683,572	2,393,428	1,897,721	855,466	793,321
Total 7 mos....	\$23,386,820	\$22,119,770	\$19,593,755	\$8,794,037	\$8,040,211	\$6,923,228
Total year.	\$37,496,980	\$33,571,172	\$32,176,153	\$13,038,433	\$12,136,018	\$10,950,228

From the foregoing it appears that the total of the gross for the seven months was \$23,386,820 in 1898, against \$22,119,770 in 1897 and \$19,593,755 in 1896, and the net earnings were \$8,794,037, against \$8,040,211 and \$6,923,228 respectively. Apart from the improvement here recorded, all the indications favor the view that the showing for the twelve months ending next May will be better even than that for the late calendar year. In the first place income from the holdings of St. Paul & Omaha shares will be larger. As noted in our issue of January 21 the common stock of that road will get 3½ per cent the present month, against only 2 per cent in February 1898, and this will add \$139,800 to the income of the North Western. In the second place, the spring-wheat crop in the sections traversed by the system is of unusual dimensions, and this promises continuous improvement in earnings. We print on another page the Agricultural Bureau's estimate of the 1898 crops, and from these it will be seen that the wheat yield of the two Dakotas and Minnesota combined is put at 176 million bushels for 1898 against only 109½ million bushels for 1897. The prosperity of the farming interest arising from the abundance of this and other crops, and the excellent foreign demand for the same, is additionally calculated to ensure good returns of earnings, as is likewise the general revival of trade all over the United States and the large demand for iron ore. Altogether the outlook is about as promising as it well could be. In closing, we wish to direct attention to the exhibit for the month of December considered by itself, as

reflecting the tendency at the present moment. Here is the comparison for that month:

December.	1898.	1897.	1896.
Gross earnings.....	\$3,303,965	\$2,693,572	\$2,393,428
Expenses.....	1,906,244	1,928,106	1,600,107
Net earnings.....	\$1,397,721	\$55,466	\$793,321

The interesting fact here is that in this one month gross earnings have increased as compared with the year preceding over \$620,000 and net earnings over \$542,000.

### THE CROPS OF 1898.

The final report of the Agricultural Bureau at Washington on the crops of the country has been much delayed the last two years. The report on the crops of 1898 was not given out until Monday, January 30 of this week. On account of the increased time thus afforded for investigation and revision, the figures it must be supposed are correspondingly more trustworthy.

Certain it is that the estimates on the present occasion (for despite all the care and attention bestowed on the compilations they are necessarily only "estimates," since exact results are from the nature of the case out of the question) accord more closely with the figures and statements of private investigators than is usually the case. As far as the corn harvest and the oats harvest are concerned, there has been comparatively little difference all through the late season. With reference to wheat, however, there has been a wide disparity. This disparity is now removed by the Bureau's adoption of materially higher totals than those with which it had been credited. Here we may remark that the Department has previously put out no estimate of the crop. But the monthly returns of condition always afford material for deductions and inferences, and these returns of condition seemed to authorize a total of less than 600 million bushels as the harvest of the winter-sown and spring-sown wheat combined. But other authorities had no hesitation in declaring that the yield must be put not far this side of 700 million bushels. The Bureau now, after what appears to have been a very painstaking inquiry, places itself in harmony with these earlier but unofficial declarations, and definitely announces a crop of 675 million bushels.

At this total of 675 million bushels, the crop is the very largest ever produced in this country. The previous heaviest production was that of 1891, estimated by the Department at somewhat less than 612 million bushels. It is commonly believed that this last total fell below the facts, but even allowing for an under-estimate of 50 million bushels that would still leave the 1898 aggregate considerably ahead. The corn crop for the late year is placed at 1,924 million bushels, showing a very good though not an unusual yield. The same may be said of the oats crop at 730 million bushels. The addition made to the wheat yield brings the total product of the three crops combined close up to the very highest aggregate of recent years, as may be seen from the following interesting little summary. It will be observed that the total for 1898 was roughly 200 million bushels better than for 1897, and fell only about 100 million bushels short of the exceptionally heavy production in those two noteworthy years 1895 and 1896.

CROPS OF WHEAT, CORN AND OATS.

Total Production.	1898.	1897.	1896.	1895.	1894.
	Bushels.	Bushels.	Bushels.	Bushels.	Bushels.
Corn.....	1,924,184,860	1,902,967,933	2,283,875,165	2,151,138,587	1,812,770,052
Wheat.....	675,149,705	530,149,168	487,684,916	467,102,947	460,267,416
Oats.....	730,905,643	699,767,809	707,340,494	824,443,537	662,086,928
Total.....	3,330,239,008	3,131,884,910	3,418,905,616	3,442,685,071	2,935,124,396

The aggregate production of the three crops is thus 3,330 million bushels for 1898, 3,131 million for 1897, 3,418 million for 1896, 3,442 million for 1895 and only 2,935 million for 1894. In the following we report the yield of each of the three crops back to 1879, and also give a column showing the yearly cotton crop for the same period of time. With reference to this last staple the Bureau has ventured no estimate as yet. Our own views are well known. They were stated in the CHRONICLE of January 14. In our opinion the crop will be a large one, but not equal to that of the previous season.

CROPS OF WHEAT, CORN, OATS AND COTTON SINCE 1878.

Year.	Wheat.	Corn.	Oats.	Cotton.
	Bush.	Bush.	Bush.	Bales.

In considering the bearing and influence of the late year's abundant harvests on the industrial situation, we should not lose sight of the fact that coincidentally farmers have been able to get very good prices for their grain on the farm. In the case of wheat of course the return to the producer, per bushel, has fallen below the large and exceptional returns for the two seasons preceding, but the price has been above what the farmer was able to obtain on the crops of either 1895, 1894 or 1893. Furthermore the demand from abroad has been so good and active that the producer is finding no difficulty in disposing of all his available surplus, notwithstanding, as we have seen, the crop is by far the largest ever raised in this country. As regards corn and oats, farm prices for 1898, according to the Agricultural Bureau, prove to have been better than those for the years immediately preceding. Below we show the Bureau's figures for a series of years. It should be understood that these do not purport to indicate prices at any given point, but are an average of farm prices all over the country on the entire crop. The tables cover besides wheat, corn and oats, some of the other cereals and cotton.

In the wheat figures for the separate States, the two conspicuous features are the great falling off in California, where the crop was an almost total failure, and the very heavy yield in Minnesota and the two Dakotas, the latter bearing out current statements that the spring-wheat crop was the best on record.

In corn the 1898 figures show a considerable decline in Illinois and Nebraska, but improvement in the South and Southwest generally and also in some of the Central Western States.

## TEXAS'S NEW GOVERNOR.

The following letter, eulogizing the new Governor of Texas, comes to us from a correspondent at Austin. We print it because we like to think well and speak well of those high in authority. Every real friend of the State will hail with delight our correspondent's suggestion, that under the new Executive a liberal and enlightened policy in the treatment of vested and corporate interests can be confidently depended on. Texas has suffered much in the past from the fact that those guiding her destinies have pursued a different and altogether short-sighted policy in this respect. We trust our correspondent may not be

mistaken in his forecast as to what may be expected at the hands of the new administration.

Governor Sayers will have to be judged by his acts, not by his words. Hence does it not seem a little strange that (according to the dispatches in the daily papers this week) the Governor should, as one of his first acts, send a message to the Legislature endorsing a recommendation of the Railroad Commission that so-called "excessive" freight charges and also "discrimination" in freight charges be made a felony, and that as an additional penalty the charter of the company whose agents may be guilty of such an offense shall be forfeited. Accepting the newspaper accounts of the bill as correct, is not the measure a harsh one, and is not the Governor making a mistake in championing such a proposal if he is really well disposed towards property interests.

What our correspondent says in his closing paragraph concerning the resources, climate and soil of Texas deserves careful attention. On that point we can endorse every word in his statement. He puts the case none too strongly. The vast and varied resources of that grand commonwealth are the wonder of all those who have had the opportunity to look into the matter. Given fair legislative treatment, so as to attract instead of to repel capital, Texas has a future second to that of no other member of the Union, not excepting the wealthiest of the Eastern States.

AUSTIN, TEXAS, January 25, 1899.

## EDITOR COMMERCIAL &amp; FINANCIAL CHRONICLE:

Some days ago I mailed to you a copy of the inaugural address of Governor Joseph D. Sayers, who was inducted into his seat on the 17th inst. at the State Capitol in this city. His assumption of the gubernatorial functions of the State of Texas marks a new era for this entire commonwealth. He has been a Representative in the National Congress from this State for the past fourteen years, and has been continuously since he took his seat there a member of the Appropriations Committee, and was at one time, during Cleveland's administration, at the head of this most important committee, where he served with great credit and distinction to himself, to his State and the entire nation. He has a national reputation as an economist, and the people can but appreciate a man who handled millions upon millions of dollars of public funds, or rather disbursed them through his office, and yet who left Congress a poorer man than when he entered it without a breath of suspicion resting against his good name.

Governor Joseph D. Sayers is a man who belongs not alone to this State but to the entire Union. His long public service in the halls of the National Congress have identified him with interests much broader than the confines of the State in which he lives and officiates as its chief magistrate. Not only is this true, but it is a truth that is well established abroad, and for this reason it is potent and full of consequences to our citizenship. It is doubtful whether in the past there has been any just complaint at the administration of our affairs, and we were much abused because we were less understood. Now many of the staunchest business men in the United States have come in contact with Governor Sayers, and they know full well that he will not permit their investments to be treated otherwise than domestic interests are treated, and none of the other Governors did less, but they were not personally known to the investors abroad whose minds were warped to some extent by the temper of the times.

Texas securities have gone bounding upward since the Supreme Court's decision in the Mitchell County case validating many millions of dollars worth of county bonds, and since it has been understood that the spirit of confiscation had never had a place among us. It would be a great thing for this State if Governor Sayers' inaugural address could be read by every citizen of the nation who had enough intelligence to understand and appreciate it. The attention of the entire republic is invited to scrutinize it, and the verdict

must be that it is a conservative document full of hope for his constituency, and abounding in many expressions that must give confidence to those seeking homes or investments with us. Relative to the protection of property he says: "Scarcely, if at all, less necessary to the very existence of the social fabric than the protection of life and liberty is that of property. The fruits of industry, skill and enterprise should be held by no uncertain tenure. They should be safe, not only against those acts which the law declares to be felonies and misdemeanors, but also against harsh and improvident legislation. The burdens of government should be fairly and equitably distributed and imposed, and every character of property should be compelled to contribute to the public treasury according to its value. . . . All legislation that directly or indirectly affects property, either as to value or as to title, should be conservative and just, and the rights of ownership, as well as the welfare of society, should be observed. To acquire and hold property lies at the very base of civilization and cannot be impaired without danger to society."

In this is found no words that need excite the suspicion or fear of any one, whether investor or the poorest of the poor. Following this with still other words of wisdom and admonition he closes the succeeding paragraph with these well-timed sentences: "And a similar policy of even and exact justice should be adopted towards those who may invest but not reside with us, putting and keeping them as to their investments on an equal footing with ourselves and dealing with them as with ourselves. By so doing confidence both at home and abroad will become firmly established and the best of other communities will seek homes amongst us, attracted by our genial climate, rich soil, exhaustless resources and splendid citizenship, and bringing with them wealth, thrift and enterprise."

No populistic theories are nursed in the hot-house of his brain, as we plainly see in the following, taken from his address: "Government cannot overstep certain limits without harm to society. Its orbit wherein it may move with wholesome effect is restricted, and its sphere of usefulness has boundaries that are well marked. It cannot till the field nor operate the factory, nor conduct commerce, nor follow the professions. These instrumentalities with all their subdivisions belong to the citizen and should be under his exclusive control, and upon him must devolve the responsibility of their proper use."

It is needless to quote further from this splendid address, for it will be a pleasure to send to interested persons copies of the complete and full printed report of the speech, and from its entire contents they can for themselves learn the attitude of Texas's new Governor to the world. Those of us who spoke for Governor Sayers in his preliminary campaign promised the people that his elevation to the gubernatorial chair should instill into the minds of the people abroad a proper degree of confidence in our abused institutions, and that the welfare of our citizens, with due regard for their best interests, should in no manner be neglected thereby. We feel that a State with such limitless resources, offering such unparalleled inducements for nearly every character of investment known to the commercial world, cannot longer remain hidden from the searching eye of capital, now scrutinizing every nook of this old earth for a place to safely and profitably invest its "fruits of industry, skill, and enterprise."

What other State in the constellation of the Union embraces within its confines such vast and varied resources, climate and soil? The snow lies now upon the ground of its northern and western counties while oranges are hanging ripe from the trees along its coast. Sugar cane grows rank from the alluvial soil of the lower country, while the extreme north produces its millions of bushels of small grain. The eastern portion of the State is covered with a thick growth of fine pine timber and hard woods, while from the Trinity River west to the Rio Grande there is an unbroken prairie, upon whose hills feed untold herds of cattle. The fruits and vegetables and melons of the timbered section grow in such profusion and abundance that they are, like Caesar's wounds, "Poor, poor dumb mouths," crying aloud for the people to preserve them. The vast quantities of cotton, cereals and cattle raised each year in this State, is a matter of statistics and needs no finger to point the fact out. But there are coal mines and silver mines, and oil wells and needed factories and new avenues of investments that the

outside world has not become acquainted with. The vast plains of the West, heretofore an unbroken and boundless pasture, are being pierced with new railroads, telegraph and telephone lines and irrigation ditches. Cow paths are giving way to macadam roads, and the places where the coyote wolf kept his predatory vigil is now the granary of "the man with the hoe." Governor Sayers did well when he gave to the world notice through his address that the title to property in Texas should be held "by no uncertain tenure."

ROBERT R. LOCKETT.

#### ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—A notable event of the week was the sale of 100 shares of Farmers' Loan & Trust Company's stock at auction on Wednesday, at 1,530, against 300 shares sold in December, 1898, at 1,023 to 1,026, and 28 shares sold in July, 1898, at 934, and 1 share sold in May, 1898, at 890. The stock of this company, as well as that of all the large institutions of this character, is held for investment, and it is rarely offered for sale. The dividends are large, and hence even at the high price the stock is desirable for permanent investment.

The payments for duties at the New York Custom-House during January consisted of 78 per cent gold against 80.5 per cent in December. The proportion of gold payments is expected to show a gradual decline, for the reason that the currency receipts of the banks are increasing, as is usual at this season.

—The stockholders of the Franklin National Bank, located at the corner of Dey and Greenwich streets, will at a meeting to be held for that purpose on March 1 act upon the question of voluntary liquidation. This course has been proposed by the officers and directors after mature consideration and for the reason, principally, that the institution is too small successfully to compete with larger and stronger banks in the neighborhood. This situation is made the more embarrassing from the fact that the business in the immediate locality of the Franklin Bank is not sufficiently great to contribute largely to the support of the bank. The surplus of \$50,000 which was paid in at the time of the organization was practically extinguished during the first four years of its existence and though no losses have been incurred since July 1, 1897, when the present administration took charge, it has become evident that to longer continue business without a workable surplus would be undesirable, and hence the decision to liquidate. At the meeting on March 1 a complete statement of the condition of the bank will be submitted and it is quite possible that instead of liquidation two other propositions will be offered and considered—one to seek to form a coalition with some other bank and another to remove to new quarters and continue the business.

The bank was organized March 27, 1893, with a capital of \$200,000 and paid-in surplus of \$50,000. The patrons of the bank were chiefly tradesmen in its immediate vicinity whose individual deposits were not large, and in some cases these averaged as low as \$100. The institution was unsuccessful from the start. On July 1, 1897, Mr. Charles F. James became President. Under his administration the condition of the bank improved; it was managed economically, no new bad debts were made, the deposits were increased, and some of the old debts were collected. Mr. James says that there is no question about the payment of depositors in full, and that whatever dividend will be paid stockholders depends upon the success which will attend the liquidation, and also the ability to dispose of the lease of the bank building, which has four years to run. It is stated that no interest has been paid on deposits other than those of the State; that customers of the bank have paid 6 per cent for whatever accommodation they have obtained, and that no loans have been made on call or on stock collateral except when the institution has been carrying excise or other State funds on which interest was required to be paid.

The bank has a good patronage from business men who need banking facilities and who from their restricted capital and their small deposits would probably find difficulty in obtaining facilities in larger banks. That this class of business men should have banking privileges is conceded; that their patronage is of value is shown by the efforts which large banks are making to establish branch institutions for their accommodation, and to absorb small banks in various parts of the city. There are at least two notable instances

of banks which have been largely successful in caring for the deposits of small tradesmen and of individuals, and there would seem to be room for other banks of the same character. Indeed, if the establishment of branches of downtown banks were permitted by the Federal law, as they now are by the State laws, doubtless banking facilities would rapidly be extended to remote sections of the city, greatly to the convenience of small tradesmen.

**Clearings by Telegraph.—Sales of Stocks, Bonds, &c.**—The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1893 there is an increase in the aggregate of 32.2 per cent. So far as the individual cities are concerned, New York exhibits an increase of 35.0 per cent, and the gains at other points are: Boston 46.7 per cent, Philadelphia 31.5 per cent, Chicago 9.1 per cent, St. Louis 3.3 per cent and Baltimore 27.8 per cent. New Orleans records a loss of 2.4 per cent.

#### DEBT STATEMENT JANUARY 31 1899.

The following statement of the public debt of the United States on January 31 1899 is made up from official figures issued on that day. Further on we give an interesting exhibit of the bonds issued in aid of the Pacific Railroads, and the Treasury cash holdings, all of the same date.

#### INTEREST-BEARING DEBT JAN. 31, 1899.

Title of Loan—	Interest payable.	Amount issued.	Registered.	Amount Outstanding.	Total.
4 1/2's Fund. loan, 1891.	Q.—M.	250,000,000	25,364,500	25,364,500	25,364,500
Continued at 2 p.c.	Q.—J.	740,011,750	491,231,700	68,416,700	559,650,400
4's Funded loan, 1897.	Q.—J.	40,012,750	33,411,550	33,411,550	33,411,550
4's Refund'g certifica's.	Q.—J.	100,000,000	69,558,450	69,558,450	69,558,450
4's Loan of 1904.	Q.—F.	100,000,000	113,077,700	49,235,700	162,315,400
4's Loan of 1905.	Q.—F.	100,000,000	84,985,480	109,207,300	184,192,780

Total, excluding Pacific Railroad Bonds.....\$1,486,432,660 780,219,910 260,303,250 1,040,523,030

NOTE.—The denominations of bonds are as follows: Two per cents (registered only), \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000; 4s of 1907, registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, coupon, \$50, \$100, \$500, \$1,000; 4s, refunding certificates, \$10; 4s of 1904, registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, coupon, \$50, \$100, \$500, \$1,000; 4s of 1905 registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, coupon, \$50, \$100, \$500, \$1,000.

#### DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

	Dec. 31.	Jan. 31.
Funded Loan of 1891, matured September 2, 1891.....	\$117,450.00	\$117,450.00
Old debt matured prior and subsequent to Jan. 1, 1891.....	1,119,750.26	1,119,750.26
Debt on which interest has ceased.....	\$1,237,200.26	\$1,237,200.26

Bonds issued to Pacific railroads matured but not yet presented: Union Pacific, \$84,000; Central Pacific, \$176,000; Western Pacific, \$18,000; Kansas Pacific, \$11,000; Sioux City & Pacific, \$1,000; total.....\$290,000.00

#### DEBT BEARING NO INTEREST.

United States notes.....	\$346,681,016.00
Old demand notes.....	53,907.50
National bank notes—Redemption account.....	\$1,792,003.00
Fractional currency.....	\$15,259,163.14
Less amount estimated as lost or destroyed.....	8,375,934.00
Total.....	\$683,229.14

Aggregate of debt bearing no interest.....\$385,410,245.64

#### RECAPITULATION.

	January 31, 1899.	December 31, 1898.	Increase or Decrease.
Classification of Debt—			
Interest-bearing debt.....	\$1,940,562,030.00	\$1,040,215,980.00	Inc. 840,050.00
Debt, interest ceased.....	1,237,150.26	1,237,200.26	Dec. 50.00
Debt bearing no interest.....	\$385,410,245.64	\$384,487,801.04	Inc. 2,922,444.00
Total gross debt.....	\$1,942,799,425.90	\$1,424,914,081.30	Inc. 5,268,440.00
Cash balance in Treasury.....	\$274,584,975.73	\$264,761,685.42	Dec. 20,180,019.69
Total net debt.....	\$1,152,624,750.17	\$1,159,176,296.48	Inc. 23,448,468.69

The foregoing figures show a gross debt on Jan. 31, 1899, (interest-bearing and non-interest-bearing) of \$1,427,209,425.90 and a net debt (gross debt less net cash in the Treasury) of \$1,152,624,750.17.

#### PACIFIC RAILROAD DEBT.—These bonds are never included in the official total of the Government debt. To show their present status we have made the following compilation:

#### BONDS ISSUED TO PACIFIC RAILROADS—THEIR STATUS FEB. 1, 1899

Name of Railway	Railroad Liability.		Deduct Sinking Fund, &c.	Leaving Liability.	Bonds—Maturity of.	
	Bonds Issued by Gov't.	Net Int. Paid by Gov't.			Past-Due. Unpaid.	Due Jan. 1, 1899.
Central Pacific.....	\$25,845,120	\$36,604,385	\$1,100,458	\$53,389,052	\$17,312,120	\$8,573,000
Western Pacific.....	\$1,970,000	\$4,434,103	.....	\$5,423,663	\$90,000	\$1,610,560
Cent. Rr., U. Pac.....	\$1,600,000	\$2,163,176	.....	\$7,763,176	\$1,600,000	.....
Sioux City & Pac.....	\$1,628,320	\$2,596,213	.....	\$2,824,533	\$1,928,320	.....
Total.....	\$31,043,440	\$44,816,877	\$1,100,458	\$64,800,421	\$20,900,440	\$10,183,560

**TREASURY CASH AND DEMAND LIABILITIES.**—The cash holdings of the Government as the items stood Jan. 31 we take from the Treasury statement of that date. The net cash balance given below is the same as deducted above in reaching the net debt.

## CASH IN THE TREASURY.

Gold—Coin	127,566,745 78	
Bars	174,189,333 04	\$261,692,279 72
Silver—Dollars	408,351,760 00

Total, excluding Pacific Railroad Bonds	1,490,646,480	775,879,530	244,297,390	1,040,215,940
Bonds issued to Pacific Railroad not yet matured: Central Pacific, \$3,328,000; Union Pacific, \$2,700,000; Western Pacific, \$1,640,000				
Total				\$12,064,000

NOTE.—The denominations of bonds are as follows: Two per cent's registered only, \$50, \$100, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, \$100,000, \$500,000, \$1,000,000; 4% of 1897, registered only, \$50, \$100, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, \$100,000, \$500,000, \$1,000,000; 4% of 1892, registered only, \$50, \$100, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, \$100,000, \$500,000, \$1,000,000; 4% of 1898, registered only, \$50, \$100, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, \$100,000, \$500,000, \$1,000,000.

## DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

Funded Loan of 1891, matured September 2, 1891	\$121,300 00	\$117,460 00
Old debt matured prior and subsequent to Jan. 1, '91	1,129,300 25	1,119,730 25

● Debt on which interest has ceased.....\$1,241,630 25 \$1,237,2 0 25

Bonds issued to Pacific Railroad matured but not yet presented: Union Pacific, \$41,000; Central Pacific, \$15,000; Kansas Pacific, \$11,000; Sioux City & Pacific, \$1,000.....= 71,000 00

## DEBT BEARING NO INTEREST.

United States notes	\$346,641,016 00
Old demand notes	83,007 20
National bank notes—Redemption account	28,958,814 00
Fractional currency	\$15,289,988 14
Less amount estimated as lost or destroyed	8,375,984 00
	6,983,974 14

Aggregate of debt bearing no interest.....\$392,497,901 44

## RECAPITULATION.

Classification of Debt	December 31, 1898	November 30, 1898	Increase or Decrease
Interest-bearing debt	1,040,215,940 00	1,036,346,530 00	Inc. 3,869,410 00
Debt, interest ceased	1,237,200 25	1,241,630 25	Dec. 4,430 00
Debt bearing no interest	392,497,901 44	394,213,017 34	Inc. 273,784 00
Total gross debt	1,433,944,981 69	1,431,800,277 59	Inc. 2,144,704 10
Cash balance in Treasury	274,581,675 42	292,876,790 35	Inc. 2,295,085 07
Total net debt	1,159,363,306 27	1,138,923,487 24	Inc. 20,439,819 03

The foregoing figures show a gross debt on Dec. 31, 1898 (interest-bearing and non-interest-bearing) of \$1,423,910,981 90 and a net debt (gross debt less net cash in the Treasury) of \$1,129,176,286 48.

**TREASURY CASH AND DEMAND LIABILITIES.**—The cash holdings of the Government as the items stood Dec. 31 we take from the Treasury statement of that date. The net cash balance given below is the same as deducted above in reaching the net debt.

## CASH IN THE TREASURY.

Gold—Coin	119,654,545 70	
Bars	142,073,969 30	\$261,728,515 04
Silver—Dollars	405,061,136 00	
Subsidiary coin	5,939,342 79	
Bars	92,192,207 44	503,212,554 23
Paper—United States notes	34,795,278 00	
Treasury notes of 1890	1,040,530 00	
Gold certificates	1,028,400 00	
Silver certificates	7,198,509 10	
Certificates of deposit (Act June 8, 1872)	400,000 00

## Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, January 21, 1899.

There is a decidedly better feeling both in Paris and in London this week. The new French Ambassador to London has made a friendly speech which has been received very favorably in this country. On the other hand, Mr. Chamberlain, speaking at the dinner of the Wolverhampton Chamber of Commerce on Wednesday, declared most emphatically that there is no desire in this country to pick a quarrel with France, or to do anything that would in any way be hostile to her. The statement everybody here knows to be true, and it would be little more than a platitude were it not that Mr. Chamberlain is supposed by large numbers of persons to be more Imperialist than his colleagues in general. Indeed, upon the Continent he is accused of being a jingo. That is carrying the matter altogether too far. But it is no doubt true that Mr. Chamberlain has a very high opinion of the rights as well as of the power of the British Empire, and that he is not disposed in any way to brook any infraction of British rights.

As yet negotiations have not been actually opened between the two countries. But it is hoped that before long they will be so. As Mr. Chamberlain said, our Government has made it clear that it will not submit to any annoyance in the Valley of the Nile, and it is hoped that, although the French Government is not prepared to acknowledge the British position in Egypt, yet it is ready to drop all mere annoyances. The two questions that are now serious are those of Newfoundland and Madagascar, but especially that relating to Newfoundland.

Owing to the better feeling that has sprung up French operators have been buying in London this week, especially they have been dealing on a considerable scale in the South African market, in which there has been a very considerable rise. No doubt French operations here are prompted to a large extent by the apprehensions that still exist respecting the internal situation and also by the new Bourse regulations, which exclude the coulisse or outside market from most of the business which it formerly carried on.

Moreover, the impression is growing that the worst of the crisis in Germany is over, and although there are some alarmist rumors current that there will certainly be an outbreak in Macedonia in the spring, rumors to that effect have circulated so often that very little credence is attached to the present one.

In the American department London was a seller at the beginning of the week. A good deal of stock was bought in New York some months ago, and as there has been a considerable rise many of the buyers have been taking their profits. Moreover, there is an impression here that the movement in New York is going too fast. Everybody recognizes the great prosperity of the United States, and nobody doubts that the prosperity will not only continue, but that it will increase. Indeed, all careful observers are convinced that the better times are only at their beginning, and that we are likely to see a great outburst of new enterprise in various directions. Therefore nothing like a serious break is anticipated. But there is a fear here that the rise in prices is being carried too far, and that there must, therefore, be some set-back before long.

At the same time, there are considerable numbers amongst us who think that whatever set-back there may be will be trifling, and that those who buy now are sure to make profits before very long. At every slight decline, therefore, there has been some new buying.

There has likewise been more business done in British railway stocks than for some time. No doubt that is largely due to the payment of the dividends, which are being re-invested and partly perhaps it is due to Continental buying and to the belief that money is likely to be cheap for some time to come.

Trade continues wonderfully active in every direction, especially ship building is going on at an extraordinary rate. All through last year every quarterly return published by Lloyd's Register showed an increase in the number of ships under construction and now orders are still pouring in. An improvement, too, in the woolen trade is looked for, and there are hopes that in spite of the Dingley tariff a better business will be done with the United States. Orders from India are being placed in large numbers in Lancashire, and the news from South America, especially from Argentina, is very favorable. In every direction there are signs of better business, and if the danger of a serious quarrel with France were removed there would, no doubt, be an outburst of new enterprise such as we have not witnessed since 1890.

Early in the week the Imperial Bank of Germany put down its rate of discount from 6 per cent to 5 per cent. Amongst bankers the step is believed to be premature. But it is recognized that the Bank could hardly avoid doing as it has done. Trade is very active in Germany and there is much discontent at the high rates which have ruled so long, especially the discontent is growing amongst the Agrarians, who are very powerful in the German Parliament, and, as it happens, the concession of the Imperial Bank will have to be renewed in the present session. Therefore the Governor is anxious to disarm the opposition of the Agrarians as far as he can. It is quite true that money is now pouring back from the interior to the Imperial Bank and that its position is much stronger than it was last month. But German bankers think that it would have been wiser if the Governor could have done so, to postpone the reduction of the rate until February.

At the same time it is to be noted that the great French banks have stopped withdrawing money from Germany. It is understood that a very considerable amount of American money has been invested in Germany of late, and English bankers are more willing to lend than they were some time ago.

Following the action of the Imperial Bank of Germany, the directors of the Bank of England on Thursday lowered the rate of discount from 4 per cent to 3½ per cent. This was generally expected as soon as the decision of the Imperial Bank of Germany was known. Yet many doubt its wisdom. For the Bank of England is not as strong as it might be, considering all its obligations, and considering especially the danger of large gold withdrawals from so many quarters. No doubt at the moment the directors of the Bank may object that rates have broken away in spite of them. Short loans, for instance, can be obtained in any amount at 1 per cent, and bills have been discounted as low as 2 per cent. But this is a consequence of the immense sums which have always to be paid in interest and dividends in the month of January, and the present ease will not last long. The collection of the revenue is now upon a very great scale. In the course of next month immense sums will be transferred from the open market to the Bank of England, and the Bank can, if it pleases, obtain complete control of the outside market.

Meantime the Indian money market is tightening. But the general impression is that there will be nothing like the stringency of the past two or three years. However that may be, the India Council continues to sell its drafts very successfully. On Wednesday it offered for tender 60 lacs and the applications exceeded 864¼ lacs. The whole amount offered was placed at prices ranging from 1s. 4-3-32d. to 1s. 4½d. per rupee. Subsequently a small amount was sold by special contract at 1s. 4½d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols. &c., compared with the last three years:

	1890. Jan. 18	1898. Jan. 19	1897. Jan. 20	1896. Jan. 22

Messrs. Pixley and Abell write as follows under date of Jan. 19:

Gold—There has been exceedingly little inquiry for gold during the week, and the Bank has received a portion of the arrivals, amounting to £166,000, while £163,000 has been withdrawn for South America. Arrivals: Australia, £36,000; India, £83,000; Cape, £312,000; total, £431,000. Shipments: Bombay, £15,000. For the month of December—Arrivals: Germany, £46,000; France, £84,000. Shipments: Germany, £3,410,000; France, £391,000; U. S. A., £206,000.

Silver—The market rose sharply on a good Chinese demand, but on touching 27½d. gave way on heavy New York sales. Since then there has been a rally, and it now closes steady at 27 9-16d. The Indian price is Rs. 69 per 100 Tola, nominal. Arrivals: New

York, £102,000. Shipments: Bombay, £150,000; Shanghai £66,000; Malta, £5,000; total, £221,000. For the month of December—Arrivals: Germany, £46,000; Belgium, £27,000; France, £137,000. Shipments: Germany, £67,000; Belgium, £313,000; France, £424,000; Russia, £60,000; Spain, £288,000.

Mexican Dollars—These coins are quite nominal and there is nothing doing. Shipments to China: £21,500.

The quotations for bullion are reported as follows:

GOLD.		Jan. 19.	Jan. 12.	SILVER.		Jan. 19.	Jan. 12.

#### Commercial and Miscellaneous News

GOVERNMENT REVENUE AND EXPENDITURES.—Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of January. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the seven months of the fiscal years 1898-99 and 1897-98.

## RECEIPTS AND DISBURSEMENTS (000 omitted.)

000 omitted in all cases.		000 omitted in all cases.	
Receipts 1898-99—	Jan.	Aug.	Sept.
Internal revenue.....	15,300	15,300	15,300
Excise.....	2,000	2,000	2,000
Miscellaneous.....	1,000	1,000	1,000
Total receipts.....	18,300	18,300	18,300
Disbursements 1898-99—	Jan.	Aug.	Sept.
Internal revenue.....	15,300	15,300	15,300
Excise.....	2,000	2,000	2,000
Miscellaneous.....	1,000	1,000	1,000
Total disbursements.....	18,300	18,300	18,300
Balance forward.....	1,000	1,000	1,000
Total.....	19,300	19,300	19,300

\* Deducted from November "Miscellaneous" 1897..... \$18,194,018 00  
 Received from Union Pacific Railroad Purchase..... \$1,549,568 75  
 Uninvested cash in U. P. Sinking Fund..... \$31,715,204 14  
 \* Deducted from December "Miscellaneous" 1897..... \$990,000 00  
 Received from Union Pacific Railroad Purchase..... \$9,338,401 00  
 \* Deducted from January "Miscellaneous" 1898..... \$9,338,401 00  
 Received from Union Pacific Railroad Purchase 1897-98..... \$9,338,401 00

To make the 1897-98 figures conform to the Government statement, the amounts mentioned in above foot-note should be added. We have deducted those items as the purchase money is not revenue, and if included would disturb the comparison with former and future years.

**TREASURY CURRENCY HOLDINGS.**—The following compilation, based on official Government statements indicates the currency holdings of the Treasury on the first of November and December in 1898 and January and February, 1899.

## TREASURY NET HOLDINGS.

	Nov. 1, '98.	Dec. 1, '98.	Jan. 1, '99.	Feb. 1, '99.
Holdings in Sub-Treasuries—				
Net gold coin and bullion.....	239,325,102	241,000,444	240,529,176	238,652,841

**CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO FEBRUARY 1.**—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes January 1, together with the amounts outstanding February 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to February 1.

National Bank Notes—		
Amount outstanding Jan. 1, 1899.....	\$1,727,400	\$243,735,105
Amount issued during Jan.....	2,221,694	493,604
Amount retired during Jan.....		
Amount outstanding Feb. 1, 1899.....		\$243,241,501
Legal Tender Notes—		
Amount on deposit to redeem national bank notes Jan. 1, 1899.....		\$29,719,057
Amount deposited during Jan.....	\$4,110,415	
Am't. released and bank notes retired in Jan.....	1,029,270	2,481,145
Amount on deposit to redeem national bank notes Feb. 1, 1899.....		\$32,300,202

Circulation of National Gold Banks, not included in above, \$82,725.

According to the above the amount of legal tenders on deposit February 1 with the Treasurer of the United States to redeem national bank notes was \$32,300,202. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months.

Deposits by—	Oct. 1.	Nov. 1.	Dec. 1.	Jan. 1.	Feb. 1.
Insolvent banks.....	1,615,570	1,820,511	1,680,194	1,706,158	1,750,543
Liquidating banks.....	6,031,894	6,035,700	6,067,130	6,325,710	8,458,910
Redeemed.....					
Oct. 1874.....	22,603,423	21,944,564	21,020,171	21,597,189	21,960,749
Total.....	30,300,887	29,900,825	28,773,495	29,719,057	32,200,202

\* Act of June 20, 1874, and July 12, 1892.

**BONDS HELD BY NATIONAL BANKS.**—The following interest statement furnished by the Comptroller of the Currency shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on January 31:

Description of Bonds.	U. S. Bonds Held Jan. 31, 1899, to Secure—		
	Public Deposits in Banks.	Bank Circulation.	Total Held.
Currency 6s, Pac. RR.....		\$55,000	\$55,000
5 p. cts., 1894, due 1904.....	\$7,527,000	14,530,400	22,057,400
4 p. cts., funded 1907.....	23,955,100	132,048,050	156,003,150
4 p. cts., 1895, due 1925.....	10,543,500	20,051,150	30,594,650
3 p. cts., funded 1891.....	1,714,500	21,385,900	23,100,400
3 p. cts., '98, due 1908-18.....	29,512,320	48,409,340	77,921,660
Total.....	\$73,052,420	\$236,479,840	\$310,132,260

Redeemable at option of the United States.

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks. There were so held on January 31 \$16,827,600 bonds, making the whole amount at that date in possession of the Government as security for deposits \$90,480,020.

**COINAGE BY UNITED STATES MINTS.**—The following statement, kindly furnished us by the Director of the Mint, shows the coinage at the mints of the United States during the month of January, 1899.

Denominations.	January, 1899.	
	Pieces.	Value.
Double eagles.....	773,100	15,462,000
Eagles.....		
Half eagles.....	514,000	2,570,000
Quarter eagles.....		
Total gold.....	1,287,100	18,032,000
Dollars.....	1,536,000	1,536,000
Half dollars.....	100,000	50,000
Quarter dollars.....	200,000	50,000
Dimes.....	30,000	3,000
Total silver.....	1,872,000	1,642,000
Five-cent nickel.....	444,000	22,200
One-cent bronze.....	939,000	9,390
Total minor.....	1,383,000	31,590
Total coinage.....	4,542,100	19,705,590

**NATIONAL BANKS.**—The following information regarding national banks is from the Treasury Department.

## NATIONAL BANKS ORGANIZED.

5,173.—The Citizens' National Bank of Bedford, Indiana. Capital \$50,000. Archibald C. Voris, President; Joseph R. Voris, Cashier. Certificate issued January 25, 1899.

5,174.—The City National Bank of Buffalo, New York. Capital \$300,000. William C. Cornwell, President; John R. Boag, Cashier. Certificate issued January 26, 1899.

## CORPORATE EXISTENCE OF NATIONAL BANK EXTENDED.

2,408.—The Burgettstown National Bank, Burgettstown, Pennsylvania until January 25, 1910.

## RESUMPTION.

757.—The German National Bank of Pittsburgh, Pennsylvania, which, on November 4, 1898, was declared insolvent and placed in the hands of a receiver, having complied with the conditions imposed by the Comptroller of the Currency precedent to resumption, has been restored to solvency and permitted to re-open its doors for business.

## LIQUIDATION.

3,828.—The California National Bank of San Diego, California. William J. Cook appointed receiver in place of Andrew J. O'Connor, deceased, to take effect November, 29, 1898.

3,177.—The First National Bank of Flushing, Ohio. Henry M. Davies, appointed receiver in place of James W. Delay, to take effect December 7, 1898.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods Jan. 26 and for the week ending for general merchandise Jan. 27; also totals since the beginning of the first week in January.

## FOREIGN IMPORTS AT NEW YORK.

For week.	1899.	1898.	1897.	1896.
Dry Goods.....	\$3,315,400	\$2,721,030	\$2,112,096	\$3,014,466
Gen'l merchandise.....	8,162,156	5,050,700	6,873,753	6,830,059
Total.....	\$11,477,556	\$7,771,730	\$8,985,849	\$9,844,525
Since Jan. 1.				
Dry Goods.....	\$9,711,325	\$9,870,078	\$9,262,763	\$13,141,042
Gen'l merchandise.....	28,787,027	24,383,525	27,708,558	28,117,852
Total 4 weeks.....	\$38,498,352	\$34,253,603	\$36,971,321	\$41,258,894

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 30 and from January 1 to date:

## EXPORTS FROM NEW YORK FOR THE WEEK.

	1899.	1898.	1897.	1896.
For the week.....	\$8,351,610	\$8,050,107	\$7,521,068	\$8,496,366
Prev. reported.....	34,775,988	28,356,627	25,666,467	25,264,757
Total 4 weeks.....	\$43,127,601	\$36,406,734	\$33,187,535	\$33,761,123

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 28 and since January 1, 1899, and for the corresponding periods in 1898 and 1897.

## EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	.....	.....	\$70,922	\$1,828,778
France.....	.....	.....	66,428	66,428
Germany.....	.....	.....	119	185,048
West Indies.....	\$89,300	\$1,425,124	4,448	18,493
Mexico.....	.....	.....	38,753	38,753
South America.....	.....	5,600	16,095	35,974
All other countries.....	.....	.....	4,893	4,893
Total 1899.....	\$89,300	\$1,430,724	\$158,012	\$1,978,360
Total 1898.....	1,195,020	2,520,605	303,116	2,073,319
Total 1897.....	71,940	107,240	49,620	231,140

Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$814,835	\$3,637,375	\$5,199	\$14,364
France.....	157,000	239,450	.....	.....
Germany.....	.....	.....	1,654	23,816
West Indies.....	32,898	78,898	4,936	119,006
Mexico.....	.....	.....	56,602	111,482
South America.....	.....	.....	.....	5,844
All other countries.....	.....	.....	.....	.....
Total 1899.....	\$1,004,733	\$3,955,723	\$88,391	\$274,512
Total 1898.....	926,276	3,770,904	30,804	271,322
Total 1897.....	890,625	3,208,499	54,813	231,596

Of the above imports for the week in 1899 \$2,488 were American gold coin and \$1,153 American silver coin. Of the exports during the same time \$12,500 were American gold coin and \$10,000 were American silver coin.

**Reports of Non-Member Banks.**—The following is the statement of condition of the non-member banks for the week ending Jan. 23, based on averages of the daily results *We omit two ciphers (00) in all cases.*

WALL STREET, FRIDAY, FEB. 3, 1899.—3 P. M.

**The Money Market and Financial Situation.**—We presume that no one who is familiar with recent history of the stock market is surprised that a climax was reached last week when, as we then noted, New York Central sold at 140, St. Paul at 130, Illinois Central at 123, and other stand and shares proportionately high. From these quotations a reaction was due, and, to a limited extent, it has come. The demand from the public outside of Wall Street, while yet good, is less persistent than it was last month. Orders are given with more deliberation, and more frequently with some sort of limitation as to prices. It is a significant fact that the reaction referred to is confined almost exclusively to the market for stocks. There has been almost no decline in railway bonds, and a fractional decline in Government 3s is evidence that there has been more or less speculation in that issue. The general situation is not materially changed. Reports of railway earnings do not so generally show an increase over corresponding periods as they have recently done. This was to be expected, as such comparisons could not always continue favorable. Evidence of increasing ease in the money market abroad is seen in the reduction by the Bank of England of its discount rate from 3 1/2 to 3 per cent.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 per cent. To-day's rates on call were 2 1/2 to 3 per cent. Prime commercial paper quoted 2 1/2 to 3 1/2 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £292,123, and the percentage of reserve to liabilities was 45.40, against 45.90 last week; the discount rate was reduced from 3 1/2 to 3 per cent. The Bank of France shows a decrease of 1,375,000 francs in gold and 1,675,000 francs in silver.

The New York City Clearing-House banks in their statement of Jan. 29 showed an increase in the reserve held of \$7,679,200 and a surplus over the required reserve of \$39,232,025, against \$34,693,675 the previous week.

**Foreign Exchange.**—The foreign exchange market has been firm on a more limited supply of commercial bills and a better inquiry from remitters. Rates have steadily advanced.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 83 1/4 @ 83 1/2; demand, 4 85 1/4 @ 85 1/2; cables, 4 86 @ 86 1/4; prime commercial, sixty days, 4 83 @ 83 1/4; documentary commercial, sixty days, 4 82 1/4 @ 83; grain for payment, 4 82 1/4 @ 83; cotton for payment, 4 82 @ 82 1/4; cotton for acceptance, 4 82 1/4 @ 83.

Posted rates of leading bankers follow:

Feb. 3.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 84 @ 84 1/4	4 86 @ 86 1/2
Prime commercial.....	4 83 @ 83 1/4	.....
Documentary commercial.....	4 82 1/4 @ 83	.....
Paris bankers' (francs).....	5 20 1/2 @ 20 1/2	5 18 1/2 @ 19 1/2
Amsterdam (guilders) bankers.....	39 1/2 @ 40	40 1/2 @ 40 1/2
Frankfort or Bremen (reichmarks) bankers.....	94 1/2 @ 94 1/2	95 1/2 @ 95 1/2

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 premium, selling 75c. per \$1,000 premium; Charleston buying par, selling 1/8 premium; New Orleans, bank, \$1 00 premium; commercial, 50c. @ 75c. discount; Chicago, 10c. per \$1,000 discount; St. Louis, 10c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$8,000 4s, comp., 1925, at 128 1/2 to 129; \$93,000 4s reg., 1925, at 128 1/2; \$9,000 4s, comp., 1907, at 113; \$11,000 4s reg., 1907, at 113 1/2; \$2,000 2s reg., at 99; \$1,000 3s reg., at 107; \$143,500 3s, comp., at 107 to 107 1/2, and \$820 do, (small bonds) at 106 1/2 to 107. The following are the daily closing quotations: for yearly range see seventh page following.

\* This is the price bid at the morning board; no sale was made.

**Coins.**—Following are the current quotations in gold for coins and bullion:

Sovereigns.....	\$4 84 @ \$4 87	Fine Silver bars.....	59 1/2 @ 60
Napoleons.....	3 84 @ 3 87	Five francs.....	93 @ 96
X X Reichmarks.....	4 73 @ 4 76	Mexican dollars.....	47 @ 48
25 Pesetas.....	4 78 @ 4 81	Peruvian soles.....	42 1/2 @ 43 1/2
Spain. Doubloons.....	15 50 @ 15 60	East India silver.....	4 83 @ 4 86
Mex. Doubloons.....	15 50 @ 15 60	U. S. trade dollars.....	55 @ 57
Fine gold bars.....	par @ 1/4 prem.		

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$10,000 Tennessee settlement 3s at 97, \$5,000 Louisiana consol. 4s at 108 1/2, and \$8,000 Virginia fund. debt 2-3s of 1901 at 86 1/2 to 86 1/2.

The market for railway bonds has been generally steady on a volume of business which at the Exchange averaged about \$5,500,000 par value per day. There was an exceptional advance in a few issues on the active list; otherwise fractional advances are about offset by similar declines. Toledo St. Louis & Kansas City trust receipts were conspicuous in an advance of 11 points, Wisconsin Central advanced nearly 8 points, Mobile & Ohio general 4 1/2 points, St. Louis & Iron Mountain 2 1/2 points and Texas & Pacific issues from 2 1/2 to nearly 4 points.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

	Week ending Feb. 3.	Jan. 1 to Feb. 3.
N. Y. Stock Exch.	1899.	1898.
Government bonds.....	\$264,310	\$275,500
State bonds.....	33,000	13,500
R.R. & misc. bonds.....	29,583,800	30,754,400
Total.....	\$294,893,810	\$310,043,400
Stocks—No. shares.....	4,908,446	2,216,589
Par value.....	\$456,967,400	\$13,359,900
Bank shares, par val.....	11,800	800
Total.....	\$468,775,200	\$13,360,700

We add the following daily record of the transactions:

Week ending Feb. 3, 1899.	Shares.	Par value.	Railroad, &c. Bonds.	State Bonds.	U. S. Bonds.
Saturday.....	963,670	\$55,147,150	\$3,032,000		\$56,000
Monday.....	1,037,470	103,926,000	6,191,000	\$5,000	16,000
Tuesday.....	784,169	76,318,950	4,750,000		3,800
Wednesday.....	672,052	65,910,150	4,170,500		180,000
Thursday.....	790,400	77,663,750	5,009,000	6,000	28,000
Friday.....	939,732	90,851,100	4,431,000	18,000	30,500
Total.....	4,956,446	\$456,967,400	\$29,583,500	\$23,000	\$268,820

The sales on the Boston and Philadelphia exchanges were:

Boston.			Philadelphia.		
Listed shares.	Unlisted shares.	Bond sales.	Listed shares.	Unlisted shares.	Bond sales.
Saturday... 43,600	19,471	\$91,900	43,810	40,938	\$114,086
Monday... 94,400	38,165	143,500	89,552	70,904	124,900
Tuesday... 89,710	47,602	159,800	41,914	45,803	148,600
Wednesday... 77,802	18,917	\$92,050	51,942	26,642	177,300
Thursday... 79,947	33,020	300,950	49,917	83,448	150,150
Friday... 65,000	16,000	110,000	44,257	40,038	\$41,200
Total... 449,647	162,165	\$1,081,200	319,831	262,271	\$994,050

**Railroad and Miscellaneous Stocks.**—The stock market has been somewhat irregular through the week, and was especially so to-day. In a few cases prices have advanced and at intervals the market was strong, but the general tendency was to recession. This movement carried many issues down from 3 to 6 points below the high quotations recorded last week, including prominent granger and trunk-line shares. The trans-continental stocks were relatively strong and Great Northern preferred made an exceptional advance of 11 points. Manhattan Elevated declined about 2 points on the announcement that \$15,000,000 of new stock will be issued for the purpose of electrical equipment. Metropolitan Street Railway advanced 2 1/2 points, a large part of which it has retained. Twin City Rapid Transit has continued a prominent feature and advanced over 10 points, closing with a net gain of 7 points within the week and of 29 points since Jan. 1st.

Interest in the miscellaneous list has increased somewhat, and prices in this department have been better maintained than in the railway list. There were wide fluctuations in some cases, Consolidated Gas covering a range of 13 1/2 points and New York Air Brake a range of nearly 15 points.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **IRAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.		Latest Gross Earnings.		Jan. 1 to Latest Date.	
		Week or Mo	1898-9.	1897-8.	1898-9.
Adirondack	November.		\$ 13,690	\$ 14,372	\$ 192,780

from ferries, etc., not given separately. c Includes Des Moines & Kansas City for all periods. d Includes operations of the Chic. Burlington & Northern in both years. e Includes results on A. T. & S. Pa. Gulf Col. & S. Pa. & W. Pacific (old Atlantic & Pacific) and So. Cal. Ry. f Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. g Beginning July, earnings of Memphis Division and Middleborough & Aiken branches are included for both years. A Results on Cin. Lebanon Northern are included from September 1 in both years.

\* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio So. western for both years, but Ohio, Valley and Chicago and for Texas 1898 only. Results on Yazoo Branch excluded after July 1, 1898.

‡ Mexican currency.

§ Covers results of lines directly operated east of Pittsburg.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the third week of January our final statement covers 82 roads and shows 8.45 per cent increase in the aggregate over the same week last year.

3d week of January.	1899.	1898.	Increase.	Decrease.
